Lis - I also added you to the Harmonization panel that Larry Brennen is doing because he thinks the an electric expert needs to be added there. Hope you don't mind.

Jeanette,

I can help get speakers for the following sessions

- CEO/Industry Leader
- Infrastructure Investment
- The Future Panel

Subject: Help with Panels at Current Issues
Importance: High

Good Morning

Last month we sent you the proposed agenda for the 2013 Current Issues Conference in Santa Fe, March 10-13. We have received numerous positive comments about the agenda and are ready to move forward. Attached is another copy of the agenda.

Some of you have already volunteered to help with finalizing each topic and contacting speakers. We are now asking each of you to carefully review the agenda and let us know if there is a particular panel (or panels) you would be willing to help the moderator(s) in selecting and inviting speakers. If

you are willing to help, please let me know by October 1, 2012 so we can begin putting together another great conference.

We want each of you to have an opportunity to be part of the planning!

Thanks.

Jeanette and Paul
