Date : Thu, Feb 05, 2015 10:28 AM

Doug,

Please see the answers below. I am using July 2013 to Jun 2014 data for answering your questions.

What is the response time from Stations 7, 5, 1, and 29 to 1433 Airport Blvd. in San Jose?

Since we did not had any response to the specific address "1433 Airport Blvd" , numbers below were from the incidents reported anywhere in airport.

Responding Station

Average Response time

1	8.06
5	9.32
7	8.59
29	11.12

Response time is the time from Fire Commination caller taker confirms the address to the first unit arrive on the scene.

What is the response time for Water Tender 13 to 1433 Airport Blvd. in San Jose?

We did not have any incident during the time frame where Water Tender 13 responded to the airport

Please send me an email regarding any questions on this.

Thanks

Jose Joseph
