PLAINTIFFS OMNIBUS CLASS ACTION COMPLAINT (I)

Pursuant to Fed. R. Civ. P. 23, the class representatives in this action bring suit on behalf of themselves and all other similarly situated owners and residents of real property containing defective Chinese manufactured drywall that was designed, manufactured, imported, distributed, delivered, supplied, marketed, inspected, installed, or sold by the Defendants. In order to accomplish an effective class structure, each of the class representatives is pursuing a nationwide class action against the Knauf entities,¹ who are the manufacturers of the drywall located in

¹ Knauf consists of Knauf GIPS KG, Knauf Plasterboard (Tianjin) Co., Ltd., Knauf Plasterboard (Wuhu), Co., Ltd., and Knauf Plasterboard (Dongguan) Co., Ltd. (collectively “Knauf”).

plaintiffs' homes. Subordinate to the national class action, the identified class representatives are participating in subclasses asserting claims against each of their distributors and suppliers (Subclasses 1 - 43); each of their importers, exporters, and brokers (Subclasses 44 - 48); each of their builders and developers (Subclasses 49 - 436); and each of their contractors and installers (Subclasses 437 - 529) for whom they have standing (class and subclass members shall be collectively referred to herein as "Class Members"). Each of the Defendants in this action are liable for damages incurred by Plaintiffs due to their role in the design, manufacture, importing, distributing, delivery, supply, marketing, inspecting, installing, or sale of the defective drywall at issue in this litigation.

JURISDICTION, PARTIES, AND VENUE

1. Original jurisdiction of this Court exists by virtue of 28 U.S.C. §1332(d)(2) and the Class Action Fairness Act ("CAFA"). *See* 28 U.S.C. § 1711, *et. seq.* The Plaintiffs and certain of the Defendants in these actions are citizens of different states and the amounts in controversy in these actions exceed five million dollars (\$5,000,000.00), exclusive of interest and costs.

2. For each subclass, the Court has original jurisdiction under CAFA and/or supplemental jurisdiction under 28 U.S.C. § 1367.

3. Venue in this district satisfies the requirements of 28 U.S.C. §1391(b)(1)-(2) and (c) because Plaintiffs and a significant number of the absent class members reside in this jurisdiction and a substantial amount of the events and occurrences giving rise to these claims occurred in this District, or a substantial part of the property that is the subject of this action is situated in this district. Venue is otherwise appropriate in this district consistent with 28 U.S.C. § 1407 and the June 15, 2009 Transfer Order of the Judicial Panel on Multidistrict Litigation ("JPML"). *See In*

re: Chinese-Manufactured Drywall Products Liability Litigation, 626 F.Supp.2d 1346 (J.P.M.L. Jun. 15, 2009).

FACTS REGARDING PRODUCT DEFECT

2610. Upon information and belief, Defendants' drywall contains gypsum.

2611. In "defective drywall" (such as that designed, manufactured, exported, imported, distributed, delivered, supplied, inspected, installed, marketed, and/or sold by Defendants herein), the gypsum and other components of the product break down and release sulfides and other noxious gases that are then emitted (or "off-gassed") from the drywall.

2612. Sulfides and other noxious gases, such as those emitted from Defendants' drywall, cause corrosion and damage to personal property (such as air conditioning and refrigerator coils, faucets, utensils, electrical wiring, copper, electronic appliances and other metal surfaces and property).

2613. Exposure to sulfide and other noxious gases, such as those emitted from Defendants' drywall, causes personal injury resulting in eye irritation, sore throat and cough, nausea, fatigue, shortness of breath, fluid in the lungs, and/or neurological harm.

2614. As a direct and proximate result of Defendants' actions and omissions, Plaintiffs' and the Class Members' structures, personal property, and bodies have been exposed to Defendants' defective and unfit drywall and the corrosive and harmful effects of the sulfide and other noxious gases being released from Defendants' defective drywall.

2615. Defendants tortiously manufactured, exported, imported, distributed, delivered, supplied, inspected, installed, marketed and/or sold the defective drywall, which was unfit for its intended purpose and unreasonably dangerous in its normal use in that the drywall caused corrosion and damage to personal property in Plaintiffs' and Class Members' homes, residences

or structures and/or caused personal injury resulting in eye irritation, a sore throat and cough, nausea, fatigue, shortness of breath, fluid in the lungs, and/or neurological harm.

2616. Defendants recklessly, wantonly, and/or negligently manufactured, exported, imported, distributed, delivered, supplied, inspected, installed, marketed and/or sold the defective drywall at issue in this litigation.

2617. Defendants recklessly, wantonly and/or negligently implement faulty, procedures for purposes of formulating, preparing, testing, and otherwise ensuring the quality and/or character of the defective drywall at issue in this litigation.

2618. As a direct and proximate result of Defendants' defective and unfit drywall and the corrosive and harmful effects of the sulfide and other noxious gases being released from these products, Plaintiffs and Class Members have suffered, and continue to suffer economic harm and/or personal injury.

2619. As a direct and proximate result of Defendants' defective and unfit drywall and the corrosive and harmful effects of the sulfide and other noxious gases being released from these products, the Plaintiffs and the Class Members have suffered, and continue to suffer damages. These damages include, but are not limited to, costs of inspection; costs and expenses necessary to remedy, replace and remove the defective drywall and other property that has been impacted; lost value or devaluation of their homes, residences or structures and property as a direct result of damage caused to the property and indirect damage resulting from perceived defects to the property, including stigma damages; loss of use and enjoyment of their home and property; and/or damages associated with personal injuries.

2620. As a direct and proximate result of Defendants' defective and unfit drywall and the

corrosive and harmful effects of the sulfide and other noxious gases being released from these products, Plaintiffs and the Class Members have been exposed to toxic gases, suffered personal injury, have been placed at an increased risk of disease, and have need for injunctive relief in the form of repair and remediation of their home, of their home contracts, emergency/corrective notice, environmental testing and monitoring, and/or medical monitoring.

The Contractor/Installer Subclasses (Subclasses 437-529)

2628. The representative Plaintiffs with claims against their contractors/installers, set forth in the attached Schedule “4” (the alignment of Plaintiffs and Defendants is depicted in Schedule 4 for each subclass), assert subclasses pursuant to Rules 23(a), (b)(1), (b)(2), (b)(3) and/or 23(c)(4) of the Federal Rules of Civil Procedure, on behalf of themselves and those similarly situated, against the contractors/installers for whom they have standing. The designated Plaintiffs in Schedule 4 define their subclasses to be as follows:

All owners and residents (past or present) of real property located in the United States containing Knauf’s defective drywall where each of the defendants identified in Schedule 4 was the contractor or installer of the drywall for the property.

2629. The contractor/installer subclasses identified in Schedule 4 are comprised as follows:

General Class Allegations and Exclusions from the Class Definitions

2630. The following Persons shall be excluded from the Class and Subclasses: (1) Defendants and their subsidiaries, affiliates, officers and employees; (2) all Persons who make a timely election to be excluded from the proposed Class; (3) governmental entities; and (4) the judge(s) to whom this case is assigned and any immediate family members thereof.

2631. Upon information and belief, Knauf's defective and unfit drywall was installed in at least hundreds of homes, residences, or other structures owned by Plaintiffs and Class Members. Therefore, the Class and Subclasses are sufficiently numerous such that the joinder of all members of the Class and Subclasses in a single action is impracticable.

2632. There are numerous common questions of law and fact that predominate over any questions affecting only individual members of the Class or Subclasses. Among these common questions of law and fact are the following:

- a. whether Defendants' drywall products that release sulfide and other noxious gases are defective and/or unfit for their intended purpose;
- b. whether Defendants tortiously manufactured, exported, imported, distributed, delivered, supplied, inspected, installed, marketed, and/or sold defective drywall products;
- c. whether Plaintiffs and Class Members are entitled to recover compensatory, exemplary, incidental, consequential, and/or other damages as a result of Defendants' unlawful and tortious conduct; and
- d. whether Plaintiffs and Class Members are entitled to recover injunctive and/or equitable relief as a result of Defendants' unlawful and tortious conduct.

2633. The legal claims of Plaintiffs are typical of the legal claims of other Class Members. Additionally, for each of the subclasses that Plaintiffs seek to participate in, the legal claims of Plaintiffs are typical of the legal claims of other Subclass Members. Plaintiffs have the same legal interests and need for legal remedies as other Class Members and/or Subclass Members.

2634. Plaintiffs are adequate representatives of the Class and Subclasses in which they participate, together with their legal counsel, each will fairly and adequately protect the interests of the Class. Plaintiffs have no known conflict with the Class or Subclasses and are committed to the vigorous prosecution of this action.

2635. The undersigned counsel are competent counsel experienced in class action litigation, mass torts, and complex litigation involving defective and harmful products. Counsel will fairly and adequately protect the interests of the class.

2636. The various claims asserted in this action are certifiable under the provisions of Federal Rules of Civil Procedure 23(b)(1) because prosecuting separate actions by or against individual class members would create a risk of inconsistent or varying adjudications with respect to individual class members that would establish incompatible standards of conduct for the party opposing the class; or adjudications with respect to individual class members that, as a practical matter, would be dispositive of the interests of the other members not parties to the individual adjudications or would substantially impair or impede their ability to protect their interests.

2637. The claims for injunctive relief in this case are certifiable under Fed. R. Civ. P. 23(b)(2). Defendants have acted or refused to act on grounds that apply generally to the class, so

that final injunctive relief is appropriate respecting the class as a whole.

2638. A class action is superior in this case to other methods of dispute resolution. The Class members have an interest in class adjudication rather than individual adjudication because of their overlapping rights. It is highly desirable to concentrate the resolution of these claims in this single forum because it would be difficult and highly unlikely that the affected Class Members would protect their rights on their own without this class action case. Management of the class will be efficient and far superior to the management of individual lawsuits. Accordingly, Plaintiffs' legal claims are properly certified pursuant to Rule 23(b)(3).

2639. The issues particularly common to the class and subclass members' claims, some of which are identified above, are alternatively certifiable pursuant to Fed. R. Civ. P. 23(c)(4), as resolution of these issues would materially advance the litigation, and class resolution of these issues is superior to repeated litigation of these issues in separate trials.

COUNT I
NEGLIGENCE
(Against All Defendants)

2640. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

2641. Defendants owed a duty to Plaintiffs and Class Members to exercise reasonable care in a) designing, b) manufacturing, c) exporting, d) importing, e) distributing, f) delivering, g) supplying, h) inspecting, i) installing, j) marketing, and/or k) selling this drywall, including a duty to adequately warn of their failure to do the same.

2642. Defendants knew or should have known that their wrongful acts and omissions would result in harm and damages in the manner set forth herein.

2643. Defendants breached their duty to exercise reasonable care in the designing,

manufacturing, exporting, importing, distributing, delivering, supplying, inspecting, marketing, and/or selling this drywall.

2644. Defendants likewise breached their duties to Plaintiffs and Class Members by failing to warn about the defective nature of the drywall. Defendants, through the exercise of reasonable care, knew or should have known the nature of the defective drywall and the adverse effects that it could have on the property and bodies of Plaintiffs and Class Members.

2645. Defendants breached their duty to exercise reasonable care to timely remove and/or recall from the market and/or otherwise prevent the continued contact of Plaintiffs and Class Members with the drywall, upon learning it had been sold in an unreasonably dangerous condition.

2646. Given the defect in the Defendants' drywall, Defendants knew or should have known that their product could, and would, cause harm, damages and/or personal injuries to Plaintiffs and Class Members.

2647. As a direct and proximate cause of Defendants' acts and omissions, Plaintiffs and Class Members were harmed and have incurred damages and/or personal injuries as described herein.

COUNT II
NEGLIGENCE PER SE
(Against All Defendants)

2648. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

2649. Defendants owed statutory duties to Plaintiffs and Class Members to exercise reasonable care in a) designing, b) manufacturing, c) exporting, d) importing, e) distributing, f) delivering, g) supplying, h) inspecting, I) marketing, and/or j) selling this drywall.

2650. Defendants breached their statutory duties to the Plaintiffs and Class Members by failing to exercise reasonable care in a) designing, b) manufacturing, c) exporting, d) importing, e)

distributing, f) delivering, g) supplying, h) inspecting, I) marketing, and/or j) selling this drywall.

2651. Defendants likewise breached their statutory duties, including but not limited to those imposed under the International Building Code (“IBC”) and other State and local Building Codes, to Plaintiffs and Class Members by failing to warn about the defective nature of the drywall. For instance, it is specifically alleged that Defendants furnished the drywall in violation of ASTM C 1396/C 1396M-069, and its predecessor(s).

2652. Defendants, through the exercise of reasonable care, knew or should have known the nature of the defective drywall and the adverse effects that it could have on the property and bodies of Plaintiffs and Class Members.

2653. Given the defect in the Defendants’ drywall, Defendants knew or should have known that their product could, and would, cause harm, damages and/or personal injuries to Plaintiffs and Class Members.

2654. As a direct and proximate cause of Defendants’ acts and omissions, Plaintiffs and Class Members were harmed and have incurred damages and/or personal injuries as described herein.

COUNT III
STRICT LIABILITY
(All Defendants)

2655. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

2656. At all times relevant hereto, Defendants were in the business of distributing, delivering, supplying, inspecting, marketing, and/or selling drywall for sale to the general public.

2657. The drywall, including that installed in the homes of Class Members was placed by Defendants in the stream of commerce.

2658. Defendants knew that the subject drywall would be used without inspection for defects

by consumers.

2659. Defendants intended that the drywall reach the ultimate consumers, such as Class Members, and it indeed reached Class Members when it was installed in their homes.

2660. When installed in Class Members' homes, the drywall was in substantially the same condition as it was in when Defendants manufactured, sold, and/or delivered it.

2661. At all times relevant hereto the subject drywall was used in a manner consistent with the uses intended by, or known to Defendants, and in accordance with the Defendants' directions and instructions.

2662. The subject drywall was not misused or altered by any third parties.

2663. The Defendants' drywall was defectively manufactured, designed, inspected, tested, marketed, distributed, and sold.

2664. The design defect was in designing drywall that allowed high levels of sulfur and/or other chemicals to emit through off-gassing.

2665. The manufacturing defect was in improperly selecting, testing, inspecting, mining, making, assembling, and using, gypsum for drywall with levels of sulfur that were too high and emitted various sulfide gases and/or other chemicals through off-gassing.

2666. The drywall was also defective because it was improperly exported, imported, distributed, delivered, supplied, inspected, marketed, and/or sold in a defective condition, as described above.

2667. The Defendants' defective manufacturing, designing, inspecting, testing, marketing, distributing, and selling of the drywall rendered it unsafe and unreasonably dangerous for its intended use and to Class Members.

2668. The drywall is also defective and unreasonably dangerous because Defendants failed to adequately warn and instruct Class Members of the defective design, inspection, testing, manufacturing, marketing, and selling of the drywall.

2669. Class Members were unaware of the unreasonably dangerous propensities and defective condition of the drywall, nor could Class Members, acting as reasonably prudent people discover that Defendants' drywall was defective, as set forth herein, or perceive its danger.

2670. Defendants' defective drywall was much more dangerous and harmful than expected by the average consumer and by Class Members.

2671. Defendants' defective drywall benefit to Class Members, if any, was greatly outweighed by the risk of harm and danger to them.

2672. The defects in the drywall, as well as Defendants' failure to adequately warn Class Members of the defects rendered the drywall unreasonably dangerous and was the direct and proximate cause of damages and/or personal injuries to Class Members.

COUNT IV
BREACH OF EXPRESS AND/OR IMPLIED WARRANTIES
(All Defendants)

2673. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

2674. Defendants and/or their agents were in privity with Plaintiffs and Class Members and/or Plaintiffs and Class Members were foreseeable third party beneficiaries of any warranty.

2675. At the times Defendants utilized, supplied, inspected, and/or sold this drywall for use in structures owned by Plaintiffs and Class Members, Defendants knew, or it was reasonably foreseeable, that the drywall would be installed in structures owned by Plaintiffs and Class Members for use as a building material, and expressly or impliedly warranted the product to be fit for that use.

2676. Defendants placed their drywall products into the stream of commerce in a defective condition and these products were expected to, and did, reach users, handlers, and persons coming into contact with said products without substantial change in the condition in which they were sold.

2677. The drywall was defective and not merchantable because it was unfit for the uses intended or reasonably foreseeable by Defendants; to wit, the installation of the drywall in structures owned by Plaintiffs and Class Members for use as a building material, because it contained defects as set forth herein.

2678. The Defendants breached their warranty because the drywall was not fit and safe for the particular purposes for which the goods were required (to be installed in structures owned by Plaintiffs and Class Members as a building material) due to the defects set forth herein.

2679. Defendants had reasonable and adequate notice of the Plaintiffs' and the Class Members' claims for breach of warranty and failed to cure.

2680. As a direct and proximate cause of Defendants' breach of warranties, Plaintiffs and Class Members have incurred harm and damages and/or personal injuries as described herein.

COUNT V
BREACH OF THE IMPLIED WARRANTY OF FITNESS AND MERCHANTABILITY
PURSUANT TO FLORIDA STATUTES SECTION 718.203
(On Behalf of Plaintiffs Who Own Condominiums in the State of Florida)
(Against Builders Only)

2681. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

2682. Subclass Members who own condominiums in Florida, are owners of condominiums as that term is defined by Florida Statutes section 718.503.

2683. Such Subclass Members, as owners, are entitled to the benefit of the statutory warranties of fitness and merchantability pursuant to Florida Statutes section 718.203.

2684. Each of the builders who are subject to this claim are developers, as defined by Florida Statutes section 718.203(16), as they created condominiums or offered condominiums for sale in the ordinary course of business.

2685. Pursuant to Florida Statutes section 718.203(1)(a-e), each of the builders who are subject to this claim is deemed to have granted Subclass Members, who own condominiums in Florida, an implied warranty of fitness and merchantability for the purposes or uses as follows:

- a. As to each unit, a warranty for 3 years commencing with the completion of the building containing the unit.
- b. As to the personal property that is transferred with, or appurtenant to, each unit, a warranty which is for the same period as that provided by the manufacturer of the personal property, commencing with the date of closing of the purchase or the date of possession of the unit, whichever is earlier.
- c. As to all other improvements for the use of unit owners, a 3 year warranty commencing with the date of completion of the improvements.
- d. As to all other personal property for the use of unit owners, a warranty which shall be the same as that provided by the manufacturer of the personal property.
- e. As to the roof and structural components of a building or other improvements and as to mechanical, electrical, and plumbing elements serving improvements or a building, except mechanical elements serving only one unit, a warranty for a period beginning with the completion of construction of each building or improvement and continuing for 3 years thereafter or 1 year after owners other than the developer obtain control of the association, whichever occurs last, but in no event more than 5 years.

2686. At all times relevant hereto, routine maintenance was performed by Subclass Members and/or the builders who are subject to this claim or by an association controlled by such builders.

2687. At the times the builders who are subject to this claim installed, utilized, supplied, inspected, and/or sold drywall for use in the Subclass Members' homes, the builders knew, or it was reasonably foreseeable, that the drywall would be installed in the Subclass Members' homes for use as a building material, and warranted the product be fit and merchantable for that use.

2688. Defendants' drywall product was placed into the stream of commerce by the builders who are subject to this claim in a defective condition and was expected to, and did, reach users, handlers, and persons coming into contact with said product without substantial change in the condition in which it was sold.

2689. The drywall was defective because it was not fit for the uses intended or reasonably foreseeable by the builders; to wit, the installation of the drywall in Subclass Members' homes for use as a building material, because it contained defects as set forth herein.

2690. The builders who are subject to this claim breached the implied warranty of merchantability and fitness because the drywall was not fit to be installed in Subclass Members' homes as a building material due to the defects set forth herein.

2691. The builders who are subject to this claim had reasonable and adequate notice of the Subclass Members' claims for breach of implied warranty of fitness and merchantability and failed to cure.

2692. As a direct and proximate cause of the builders' breach of the warranties under Florida Statutes section 718.203, Subclass Members have incurred harm and damages and/or personal injuries as described herein.

COUNT VI
BREACH OF THE IMPLIED WARRANTY OF HABITABILITY
(Against Builders Only)

2693. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

2694. The Builder Defendants were in direct contractual privity with their Subclass Members.

2695. The drywall that the Builder Defendants installed in the homes of Subclass Members was placed into the stream of commerce by the Builder Defendants in a defective condition and was expected to, and did, reach users, handlers, and persons coming into contact with said drywall product without substantial change in the condition in which it was sold.

2696. Certain Subclass Members bought their homes containing defective drywall based upon the judgment of the Builder Defendants.

2697. The Builder Defendants breached the implied warranty of habitability because the defective drywall causes Subclass Members homes not be meet ordinary, normal standards reasonably to be expected of living quarters of comparable kind and quality due to the defects set forth herein.

2698. The Builder Defendants had reasonable and adequate notice of the claims of the Subclass Members for breach of implied warranty of habitability and failed to cure.

2699. As a direct and proximate cause of the Builder Defendants' breach of the implied warranty of habitability, Plaintiffs and Subclass Members have incurred harm and damages and/or personal injuries as described herein.

COUNT VII
BREACH OF CONTRACT
(Against Builders Only)

2700. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

2701. As part of the agreements to purchase real properties from the Builder Defendants, for which Subclass Members paid valuable consideration, the Builder Defendants contracted with Subclass Members to construct homes that would be free of defects.

2702. The Builder Defendants materially breached their contracts by providing Subclass Members with defective homes; to wit, the homes contained drywall that is inherently defective because it emits various sulfide and other noxious gases through off-gassing that causes harm and damage as described herein.

2703. As a direct and proximate cause of the Builder Defendants' breach of contract, Plaintiffs and Subclass Members have incurred harm and damages as described herein.

COUNT VIII
VIOLATION OF THE LOUISIANA NEW HOME WARRANTY ACT
(Against Louisiana Builders Only)

2704. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

2705. The Louisiana New Home Warranty Act provides protection to owners of homes against builders in connection with the construction of the homes.

2706. For each applicable subclass, every subclass plaintiff is an "owner," as that term is defined by LSA-R.S. 9:3143(3), who is asserting a claim under the New Home Warranty Act against their "builder," as that term is defined by LSA-R.S. 9:3143(1).

2707. Implicit in every Builder Defendant's building contract is the requirement that the work to be completed be performed in a workmanlike manner that is free from defects in material and workmanship.

2708. Each of the Builders who are subject to this claim violated their duty to use materials that are free from defects. The Knauf drywall used by these Builders is defective for the reasons set forth above.

2709. Given the defect in the Knauf drywall, the Builders knew or should have known that their product could, and would, cause harm, damages and/or personal injuries to Plaintiffs and Class Members.

2710. As a direct and proximate cause of the Builders' acts and omissions, Plaintiffs and Class Members were harmed and have incurred damages and/or personal injuries as described herein.

COUNT IX
REDHIBITION
(By Louisiana Plaintiffs Against All Defendants)

2711. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

2712. The drywall manufactured, distributed and/or sold by Defendants was not reasonably fit for its ordinary and intended purpose.

2713. Defendants are therefore liable to Louisiana Plaintiffs for all damages reasonable in the premises, in accordance with La. Civ. Code art. 2524.

2714. In addition, or in the alternative, the drywall manufactured, distributed and/or sold by Defendants contained redhibitory defects, in that, at the time of delivery, the propensity to emit or off-gas Sulfur compounds and/or other potentially harmful, irritating and/or corrosive substances renders the drywall so useless and/or inconvenient that it must be presumed that Plaintiffs would not have

purchased the drywall had they known of the defect or defects.

2715. In the alternative, the defects are redhibitory in that, while not rendering the drywall totally useless, diminish the drywall's use and/or value to such an extent that it must be presumed that the buyer would have bought it, but for a lesser price.

2716. The Manufacturing Defendants are conclusively presumed to know of the defects in the drywall manufactured by them.

2717. In addition, it is believed and alleged that All Defendants knew of the defects in the drywall at the time the drywall was delivered and/or sold.

2718. Defendants have had numerous opportunities to repair and/or replace the drywall and associated fixtures and/or building components and have failed to do so; in addition, and/or in the alternative, such requests have been, would have been and/or would be futile; Manufacturing Defendants and/or Distributor Defendants are, moreover, deemed to be placed on notice when notice is provided to Builder Defendants (and/or Distributor Defendants); and All Defendants, in addition, or alternatively, had actual knowledge of the problems in the drywall and the need for replacement, remediation and/or repair.

2719. All Defendants are therefore liable to all Louisiana Plaintiffs for a return of the purchase price, (with interest from the time it was paid), reimbursement of the reasonable expenses occasioned by the sale and those incurred for the preservation of the drywall and associated items, for damages, and for reasonable attorneys' fees, in accordance with La. Civ. Code art. 2545.

2720. In the alternative, to the extent that any Distributor Defendant and/or Builder Defendant did not know of the defects in the drywall at the time of delivery and/or sale, those defendants are liable to Louisiana Plaintiffs to repair, remedy or correct the defect; and/or, if unable to

do so, for a return of the purchase price, (with interest from the time it was paid), reimbursement of the reasonable expenses occasioned by the sale, and those expenses incurred for the preservation of the drywall and associated items, in accordance with La. Civ. Code art. 2531.

COUNT X
LOUISIANA PRODUCTS LIABILITY ACT
(Manufacturing Defendants)
(Pleaded in the Alternative Against Distributor Defendants)

2721. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

2722. In addition to any and all damages, attorneys fees and other remedies made available to Louisiana Plaintiffs under the warranty of fitness and/or warranty against redhibitory defects, the Manufacturing Defendants are liable to Louisiana Plaintiffs under the Louisiana Products Liability Act, (“LPLA”), La. R.S. 9:2800.51, *et seq.*

2723. The LPLA is also pleaded in the alternative with respect to any Distributor Defendant who might be considered a “manufacturer” under La. R.S. 9:2800.53(1)(a) (labels or otherwise holds the drywall out as his own), 9:2800.53(1)(b) (exercises control over or influences a characteristic of the drywall causing damage), 9:2800.53(1)(c) (the manufacturer of a product which contains the drywall as a component part), and/or 9:2800.53(1)(d) (a seller of a product of an alien manufacturer where the seller is in the business of importing or distributing the drywall for resale and is the *alter ego* of the alien manufacturer).

2724. The Manufacturing Defendants, upon information and belief, expressly warranted that “the gypsumboards manufactured and sold ... are guaranteed to be free from defects in materials and workmanship.”

2725. The Manufacturing Defendants expressly warranted that “the gypsumboards were

manufactured in accordance to ASTM C36.”

2726. The drywall at issue is, in all cases, unreasonably dangerous by virtue of the unreasonable off-gassing and/or emission of Sulfur compounds and/or other corrosives, toxins and/or irritants, which do not in any way contribute to or enhance the utility of the drywall, yet pose a risk to the wiring, plumbing, appliances, personal property, overall economic value of the property and financial security of the owner, and/or the health of the residents of the property.

2727. At all times pertinent and material hereto, there existed alternative feasible manufacturing processes and/or designs of drywall which perform all of the functions and utility of traditional drywall, without emitting unreasonable levels of Sulfur and/or other toxic and/or corrosive compounds.

2728. At all times pertinent and material hereto, Manufacturing Defendants (and/or Distributer Defendants who may be considered “manufacturers” under the LPLA) knew that their drywall was unreasonably dangerous and/or defective as set forth herein.

2729. In the alternative, Manufacturing Defendants (and/or Distributer Defendants who may be considered “manufacturers” under the LPLA) should have, at all times pertinent and material hereto, known of the unreasonably dangerous and/or defective characteristics and/or conditions, had they reasonably employed then-existing scientific and/or technical knowledge, reasonable testing, and/or other reasonable and then-accepted methods of quality assurance and/or quality control.

2730. Defendants’ drywall is unreasonably dangerous in composition or construction in that, at the time it left Defendant’s control, it deviated in a material way from Defendant’s own specifications or performance standards.

2731. In addition, and in the alternative, Defendants’ drywall is unreasonably dangerous in

design, in that, at the time the drywall left Defendant's control, there existed an alternative design for the product that was capable of preventing Plaintiffs' damage, and the likelihood of causing the plaintiffs' damage and the gravity of that harm outweighed the burden (if any) on the Defendant in adopting such alternative design and the adverse effect (if any) on the utility of the drywall.

2732. In addition, and in the alternative, Defendants' drywall is unreasonably dangerous in that it fails to conform to an express warranty about the product which induced the use of the product and caused damage to Plaintiffs to the extent that the warranty was untrue.

2733. In addition, and in the alternative, Defendants' drywall is unreasonably dangerous due to an inadequate warning, in that, at the time the drywall left Defendant's control, the drywall possessed a characteristic that might cause damage and yet Defendant failed to use reasonable care to provide an adequate warning of such characteristics and/or dangers to users and/or handlers of the drywall.

2734. Defendants are therefore liable to Louisiana Plaintiffs for all damages reasonable in the premises.

COUNT XI
PRIVATE NUISANCE
(All Defendants)

2735. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

2736. The Defendants' tortious or wrongful acts or omissions have caused sulfide gas and/or other chemical leaching into structures owned by Plaintiffs and Class Members which has unreasonably interfered, and continues to interfere, with the Plaintiffs' and Class Members' use and enjoyment of their properties and caused them harm and damage as discussed herein.

2737. Defendants' interference has impaired the rights of Plaintiffs' and Class Members' health, comfort, safety, free use of their property, and/or peaceful enjoyment of their property.

2738. Defendants' invasions were intentional and unreasonable, and/or unintentional but otherwise negligent or reckless.

2739. The interference with Plaintiffs' and Class Members' use of their property caused by Defendants is substantial and is ongoing.

2740. Defendants' private nuisance was the direct, proximate, and foreseeable cause of Plaintiffs' and Class Members' damages, injuries, harm, loss, and increased risk of harm, which they suffered and will continue to suffer.

2741. As a direct and proximate cause of Defendants' creation of a private nuisance, Plaintiffs and Class Members have incurred harm and damages and/or personal injuries as described herein.

COUNT XII
NEGLIGENT DISCHARGE OF A CORROSIVE SUBSTANCE
(All Defendants)

2742. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

2743. Defendants had actual or constructive knowledge of the extremely corrosive and dangerous propensities of the drywall at issue in this litigation.

2744. Notwithstanding their actual or constructive knowledge of the corrosive and dangerous propensities of the drywall, Defendants nevertheless designed, manufactured, imported, distributed, delivered, supplied, marketed, inspected, installed, or sold the drywall for use in the homes or other structures owned by Plaintiffs and class members.

2745. By causing the sale, distribution, delivery, and/or supply of the drywall under these

circumstances, Defendants breached their duty to exercise reasonable care and created a foreseeable zone of risk of injury to Plaintiffs and class members.

2746. Defendants likewise breached their duties to Plaintiffs and Class Members by failing to warn about the corrosive and dangerous propensities of the drywall. Defendants, through the exercise of reasonable care, knew or should have known the nature of the defective drywall and the adverse effects that it could have on the property and bodies of Plaintiffs and Class Members.

2747. Plaintiffs and class members have suffered injuries by virtue of their exposure to the defective drywall at issue in this litigation. Given the defect in the Defendants' drywall, Defendants knew or should have known that their product could, and would, cause harm, damages and/or personal injuries to Plaintiffs and Class Members.

2748. As a direct and proximate result of Defendants' acts and omissions, Plaintiffs and Class Members were harmed and have incurred damages and/or personal injuries as described herein. The injuries sustained by Plaintiffs and Class Members are within the foreseeable zone of risk created by Defendants.

COUNT XIII
UNJUST ENRICHMENT
(All Defendants)

2749. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

2750. Defendants received money as a result of Plaintiffs' and Class Members' purchases of Defendants' defective drywall, or purchases of structures containing this drywall, either directly or through an agent, and Defendants wrongfully accepted and retained these benefits to the detriment of Plaintiffs and Class Members.

2751. Defendants' acceptance and retention of these benefits under the circumstances make it

inequitable and unjust for Defendants to retain the benefit without payment of the value to the Plaintiffs and the Class Members.

2752. Defendants, by the deliberate and tortious conduct complained of herein, have been unjustly enriched in a manner which warrants restitution.

COUNT XIV
VIOLATION OF CONSUMER PROTECTION ACTS
(All Defendants)

2753. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

2754. This is an action for relief under the various Consumer Protection Acts of the jurisdictions in which affected properties are present, including but not limited to, L.SA-R.S. 51:1401, *et seq.* (Louisiana Unfair Trade Practices and Consumer Protection Law); Ala. Code 1975 § 8-19-1, *et seq.* (Alabama Deceptive Trade Practices Act); G.S. § 75-1.1, *et seq.* (North Carolina Consumer Protection Act); F.S. § 501.201, *et seq.* (Florida Deceptive and Unfair Trade Practices Act); Va. Code. Ann. § 59.1-196, *et seq.* (Virginia Consumer Protection Act); Tex. Bus. Com. Code Ann. § 17.41, *et seq.* (Texas Deceptive Trade Practices-Consumer Protection Act); Miss. Code Ann. § 75-24-1, *et seq.* (Mississippi Consumer Protection Act).

2755. The Defendants' acts and omissions as well as their failure to use reasonable care in this matter as alleged in this complaint, including but not limited to, the knowing misrepresentation or failure to disclose the source, affiliation, origin, characteristics, ingredients, standards and quality of defective drywall constitute violation of the provisions of the Consumer Protection Acts of the Relevant States.

2756. Plaintiffs and Class Members have suffered actual damages as a result of Defendants' violation of these Consumer Protection Acts and are entitled to relief.

2757. As a direct and proximate cause of Defendants' violations of the Consumer Protection Acts of the Relevant States, Plaintiffs and Class Members have incurred harm and damages as described herein.

COUNT XV
EQUITABLE AND INJUNCTIVE RELIEF AND MEDICAL MONITORING
(All Defendants)

2758. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

2759. Plaintiffs and the Class Members are without adequate remedy at law, rendering injunctive and other equitable relief appropriate.

2760. Plaintiffs and the Class Members will suffer irreparable harm if the Court does not render the injunctive relief and medical monitoring relief set forth herein, and if defendants are not ordered to recall, buy back, rescind, and/or repair the structures owned by Plaintiffs and Class Members.

2761. Plaintiffs, on behalf of themselves and all others similarly situated, demand injunctive and equitable relief and further, that defendants be ordered to: (1) to buy back or rescind the contracts for Plaintiffs' and Class Members' homes or other structures, or in the alternative, remediate, repair and/or replace the drywall in such structures upon proof by the defendants of the feasibility of such remedy or repair; (2) cease and desist from misrepresenting to the Class and the general public that there is no defect in, or danger associated with, the drywall; (3) institute, at their own cost, a public awareness campaign to alert the Class and general public of the defect and dangers associated with the drywall; and (4) create, fund, and support a medical monitoring program.

2762. Until Defendants' defective drywall has been removed and remediated, Defendants must provide continued environmental and air monitoring in the structures owned by Plaintiffs and Class Members.

2763. Plaintiffs and Class Members have been exposed to greater than normal background levels of sulfides and other hazardous chemicals as a result of exposures to Defendants' defective and unfit drywall and have suffered personal injuries as a result.

2764. The sulfides and other noxious gases which have been released from Defendants drywall and to which Plaintiffs and Class Members have been exposed are proven hazardous, dangerous, or toxic substances.

2765. Plaintiffs' and Class Members' exposures were caused by the Defendant's negligent or otherwise tortious conduct.

2766. Plaintiffs' and Class Members' exposure may lead to serious health problems, diseases, and medical conditions that may be prevented by timely medical diagnosis and treatment.

2767. The method and means for diagnosing the Plaintiffs' and Class Members' potential medical problems are well accepted in the medical and scientific community and will be of great benefit to the Plaintiffs and Class Members by preventing or minimizing health problems that they may encounter as a result of the defective and unfit drywall.

2768. As a proximate result of their exposure to sulfide and other noxious gases from Defendants' defective and unfit drywall, Plaintiffs and Class Members have developed a significantly increased risk of contracting a serious latent disease.

2769. Monitoring procedures exist that make the early detection of any latent disease possible that are different from those normally recommended in the absence of the exposure.

2770. The prescribed monitoring regime is reasonably necessary according to contemporary scientific principles.

DEMAND FOR JURY TRIAL

Plaintiffs, individually and on behalf of the Class and Subclass Members, hereby demand a trial by jury as to all issues so triable as a matter of right.

PRAYER FOR RELIEF

WHEREFORE Plaintiffs, on behalf of themselves and all others similarly situated demand upon Defendants jointly and severally for:

- a. an order certifying the case as a class action;
- b. an order certifying the Class and each of the Subclasses;
- c. an order appointing Plaintiffs as the Class Representatives of the Class;
- d. an order appointing undersigned counsel and their firms as counsel for the Class;
- e. compensatory and statutory damages;
- f. punitive damages as allowed by law;
- g. pre and post-judgment interest as allowed by law;
- h. injunctive relief;
- I. an award of attorneys' fees as allowed by law;
- j. an award of taxable costs; and
- k. any and all such further relief as this Court deems just and proper.

**AMENDED CLASS ACTION
COMPLAINT**

JURY TRIAL DEMAND

PLAINTIFFS’ AMENDED OMNIBUS CLASS ACTION COMPLAINT (II)

Pursuant to Fed. R. Civ. P. 23, the class representatives in this action bring suit on behalf of themselves and all other similarly situated owners and residents of real property containing defective Chinese manufactured drywall that was designed, manufactured, imported, distributed, delivered, supplied, marketed, inspected, installed, or sold by the Defendants. In order to accomplish an effective class structure, each of the class representatives is pursuing a nationwide class action against the manufacturer of the drywall located in plaintiffs’ homes (Classes 1-12). Subordinate to these national class actions, the identified class representatives are participating in subclasses asserting claims against each of their distributors, suppliers, importers, exporters, and brokers (Subclasses 13 - 41); each of their builders and developers (Subclasses 42 - 195); and

each of their contractors and installers (Subclasses 196 - 231) for whom they have standing (class and subclass members shall be collectively referred to herein as “Class Members”). Each of the Defendants in this action are liable for damages incurred by Plaintiffs due to their role in the design, manufacture, importing, distributing, delivery, supply, marketing, inspecting, installing, or sale of the defective drywall at issue in this litigation.

JURISDICTION, PARTIES, AND VENUE

1. Original jurisdiction of this Court exists by virtue of 28 U.S.C. §1332(d)(2) and the Class Action Fairness Act (“CAFA”). *See* 28 U.S.C. § 1711, *et. seq.* The Plaintiffs and certain of the Defendants in these actions are citizens of different states and the amounts in controversy in these actions exceed five million dollars (\$5,000,000.00), exclusive of interest and costs.

2. For each subclass, the Court has original jurisdiction under CAFA and/or supplemental jurisdiction under 28 U.S.C. § 1367.

3. Venue in this district satisfies the requirements of 28 U.S.C. §1391(b)(1)-(2) and (c) because Plaintiffs and a significant number of the absent class members reside in this jurisdiction and a substantial amount of the events and occurrences giving rise to these claims occurred in this District, or a substantial part of the property that is the subject of this action is situated in this district. Venue is otherwise appropriate in this district consistent with 28 U.S.C. § 1407 and the June 15, 2009 Transfer Order of the Judicial Panel on Multidistrict Litigation (“JPML”). *See In re: Chinese-Manufactured Drywall Products Liability Litigation*, 626 F.Supp.2d 1346 (J.P.M.L. Jun. 15, 2009).

FACTS REGARDING PRODUCT DEFECT

741. Upon information and belief, Defendants' drywall contains gypsum.

742. In "defective drywall" (such as that designed, manufactured, exported, imported, distributed, delivered, supplied, inspected, installed, marketed, and/or sold by Defendants herein), the gypsum and other components of the product break down and release sulfides and other noxious gases that are then emitted (or "off-gassed") from the drywall.

743. Sulfides and other noxious gases, such as those emitted from Defendants' drywall, cause corrosion and damage to personal property (such as air conditioning and refrigerator coils,

faucets, utensils, electrical wiring, copper, electronic appliances and other metal surfaces and property).

744. Exposure to sulfide and other noxious gases, such as those emitted from Defendants' drywall, causes personal injury resulting in eye irritation, sore throat and cough, nausea, fatigue, shortness of breath, fluid in the lungs, and/or neurological harm.

745. As a direct and proximate result of Defendants' actions and omissions, Plaintiffs' and the Class Members' structures, personal property, and bodies have been exposed to Defendants' defective and unfit drywall and the corrosive and harmful effects of the sulfide and other noxious gases being released from Defendants' defective drywall.

746. Defendants tortiously manufactured, exported, imported, distributed, delivered, supplied, inspected, installed, marketed and/or sold the defective drywall, which was unfit for its intended purpose and unreasonably dangerous in its normal use in that the drywall caused corrosion and damage to personal property in Plaintiffs' and Class Members' homes, residences or structures and/or caused personal injury resulting in eye irritation, a sore throat and cough, nausea, fatigue, shortness of breath, fluid in the lungs, and/or neurological harm.

747. Defendants recklessly, wantonly, and/or negligently manufactured, exported, imported, distributed, delivered, supplied, inspected, installed, marketed and/or sold the defective drywall at issue in this litigation.

748. Defendants recklessly, wantonly and/or negligently implement faulty, procedures for purposes of formulating, preparing, testing, and otherwise ensuring the quality and/or character of the defective drywall at issue in this litigation.

749. As a direct and proximate result of Defendants' defective and unfit drywall and the

corrosive and harmful effects of the sulfide and other noxious gases being released from these products, Plaintiffs and Class Members have suffered, and continue to suffer economic harm and/or personal injury.

750. As a direct and proximate result of Defendants' defective and unfit drywall and the corrosive and harmful effects of the sulfide and other noxious gases being released from these products, the Plaintiffs and the Class Members have suffered, and continue to suffer damages. These damages include, but are not limited to, costs of inspection; costs and expenses necessary to remedy, replace and remove the defective drywall and other property that has been impacted; lost value or devaluation of their homes, residences or structures and property as a direct result of damage caused to the property and indirect damage resulting from perceived defects to the property, including stigma damages; loss of use and enjoyment of their home and property; and/or damages associated with personal injuries.

751. As a direct and proximate result of Defendants' defective and unfit drywall and the corrosive and harmful effects of the sulfide and other noxious gases being released from these products, Plaintiffs and the Class Members have been exposed to toxic gases, suffered personal injury, have been placed at an increased risk of disease, and have need for injunctive relief in the form of repair and remediation of their home, rescission of their home purchase contracts, the ordering of emergency/corrective notice, the ordering of environmental testing and monitoring, and/or the ordering of medical monitoring.

FACTS REGARDING INVESTORS WHO AIDED AND ABETTED DEFENDANTS

752. J.P. Morgan Chase & Co. ("J.P. Morgan"), and certain other corporations and entities (collectively the "Investing Entities"), engaged in a deliberate and/or reckless course of

conduct designed to aid and abet Defendants in the manufacture, exporting, importing, distribution, delivery, supply, marketing, and/or sale of the defective drywall at issue in this litigation.

753. By information and belief, but for these investments by the Investing Entities, Defendants would not have been able to manufacture, export, import, distribute, deliver, supply, market, and/or sell of the defective drywall at issue in this litigation.

754. The Investing Entities were aware or should have been aware that Defendants were manufacturing, exporting, importing, distributing, delivering, supplying, marketing, and/or selling the defective drywall at issue in this litigation in a manner that would make it difficult for injured consumers (located in the United States) to accomplish service on the foreign defendants.

755. Notwithstanding their apparent knowledge and/or negligent failure to discover the tortious scheme by the foreign defendants, the Investing Entities purposefully made investments with these foreign defendants in a manner that was designed to shield them from liability to American property owners.

756. For instance, J.P. Morgan acquired a 12.3% interest in China National Building Materials Co. Ltd.'s ("CNBM") tradeable shares with the understanding that this entity would profit from its exploitation of homeowners seeking to rebuild their lives after the devastation of hurricanes Rita and Katrina. Because CNBM holds a controlling stake in BNBM, this type of investment was ideal to the Investing Entities since these investments could be very profitable while avoiding the risk of loss where the foreign defendants can avoid the service of process by American consumers and responsibility for their tortious conduct.

757. Other entities that are known to own an interest in CNBM are Atlantis Investment

Management Ltd., Schroder Investment Management Limited, Baillie Gifford & Co., Callander Alex, Menzies Robin, Plowden Charles, Telfer Andrew, Warden Alison, Whitley Sarah, and Government of Singapore Investment Corporation Pte Ltd.

758. Entities that are known to own an interest in BNBM are China Construction Bank, Cha Genlou, Industrial and Commercial Bank of China, Aerospace Science & Technology Finance Co., Ltd., China Social Insurance Fund Portfolio 108, Bank of China, Agricultural Bank of China, Zhongrong International Trust Co., Ltd.

759. By investing in entities such as CNBM and BNBM, the Investing Entities put themselves in a position to profit from the exploitation of American Consumers who were injured by Defendants.

760. Accordingly, the Investing Entities engaged in a course of conduct, individually and/or collectively, that caused the Plaintiffs' and Class Members' exposure to the defective drywall at issue in this litigation by virtue of their interdependent conscious parallel conduct in investing in foreign entities responsible for the manufacture, exporting, importing, distribution, delivery, supply, inspection, marketing, and/or sale of the defective drywall.

761. Additional discovery will reveal the full role and responsibility of the Investing Entities for the damages incurred by Plaintiffs and Class Members and their potential as party defendants.

CLASS ACTION ALLEGATIONS

The Manufacturing Classes (Classes 1, 7, 9 and 11)

762. The representative Plaintiffs with claims against the manufacturing defendants set forth in the attached Schedule "1" (the alignment of Plaintiffs and Defendants is depicted in

Schedule 1 for each class), assert classes pursuant to Rules 23(a), (b)(1), (b)(2), (b)(3) and/or 23(c)(4) of the Federal Rules of Civil Procedure, on behalf of themselves and those similarly situated, against the manufacturing defendants for whom they have standing. The designated Plaintiffs in Schedule 1 define their classes to be as follows:

All owners and residents (past or present) of real property located in the United States containing defective Chinese drywall manufactured, sold, distributed, and/or supplied by each manufacturing defendant identified in Schedule 1.

763. The Manufacturing Defendant classes identified in Schedule 1 are comprised as follows:

- Class #1: Beijing New Building Materials Public Limited Co.
- Class #7: Pingyi Zhongxing Paper-Faced Plasterboard Co., Ltd. f/k/a Shandong Chenxiang Building Materials Co., Ltd.
- Class #9: Qinhuangdao Taishan Building Materials Co., Ltd. a/k/a Qinhuang Dao Taishan Building Materials Co., Ltd.
- Class #11: Taishan

The Unascertainable Manufacturing Defendant Classes
(Classes 2-6, 8, 10 and 12)

764. The representative Plaintiffs with claims against the unascertainable manufacturing defendants set forth in the attached Schedule "1" (the alignment of Plaintiffs and Defendants is depicted in Schedule 1 for each class), assert classes pursuant to Rules 23(a), (b)(1), (b)(2), (b)(3) and/or 23(c)(4) of the Federal Rules of Civil Procedure, on behalf of themselves and those similarly situated, against the unascertainable manufacturing defendants for whom they have standing. The designated Plaintiffs in Schedule 1 define their classes to be as follows:

All owners and residents (past or present) of real property located in

the United States containing defective Chinese drywall that was manufactured, sold, distributed, supplied, marketed, inspected, imported, exported, brokered, or delivered by each unascertainable manufacturing defendant identified in Schedule 1.

765. The Unascertainable Manufacturing Defendant classes identified in Schedule 1 are comprised as follows:

Class #2: Gridmarx
Class #3: Gypsum Board
Class #4: IMT
Class #5: Pabco
Class #6: Panel Rey
Class #8: Pro Wall
Class #10: Shamrock Gold
Class #12: USB

The Distributor/Supplier/Importer/Exporter/Broker Subclasses (Subclasses 13-41)

766. The representative Plaintiffs with claims against their distributors/suppliers, set forth in the attached Schedule "2" (the alignment of Plaintiffs and Defendants is depicted in Schedule 2 for each subclass), assert subclasses pursuant to Rules 23(a), (b)(1), (b)(2), (b)(3) and/or 23(c)(4) of the Federal Rules of Civil Procedure, on behalf of themselves and those similarly situated, against the distributors/suppliers for whom they have standing. The designated Plaintiffs in Schedule 2 define their subclasses to be as follows:

All owners and residents (past or present) of real property located in the United States containing defective Chinese drywall that was sold, distributed, supplied, marketed, inspected, imported, exported, brokered, or delivered by each defendant identified in Schedule 2.

767. The Distributor/Supplier/Importer/Exporter/Broker subclasses identified in Schedule 2 are comprised as follows:

The Contractor/Installer Subclasses (Subclasses 196-231)

770. The representative Plaintiffs with claims against their contractors/installers, set forth in the attached Schedule “4” (the alignment of Plaintiffs and Defendants is depicted in Schedule 4 for each subclass), assert subclasses pursuant to Rules 23(a), (b)(1), (b)(2), (b)(3) and/or 23(c)(4) of the Federal Rules of Civil Procedure, on behalf of themselves and those similarly situated, against the contractors/installers for whom they have standing. The designated Plaintiffs in Schedule 4 define their subclasses to be as follows:

All owners and residents (past or present) of real property located in the United States containing defective Chinese drywall where each of the defendants identified in Schedule 4 was the contractor or installer of the drywall for the property.

771. The contractor/installer subclasses identified in Schedule 4 are comprised as follows:

General Class Allegations and Exclusions from the Class Definitions

772. The following Persons shall be excluded from the Class and Subclasses: (1) Defendants and their subsidiaries, affiliates, officers and employees; (2) all Persons who make a timely election to be excluded from the proposed Class; (3) governmental entities; and (4) the judge(s) to whom this case is assigned and any immediate family members thereof.

773. Upon information and belief, the defective and unfit drywall in Plaintiffs' homes or other structures was installed in at least hundreds of homes, residences, or other structures owned by Plaintiffs and Class Members. Therefore, the Classes and Subclasses are sufficiently numerous such that the joinder of all members of the Classes and Subclasses in a single action is impracticable.

774. There are numerous common questions of law and fact that predominate over any questions affecting only individual members of the Classes and/or Subclasses. Among these common questions of law and fact are the following:

- a. whether Defendants' drywall products that release sulfide and other noxious gases are defective and/or unfit for their intended purpose;
- b. whether Defendants tortiously manufactured, exported, imported, distributed, delivered, supplied, inspected, installed, marketed, and/or sold defective drywall products;
- c. whether Plaintiffs are entitled to recover compensatory, exemplary, incidental, consequential, and/or other damages as a result of Defendants' unlawful and tortious conduct; and

- d. whether Plaintiffs are entitled to recover injunctive and/or equitable relief as a result of Defendants' unlawful and tortious conduct.

775. The legal claims of named Plaintiffs are typical of the legal claims of other Class and Subclass Members. Additionally, for each of the subclasses that named Plaintiffs seek to participate in, the legal claims of the named Plaintiffs are typical of the legal claims of other Subclass Members. Named Plaintiffs have the same legal interests and need for legal remedies as other Class and/or Subclass Members.

776. Named Plaintiffs are adequate representatives of the Class and Subclasses in which they participate, together with their legal counsel, each will fairly and adequately protect the interests of Class and Subclass Members. Named Plaintiffs have no known conflict with the Class or Subclasses and are committed to the vigorous prosecution of this action.

777. The undersigned counsel are competent counsel experienced in class action litigation, mass torts, and complex litigation involving defective and harmful products. Counsel will fairly and adequately protect the interests of the Classes and/or Subclasses.

778. The various claims asserted in this action are certifiable under the provisions of Federal Rules of Civil Procedure 23(b)(1) because prosecuting separate actions by or against individual Class and/or Subclass members would create a risk of inconsistent or varying adjudications with respect to individual Class and Subclass members that would establish incompatible standards of conduct for the party opposing the Class and Subclass; or adjudications with respect to individual Class and Subclass members that, as a practical matter, would be dispositive of the interests of the other Class and Subclass members not parties to the individual adjudications or would substantially impair or impede their ability to protect their interests.

779. The claims for injunctive relief in this case are certifiable under Fed. R. Civ. P. 23(b)(2). Defendants have acted or refused to act on grounds that apply generally to the Class and/or Subclass, so that final injunctive relief is appropriate respecting the Class and/or Subclass as a whole.

780. A class action is superior in this case to other methods of dispute resolution. The Class and Subclass members have an interest in class adjudication rather than individual adjudication because of their overlapping rights. It is highly desirable to concentrate the resolution of these claims in this single forum because it would be difficult and highly unlikely that the affected Class and Subclass Members would protect their rights on their own without this class action case. Management of the class will be efficient and far superior to the management of individual lawsuits. Accordingly, Plaintiffs' legal claims are properly certified pursuant to Rule 23(b)(3).

781. The issues particularly common to the Class and Subclass members' claims, some of which are identified above, are alternatively certifiable pursuant to Fed. R. Civ. P. 23(c)(4), as resolution of these issues would materially advance the litigation, and class resolution of these issues is superior to repeated litigation of these issues in separate trials.

COUNT I
NEGLIGENCE
(Against All Defendants)

782. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

783. Defendants owed a duty to Plaintiffs and Class Members to exercise reasonable care in a) designing, b) manufacturing, c) exporting, d) importing, e) distributing, f) delivering, g) supplying, h) inspecting, i) installing, j) marketing, and/or k) selling this drywall, including a duty

to adequately warn of their failure to do the same.

784. Defendants knew or should have known that their wrongful acts and omissions would result in harm and damages in the manner set forth herein.

785. Defendants breached their duty to exercise reasonable care in the designing, manufacturing, exporting, importing, distributing, delivering, supplying, inspecting, marketing, and/or selling this drywall.

786. Defendants likewise breached their duties to Plaintiffs and Class Members by failing to warn about the defective nature of the drywall. Defendants, through the exercise of reasonable care, knew or should have known the nature of the defective drywall and the adverse effects that it could have on the property and bodies of Plaintiffs and Class Members.

787. Defendants breached their duty to exercise reasonable care to timely remove and/or recall from the market and/or otherwise prevent the continued contact of Plaintiffs and Class Members with the drywall, upon learning it had been sold in an unreasonably dangerous condition.

788. Given the defect in the Defendants' drywall, Defendants knew or should have known that their product could, and would, cause harm, damages and/or personal injuries to Plaintiffs and Class Members.

789. As a direct and proximate cause of Defendants' acts and omissions, Plaintiffs and Class Members were harmed and have incurred damages and/or personal injuries as described herein.

COUNT II
NEGLIGENCE PER SE
(Against All Defendants)

790. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

791. Defendants owed statutory duties to Plaintiffs and Class Members to exercise reasonable

care in a) designing, b) manufacturing, c) exporting, d) importing, e) distributing, f) delivering, g) supplying, h) inspecting, I) marketing, and/or j) selling this drywall.

792. Defendants breached their statutory duties to the Plaintiffs and Class Members by failing to exercise reasonable care in a) designing, b) manufacturing, c) exporting, d) importing, e) distributing, f) delivering, g) supplying, h) inspecting, I) marketing, and/or j) selling this drywall.

793. Defendants likewise breached their statutory duties, including but not limited to those imposed under the International Building Code (“IBC”) and other State and local Building Codes, to Plaintiffs and Class Members by failing to warn about the defective nature of the drywall. For instance, it is specifically alleged that Defendants furnished the drywall in violation of ASTM C 1396/C 1396M-069, and its predecessor(s).

794. Defendants, through the exercise of reasonable care, knew or should have known the nature of the defective drywall and the adverse effects that it could have on the property and bodies of Plaintiffs and Class Members.

795. Given the defect in the Defendants’ drywall, Defendants knew or should have known that their product could, and would, cause harm, damages and/or personal injuries to Plaintiffs and Class Members.

796. As a direct and proximate cause of Defendants’ acts and omissions, Plaintiffs and Class Members were harmed and have incurred damages and/or personal injuries as described herein.

COUNT III
STRICT LIABILITY
(All Defendants)

797. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

798. At all times relevant hereto, Defendants were in the business of distributing, delivering,

supplying, inspecting, marketing, and/or selling drywall for sale to the general public.

799. The drywall, including that installed in the homes of Class Members was placed by Defendants in the stream of commerce.

800. Defendants knew that the subject drywall would be used without inspection for defects by consumers.

801. Defendants intended that the drywall reach the ultimate consumers, such as Class Members, and it indeed reached Class Members when it was installed in their homes.

802. When installed in Class Members' homes, the drywall was in substantially the same condition as it was in when Defendants manufactured, sold, and/or delivered it.

803. At all times relevant hereto the subject drywall was used in a manner consistent with the uses intended by, or known to Defendants, and in accordance with the Defendants' directions and instructions.

804. The subject drywall was not misused or altered by any third parties.

805. The Defendants' drywall was defectively manufactured, designed, inspected, tested, marketed, distributed, and sold.

806. The design defect was in designing drywall that allowed high levels of sulfur and/or other chemicals to emit through off-gassing.

807. The manufacturing defect was in improperly selecting, testing, inspecting, mining, making, assembling, and using, gypsum for drywall with levels of sulfur that were too high and emitted various sulfide gases and/or other chemicals through off-gassing.

808. The drywall was also defective because it was improperly exported, imported, distributed, delivered, supplied, inspected, marketed, and/or sold in a defective condition, as described

above.

809. The Defendants' defective manufacturing, designing, inspecting, testing, marketing, distributing, and selling of the drywall rendered it unsafe and unreasonably dangerous for its intended use and to Class Members.

810. The drywall is also defective and unreasonably dangerous because Defendants failed to adequately warn and instruct Class Members of the defective design, inspection, testing, manufacturing, marketing, and selling of the drywall.

811. Class Members were unaware of the unreasonably dangerous propensities and defective condition of the drywall, nor could Class Members, acting as reasonably prudent people discover that Defendants' drywall was defective, as set forth herein, or perceive its danger.

812. Defendants' defective drywall was much more dangerous and harmful than expected by the average consumer and by Class Members.

813. Defendants' defective drywall benefit to Class Members, if any, was greatly outweighed by the risk of harm and danger to them.

814. The defects in the drywall, as well as Defendants' failure to adequately warn Class Members of the defects rendered the drywall unreasonably dangerous and was the direct and proximate cause of damages and/or personal injuries to Class Members.

COUNT IV
BREACH OF EXPRESS AND/OR IMPLIED WARRANTIES
(All Defendants)

815. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

816. Defendants and/or their agents were in privity with Plaintiffs and Class Members and/or Plaintiffs and Class Members were foreseeable third party beneficiaries of any warranty.

817. At the times Defendants utilized, supplied, inspected, and/or sold this drywall for use in structures owned by Plaintiffs and Class Members, Defendants knew, or it was reasonably foreseeable, that the drywall would be installed in structures owned by Plaintiffs and Class Members for use as a building material, and expressly or impliedly warranted the product to be fit for that use.

818. Defendants placed their drywall products into the stream of commerce in a defective condition and these products were expected to, and did, reach users, handlers, and persons coming into contact with said products without substantial change in the condition in which they were sold.

819. The drywall was defective and not merchantable because it was unfit for the uses intended or reasonably foreseeable by Defendants; to wit, the installation of the drywall in structures owned by Plaintiffs and Class Members for use as a building material, because it contained defects as set forth herein.

820. The Defendants breached their warranty because the drywall was not fit and safe for the particular purposes for which the goods were required (to be installed in structures owned by Plaintiffs and Class Members as a building material) due to the defects set forth herein.

821. Defendants had reasonable and adequate notice of the Plaintiffs' and the Class Members' claims for breach of warranty and failed to cure.

822. As a direct and proximate cause of Defendants' breach of warranties, Plaintiffs and Class Members have incurred harm and damages and/or personal injuries as described herein.

COUNT V
BREACH OF THE IMPLIED WARRANTY OF FITNESS AND MERCHANTABILITY
PURSUANT TO FLORIDA STATUTES SECTION 718.203
(On Behalf of Plaintiffs Who Own Condominiums in the State of Florida)
(Against Builders Only)

823. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

824. Subclass Members who own condominiums in Florida, are owners of condominiums as that term is defined by Florida Statutes section 718.503.

825. Such Subclass Members, as owners, are entitled to the benefit of the statutory warranties of fitness and merchantability pursuant to Florida Statutes section 718.203.

826. Each of the builders who are subject to this claim are developers, as defined by Florida Statutes section 718.203(16), as they created condominiums or offered condominiums for sale in the ordinary course of business.

827. Pursuant to Florida Statutes section 718.203(1)(a-e), each of the builders who are subject to this claim is deemed to have granted Subclass Members, who own condominiums in Florida, an implied warranty of fitness and merchantability for the purposes or uses as follows:

- a. As to each unit, a warranty for 3 years commencing with the completion of the building containing the unit.
- b. As to the personal property that is transferred with, or appurtenant to, each unit, a warranty which is for the same period as that provided by the manufacturer of the personal property, commencing with the date of closing of the purchase or the date of possession of the unit, whichever is earlier.
- c. As to all other improvements for the use of unit owners, a 3 year warranty commencing with the date of completion of the improvements.
- d. As to all other personal property for the use of unit owners, a warranty which shall be the same as that provided by the manufacturer of the personal property.
- e. As to the roof and structural components of a building or other improvements and as to mechanical, electrical, and plumbing elements serving improvements or a

building, except mechanical elements serving only one unit, a warranty for a period beginning with the completion of construction of each building or improvement and continuing for 3 years thereafter or 1 year after owners other than the developer obtain control of the association, whichever occurs last, but in no event more than 5 years.

828. At all times relevant hereto, routine maintenance was performed by Subclass Members and/or the builders who are subject to this claim or by an association controlled by such builders.

829. At the times the builders who are subject to this claim installed, utilized, supplied, inspected, and/or sold drywall for use in the Subclass Members' homes, the builders knew, or it was reasonably foreseeable, that the drywall would be installed in the Subclass Members' homes for use as a building material, and warranted the product be fit and merchantable for that use.

830. Defendants' drywall product was placed into the stream of commerce by the builders who are subject to this claim in a defective condition and was expected to, and did, reach users, handlers, and persons coming into contact with said product without substantial change in the condition in which it was sold.

831. The drywall was defective because it was not fit for the uses intended or reasonably foreseeable by the builders; to wit, the installation of the drywall in Subclass Members' homes for use as a building material, because it contained defects as set forth herein.

832. The builders who are subject to this claim breached the implied warranty of merchantability and fitness because the drywall was not fit to be installed in Subclass Members' homes as a building material due to the defects set forth herein.

833. The builders who are subject to this claim had reasonable and adequate notice of the Subclass Members' claims for breach of implied warranty of fitness and merchantability and failed to cure.

834. As a direct and proximate cause of the builders' breach of the warranties under Florida Statutes section 718.203, Subclass Members have incurred harm and damages and/or personal injuries as described herein.

COUNT VI
BREACH OF THE IMPLIED WARRANTY OF HABITABILITY
(Against Builders Only)

835. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

836. The Builder Defendants were in direct contractual privity with their Subclass Members.

837. The drywall that the Builder Defendants installed in the homes of Subclass Members was placed into the stream of commerce by the Builder Defendants in a defective condition and was expected to, and did, reach users, handlers, and persons coming into contact with said drywall product without substantial change in the condition in which it was sold.

838. Certain Subclass Members bought their homes containing defective drywall based upon the judgment of the Builder Defendants.

839. The Builder Defendants breached the implied warranty of habitability because the defective drywall causes Subclass Members homes not be meet ordinary, normal standards reasonably to be expected of living quarters of comparable kind and quality due to the defects set forth herein.

840. The Builder Defendants had reasonable and adequate notice of the claims of the Subclass Members for breach of implied warranty of habitability and failed to cure.

841. As a direct and proximate cause of the Builder Defendants' breach of the implied warranty of habitability, Plaintiffs and Subclass Members have incurred harm and damages and/or personal injuries as described herein.

COUNT VII
BREACH OF CONTRACT
(Against Builders Only)

842. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

843. As part of the agreements to purchase real properties from the Builder Defendants, for which Subclass Members paid valuable consideration, the Builder Defendants contracted with Subclass Members to construct homes that would be free of defects.

844. The Builder Defendants materially breached their contracts by providing Subclass Members with defective homes; to wit, the homes contained drywall that is inherently defective because it emits various sulfide and other noxious gases through off-gassing that causes harm and damage as described herein.

845. As a direct and proximate cause of the Builder Defendants' breach of contract, Plaintiffs and Subclass Members have incurred harm and damages as described herein.

COUNT VIII
VIOLATION OF THE LOUISIANA NEW HOME WARRANTY ACT
(on Behalf of Plaintiffs Who Own Homes in the State of Louisiana)
(Against Louisiana Builders Only)

846. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

847. The Louisiana New Home Warranty Act provides protection to owners of homes against builders in connection with the construction of the homes.

848. For each applicable subclass, every subclass plaintiff is an "owner," as that term is defined by LSA-R.S. 9:3143(3), who is asserting a claim under the New Home Warranty Act against their "builder," as that term is defined by LSA-R.S. 9:3143(1).

849. Implicit in every Builder Defendant's building contract is the requirement that the work to be completed be performed in a workmanlike manner that is free from defects in material and workmanship.

850. Each of the Builders who are subject to this claim violated their duty to use materials that are free from defects. The drywall used by these Builders is defective for the reasons set forth above.

851. Given the defect in the drywall, the Builders knew or should have known that their product could, and would, cause harm, damages and/or personal injuries to Plaintiffs and Class Members.

852. As a direct and proximate cause of the Builders' acts and omissions, Plaintiffs and Class Members were harmed and have incurred damages and/or personal injuries as described herein.

COUNT IX
REDHIBITION
(By Louisiana Plaintiffs Against All Defendants)

853. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

854. The drywall manufactured, distributed and/or sold by Defendants was not reasonably fit for its ordinary and intended purpose.

855. Defendants are therefore liable to Louisiana Plaintiffs for all damages reasonable in the premises, in accordance with La. Civ. Code art. 2524.

856. In addition, or in the alternative, the drywall manufactured, distributed and/or sold by Defendants contained redhibitory defects, in that, at the time of delivery, the propensity to emit or off-gas Sulfur compounds and/or other potentially harmful, irritating and/or corrosive substances renders the drywall so useless and/or inconvenient that it must be presumed that Plaintiffs would not have purchased the drywall had they known of the defect or defects.

857. In the alternative, the defects are redhibitory in that, while not rendering the drywall totally useless, diminish the drywall's use and/or value to such an extent that it must be presumed that

the buyer would have bought it, but for a lesser price.

858. The Manufacturing Defendants are conclusively presumed to know of the defects in the drywall manufactured by them.

859. In addition, it is believed and alleged that All Defendants knew of the defects in the drywall at the time the drywall was delivered and/or sold.

860. Defendants have had numerous opportunities to repair and/or replace the drywall and associated fixtures and/or building components and have failed to do so; in addition, and/or in the alternative, such requests have been, would have been and/or would be futile; Manufacturing Defendants and/or Distributor Defendants are, moreover, deemed to be placed on notice when notice is provided to Builder Defendants (and/or Distributor Defendants); and All Defendants, in addition, or alternatively, had actual knowledge of the problems in the drywall and the need for replacement, remediation and/or repair.

861. All Defendants are therefore liable to all Louisiana Plaintiffs for a return of the purchase price, (with interest from the time it was paid), reimbursement of the reasonable expenses occasioned by the sale and those incurred for the preservation of the drywall and associated items, for damages, and for reasonable attorneys' fees, in accordance with La. Civ. Code art. 2545.

862. In the alternative, to the extent that any Distributor Defendant and/or Builder Defendant did not know of the defects in the drywall at the time of delivery and/or sale, those defendants are liable to Louisiana Plaintiffs to repair, remedy or correct the defect; and/or, if unable to do so, for a return of the purchase price, (with interest from the time it was paid), reimbursement of the reasonable expenses occasioned by the sale, and those expenses incurred for the preservation of the drywall and associated items, in accordance with La. Civ. Code art. 2531.

COUNT X
LOUISIANA PRODUCTS LIABILITY ACT
(Manufacturing Defendants)
(Pleaded in the Alternative Against Distributor Defendants)

863. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

864. In addition to any and all damages, attorneys fees and other remedies made available to Louisiana Plaintiffs under the warranty of fitness and/or warranty against redhibitory defects, the Manufacturing Defendants are liable to Louisiana Plaintiffs under the Louisiana Products Liability Act, (“LPLA”), La. R.S. 9:2800.51, *et seq.*

865. The LPLA is also pleaded in the alternative with respect to any Distributor Defendant who might be considered a “manufacturer” under La. R.S. 9:2800.53(1)(a) (labels or otherwise holds the drywall out as his own), 9:2800.53(1)(b) (exercises control over or influences a characteristic of the drywall causing damage), 9:2800.53(1)(c) (the manufacturer of a product which contains the drywall as a component part), and/or 9:2800.53(1)(d) (a seller of a product of an alien manufacturer where the seller is in the business of importing or distributing the drywall for resale and is the *alter ego* of the alien manufacturer).

866. The Manufacturing Defendants, upon information and belief, expressly warranted that “the gypsumboards manufactured and sold ... are guaranteed to be free from defects in materials and workmanship.”

867. The Manufacturing Defendants expressly warranted that “the gypsumboards were manufactured in accordance to ASTM C36.”

868. The drywall at issue is, in all cases, unreasonably dangerous by virtue of the unreasonable off-gassing and/or emission of Sulfer compounds and/or other corrosives, toxins and/or

irritants, which do not in any way contribute to or enhance the utility of the drywall, yet pose a risk to the wiring, plumbing, appliances, personal property, overall economic value of the property and financial security of the owner, and/or the health of the residents of the property.

869. At all times pertinent and material hereto, there existed alternative feasible manufacturing processes and/or designs of drywall which perform all of the functions and utility of traditional drywall, without emitting unreasonable levels of Sulfur and/or other toxic and/or corrosive compounds.

870. At all times pertinent and material hereto, Manufacturing Defendants (and/or Distributer Defendants who may be considered “manufacturers” under the LPLA) knew that their drywall was unreasonably dangerous and/or defective as set forth herein.

871. In the alternative, Manufacturing Defendants (and/or Distributer Defendants who may be considered “manufacturers” under the LPLA) should have, at all times pertinent and material hereto, known of the unreasonably dangerous and/or defective characteristics and/or conditions, had they reasonably employed then-existing scientific and/or technical knowledge, reasonable testing, and/or other reasonable and then-accepted methods of quality assurance and/or quality control.

872. Defendants’ drywall is unreasonably dangerous in composition or construction in that, at the time it left Defendant’s control, it deviated in a material way from Defendant’s own specifications or performance standards.

873. In addition, and in the alternative, Defendants’ drywall is unreasonably dangerous in design, in that, at the time the drywall left Defendant’s control, there existed an alternative design for the product that was capable of preventing Plaintiffs’ damage, and the likelihood of causing the plaintiffs’ damage and the gravity of that harm outweighed the burden (if any) on the Defendant in

adopting such alternative design and the adverse effect (if any) on the utility of the drywall.

874. In addition, and in the alternative, Defendants' drywall is unreasonably dangerous in that it fails to conform to an express warranty about the product which induced the use of the product and caused damage to Plaintiffs to the extent that the warranty was untrue.

875. In addition, and in the alternative, Defendants' drywall is unreasonably dangerous due to an inadequate warning, in that, at the time the drywall left Defendant's control, the drywall possessed a characteristic that might cause damage and yet Defendant failed to use reasonable care to provide an adequate warning of such characteristics and/or dangers to users and/or handlers of the drywall.

876. Defendants are therefore liable to Louisiana Plaintiffs for all damages reasonable in the premises.

COUNT XI
PRIVATE NUISANCE
(All Defendants)

877. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

878. The Defendants' tortious or wrongful acts or omissions have caused sulfide gas and/or other chemical leaching into structures owned by Plaintiffs and Class Members which has unreasonably interfered, and continues to interfere, with the Plaintiffs' and Class Members' use and enjoyment of their properties and caused them harm and damage as discussed herein.

879. Defendants' interference has impaired the rights of Plaintiffs' and Class Members' health, comfort, safety, free use of their property, and/or peaceful enjoyment of their property.

880. Defendants' invasions were intentional and unreasonable, and/or unintentional but otherwise negligent or reckless.

881. The interference with Plaintiffs' and Class Members' use of their property caused by Defendants is substantial and is ongoing.

882. Defendants' private nuisance was the direct, proximate, and foreseeable cause of Plaintiffs' and Class Members' damages, injuries, harm, loss, and increased risk of harm, which they suffered and will continue to suffer.

883. As a direct and proximate cause of Defendants' creation of a private nuisance, Plaintiffs and Class Members have incurred harm and damages and/or personal injuries as described herein.

COUNT XII
NEGLIGENT DISCHARGE OF A CORROSIVE SUBSTANCE
(All Defendants)

884. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

885. Defendants had actual or constructive knowledge of the extremely corrosive and dangerous propensities of the drywall at issue in this litigation.

886. Notwithstanding their actual or constructive knowledge of the corrosive and dangerous propensities of the drywall, Defendants nevertheless designed, manufactured, imported, distributed, delivered, supplied, marketed, inspected, installed, or sold the drywall for use in the homes or other structures owned by Plaintiffs and class members.

887. By causing the sale, distribution, delivery, and/or supply of the drywall under these circumstances, Defendants breached their duty to exercise reasonable care and created a foreseeable zone of risk of injury to Plaintiffs and class members.

888. Defendants likewise breached their duties to Plaintiffs and Class Members by failing to warn about the corrosive and dangerous propensities of the drywall. Defendants, through the exercise of reasonable care, knew or should have known the nature of the defective drywall and the adverse

effects that it could have on the property and bodies of Plaintiffs and Class Members.

889. Plaintiffs and class members have suffered injuries by virtue of their exposure to the defective drywall at issue in this litigation. Given the defect in the Defendants' drywall, Defendants knew or should have known that their product could, and would, cause harm, damages and/or personal injuries to Plaintiffs and Class Members.

890. As a direct and proximate result of Defendants' acts and omissions, Plaintiffs and Class Members were harmed and have incurred damages and/or personal injuries as described herein. The injuries sustained by Plaintiffs and Class Members are within the foreseeable zone of risk created by Defendants.

COUNT XIII
UNJUST ENRICHMENT
(All Defendants)

891. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

892. Defendants received money as a result of Plaintiffs' and Class Members' purchases of Defendants' defective drywall, or purchases of structures containing this drywall, either directly or through an agent, and Defendants wrongfully accepted and retained these benefits to the detriment of Plaintiffs and Class Members.

893. Defendants' acceptance and retention of these benefits under the circumstances make it inequitable and unjust for Defendants to retain the benefit without payment of the value to the Plaintiffs and the Class Members.

894. Defendants, by the deliberate and tortious conduct complained of herein, have been unjustly enriched in a manner which warrants restitution.

COUNT XIV
VIOLATION OF CONSUMER PROTECTION ACTS
(All Defendants)

895. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

896. This is an action for relief under the various Consumer Protection Acts of the jurisdictions in which affected properties are present, including but not limited to, L.S.A.-R.S. 51:1401, *et seq.* (Louisiana Unfair Trade Practices and Consumer Protection Law); Ala. Code 1975 § 8-19-1, *et seq.* (Alabama Deceptive Trade Practices Act); G.S. § 75-1.1, *et seq.* (North Carolina Consumer Protection Act); F.S. § 501.201, *et seq.* (Florida Deceptive and Unfair Trade Practices Act); Va. Code. Ann. § 59.1-196, *et seq.* (Virginia Consumer Protection Act); Tex. Bus. Com. Code Ann. § 17.41, *et seq.* (Texas Deceptive Trade Practices-Consumer Protection Act); Miss. Code Ann. § 75-24-1, *et seq.* (Mississippi Consumer Protection Act).

897. The Defendants' acts and omissions as well as their failure to use reasonable care in this matter as alleged in this amended complaint, including but not limited to, the knowing misrepresentation or failure to disclose the source, affiliation, origin, characteristics, ingredients, standards and quality of defective drywall constitute violation of the provisions of the Consumer Protection Acts of the Relevant States.

898. Plaintiffs and Class Members have suffered actual damages as a result of Defendants' violation of these Consumer Protection Acts and are entitled to relief.

899. As a direct and proximate cause of Defendants' violations of the Consumer Protection Acts of the Relevant States, Plaintiffs and Class Members have incurred harm and damages as described herein.

COUNT XV
EQUITABLE AND INJUNCTIVE RELIEF AND MEDICAL MONITORING
(All Defendants)

900. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

901. Plaintiffs and the Class Members are without adequate remedy at law, rendering injunctive and other equitable relief appropriate.

902. Plaintiffs and the Class Members will suffer irreparable harm if the Court does not render the injunctive relief and medical monitoring relief set forth herein, and if defendants are not ordered to recall, buy back, rescind, and/or repair the structures owned by Plaintiffs and Class Members.

903. Plaintiffs, on behalf of themselves and all others similarly situated, demand injunctive and equitable relief and further, that defendants be ordered to: (1) to buy back or rescind the contracts for Plaintiffs' and Class Members' homes or other structures, or in the alternative, remediate, repair and/or replace the drywall in such structures upon proof by the defendants of the feasibility of such remedy or repair; (2) cease and desist from misrepresenting to the Class and the general public that there is no defect in, or danger associated with, the drywall; (3) institute, at their own cost, a public awareness campaign to alert the Class and general public of the defect and dangers associated with the drywall; and (4) create, fund, and support a medical monitoring program.

904. Until Defendants' defective drywall has been removed and remediated, Defendants must provide continued environmental and air monitoring in the structures owned by Plaintiffs and Class Members.

905. Plaintiffs and Class Members have been exposed to greater than normal background levels of sulfides and other hazardous chemicals as a result of exposures to Defendants' defective and unfit drywall and have suffered personal injuries as a result.

906. The sulfides and other noxious gases which have been released from Defendants drywall and to which Plaintiffs and Class Members have been exposed are proven hazardous, dangerous, or toxic substances.

907. Plaintiffs' and Class Members' exposures were caused by the Defendant's negligent or otherwise tortious conduct.

908. Plaintiffs' and Class Members' exposure may lead to serious health problems, diseases, and medical conditions that may be prevented by timely medical diagnosis and treatment.

909. The method and means for diagnosing the Plaintiffs' and Class Members' potential medical problems are well accepted in the medical and scientific community and will be of great benefit to the Plaintiffs and Class Members by preventing or minimizing health problems that they may encounter as a result of the defective and unfit drywall.

910. As a proximate result of their exposure to sulfide and other noxious gases from Defendants' defective and unfit drywall, Plaintiffs and Class Members have developed a significantly increased risk of contracting a serious latent disease.

911. Monitoring procedures exist that make the early detection of any latent disease possible that are different from those normally recommended in the absence of the exposure.

912. The prescribed monitoring regime is reasonably necessary according to contemporary scientific principles.

DEMAND FOR JURY TRIAL

Plaintiffs, individually and on behalf of the Class and Subclass Members, hereby demand a trial by jury as to all issues so triable as a matter of right.

PRAYER FOR RELIEF

WHEREFORE Plaintiffs, on behalf of themselves and all others similarly situated demand upon Defendants jointly and severally for:

- a. an order certifying the case as a class action;
- b. an order certifying the Class and each of the Subclasses;
- c. an order appointing Plaintiffs as the Class Representatives of the Class;
- d. an order appointing undersigned counsel and their firms as counsel for the Class;
- e. compensatory and statutory damages;
- f. punitive damages as allowed by law;
- g. pre and post-judgment interest as allowed by law;
- h. injunctive relief;
- i. an award of attorneys' fees as allowed by law;
- j. an award of taxable costs; and
- k. any and all such further relief as this Court deems just and proper.

Respectfully submitted,

**UNITED STATES DISTRICT COURT
FOR THE EASTERN DISTRICT OF LOUISIANA**

DAVID GROSS, et al.

Plaintiffs,

v.

KNAUF GIPS KG, et al.

CASE NO.: 09-6690

**PLAINTIFF, MARY ANNE BENES' SUBSTITUTED AND AMENDED
OMNIBUS CLASS ACTION COMPLAINT IN INTERVENTION (III)**¹

Pursuant to Fed. R. Civ. P. 23, the intervening Plaintiffs in this action bring suit on behalf of themselves and all other similarly situated owners and residents of real properties containing defective Chinese manufactured drywall that was imported, exported, brokered, distributed, delivered, supplied, marketed, inspected, installed, or sold by the Defendants.

Intervening Plaintiffs have intervened in *Gross, et al. v. Knauf GIPS KG, et al.*, Case No. 09-6690 (E.D.La.). Intervening Plaintiffs are absent class members in the *Gross* action. As absent class members, intervening Plaintiffs are similarly situated to the *Gross* plaintiffs and all of the defendants named in the *Gross* complaint are liable to the intervening Plaintiffs. Like the representative plaintiffs in *Gross*, the intervening Plaintiffs are unable to identify the manufacturer(s) of the drywall in their homes since the Defendants have marketed their products in a manner designed to conceal their identity. Intervening Plaintiffs incorporate and adopt the allegations of the *Gross* complaint herein by reference.

The intervening Plaintiffs, however, have been successful in identifying certain of the defendants in the chain of distribution of the defective drywall in their homes. Accordingly, this

¹ Additional plaintiffs are attached hereto as Exhibit "A."

complaint asserts class claims against the indeterminate defendants previously identified in *Gross*, as well as those identifiable parties in the chain of distribution of the defective drywall in intervening Plaintiffs' homes. The intervening Plaintiffs seek to be class representatives for the class identified in *Gross* and the new subclasses identified herein in which intervening Plaintiffs will participate against those specific defendants who had a role in the distribution, delivery, supply, sale, marketing, inspection, and/or installation of the defective drywall in their homes.

To accomplish an effective class structure, each of the class representatives is pursuing nationwide class actions asserting claims against each of their distributors, suppliers, importers, exporters, and brokers (Subclasses 1 - 52); each of their builders and developers (Subclasses 53 - 269); and each of their contractors and installers (Subclasses 270 -356) for whom they have standing (class and subclass members shall be collectively referred to herein as "Class Members").² Intervening Plaintiffs are also pursuing a nationwide class action against the defendants named in the *Gross* complaint. Each of the Defendants in this action are liable for damages incurred by intervening Plaintiffs due to their role in the design, manufacture, importing, distributing, delivery, supply, marketing, inspecting, installing, or sale of the defective drywall at issue in this litigation.

JURISDICTION, PARTIES, AND VENUE

1. Original jurisdiction of this Court exists by virtue of 28 U.S.C. §1332(d)(2) and the Class Action Fairness Act ("CAFA"). *See* 28 U.S.C. § 1711, *et. seq.* The Plaintiffs and certain of the Defendants in these actions are citizens of different states and the amounts in controversy in these actions exceed five million dollars (\$5,000,000.00), exclusive of interest and costs.

² The schedule of defendants are attached hereto as Exhibit "B."

2. For each subclass, the Court has original jurisdiction under CAFA and/or supplemental jurisdiction under 28 U.S.C. § 1367.

3. Venue in this district satisfies the requirements of 28 U.S.C. §1391(b)(1)-(2) and (c) because Plaintiffs and a significant number of the absent class members reside in this jurisdiction and a substantial amount of the events and occurrences giving rise to these claims occurred in this District, or a substantial part of the property that is the subject of this action is situated in this district. Venue is otherwise appropriate in this district consistent with 28 U.S.C. § 1407 and the June 15, 2009 Transfer Order of the Judicial Panel on Multidistrict Litigation (“JPML”). *See In re: Chinese-Manufactured Drywall Products Liability Litigation*, 626 F.Supp.2d 1346 (J.P.M.L. Jun. 15, 2009).

PLAINTIFFS

4. For purposes of clarity, the intervening Plaintiffs are asserting claims on behalf of all owners and residents of the subject properties, including but not limited to, minors and other residents of the properties who do not appear herein as named plaintiffs.

5. While the Intervening Plaintiffs have been successful in identifying some of the parties responsible for the injuries they have suffered by virtue of the defective Chinese manufactured drywall in their homes, each of the intervening Plaintiffs is unable to identify the manufacturer(s) of such drywall. These manufacturing defendants, who are parties to the *Gross* complaint, have fraudulently concealed their identities from Plaintiffs.

6. Unless specifically stated to the contrary, all Plaintiffs are citizens of the state where they reside and all entities are citizens of the state where they are organized. Alternatively, all entities are citizens of the state of their principal place of business and/or of the state where the

subject property is located.

FACTS REGARDING PRODUCT DEFECT

1423. Upon information and belief, Defendants' drywall contains gypsum.

1424. In "defective drywall" (such as that designed, manufactured, exported, imported, distributed, delivered, supplied, inspected, installed, marketed, and/or sold by Defendants herein), the gypsum and other components of the product break down and release sulfides and

other noxious gases that are then emitted (or “off-gassed”) from the drywall.

1425. Sulfides and other noxious gases, such as those emitted from Defendants’ drywall, cause corrosion and damage to personal property (such as air conditioning and refrigerator coils, faucets, utensils, electrical wiring, copper, electronic appliances and other metal surfaces and property).

1426. Exposure to sulfide and other noxious gases, such as those emitted from Defendants’ drywall, causes personal injury resulting in eye irritation, sore throat and cough, nausea, fatigue, shortness of breath, fluid in the lungs, and/or neurological harm.

1427. As a direct and proximate result of Defendants’ actions and omissions, Plaintiffs' and the Class Members’ structures, personal property, and bodies have been exposed to Defendants’ defective and unfit drywall and the corrosive and harmful effects of the sulfide and other noxious gases being released from Defendants’ defective drywall.

1428. Defendants tortiously manufactured, exported, imported, distributed, delivered, supplied, inspected, installed, marketed and/or sold the defective drywall, which was unfit for its intended purpose and unreasonably dangerous in its normal use in that the drywall caused corrosion and damage to personal property in Plaintiffs' and Class Members’ homes, residences or structures and/or caused personal injury resulting in eye irritation, a sore throat and cough, nausea, fatigue, shortness of breath, fluid in the lungs, and/or neurological harm.

1429. Defendants recklessly, wantonly, and/or negligently manufactured, exported, imported, distributed, delivered, supplied, inspected, installed, marketed and/or sold the defective drywall at issue in this litigation.

1430. Defendants recklessly, wantonly and/or negligently implement faulty, procedures

for purposes of formulating, preparing, testing, and otherwise ensuring the quality and/or character of the defective drywall at issue in this litigation.

1431. As a direct and proximate result of Defendants' defective and unfit drywall and the corrosive and harmful effects of the sulfide and other noxious gases being released from these products, Plaintiffs and Class Members have suffered, and continue to suffer economic harm and/or personal injury.

1432. As a direct and proximate result of Defendants' defective and unfit drywall and the corrosive and harmful effects of the sulfide and other noxious gases being released from these products, the Plaintiffs and the Class Members have suffered, and continue to suffer damages. These damages include, but are not limited to, costs of inspection; costs and expenses necessary to remedy, replace and remove the defective drywall and other property that has been impacted; lost value or devaluation of their homes, residences or structures and property as a direct result of damage caused to the property and indirect damage resulting from perceived defects to the property, including stigma damages; loss of use and enjoyment of their home and property; and/or damages associated with personal injuries.

1433. As a direct and proximate result of Defendants' defective and unfit drywall and the corrosive and harmful effects of the sulfide and other noxious gases being released from these products, Plaintiffs and the Class Members have been exposed to toxic gases, suffered personal injury, have been placed at an increased risk of disease, and have need for injunctive relief in the form of repair and remediation of their home, rescission of their home purchase contracts, the ordering of emergency/corrective notice, the ordering of environmental testing and monitoring, and/or the ordering of medical monitoring.

DEFENDANTS HAVE FRAUDULENTLY CONCEALED THEIR IDENTITIES

1434. The defective Chinese drywall that is installed in Plaintiffs' homes was designed, manufactured, exported, imported, distributed, delivered, supplied, inspected, marketed, and/or sold by certain unknown defendants.

1435. Plaintiffs have been unable to identify the manufacturer and/or certain other parties in the chain of distribution of the defective drywall in their homes since the Defendants have marketed their products in a manner designed to conceal their identity. That is, there are no markings on the drywall that can be used to identify the manufacturer.

1436. Notwithstanding the lack of any information that can be used to track the defective drywall to a particular manufacturer, there are other factors that demonstrate that Plaintiffs have defective Chinese manufactured drywall in their homes. For instance, Plaintiffs have detected bad odors, witnessed instances of corrosion, observed markings such as "made in China", and have experienced headaches and other personal injuries that are commonly associated with the defective Chinese manufactured drywall at issue in this litigation.

1437. Plaintiffs, and Plaintiffs alone, have engaged in a genuine and diligent effort to identify the manufacturers and other parties connected to the distribution of the defective drywall in this litigation with limited success due to the inherent inability to identify the manufacturer of the product that caused them harm. This inability to identify the product manufacturer results from the Defendants' deliberate distribution of the defective Chinese drywall in a manner that makes it difficult and/or impossible for consumers to determine the source of the drywall.

1438. For instance, Defendants concealed the origin of the defective Chinese drywall by distributing it without any packaging and/or markings that can be used to track the product to a

specific manufacturer, supplier, distributor, etc. By way of example, certain manufacturers have deliberately engaged in subterfuge by marking their drywall as “made in China” without any corresponding markings identifying that defendant as the manufacturer of the drywall in question. The Plaintiffs Steering Committee (“PSC”) has identified several such unidentifiable markings that have been made of record in accordance with PTO 10.

1439. Defendants engaged in a course of conduct, individually and/or collectively, that caused the Plaintiffs’ and Class Members’ exposure to the defective drywall at issue in this litigation by virtue of their interdependent conscious parallel conduct in the manufacture, exporting, importing, distribution, delivery, supply, inspection, marketing, and/or sale of the defective drywall at issue in this litigation. Defendants’ parallel conduct suggests their common behavior was not the result of idiosyncratic decision making.

1440. By information and belief, certain of the foreign defendants have positioned themselves in a manner designed to avoid or evade liability for their role in causing the manufacture, exporting, importing, distribution, delivery, supply, marketing, and/or sale of the defective drywall at issue in this litigation by making it difficult for injured consumers (located in the United States) to accomplish service on them. Such foreign defendants are seemingly attempting to avoid responsibility for their tortious conduct.

CLASS ACTION ALLEGATIONS

1441. Because Plaintiffs have been able to identify some, but not all, or the non-manufacturing defendants in the chain of distribution of the defective drywall in their homes, Plaintiffs are asserting class claims against the *Gross* defendants. To the extent Plaintiffs have identified parties responsible for the sale, distribution, supply, marketing, inspecting, importing,

exporting, brokering, or delivery of the defective drywall in their homes, Plaintiffs are participating in subclasses against these parties.

1442. For those Intervening plaintiffs that have been unable to identify any of the non-manufacturing defendants in the chain of distribution of the defective drywall in their homes, these Plaintiffs are not participating in any subclass at this time.

The *Gross* Class

1443. All Plaintiffs bring this suit as a class action pursuant to Rules 23(a), (b)(1), (b)(2), (b)(3) and/or 23(c)(4) of the Federal Rules of Civil Procedure, on behalf of themselves and the following Class comprised of:

All owners and residents (past or present) of real property located in the United States containing defective Chinese drywall manufactured, sold, distributed, supplied, marketed, inspected, imported, exported, brokered, or delivered by the *Gross* Defendants.

The Distributor/Supplier/Importer/Exporter/Broker Subclasses (Subclasses 1-52)

The Contractor/Installer Subclasses (Subclasses 270-356)

1448. The representative Plaintiffs with claims against their contractors/installers, set

forth in the attached Schedule “3” (the alignment of Plaintiffs and Defendants is depicted in Schedule 3 for each subclass), assert subclasses pursuant to Rules 23(a), (b)(1), (b)(2), (b)(3) and/or 23(c)(4) of the Federal Rules of Civil Procedure, on behalf of themselves and those similarly situated, against the contractors/installers for whom they have standing. The designated Plaintiffs in Schedule 3 define their subclasses to be as follows:

All owners and residents (past or present) of real property located in the United States containing defective Chinese drywall where each of the defendants identified in Schedule 3 was the contractor or installer of the drywall for the property.

1449. The contractor/installer subclasses identified in Schedule 3 are comprised as follows:

General Class Allegations and Exclusions from the Class Definitions

1450. The following Persons shall be excluded from the Class and Subclasses: (1) Defendants and their subsidiaries, affiliates, officers and employees; (2) all Persons who make a timely election to be excluded from the proposed Class; (3) governmental entities; and (4) the judge(s) to whom this case is assigned and any immediate family members thereof.

1451. Upon information and belief, the defective and unfit drywall in Plaintiffs' homes or other structures was installed in at least hundreds of homes, residences, or other structures owned by Plaintiffs and Class Members. Therefore, the Classes and Subclasses are sufficiently numerous such that the joinder of all members of the Classes and Subclasses in a single action is impracticable.

1452. There are numerous common questions of law and fact that predominate over any questions affecting only individual members of the Classes and/or Subclasses. Among these common questions of law and fact are the following:

- a. whether Defendants' drywall products that release sulfide and other noxious gases are defective and/or unfit for their intended purpose;
- b. whether Defendants tortiously manufactured, exported, imported, distributed, delivered, supplied, inspected, installed, marketed, and/or sold defective drywall products;
- c. whether Plaintiffs are entitled to recover compensatory, exemplary, incidental, consequential, and/or other damages as a result of Defendants' unlawful and tortious conduct; and
- d. whether Plaintiffs are entitled to recover injunctive and/or equitable relief as a result of Defendants' unlawful and tortious conduct.

1453. The legal claims of named Plaintiffs are typical of the legal claims of other Class and Subclass Members. Additionally, for each of the subclasses that named Plaintiffs seek to participate in, the legal claims of the named Plaintiffs are typical of the legal claims of other Subclass Members. Named Plaintiffs have the same legal interests and need for legal remedies as other Class and/or Subclass Members.

1454. Named Plaintiffs are adequate representatives of the Class and Subclasses in which they participate, together with their legal counsel, each will fairly and adequately protect the interests of Class and Subclass Members. Named Plaintiffs have no known conflict with the Class or Subclasses and are committed to the vigorous prosecution of this action.

1455. The undersigned counsel are competent counsel experienced in class action litigation, mass torts, and complex litigation involving defective and harmful products. Counsel will fairly and adequately protect the interests of the Classes and/or Subclasses.

1456. The various claims asserted in this action are certifiable under the provisions of Federal Rules of Civil Procedure 23(b)(1) because prosecuting separate actions by or against individual Class and/or Subclass members would create a risk of inconsistent or varying adjudications with respect to individual Class and Subclass members that would establish incompatible standards of conduct for the party opposing the Class and Subclass; or adjudications with respect to individual Class and Subclass members that, as a practical matter, would be dispositive of the interests of the other Class and Subclass members not parties to the individual adjudications or would substantially impair or impede their ability to protect their interests.

1457. The claims for injunctive relief in this case are certifiable under Fed. R. Civ. P. 23(b)(2). Defendants have acted or refused to act on grounds that apply generally to the Class and/or Subclass, so that final injunctive relief is appropriate respecting the Class and/or Subclass as a whole.

1458. A class action is superior in this case to other methods of dispute resolution. The Class and Subclass members have an interest in class adjudication rather than individual adjudication because of their overlapping rights. It is highly desirable to concentrate the resolution of these claims in this single forum because it would be difficult and highly unlikely that the affected Class and Subclass Members would protect their rights on their own without this class action case. Management of the class will be efficient and far superior to the management of individual lawsuits. Accordingly, Plaintiffs' legal claims are properly certified pursuant to Rule 23(b)(3).

1459. The issues particularly common to the Class and Subclass members' claims, some

of which are identified above, are alternatively certifiable pursuant to Fed. R. Civ. P. 23(c)(4), as resolution of these issues would materially advance the litigation, and class resolution of these issues is superior to repeated litigation of these issues in separate trials.

COUNT I
NEGLIGENCE
(Against All Defendants)

1460. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

1461. Defendants owed a duty to Plaintiffs and Class Members to exercise reasonable care in a) designing, b) manufacturing, c) exporting, d) importing, e) distributing, f) delivering, g) supplying, h) inspecting, i) installing, j) marketing, and/or k) selling this drywall, including a duty to adequately warn of their failure to do the same.

1462. Defendants knew or should have known that their wrongful acts and omissions would result in harm and damages in the manner set forth herein.

1463. Defendants breached their duty to exercise reasonable care in the designing, manufacturing, exporting, importing, distributing, delivering, supplying, inspecting, marketing, and/or selling this drywall.

1464. Defendants likewise breached their duties to Plaintiffs and Class Members by failing to warn about the defective nature of the drywall. Defendants, through the exercise of reasonable care, knew or should have known the nature of the defective drywall and the adverse effects that it could have on the property and bodies of Plaintiffs and Class Members.

1465. Defendants breached their duty to exercise reasonable care to timely remove and/or recall from the market and/or otherwise prevent the continued contact of Plaintiffs and Class Members with the drywall, upon learning it had been sold in an unreasonably dangerous condition.

1466. Given the defect in the Defendants' drywall, Defendants knew or should have known that their product could, and would, cause harm, damages and/or personal injuries to Plaintiffs and Class Members.

1467. As a direct and proximate cause of Defendants' acts and omissions, Plaintiffs and Class Members were harmed and have incurred damages and/or personal injuries as described herein.

COUNT II
NEGLIGENCE PER SE
(Against All Defendants)

1468. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

1469. Defendants owed statutory duties to Plaintiffs and Class Members to exercise reasonable care in a) designing, b) manufacturing, c) exporting, d) importing, e) distributing, f) delivering, g) supplying, h) inspecting, I) marketing, and/or j) selling this drywall.

1470. Defendants breached their statutory duties to the Plaintiffs and Class Members by failing to exercise reasonable care in a) designing, b) manufacturing, c) exporting, d) importing, e) distributing, f) delivering, g) supplying, h) inspecting, I) marketing, and/or j) selling this drywall.

1471. Defendants likewise breached their statutory duties, including but not limited to those imposed under the International Building Code ("IBC") and other State and local Building Codes, to Plaintiffs and Class Members by failing to warn about the defective nature of the drywall. For instance, it is specifically alleged that Defendants furnished the drywall in violation of ASTM C 1396/C 1396M-069, and its predecessor(s). Defendants, through the exercise of reasonable care, knew or should have known the nature of the defective drywall and the adverse effects that it could have on the property and bodies of Plaintiffs and Class Members.

1472. Defendants, through the exercise of reasonable care, knew or should have known the

nature of the defective drywall and the adverse effects that it could have on the property and bodies of Plaintiffs and Class Members.

1473. Given the defect in the Defendants' drywall, Defendants knew or should have known that their product could, and would, cause harm, damages and/or personal injuries to Plaintiffs and Class Members.

1474. As a direct and proximate cause of Defendants' acts and omissions, Plaintiffs and Class Members were harmed and have incurred damages and/or personal injuries as described herein.

COUNT III
STRICT LIABILITY
(All Defendants)

1475. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

1476. At all times relevant hereto, Defendants were in the business of distributing, delivering, supplying, inspecting, marketing, and/or selling drywall for sale to the general public.

1477. The drywall, including that installed in the homes of Class Members was placed by Defendants in the stream of commerce.

1478. Defendants knew that the subject drywall would be used without inspection for defects by consumers.

1479. Defendants intended that the drywall reach the ultimate consumers, such as Class Members, and it indeed reached Class Members when it was installed in their homes.

1480. When installed in Class Members' homes, the drywall was in substantially the same condition as it was in when Defendants manufactured, sold, and/or delivered it.

1481. At all times relevant hereto the subject drywall was used in a manner consistent with the uses intended by, or known to Defendants, and in accordance with the Defendants' directions and

instructions.

1482. The subject drywall was not misused or altered by any third parties.

1483. The Defendants' drywall was defectively manufactured, designed, inspected, tested, marketed, distributed, and sold.

1484. The design defect was in designing drywall that allowed high levels of sulfur and/or other chemicals to emit through off-gassing.

1485. The manufacturing defect was in improperly selecting, testing, inspecting, mining, making, assembling, and using, gypsum for drywall with levels of sulfur that were too high and emitted various sulfide gases and/or other chemicals through off-gassing.

1486. The drywall was also defective because it was improperly exported, imported, distributed, delivered, supplied, inspected, marketed, and/or sold in a defective condition, as described above.

1487. The Defendants' defective manufacturing, designing, inspecting, testing, marketing, distributing, and selling of the drywall rendered it unsafe and unreasonably dangerous for its intended use and to Class Members.

1488. The drywall is also defective and unreasonably dangerous because Defendants failed to adequately warn and instruct Class Members of the defective design, inspection, testing, manufacturing, marketing, and selling of the drywall.

1489. Class Members were unaware of the unreasonably dangerous propensities and defective condition of the drywall, nor could Class Members, acting as reasonably prudent people discovery that Defendants' drywall was defective, as set forth herein, or perceive its danger.

1490. Defendants' defective drywall was much more dangerous and harmful than expected

by the average consumer and by Class Members.

1491. Defendants' defective drywall benefit to Class Members, if any, was greatly outweighed by the risk of harm and danger to them.

1492. The defects in the drywall, as well as Defendants' failure to adequately warn Class Members of the defects rendered the drywall unreasonably dangerous and was the direct and proximate cause of damages and/or personal injuries to Class Members.

COUNT IV
BREACH OF EXPRESS AND/OR IMPLIED WARRANTIES
(All Defendants)

1493. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

1494. Defendants and/or their agents were in privity with Plaintiffs and Class Members and/or Plaintiffs and Class Members were foreseeable third party beneficiaries of any warranty.

1495. At the times Defendants utilized, supplied, inspected, and/or sold this drywall for use in structures owned by Plaintiffs and Class Members, Defendants knew, or it was reasonably foreseeable, that the drywall would be installed in structures owned by Plaintiffs and Class Members for use as a building material, and expressly or impliedly warranted the product to be fit for that use.

1496. Defendants placed their drywall products into the stream of commerce in a defective condition and these products were expected to, and did, reach users, handlers, and persons coming into contact with said products without substantial change in the condition in which they were sold.

1497. The drywall was defective and not merchantable because it was unfit for the uses intended or reasonably foreseeable by Defendants; to wit, the installation of the drywall in structures owned by Plaintiffs and Class Members for use as a building material, because it contained defects as set forth herein.

1498. The Defendants breached their warranty because the drywall was not fit and safe for the particular purposes for which the goods were required (to be installed in structures owned by Plaintiffs and Class Members as a building material) due to the defects set forth herein.

1499. Defendants had reasonable and adequate notice of the Plaintiffs' and the Class Members' claims for breach of warranty and failed to cure.

1500. As a direct and proximate cause of Defendants' breach of warranties, Plaintiffs and Class Members have incurred harm and damages and/or personal injuries as described herein.

COUNT V
BREACH OF THE IMPLIED WARRANTY OF FITNESS AND MERCHANTABILITY
PURSUANT TO FLORIDA STATUTES SECTION 718.203
(On Behalf of Plaintiffs Who Own Condominiums in the State of Florida)
(Against Builders Only)

1501. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

1502. Subclass Members who own condominiums in Florida, are owners of condominiums as that term is defined by Florida Statutes section 718.503.

1503. Such Subclass Members, as owners, are entitled to the benefit of the statutory warranties of fitness and merchantability pursuant to Florida Statutes section 718.203.

1504. Each of the builders who are subject to this claim are developers, as defined by Florida Statutes section 718.203(16), as they created condominiums or offered condominiums for sale in the ordinary course of business.

1505. Pursuant to Florida Statutes section 718.203(1)(a-e), each of the builders who are subject to this claim is deemed to have granted Subclass Members, who own condominiums in Florida, an implied warranty of fitness and merchantability for the purposes or uses as follows:

- a. As to each unit, a warranty for 3 years commencing with the completion of the building containing the unit.
- b. As to the personal property that is transferred with, or appurtenant to, each unit, a warranty which is for the same period as that provided by the manufacturer of the personal property, commencing with the date of closing of the purchase or the date of possession of the unit, whichever is earlier.
- c. As to all other improvements for the use of unit owners, a 3 year warranty commencing with the date of completion of the improvements.
- d. As to all other personal property for the use of unit owners, a warranty which shall be the same as that provided by the manufacturer of the personal property.
- e. As to the roof and structural components of a building or other improvements and as to mechanical, electrical, and plumbing elements serving improvements or a building, except mechanical elements serving only one unit, a warranty for a period beginning with the completion of construction of each building or improvement and continuing for 3 years thereafter or 1 year after owners other than the developer obtain control of the association, whichever occurs last, but in no event more than 5 years.

1506. At all times relevant hereto, routine maintenance was performed by Subclass Members and/or the builders who are subject to this claim or by an association controlled by such builders.

1507. At the times the builders who are subject to this claim installed, utilized, supplied, inspected, and/or sold drywall for use in the Subclass Members' homes, the builders knew, or it was reasonably foreseeable, that the drywall would be installed in the Subclass Members' homes for use as a building material, and warranted the product be fit and merchantable for that use.

1508. Defendants' drywall product was placed into the stream of commerce by the builders who are subject to this claim in a defective condition and was expected to, and did, reach users, handlers, and persons coming into contact with said product without substantial change in the condition in which it was sold.

1509. The drywall was defective because it was not fit for the uses intended or reasonably foreseeable by the builders; to wit, the installation of the drywall in Subclass Members' homes for use as a building material, because it contained defects as set forth herein.

1510. The builders who are subject to this claim breached the implied warranty of merchantability and fitness because the drywall was not fit to be installed in Subclass Members' homes as a building material due to the defects set forth herein.

1511. The builders who are subject to this claim had reasonable and adequate notice of the Subclass Members' claims for breach of implied warranty of fitness and merchantability and failed to cure.

1512. As a direct and proximate cause of the builders' breach of the warranties under Florida Statutes section 718.203, Subclass Members have incurred harm and damages and/or personal injuries as described herein.

COUNT VI
BREACH OF THE IMPLIED WARRANTY OF HABITABILITY
(Against Builders Only)

1513. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

1514. The Builder Defendants were in direct contractual privity with their Subclass Members.

1515. The drywall that the Builder Defendants installed in the homes of Subclass Members was placed into the stream of commerce by the Builder Defendants in a defective condition and was expected to, and did, reach users, handlers, and persons coming into contact with said drywall product without substantial change in the condition in which it was sold.

1516. Certain Subclass Members bought their homes containing defective drywall based upon the judgment of the Builder Defendants.

1517. The Builder Defendants breached the implied warranty of habitability because the defective drywall causes Subclass Members homes not to meet ordinary, normal standards reasonably to be expected of living quarters of comparable kind and quality due to the defects set forth herein.

1518. The Builder Defendants had reasonable and adequate notice of the claims of the Subclass Members for breach of implied warranty of habitability and failed to cure.

1519. As a direct and proximate cause of the Builder Defendants' breach of the implied warranty of habitability, Plaintiffs and Subclass Members have incurred harm and damages and/or personal injuries as described herein.

COUNT VII
BREACH OF CONTRACT
(Against Builders Only)

1520. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

1521. As part of the agreements to purchase real properties from the Builder Defendants, for which Subclass Members paid valuable consideration, the Builder Defendants contracted with Subclass Members to construct homes that would be free of defects.

1522. The Builder Defendants materially breached their contracts by providing Subclass Members with defective homes; to wit, the homes contained drywall that is inherently defective because it emits various sulfide and other noxious gases through off-gassing that causes harm and damage as described herein.

1523. As a direct and proximate cause of the Builder Defendants' breach of contract, Plaintiffs and Subclass Members have incurred harm and damages as described herein.

COUNT VIII
VIOLATION OF THE LOUISIANA NEW HOME WARRANTY ACT
(on Behalf of Plaintiffs Who Own Homes in the State of Louisiana)
(Against Louisiana Builders Only)

1524. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

1525. The Louisiana New Home Warranty Act provides protection to owners of homes against builders in connection with the construction of the homes.

1526. For each applicable subclass, every subclass plaintiff is an "owner," as that term is defined by LSA-R.S. 9:3143(3), who is asserting a claim under the New Home Warranty Act against their "builder," as that term is defined by LSA-R.S. 9:3143(1).

1527. Implicit in every Builder Defendant's building contract is the requirement that the work to be completed be performed in a workmanlike manner that is free from defects in material and workmanship.

1528. Each of the Builders who are subject to this claim violated their duty to use materials that are free from defects. The drywall used by these Builders is defective for the reasons set forth above.

1529. Given the defect in the drywall, the Builders knew or should have known that their product could, and would, cause harm, damages and/or personal injuries to Plaintiffs and Class Members.

1530. As a direct and proximate cause of the Builders' acts and omissions, Plaintiffs and Class Members were harmed and have incurred damages and/or personal injuries as described herein.

COUNT IX
REDHIBITION
(By Louisiana Plaintiffs Against All Defendants)

1531. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

1532. The drywall manufactured, distributed and/or sold by Defendants was not reasonably fit for its ordinary and intended purpose.

1533. Defendants are therefore liable to Louisiana Plaintiffs for all damages reasonable in the premises, in accordance with La. Civ. Code art. 2524.

1534. In addition, or in the alternative, the drywall manufactured, distributed and/or sold by Defendants contained redhibitory defects, in that, at the time of delivery, the propensity to emit or off-gas Sulfur compounds and/or other potentially harmful, irritating and/or corrosive substances renders the drywall so useless and/or inconvenient that it must be presumed that Plaintiffs would not have

purchased the drywall had they known of the defect or defects.

1535. In the alternative, the defects are redhibitory in that, while not rendering the drywall totally useless, diminish the drywall's use and/or value to such an extent that it must be presumed that the buyer would have bought it, but for a lesser price.

1536. The Manufacturing Defendants are conclusively presumed to know of the defects in the drywall manufactured by them.

1537. In addition, it is believed and alleged that All Defendants knew of the defects in the drywall at the time the drywall was delivered and/or sold.

1538. Defendants have had numerous opportunities to repair and/or replace the drywall and associated fixtures and/or building components and have failed to do so; in addition, and/or in the alternative, such requests have been, would have been and/or would be futile; Manufacturing Defendants and/or Distributor Defendants are, moreover, deemed to be placed on notice when notice is provided to Builder Defendants (and/or Distributor Defendants); and All Defendants, in addition, or alternatively, had actual knowledge of the problems in the drywall and the need for replacement, remediation and/or repair.

1539. All Defendants are therefore liable to all Louisiana Plaintiffs for a return of the purchase price, (with interest from the time it was paid), reimbursement of the reasonable expenses occasioned by the sale and those incurred for the preservation of the drywall and associated items, for damages, and for reasonable attorneys' fees, in accordance with La. Civ. Code art. 2545.

1540. In the alternative, to the extent that any Distributor Defendant and/or Builder Defendant did not know of the defects in the drywall at the time of delivery and/or sale, those defendants are liable to Louisiana Plaintiffs to repair, remedy or correct the defect; and/or, if unable to

do so, for a return of the purchase price, (with interest from the time it was paid), reimbursement of the reasonable expenses occasioned by the sale, and those expenses incurred for the preservation of the drywall and associated items, in accordance with La. Civ. Code art. 2531.

COUNT X
LOUISIANA PRODUCTS LIABILITY ACT
(Manufacturing Defendants)
(Pleaded in the Alternative Against Distributor Defendants)

1541. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

1542. In addition to any and all damages, attorneys fees and other remedies made available to Louisiana Plaintiffs under the warranty of fitness and/or warranty against redhibitory defects, the Manufacturing Defendants are liable to Louisiana Plaintiffs under the Louisiana Products Liability Act, (“LPLA”), La. R.S. 9:2800.51, *et seq.*

1543. The LPLA is also pleaded in the alternative with respect to any Distributor Defendant who might be considered a “manufacturer” under La. R.S. 9:2800.53(1)(a) (labels or otherwise holds the drywall out as his own), 9:2800.53(1)(b) (exercises control over or influences a characteristic of the drywall causing damage), 9:2800.53(1)(c) (the manufacturer of a product which contains the drywall as a component part), and/or 9:2800.53(1)(d) (a seller of a product of an alien manufacturer where the seller is in the business of importing or distributing the drywall for resale and is the *alter ego* of the alien manufacturer).

1544. The Manufacturing Defendants, upon information and belief, expressly warranted that “the gypsumboards manufactured and sold ... are guaranteed to be free from defects in materials and workmanship.”

1545. The Manufacturing Defendants expressly warranted that “the gypsumboards were

manufactured in accordance to ASTM C36.”

1546. The drywall at issue is, in all cases, unreasonably dangerous by virtue of the unreasonable off-gassing and/or emission of Sulfur compounds and/or other corrosives, toxins and/or irritants, which do not in any way contribute to or enhance the utility of the drywall, yet pose a risk to the wiring, plumbing, appliances, personal property, overall economic value of the property and financial security of the owner, and/or the health of the residents of the property.

1547. At all times pertinent and material hereto, there existed alternative feasible manufacturing processes and/or designs of drywall which perform all of the functions and utility of traditional drywall, without emitting unreasonable levels of Sulfur and/or other toxic and/or corrosive compounds.

1548. At all times pertinent and material hereto, Manufacturing Defendants (and/or Distributer Defendants who may be considered “manufacturers” under the LPLA) knew that their drywall was unreasonably dangerous and/or defective as set forth herein.

1549. In the alternative, Manufacturing Defendants (and/or Distributer Defendants who may be considered “manufacturers” under the LPLA) should have, at all times pertinent and material hereto, known of the unreasonably dangerous and/or defective characteristics and/or conditions, had they reasonably employed then-existing scientific and/or technical knowledge, reasonable testing, and/or other reasonable and then-accepted methods of quality assurance and/or quality control.

1550. Defendants’ drywall is unreasonably dangerous in composition or construction in that, at the time it left Defendant’s control, it deviated in a material way from Defendant’s own specifications or performance standards.

1551. In addition, and in the alternative, Defendants’ drywall is unreasonably dangerous in

design, in that, at the time the drywall left Defendant's control, there existed an alternative design for the product that was capable of preventing Plaintiffs' damage, and the likelihood of causing the plaintiffs' damage and the gravity of that harm outweighed the burden (if any) on the Defendant in adopting such alternative design and the adverse effect (if any) on the utility of the drywall.

1552. In addition, and in the alternative, Defendants' drywall is unreasonably dangerous in that it fails to conform to an express warranty about the product which induced the use of the product and caused damage to Plaintiffs to the extent that the warranty was untrue.

1553. In addition, and in the alternative, Defendants' drywall is unreasonably dangerous due to an inadequate warning, in that, at the time the drywall left Defendant's control, the drywall possessed a characteristic that might cause damage and yet Defendant failed to use reasonable care to provide an adequate warning of such characteristics and/or dangers to users and/or handlers of the drywall.

1554. Defendants are therefore liable to Louisiana Plaintiffs for all damages reasonable in the premises.

COUNT XI
PRIVATE NUISANCE
(All Defendants)

1555. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

1556. The Defendants' tortious or wrongful acts or omissions have caused sulfide gas and/or other chemical leaching into structures owned by Plaintiffs and Class Members which has unreasonably interfered, and continues to interfere, with the Plaintiffs' and Class Members' use and enjoyment of their properties and caused them harm and damage as discussed herein.

1557. Defendants' interference has impaired the rights of Plaintiffs' and Class Members' health, comfort, safety, free use of their property, and/or peaceful enjoyment of their property.

1558. Defendants' invasions were intentional and unreasonable, and/or unintentional but otherwise negligent or reckless.

1559. The interference with Plaintiffs' and Class Members' use of their property caused by Defendants is substantial and is ongoing.

1560. Defendants' private nuisance was the direct, proximate, and foreseeable cause of Plaintiffs' and Class Members' damages, injuries, harm, loss, and increased risk of harm, which they suffered and will continue to suffer.

1561. As a direct and proximate cause of Defendants' creation of a private nuisance, Plaintiffs and Class Members have incurred harm and damages and/or personal injuries as described herein.

COUNT XII
NEGLIGENT DISCHARGE OF A CORROSIVE SUBSTANCE
(All Defendants)

1562. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

1563. Defendants had actual or constructive knowledge of the extremely corrosive and dangerous propensities of the drywall at issue in this litigation.

1564. Notwithstanding their actual or constructive knowledge of the corrosive and dangerous propensities of the drywall, Defendants nevertheless designed, manufactured, imported, distributed, delivered, supplied, marketed, inspected, installed, or sold the drywall for use in the homes or other structures owned by Plaintiffs and class members.

1565. By causing the sale, distribution, delivery, and/or supply of the drywall under these

circumstances, Defendants breached their duty to exercise reasonable care and created a foreseeable zone of risk of injury to Plaintiffs and class members.

1566. Defendants likewise breached their duties to Plaintiffs and Class Members by failing to warn about the corrosive and dangerous propensities of the drywall. Defendants, through the exercise of reasonable care, knew or should have known the nature of the defective drywall and the adverse effects that it could have on the property and bodies of Plaintiffs and Class Members.

1567. Plaintiffs and class members have suffered injuries by virtue of their exposure to the defective drywall at issue in this litigation. Given the defect in the Defendants' drywall, Defendants knew or should have known that their product could, and would, cause harm, damages and/or personal injuries to Plaintiffs and Class Members.

1568. As a direct and proximate result of Defendants' acts and omissions, Plaintiffs and Class Members were harmed and have incurred damages and/or personal injuries as described herein. The injuries sustained by Plaintiffs and Class Members are within the foreseeable zone of risk created by Defendants.

COUNT XIII
UNJUST ENRICHMENT
(All Defendants)

1569. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

1570. Defendants received money as a result of Plaintiffs' and Class Members' purchases of Defendants' defective drywall, or purchases of structures containing this drywall, either directly or through an agent, and Defendants wrongfully accepted and retained these benefits to the detriment of Plaintiffs and Class Members.

1571. Defendants' acceptance and retention of these benefits under the circumstances make it

inequitable and unjust for Defendants to retain the benefit without payment of the value to the Plaintiffs and the Class Members.

1572. Defendants, by the deliberate and tortious conduct complained of herein, have been unjustly enriched in a manner which warrants restitution.

COUNT XIV
VIOLATION OF CONSUMER PROTECTION ACTS
(All Defendants)

1573. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

1574. This is an action for relief under the various Consumer Protection Acts of the jurisdictions in which affected properties are present, including but not limited to, L.SA-R.S. 51:1401, *et seq.* (Louisiana Unfair Trade Practices and Consumer Protection Law); Ala. Code 1975 § 8-19-1, *et seq.* (Alabama Deceptive Trade Practices Act); G.S. § 75-1.1, *et seq.* (North Carolina Consumer Protection Act); F.S. § 501.201, *et seq.* (Florida Deceptive and Unfair Trade Practices Act); Va. Code. Ann. § 59.1-196, *et seq.* (Virginia Consumer Protection Act); Tex. Bus. Com. Code Ann. § 17.41, *et seq.* (Texas Deceptive Trade Practices-Consumer Protection Act); Miss. Code Ann. § 75-24-1, *et seq.* (Mississippi Consumer Protection Act).

1575. The Defendants' acts and omissions as well as their failure to use reasonable care in this matter as alleged in this complaint, including but not limited to, the knowing misrepresentation or failure to disclose the source, affiliation, origin, characteristics, ingredients, standards and quality of defective drywall constitute violation of the provisions of the Consumer Protection Acts of the Relevant States.

1576. Plaintiffs and Class Members have suffered actual damages as a result of Defendants' violation of these Consumer Protection Acts and are entitled to relief.

1577. As a direct and proximate cause of Defendants' violations of the Consumer Protection Acts of the Relevant States, Plaintiffs and Class Members have incurred harm and damages as described herein.

COUNT XV
EQUITABLE AND INJUNCTIVE RELIEF AND MEDICAL MONITORING
(All Defendants)

1578. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

1579. Plaintiffs and the Class Members are without adequate remedy at law, rendering injunctive and other equitable relief appropriate.

1580. Plaintiffs and the Class Members will suffer irreparable harm if the Court does not render the injunctive relief and medical monitoring relief set forth herein, and if defendants are not ordered to recall, buy back, rescind, and/or repair the structures owned by Plaintiffs and Class Members.

1581. Plaintiffs, on behalf of themselves and all others similarly situated, demand injunctive and equitable relief and further, that defendants be ordered to: (1) to buy back or rescind the contracts for Plaintiffs' and Class Members' homes or other structures, or in the alternative, remediate, repair and/or replace the drywall in such structures upon proof by the defendants of the feasibility of such remedy or repair; (2) cease and desist from misrepresenting to the Class and the general public that there is no defect in, or danger associated with, the drywall; (3) institute, at their own cost, a public awareness campaign to alert the Class and general public of the defect and dangers associated with the drywall; and (4) create, fund, and support a medical monitoring program.

1582. Until Defendants' defective drywall has been removed and remediated, Defendants must provide continued environmental and air monitoring in the structures owned by Plaintiffs and Class Members.

1583. Plaintiffs and Class Members have been exposed to greater than normal background levels of sulfides and other hazardous chemicals as a result of exposures to Defendants' defective and unfit drywall and have suffered personal injuries as a result.

1584. The sulfides and other noxious gases which have been released from Defendants drywall and to which Plaintiffs and Class Members have been exposed are proven hazardous, dangerous, or toxic substances.

1585. Plaintiffs' and Class Members' exposures were caused by the Defendant's negligent or otherwise tortious conduct.

1586. Plaintiffs' and Class Members' exposure may lead to serious health problems, diseases, and medical conditions that may be prevented by timely medical diagnosis and treatment.

1587. The method and means for diagnosing the Plaintiffs' and Class Members' potential medical problems are well accepted in the medical and scientific community and will be of great benefit to the Plaintiffs and Class Members by preventing or minimizing health problems that they may encounter as a result of the defective and unfit drywall.

1588. As a proximate result of their exposure to sulfide and other noxious gases from Defendants' defective and unfit drywall, Plaintiffs and Class Members have developed a significantly increased risk of contracting a serious latent disease.

1589. Monitoring procedures exist that make the early detection of any latent disease possible that are different from those normally recommended in the absence of the exposure.

1590. The prescribed monitoring regime is reasonably necessary according to contemporary scientific principles.

DEMAND FOR JURY TRIAL

Plaintiffs, individually and on behalf of the Class and Subclass Members, hereby demand a trial by jury as to all issues so triable as a matter of right.

PRAYER FOR RELIEF

WHEREFORE Plaintiffs, on behalf of themselves and all others similarly situated demand upon Defendants jointly and severally for:

- a. an order certifying the case as a class action;
- b. an order certifying the Class and each of the Subclasses;
- c. an order appointing Plaintiffs as the Class Representatives of the Class;
- d. an order appointing undersigned counsel and their firms as counsel for the Class;
- e. compensatory and statutory damages;
- f. punitive damages as allowed by law;
- g. pre and post-judgment interest as allowed by law;
- h. injunctive relief;
- I. an award of attorneys' fees as allowed by law;
- j. an award of taxable costs; and
- k. any and all such further relief as this Court deems just and proper.

Respectfully submitted,

_____ /

PLAINTIFFS’ AMENDED OMNIBUS CLASS ACTION COMPLAINT (IV)

Pursuant to Fed. R. Civ. P. 23, the class representatives in this action bring suit on behalf of themselves and all other similarly situated owners and residents of real property containing defective Chinese manufactured drywall that was designed, manufactured, imported, distributed, delivered, supplied, marketed, inspected, installed, or sold by the Defendants. In order to accomplish an effective class structure, each of the class representatives is pursuing a nationwide class action against the Knauf entities,¹ who are the manufacturers of the drywall located in

¹ Knauf consists of Knauf GIPS KG, Knauf Plasterboard (Tianjin) Co., Ltd., Knauf Plasterboard (Wuhu), Co., Ltd., and Guangdong Knauf New Building Material Products Co., Ltd. (collectively “Knauf”).

plaintiffs' homes. Subordinate to the national class action, the identified class representatives are participating in subclasses asserting claims against each of their distributors, suppliers, importers, exporters, and brokers (Subclasses 1-11); each of their builders and developers (Subclasses 12 - 124); and each of their contractors and installers (Subclasses 125 - 142) for whom they have standing (class and subclass members shall be collectively referred to herein as "Class Members"). Each of the Defendants in this action are liable for damages incurred by Plaintiffs due to their role in the design, manufacture, importing, distributing, delivery, supply, marketing, inspecting, installing, or sale of the defective drywall at issue in this litigation.

JURISDICTION, PARTIES, AND VENUE

1. Original jurisdiction of this Court exists by virtue of 28 U.S.C. §1332(d)(2) and the Class Action Fairness Act ("CAFA"). *See* 28 U.S.C. § 1711, *et. seq.* The Plaintiffs and certain of the Defendants in these actions are citizens of different states and the amounts in controversy in these actions exceed five million dollars (\$5,000,000.00), exclusive of interest and costs.

2. For each subclass, the Court has original jurisdiction under CAFA and/or supplemental jurisdiction under 28 U.S.C. § 1367.

3. Venue in this district satisfies the requirements of 28 U.S.C. §1391(b)(1)-(2) and (c) because Plaintiffs and a significant number of the absent class members reside in this jurisdiction and a substantial amount of the events and occurrences giving rise to these claims occurred in this District, or a substantial part of the property that is the subject of this action is situated in this district. Venue is otherwise appropriate in this district consistent with 28 U.S.C. § 1407 and the June 15, 2009 Transfer Order of the Judicial Panel on Multidistrict Litigation ("JPML"). *See In re: Chinese-Manufactured Drywall Products Liability Litigation*, 626 F.Supp.2d 1346 (J.P.M.L.

Jun. 15, 2009).

PLAINTIFFS

4. For purposes of clarity, the Plaintiffs are asserting claims on behalf of all owners and residents of the subject properties, including but not limited to, minors and other residents of the properties who do not appear herein as named plaintiffs.

FACTS REGARDING PRODUCT DEFECT

680. Upon information and belief, Defendants' drywall contains gypsum.

681. In "defective drywall" (such as that designed, manufactured, exported, imported, distributed, delivered, supplied, inspected, installed, marketed, and/or sold by Defendants herein), the gypsum and other components of the product break down and release sulfides and other noxious gases that are then emitted (or "off-gassed") from the drywall.

682. Sulfides and other noxious gases, such as those emitted from Defendants' drywall, cause corrosion and damage to personal property (such as air conditioning and refrigerator coils, faucets, utensils, electrical wiring, copper, electronic appliances and other metal surfaces and property).

683. Exposure to sulfide and other noxious gases, such as those emitted from Defendants' drywall, causes personal injury resulting in eye irritation, sore throat and cough,

nausea, fatigue, shortness of breath, fluid in the lungs, and/or neurological harm.

684. As a direct and proximate result of Defendants' actions and omissions, Plaintiffs' and the Class Members' structures, personal property, and bodies have been exposed to Defendants' defective and unfit drywall and the corrosive and harmful effects of the sulfide and other noxious gases being released from Defendants' defective drywall.

685. Defendants tortiously manufactured, exported, imported, distributed, delivered, supplied, inspected, installed, marketed and/or sold the defective drywall, which was unfit for its intended purpose and unreasonably dangerous in its normal use in that the drywall caused corrosion and damage to personal property in Plaintiffs' and Class Members' homes, residences or structures and/or caused personal injury resulting in eye irritation, a sore throat and cough, nausea, fatigue, shortness of breath, fluid in the lungs, and/or neurological harm.

686. Defendants recklessly, wantonly, and/or negligently manufactured, exported, imported, distributed, delivered, supplied, inspected, installed, marketed and/or sold the defective drywall at issue in this litigation.

687. Defendants recklessly, wantonly and/or negligently implement faulty, procedures for purposes of formulating, preparing, testing, and otherwise ensuring the quality and/or character of the defective drywall at issue in this litigation.

688. As a direct and proximate result of Defendants' defective and unfit drywall and the corrosive and harmful effects of the sulfide and other noxious gases being released from these products, Plaintiffs and Class Members have suffered, and continue to suffer economic harm and/or personal injury.

689. As a direct and proximate result of Defendants' defective and unfit drywall and the

corrosive and harmful effects of the sulfide and other noxious gases being released from these products, the Plaintiffs and the Class Members have suffered, and continue to suffer damages. These damages include, but are not limited to, costs of inspection; costs and expenses necessary to remedy, replace and remove the defective drywall and other property that has been impacted; lost value or devaluation of their homes, residences or structures and property as a direct result of damage caused to the property and indirect damage resulting from perceived defects to the property, including stigma damages; loss of use and enjoyment of their home and property; and/or damages associated with personal injuries.

690. As a direct and proximate result of Defendants' defective and unfit drywall and the corrosive and harmful effects of the sulfide and other noxious gases being released from these products, Plaintiffs and the Class Members have been exposed to toxic gases, suffered personal injury, have been placed at an increased risk of disease, and have need for injunctive relief in the form of repair and remediation of their home, rescission of their home purchase contracts, the ordering of emergency/corrective notice, the ordering of environmental testing and monitoring, and/or the ordering of medical monitoring.

CLASS ACTION ALLEGATIONS

The Knauf Class

691. All Plaintiffs bring this suit as a class action pursuant to Rules 23(a), (b)(1), (b)(2), (b)(3) and/or 23(c)(4) of the Federal Rules of Civil Procedure, on behalf of themselves and the following Class comprised of:

All owners and residents (past or present) of real property located in the United States containing defective Chinese drywall manufactured, sold, distributed, and/or supplied by Knauf.

The Distributor/Supplier/Importer/Exporter/Broker Subclasses (Subclasses 1-11)

692. The representative Plaintiffs with claims against their distributors/suppliers, set forth in the attached Schedule "1" (the alignment of Plaintiffs and Defendants is depicted in Schedule 1 for each subclass), assert subclasses pursuant to Rules 23(a), (b)(1), (b)(2), (b)(3) and/or 23(c)(4) of the Federal Rules of Civil Procedure, on behalf of themselves and those similarly situated, against the distributors/suppliers for whom they have standing. The designated Plaintiffs in Schedule 1 define their subclasses to be as follows:

All owners and residents (past or present) of real property located in the United States containing Knauf's defective drywall that was sold, distributed, supplied, marketed, inspected, imported, brokered, or delivered by each defendant identified in Schedule 1.

693. The Distributor/Supplier/Importer/Exporter/Broker subclasses identified in Schedule 1 are comprised as follows:

The Contractor/Installer Subclasses (Subclasses 125-142)

696. The representative Plaintiffs with claims against their contractors/installers, set forth in the attached Schedule “3” (the alignment of Plaintiffs and Defendants is depicted in Schedule 3 for each subclass), assert subclasses pursuant to Rules 23(a), (b)(1), (b)(2), (b)(3) and/or 23(c)(4) of the Federal Rules of Civil Procedure, on behalf of themselves and those similarly situated, against the contractors/installers for whom they have standing. The designated

Plaintiffs in Schedule 3 define their subclasses to be as follows:

All owners and residents (past or present) of real property located in the United States containing Knauf's defective drywall where each of the defendants identified in Schedule 3 was the contractor or installer of the drywall for the property.

697. The contractor/installer subclasses identified in Schedule 3 are comprised as follows:

Subclass #125:	AI Brothers, Inc.
Subclass #126:	Baystate Drywall, Inc.
Subclass #127:	Can-Am Drywall, Inc. (successor to Baystate Drywall, Inc.)

Subclass #141:	Richard Hoover

Subclass #142: Robert/Charles Builders, Inc.

General Class Allegations and Exclusions from the Class Definitions

698. The following Persons shall be excluded from the Class and Subclasses: (1) Defendants and their subsidiaries, affiliates, officers and employees; (2) all Persons who make a timely election to be excluded from the proposed Class; (3) governmental entities; and (4) the judge(s) to whom this case is assigned and any immediate family members thereof.

699. Upon information and belief, Knauf's defective and unfit drywall was installed in at least hundreds of homes, residences, or other structures owned by Plaintiffs and Class Members. Therefore, the Class and Subclasses are sufficiently numerous such that the joinder of all members of the Class and Subclasses in a single action is impracticable.

700. There are numerous common questions of law and fact that predominate over any questions affecting only individual members of the Class or Subclasses. Among these common questions of law and fact are the following:

- a. whether Defendants' drywall products that release sulfide and other noxious gases are defective and/or unfit for their intended purpose;
- b. whether Defendants tortiously manufactured, exported, imported, distributed, delivered, supplied, inspected, installed, marketed, and/or sold defective drywall products;
- c. whether Plaintiffs are entitled to recover compensatory, exemplary, incidental, consequential, and/or other damages as a result of Defendants' unlawful and tortious conduct; and
- d. whether Plaintiffs are entitled to recover injunctive and/or equitable relief as a

result of Defendants' unlawful and tortious conduct.

701. The legal claims of named Plaintiffs are typical of the legal claims of other Class and Subclass Members. Additionally, for each of the subclasses that named Plaintiffs seek to participate in, the legal claims of the named Plaintiffs are typical of the legal claims of other Subclass Members. Named Plaintiffs have the same legal interests and need for legal remedies as other Class and/or Subclass Members.

702. Named Plaintiffs are adequate representatives of the Class and Subclasses in which they participate, together with their legal counsel, each will fairly and adequately protect the interests of Class and Subclass Members. Named Plaintiffs have no known conflict with the Class or Subclasses and are committed to the vigorous prosecution of this action.

703. The undersigned counsel are competent counsel experienced in class action litigation, mass torts, and complex litigation involving defective and harmful products. Counsel will fairly and adequately protect the interests of the Class and Subclasses.

704. The various claims asserted in this action are certifiable under the provisions of Federal Rules of Civil Procedure 23(b)(1) because prosecuting separate actions by or against individual Class and/or Subclass members would create a risk of inconsistent or varying adjudications with respect to individual Class and Subclass members that would establish incompatible standards of conduct for the party opposing the Class and Subclass; or adjudications with respect to individual Class and Subclass members that, as a practical matter, would be dispositive of the interests of the other Class and Subclass members not parties to the individual adjudications or would substantially impair or impede their ability to protect their interests.

705. The claims for injunctive relief in this case are certifiable under Fed. R. Civ. P. 23(b)(2). Defendants have acted or refused to act on grounds that apply generally to the Class and/or Subclass, so that final injunctive relief is appropriate respecting the Class and/or Subclass as a whole.

706. A class action is superior in this case to other methods of dispute resolution. The Class and Subclass members have an interest in class adjudication rather than individual adjudication because of their overlapping rights. It is highly desirable to concentrate the resolution of these claims in this single forum because it would be difficult and highly unlikely that the affected Class and Subclass Members would protect their rights on their own without this class action case. Management of the class will be efficient and far superior to the management of individual lawsuits. Accordingly, Plaintiffs' legal claims are properly certified pursuant to Rule 23(b)(3).

707. The issues particularly common to the Class and Subclass members' claims, some of which are identified above, are alternatively certifiable pursuant to Fed. R. Civ. P. 23(c)(4), as resolution of these issues would materially advance the litigation, and class resolution of these issues is superior to repeated litigation of these issues in separate trials.

COUNT I
NEGLIGENCE
(Against All Defendants)

708. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

709. Defendants owed a duty to Plaintiffs and Class Members to exercise reasonable care in a) designing, b) manufacturing, c) exporting, d) importing, e) distributing, f) delivering, g) supplying, h) inspecting, i) installing, j) marketing, and/or k) selling this drywall, including a

duty to adequately warn of their failure to do the same.

710. Defendants knew or should have known that their wrongful acts and omissions would result in harm and damages in the manner set forth herein.

711. Defendants breached their duty to exercise reasonable care in the designing, manufacturing, exporting, importing, distributing, delivering, supplying, inspecting, marketing, and/or selling this drywall.

712. Defendants likewise breached their duties to Plaintiffs and Class Members by failing to warn about the defective nature of the drywall. Defendants, through the exercise of reasonable care, knew or should have known the nature of the defective drywall and the adverse effects that it could have on the property and bodies of Plaintiffs and Class Members.

713. Defendants breached their duty to exercise reasonable care to timely remove and/or recall from the market and/or otherwise prevent the continued contact of Plaintiffs and Class Members with the drywall, upon learning it had been sold in an unreasonably dangerous condition.

714. Given the defect in the Defendants' drywall, Defendants knew or should have known that their product could, and would, cause harm, damages and/or personal injuries to Plaintiffs and Class Members.

715. As a direct and proximate cause of Defendants' acts and omissions, Plaintiffs and Class Members were harmed and have incurred damages and/or personal injuries as described herein.

COUNT II
NEGLIGENCE PER SE
(Against All Defendants)

716. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

717. Defendants owed statutory duties to Plaintiffs and Class Members to exercise

reasonable care in a) designing, b) manufacturing, c) exporting, d) importing, e) distributing, f) delivering, g) supplying, h) inspecting, I) marketing, and/or j) selling this drywall.

718. Defendants breached their statutory duties to the Plaintiffs and Class Members by failing to exercise reasonable care in a) designing, b) manufacturing, c) exporting, d) importing, e) distributing, f) delivering, g) supplying, h) inspecting, I) marketing, and/or j) selling this drywall.

719. Defendants likewise breached their statutory duties, including but not limited to those imposed under the International Building Code (“IBC”) and other State and local Building Codes, to Plaintiffs and Class Members by failing to warn about the defective nature of the drywall. For instance, it is specifically alleged that Defendants furnished the drywall in violation of ASTM C 1396/C 1396M-069, and its predecessor(s).

720. Defendants, through the exercise of reasonable care, knew or should have known the nature of the defective drywall and the adverse effects that it could have on the property and bodies of Plaintiffs and Class Members.

721. Given the defect in the Defendants’ drywall, Defendants knew or should have known that their product could, and would, cause harm, damages and/or personal injuries to Plaintiffs and Class Members.

722. As a direct and proximate cause of Defendants’ acts and omissions, Plaintiffs and Class Members were harmed and have incurred damages and/or personal injuries as described herein.

COUNT III
STRICT LIABILITY
(All Defendants)

723. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

724. At all times relevant hereto, Defendants were in the business of distributing, delivering,

supplying, inspecting, marketing, and/or selling drywall for sale to the general public.

725. The drywall, including that installed in the homes of Class Members was placed by Defendants in the stream of commerce.

726. Defendants knew that the subject drywall would be used without inspection for defects by consumers.

727. Defendants intended that the drywall reach the ultimate consumers, such as Class Members, and it indeed reached Class Members when it was installed in their homes.

728. When installed in Class Members' homes, the drywall was in substantially the same condition as it was in when Defendants manufactured, sold, and/or delivered it.

729. At all times relevant hereto the subject drywall was used in a manner consistent with the uses intended by, or known to Defendants, and in accordance with the Defendants' directions and instructions.

730. The subject drywall was not misused or altered by any third parties.

731. The Defendants' drywall was defectively manufactured, designed, inspected, tested, marketed, distributed, and sold.

732. The design defect was in designing drywall that allowed high levels of sulfur and/or other chemicals to emit through off-gassing.

733. The manufacturing defect was in improperly selecting, testing, inspecting, mining, making, assembling, and using, gypsum for drywall with levels of sulfur that were too high and emitted various sulfide gases and/or other chemicals through off-gassing.

734. The drywall was also defective because it was improperly exported, imported, distributed, delivered, supplied, inspected, marketed, and/or sold in a defective condition, as

described above.

735. The Defendants' defective manufacturing, designing, inspecting, testing, marketing, distributing, and selling of the drywall rendered it unsafe and unreasonably dangerous for its intended use and to Class Members.

736. The drywall is also defective and unreasonably dangerous because Defendants failed to adequately warn and instruct Class Members of the defective design, inspection, testing, manufacturing, marketing, and selling of the drywall.

737. Class Members were unaware of the unreasonably dangerous propensities and defective condition of the drywall, nor could Class Members, acting as reasonably prudent people discovery that Defendants' drywall was defective, as set forth herein, or perceive its danger.

738. Defendants' defective drywall was much more dangerous and harmful than expected by the average consumer and by Class Members.

739. Defendants' defective drywall benefit to Class Members, if any, was greatly outweighed by the risk of harm and danger to them.

740. The defects in the drywall, as well as Defendants' failure to adequately warn Class Members of the defects rendered the drywall unreasonably dangerous and was the direct and proximate cause of damages and/or personal injuries to Class Members.

COUNT IV
BREACH OF EXPRESS AND/OR IMPLIED WARRANTIES
(All Defendants)

741. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

742. Defendants and/or their agents were in privity with Plaintiffs and Class Members and/or Plaintiffs and Class Members were foreseeable third party beneficiaries of any warranty.

743. At the times Defendants utilized, supplied, inspected, and/or sold this drywall for use in structures owned by Plaintiffs and Class Members, Defendants knew, or it was reasonably foreseeable, that the drywall would be installed in structures owned by Plaintiffs and Class Members for use as a building material, and expressly or impliedly warranted the product to be fit for that use.

744. Defendants placed their drywall products into the stream of commerce in a defective condition and these products were expected to, and did, reach users, handlers, and persons coming into contact with said products without substantial change in the condition in which they were sold.

745. The drywall was defective and not merchantable because it was unfit for the uses intended or reasonably foreseeable by Defendants; to wit, the installation of the drywall in structures owned by Plaintiffs and Class Members for use as a building material, because it contained defects as set forth herein.

746. The Defendants breached their warranty because the drywall was not fit and safe for the particular purposes for which the goods were required (to be installed in structures owned by Plaintiffs and Class Members as a building material) due to the defects set forth herein.

747. Defendants had reasonable and adequate notice of the Plaintiffs' and the Class Members' claims for breach of warranty and failed to cure.

748. As a direct and proximate cause of Defendants' breach of warranties, Plaintiffs and Class Members have incurred harm and damages and/or personal injuries as described herein.

COUNT V
BREACH OF THE IMPLIED WARRANTY OF FITNESS AND MERCHANTABILITY
PURSUANT TO FLORIDA STATUTES SECTION 718.203
(On Behalf of Plaintiffs Who Own Condominiums in the State of Florida)
(Against Builders Only)

749. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

750. Subclass Members who own condominiums in Florida, are owners of condominiums as that term is defined by Florida Statutes section 718.503.

751. Such Subclass Members, as owners, are entitled to the benefit of the statutory warranties of fitness and merchantability pursuant to Florida Statutes section 718.203.

752. Each of the builders who are subject to this claim are developers, as defined by Florida Statutes section 718.203(16), as they created condominiums or offered condominiums for sale in the ordinary course of business.

753. Pursuant to Florida Statutes section 718.203(1)(a-e), each of the builders who are subject to this claim is deemed to have granted Subclass Members, who own condominiums in Florida, an implied warranty of fitness and merchantability for the purposes or uses as follows:

- a. As to each unit, a warranty for 3 years commencing with the completion of the building containing the unit.
- b. As to the personal property that is transferred with, or appurtenant to, each unit, a warranty which is for the same period as that provided by the manufacturer of the personal property, commencing with the date of closing of the purchase or the date of possession of the unit, whichever is earlier.
- c. As to all other improvements for the use of unit owners, a 3 year warranty commencing with the date of completion of the improvements.
- d. As to all other personal property for the use of unit owners, a warranty which shall be the same as that provided by the manufacturer of the personal property.
- e. As to the roof and structural components of a building or other improvements and as to mechanical, electrical, and plumbing elements serving improvements or a

building, except mechanical elements serving only one unit, a warranty for a period beginning with the completion of construction of each building or improvement and continuing for 3 years thereafter or 1 year after owners other than the developer obtain control of the association, whichever occurs last, but in no event more than 5 years.

754. At all times relevant hereto, routine maintenance was performed by Subclass Members and/or the builders who are subject to this claim or by an association controlled by such builders.

755. At the times the builders who are subject to this claim installed, utilized, supplied, inspected, and/or sold drywall for use in the Subclass Members' homes, the builders knew, or it was reasonably foreseeable, that the drywall would be installed in the Subclass Members' homes for use as a building material, and warranted the product be fit and merchantable for that use.

756. Defendants' drywall product was placed into the stream of commerce by the builders who are subject to this claim in a defective condition and was expected to, and did, reach users, handlers, and persons coming into contact with said product without substantial change in the condition in which it was sold.

757. The drywall was defective because it was not fit for the uses intended or reasonably foreseeable by the builders; to wit, the installation of the drywall in Subclass Members' homes for use as a building material, because it contained defects as set forth herein.

758. The builders who are subject to this claim breached the implied warranty of merchantability and fitness because the drywall was not fit to be installed in Subclass Members' homes as a building material due to the defects set forth herein.

759. The builders who are subject to this claim had reasonable and adequate notice of the Subclass Members' claims for breach of implied warranty of fitness and merchantability and failed to cure.

760. As a direct and proximate cause of the builders' breach of the warranties under Florida Statutes section 718.203, Subclass Members have incurred harm and damages and/or personal injuries as described herein.

COUNT VI
BREACH OF THE IMPLIED WARRANTY OF HABITABILITY
(Against Builders Only)

761. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

762. The Builder Defendants were in direct contractual privity with their Subclass Members.

763. The drywall that the Builder Defendants installed in the homes of Subclass Members was placed into the stream of commerce by the Builder Defendants in a defective condition and was expected to, and did, reach users, handlers, and persons coming into contact with said drywall product without substantial change in the condition in which it was sold.

764. Certain Subclass Members bought their homes containing defective drywall based upon the judgment of the Builder Defendants.

765. The Builder Defendants breached the implied warranty of habitability because the defective drywall causes Subclass Members homes not to meet ordinary, normal standards reasonably to be expected of living quarters of comparable kind and quality due to the defects set forth herein.

766. The Builder Defendants had reasonable and adequate notice of the claims of the Subclass Members for breach of implied warranty of habitability and failed to cure.

767. As a direct and proximate cause of the Builder Defendants' breach of the implied warranty of habitability, Plaintiffs and Subclass Members have incurred harm and damages and/or personal injuries as described herein.

COUNT VII
BREACH OF CONTRACT
(Against Builders Only)

768. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

769. As part of the agreements to purchase real properties from the Builder Defendants, for which Subclass Members paid valuable consideration, the Builder Defendants contracted with Subclass Members to construct homes that would be free of defects.

770. The Builder Defendants materially breached their contracts by providing Subclass Members with defective homes; to wit, the homes contained drywall that is inherently defective because it emits various sulfide and other noxious gases through off-gassing that causes harm and damage as described herein.

771. As a direct and proximate cause of the Builder Defendants' breach of contract, Plaintiffs and Subclass Members have incurred harm and damages as described herein.

COUNT VIII
VIOLATION OF THE LOUISIANA NEW HOME WARRANTY ACT
(on Behalf of Plaintiffs Who Own Homes in the State of Louisiana)
(Against Louisiana Builders Only)

772. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

773. The Louisiana New Home Warranty Act provides protection to owners of homes against builders in connection with the construction of the homes.

774. For each applicable subclass, every subclass plaintiff is an “owner,” as that term is defined by LSA-R.S. 9:3143(3), who is asserting a claim under the New Home Warranty Act against their “builder,” as that term is defined by LSA-R.S. 9:3143(1).

775. Implicit in every Builder Defendant’s building contract is the requirement that the work to be completed be performed in a workmanlike manner that is free from defects in material and workmanship.

776. Each of the Builders who are subject to this claim violated their duty to use materials that are free from defects. The Knauf drywall used by these Builders is defective for the reasons set forth above.

777. Given the defect in the Knauf drywall, the Builders knew or should have known that their product could, and would, cause harm, damages and/or personal injuries to Plaintiffs and Class Members.

778. As a direct and proximate cause of the Builders’ acts and omissions, Plaintiffs and Class Members were harmed and have incurred damages and/or personal injuries as described herein.

COUNT IX
REDHIBITION
(By Louisiana Plaintiffs Against All Defendants)

779. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

780. The drywall manufactured, distributed and/or sold by Defendants was not reasonably fit for its ordinary and intended purpose.

781. Defendants are therefore liable to Louisiana Plaintiffs for all damages reasonable in the premises, in accordance with La. Civ. Code art. 2524.

782. In addition, or in the alternative, the drywall manufactured, distributed and/or sold by Defendants contained redhibitory defects, in that, at the time of delivery, the propensity to emit or off-gas Sulfur compounds and/or other potentially harmful, irritating and/or corrosive substances renders the drywall so useless and/or inconvenient that it must be presumed that Plaintiffs would not have purchased the drywall had they known of the defect or defects.

783. In the alternative, the defects are redhibitory in that, while not rendering the drywall totally useless, diminish the drywall's use and/or value to such an extent that it must be presumed that the buyer would have bought it, but for a lesser price.

784. The Manufacturing Defendants are conclusively presumed to know of the defects in the drywall manufactured by them.

785. In addition, it is believed and alleged that All Defendants knew of the defects in the drywall at the time the drywall was delivered and/or sold.

786. Defendants have had numerous opportunities to repair and/or replace the drywall and associated fixtures and/or building components and have failed to do so; in addition, and/or in the alternative, such requests have been, would have been and/or would be futile; Manufacturing

Defendants and/or Distributor Defendants are, moreover, deemed to be placed on notice when notice is provided to Builder Defendants (and/or Distributor Defendants); and All Defendants, in addition, or alternatively, had actual knowledge of the problems in the drywall and the need for replacement, remediation and/or repair.

787. All Defendants are therefore liable to all Louisiana Plaintiffs for a return of the purchase price, (with interest from the time it was paid), reimbursement of the reasonable expenses occasioned by the sale and those incurred for the preservation of the drywall and associated items, for damages, and for reasonable attorneys' fees, in accordance with La. Civ. Code art. 2545.

788. In the alternative, to the extent that any Distributor Defendant and/or Builder Defendant did not know of the defects in the drywall at the time of delivery and/or sale, those defendants are liable to Louisiana Plaintiffs to repair, remedy or correct the defect; and/or, if unable to do so, for a return of the purchase price, (with interest from the time it was paid), reimbursement of the reasonable expenses occasioned by the sale, and those expenses incurred for the preservation of the drywall and associated items, in accordance with La. Civ. Code art. 2531.

COUNT X
LOUISIANA PRODUCTS LIABILITY ACT
(Manufacturing Defendants)
(Pleaded in the Alternative Against Distributor Defendants)

789. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

790. In addition to any and all damages, attorneys fees and other remedies made available to Louisiana Plaintiffs under the warranty of fitness and/or warranty against redhibitory defects, the Manufacturing Defendants are liable to Louisiana Plaintiffs under the Louisiana Products Liability Act, ("LPLA"), La. R.S. 9:2800.51, *et seq.*

791. The LPLA is also pleaded in the alternative with respect to any Distributor Defendant who might be considered a “manufacturer” under La. R.S. 9:2800.53(1)(a) (labels or otherwise holds the drywall out as his own), 9:2800.53(1)(b) (exercises control over or influences a characteristic of the drywall causing damage), 9:2800.53(1)(c) (the manufacturer of a product which contains the drywall as a component part), and/or 9:2800.53(1)(d) (a seller of a product of an alien manufacturer where the seller is in the business of importing or distributing the drywall for resale and is the *alter ego* of the alien manufacturer).

792. The Manufacturing Defendants, upon information and belief, expressly warranted that “the gypsumboards manufactured and sold ... are guaranteed to be free from defects in materials and workmanship.”

793. The Manufacturing Defendants expressly warranted that “the gypsumboards were manufactured in accordance to ASTM C36.”

794. The drywall at issue is, in all cases, unreasonably dangerous by virtue of the unreasonable off-gassing and/or emission of Sulfer compounds and/or other corrosives, toxins and/or irritants, which do not in any way contribute to or enhance the utility of the drywall, yet pose a risk to the wiring, plumbing, appliances, personal property, overall economic value of the property and financial security of the owner, and/or the health of the residents of the property.

795. At all times pertinent and material hereto, there existed alternative feasible manufacturing processes and/or designs of drywall which perform all of the functions and utility of traditional drywall, without emitting unreasonable levels of Sulfer and/or other toxic and/or corrosive compounds.

796. At all times pertinent and material hereto, Manufacturing Defendants (and/or

Distributor Defendants who may be considered “manufacturers” under the LPLA) knew that their drywall was unreasonably dangerous and/or defective as set forth herein.

797. In the alternative, Manufacturing Defendants (and/or Distributer Defendants who may be considered “manufacturers” under the LPLA) should have, at all times pertinent and material hereto, known of the unreasonably dangerous and/or defective characteristics and/or conditions, had they reasonably employed then-existing scientific and/or technical knowledge, reasonable testing, and/or other reasonable and then-accepted methods of quality assurance and/or quality control.

798. Defendants’ drywall is unreasonably dangerous in composition or construction in that, at the time it left Defendant’s control, it deviated in a material way from Defendant’s own specifications or performance standards.

799. In addition, and in the alternative, Defendants’ drywall is unreasonably dangerous in design, in that, at the time the drywall left Defendant’s control, there existed an alternative design for the product that was capable of preventing Plaintiffs’ damage, and the likelihood of causing the plaintiffs’ damage and the gravity of that harm outweighed the burden (if any) on the Defendant in adopting such alternative design and the adverse effect (if any) on the utility of the drywall.

800. In addition, and in the alternative, Defendants’ drywall is unreasonably dangerous in that it fails to conform to an express warranty about the product which induced the use of the product and caused damage to Plaintiffs to the extent that the warranty was untrue.

801. In addition, and in the alternative, Defendants’ drywall is unreasonably dangerous due to an inadequate warning, in that, at the time the drywall left Defendant’s control, the drywall possessed a characteristic that might cause damage and yet Defendant failed to use reasonable care to provide an adequate warning of such characteristics and/or dangers to users and/or handlers of the drywall.

802. Defendants are therefore liable to Louisiana Plaintiffs for all damages reasonable in the premises.

COUNT XI
PRIVATE NUISANCE
(All Defendants)

803. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

804. The Defendants' tortious or wrongful acts or omissions have caused sulfide gas and/or other chemical leaching into structures owned by Plaintiffs and Class Members which has unreasonably interfered, and continues to interfere, with the Plaintiffs' and Class Members' use and enjoyment of their properties and caused them harm and damage as discussed herein.

805. Defendants' interference has impaired the rights of Plaintiffs' and Class Members' health, comfort, safety, free use of their property, and/or peaceful enjoyment of their property.

806. Defendants' invasions were intentional and unreasonable, and/or unintentional but otherwise negligent or reckless.

807. The interference with Plaintiffs' and Class Members' use of their property caused by Defendants is substantial and is ongoing.

808. Defendants' private nuisance was the direct, proximate, and foreseeable cause of Plaintiffs' and Class Members' damages, injuries, harm, loss, and increased risk of harm, which they suffered and will continue to suffer.

809. As a direct and proximate cause of Defendants' creation of a private nuisance, Plaintiffs and Class Members have incurred harm and damages and/or personal injuries as described herein.

COUNT XII
NEGLIGENT DISCHARGE OF A CORROSIVE SUBSTANCE
(All Defendants)

810. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

811. Defendants had actual or constructive knowledge of the extremely corrosive and dangerous propensities of the drywall at issue in this litigation.

812. Notwithstanding their actual or constructive knowledge of the corrosive and dangerous propensities of the drywall, Defendants nevertheless designed, manufactured, imported, distributed, delivered, supplied, marketed, inspected, installed, or sold the drywall for use in the homes or other structures owned by Plaintiffs and class members.

813. By causing the sale, distribution, delivery, and/or supply of the drywall under these circumstances, Defendants breached their duty to exercise reasonable care and created a foreseeable zone of risk of injury to Plaintiffs and class members.

814. Defendants likewise breached their duties to Plaintiffs and Class Members by failing to warn about the corrosive and dangerous propensities of the drywall. Defendants, through the exercise of reasonable care, knew or should have known the nature of the defective drywall and the adverse effects that it could have on the property and bodies of Plaintiffs and Class Members.

815. Plaintiffs and class members have suffered injuries by virtue of their exposure to the defective drywall at issue in this litigation. Given the defect in the Defendants' drywall, Defendants knew or should have known that their product could, and would, cause harm, damages and/or personal injuries to Plaintiffs and Class Members.

816. As a direct and proximate result of Defendants' acts and omissions, Plaintiffs and Class Members were harmed and have incurred damages and/or personal injuries as described herein. The

injuries sustained by Plaintiffs and Class Members are within the foreseeable zone of risk created by Defendants.

COUNT XIII
UNJUST ENRICHMENT
(All Defendants)

817. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

818. Defendants received money as a result of Plaintiffs' and Class Members' purchases of Defendants' defective drywall, or purchases of structures containing this drywall, either directly or through an agent, and Defendants wrongfully accepted and retained these benefits to the detriment of Plaintiffs and Class Members.

819. Defendants' acceptance and retention of these benefits under the circumstances make it inequitable and unjust for Defendants to retain the benefit without payment of the value to the Plaintiffs and the Class Members.

820. Defendants, by the deliberate and tortious conduct complained of herein, have been unjustly enriched in a manner which warrants restitution.

COUNT XIV
VIOLATION OF CONSUMER PROTECTION ACTS
(All Defendants)

821. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

822. This is an action for relief under the various Consumer Protection Acts of the jurisdictions in which affected properties are present, including but not limited to, L.S.A.-R.S. 51:1401, *et seq.* (Louisiana Unfair Trade Practices and Consumer Protection Law); Ala. Code 1975 § 8-19-1, *et seq.* (Alabama Deceptive Trade Practices Act); G.S. § 75-1.1, *et seq.* (North Carolina Consumer Protection Act); F.S. § 501.201, *et seq.* (Florida Deceptive and Unfair Trade Practices

Act); Va. Code. Ann. § 59.1-196, *et seq.* (Virginia Consumer Protection Act); Tex. Bus. Com. Code Ann. § 17.41, *et seq.* (Texas Deceptive Trade Practices-Consumer Protection Act); Miss. Code Ann. § 75-24-1, *et seq.* (Mississippi Consumer Protection Act).

823. The Defendants' acts and omissions as well as their failure to use reasonable care in this matter as alleged in this amended complaint, including but not limited to, the knowing misrepresentation or failure to disclose the source, affiliation, origin, characteristics, ingredients, standards and quality of defective drywall constitute violation of the provisions of the Consumer Protection Acts of the Relevant States.

824. Plaintiffs and Class Members have suffered actual damages as a result of Defendants' violation of these Consumer Protection Acts and are entitled to relief.

825. As a direct and proximate cause of Defendants' violations of the Consumer Protection Acts of the Relevant States, Plaintiffs and Class Members have incurred harm and damages as described herein.

COUNT XV
EQUITABLE AND INJUNCTIVE RELIEF AND MEDICAL MONITORING
(All Defendants)

826. Plaintiffs adopt and restate the preceding paragraphs as if fully set forth herein.

827. Plaintiffs and the Class Members are without adequate remedy at law, rendering injunctive and other equitable relief appropriate.

828. Plaintiffs and the Class Members will suffer irreparable harm if the Court does not render the injunctive relief and medical monitoring relief set forth herein, and if defendants are not ordered to recall, buy back, rescind, and/or repair the structures owned by Plaintiffs and Class Members.

829. Plaintiffs, on behalf of themselves and all others similarly situated, demand injunctive and equitable relief and further, that defendants be ordered to: (1) to buy back or rescind the contracts for Plaintiffs' and Class Members' homes or other structures, or in the alternative, remediate, repair and/or replace the drywall in such structures upon proof by the defendants of the feasibility of such remedy or repair; (2) cease and desist from misrepresenting to the Class and the general public that there is no defect in, or danger associated with, the drywall; (3) institute, at their own cost, a public awareness campaign to alert the Class and general public of the defect and dangers associated with the drywall; and (4) create, fund, and support a medical monitoring program.

830. Until Defendants' defective drywall has been removed and remediated, Defendants must provide continued environmental and air monitoring in the structures owned by Plaintiffs and Class Members.

831. Plaintiffs and Class Members have been exposed to greater than normal background levels of sulfides and other hazardous chemicals as a result of exposures to Defendants' defective and unfit drywall and have suffered personal injuries as a result.

832. The sulfides and other noxious gases which have been released from Defendants drywall and to which Plaintiffs and Class Members have been exposed are proven hazardous, dangerous, or toxic substances.

833. Plaintiffs' and Class Members' exposures were caused by the Defendant's negligent or otherwise tortious conduct.

834. Plaintiffs' and Class Members' exposure may lead to serious health problems, diseases, and medical conditions that may be prevented by timely medical diagnosis and treatment.

835. The method and means for diagnosing the Plaintiffs' and Class Members' potential medical problems are well accepted in the medical and scientific community and will be of great benefit to the Plaintiffs and Class Members by preventing or minimizing health problems that they may encounter as a result of the defective and unfit drywall.

836. As a proximate result of their exposure to sulfide and other noxious gases from Defendants' defective and unfit drywall, Plaintiffs and Class Members have developed a significantly increased risk of contracting a serious latent disease.

837. Monitoring procedures exist that make the early detection of any latent disease possible that are different from those normally recommended in the absence of the exposure.

838. The prescribed monitoring regime is reasonably necessary according to contemporary scientific principles.

DEMAND FOR JURY TRIAL

Plaintiffs, individually and on behalf of the Class and Subclass Members, hereby demand a trial by jury as to all issues so triable as a matter of right.

PRAYER FOR RELIEF

WHEREFORE Plaintiffs, on behalf of themselves and all others similarly situated demand upon Defendants jointly and severally for:

- a. an order certifying the case as a class action;
- b. an order certifying the Class and each of the Subclasses;
- c. an order appointing Plaintiffs as the Class Representatives of the Class;
- d. an order appointing undersigned counsel and their firms as counsel for the Class;

- e. compensatory and statutory damages;
- f. punitive damages as allowed by law;
- g. pre and post-judgment interest as allowed by law;
- h. injunctive relief;
- I. an award of attorneys' fees as allowed by law;
- j. an award of taxable costs; and
- k. any and all such further relief as this Court deems just and proper.

Respectfully submitted,
