They're not going to staff the session but they've got time and resources for this sleaze. We need to call them out for the predators they are. I'd say they call this off once and for all, or no access at all ever again, and we make sure everyone knows why. In my 30-year journalism career, I never pursued a story like this.

I think this warrants a high-level complaint. It has become an insufferable outrage. Mike, I recommend we ask for the publisher to meet with you. If this continues, I think we have to cut the ADN off and tell the world why.

The ADN wanted to know for the 96th time whether the governor was Trig's mom.

Lisa-

I spoke to the Governor about your request to speak with her about Trig. We both agree that if we continue to address these ridiculous accusations, the rumors will never go away.
