

December 15, 2020

Dear Madam Speaker,

As the members-elect of the 117th Congress, we urge you to promptly act to support the integrity of our election process. Multiple states engaged in litigation and thousands of witnesses have submitted sworn affidavits of reported fraud related to the 2020 presidential election. One thing is clear – our elections process has devolved into chaos. As elected representatives of the People’s House, we are tasked with voicing the concerns of our constituents, and they are deeply concerned about the integrity of our elections.

The American people expect and deserve free and fair elections, and any reported fraudulent activities surrounding the 2020 presidential election should be thoroughly investigated. Protecting the integrity of our nation’s elections process is not a partisan issue. This is an issue that we as incoming Members and as Americans are committed to addressing. The freshman class of the 117th Congress represents a diverse and wide swath of America. While there are tremendous differences in our districts and in some cases, our policy positions, one thing we can all agree on is that protecting the integrity of our elections is paramount.

In the 2020 election, we have verified reports of:

- Absentee and mail-in ballots with missing or unverified signatures
- Missing and unaccounted voting machine memory cards
- Restrictions on bipartisan election observers during critical phases of the election process

Under your leadership over the past several years, the House has demonstrated a zest for all sorts of investigations, and we believe that you have the strong capacity to initiate a thorough investigation into these voting irregularities.

Guaranteeing every U.S. citizen’s right to vote in a free and fair election is key to protecting our Constitutional Republic, and it is the duty of each of us to ensure that right. Our constituents demand that these reported gross violations of our elections process are investigated seriously with the intent of restoring confidence in our electoral process.

Future elections and the voice of future voters depend on you taking action to promptly investigate the 2020 election irregularities. We look forward to your action.

Sincerely,

Kat Cammack (FL-03)
Member of Congress-Elect

Michelle Fischbach (MN-07)
