

Dear Nash Parents and Guardians,

We recently experienced an on-campus event involving an individual child's welfare. Please understand that I am constrained by law in what I can tell you about this matter. However, I can tell you that the matter was dealt with swiftly and appropriately.

While the specifics of this matter are of a private nature let me suggest you use this opportunity to help your child understand the importance of communications. Please encourage your children to discuss with you any inappropriate activity they may experience or witness either at school or elsewhere.

I want to assure you that the primary concern of the staff at Nash Elementary is for the safety of all the children so they can learn in a welcoming environment. Understanding the privacy constraints in place If you would like to visit with me individually, please feel free to contact my office at 817-814-9400.

Sincerely,

Blanca Galindo  
Principal
