Bryce would not work for the smart grid panel, not sure there is a good fit for him

Paul and Liz

When we were talking about consumer advocates, I thought we had a slot for Bryce Freeman, but I can't find it. Was it where we now have JR Kelly which is the Smart Grid panel?

I'm not familiar with all of this but are Florida and Wyoming strong on Smart Grid stuff? I thought we had consumer advocates on most of the panels, but I only see two – is that correct? Have we left them off where they probably should be?

I remember at the meeting we had Bryce on a panel, then Jerry volunteered so we had to tell Bryce “nevermind” lol We talked about finding a slot for him. We can always put him on as a responder somewhere if we decide JR Kelly would be better suited for this smart grid panel.

My mind feels very scattered today.. trying to think of too many things at the same time, do Christmas decorating, and Christmas on-line shopping LOL.
