## Take Action

Send a message to your U.S. Senator and Congressperson now. Use our easy action tool below. Fill in your information and send a letter today. Make your voice heard. Drastic changes to our country's organ donations system are coming. Changes that would severely disrupt

and bring chaos to the world's best organ and transplant network.

## **Politics has been injected into the organ donation system.**

New federal rules call for tearing apart an organ donation system that has saved tens of thousands of American lives. Nearly two-thirds of the nonprofit groups that make organ donations possible could be shut down. Politics has no place in modernizing the organ donation system.

New special interest groups have spent hundreds of thousands of dollars to get control of the organ donation system. They plan to make a profit from the precious gift of life. We need to stop them.

# Stop the Privatizing of Organ and Tissue Donations

After you enter your contact information, click next and the form will automatically load a draft letter for you to review, edit, and send. Let's do this!
