SUPERIOR COURT FOR THE DISTRICT OF COLUMBIA
UNITED STATES VS. JAMYRA GALLMON

1. On Tuesday, February 10, 2015, Officers with the Metropolitan Police Department's (MPD) Youth Division, Missing Person's Unit, called The Donovan Hotel, 1155 14th Street, Northwest, Washington, D.C., to ascertain if a reported missing person was staying at the hotel. Hotel management confirmed that the missing person, David Messerschmitt, hereinafter referred to as the decedent, was a guest of the hotel staying in Room 400.
2. Hotel management responded to Room 400 to check on the welfare of the decedent, using a master keycard to gain entry. Upon entry, hotel management found the decedent face-down on the floor. He displayed no signs of life. Emergency services were requested. District of Columbia Fire Department units and Officers with MPD's Third District responded. The decedent appeared to have stab wounds to the back and displayed no signs of life. His body remained on scene.
3. Detectives with MPD's Homicide Branch responded to the scene and observed what appeared to be stab wounds to the decedent's back. Blood was seen on the floor and walls of the hotel room, the entry door of the hotel room, and on the body of the decedent. A wallet was on the floor next to the decedent's head with various credit cards strewn about. Additional credit cards and identifying documents were seen throughout the room. Additionally, detectives observed that the decedent had small zip ties, red/orange, neon pink, and yellow in color, that were attached to each other and attached to his fingers. The zip ties appeared to be affixed together into makeshift handcuffs.
4. Detectives secured the room pending the issuance of a District of Columbia Superior Court search warrant. A search warrant was issued and several pieces of evidence were collected. Detectives on scene observed that the decedent's cell phone, known through other sources to be a Samsung Galaxy S4, which he was known to use for email and other online activity, was missing from the room. To date, the decedent's cell phone has not been found in the course of this investigation.
5. An autopsy was later conducted at the District of Columbia Office of the Chief Medical Examiner. Among other injuries, the decedent suffered the following injuries: [1] stab wound to the left side of his chest, approximately 4 inches deep, that went through his heart; [2] stab wound to his right abdomen, approximately 3 inches deep that hit his liver; [3] stab wound to the right groin, approximately 3 inches deep; [4] stab wound to the right upper arm in the shoulder region, approximately 2 ¾ inches deep; [5] stab wound to the upper left back; [6] stab wound to the mid-back area, almost 5 inches in depth, that hit a bone of the spinal column, fractured that bone, and pierced the pleural cavity; and [7] a stab wound to the right

flank, approximately 3 inches in depth. The decedent also suffered numerous incised wounds to his left hand and right pinky finger, consistent with wounds suffered while defending himself. This is not a complete list of the decedent's injuries. The manner of death was determined to be Homicide.

6. Surveillance footage was recovered from The Donovan Hotel. It shows a suspicious individual, later identified through investigation as the defendant, Jamyra Gallmon, wearing dark clothing enter the hotel and walk up the stairwell to the fourth floor. The time on the surveillance video when the defendant enters the hotel is approximately 19:44:10 (7:44 p.m.) on February 9, 2015. The individual in the surveillance footage appears to have a light complexion and at times covers its face. The time frame of the suspicious individual seen in the video is consistent with the time frame that the decedent ceased contact with others via his electronic devices (phone and email). The suspicious individual seen in the video appears to be wearing a dark winter coat, black pants, black shoes, black gloves, and at at least one point, a black mask. It is difficult to determine the sex of the suspicious individual in the video.
7. While processing the scene, detectives observed what appeared to be blood on the door handle of the door on the fourth floor leading to the stairwell. The apparent blood was collected, and was later subjected to testing for the presence of blood and DNA testing. The swab of the apparent blood from the door handle was tested for the presence of blood. It was presumptively positive for the presence of blood. The results of the DNA testing of the door handle swab revealed a female, single source DNA profile.
8. In the course of the investigation, detectives learned that the decedent had and used the email address of dcguy456@gmail.com. Detectives obtained a search warrant for the account associated with dcguy456@gmail.com. A review of the information obtained from the search of dcguy456@gmail.com, showed that the decedent used dcguy456@gmail.com to post on Craigslist. Detectives observed that the decedent posted an advertisement on Craigslist using dcguy456@gmail.com on February 9, 2015, the date of the homicide, soliciting responses from other men.
9. From a review of emails from dcguy456@gmail.com, detectives observed that the decedent had ongoing communication with an individual on Craigslist on February 9, 2015, that begins at approximately 1:58 p.m. on February 9, 2015, and continues intermittently throughout the day until approximately 7:30 p.m. The username of the individual with whom the decedent was communicating by Craigslist on February 9, 2015, appeared as "chrissanchez0906." It appeared that Craigslist user "chrissanchez0906" responded to the decedent's Craigslist post from February 9, 2015. The communication between dcguy456@gmail.com and "chrissanchez0906" on February 9, 2015, included the decedent
