Right. I was juggling several e-mails and phone calls at time. I could call her back if you want me to nail that down.

Ch 11 just called for comment on would-be Mayor Monegan. I assume unless he attacks you, we're staying out of that.

Several calls on Levi's mother; I've been giving a flat no comment. AP called twice on Bristol's baby. I understand from Kris that we should not get involved with that, either. However, when the time comes, is there anyone we can refer reporters to?

That was my medical records summary maybe? I know that was released.

It was something about a letter that was released during the campaign; Lisa was looking for more, but Becky said they were sticking to that.

Hmmmm. Well, we don't use Providence (Dr. CBJ is employed there though), but Bristol did see a doc there at the beginning of her pregnancy before she told me about it and switched to a Valley doc... she thought it would be more confidential that way :)

Wonder what angle they're on w Providence.

Perhaps the sarcastic Anastasia press release to call attention to the Daily News shenanigans and to launch a pre-emptive strike on the story?

Just got a call from Becky Hultberg at Providence. Lisa is trying to pry loose more medical information. Becky says they've refused to provide anything that wasn't already public.

No, it sounds like they are putting together a timeline of pregnancies.

I really thought I could not be any more disgusted with the Daily News. Superintendant Carol Comeau just called me to let me know that Lisa Deemer called her asking about Bristol's attendance at West High. Carol checked with the school district attorneys to see if she could withhold the information, she could not. I am sure a very unpleasant article is in the works.
