Subject: MI LHD Sitrep response

Thank you for submitting your LHD Sitrep for this week! Here is a copy of your responses for your reference.

If you have any questions or concerns, please contact heccepi@michigan.gov
[Download as PDF](#)

[URL to view Results](#) [[Click Here](#)]

Response Summary:

Q1. Date of report:

11-12-2020

Q2. Local health department name

Choose your LHD from the dropdown menu: Sanilac County Health Department

Q3. Name of person completing this report

Cari Hillman

Q4. Email address

chillman@saginawcounty.com

Q5. Phone number

989-928-1486

Q6. Select your preparedness region from the menu

Emergency preparedness region: 3

Q7. Having reviewed your case trend data for the past week, has the trend of new cases in your jurisdiction shown a decrease, remained steady, or increased? Use the slider below to indicate how large or small your case decrease/increase is. For example, -5 would indicate a sharp or large decrease in case counts. 0 would indicate no change, etc.

Case trends 2

Q8.

For the increase in cases in your jurisdiction since the last report, please indicate possible reason(s) for the increase using the list below.

- General community spread
- Other (please specify):
Individuals not complying with quarantine or isolation requirements.

Q126. Has your health department issued any emergency orders in the last week?

- No

Q9. In the past week, have there been any NEW clusters or outbreaks that originated in your health department jurisdiction?

NOTE: Do not count new outbreaks that originated in another LHD jurisdiction for which your health department has an associated case(s).

- Yes

Q10#1. Indicate the number of NEW outbreaks in each of the settings during the past week. COVID-19 outbreaks follow the general outbreak definition which is defined as two or more cases with a link by place and time indicating a shared exposure outside of a household.

UPDATED 11/5: Please report all outbreaks according to the Michigan Standard Operating Procedure and CSTE definition: <https://preparedness.cste.org/wp-content/uploads/2020/08/OH-Outbreak-Definition.pdf>.

For school outbreaks, please follow reporting according to the CSTE Outbreak

Definition: <https://preparedness.cste.org/wp-content/uploads/2020/08/Educational-Outbreak-Definition.pdf>

All items need an answer; if you have no outbreaks in a particular category, leave the default "0".
 NOTE: Do not count new outbreaks that originated in another LHD jurisdiction for which your health department has an associated case(s).

- Number of NEW outbreaks

<i>Long-Term Care Facility (e.g. SNF, assisted living, adult day care, group home)</i>	1
<i>Agricultural/Food Processing/Migrant Camp (e.g. farm, meat packing facility, hatchery, etc.)</i>	0
<i>Bar - employee associated outbreak</i>	1
<i>Bar - patron and employee associated outbreak</i>	0
<i>Restaurant - employee associated outbreak</i>	0
<i>Restaurant - patron and employee associated outbreak</i>	0
<i>K-12 School (e.g. classroom, before/after school programs, etc.)</i>	0
<i>College/University/Institute of Higher Learning</i>	0
<i>Childcare/Youth Programs (e.g. daycare, day/overnight camps, extra curricular activities, sports programs, etc.)</i>	0
<i>Manufacturing/Construction</i>	0
<i>Office Setting</i>	0
<i>Retail - employee associated outbreak</i>	1
<i>Retail - patron and employee associated outbreak</i>	0
<i>Personal Services (e.g. nail/hair salon, spa, gym)</i>	0
<i>Jail/Prison/Detention Center</i>	0
<i>Healthcare (e.g. inpatient, outpatient, dental practices, dialysis, etc.)</i>	1
<i>Shelters/Settings that provide services for people experiencing homelessness</i>	0
<i>Religious Services</i>	0
<i>Community Exposure - indoors (e.g. concert, meeting, etc.)</i>	0
<i>Outdoor Community Event/Mass Gathering (e.g. concert, rally, protest, parade, etc.)</i>	0
<i>Social Gathering (e.g. birthday party, graduation party, wedding, funeral, etc.)</i>	0
<i>Other</i>	0

Q10#2. Indicate the number of NEW outbreaks in each of the settings during the past week. COVID-19 outbreaks follow the general outbreak definition which is defined as two or more cases with a link by place and time indicating a shared exposure outside of a household.

UPDATED 11/5: Please report all outbreaks according to the Michigan Standard Operating Procedure and CSTE definition: <https://preparedness.cste.org/wp-content/uploads/2020/08/OH-Outbreak-Definition.pdf>.

For school outbreaks, please follow reporting according to the CSTE Outbreak

Definition: <https://preparedness.cste.org/wp-content/uploads/2020/08/Educational-Outbreak-Definition.pdf>

All items need an answer; if you have no outbreaks in a particular category, leave the default "0".
 NOTE: Do not count new outbreaks that originated in another LHD jurisdiction for which your health

department has an associated case(s).

- In which emergency preparedness region did the new outbreak(s) occur?

	Region 1	Region 3	Region 5	Region 6	Region 7

Social Gathering (e.g. birthday party, graduation party, wedding, funeral, etc.)	0	0	0	0	0
Other	0	0	0	0	0

Q65. For ongoing outbreaks, add any comments that you need to share here.

No additional comments at this time.

Q66. 1. For each ongoing school outbreak, please provide the information below.

Name of school	Heritage High School
Address of school	3465 Center Road
City	Saginaw
Postal code	48603

Q67. Grades associated with the school outbreak

Only one answer can be chosen, please choose the best fit:	High school
---	-------------

Q68. Number of cases associated with the outbreak (cumulative)

4

Q69. Are cases in staff, students, or both?

- Students

Q70. Enter any comments for this school outbreak here:

Football team

Q71. 2. For each ongoing school outbreak, please provide the information below.

Name of school	Frankenmuth High School
Address of school	525 E. Genesee
City	Frankenmuth
Postal code	48734

Q72. Grades associated with the school outbreak

Only one answer can be chosen, please choose the best fit:	High school
---	-------------

Q73. Number of cases associated with the outbreak (cumulative)

3

Q74. Are cases in staff, students, or both?

- Staff

Q75. Enter any comments for this school outbreak here:

School has gone to remote learning

Q76. 3. For each ongoing school outbreak, please provide the information below.

--

Name of school	Weiss Elementary
Address of school	4645 Weiss Street
City	Saginaw
Postal code	48603

Q77. Grades associated with the school outbreak

Only one answer can be chosen, please choose the best fit: Pre-school - elementary

Q78. Number of cases associated with the outbreak (cumulative)

8

Q79. Are cases in staff, students, or both?

- Both

Q80. Enter any comments for this school outbreak here:

School has gone to remote learning

Q91. 1. For each ongoing college/university outbreak, please provide the information below.

College/university name	SVSU
Street address of college/university building with outbreak	7400 Bay Road
City	University Center
Postal code	48604

Q92. Grades associated with the school outbreak

Only one answer can be chosen, please choose the best fit: College - undergraduate

Q93. Number of cases associated with the outbreak (cumulative)

9

Q94. Are cases in staff, students, or both?

- Students

Q95. Enter any comments for this college/university outbreak here:

No additional comments at this time.

Q118.

In the past week, how many total confirmed cases have been referred to your health department?

NOTE: to obtain this count, run a New Search in MDSS with the following criteria: Case status - Confirmed; Investigation Status - active, completed, completed-follow up, new, review; reportable Condition - Novel Coronavirus COVID-19; Referral Date - the past week (Friday - Thursday); Geographic criteria - your LHD; Exclude MDOC cases (option on Advanced Search page) If no confirmed cases were referred to your health department in the past week, enter "0".

955

Q119.

In the past week, out of the total confirmed cases referred to your health department, how many cases have been associated with clusters or outbreaks (number)? DO count cases associated with an outbreak that originated in another LHD jurisdiction for which your health department has an

associated case(s).

NOTE: Some local health departments track this number with line lists. If these counts have not been actively tracked elsewhere, MDSS may be used to obtain count: Run a New Search with the following criteria: Case Status - Confirmed; Investigation Status - active, completed, completed-follow up, new, review; Reportable Condition - Novel Coronavirus COVID-19; Referral Date - the past week (Friday - Thursday); Geographic criteria - your LHD; Exclude MDOC cases (optiona on Advanced Search page). In the Outbreak Field, enter an asterisk (*). View these cases by using the export button at the top of the list. Please do not include cases with the general outbreak ID (e.g., WUHAN19-20, 2019-NCOV-2020 STATEWIDE, COVID-19, etc.), unless they are part of a facility outbreak ID (e.g., WUHAN19_20 _FacilityName)

16

Q120. Please indicate any barriers your local health department is experiencing (check all that apply).

- Limited staff for case investigation
- Limited staff for communication to facilities
- Limited staff for data entry/epi support
- Other (please specify):
 - Inadequate resources to keep up with investigations and contact tracing...
 - Required Data Entry/Collection necessary for state indicators that will be impossible to keep up with prioritization of cases
 - Need for isolation/quarantine letters growing exponentially without staffing resources to respond
 - Lack of state orders to control the spread putting undue pressure on locals for response/actions
 - Lack of technology that can allow self-reporting of positive case data that can be integrated into MDSS – having to use personnel resources for data entry which his not efficient*
 - Delay in LTC reporting of COVID deaths

Q121.

Is your health department using a State of Michigan system to conduct contact tracing (e.g., OMS or TraceForce)?

- Yes

Q123.

MDHHS would like a more detailed understanding of LHD staffing issues related to condcuting case investigations and contact tracing for the COIVD-19 pandemic. MDHHS is asking you to identify the total number of staff your health department needs as well as the number of staff your agency currently has and the number of staff your agency plans to hire. This will identify any gaps in staffing and allow MDHHS to more effectively utilize its resources in support of LHDs.

NOTE: Each category below requires a number for the answer. If any of the categories below do not apply, enter a zero (0).

<i>Number of staff (full time equivalents [FTE]) currently conducting case investigations</i>	8
<i>Number of additional staff (FTEs) your health department is planning to hire for case investigations</i>	4
<i>Number of staff (FTEs) currently conducting contact tracing</i>	0
<i>Number of additional staff your health department is planning to hire for contact tracing</i>	0
<i>Number of additional roles your health department is looking to hire that are not case investigation or contact tracing related</i>	2
<i>Number of new staff onboarded in the last week</i>	0

Response Summary:

Q1. Date of report:
11-05-2020

Q2. Local health department name

Choose your LHD from the dropdown menu: Saginaw County Health Department

Q3. Name of person completing this report

Cari Hillman

Q4. Email address

chillman@saginawcounty.com

Q5. Phone number

989-758-3804

Q6. Select your preparedness region from the menu

Emergency preparedness region: 3

Q7. Having reviewed your case trend data for the past week, has the trend of new cases in your jurisdiction shown a decrease, remained steady, or increased? Use the slider below to indicate how large or small your case decrease/increase is. For example, -5 would indicate a sharp or large decrease in case counts. 0 would indicate no change, etc.

Case trends 2

Q8.

For the increase in cases in your jurisdiction since the last report, please indicate possible reason(s) for the increase using the list below.

- General community spread
- Other (please specify):
Individuals not conforming to quarantine / isolation requirements.

Q126. Has your health department issued any emergency orders in the last week?

- No

Q9. In the past week, have there been any NEW clusters or outbreaks that originated in your health department jurisdiction?

NOTE: Do not count new outbreaks that originated in another LHD jurisdiction for which your health department has an associated case(s).

- Yes

Q10#1. Indicate the number of NEW outbreaks in each of the settings during the past week. COVID-19 outbreaks follow the general outbreak definition which is defined as two or more cases with a link by place and time indicating a shared exposure outside of a household.

UPDATED 11/5: Please report all outbreaks according to the Michigan Standard Operating Procedure and CSTE definition: <https://preparedness.cste.org/wp-content/uploads/2020/08/OH-Outbreak-Definition.pdf>.

For school outbreaks, please follow reporting according to the CSTE Outbreak Definition: <https://preparedness.cste.org/wp-content/uploads/2020/08/Educational-Outbreak-Definition.pdf>

All items need an answer; if you have no outbreaks in a particular category, leave the default "0".
 NOTE: Do not count new outbreaks that originated in another LHD jurisdiction for which your health department has an associated case(s).

- Number of NEW outbreaks

Shelters/Settings that provide services for people experiencing homelessness	0
Religious Services	1
Community Exposure - indoors (e.g. concert, meeting, etc.)	0
Outdoor Community Event/Mass Gathering (e.g. concert, rally, protest, parade, etc.)	0
Social Gathering (e.g. birthday party, graduation party, wedding, funeral, etc.)	1
Other	0

Q63#2. Indicate the number of ONGOING outbreaks in each of the settings during the past week. COVID-19 outbreaks follow the general outbreak definition which is defined as two or more cases with a link by place and time indicating a shared exposure outside of a household.

UPDATED 11/5: Please report all outbreaks according to the Michigan Standard Operating Procedure and CSTE definition: <https://preparedness.cste.org/wp-content/uploads/2020/08/OH-Outbreak-Definition.pdf>. Count outbreaks as ongoing until they are resolved (no cases for 28 days).

For school outbreaks, please follow reporting according to the CSTE Outbreak Definition: <https://preparedness.cste.org/wp-content/uploads/2020/08/Educational-Outbreak-Definition.pdf>

Please count new and ongoing outbreaks only once (i.e., a new outbreak is not also counted in the ongoing outbreak category).

All items need an answer; if you have no outbreaks in a particular category, leave the default "0".
 NOTE: Do not count ongoing outbreaks that originated in another LHD jurisdiction for which your health department has an associated case(s).

- In which emergency preparedness region did the ongoing outbreak(s) occur?

	Region 1	Region 3	Region 5	Region 6	Region 7
<i>Long-Term Care Facility (e.g. SNF, assisted living, adult day care, group home)</i>	0	0	0	0	0
<i>Agricultural/Food Processing/Migrant Camp (e.g. farm, meat packing facility, hatchery, etc.)</i>	0	0	0	0	0
<i>Bar - employee associated outbreak</i>	0	0	0	0	0
<i>Bar - patron and employee associated outbreak</i>	0	0	0	0	0
<i>Restaurant - employee associated outbreak</i>	0	0	0	0	0
<i>Restaurant - patron and employee associated outbreak</i>	0	0	0	0	0
<i>K-12 School (e.g. classroom, before/after school programs, etc.)</i>	0	0	0	0	0
<i>College/University/Institute of Higher Learning</i>	0	0	0	0	0
<i>Childcare/Youth Programs (e.g. daycare, day/overnight camps, extra curricular activities, sports programs, etc.)</i>	0	0	0	0	0
<i>Manufacturing/Construction</i>	0	0	0	0	0
<i>Office Setting</i>	0	0	0	0	0
<i>Retail - employee associated outbreak</i>	0	0	0	0	0
<i>Retail - patron and employee associated outbreak</i>	0	0	0	0	0
<i>Personal Services (e.g. nail/hair salon, spa, gym)</i>	0	0	0	0	0
<i>Jail/Prison/Detention Center</i>	0	0	0	0	0
<i>Healthcare (e.g. inpatient, outpatient, dental practices, dialysis, etc.)</i>	0	0	0	0	0
<i>Shelters/Settings that provide services for people experiencing homelessness</i>	0	0	0	0	0
<i>Religious Services</i>	0	0	0	0	0
<i>Community Exposure - indoors (e.g. concert, meeting, etc.)</i>	0	0	0	0	0
<i>Outdoor Community Event/Mass Gathering (e.g. concert, rally, protest, parade, etc.)</i>	0	0	0	0	0
<i>Social Gathering (e.g. birthday party, graduation party, wedding, funeral, etc.)</i>	0	0	0	0	0
<i>Other</i>	0	0	0	0	0

Q65. For ongoing outbreaks, add any comments that you need to share here.

No additional comments at this time.

Q66. 1. For each ongoing school outbreak, please provide the information below.

Name of school	Heritage High School
Address of school	3465 Center Road
City	Saginaw
Postal code	48603

Q67. Grades associated with the school outbreak

Only one answer can be chosen, please choose the best fit: High school

Q68. Number of cases associated with the outbreak (cumulative)

4

Q69. Are cases in staff, students, or both?

- Students

Q70. Enter any comments for this school outbreak here:

No additional comments at this time.

Q91. 1. For each ongoing college/university outbreak, please provide the information below.

College/university name	SVSU
Street address of college/university building with outbreak	7400 Bay Road
City	University Center
Postal code	48604

Q92. Grades associated with the school outbreak

Only one answer can be chosen, please choose the best fit: College - undergraduate

Q93. Number of cases associated with the outbreak (cumulative)

8

Q94. Are cases in staff, students, or both?

- Students

Q95. Enter any comments for this college/university outbreak here:

No additional comments at this time.

Q118.

In the past week, how many total confirmed cases have been referred to your health department?

NOTE: to obtain this count, run a New Search in MDSS with the following criteria: Case status - Confirmed; Investigation Status - active, completed, completed-follow up, new, review; reportable Condition - Novel Coronavirus COVID-19; Referral Date - the past week (Friday - Thursday); Geographic criteria - your LHD; Exclude MDOC cases (option on Advanced Search page) If no confirmed cases were referred to your health department in the past week, enter "0".

Q119.

In the past week, out of the total confirmed cases referred to your health department, how many cases have been associated with clusters or outbreaks (number)? DO count cases associated with an outbreak that originated in another LHD jurisdiction for which your health department has an associated case(s).

NOTE: Some local health departments track this number with line lists. If these counts have not been actively tracked elsewhere, MDSS may be used to obtain count: Run a New Search with the following criteria: Case Status - Confirmed; Investigation Status - active, completed, completed-follow up, new, review; Reportable Condition - Novel Coronavirus COVID-19; Referral Date - the past week (Friday - Thursday); Geographic criteria - your LHD; Exclude MDOC cases (optional on Advanced Search page). In the Outbreak Field, enter an asterisk (*). View these cases by using the export button at the top of the list. Please do not include cases with the general outbreak ID (e.g., WUHAN19-20, 2019-NCOV-2020 STATEWIDE, COVID-19, etc.), unless they are part of a facility outbreak ID (e.g., WUHAN19_20 _FacilityName)

23

Q120. Please indicate any barriers your local health department is experiencing (check all that apply).

- Limited staff for case investigation
- Limited staff for data entry/epi support

Q121.

Is your health department using a State of Michigan system to conduct contact tracing (e.g., OMS or TraceForce)?

- Yes

Q123.

MDHHS would like a more detailed understanding of LHD staffing issues related to conducting case investigations and contact tracing for the COVID-19 pandemic. MDHHS is asking you to identify the total number of staff your health department needs as well as the number of staff your agency currently has and the number of staff your agency plans to hire. This will identify any gaps in staffing and allow MDHHS to more effectively utilize its resources in support of LHDs.

NOTE: Each category below requires a number for the answer. If any of the categories below do not apply, enter a zero (0).

<i>Number of staff (full time equivalents [FTE]) currently conducting case investigations</i>	8
<i>Number of additional staff (FTEs) your health department is planning to hire for case investigations</i>	4
<i>Number of staff (FTEs) currently conducting contact tracing</i>	0
<i>Number of additional staff your health department is planning to hire for contact tracing</i>	0
<i>Number of additional roles your health department is looking to hire that are not case investigation or contact tracing related</i>	2
<i>Number of new staff onboarded in the last week</i>	0

Response Summary:

Q1. Date of report:

10-29-2020

Q2. Local health department name

Choose your LHD from the dropdown menu: Saginaw County Health Department

Q3. Name of person completing this report

Cari Hillman

Q4. Email address

chillman@saginawcounty.com

Q5. Phone number

989-758-3804

Q6. Select your preparedness region from the menu

Emergency preparedness region: 3

Q7. Having reviewed your case trend data for the past week, has the trend of new cases in your jurisdiction shown a decrease, remained steady, or increased? Use the slider below to indicate how large or small your case decrease/increase is. For example, -5 would indicate a sharp or large decrease in case counts. 0 would indicate no change, etc.

Case trends 4

Q8.

For the increase in cases in your jurisdiction since the last report, please indicate possible reason(s) for the increase using the list below.

- General community spread

Q126. Has your health department issued any emergency orders in the last week?

- No

Q9. In the past week, have there been any NEW clusters or outbreaks that originated in your health department jurisdiction?

NOTE: Do not count new outbreaks that originated in another LHD jurisdiction for which your health department has an associated case(s).

- Yes

Q10#1. Indicate the number of NEW outbreaks in each of the settings during the past week. COVID-19 outbreaks follow the general outbreak definition which is defined as two or more cases with a link by place and time indicating a shared exposure outside of a household.

For school outbreaks, please follow reporting according to the CSTE Outbreak

Definition: <https://preparedness.cste.org/wp-content/uploads/2020/08/Educational-Outbreak-Definition.pdf>

All items need an answer; if you have no outbreaks in a particular category, leave the default "0".

NOTE: Do not count new outbreaks that originated in another LHD jurisdiction for which your health

department has an associated case(s).

- Number of NEW outbreaks

Long-Term Care Facility (e.g. SNF, assisted living, adult day care, group home)	1
Agricultural/Food Processing/Migrant Camp (e.g. farm, meat packing facility, hatchery, etc.)	0
Bar - employee associated outbreak	0
Bar - patron and employee associated outbreak	0
Restaurant - employee associated outbreak	0
Restaurant - patron and employee associated outbreak	0
K-12 School (e.g. classroom, before/after school programs, etc.)	0
College/University/Institute of Higher Learning	0
Childcare/Youth Programs (e.g. daycare, day/overnight camps, extra curricular activities, sports programs, etc.)	1
Manufacturing/Construction	0
Office Setting	0
Retail - employee associated outbreak	1
Retail - patron and employee associated outbreak	0
Personal Services (e.g. nail/hair salon, spa, gym)	0
Jail/Prison/Detention Center	0
Healthcare (e.g. inpatient, outpatient, dental practices, dialysis, etc.)	0
Shelters/Settings that provide services for people experiencing homelessness	0
Religious Services	1
Community Exposure - indoors (e.g. concert, meeting, etc.)	0
Outdoor Community Event/Mass Gathering (e.g. concert, rally, protest, parade, etc.)	0
Social Gathering (e.g. birthday party, graduation party, wedding, funeral, etc.)	1
Other	0

Q10#2. Indicate the number of NEW outbreaks in each of the settings during the past week. COVID-19 outbreaks follow the general outbreak definition which is defined as two or more cases with a link by place and time indicating a shared exposure outside of a household.

For school outbreaks, please follow reporting according to the CSTE Outbreak

Definition: <https://preparedness.cste.org/wp-content/uploads/2020/08/Educational-Outbreak-Definition.pdf>

All items need an answer; if you have no outbreaks in a particular category, leave the default "0".

NOTE: Do not count new outbreaks that originated in another LHD jurisdiction for which your health department has an associated case(s).

Q12. For new outbreaks, please add any comments that you need to share here.

No additional comments at this time.

Q63#1. Indicate the number of ONGOING outbreaks in each of the settings during the past week. COVID-19 outbreaks follow the general outbreak definition which is defined as two or more cases with a link by place and time indicating a shared exposure outside of a household.

Ongoing outbreaks are those that had already been identified in previous weeks but have had at least one new associated case reported to the local health department (for educational outbreaks, in the last 28 days; for all other settings, in the last 14 days.) Please count new and ongoing outbreaks only once (i.e., a new outbreak is not also counted in the ongoing outbreak category).

For school outbreaks, please follow reporting according to the CSTE Outbreak

Definition: <https://preparedness.cste.org/wp-content/uploads/2020/08/Educational-Outbreak-Definition.pdf>

All items need an answer; if you have no outbreaks in a particular category, leave the default "0".
NOTE: Do not count ongoing outbreaks that originated in another LHD jurisdiction for which your health department has an associated case(s).

Social Gathering (e.g. birthday party, graduation party, wedding, funeral, etc.)	0	0	0	0	0
Other	0	0	0	0	0

Q64. Please specify the ongoing outbreak setting(s) which are classified as "Other"

Holy Cross Services

Q65. For ongoing outbreaks, add any comments that you need to share here.

No additional comments at this time.

Q66. 1. For each ongoing school outbreak, please provide the information below.

Name of school	List Elementary
Address of school	525 E. Genesee
City	Frankenmuth
Postal code	48734

Q67. Grades included in school

Only one answer can be chosen, please choose the best fit: Pre-school - elementary

Q68. Number of cases associated with the outbreak (cumulative)

8

Q69. Are cases in staff, students, or both?

- Both

Q70. Enter any comments for this school outbreak here:

No additional comments at this time.

Q71. 2. For each ongoing school outbreak, please provide the information below.

Name of school	Heritage High School
Address of school	3465 Center Road
City	Saginaw
Postal code	48603

Q72. Grades included in the school

Only one answer can be chosen, please choose the best fit: High school

Q73. Number of cases associated with the outbreak (cumulative)

4

Q74. Are cases in staff, students, or both?

- Students

Q75. Enter any comments for this school outbreak here:

No additional comments at this time.

Q91. 1. For each ongoing college/university outbreak, please provide the information below.

College/university name	SVSU
Street address of college/university building with outbreak	7400 Bay Road
City	University Center
Postal code	48604

Q92. Grades included in the school

Only one answer can be chosen, please choose the best fit:	College - undergraduate
---	-------------------------

Q93. Number of cases associated with the outbreak (cumulative)

20

Q94. Are cases in staff, students, or both?

- Students

Q95. Enter any comments for this college/university outbreak here:

Listed in MDSS as "Bay City House Party" - this was a result of a house party in Bay County that SVSU student athletes from several teams attended.

Q118.

In the past week, how many total confirmed cases have been referred to your health department?

NOTE: to obtain this count, run a New Search in MDSS with the following criteria: Case status - Confirmed; Investigation Status - active, completed, completed-follow up, new, review; reportable Condition - Novel Coronavirus COVID-19; Referral Date - the past week (Friday - Thursday); Geographic criteria - your LHD; Exclude MDOC cases (option on Advanced Search page) If no confirmed cases were referred to your health department in the past week, enter "0".

446

Q119.

In the past week, out of the total confirmed cases referred to your health department, how many cases have been associated with clusters or outbreaks (number)? DO count cases associated with an outbreak that originated in another LHD jurisdiction for which your health department has an associated case(s).

NOTE: Some local health departments track this number with line lists. If these counts have not been actively tracked elsewhere, MDSS may be used to obtain count: Run a New Search with the following criteria: Case Status - Confirmed; Investigation Status - active, completed, completed-follow up, new, review; Reportable Condition - Novel Coronavirus COVID-19; Referral Date - the past week (Friday - Thursday); Geographic criteria - your LHD; Exclude MDOC cases (optiona on Advanced Search page). In the Outbreak Field, enter an asterisk (*). View these cases by using the export button at the top of the list. Please do not include cases with the general outbreak ID (e.g., WUHAN19-20, 2019-NCOV-2020 STATEWIDE, COVID-19, etc.), unless they are part of a facility outbreak ID (e.g., WUHAN19_20 _FacilityName)

19

Q120. Please indicate any barriers your local health department is experiencing (check all that apply).

- Limited staff for case investigation

- Limited staff for data entry/epi support

Q121.

Is your health department using a State of Michigan system to conduct contact tracing (e.g., OMS or TraceForce)?

- Yes

Q123.

MDHHS would like a more detailed understanding of LHD staffing issues related to conducting case investigations and contact tracing for the COVID-19 pandemic. MDHHS is asking you to identify the total number of staff your health department needs as well as the number of staff your agency currently has and the number of staff your agency plans to hire. This will identify any gaps in staffing and allow MDHHS to more effectively utilize its resources in support of LHDs.

NOTE: Each category below requires a number for the answer. If any of the categories below do not apply, enter a zero (0).

<i>Number of staff (full time equivalents [FTE]) currently conducting case investigations</i>	8
<i>Number of additional staff (FTEs) your health department is planning to hire for case investigations</i>	4
<i>Number of staff (FTEs) currently conducting contact tracing</i>	0
<i>Number of additional staff your health department is planning to hire for contact tracing</i>	0
<i>Number of additional roles your health department is looking to hire that are not case investigation or contact tracing related</i>	2
<i>Number of new staff onboarded in the last week</i>	0

Subject: MI LHD Sitrep response

Thank you for submitting your LHD Sitrep for this week! Here is a copy of your responses for your reference.

If you have any questions or concerns, please contact heccepi@michigan.gov

[Download as PDF](#)

URL to view Results [\[Click Here\]](#)

Response Summary:

Q1. Date of report:

10-22-2020

Q2. Local health department name

Choose your LHD from the dropdown menu: Saginaw County Health Department

Q3. Name of person completing this report

Cari Hillman

Q4. Email address

chillman@saginawcounty.com

Q5. Phone number

989-758-3804

Q6. Select your preparedness region from the menu

Emergency preparedness region: 3

Q7. Having reviewed your case trend data for the past week, has the trend of new cases in your jurisdiction shown a decrease, remained steady, or increased? Use the slider below to indicate how

large or small your case decrease/increase is. For example, -5 would indicate a sharp or large decrease in case counts. 0 would indicate no change, etc.

Case trends	3
-------------	---

Q8.

For the increase in cases in your jurisdiction since the last report, please indicate possible reason(s) for the increase using the list below.

- General community spread
- Other (please specify):
Quarantine requirements not being observed.

Q126. Has your health department issued any emergency orders in the last week?

- No

Q9. In the past week, have there been any NEW clusters or outbreaks that originated in your health department jurisdiction?

NOTE: Do not count new outbreaks that originated in another LHD jurisdiction for which your health department has an associated case(s).

- Yes

Q10#1. Indicate the number of NEW outbreaks in each of the settings during the past week. COVID-19 outbreaks follow the general outbreak definition which is defined as two or more cases with a link by place and time indicating a shared exposure outside of a household.

For school outbreaks, please follow reporting according to the CSTE Outbreak

Definition: <https://preparedness.cste.org/wp-content/uploads/2020/08/Educational-Outbreak-Definition.pdf>

All items need an answer; if you have no outbreaks in a particular category, leave the default "0".

NOTE: Do not count new outbreaks that originated in another LHD jurisdiction for which your health department has an associated case(s).

- Number of NEW outbreaks

<i>Long-Term Care Facility (e.g. SNF, assisted living, adult day care, group home)</i>	0

<i>Community Exposure - indoors (e.g. concert, meeting, etc.)</i>	0
<i>Outdoor Community Event/Mass Gathering (e.g. concert, rally, protest, parade, etc.)</i>	0
<i>Social Gathering (e.g. birthday party, graduation party, wedding, funeral, etc.)</i>	0
<i>Other</i>	0

Q10#2. Indicate the number of NEW outbreaks in each of the settings during the past week. COVID-19 outbreaks follow the general outbreak definition which is defined as two or more cases with a link by place and time indicating a shared exposure outside of a household.

For school outbreaks, please follow reporting according to the CSTE Outbreak

Definition: <https://preparedness.cste.org/wp-content/uploads/2020/08/Educational-Outbreak-Definition.pdf>

All items need an answer; if you have no outbreaks in a particular category, leave the default "0".

NOTE: Do not count new outbreaks that originated in another LHD jurisdiction for which your health department has an associated case(s).

- In which emergency preparedness region did the new outbreak(s) occur?

	Region 1	Region 3	Region 5	Region 6	Region 7
<i>Long-Term Care Facility (e.g. SNF, assisted living, adult day care, group home)</i>	0	0	0	0	0
<i>Agricultural/Food Processing/Migrant Camp (e.g. farm, meat packing facility, hatchery, etc.)</i>	0	0	0	0	0

Q12. For new outbreaks, please add any comments that you need to share here.

No additional comments at this time.

Q63#1. Indicate the number of ONGOING outbreaks in each of the settings during the past week. COVID-19 outbreaks follow the general outbreak definition which is defined as two or more cases with a link by place and time indicating a shared exposure outside of a household.

Ongoing outbreaks are those that had already been identified in previous weeks but have had at least one new associated case reported to the local health department (for educational outbreaks, in the last 28 days; for all other settings, in the last 14 days.) Please count new and ongoing outbreaks only once (i.e., a new outbreak is not also counted in the ongoing outbreak category).

For school outbreaks, please follow reporting according to the CSTE Outbreak

Definition: <https://preparedness.cste.org/wp-content/uploads/2020/08/Educational-Outbreak-Definition.pdf>

All items need an answer; if you have no outbreaks in a particular category, leave the default "0".
NOTE: Do not count ongoing outbreaks that originated in another LHD jurisdiction for which your health department has an associated case(s).

- Number of ONGOING outbreaks

Q64. Please specify the ongoing outbreak setting(s) which are classified as "Other"
Saginaw County Sheriff's Department / deputies

Q65. For ongoing outbreaks, add any comments that you need to share here.
No additional comments at this time.

Q66. 1. For each ongoing school outbreak, please provide the information below.

Name of school	List Elementary
Address of school	525 E. Genesee
City	Frankenmuth
Postal code	48735

Q67. Grades included in school

Only one answer can be chosen, please choose the best fit:	Pre-school - elementary
---	-------------------------

Q68. Number of cases associated with the outbreak (cumulative)
8

Q69. Are cases in staff, students, or both?

- Both

Q70. Enter any comments for this school outbreak here:
None at this time.

Q71. 2. For each ongoing school outbreak, please provide the information below.

Name of school	Saginaw Preparatory Academy
Address of school	5173 Lodge
City	Buena Vista
Postal code	48601

Q72. Grades included in the school

Only one answer can be chosen, please choose the best fit: Pre-school - elementary

Q73. Number of cases associated with the outbreak (cumulative)

2

Q74. Are cases in staff, students, or both?

- Staff

Q75. Enter any comments for this school outbreak here:

None at this time.

Q76. 3. For each ongoing school outbreak, please provide the information below.

Name of school	Heritage High School
Address of school	3465 Center
City	Saginaw
Postal code	48603

Q77. Grades included in the school

Only one answer can be chosen, please choose the best fit: High school

Q78. Number of cases associated with the outbreak (cumulative)

4

Q79. Are cases in staff, students, or both?

- Students

Q80. Enter any comments for this school outbreak here:

This outbreak is associated with the football team.

Q91. 1. For each ongoing college/university outbreak, please provide the information below.

College/university name	SVSU
Street address of college/university building with outbreak	7400 Bay Road
City	University Center
Postal code	48604

Q92. Grades included in the school

Only one answer can be chosen, please choose the best fit: College - undergraduate

Q93. Number of cases associated with the outbreak (cumulative)

8

Q94. Are cases in staff, students, or both?

- Students

Q95. Enter any comments for this college/university outbreak here:

This is a small campus outbreak of 8 students.

Q96. 2. For each ongoing college/university outbreak, please provide the information below.

<i>College/university name</i>	SVSU
<i>Street address of college/university building with outbreak</i>	7400 Bay Road
<i>City</i>	Saginaw
<i>Postal code</i>	48604

Q97. Grades included in the school

<i>Only one answer can be chosen, please choose the best fit:</i>	College - undergraduate
---	-------------------------

Q98. Number of cases associated with the outbreak (cumulative)

20

Q99. Are cases in staff, students, or both?

- Students

Q100. Enter any comments for this college/university outbreak here:

Listed in MDSS as "Bay City House Party" - this was a result of a house party in Bay County that SVSU student athletes from several teams attended.

Q118.

In the past week, how many total confirmed cases have been referred to your health department?

NOTE: to obtain this count, run a New Search in MDSS with the following criteria: Case status - Confirmed; Investigation Status - active, completed, completed-follow up, new, review; reportable Condition - Novel Coronavirus COVID-19; Referral Date - the past week (Friday - Thursday); Geographic criteria - your LHD; Exclude MDOC cases (option on Advanced Search page) If no confirmed cases were referred to your health department in the past week, enter "0".

241

Q119.

In the past week, out of the total confirmed cases referred to your health department, how many cases have been associated with clusters or outbreaks (number)? DO count cases associated with an outbreak that originated in another LHD jurisdiction for which your health department has an associated case(s).

NOTE: Some local health departments track this number with line lists. If these counts have not been actively tracked elsewhere, MDSS may be used to obtain count: Run a New Search with the following criteria: Case Status - Confirmed; Investigation Status - active, completed, completed-follow up, new, review; Reportable Condition - Novel Coronavirus COVID-19; Referral Date - the past week (Friday - Thursday); Geographic criteria - your LHD; Exclude MDOC cases (optiona on Advanced Search page). In the Outbreak Field, enter an asterisk (*). View these cases by using the export button at the top of the list. Please do not include cases with the general outbreak ID (e.g., WUHAN19-20, 2019-NCOV-2020 STATEWIDE, COVID-19, etc.), unless they are part of a facility outbreak ID (e.g., WUHAN19_20 _FacilityName)

Q120. Please indicate any barriers your local health department is experiencing (check all that apply).

- Limited staff for case investigation
- Limited staff for data entry/epi support

Q121.

Is your health department using a State of Michigan system to conduct contact tracing (e.g., OMS or TraceForce)?

- Yes

Q123.

MDHHS would like a more detailed understanding of LHD staffing issues related to conducting case investigations and contact tracing for the COVID-19 pandemic. MDHHS is asking you to identify the total number of staff your health department needs as well as the number of staff your agency currently has and the number of staff your agency plans to hire. This will identify any gaps in staffing and allow MDHHS to more effectively utilize its resources in support of LHDs.

NOTE: Each category below requires a number for the answer. If any of the categories below do not apply, enter a zero (0).

<i>Number of staff (full time equivalents [FTE]) currently conducting case investigations</i>	8
<i>Number of additional staff (FTEs) your health department is planning to hire for case investigations</i>	4
<i>Number of staff (FTEs) currently conducting contact tracing</i>	0
<i>Number of additional staff your health department is planning to hire for contact tracing</i>	0
<i>Number of additional roles your health department is looking to hire that are not case investigation or contact tracing related</i>	2
<i>Number of new staff onboarded in the last week</i>	0

Subject: MI LHD Sitrep response

Thank you for submitting your LHD Sitrep for this week! Here is a copy of your responses for your reference.

If you have any questions or concerns, please contact checcepi@michigan.gov
[Download as PDF](#)

[URL to view Results](#) [[Click Here](#)]

Response Summary:

Q1. Date of report:

10-15-2020

Q2. Local health department name

Choose your LHD from the dropdown menu: Saginaw County Health Department

Q3. Name of person completing this report

Cari Hillman

Q4. Email address

chillman@saginawcounty.com

Q5. Phone number

989-758-3804

Q6. Select your preparedness region from the menu

Emergency preparedness region: 3

Q7. Having reviewed your case trend data for the past week, has the trend of new cases in your jurisdiction shown a decrease, remained steady, or increased? Use the slider below to indicate how large or small your case decrease/increase is. For example, -5 would indicate a sharp or large decrease in case counts. 0 would indicate no change, etc.

Case trends 2

Q8.

For the increase in cases in your jurisdiction since the last report, please indicate possible reason(s) for the increase using the list below.

- Congregate setting outbreak
- General community spread

Q126. Has your health department issued any emergency orders in the last week?

- No

Q9. In the past week, have there been any NEW clusters or outbreaks that originated in your health department jurisdiction?

NOTE: Do not count new outbreaks that originated in another LHD jurisdiction for which your health department has an associated case(s).

- Yes

Q10#1. Indicate the number of NEW outbreaks in each of the settings during the past week. COVID-19 outbreaks follow the general outbreak definition which is defined as two or more cases with a link by place and time indicating a shared exposure outside of a household.

For school outbreaks, please follow reporting according to the CSTE Outbreak

Definition: <https://preparedness.cste.org/wp-content/uploads/2020/08/Educational-Outbreak-Definition.pdf>

All items need an answer; if you have no outbreaks in a particular category, leave the default "0".

NOTE: Do not count new outbreaks that originated in another LHD jurisdiction for which your health department has an associated case(s).

- Number of NEW outbreaks

<i>Long-Term Care Facility (e.g. SNF, assisted living, adult day care, group home)</i>	0
<i>Agricultural/Food Processing/Migrant Camp (e.g. farm, meat packing facility, hatchery, etc.)</i>	0

Only one answer can be chosen, please choose the best fit: College - undergraduate

Q93. Number of cases associated with the outbreak (cumulative)

20

Q94. Are cases in staff, students, or both?

- Students

Q95. Enter any comments for this college/university outbreak here:

Listed in MDSS as "Bay City House Party" - this was a result of a house party in Bay County that SVSU student athletes from several teams attended.

Q96. 2. For each ongoing college/university outbreak, please provide the information below.

College/university name	SVSU
Street address of college/university building with outbreak	7400 Bay Road
City	University Center
Postal code	48604

Q97. Grades included in the school

Only one answer can be chosen, please choose the best fit: College - undergraduate

Q98. Number of cases associated with the outbreak (cumulative)

6

Q99. Are cases in staff, students, or both?

- Students

Q100. Enter any comments for this college/university outbreak here:

This is a small campus outbreak of 6 students.

Q118.

In the past week, how many total confirmed cases have been referred to your health department?

NOTE: to obtain this count, run a New Search in MDSS with the following criteria: Case status - Confirmed; Investigation Status - active, completed, completed-follow up, new, review; reportable Condition - Novel Coronavirus COVID-19; Referral Date - the past week (Friday - Thursday); Geographic criteria - your LHD; Exclude MDOC cases (option on Advanced Search page) If no confirmed cases were referred to your health department in the past week, enter "0".

81

Q119.

In the past week, out of the total confirmed cases referred to your health department, how many cases have been associated with clusters or outbreaks (number)? DO count cases associated with an outbreak that originated in another LHD jurisdiction for which your health department has an associated case(s).

NOTE: Some local health departments track this number with line lists. If these counts have not been actively tracked elsewhere, MDSS may be used to obtain count: Run a New Search with the following criteria: Case Status - Confirmed; Investigation Status - active, completed, completed-follow up, new, review; Reportable Condition - Novel Coronavirus COVID-19; Referral Date - the past week (Friday - Thursday); Geographic criteria - your LHD; Exclude MDOC cases (optiona on Advanced Search page). In the Outbreak Field, enter an asterisk (*). View these cases by using the export button at the top of the list. Please do not include cases with the general outbreak ID (e.g., WUHAN19-20, 2019-NCOV-2020 STATEWIDE, COVID-19, etc.), unless they are part of a facility outbreak ID (e.g., WUHAN19_20 _FacilityName)

11

Q120. Please indicate any barriers your local health department is experiencing (check all that apply).

- Limited staff for case investigation
- Limited staff for data entry/epi support

Q121.

Is your health department using a State of Michigan system to conduct contact tracing (e.g., OMS or TraceForce)?

- Yes

Q123.

MDHHS would like a more detailed understanding of LHD staffing issues related to conducting case investigations and contact tracing for the COIVD-19 pandemic. MDHHS is asking you to identify the

total number of staff your health department needs as well as the number of staff your agency currently has and the number of staff your agency plans to hire. This will identify any gaps in staffing and allow MDHHS to more effectively utilize its resources in support of LHDs.

NOTE: Each category below requires a number for the answer. If any of the categories below do not apply, enter a zero (0).

<i>Number of staff (full time equivalents [FTE]) currently conducting case investigations</i>	8
<i>Number of additional staff (FTEs) your health department is planning to hire for case investigations</i>	4
<i>Number of staff (FTEs) currently conducting contact tracing</i>	0
<i>Number of additional staff your health department is planning to hire for contact tracing</i>	0
<i>Number of additional roles your health department is looking to hire that are not case investigation or contact tracing related</i>	2
<i>Number of new staff onboarded in the last week</i>	0

Subject: MI LHD Sitrep response

Thank you for submitting your LHD Sitrep for this week! Here is a copy of your responses for your reference.

If you have any questions or concerns, please contact checcepi@michigan.gov
[Download as PDF](#)

[URL to view Results](#) [[Click Here](#)]

Response Summary:

Q1. Date of report:

10-08-2020

Q2. Local health department name

Choose your LHD from the dropdown menu: Saginaw County Health Department

Q3. Name of person completing this report

Cari Hillman

Q4. Email address

chillman@saginawcounty.com

Q5. Phone number

989-758-3804

Q6. Select your preparedness region from the menu

Emergency preparedness region: 3

Q7. Having reviewed your case trend data for the past week, has the trend of new cases in your jurisdiction shown a decrease, remained steady, or increased? Use the slider below to indicate how large or small your case decrease/increase is. For example, -5 would indicate a sharp or large decrease in case counts. 0 would indicate no change, etc.

Case trends -1

Q126. Has your health department issued any emergency orders in the last week?

- No

Q9. In the past week, have there been any NEW clusters or outbreaks that originated in your health department jurisdiction?

NOTE: Do not count new outbreaks that originated in another LHD jurisdiction for which your health department has an associated case(s).

- Yes

Q10#1. Indicate the number of NEW outbreaks in each of the settings during the past week. COVID-19 outbreaks follow the general outbreak definition which is defined as two or more cases with a link by place and time indicating a shared exposure outside of a household.

For school outbreaks, please follow reporting according to the CSTE Outbreak

Definition: <https://preparedness.cste.org/wp-content/uploads/2020/08/Educational-Outbreak-Definition.pdf>

All items need an answer; if you have no outbreaks in a particular category, leave the default "0".

NOTE: Do not count new outbreaks that originated in another LHD jurisdiction for which your health department has an associated case(s).

- Number of NEW outbreaks

Long-Term Care Facility (e.g. SNF, assisted living, adult day care, group home)	0

<i>Agricultural/Food Processing/Migrant Camp (e.g. farm, meat packing facility, hatchery, etc.)</i>	0
<i>Bar - employee associated outbreak</i>	0
<i>Bar - patron and employee associated outbreak</i>	0
<i>Restaurant - employee associated outbreak</i>	0
<i>Restaurant - patron and employee associated outbreak</i>	0
<i>K-12 School (e.g. classroom, before/after school programs, etc.)</i>	0
<i>College/University/Institute of Higher Learning</i>	0
<i>Childcare/Youth Programs (e.g. daycare, day/overnight camps, extra curricular activities, sports programs, etc.)</i>	1
<i>Manufacturing/Construction</i>	0
<i>Office Setting</i>	0
<i>Retail - employee associated outbreak</i>	1
<i>Retail - patron and employee associated outbreak</i>	0
<i>Personal Services (e.g. nail/hair salon, spa, gym)</i>	0
<i>Jail/Prison/Detention Center</i>	0
<i>Healthcare (e.g. inpatient, outpatient, dental practices, dialysis, etc.)</i>	0
<i>Shelters/Settings that provide services for people experiencing homelessness</i>	0
<i>Religious Services</i>	0
<i>Community Exposure - indoors (e.g. concert, meeting, etc.)</i>	0
<i>Outdoor Community Event/Mass Gathering (e.g. concert, rally, protest, parade, etc.)</i>	0
<i>Social Gathering (e.g. birthday party, graduation party, wedding, funeral, etc.)</i>	0
<i>Other</i>	0

Q10#2. Indicate the number of NEW outbreaks in each of the settings during the past week. COVID-19 outbreaks follow the general outbreak definition which is defined as two or more cases with a link by place and time indicating a shared exposure outside of a household.

For school outbreaks, please follow reporting according to the CSTE Outbreak

Definition: <https://preparedness.cste.org/wp-content/uploads/2020/08/Educational-Outbreak-Definition.pdf>

All items need an answer; if you have no outbreaks in a particular category, leave the default "0".

NOTE: Do not count new outbreaks that originated in another LHD jurisdiction for which your health department has an associated case(s).

- In which emergency preparedness region did the new outbreak(s) occur?

	Region 1	Region 3	Region 5	Region 6	Region 7

Other	0	0	0	0	0

Q12. For new outbreaks, please add any comments that you need to share here.

No additional comments at this time.

Q63#1. Indicate the number of ONGOING outbreaks in each of the settings during the past week. COVID-19 outbreaks follow the general outbreak definition which is defined as two or more cases with a link by place and time indicating a shared exposure outside of a household.

Ongoing outbreaks are those that had already been identified in previous weeks but have had at least one new associated case reported to the local health department (for educational outbreaks, in the last 28 days; for all other settings, in the last 14 days.) Please count new and ongoing outbreaks only once (i.e., a new outbreak is not also counted in the ongoing outbreak category).

For school outbreaks, please follow reporting according to the CSTE Outbreak

Definition: <https://preparedness.cste.org/wp-content/uploads/2020/08/Educational-Outbreak-Definition.pdf>

All items need an answer; if you have no outbreaks in a particular category, leave the default "0".
NOTE: Do not count ongoing outbreaks that originated in another LHD jurisdiction for which your health department has an associated case(s).

- Number of ONGOING outbreaks

Q104. Are cases in staff, students, or both?

- Students

Q105. Enter any comments for this college/university outbreak here:

Campus

Q118.

In the past week, how many total confirmed cases have been referred to your health department?

NOTE: to obtain this count, run a New Search in MDSS with the following criteria: Case status - Confirmed; Investigation Status - active, completed, completed-follow up, new, review; reportable Condition - Novel Coronavirus COVID-19; Referral Date - the past week (Friday - Thursday); Geographic criteria - your LHD; Exclude MDOC cases (option on Advanced Search page) If no confirmed cases were referred to your health department in the past week, enter "0".

97

Q119.

In the past week, out of the total confirmed cases referred to your health department, how many cases have been associated with clusters or outbreaks (number)? DO count cases associated with an outbreak that originated in another LHD jurisdiction for which your health department has an associated case(s).

NOTE: Some local health departments track this number with line lists. If these counts have not been actively tracked elsewhere, MDSS may be used to obtain count: Run a New Search with the following criteria: Case Status - Confirmed; Investigation Status - active, completed, completed-follow up, new, review; Reportable Condition - Novel Coronavirus COVID-19; Referral Date - the past week (Friday - Thursday); Geographic criteria - your LHD; Exclude MDOC cases (optiona on Advanced Search page). In the Outbreak Field, enter an asterisk (*). View these cases by using the export button at the top of the list. Please do not include cases with the general outbreak ID (e.g., WUHAN19-20, 2019-NCOV-2020 STATEWIDE, COVID-19, etc.), unless they are part of a facility outbreak ID (e.g., WUHAN19_20 _FacilityName)

8

Q120. Please indicate any barriers your local health department is experiencing (check all that apply).

- Limited staff for case investigation
- Limited staff for data entry/epi support

Q121.

Is your health department using a State of Michigan system to conduct contact tracing (e.g., OMS or TraceForce)?

- Yes

Q123.

MDHHS would like a more detailed understanding of LHD staffing issues related to conducting case investigations and contact tracing for the COVID-19 pandemic. MDHHS is asking you to identify the total number of staff your health department needs as well as the number of staff your agency currently has and the number of staff your agency plans to hire. This will identify any gaps in staffing and allow MDHHS to more effectively utilize its resources in support of LHDs.

NOTE: Each category below requires a number for the answer. If any of the categories below do not apply, enter a zero (0).

<i>Number of staff (full time equivalents [FTE]) currently conducting case investigations</i>	8
<i>Number of additional staff (FTEs) your health department is planning to hire for case investigations</i>	4
<i>Number of staff (FTEs) currently conducting contact tracing</i>	0
<i>Number of additional staff your health department is planning to hire for contact</i>	0

<i>tracing</i>	
<i>Number of additional roles your health department is looking to hire that are not case investigation or contact tracing related</i>	2
<i>Number of new staff onboarded in the last week</i>	0

Response Summary:

Q1. Date of report:
10-01-2020

Q2. Local health department name

Choose your LHD from the dropdown menu: Saginaw County Health Department

Q3. Name of person completing this report

Cari Hillman

Q4. Email address

chillman@saginawcounty.com

Q5. Phone number

989-758-3804

Q6. Select your preparedness region from the menu

Emergency preparedness region: 3

Q7. Having reviewed your case trend data for the past week, has the trend of new cases in your jurisdiction shown a decrease, remained steady, or increased? Use the slider below to indicate how large or small your case decrease/increase is. For example, -5 would indicate a sharp or large decrease in case counts. 0 would indicate no change, etc.

Case trends 3

Q8.

For the increase in cases in your jurisdiction since the last report, please indicate possible reason(s) for the increase using the list below.

- Congregate setting outbreak
- General community spread

Q126. Has your health department issued any emergency orders in the last week?

- No

Q9. In the past week, have there been any NEW clusters or outbreaks that originated in your health department jurisdiction?

NOTE: Do not count new outbreaks that originated in another LHD jurisdiction for which your health department has an associated case(s).

- Yes

Q10#1. Indicate the number of NEW outbreaks in each of the settings during the past week. COVID-19 outbreaks follow the general outbreak definition which is defined as two or more cases with a link by place and time indicating a shared exposure outside of a household.

For school outbreaks, please follow reporting according to the CSTE Outbreak

Definition: <https://preparedness.cste.org/wp-content/uploads/2020/08/Educational-Outbreak-Definition.pdf>

All items need an answer; if you have no outbreaks in a particular category, leave the default "0".

NOTE: Do not count new outbreaks that originated in another LHD jurisdiction for which your health department has an associated case(s).

- Number of NEW outbreaks

Long-Term Care Facility (e.g. SNF, assisted living, adult day care, group home)	0

City	Frankenmuth
Postal code	48734

Q14. Grades included in the school

Only one answer can be chosen, please choose the best fit: Pre-school - elementary

Q15. Number of cases associated with the outbreak (cumulative)

5

Q16. Are cases in staff, students, or both?

- Both

Q17. Enter any comments for this school outbreak here:

N/A

Q18. For each school outbreak, please provide the information below.

School name	Saginaw Preparatory Academy
Street address of school	5173 Lodge Street
City	Saginaw
Postal code	48601

Q19. Grades included in the school

Only one answer can be chosen, please choose the best fit: Pre-school - elementary

Q20. Number of cases associated with the outbreak (cumulative)

2

Q21. Are cases in staff, students, or both?

- Staff

Q22. Enter any comments for this school outbreak here:

N/A

Q38. For each college/university outbreak, please provide the information below.

College/university name	SVSU
Street address of college/university building with outbreak	7400 Bay Road
City	University Center
Postal code	48710

Q39. Grades included in the school

Only one answer can be chosen, please choose the best fit: College - undergraduate

Q40. Number of cases associated with the outbreak (cumulative)

20

Q41. Are cases in staff, students, or both?

- Students

Q42. Enter any comments for this college/university outbreak here:

N/A

Q63#1. Indicate the number of ONGOING outbreaks in each of the settings during the past week. COVID-19 outbreaks follow the general outbreak definition which is defined as two or more cases with a link by place and time indicating a shared exposure outside of a household.

Ongoing outbreaks are those that had already been identified in previous weeks but have had at least one new associated case reported to the local health department (for educational outbreaks, in the last 28 days; for all other settings, in the last 14 days.) Please count new and ongoing outbreaks only once (i.e., a new outbreak is not also counted in the ongoing outbreak category).

For school outbreaks, please follow reporting according to the CSTE Outbreak

Definition: <https://preparedness.cste.org/wp-content/uploads/2020/08/Educational-Outbreak-Definition.pdf>

All items need an answer; if you have no outbreaks in a particular category, leave the default "0".
NOTE: Do not count ongoing outbreaks that originated in another LHD jurisdiction for which your health department has an associated case(s).

- Number of ONGOING outbreaks

<i>Long-Term Care Facility (e.g. SNF, assisted living, adult day care, group home)</i>	3
<i>Agricultural/Food Processing/Migrant Camp (e.g. farm, meat packing facility, hatchery, etc.)</i>	0
<i>Bar - employee associated outbreak</i>	0
<i>Bar - patron and employee associated outbreak</i>	0
<i>Restaurant - employee associated outbreak</i>	0
<i>Restaurant - patron and employee associated outbreak</i>	0
<i>K-12 School (e.g. classroom, before/after school programs, etc.)</i>	0
<i>College/University/Institute of Higher Learning</i>	1
<i>Childcare/Youth Programs (e.g. daycare, day/overnight camps, extra curricular activities, sports programs, etc.)</i>	0
<i>Manufacturing/Construction</i>	0
<i>Office Setting</i>	0
<i>Retail - employee associated outbreak</i>	0
<i>Retail - patron and employee associated outbreak</i>	0
<i>Personal Services (e.g. nail/hair salon, spa, gym)</i>	0
<i>Jail/Prison/Detention Center</i>	0
<i>Healthcare (e.g. inpatient, outpatient, dental practices, dialysis, etc.)</i>	0
<i>Shelters/Settings that provide services for people experiencing homelessness</i>	0
<i>Religious Services</i>	0
<i>Community Exposure - indoors (e.g. concert, meeting, etc.)</i>	0
<i>Outdoor Community Event/Mass Gathering (e.g. concert, rally, protest, parade, etc.)</i>	0
<i>Social Gathering (e.g. birthday party, graduation party, wedding, funeral, etc.)</i>	0
<i>Other</i>	0

Q63#2. Indicate the number of ONGOING outbreaks in each of the settings during the past week. COVID-19 outbreaks follow the general outbreak definition which is defined as two or more cases with a link by place and time indicating a shared exposure outside of a household.

Ongoing outbreaks are those that had already been identified in previous weeks but have had at least one new associated case reported to the local health department (for educational outbreaks, in the last 28 days; for all other settings, in the last 14 days.) Please count new and ongoing outbreaks only once (i.e., a new outbreak is not also counted in the ongoing outbreak category).

For school outbreaks, please follow reporting according to the CSTE Outbreak Definition: <https://preparedness.cste.org/wp-content/uploads/2020/08/Educational-Outbreak-Definition.pdf>

All items need an answer; if you have no outbreaks in a particular category, leave the default "0". NOTE: Do not count ongoing outbreaks that originated in another LHD jurisdiction for which your health department has an associated case(s).

- In which emergency preparedness region did the ongoing outbreak(s) occur?

	Region 1	Region 3	Region 5	Region 6	Region 7
<i>Long-Term Care Facility (e.g. SNF, assisted living, adult day care, group home)</i>	0	0	0	0	0
<i>Agricultural/Food Processing/Migrant Camp (e.g. farm, meat packing facility, hatchery, etc.)</i>	0	0	0	0	0
<i>Bar - employee associated outbreak</i>	0	0	0	0	0
<i>Bar - patron and employee associated outbreak</i>	0	0	0	0	0
<i>Restaurant - employee associated outbreak</i>	0	0	0	0	0
<i>Restaurant - patron and employee associated outbreak</i>	0	0	0	0	0
<i>K-12 School (e.g. classroom, before/after school programs, etc.)</i>	0	0	0	0	0
<i>College/University/Institute of Higher Learning</i>	0	0	0	0	0
<i>Childcare/Youth Programs (e.g. daycare, day/overnight camps, extra curricular activities, sports programs, etc.)</i>	0	0	0	0	0
<i>Manufacturing/Construction</i>	0	0	0	0	0
<i>Office Setting</i>	0	0	0	0	0
<i>Retail - employee associated outbreak</i>	0	0	0	0	0
<i>Retail - patron and employee associated outbreak</i>	0	0	0	0	0
<i>Personal Services (e.g. nail/hair salon, spa, gym)</i>	0	0	0	0	0
<i>Jail/Prison/Detention Center</i>	0	0	0	0	0
<i>Healthcare (e.g. inpatient, outpatient, dental practices, dialysis, etc.)</i>	0	0	0	0	0

Shelters/Settings that provide services for people experiencing homelessness	0	0	0	0	0
Religious Services	0	0	0	0	0
Community Exposure - indoors (e.g. concert, meeting, etc.)	0	0	0	0	0
Outdoor Community Event/Mass Gathering (e.g. concert, rally, protest, parade, etc.)	0	0	0	0	0
Social Gathering (e.g. birthday party, graduation party, wedding, funeral, etc.)	0	0	0	0	0
Other	0	0	0	0	0

Q65. For ongoing outbreaks, add any comments that you need to share here.

N/A

Q91. For each college/university outbreak, please provide the information below.

College/university name	SVSU
Street address of college/university building with outbreak	7400 Bay Road
City	University Center
Postal code	48710

Q92. Grades included in the school

Only one answer can be chosen, please choose the best fit: College - undergraduate

Q93. Number of cases associated with the outbreak (cumulative)

6

Q94. Are cases in staff, students, or both?

- Students

Q95. Enter any comments for this college/university outbreak here:

N/A

Q118.

In the past week, how many total confirmed cases have been referred to your health department?

NOTE: to obtain this count, run a New Search in MDSS with the following criteria: Case status - Confirmed; Investigation Status - active, completed, completed-follow up, new, review; reportable Condition - Novel Coronavirus COVID-19; Referral Date - the past week (Friday - Thursday); Geographic criteria - your LHD; Exclude MDOC cases (option on Advanced Search page) If no confirmed cases were referred to your health department in the past week, enter "0".

125

Q119.

In the past week, out of the total confirmed cases referred to your health department, how many cases have been associated with clusters or outbreaks (number)? DO count cases associated with an outbreak that originated in another LHD jurisdiction for which your health department has an associated case(s).

NOTE: Some local health departments track this number with line lists. If these counts have not been actively tracked elsewhere, MDSS may be used to obtain count: Run a New Search with the following criteria: Case Status - Confirmed; Investigation Status - active, completed, completed-follow up, new, review; Reportable Condition - Novel Coronavirus COVID-19; Referral Date - the past week (Friday - Thursday); Geographic criteria - your LHD; Exclude MDOC cases (optiona on Advanced Search page). In the Outbreak Field, enter an asterisk (*). View these cases by using the export button at the top of the list. Please do not include cases with the general outbreak ID (e.g., WUHAN19-20, 2019-NCOV-2020 STATEWIDE, COVID-19, etc.), unless they are part of a facility outbreak ID (e.g., WUHAN19_20 _FacilityName)

34

Q120. Please indicate any barriers your local health department is experiencing (check all that apply).

- Limited staff for case investigation
- Limited staff for data entry/epi support

Q121.

Is your health department using a State of Michigan system to conduct contact tracing (e.g., OMS or TraceForce)?

- Yes

Q123.

MDHHS would like a more detailed understanding of LHD staffing issues related to conducting case investigations and contact tracing for the COVID-19 pandemic. MDHHS is asking you to identify the total number of staff your health department needs as well as the number of staff your agency currently has and the number of staff your agency plans to hire. This will identify any gaps in staffing and allow MDHHS to more effectively utilize its resources in support of LHDs.

NOTE: Each category below requires a number for the answer. If any of the categories below do not apply, enter a zero (0).

<i>Number of staff (full time equivalents [FTE]) currently conducting case investigations</i>	8
<i>Number of additional staff (FTEs) your health department is planning to hire for case investigations</i>	4
<i>Number of staff (FTEs) currently conducting contact tracing</i>	0
<i>Number of additional staff your health department is planning to hire for contact tracing</i>	0
<i>Number of additional roles your health department is looking to hire that are not case investigation or contact tracing related</i>	2
<i>Number of new staff onboarded in the last week</i>	0

Consumer Advisory: Pica Farms ordered to stop processing and selling cider due to insanitary conditions at its cider mill

Lansing, Mich. – The Michigan Department of Agriculture and Rural Development (MDARD) has ordered Pica Farms, located at 64205 66th Street, in Hartford, to stop all cider production and distribution (retail and wholesale) due to insanitary conditions that may cause imminent or substantial hazard to people who consume their products.

MDARD issued the cease and desist order on October 26, 2020, after a routine inspection uncovered several violations of the Michigan Food Law, P.A., 92 of 2000, as amended, including a number that still hadn't been corrected from previous inspections. Pica Farms has until November 5, 2020, to correct the violations or face additional regulatory action, including fines and possible license suspension. Pica Farms may not resume cider production and distribution until the violations are corrected AND verified by MDARD.

Products affected by this advisory include all gallon and half-gallon containers of apple and apple/fruit blend ciders produced by Pica Farms under the "Pica's All-Natural" brand. Retail food establishments are asked to remove products from sale immediately and contact their MDARD inspector for instructions on proper disposal or removal.

Some of the violations found by MDARD food inspectors during the routine inspection include:

- Food and/or mold-like residues observed on the food contact surfaces of equipment used during processing.
- The firm is using non-food grade containers and equipment to hold and transport food, and to catch pressed juices; and a non-food grade sump pump submerged in pressed juice to pump the juice into the holding tanks.
- The firm was unable to produce records during inspection that indicate monitoring of sanitation at key points during processing.
- The firm is not ensuring all plant equipment and utensils used in manufacturing, processing, packing and holding food is adequately cleanable to protect against allergen cross-contact and contamination.

E. coli is the greatest concern for with cider products processed under insanitary conditions. E. coli causes a diarrhea often with bloody stools. Although most healthy adults can recover completely within a week, some people can develop a form of kidney failure called Hemolytic Uremic Syndrome (HUS). HUS is most likely to occur in young children and the elderly; the condition can lead to serious kidney damage and even death.

If you have purchased any products from Pica Farms in 2020, please discard them immediately. If you think you or a family member have become ill from consuming any of these products, seek immediate medical attention.

Includes a link to guide those who farm minks and a link for CDC COVID-19 and Animals.

NEWS RELEASE

STATE EMERGENCY OPERATIONS CENTER

Mink Farm Tests Positive with SARS-CoV-2

LANSING, MICH. The Michigan Department of Agriculture and Rural Development (MDARD) confirmed the recent discovery of SARS-CoV-2 (the virus that causes COVID-19 in humans) in mink at a Michigan farm. While this finding is not the first case of the virus being identified in mink in the United States, it is the first instance of the virus being confirmed among Michigan's farmed mink population. After several mink exhibited signs of illness and died on the farm, the owner submitted samples for diagnosis. The Michigan State University Veterinary Diagnostic Laboratory completed necropsies on two of the affected animals, which tested presumptive positive for SARS-CoV-2. The samples were then sent to the United States Department of Agriculture's (USDA) National Veterinary Services Laboratories for confirmatory testing.

Investigations into how the mink contracted the virus are ongoing, but there is currently no evidence that animals, including mink, play a significant role in spreading the virus to humans in Michigan. The Michigan farm is self-contained, has few staff, and prohibits domestic animals from being onsite, so the likelihood of the virus moving to wildlife, pets, or people is quite low. MDARD is working in cooperation with other local, state, and federal agencies on this response.

On August 17, 2020, the USDA announced the first confirmed cases of SARS-CoV-2 in mink at farms in Utah. There has also been a confirmed case in Wisconsin. Worldwide, it has been known that mink are susceptible to SARS-CoV-2 since the virus was discovered in mink on farms in the Netherlands, Denmark, and Spain. After monitoring the outbreaks abroad, USDA, the Centers for Disease Control and Prevention, and state animal health and public health partners issued [guidance](#) for those who farm mink in the United States.

For more information about COVID-19 and animals, please visit the CDC's [COVID-19 and Animals](#) webpage.

Information around this outbreak is changing rapidly. The latest information is available at [Michigan.gov/Coronavirus](#) and [CDC.gov/Coronavirus](#).
