SENT VIA EMAIL TO
Mara Verheyden-Hilliard

Re: **NPPD12F341**

Dear Ms. Hilliard:

This is the electronic third and final response to your Freedom of Information Act (FOIA) request to the Department of Homeland Security (DHS), dated November 16, 2011, and received by this office from the PRIV Office on July 9, 2012. You are seeking information related to law enforcement involvement in discussions, communications, and technical support regarding the Occupy Wall Street movement and the Occupy encampments in cities around the country.

A search of the National Protection and Programs Directorate for documents responsive to your request produced a total of 259 pages. I have determined that 24 pages of the records are releasable in their entirety, 187 pages are partially releasable, and 48 pages are withheld in their entirety pursuant to Title 5 U.S.C. § 552 (b)(5), (b)(6), (b)(7)(C) and (b)(7)(E), FOIA Exemptions 5, 6, b7(C), and b7(E).

Enclosed are 234 pages with certain information withheld as described below.

FOIA Exemption 5 protects from disclosure those inter- or intra-agency documents that are normally privileged in the civil discovery context. The three most frequently invoked privileges are the deliberative process privilege, the attorney work-product privilege, and the attorney-client privilege. After carefully reviewing the responsive documents, I have determined that portions of the responsive documents qualify for protection under the Deliberative Process Privilege and the Attorney-Client Privilege. The deliberative process privilege protects the integrity of the deliberative or decision-making processes within the agency by exempting from mandatory disclosure opinions, conclusions, and recommendations included within inter-agency or intra-agency memoranda or letters. The release of this internal information would discourage the expression of candid opinions and inhibit the free and frank exchange of information among agency personnel. The attorney-client privilege protects confidential communications between an attorney and his client relating to a legal matter for which the client has sought professional advice. It applies to facts divulged by a client to his attorney, and encompasses any opinions given by an attorney to his client based upon, and thus reflecting, those facts, as well as communications between attorneys that reflect client-supplied information. The attorney-client privilege is not limited to the context of litigation.

FOIA Exemption 6 exempts from disclosure personnel or medical files and similar files the release of which would cause a clearly unwarranted invasion of personal privacy. This requires a balancing of the public's right to disclosure against the individual's right to privacy. The privacy interests of the individuals in the records you have requested outweigh any minimal public interest in disclosure of the information. Any private interest you may have in that information does not factor into the aforementioned balancing test.

FOIA Exemption 7(C) protects records or information compiled for law enforcement purposes that could reasonably be expected to constitute an unwarranted invasion of personal privacy. This exemption takes particular note of the strong interests of individuals, whether they are suspects, witnesses, or investigators, in not being unwarrantably associated with alleged criminal activity. That interest extends to persons who are not only the subjects of the investigation, but those who may have their privacy invaded by having their identities and information about them revealed in connection with an investigation. Based upon the traditional recognition of strong privacy interest in law enforcement records, categorical withholding of information that identifies third parties in law enforcement records is ordinarily appropriate. As such, I have determined that the privacy interest in the identities of individuals in the records you have requested clearly outweigh any minimal public interest in disclosure of the information. Please note that any private interest you may have in that information does not factor into this determination.

Exemption 7(E) protects records compiled for law enforcement purposes, the release of which would disclose techniques and/or procedures for law enforcement investigations or prosecutions, or would disclose guidelines for law enforcement investigations or prosecutions if such disclosure could reasonably be expected to risk circumvention of the law. I determined that disclosure of law enforcement investigative techniques and manuals could reasonably be expected to risk circumvention of the law. Additionally, the techniques and procedures at issue are not well known to the public.

You have a right to appeal the above withholding determination. Should you wish to do so, you must send your appeal and a copy of this letter, within 60 days of the date of this letter, to: Associate General Counsel (General Law), U.S. Department of Homeland Security, Washington, D.C. 20528, following the procedures outlined in the DHS regulations at 6 C.F.R. § 5.9. Your envelope and letter should be marked "FOIA Appeal." Copies of the FOIA and DHS regulations are available at www.dhs.gov/foia.

The Office of Government Information Services (OGIS) mediates disputes between FOIA requesters and Federal agencies as a non-exclusive alternative to litigation. If you are requesting access to your own records (which is considered a Privacy Act request), you should know that OGIS does not have the authority to handle requests made under the Privacy Act of 1974. If you wish to contact OGIS about a FOIA, you may email them at ogis@nara.gov or call 1-877-684-6448.

Provisions of the FOIA and Privacy Act allow us to recover part of the cost of complying with your request. In this instance, because the cost is below the \$14 minimum, there is no charge. 6 CFR § 5.11(d)(4).

Please note that additional NPPD information responsive to your request was processed by Headquarters, DHS Privacy can be accessed online at <http://www.dhs.gov/xlibrary/assets/foia/occupy-wall-street-redacted-1.pdf>. Pursuant to 5 U.S.C. §§552(a)(1) and (a)(2), DHS need not make available under the FOIA records that are published elsewhere.

If you need to contact our office again about this matter, please refer to **NPPD12F341**. This office can be reached at 703-235-2211.

Sincerely,

Sandy Ford Page
FOIA Officer

Absolutely. I was going to try to call you to discuss. Basically, this guy doesn't seem to have much of a following. Last couple times he tried to organize a protest only one person showed up and that was him. NYSP said he has a grand total of less than 20 friends/followers on Facebook and there is NO indication anyone wants to come help him with this thing.

The only "Occupy" event that has already and may impact federal property in R-10, is in Portland. Although there is still some protest activity in Portland, it is currently focused on the city and not toward federal property or facilities for the most part. After the evictions from the city and federal parks, many of the protesters have regrouped in Pioneer Square Park, which is in downtown Portland and across the street from federal Pioneer Courthouse which is a level 4 facility with exclusive jurisdiction. At this point, there is no indication of protest activity targeting that facility, but it could become a target of convenience due to its location. We will continue to have 24/7 coverage in Portland for the next few days to assess the situation and remain prepared to respond to any of our facilities that may be targeted or impacted.

Good Morning RDs / DRDs,

As "Occupy" type protests continue to occur throughout the nation, several law enforcement organizations have undertaken steps to discontinue Occupy encampments within their jurisdictions or are in negotiations with demonstrators to close them down.

As these activities are undertaken by your local law enforcement partners, (b)(6), (b)(7)c has requested that Regional Directors continue to assess the potential impact that these events may have at / near federal facilities within the FPS AOR.

The city has also decided to fence TS in addition to the city parks. This is the first we've heard of this decision and not sure of the GSA position relative to this new development.

We will continue with the 24 x 7 coverage at the park until Wednesday when we will assess the situation.

Just finished talking to Foster and Terry Shrunk Plaza is secure. 2 protesters had to be cut from the barrel and then turned over to FPS.

FPS cited both individuals for failure to comply with directions and then released. Portland PD asked FPS on scene to take the lead on citing these individuals.

Foster also reports that Portland is going to put a fence up around Terry Shrunk Plaza. The fence should be going up soon.

I am en route to Portland to get an assessment of the situation.

Sorry to be so late, but I've behind the wheel for the past four+ hours, so no texting while driving.

With little or no damage to repair in Terry Shrunken (TS), with no funding to provide such a fence, and as we would permit responsible people to use TS, we do not plan to construct any fencing in TS. We will need to rather quickly reexamine our policy as to requiring a permit, and not allow camping, etc., in TS as a result of our recent experience with the unsafe and unhealthy conditions of the Occupy Portland encampments. We trust that FPS and PPB will continue to support that position.

Gents,

We've touched base with PPB and will be working with them as their plan is developed. One of the items the PPB Commander reported was that the city will be fencing off their parks, but has no plan to fence of Terry Shrunken, although they strongly suggest the government do the same. We will plan on having sufficient personnel available during and after the operation, to discourage personnel from re-occupying, especially if fencing TS is not practical for whatever reason.

There were a total of 10 tents in TS this morning and just after the mayor's announcement, four of them left and moved to the city parks to show solidarity with the main encampment. May be a good sign.

Also of interest - following this morning's news conference the protesters marched to City Hall. See story <http://www.kgw.com/news/Occupy-Portland-133567753.html>

"The General Services Administration, mindful of the first amendment rights of Americans, has a continuing obligation to protecting the health and safety of the general public, protesters and federal employees on Federal property. We have been in communication with the Mayor of Portland and respect his judgment. The Federal Protective Service will act in concert with the Portland Police Bureau in taking action if necessary to clear protesters in federally-owned Terry Schunk Plaza."

There are no restroom facilities in Shrunck Plaza and no port-a-potties have been brought in to that particular park. The masses will quickly overwhelm the small park with no facilities. Since the city has made the determination that health conditions warrant their action, (b)(5)? We're almost at the 11th hour (note the connection to armistice day/veterans day) and trying to get an assessment would likely be very problematic and agencies might be somewhat shy to weigh in as we have already seen.

Looks like the notice was not the 72 hour notice, but guidelines the Mayor wanted, like tent height, controlling certain elements, etc. A new updated copy of crimes associated with Occupy Portland will come out Friday.

Below are the links to two updated news stories concerning Occupy Portland.

1. The subject pictured below damaged a parked police vehicle and was arrested at Terry Shrunken Plaza. This was the subject who was previously reported as being armed with a hammer building the pallet at Terry Shrunken, who had been kicked out of the other Occupy Camp across the street.

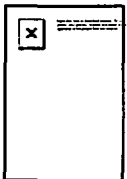

<http://www.kptv.com/story/15992687/three-arrests-at-occupy-portland-camps>

2. The below story concerns the use of a Molotov cocktail used against a downtown business structure. PPB is already investigating reports of the manufacture and possession of Molotov cocktails in the Occupy Portland camps.

<http://www.katu.com/news/local/133529518.html>

3. The crime rate in the immediate area in and adjacent to the Occupy Camps have increased by 18% according to local officials.

Subject: Update of Terry Shrunk Plaza Observations

Period Covered 11/7/2011 1600-2200 hours at Terry Shrunk Plaza.

1. Verbal confrontation between white male building a wooden pallet for a new tent against six other white males, dressed in typical "anarchist" attire, including some faces being covered. Lone white male was armed with a hammer, which he was utilizing to build the wooden pallet. Anarchist reported that the white male had been thrown out of the main Occupy Portland Camp for being a thief and trouble maker. Verbal confrontation ended with anarchists taking back some of supposedly stolen wood planks.
2. One of the subjects chained to the barrel, is clearly mentally ill as he continually stated to SA (b)(6), (b)(7)c that the Mexican and Russian Mafia were out to kill him and that FBI agents had informed him to get "the fuck out of the park".
3. A local subject, known as "red guy", appeared intoxicated and disrupted the Occupy Portland's "entertainment period" by doing his own boom box music and dancing with chemical sticks (glow in the dark). "Red guy" left of his own accord. He has been cited in the past by FPS for being intoxicated on federal property.
4. A mentally disturbed subject repeatedly interrupted the Occupy Portland General Assembly meeting by yelling incoherently and flailing his arms and punching himself. Subject had bruising on his face and smelled as if he had not bathed for a prolonged period of time.

5. Another mentally disturbed individual attempted to disrupt the General Assembly speaker, but was calmed down by other protestors. The subject knelt down in the middle of the group throughout the remainder of the assembly with occasional outbursts.
6. A member of the protestor "peacekeepers" was armed with a military style K-Bar knife on his right ankle and dressed in military fatigues.
7. A subject approached SA (b)(6), (b)(7)c and stated he wanted to help keep the peace and began speaking about a new religion he created and rambled incoherently. SA (b)(6), (b)(7)c directed subject to contact the FBI for further guidance.
8. A member of the protestor "safety team" approached SA (b)(6), (b)(7)c and Portland Police Bureau officers and stated three anonymous protestors reported a male was armed with a handgun and presently in the Chapman park area. PPB advised the "safety team" member that the witnesses needed to approach law enforcement to verify their observations before any law enforcement action could be addressed.
9. During the general assembly, a debate was conducted regarding police presence and actions. Some members supported law enforcement presence and felt safer and encouraged cooperation to root out the criminal element from the parks. Other members voiced their hatred and distrust toward the PPB and Federal Law Enforcement. No decision was made regarding their future interaction or cooperation with law enforcement.
10. A total of five tents were completed as of 2200 hours. Approximately a dozen individuals were chained or surrounded the barrel. Approximately another 20 individuals were located throughout the remainder of the park engaged in conversations or loitering.
11. PPB Commander (b)(6), (b)(7)c was on scene and discussed the situation with SA (b)(6), (b)(7)c. The concern of what would occur to Terry Shrunken Plaza if the city parks were eventually cleared was discussed. It is evident that unless FPS was prepared to take simultaneous action with PPB (if and when that occurs) against the parks, the main encampments would all move to the Plaza and quickly overwhelm the space and create numerous safety and health issues and would easily overwhelm FPS assets.

On 11/08/2011, Mayor Sam Adams stated in an official letter, that the occupation of the parks could not go on indefinitely.

He stated that it would be GSAs intent to seek permits from individuals who wish to conduct protest activity on GSA property, but if they would not comply with the request to obtain a permit that it was GSAs position that they should not be forcibly removed. Mr (b)(6) stated he did not expect FPS to disregard acts of criminality committed by protesters on GSA property. Nothing was mentioned about reimbursement by GSA to FPS regarding increased security / enforcement activities associated with the 24-7 encampment of protesters on GSA property.

Any idea of a timeline on when FPS may be able to straighten this out with GSA? We're looking at continuing 24/7 coverage for a few days to ensure we maintain a presence so that these Occupy folks don't get a foothold on federal property.

So far they have been on federal property for a couple of protests, but have not attempted to set up camp again since our enforcement action on Tuesday morning. That may well change if our presence there diminishes, so our plan is to continue at least through the weekend - especially if you think you may be able to find a better solution with GSA at your level.

These statistics are from the Portland EOC open source reporting tool on 11/1/2011 and cover dates from 10/10 to 10/31. It may be reasonable to infer that we will likely experience similar issues should the encampment move to the federal property.

Just FYI - Since the boss is going to talk to (b)(6) today, he's on this email chain that was sent to me at 10:20 last night that I didn't receive until just after 4:00 this morning when I got up. As it turns out, it was a bit late since our folks were already in mid-operation when I got the message to them.

Please take no action of any kind until we can talk tomorrow. A quick status report would be welcome, and while (b)(6) got the buildings (b)(6) reversed, being across from a vacant building might be a blessing.

I'll want to discuss what the City of Portland might do since they have concurrent jurisdiction.

We arrested 10 people for failure to obey the lawful direction of a Federal police officer after they were told to leave the park because camping was prohibited. Approximately 10 other people chose to leave and were allowed to depart. The 10 arrested were transported from the scene, processed and released after being issued a citation – although one of the 10 had an outstanding arrest warrant and was transported to the Multnomah County jail.

We are standing by for the time being. The GSA Regional Commissioner has asked that we hold off taking any enforcement action for now since the nearest federal building is closed for renovation and any tents or people won't pose a threat to anything but the grass and bushes in the park. Once these people get set up though they will be harder to evict and Portland Police Bureau won't be too inclined to assist if we aren't consistent in our approach. As of late last night there were only a few tents there but [redacted] (b)(6) (film maker) was there trying to stir things up. DC [redacted] (b)(6), (b)(7)c will be on scene there this morning so we should have a good firsthand assessment.

We are going to rely heavily on the NYPD like last Friday's OWS demo. At last Friday's event, there were almost more NYPD personnel than there were OWS demonstrators.

The demos are not on federal property and are being staged on City of New York Parks property.

We will however have a contingent of Police Officers, Inspectors and Special Agents present on federal property to monitor the situation.

As for Buffalo, they are also not on federal property.

Below are the links to two updated news stories concerning Occupy Portland.

1. The subject pictured below damaged a parked police vehicle and was arrested at Terry Shrunken Plaza. This was the subject who was previously reported as being armed with a hammer building the pallet at Terry Shrunken, who had been kicked out of the other Occupy Camp across the street.

<http://www.kptv.com/story/15992687/three-arrests-at-occupy-portland-camps>

2. The below story concerns the use of a Molotov cocktail used against a downtown business structure. PPB is already investigating reports of the manufacture and possession of Molotov cocktails in the Occupy Portland camps.

<http://www.katu.com/news/local/133529518.html>

3. The crime rate in the immediate area in and adjacent to the Occupy Camps have increased by 18% according to local officials.

I've been watching the NW news channel. Appears a majority of folks have moved out and they are in the process of big clean up using dump trucks and front loaders....a few still remain, and TS park appears to have the barrel crew still....I would assume the departures will continue today and we will only be left with a small group of hard liners come Tuesday night.

I'd like [Redacted] only to go down tomorrow (Monday) and evaluate with [Redacted] if we will need a full blown response. I know we have four guys going down today or Monday, that is fine and prudent for now, to assist our quickly tiring Portland crew, but let's hold off on actually deploying anyone else until [Redacted] and [Redacted] get together with PPB and assess the real issue we will see on Tuesday night. if we need to go in force, we can all roll down Tuesday morning and have plenty of time to evaluate and plan before the Tuesday night events.

Thanks!

During the RD conference call yesterday it was mentioned that you were taking a look at the GSA position paper/policy on allowing "Occupy" protests nearly uninhibited on GSA property with the goal of providing them some feedback. (b)(6), (b)(7)c at the U.S. Attorney's Office in Portland has asked us where he could weigh in on the GSA decision, so would you be the appropriate people to talk with him, or would you suggest he go to GSA HQ to be heard?

It appears the city is about done with the "Occupy" protests after a firebombing incident and is looking to close down the use of the city parks fairly soon – we're trying to determine when. This will obviously impact the FPS protected property nearby in a very significant way.

Folks, I talked to the boss about this a few minutes ago and he asked for some additional information.

What occurred that has caused the PPB to consider removing the Occupy folks from the city parks (I heard something earlier about a fire bomb)?

Did the PPB approach the local AUSA or vis versa?

What is PPB's next steps, what will initiate the eviction? Or have they just have enough of these folks violation laws and it's time to go?

[redacted] (b)(6), (b)(7)c we're on for 0730 tomorrow morning to brief the boss on this.

Thanks for the update. (b)(6), (b)(7)c I've been between Philly and Phoenix all week, getting home tomorrow. So I really do welcome the news.

To my knowledge, GSA has NOT contacted the City (b)(6) and I agreed, as did (b)(6) when I was with him Wed. night, that we would let things settle for a while. (Fellow GSAers, please let me know if any of that is incorrect.)

I will be in Portland next Tuesday, for a meeting with the Corps of Engineers, and I plan to take a few minutes to check out TSP. That may (or might not) result in our making a inquiry to the City.

Please do keep us looped in, and we'll promise to do the same.

Thanks again.

No new developments in Portland this past week that have affected federal property, although PPB consistently had their hands full with the occupy group elsewhere as you likely saw in the media. There is still no firm date for the fence around TS to come down, at least not that we're aware of. There had been some talk that it could be as soon as next Tuesday, but we've been unable to confirm that. For the time being, we are maintaining our status quo there.

Has GSA had any communication with the city that would indicate when the fence may be removed?

Thanks,

FPS cited both individuals for failure to comply with directions and then released. Portland PD asked FPS on scene to take the lead on citing these individuals.

(b)(6), (b)(7)c also reports that Portland is going to put a fence up around Terry Shrunk Plaza. The fence should be going up soon.

During a conference call yesterday, I understand that [redacted] (b)(6) reiterated GSA's position of allowing encampments on Shrunk Plaza, but if the Mayor or PPD had "soundly based" evidence of public health and safety concerns, then GSA would not object to evictions.

Is this the GSA HQ position? Who determines what "soundly based" evidence is?

Also, we are waiting on clarification from you all on the "GSA Guidance for Occasional Use of Public Buildings and Public Areas" and hope to receive this from you all today.

Our goal is to work this "Occupy" issue jointly with GSA, just need some responses from you to keep this moving.

We also wanted to bring to your attention a memo that was forwarded (attached) to us from the US Marshal, District of Oregon addressed to the GSA RA, Northwest/Artic Region, expressing his concern about the GSA position to allow protestors at Terry Schrunk Park.

This is becoming a very hot issue and we need to know GSA's position on evictions from the Terry Schrunk Park and clarification on the GSA "Occupy" guidance we sent to you yesterday.

Hey (b)(6), (b)(7)c, we were informed by Portland Police Bureau yesterday that the Mayor

and Police Chief will hold a press conference today to announce that they will evict the "Occupy" protesters from the two Portland city parks they currently occupy. The eviction will likely occur within 72 hours after the announcement.

Additionally, the Portland Police Chief contacted the local AUSA and advised that in addition to evicting the protestors from the two City parks, the City/Portland Police is considering invoking its concurrent jurisdiction and evicting those encamped in the Terry Schunk Park. The AUSA contacted our OGC to inquire what FPS' position would be if the City seeks FPS assistance. The AUSA is on-board with this eviction and recommends that FPS provides support.

(b)(5), (b)(7)e

Our position is that if the city exercises its concurrent jurisdiction and evicts protesters from Terry Shrunken Park while clearing the adjacent city property that FPS should be there to assist the efforts on federal property. (b)(6), (b)(7)c our (b)(6), (b)(7)c in FPS Region 10, contacted (b)(6) the (b)(6), and (b)(6) reiterated the GSA position of allowing the protests but also said that if the city or FPS made the call to "evict" because of life safety or health concerns, GSA would understand.

Knowing that this is a hot issue we wanted to bring this to your attention and seek your input. What is GSA's position on this eviction?

We would like to hear back from you as soon as possible.

I spoke with my TMBC, DRD and RD this morning regarding the RFI on Occupy protests. My RD has already responded with the email below. The only additions are:

Occupy Portland: The protesters locked to the barrel have unlocked themselves to use the restroom and returned to the barrel afterwards according to FPS Portland inspectors and agents.

The following is from R-10 Portland DIO SA (b)(6), (b)(7)c

During the evening hours of Friday, Nov 4th, 2011, demonstrators from the "Occupy Portland" movement used a ruse to lure the FPS Inspector and Portland Police units from Terry Schrunk Park. To lure the officers from the park, a citizen reported an assault occurring down the street. The Inspector reported that throughout the evening, the demonstrators had become increasingly aggressive and verbally abusive. The FPS Inspector said he responded to the assault to provide assistance and to maintain officer safety, as he was outnumbered by aggressive demonstrators in the area of Terry Schrunk. Upon returning to the area of Terry Schrunk Park, the Inspector found that 4 demonstrators had moved a 50 gallon plastic drum filled with rocks to the park and locked themselves to it using bicycle locks. Currently there are 10+ demonstrators in Terry Schrunk locked to each other. Tents and sleeping bags have been set up and the demonstrators are rotating in and out. The demonstrators have reported to the press that bolstered by Friday night's success, they will be bringing more barrels and locks to expand the protest. Last night an anti-demonstrator made a bomb threat on the "Occupy Portland" camp. That may now include Terry Schrunk Park.

Saturday night/Sunday morning, several tents were set up on federal property at Terry Shrunck Park. I have attached a photo of the tents as of yesterday (b)(6), (b)(7)c forwarded a photo with a separate email that shows some of the protesters on our property that have also locked themselves to a concrete filled barrel. Per our previous discussions, we have not taken any enforcement actions at this point, other than those 10 arrests last Tuesday when a group set up an encampment and refused to leave.

Below is the previous summary of what occurred previously, so no change except for the new encampment as well as the self-locked down protesters. The below is from an email sent to you last Tuesday that summarized the activity to that point. Following the arrests on Tuesday, there was minimal protest activity and no campers until this weekend as outlined above.

(b)(6) yes, that is our position; it's been vetted with our Administrator and (b)(6), our (b)(6) and we have communicated with the (b)(6) which has afforded us the discretion to fashion our approach to the Occupy issues. (b)(6) correct me if I've mischaracterized that in any way.

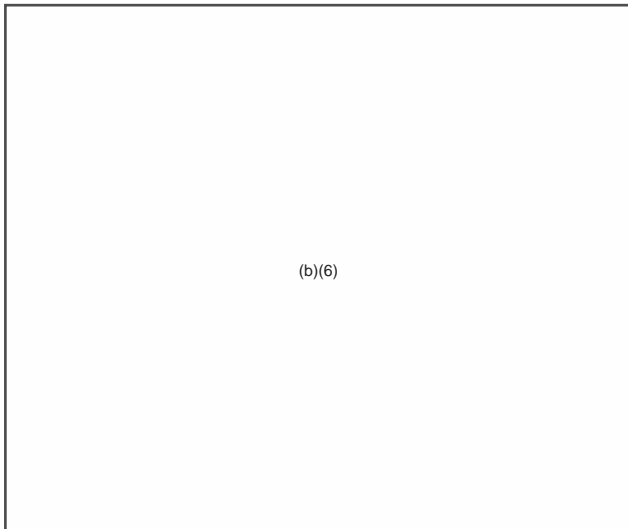

Through our (b)(6) an (b)(6) (b)(6) in our Northwest Arctic Region, headquartered in Auburn, Washington and responsible for Portland, we have communicated with the FPS commander in the region. They have also been in contact with the City of Portland, whose park is immediately adjacent to the federally-controlled park. The arrests last week were carried out despite our request that the protesters be allowed to remain and to camp overnight, so long as they did not pose a threat to life and public safety and so long as they were not engaged in criminal activity. We have improved our communication with FPS in the region. We also met with an FPS operations official in Washington last week.

We have a meeting of our Facility Security Committee at GSA HQ tomorrow and (b)(6), (b)(7)c was scheduled to attend before the Portland situation arose. By the way, (b)(6), (b)(7)c and I have established what I think is an excellent working relationship. He has appointed some top-notch operations commanders, one of whom spent the day with our national senior management council at our most recent meeting.

I have been in touch today with our Regional Commissioner about the latest developments in Portland, with the protesters chaining themselves to a barrel or together. You do have an accurate account of our position. We are trying to be flexible, cognizant at the same time of first amendment rights to petition and our need to protect Federal property and access to Federal buildings.

In Portland, the park that GSA controls is across the street from the Edith Green-Wendall Wyatt Federal Building. That building is undergoing a complete modernization and has been entirely vacated and physically stripped to its framework, so there is not issue of restricting public access to the building.

We have given this very careful consideration and I'll be happy to discuss with you.

I am sorry to be emailing you on a Sunday night, but wanted to let you know our Press Shop has received a couple of calls from Portland media outlets about a group of 11 protesters who again set up camp at Terry Schunk Plaza in Portland last night. They have chained themselves to each other and to a large drum filled with concrete. GSA controls the permits and has asked FPS not to enforce the

curfew at the park and the prohibition on overnight encampments. Reporters have asked if we will be arresting the protestors as FPS did last week.

Our FPS Commander in Portland says they are standing down and following GSA's request to only intervene if there is a threat to public safety.

Since this is a departure from last week, I want to confirm since you hold the permitting authority that FPS is not to enforce the curfew at the park and the prohibition on overnight encampments, unless of course public safety concerns arise.

(b)(6), (b)(7)c have plans to sitting down with GSA tomorrow (b)(6) I believe (b)(6), (b)(7)c (b)(6), (b)(7)c s actually meeting with you) to discuss this ne roach an n, but until then, want to make sure we are al e same p o give you a heads up that we are referring reporters to GSA.

Subject: RE: Occupy Portland Status

I spoke with (b)(6), (b)(7)c again this afternoon. As noted in the emails below, GSA's position, as communicated by its Regional Commander, continues to be that protestors can remain in Federal park so long as there are no "soundly based" public safety or health concerns. (b)(6), (b)(7)c is seeking clarification from GSA on who is supposed to determine whether there are "soundly based" public safety or health concerns. For now, at least, what (b)(6), (b)(7)c and I suggest is the following:

All,

FPS met with Assistant U.S. Attorney (b)(6), (b)(7)c regarding the arrests at Terry Shrunken Park this morning. (b)(5)

(b)(5), (b)(7)e

As reference to the impact that Portland has already experienced from the protests to date, the following numbers are of Portland Police Bureau calls for service, arrests and reported crimes related to the Occupy Portland demonstration located in the Lownsdale and Chapman Parks adjacent to Terry Shrunken plaza. These statistics are from the Portland EOC open source reporting tool on 11/1/2011 and cover dates from 10/10 to 10/31. It may be reasonable to infer that we will likely experience similar issues should the encampment move to the federal property.

During the RD conference call yesterday it was mentioned that you were taking a look at the GSA position paper/policy on allowing "Occupy" protests nearly uninhibited on GSA property with the goal of providing them some feedback. [redacted] (b)(6) at the U.S. Attorney's Office in Portland has asked us where he could weigh in on the GSA decision, so would you be the appropriate people to talk with him, or would you suggest he go to GSA HQ to be heard?

It appears the city is about done with the "Occupy" protests after a firebombing incident and is looking to close down the use of the city parks fairly soon – we're trying to determine when. This will obviously impact the FPS protected property nearby in a very significant way.

Thanks,

Sorry to be so late, but I've behind the wheel for the past four+ hours, so no texting while driving.

With little or no damage to repair in Terry Shrunken (TS), with no funding to provide such a fence, and as we would permit responsible people to use TS, we do not plan to construct any fencing in TS. We will need to rather quickly reexamine our policy as to requiring a permit, and not allow camping, etc., in TS as a result of our recent experience with the unsafe and unhealthy conditions of the Occupy Portland encampments. We trust that FPS and PPB will continue to support that position.

Gents,

We've touched base with PPB and will be working with them as their plan is developed. One of the items the PPB (b)(6), (b)(7)c reported was that the city will be fencing off their parks, but has no plan to fence of Terry Shrunken, although they strongly suggest the government do the same. We will plan on having sufficient personnel available during and after the operation, to discourage personnel from re-occupying, especially if fencing TS is not practical for whatever reason.

There were a total of 10 tents in TS this morning and just after the mayor's announcement, four of them left and moved to the city parks to show solidarity with the main encampment. May be a good sign.

just briefed the boss on the plan. He is on board but requested periodic updates (every 12 hours) on events occupying in Portland. Could you all put together some type of simple report to send up, starting this Saturday morning? We don't want to be a burden but there are a lot of eyes on this and he wants to make sure we are informed.

Thanks,

The only "Occupy" event that has already and may impact federal property in R-10, is in Portland. Although there is still some protest activity in Portland, it is currently focused on the city and not toward federal property or facilities for the most part. After the evictions from the city and federal parks, many of the protesters have regrouped in Pioneer Square Park, which is in downtown Portland and across the street from federal Pioneer Courthouse which is a level 4 facility with exclusive jurisdiction. At this point, there is no indication of protest activity targeting that facility, but it could become a target of convenience due to its location. We will continue to have 24/7 coverage in Portland for the next few days to assess the situation and remain prepared to respond to any of our facilities that may be targeted or impacted.

It appears as if the federal building information was sent meaning "Federal Reserve Bank". The FRB is not a federal building and the nearest FOB to the FRB is about 5 blocks away. Therefore we are okay for now. I will advise if and when anything changes.

Hey Boss, SA only...

[redacted] advises me that information from the field suggest that Occupy SF is heading towards one of our facilities in SF. Once we find out where they are going I will send an update.

(b)(6), (b)(7)c was given a heads from the field for what they have heard being reported by the media. **It is still unconfirmed and the location has not been identified.** Occupy SF is attempting to initiate a rally at “a federal building” in response to the SFPD eviction of their camp at Justin Herman Plaza this morning. We are currently attempting to corroborate this information. Probable time is at 1200. I will update as soon as I have more information. No other information is available at this time.

I have been in touch w/ the (b)(6), (b)(7)c and we are monitoring the situation. No issues regarding our facilities. I have directed increased presence in the area through the night and asked for notification should there be any significant changes in the situation.

GSA is requesting a threat briefing on the "Occupy" groups for the GSA concerns in the DC area, the venue for this briefing is the GSA Facility Security Committee meeting scheduled for November 7th.

A second briefing is requested for the next Board of Directors (BoD) meeting, which will be in two weeks. In the BoD meeting the Regional Commissioners will participate by phone. The threat briefing on the "Occupy" movement for the BoD should focus on the national threat.

The time allotted (including questions) for the BoD national brief is 15 minutes. I need to get the specific date for this meeting, when I do I'll pass it on.

Please plan on presenting both briefings at 1800 F Street. If there are any IT needs for either brief, please let me know soonest.
