Subject a few important items for all Volumes

- make sure to insert this new language **(b)(5) Deliberative** at the beginning of all volumes. Obviously, make sure you tailor this to the subject matter of your volume.

(b)(5) Deliberative

here it is: EXAMPLE TEMPLATE.doc

- make sure to replace the entire existing Foreword with this new one here:

(b)(5) Deliberative

FOREWORD edits 12 04 09.doc

- Check all references to other responses in your Volume. Most (maybe even all) should be in yellow highlight. If you are referring to a response/comment in the same volume, you should use the assigned comment/response number. If you are referring to a comment/response in another volume, you should refer to only that Volume number. Lots of place already provide both the Volume and section number and that is OK too as long as you are **positive** that it is correct!
- Do a word search for **(b)(5) Deliberative**
I think we have consistency here, but please check.
- I'll probably have more of these type things tomorrow.

Tomorrow she and I will go over the revisions and then I'd like to you to do a final review/scrub before we resend to Dina. The entire volume will need to go back to Dina by saturday afternoon. Will you be around tomorrow? In the meantime, would be great if you can turn to the books and other references with Jason, David, Bill. You may want to check in with Bill or Jason as to where they are. Thanks Mike!

Matt and Sue,

I'm very sorry for any confusion, but the version of Vol 4 that I sent you earlier was incorrect because I didn't realize they were doing more edits to it. This is final version and should be the version used for your final copy edit.

Again, apologies for the mix-up.

The attached is ready for transmittal to ERG for a final copy edit. I have included a comment bubble noting several new references I'm requesting ERG add to the reference list. A final reference cross-walk would be useful too.

Thank you,

I think Vol 5 is ready for copy editing and numbering. As before, we still have to go through references... but ERG should still try to QC the references to the best of their ability.

Here are Ag and Forestry as two separate docs.

The Ag document contains John's comments from earlier today -- there have not been any changes to this yet in response to John's comments.

I think the Forestry section is now in pretty good shape; Mike has added more detail today for some key responses.

Subject: ERG volume work: point of contact and timing

All,

Lesley and I just did some strategizing and we decided that I will serve from here on out as the sole point of contact for ERG Volume work: copyediting, specific reference work if needed, etc. This will allow Lesley to focus her energy to a greater degree on her RTC coordinator role as we enter these most critical hours of our work.

Also, as a friendly reminder: **all remaining volumes that need to go to ERG for copyediting (1, 6, 9, 10, 11) absolutely have to be given to ERG NLT 4 p.m. Saturday** . Otherwise they won't be back in time for us to do the necessary work to complete them. And sooner is better.

Also, if you're having difficulty with something on your volume that a contractor might be able to assist with, particularly with references, comment numbers, etc. (a couple folks mentioned things like this in our meeting this morning) then ERG can provide a lifeline. Please just don't wait until Sunday to let me know that you need that assistance.

Thank you for your time and attention and I look forward to working with you as we bring this effort to a close.

Cheers,

Bill

2. I like John's edits to the two OMB responses.

3. (b)(5) Deliberative

5. John -- regarding your comment

So it now reads:

6. Dina -- we should include more from your work on (b)(5) Deliberative

While what is there is good, we should probably have a bit more. I figure you have some good tidbits you can draw from the TPs you've been doing. Yes?

Please let us know if you have any questions on the Foreword. Also, please send out the Foreword by itself to me and Lesley when you have it done for us to approve so that we can go ahead and disseminate to the volumes that you already finished and so that you can propagate through the remaining 9 volumes that you are currently or will be copyediting. Bill,

Attached is Vol 11 for final copy-edit, including numbers. Also, could you please ask ERG to build a reference list for this? In addition, I noticed that our new Foreword doesn't fit on one page, but I'm not sure if that is an artifact of it have comment bubbles in the margin. Could you see if ERG has recommendations for fitting this on one page? I think we may be able to delete the extra line between the second and third paragraphs, but see what they think.

Thanks!

Sue and Matt,

Enclosed is Volume 1. One thing of note is that the comment numbers need to be completely redone at this point, and a lot of text has changed or been added since your first copyedit.

One additional note: since tomorrow is the last day to work on the volumes, if you guys can turn some around (like this one that does not have too many references) in even less than 24 hours that would be ideal, the sooner the better.

I've also instructed the team here to send me any changes that are made to the volume reference lists after they come back from final copyedit so that the docket will be accurate.

Thank you.

If it's easy to include your comments in the version I just sent, that would be great. But I can also easily compare and merge this version you just sent with anything you send me next.

Dina just came by with an answer to the comment bubble (b)(5) Deliberative. She says she thinks it's fine to leave that paragraph in there, unless you and Carol think there is a compelling reason to leave it out.

Thanks!

Carol mentioned that you were planning on reviewing Vol 11. Here is an (almost) clean version that has one small paragraph added from Dina to one of our responses (in track changes). Also, if possible, could you give me a ballpark time when you might be done with 11 so that I can tell our contractors when to be ready for their final formatting?
