

## Statement from Student Body Vice President of External Affairs

On April 9th 2012, Cabinet had a meeting to discuss the Superfrog statue - one of many topics. However, as a potential witness in the upcoming trial I prefer to refrain from public comment to respect the rights and environment of TCU's judicial board. It is my job and desire to serve the student body and allow the formal powers and procedures that the Student Government Association has in place to exercise authority.

I can assure you that if asked to testify at a judicial hearing, I will give an honest and accurate account to the best of my ability. But, at this time, I have many other responsibilities which include serving the student body and leading it through this difficult time. I am a representative of TCU and will serve it faithfully. I want to be clear, I am not taking sides, I am not trying to be deceiving. I care deeply for all of SGA and value my relationships with all people I work with and represent over any issue that may come up. To be fair to them and TCU I will humbly support and care for all parties, regardless of the outcome.

I thank you for your time and support.

Sincerely,

Alexander Graham McMillan  
Student Body Vice-President of External Affairs
