Lindenwood University was notified today that a student-athlete has been charged with knowingly infecting someone with HIV, which is a Class A felony.

The institution is cooperating with authorities in the investigation and doing everything possible to protect and educate our students.

We do not know the identity of the victim; however, we have asked police to assist us in communicating with that individual. We are asking this victim and anyone else who may have had intimate contact with Michael L. Johnson to seek medical advice right away.

Lindenwood's Student Life & Leadership Office is arranging for a speaker and awareness program on AIDS/HIV.

The Lindenwood University Student Counseling and Resource Center SCRC will have counselors available in the Anheuser-Busch Leadership room of the Spellmann Campus Center for counseling tomorrow, October 11, from 1 p.m. to 5 p.m.

There will also be a counselor available tomorrow in the SCRC from 9 a.m. until 12 p.m. for those who may have an urgent need to talk before tomorrow afternoon. The SCRC is located in the Lindenwood University Cultural Center (LUCC), and staff can be reached at [\(636\) 627-2928](tel:636-627-2928).
