CREATING A SMARTER ENERGY FUTURE FOR NOVA SCOTIA.

We’re modernizing Nova Scotia’s electricity grid to provide customers with more convenience, reliability and control. The first step is upgrading current meters to smart meters – work that will begin in late 2019 and continue through early 2021.

nspower.ca/smartmeters
WHEN SMART TECHNOLOGY IS TURNED ON IN 2021, YOU WILL BEGIN ENJOYING THE FOLLOWING BENEFITS:

**INFORMATION IS POWER**
Access to daily information on your energy usage and notifications, helping you to make more informed decisions and manage your electricity costs.

**ENHANCED SERVICE**
Connecting or disconnecting your electricity will be easier and faster with no on-site appointment required.

**QUICKER RESPONSE**
Smart meters will notify us when your power goes out, helping us respond quicker in the event of an outage.

For more information on the meter upgrade starting later this fall visit nspower.ca/smartmeters or call our Customer Care Centre at 1-800-428-6230.

We will notify you in advance of making upgrades in your community.
