<Message>This is what I just heard from the office of the conservator. "This is the
Public Defenders doing. Dan Meyers brought the reporter in and then called Sandra. We did
not know or agree ahead of time. Our office didn't have authority to block the interview
or consent. The client retains the ability to participate in an interview even under
conservatorship. We confirmed this with the CAT. The reporter committed to not divulging
the name of the client or show photos. The story is not related to SB1045. The client had
been at SFGH for 4-5 months. The Regional Center (state agency) not DPH has been unable
to locate a placement. The PD Dan is very rogue and this is his strategy to get the
Regional Center to move. In reality they are trying but placements are not available.

  <Message>Just wanted to reiterate that my proposal for a small integrity unit is a
  priority of mine and fits in with the Mayor's vision. I think that whatever budget funds
  expended in this area would be huge bang for the City's buck. Because we are motivated by
  the clients impacted by police misconduct, legislative reform, etc., our impact in these
  areas is greater than than departments with larger staff devoted to these issues. Happy
