	Alcohol Incident	ALCOHOL
	Sick Person	MEDICAL

Supplement Narrative

On September 22, 2012 at approximately 0115 hours, I was dispatched to the University of Tennessee Emergency Room in response to a request for assistance from the Knoxville Police Department.

Upon arrival, I was met by KPD Investigator P. Tipton, who advised that a male subject had been brought into the emergency room by four unknown male subjects. The unresponsive male appeared to be extremely intoxicated and showed signs of physical and possible sexual assault. Investigator Tipton stated that the male subject was in critical condition.

I contacted dispatch and requested that the on-call investigator be notified.

Investigator Tipton had gathered information from a Mr. John Patrick Carney in the UTER lobby. Mr. Carney indicated to Investigator Tipton that the male subject, identified as Mr. Alexander Broughton, had been transported to the hospital from 1820 Fraternity Park Drive. Investigator Tipton stated that Mr. Carney was not forthcoming with information, but that he eventually admitted to her that Mr. Broughton's condition was caused by "butt-chugging". According to Investigator Tipton, Mr. Carney described "butt-chugging" as inserting a tube into the anus and then funneling an alcoholic beverage rectally. Investigator Tipton stated that she was told that Mr. Broughton had been "butt-chugging" wine at 1820 Fraternity Park Drive.

I contacted Sgt. P. Whaley and requested that officers be sent to 1820 Fraternity Park Drive with KPD to further investigate.

KPD's Forensic Unit arrived at the hospital to collect evidence and take pictures, and was then sent to 1820 Fraternity Park Drive to do the same.

Investigator Tipton was given Sgt. A. O'Neal's contact information to allow for collaboration during this investigation.

Sgt. A. O'Neal, Sgt. P. Whaley, Officer J. Patterson, Officer T. Johnson, Officer C. McCann and Cpl. E. Zaremski all responded to 1820 Fraternity Park Drive to further investigate this incident. A misdemeanor citation and multiple city ordinance citations were issued as a result of this investigation. For further information, see Officer J. Patterson's supplement to this report.

I contacted the UTER to conduct a follow-up on Mr. Broughton at 0600 hours. Hospital staff advised that Mr. Broughton's condition had not changed and that he had been transferred to the Critical Care Unit.
