9/25/96

Dear Johnny:

I saw John Jackson a couple of days ago. — He has not forgotten about writing you — It's just that politics are heating up really & John is in the thick of it. As you know, I am helping him financially & so stay sort of close. John's opponent is not being very aggressive, so I am hopeful about the outcome of the election (Oct) — Newly elected do not take office until Jan, 97 — Both of us have reason to be interested in this election —

I haven't seen Gary in several weeks. — His folks have been visiting & last weekend was his time with his kids. That is always very special for him —

Recently I have been having problems with the nerves in my feet. Actually I've had the problem for some years, but of late the condition has worsened. I'm seeing the doctor soon. Some 8 or 10 yrs. ago I went to Mayo Clinic in Minnesota ... stayed 4 or 5 days ... had every test

imaginable. In the end they told me it definitely was nerves & that there was nothing specific to do for the condition -- that it might improve, stay the same, or worsen. Sad to say, it has worsened. Hopefully in recent years there has been something new discovered that will help.

I'm about giving up on our Cowboys - I'm usually the faithful fan, but the play has been so unimagined & predictable that I am discouraged - Maybe I'm wrong - I hope so. Maybe the Rangers will give me some - thing to cheer about -

I hope things are going well for you.

Stay Hopeful -

CW Br
