

## VUPEN Exploits for Law Enforcement Agencies

“ Law enforcement agencies need the most advanced IT intrusion research and the most reliable attack tools to covertly and remotely gain access to computer systems. Using previously unknown software vulnerabilities and exploits which bypass Antivirus products and modern operating system protections such as Data Execution Prevention (DEP) and Address Space Layout Randomization (ASLR) could help investigators to successfully achieve this task. ”

*Chaouki Bekrar, VUPEN Security CEO*

While social engineering or physical access is often used by law enforcement agencies and investigators to gain access to computer systems and install monitoring and interception tools on target PCs or mobile devices, using 0-day exploits taking advantage of previously unknown software vulnerabilities can help investigators in speeding up the process while covertly and remotely installing payloads on PCs and mobiles.

To respond to this challenge, VUPEN Exploits for Law Enforcement Agencies aim to deliver exclusive exploit codes for undisclosed vulnerabilities discovered in-house by VUPEN security researchers. This is a reliable and secure approach to help LEAs and investigators in covertly attacking and gaining access to remote computer systems.

Access to this program is restricted to Intelligence and Law Enforcement Agencies under NDA (Non-Disclosure Agreement) in countries members or partners of NATO, ANZUS and ASEAN.

### How it works

#### 1. Subscribe and become a VUPEN member

As a member, you will have a specific number of credits and you will have access to:

- a private and secure portal to browse the list of available codes published by VUPEN with relevant technical details such as the targeted software, operating system and reliability
- a real-time notification to get alerted as soon as a new vulnerability is discovered by VUPEN and the research code is added to the portal

#### 2. Select a code

Each code is available at a specific cost (1, 2, 3 or 4 credits) depending on its coverage, reliability, value and number of underlying vulnerabilities.

#### 3. Download the code

Once you select a code, you will be able to download it from the portal and the related credits will be deducted from your account.

### Membership benefits

- . Work with a recognized and trusted provider of IT security intelligence
- . Access the most advanced and exclusive vulnerability research
- . Get highly reliable codes defeating modern exploit mitigation technologies

### Pricing and Licensing

VUPEN Exploits for Law Enforcement Agencies are priced as a prepaid annual subscription which includes a specific number of credits.

### About VUPEN Security

VUPEN has been recognized as "Entrepreneurial Company of the Year in the Vulnerability Research Market" by Frost & Sullivan.

VUPEN team includes highly skilled and motivated security researchers dedicated to finding critical and unpatched vulnerabilities in prominent and widely deployed software created by Microsoft, Adobe, Sun, Apple, Oracle, Novell, and others.
