Molly, Dhara, and Chandra,

Here is some information regarding your upcoming visit. Your visitor numbers are VAF 2720, VAF 2722, VAF 2723. I like you to have those, so if any The day of your visit is **Friday February 26th**. Normally, we require visitors to submit for Covid testing and produce a negative result the day prior to the visit. Our system generates some emails automatically.

If you got an email stating that you need to test Thursday the 25th, please disregard.

We plan (in your case) to use rapid testing the day of your visit at Gate 1.

I have submitted all of your information into the sytem, but please understand several things still need to happen before your visit is offically approved.

The Approver – John O must still approve two of your forms.

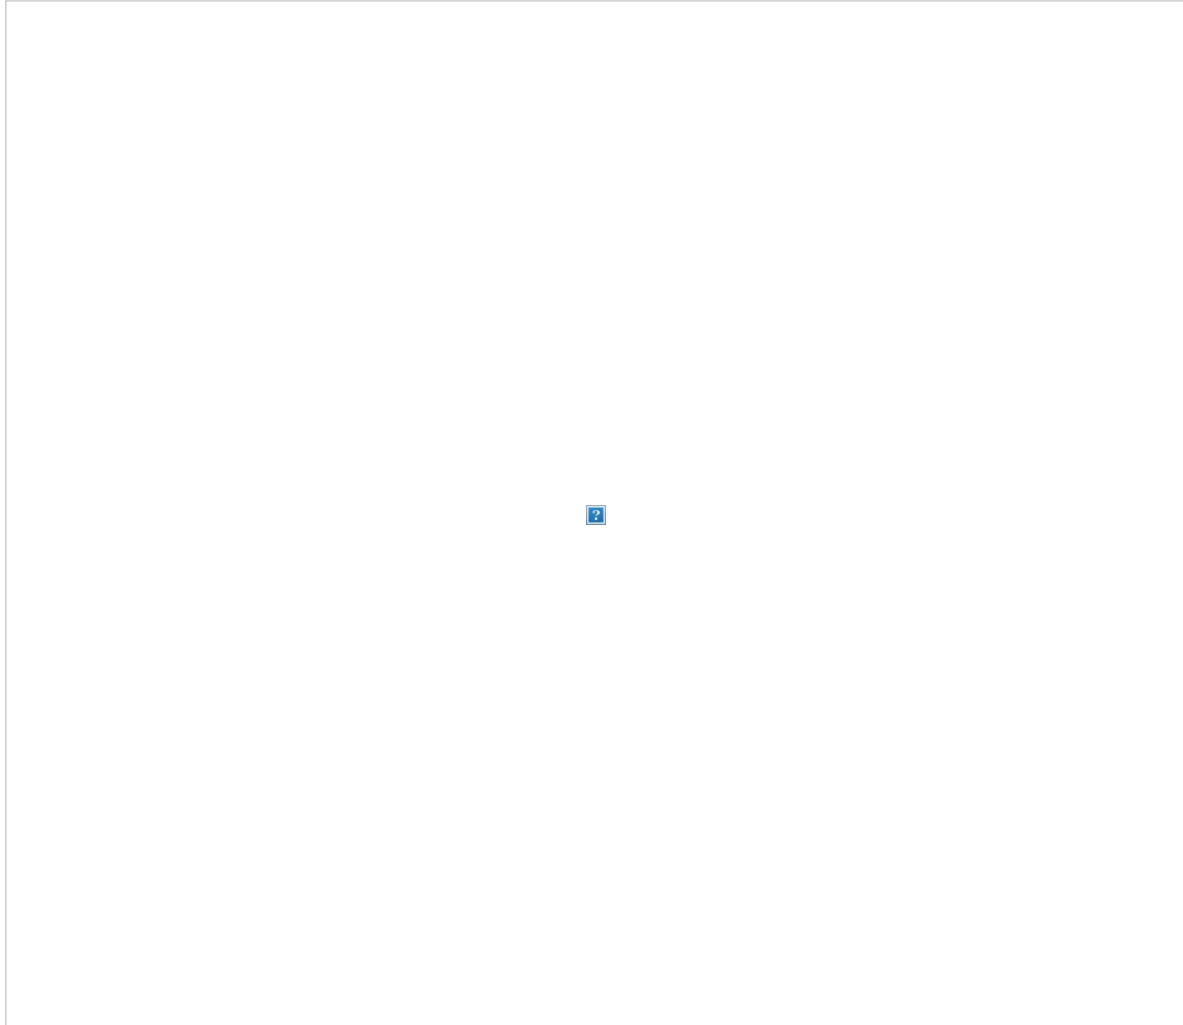

The Escort- John C Must acknowledge he agrees he is the escort and will be with you during your visit.

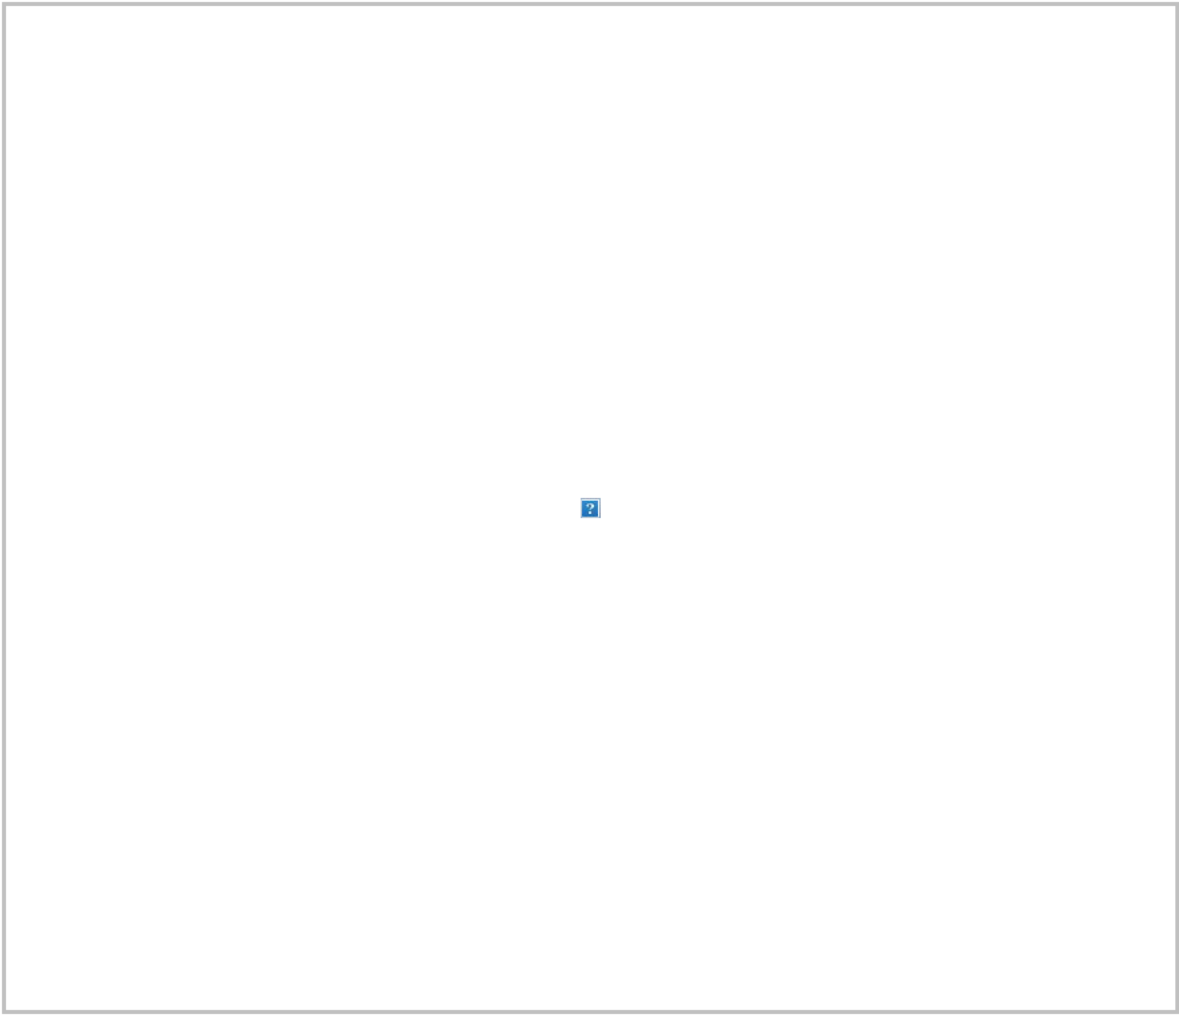

You (Molly Dhara and Chandra) will receive a survey 72 hours before your visit (you most likely will receive it on the 23rd) This pre-access survey must be completed before access to site is granted.

If you don't receive the survey by Feb 24th, please reach out to me and I will see what might be holding things up.

I imagine that Diana Hote will be in touch with you directly to make arrangements regarding the morning of your visit, meeting your escort, and timing of everthing involved.

If you need additional support, please reach out. I am happy to help.

Best Regards,

Jessica Battaglia | Project Admin

Date: Thursday, August 13, 2020 2:08:31 PM
Attachments: [Mobile Laboratory Proposal for On-Site Corona Virus Testing - Pennsylvania.docx](#)

Good afternoon all,

Below is an attachment a local company in my district (Monroeville) has provided me. This can potentially use mobile covid testing and rapidly provide test results to ensure that our students and teachers are safe to return to school. The company is currently doing testing at the Shell Cracker plant in Beaver County. I wanted to provide you all with this information in hopes that it may potentially provide a way to provide test results quickly and efficiently.

Kind regards,

Rep. Brandon Markosek

Subject: Return to the Classroom, Mobile Labs for COVID-19 testing

Dear Representative Markosek,

Attached is a white paper which describes our approach to using mobile testing labs to test and rapidly provide test results to ensure that our students and teachers are safe to return to school. Please share with your fellow representatives as well as the Governor and the PA Dept of Health. You mentioned that you could communicate with the regional representatives concerning this approach and our offer to host a tour of the mobile lab at work.

Dear Molly,

Thanks. We will work on a 9am start.

Please can you send me your 3 cell phone numbers. We need these as part of our COVID mobilization process. Once I have these we will send you the visitor mobilization request and get that process started.

And please send us your shoe and jacket sizes so we can be ready with your PPE.

Regards,
Steve

Dear Molly,

Yes, Friday 26th February will work for us. Let's hope the weather warms up before then! Shall we plan on a 8am start? Would this give you sufficient time to travel to the site? If this start time is not suitable please let us know and we will adjust.

As we discussed yesterday we will have the PPE for the 3 of you. Please let me know your shoe and jacket sizes so we can have the PPE ready for you.

We will work on a 4 hour site visit and plan an agenda to let you see the COVID control measures we have in place and how they are deployed on the site. Prior to the visit I will send you a copy of our COVID Exposure Control Plan and a link to a video describing some of the measures.

Please let me know if you have any further questions.

Regards,
Steve

Hello Steve,

Thanks so much again for joining our call yesterday. It was very informative and I believe I speak for Dhara and Chandra when I say that we are very excited to visit the campus and learn more about your operations. We regrouped after the call to discuss potential visit dates and the most convenient for all three of us would be Friday, February 26th. Might that day work for you all? We could come at any time, whatever would work best. If that date doesn't work, let us know and we can schedule something for the week after. As Kelly mentioned on our call yesterday, we anticipate about 4 hours of tour and assessment activities, not including any of the entry processes and procedures that you had outlined for us yesterday. Let us know what you think!

Dear Ms. Nace,

Thank you for reaching out to us. We are very happy to schedule a visit to the site and the opportunity to share the COVID controls and receive your feedback.

For the pre-visit call, 10-11am or 2-3pm on Friday 12th February are times that work for us, if either of those work for you? I have copied to this email the team members from our facility to be invited

to the call.

I look forward to speaking to you soon.

Regards,
Steve

Think Secure. This email is from an external source.
Hello Mr. Norton,

My name is Molly Nace and I am an Epidemiologist with the PA Department of Health. I believe you previously spoke with my colleague, Andy Noble, regarding COVID-19 response measures at the Shell Cracker Plant.

I am writing to you today because we do monitor workplaces with multiple cases of COVID-19 and have noticed a recent increase in activity amongst your staff. We would like to arrange for an onsite visit within the next few weeks. The visit will consist of a tour of the campus and completion of an infection prevention and control assessment to better understand daily operations and make recommendations to help prevent future transmission.

We are happy to set up a pre-visit call to discuss objectives and logistics in more detail. It would be helpful to have any folks involved in COVID-19 prevention and response for the plant on this call. Please consider inviting representatives from groups such as occupational health, the unions, administration/operations, testing agencies, transportation agencies, and other contracted services.

Please respond to this email with a few proposed dates and times that might work best for a one-hour call and my team and I can send out a Skype meeting invite. We look forward to collaborating with you and your team.

“Confidential Protected Health Information Enclosed”

Protected Health Care Information is personal and sensitive information related to a person’s health care. You, the recipient, are obligated to maintain it in a safe, secure and confidential manner. Re-disclosure without additional patient consent or as permitted by law is prohibited. Unauthorized re-disclosure or failure to maintain confidentiality could subject you to penalties described in federal and state law.

NOTICE OF CONFIDENTIALITY: If the reader of this message is not the intended recipient, you are notified that any review, use, disclosure, distribution or copying of this communication is strictly prohibited. If you have received this communication in error, please contact the sender by reply e-mail immediately and destroy all copies of the original message.

Hi Laurel,

There are COVID cases at a Shell cracker plant (petrochemical facility) in Beaver County, but BCHS and Molly (SW ERA) have been unable to identify a contact/contact info for the facility. Are you able to leverage your occupational health resources to identify a contact? Not sure if that's even a possibility, but thought I would ask.

Thanks!
