Rep. Sanfelippo Praises Start of Elections Investigation

MADISON, Wis. – This afternoon, the Wisconsin State Assembly passed [Assembly Resolution 15](#), directing the Assembly Committee on Campaigns and Elections to investigate the administration of recent elections in Wisconsin. Rep. Joe Sanfelippo (R–New Berlin) authored Assembly Resolution 15 and issued the following statement:

“There have been troubling reports of state and local elections officials disregarding the clear language of our state’s voting laws and regulations during recent elections. In our recent hearings in the Assembly Committee on Campaigns and Elections, we heard testimony from witnesses and reviewed records of electronic communications between elections officials, which have together provided persuasive evidence of a number of clear violations of the law. I am pleased that my colleagues in the Assembly have joined me today in recognizing the significance of these concerning allegations and the need conduct a thorough and methodical investigation.

“As lawmakers engaging in our oversight duties, we need to carefully scrutinize the identified instances of apparent noncompliance with our elections laws and to determine just how widespread such noncompliance is around the state. I want to make it clear that the objective of this investigation is not reviewing or relitigating the results of any specific race or election; rather, the focus of the investigation is to examine the processes used, and actions undertaken, by elections officials as they conducted recent elections. We need a comprehensive understanding of how our laws are being followed so that we can hold accountable any individuals who have willfully disregarded them and to work to refine our laws as necessary to ensure that the actual practices comport with the law moving forward. The Resolution approved today lays the foundation for the Committee to use certain investigative powers granted to it by statutes and rules, including the ability to request the issuance of subpoenas to compel witnesses to appear before the committee or to produce relevant documents or records.”

Mr Sanfelippo

Not sure what you people are doing with the 2020 selection but you need to get on board with the other states that are trying to Preserve our elections. With all the things that happened in milwaukee green bay etc. you as a rep needs to be more diligent. I expect more from you even if this your last term. WISCONSIN'S CONSTITUTION SHOULDNT BE TAKEN LIGHTLY AND THAT SIR IS YOUR RESPONSIBILITY. DO YOUR JOB WE THE PEOPLE WILL NOT TOLERATE THIS TYPE OF NON ACTION BY OUR REPS ANY LONGER. OUR VOTE SHOULD MATTER.

Joe, I was an election official on Tuesday, April 6th. I believe the democrats are cheating with the touch screen ballots. The person handing out the ballots is only saying to the voters do you want a touch screen. The 2 ladies registering the voters aren't saying to the voters that they have 2 options the touch screen or the ballot where you fill in the circles. So the voter has no idea that there are 2 different ballots that they could choose from. Now they have me registering on the 3rd screen so I am only receiving a very limited amount of voters, which I believe is on purpose since they know I'm trying to keep the voting honest. I was telling the voters that they have 2 options touch screen or the ballot where they would have to fill in the circles. The 2 ladies are telling me that it is not my job to tell the voters that they have 2 options-how convenient-the voters have no clue that they have 2 options when they come up to this liberal hack handing out the ballots saying would you like the touch screen. Most voters say yes because they want to vote and touch screen sounds very user friendly. A lot of times since these voters say yes to the touch screen w/o really thinking about it, they're hesitant in changing their minds if they then see the normal ballots on the table. And this hack is always handing out the ballots at all the elections since I've been at this polling location and he's rude. So since he's all of a sudden sounding really nice saying do you want to do the touch screen, they may not

want to rebutt his pushing the touch screen ballot so they just go along with it!!! Devine has all his minions in there except for me. And he has his minions doing everything to try and dissuade me from doing what is appropriate actions. Gina is running the elections. The chief wanted all of us to leave before sealing the ballots and I told him that I'm not leaving until the ballots are sealed. The chief claimed he was waiting for Gina to get approval-like that was necessary. And of course all the election officials/minions left w/o the ballots being sealed, but I wasn't budging. I pray that we will get at least 1 real Christian/conservative at each polling place to stop this cheating by the left by whatever means necessary on their part. Please do whatever you can to check into those touch screen machines. 1 truly wicked individual told me a couple of times that the machines are only printers-yeah right!!! With all these people pushing the voters to use the touch screen ballots I believe the machines are rigged. Plus I couldn't see who the voter voted for like on the fill in the circle ballots-how convenient for the left!!! No more AI saying that the 90% of the absentee ballots were for Biden!!! Thanks Joe, I'm fighting for our kids and our grandkids future, like you are, even though I have no kids, or grandkids for that matter.

Hello,

As a voter in Milwaukee County, city of West Allis, I am very displeased with the vast amount of questions from the November 3rd election. Mostly, do our votes really count or are they drown out by fake ballots? I do not trust the machines, and I was very uncomfortable with the computer to verify my address. Computers can go online, period. They are capable, built that way, and that creates weak points. Its left me questioning past votes now too. Did we really vote yes on the Bucks stadium after the never ending Brewers tax? Or was that drown out with fake ballots too? I realize that vote didn't have all the mail in ballots, but thats how much I question the process now. I want a forensic audit of the November 3rd 2020 election. With the forensic audit you can see if the mail in ballots were real, by human, or machine. That's the only thing that will ease my mind. If a forensic audit is done, and it shows nothing wrong, fantastic! That would be great to know we had no reason to question the results. Without a forensic audit, I don't believe I'd ever trust another election again. Did Underly beat Kerr? I'm told she did, but can I really believe that with all the questions left from November? I can't. Please support a forensic audit here in Wisconsin. Not this 3 person panel Voss is in the news with, thats

not forensic and is likely going to be a waste of time and money like the recount. A full on forensic audit.

Thanks,
Jonathan Barbian

To: Rep.Sanfelippo@legis.wisconsin.gov
Subject: Correspondence from WEC

I sent u the correspondence from the election commission. WEC did nothing to Mayor Dan Devine. They sent a letter to Gina(Election Coordinator) telling her to tell the election chiefs ad officials to seal the ballots before returning them to city hall. The last election(April 6th) John the Election Chief tried to send all of us election officials home w/o sealing the ballots. All officials left except myself. I told John, I'm not leaving until the ballots are sealed. John finally told me to seal the ballots after a short time after realizing I'm following through with what I said. Eldon the Chief at the Presidential election also received a letter from the WEC saying that he was to make sure to seal the ballots before returning the ballots back to city hall. The Mayor is having his democrat minions cheat every way possible. This is why we need at least 1 true conservative at each polling location or else the democrats will steal that location. Remember when Walker lost to Evers. Mysteriously 35,000 absentee ballots for Evers appeared in Milwaukee late at night. I heard there wasn't a single conservative at the main election processing facility that night. Democrats lie and cheat because there isn't any real prosecution that happens if they're caught anyway. Look at the outcomes of the blatant cheating in the Presidential election-no prosecution and no change as to who the REAL LEGITIMATE WINNER was!!! Now we have Obama trying to put the final nail in our coffin!!!

Subject: Election Integrity, Reforms and Audits

Rep. Sanfelippo,

I do not live in your District, but I am choosing to email all Republican Legislatures in Wisconsin because I believe my sentiments are shared by the majority of Republican voters in our state and nationwide.

As the days since the Nov 2020 Election go by, more and more evidence of fraud is being exposed. I will not list in this email the various evidences, as I assume you are probably aware of some, if not most. I follow very closely what is happening with this situation around the country and in particular, right now in Maricopa Co, AZ.

What I see as I watch these evidences unfold, is Americans are literally in the fight of their lives to keep our elections fair and honest. It is unclear how long frauds have been taking place, but now that we know Dominion voting machines are designed to accommodate fractional voting, it may have been happening for many years.

If Republicans in State Legislatures don't work to remedy this problem now, it could cost the whole party to be overran. I am aware that some Republicans in Wisconsin are taking steps towards an Investigation of the Nov 2020 Election, and a Reforms bill, but I am disappointed that this is not the number one issue for all of you.

I am asking that you make this Investigation and Reform your number one priority. As the Legislature with your party in the majority, you have an opportunity to do this right. Take control and let's get it done.

American's faith in the Election process is at an all-time low and if the 2020 Election is not properly dealt with, the ship will sink. It seems unwise to carry on with various other orders of business like everything is going to be fine. It is not going to be fine with no action.

Earlier when I referred to Maricopa Co, AZ, the audit they are working on has been met with significant opposition by the Board of Supervisors and ballots have even been shredded in an effort to prevent the truth from being exposed. We all know this fraud occurred there, and MANY other places, especially in swing states like Wisconsin. The Green Bay situation with the Zuckerberg funded "grant" is enough to tell us "things happened."

Now is your chance to do something great for Wisconsin and America, by taking charge and doing this right. In Maricopa Co they have assembled a team of knowledgeable and dedicated people to do this audit. I have watched interviews with one of the members of the audit team, Col. Phil Waldron, and it appears they are preparing to do this audit correctly, right down to forensically examining the paper the ballots are printed on (to ensure they came from the approved sources). Perhaps you would consider reaching out to that team for assistance with accomplishing a real Investigation and audit?

The majority of Republicans share my disgust and devastation with the Election of 2020 and the direction our country is headed, although I know most of them do not take the time to contact you. Please consider my letter as a plea from a large number of your constituents and voters.

Thank you for your time,

Krista Laufer

Subject: Election integrity

I understand that three retired police officers are in charge of looking into accusations from citizens of election irregularities and wrong doings. Why police? The bad actions have already been reported and it's quite ridiculous for three of them to investigate ALL the complaints. What will come after this investigation? Nothing I presume because it will take months to do. It's time to have a full complete audit of the machines and paper ballots. This three man investigation is another way to drag this out for months on end. We need action now. It's our rights as citizens to have an audit of OUR choosing. Please allow a full forensic and kenimatic audit which covers everything, in order to put voters trust in our elections elections again.

Thank you

Subject: Elections Question Follow-up

Good afternoon, Mr. Koch.

Thank you for contacting my office regarding audits relating to the November 2020 general election. As you know, there have been a number of concerning issues identified about the lead-up to, and conduct of, that election. I believe that it is important that we fully and transparently assess those issues so that we can ensure accountability and better process in the future. To that end, the Legislature is proceeding on a number of fronts to exercise its oversight authority.

First, the Joint Legislative Audit Committee voted on February 11th, 2021 to order the non-partisan Legislative Audit Bureau to perform an audit of the previous election. You can read more about that [here](#). Second, the Assembly Committee on Campaigns and Elections, of which I am vice-chair, is also pursuing an investigation into specific allegations that have been raised. I authored [the resolution](#) formally initiating the investigation. Here is [a statement](#) I released about it earlier this year.

While I expect that all of these investigations will take some time to run their course, it is important that we be methodical in fully examining all of the issues that were raised during the previous election.

Thanks again for reaching out to me about this. Please don't hesitate to contact me in the future about this or any other issues.

Yours truly,

Subject: Forensic audits ?

Gentlemen,

I know what I would be doing if I were a Republican member of the Wisconsin Legislature. I would be making plans and organizing my colleagues to start legal actions to demand a comprehensive forensic audit of the Wisconsin 2020 election in every county where an irregular suspension of ballot counting took place and also a forensic investigation into the ballot dumps that took place in the wee hours of the morning of Nov. 4th. I would also be making known that legal charges and challenges related to the city of Green Bay related to democrat activist Michael Spitzer-Rubenstein will be pursued. And also an investigation into possible collusion between officials of Green Bay, Wi. and officials of Racine, Wi. related to the 2020 election. You and I know that what took place on Nov. 3rd was unprecedented, and as slimy and smarmy as possible. The SCOTUS and VP Mike Pence may have betrayed a huge number of Americans but in our state we do not have to cave in to those traitors. There is hope thanks to the courageous officials in Arizona. You must not let the shenanigans that took place in Wisconsin be any less important. Join Arizona and now Michigan's Antrim County to clean up the mess created by the demOCRAT communist party and possible foreign actors and make things RIGHT!

Subject: FORENSIC EVIDENCE: Dominion Voting Machines Had Unauthorized "Implant"

FORENSIC EVIDENCE: Dominion Voting Machines Had Unauthorized "Implant"

The above title is the title of an article found on the site DailyTrumpReport.com. After reading the article the following is the comment posted by a friend of mine who is very knowledgeable about computers, software, networking and servers. His comment is in response to the original article after a forensic audit was performed in Michican.

--Maxx--

How can this even be a surprise ?? These machines were used in South America; Venezuela, Peru and Brazil for years and ever since the communists dictators have always been elected. And we are to believe this is not the very reason the democrats pushed for getting these machines and software into as many U. S. states as possible. The owners of the machines and software have been watching how the Chinese create software. EVERYTHING China produces that is electronic always has software that "contains back doors" and "two way interaction through the Internet" even though it may not be required to operate. Through Wi-Fi, connections are made without anybody knowing or deliberately making the connections. China has been using the Internet to spy on and collect data from the American public for a very long time.

The citizens of every state that want to insure election integrity MUST DEMAND THAT ALL ELECTION MACHINERY THAT CONNECTS TO THE INTERNET BE BANNED. They must also demand that all access to the Internet, especially via WiFi, be disconnected at all polling places going so far as to having WiFi blocked or jammed at polling places. This may require

the voting machines be located in "safe rooms" where WiFi access is totally blocked.

If this is not done then the next Nov. 2020 type election is almost guaranteed.

We are working with a couple cities. And got thinking about mail applications. And I

Noticed something. To file away for later...

I you all have notably tried to route traffic to the site

myvote.wisconsin.gov, Google is still sending a lot of searches to the older page, <https://elections.wi.gov/voters/absentee>, which prioritizes the paper application for a mail ballot.

For instance, searching with the terms Wisconsin vote by mail apply gives that as the first link.

Wondering if it's easy or worth editing that page by inserting a header "Request an Absentee Ballot Online" as the second section after "Who Can Apply" with a simple sentence "The easiest and fastest way to apply is online, by going to

myvote.wi.gov and clicking 'Vote Absentee'."

Forgive my nosing around y'all's business....

Look forward to catching up soon...

Noah

Richard.Rydecki@wisconsin.gov

Clerk Teske-

Thank you for taking the time to talk with me this morning. I appreciate your time immensely knowing it is following a very busy week! As we discussed, we have received a number of questions from both Congressional Committee members and from WEC Commission members about Green Bay's preparations for the November election. I expect that Green Bay will have an impressive list of updates and improvements to your process that you plan to provide for your Commission, Council, and/or voters. We appreciate all the many changes that have had to be made this year to accommodate unprecedented voter behavior, absentee volume, and the incorporation of public safety practices.

We also recognize the important partnership between our agencies and dependencies on state systems such as WisVote and MyVote to facilitate elections at the municipal level. Likewise, we are also embarking on analyzing areas of improvement and working to develop efficiencies and implement changes to benefit our municipal partners ahead of the November election. To offer transparency into the changes and improvements the state will be making ahead of November, WEC staff will be creating a very comprehensive report outlining 20+ program areas and what we are doing to prepare for November. I have attached an outline of our report sections, which we will be producing next week and issuing to our Commission on August 21 in anticipation of their September 1 meeting where we will present the report publically. We will also be using the report to respond to congressional inquiries. I have attached a letter we received from the Committee on House Administration. In our November Preparedness Plan document we plan to address the questions asked in this letter as well as provide information on all of our other preparations. The letter also asks questions pertinent to Green Bay and other Wisconsin municipalities. It is our hope that you have a written plan that you can provide which answers these questions.

We ask that you please provide any report on November election preparations that you may already have that answers the following questions. If such a report does not yet exist, we have been directed by the Chair of our Commission to collect answers from Green Bay to the following questions. Your report/answers will then be included as part of our preparedness report to the Commission and posted for the public. To meet the Commission material deadline and the response deadline outlined in the Congressional letter we ask that you please provide your election preparedness plan and/or answers to the following questions by August 20.

We ask that you please any documentation you may already have that answers the following questions or that you please provide answers to the following questions by the end of the day, August 20. Further, we ask that you if you haven't done so already, that you please let us know if you will be able to comply with this request, and what form your reply will take by 5:00pm on August 17.

The questions include:

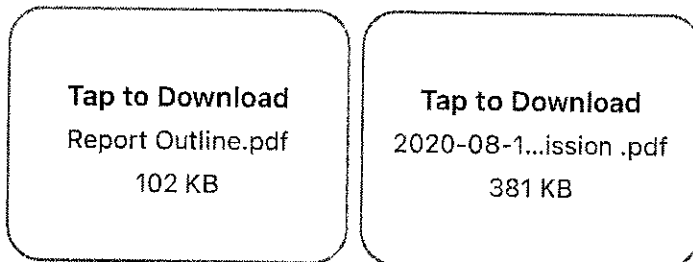

1. Please provide a detailed narrative on any changes Green Bay is making to absentee by mail, including answers to the following questions:
 - a. What measures are being adopted to ensure ballots are sent in accordance with statutory timelines? This includes fulfilling the deadline of sending ballots by the 47th day prior to the election and then filling subsequent requests within 24 hours.
 - b. What internal processes or chain of custody procedures are in place to ensure all ballots requested by voters are issued? Please describe any third-party mailing vendors involved in the process. If there are not vendors, please describe the process from the time a request is received in your office until the time that a ballot hits the mail stream.
 - c. What measures are being take to identify previous issues with mail vendors and to implement a fix to address issues?
 - d. If a problem is identified (voters not receiving their ballots, ballots not tracking) what will be done to identify the issue and the ensure it's not a result of an internal workflow error?
 - e. How is Green Bay coordinating with the USPS ahead of November?
 - f. Where will Green Bay voters be able to drop off their absentee ballots on election day?
 - g. Will Green Bay voters be able to drop off their absentee ballots at polling places on election day? What will be the process for getting those ballots to central count?

- h. Will there be drop boxes or other drop off opportunities for voters?
 - i. What steps has Green Bay taken to tell voters about absentee opportunities, requirements, and deadlines?
- 2. Please provide a detailed narrative on Green Bay's plans for in-person absentee ahead of the November Election, including answers to the following questions:
 - a. What dates and hours will in-person absentee be offered?
 - b. How many locations will be offered?
 - c. Will there be drive-thru, curbside, or drop off opportunities available?
 - d. Will there be any drive-thru or alternative options available?
- 3. Please provide a detailed narrative on Green Bay's plan for in-person polling places on Election Day, November 3, including answers to the following questions:
 - a. How many polling places will Green Bay have on November 3?
 - b. What changes were made to polling locations to ensure social distancing can be maintained or to accommodate other CDC recommendations?
 - c. How was the decision reached on how many polling places Green Bay will have in November?
 - d. What considerations were weighed in terms of number of polling places and locations?
 - e. Will there be any drive thru or alternative methods available?
 - f. What line management or mitigation efforts will be used at your polling places to avoid long wait times for voters?
 - g. What poll worker recruitment efforts is Green Bay embarking in to prepare for November? What contingency plans does Green Bay have for a lack of poll workers on election day or emergency needs?
- 4. Please provide a detailed narrative on preparations Green Bay is making to Central Count ahead of November 3, including answers to the following questions:
 - a. What process/personnel changes are being made?
 - b. What security measure are in place or being changed at central count to ensure that only authorized personnel have access to the ballot.
 - c. What changes are being made to accommodate larger numbers of absentee ballots being returned on election day? With the process change because of the larger volume of absentees that are likely to be returned on election day?
- 5. Please provide a detailed narrative on preparations the City of Green Bay is making for November 3, including answers to the following questions:
 - a. Communications plans? How will Green Bay communicate their preparation

- efforts to the public? How will issues on election day, during absentee, etc be communicated?
- b. What changes have been made to MEC staff training? Chief inspector or election inspector training?
 - c. How will Green Bay communicate and changes to poll locations? To voter? To the state and other parties who rely on the data to populate polling place look up tools?
 - d. Given the larger volume of absentee ballots, will you be able to process all of your absentee ballots on election night? If you believe tallying will extend beyond election night, what is you plan for processing absentees that may span over multiple days?

Thank you for your attention to this after what has been an incredibly busy week! We appreciate your commitment to elections and appreciate the time needed to answer these questions. Transparency in elections is paramount. We look forward to highlighting the many preparations and changes Green Bay is making to prepare alongside our report to show that Wisconsin is ready for the November 3 election! If you have any questions, or would like to discuss further, please don't hesitate to contact me directly.

Kind regards,
Meagan

Upcoming Webinar: Engaging Voters on Facebook

CTCL is partnering with Facebook to help election officials understand and incorporate best practices to strengthen their voter outreach on Facebook. This free webinar will focus on both new and existing tools available to help election officials amplify voter education efforts and establish their Facebook pages as trusted sources of election information.

Engaging Voters on Facebook: Tools for Election Officials

August 27 | 1-2pm Central Time

- Understand how Facebook tools can support election officials' outreach
- Amplify important messages to voters with the new voting alerts
- Learn how to apply social media best practices to new tools

CTCL Launches Rural Grants Program

The pandemic brings extra challenges and extra costs to election administration. CTCL recently provided five Wisconsin cities a total of \$6.3 million for implementing a safe, inclusive, and secure election in November, and now we're launching a similar grants program for rural jurisdictions.

"Smaller, rural jurisdictions are often overlooked in the national election landscape and in the media, but remain crucial to our democracy," explains Tiana Epps-

Johnson, CTCL's Executive Director. "Like their metropolitan counterparts, rural jurisdictions are facing the unprecedented challenge of administering safe and secure elections and must provide healthy voting options to their communities this year."

Subject: Elections Communications Assistance with CTCL
Date: Aug 25, 2020 at 1:41:38 PM
To: Wolfe, Meagan - ELECTIONS Meagan.Wolfe@wisconsin.gov

Hi Meagan,

I'm Michael Spitzer-Rubenstein, the Wisconsin State Lead for the National Vote at Home Institute. You may have already spoken with Amber McReynolds or Hillary Hall; we're working with the Center for Technology and Civic Life to provide free election assistance to Wisconsin municipalities.

Do you have 30 minutes to talk in the next week? I'd like to meet you and discuss how we might work together to help the election run smoothly.

We've created a [Communications Toolkit](#) and are creating a Wisconsin-specific version with appropriate language about voter ID and signature records. It's a groundbreaking resource that uses behavioral science insights from our partners at ideas42 to help you connect with communities and get voters the information they need about voting in November. We know it's tough for cash-strapped election offices to build out a comprehensive communications plan, design compelling visuals and develop messaging documents. That's why we created it with templated communications plans, social media graphics, print ads, fliers, posters and other visuals.

Are there any times in the next week that would be good for us to speak about how we can help you and the Wisconsin Elections Commission? Mornings and early afternoons are generally best for me but I'm happy to be flexible around your schedule.

Looking forward to speaking,
Michael

Election tech support from U.S. Digital Response

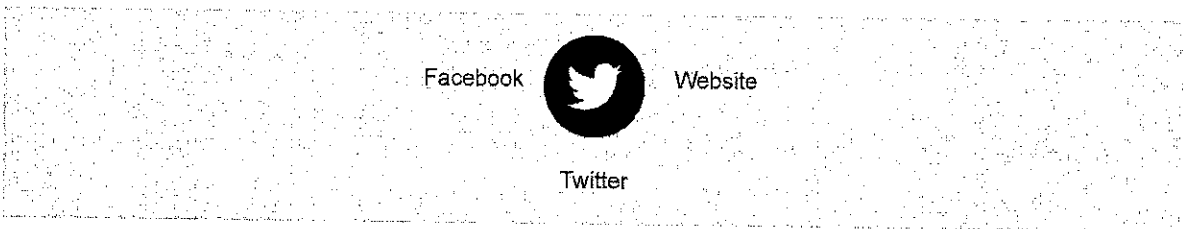

Every community depends on their local election office to lead a voting process that is secure and inclusive. But too often election officials must spend their limited resources struggling against outdated technology, all while facing a steadily growing list of responsibilities that include equipping voting locations for all sorts of contingencies, virtually training poll workers, and educating voters about their options to safely participate in elections. Time is every local election office's most precious resource right now.

If your election office needs support troubleshooting technology, streamlining your workflows, updating your website, or anything else, we encourage you to contact the U.S. Digital Response Elections team. They're 100% free, non-partisan, and provide fast, high-quality solutions to fit your needs on a tight timeline.

Led by Robin Carnahan (former Missouri Secretary of State and former Co-Chair of both the Elections and Securities Committees of the National Association of

Secretaries of State), the [US Digital Response Elections team](#) is a group of entirely pro-bono, senior technologists who are available to help with any technical need elections offices are facing, and are already doing so with a wide-variety of counties. They have [existing offerings](#) for [VBM applications](#), [poll worker recruitment](#), [local election office websites](#), [elections support tools](#), and a number of other initiatives, and they can also build something custom to suit your needs. CTCL has already successfully partnered with them on various projects, and highly recommends reaching out to them with any need you may have.

Ready to get the ball rolling? Questions about their services? Email the team directly at elections@usdigitalresponse.org, or request help [here](#).

Hi Meagan, Richard, and Reid,

I just wanted to reach out and connect you with Michael Spitzer-Rubenstein and Hillary Hall from the Vote at Home Institute in case you think other clerks or the WEC staff would find working with them useful.

I have been working with Hillary since early May. She was a tremendous resource in helping me decide to seek out a vendor to automate our absentee assembly process, as well as selecting drop boxes early on that were secure and met all of the requirements the WEC put forth last week.

I have been working with Michael to create inputs and outputs to help us determine staffing needs and staffing responsibilities at Central Count based on actual quantitative data. They have created a tool that is extremely useful in visualizing the time certain processes take. They will also be helping the Election Commission with our voter education communications around absentee voting and the messaging we will use. They have an extremely useful communications toolkit for clerks with zero resources to those that are hiring communication firms.

Hillary used to be a clerk in Colorado, so she also understands all of the other work we are doing and how precious and valuable time is.

All in all, they have essentially made my life much easier with the absolutely free technical assistance they are offering.

Date: Aug 31, 2020 at 4:17:25 PM
To: Rydecki, Richard H - ELECTIONS Richard.Rydecki@wisconsin.gov
Cc: Eric Genrich Eric.Genrich@greenbaywi.gov

Dear Mr. Rydecki,

Thank you for allowing us to submit an addendum to our November Preparation Plan. In June, we worked with Ms. Vicky Selkove, City of Racine, to create a safe voting plan for the November election. This plan was part of a larger grant request to the Center for Tech and Civic Life, for which we were awarded over one million dollars.

Attached is our portion of the submitted plan. We have been working diligently to increase outreach and to improve voter education. We have acquired equipment to help us process ballots more quickly, and we have engaged and trained new poll workers. We are excited to employ three temporary positions called *voter navigators*, who will assist voters and clerk's office staff.

If you have any questions, please feel free to reach out.

Regards,

Celestine Jeffreys

Thank you, Claire! Good to meet you, Meagan, Reid, and Richard.
We already have meetings scheduled about working with Madison, Green Bay, Kenosha, Racine, Eau Claire, Wauwatosa but are certainly interested in other jurisdictions, as well. We're working on a Wisconsin-specific version of our communications toolkit with language about voter ID and absentee witness requirements informed by behavioral science. It would be great to do Zoom trainings for clerks about communications/voter education, operational planning, and could also facilitate sessions on more technical issues like curing absentee ballots, signature verification, etc.

Do you have any time to talk next week about how we can support your work? Right now, it looks like Monday morning, Wednesday, or Friday morning are probably best for us but we can work around your schedules.

Michael

Hi Meagan,

I am following up on this email from Hillary because I want to make sure you are able to make it to our Operations Toolkit Demo next week on Wednesday, Sept. 9 at 3:00 PM ET.

We're inviting elections officials like you from around the country to make sure you have all the tools and resources you need to make election day a success.

[Check out Hillary's email and you can RSVP for our webinar by clicking here.](#)

As always, we are here to help, so don't hesitate to reach out if you have any questions!

Thanks, and see you next week!

Rachel Lefsky
Communications Fellow

VOTE  **HOME**

Dear Meagan,

Election Day is 66 days away! Here at the National Vote at Home Institute, we are acutely aware that operational pressures and voter education efforts are ramping up in your office, especially as more voters than ever plan to vote safely at home this November.

WI-REP-21-0748-A-000050

We are working with states and jurisdictions across the country to support your work, and we're excited to invite you to an **interactive demo of our operations tools: the vote-by-mail calculator and the polling place planner**, designed to help election officials consider staffing, space and other resource needs for both vote-by-mail and in-person voting.

Vote at Home Election Operations Tools Demo

Wednesday, September 9, 2020

3:00 - 4:00 pm ET

REGISTER HERE

At this presentation, we will walk through both tools, sharing tips and tricks to get the most out of these resources and ensure your voting processes run smoothly. Please visit our [new website](#) to access the tools, along with many other resources from NVAHI and partners on vote at home best practices.

Thank you for joining us to make sure every American can vote in a secure, safe, accessible and equitable election this fall. Please don't hesitate to reach out to [Rachel Lefsky](#) if you have any questions or would like more targeted guidance for your jurisdiction.

Sincerely,

Hillary Hall

Senior Advisor to State and Local Election Officials

Meagan, Reid, Richard,
I wanted to follow up: do you want to schedule a time to talk about how we can support the WEC and Wisconsin cities?

We have some time at 9 AM either Thursday morning or Friday morning if that would work. Otherwise, our calendars are more open next week if that's better.

Thanks,

Michael

On Fri, Aug 28, 2020 at 1:42 PM Michael Spitzer-Rubenstein <michael@voteathome.org> wrote:

Thank you, Claire! Good to meet you, Meagan, Reid, and Richard.
We already have meetings scheduled about working with Madison, Green Bay, Kenosha, Racine, Eau Claire, Wauwatosa but are certainly interested in other jurisdictions, as well. We're working on a Wisconsin-specific version of our communications toolkit with language about voter ID and absentee witness requirements informed by behavioral science. It would be great to do Zoom trainings for clerks about communications/voter education, operational planning, and could also facilitate sessions on more technical issues like curing absentee ballots, signature verification, etc.
Do you have any time to talk next week about how we can support your work? Right now, it looks like Monday morning, Wednesday, or Friday morning are probably best for us but we can work around your schedules.

Michael

Subject: Introduction to Vote At Home

Hi Meagan, Richard, and Reid,

I just wanted to reach out and connect you with Michael Spitzer-Rubenstein and Hillary Hall from the Vote at Home Institute in case you think other clerks or the WEC staff would find working with them useful.

I have been working with Hillary since early May. She was a tremendous resource in helping me decide to seek out a vendor to automate our absentee assembly process, as well as selecting drop boxes early on that were secure and met all of the requirements the WEC put forth last week.

I have been working with Michael to create inputs and outputs to help us determine staffing needs and staffing responsibilities at Central Count based on actual quantitative data. They have created a tool that is extremely useful in visualizing the time certain processes take. They will also be helping the Election Commission with our voter education communications around absentee voting and the messaging we will use. They have an extremely useful [communications toolkit](#) for clerks with zero resources to those that are hiring communication firms.

Hillary used to be a clerk in Colorado, so she also understands all of the other work we are doing and how precious and valuable time is.

All in all, they have essentially made my life much easier with the absolutely free technical assistance they are offering.

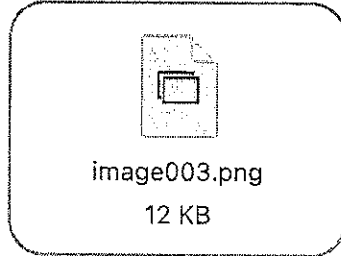

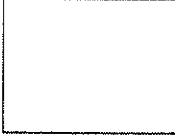

Claire

Election resources for safe elections

We're thrilled to launch a new website, resources.techandcivicle.org, a collection of free, curated, and practical election resources for safe elections!

ALL PUBLIC HEALTH COMMUNICATION IN-PERSON VOTING POLL WORKERS MAIL / ABSENTEE VOTING
DROP BOXES

Keyword

- ▼  Running a safe election in a pandemic — start to finish
The Elections 50 top
Public health Document
- ▼  2020 healthy polling place guidebook
The Elections 50 top
Public health Document
- ▼  Implementing public health guidelines for voting locations
Cases for Youth and Education
Public health Video

Why this website, and why now? Many of you are receiving funding from the CTCL COVID-19 Response Grants. We've heard from grantee jurisdictions that there are so many resources, recommendations, and tools available that it can be difficult to quickly locate what you need. Right now, 34 days before the election, time is the most important resource! That's why we curated the most relevant, actionable material on 6 topics:

- Public health
- Communication
- In-person voting
- Poll workers
- Mail / absentee voting
- Drop boxes

If you still can't find what you're looking for, the website also includes a dedicated [Elections IT Support Desk](#) to field technical questions, large and small.

[Visit Election Resources](#)

Celebrating Vote Early Day

Mark your calendars — [Vote Early Day is Saturday, October 24th](#). Vote Early Day is the first holiday designed to help all eligible voters learn about their voting options and celebrate the act of voting early.

Make sure your election office is ready for this new civic holiday by:

- Requesting your [Vote Early Day swag](#) including stickers, pins, and posters by October 1st
- Preparing for [Vote Early Day events](#) at early voting sites and dropboxes
- Using the [Vote Early Day digital toolkit](#) to engage your community

Operation Vote Safe

Business for America would like to invite election officials to join their Operation Vote Safe (OVS) initiative, mobilizing the business community to provide assistance to state and local election officials who are short on resources. The OVS website features an Action Map where election officials can identify election-related needs that businesses and individuals can fulfill, such as poll workers, PPE, other supplies and equipment (ballot drop boxes, plexiglass barriers), facilities, and more. Business for America is coordinating a number of large donations from businesses. Smaller quantities of PPE may be contributed via an online marketplace and shipped directly to election officials.

To see the Action Map and PPE marketplace, and to read how businesses are taking part, please visit operationvotesafe.org. If you'd like to have your election needs added to the map and possibly receive assistance, please complete the [Request Support](#) form on the OVS website.

**Operation Vote Safe
Dashboard of State
Election Officials' Needs**

Led by Business for America
in partnership with Kearney

Our goals

- Bring visibility to your needs via a **data visualization dashboard**
- Give **corporations and individuals** ways to offer support and scale impact

What we need to support you

1. Nature of support and quantity (if applicable) needed for **at least 1 category**:
 - Election Workers by County
 - Supplies & Equipment (e.g., masks, sneeze guards, drop boxes)
 - Data can be visualized for up to 5 sub-categories
 - Facilities (e.g., polling locations, drop box locations)
2. At least **~25%** of your state's counties are represented in the data set
3. Updated data on a **weekly or biweekly** basis

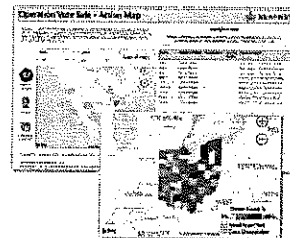

What's next

- Publish dashboard for access to the **public** across partner websites
- Promote dashboard to **interested parties**
- Continue to **refresh data** upon receipt up to the week before Election Day

How Will This Dashboard Help My State / County?

- **Immediate view** of current election resource needs across the state / country
- **Interactive, intuitive map** to facilitate high-impact gifts from businesses across multiple states
- **One-stop shop** for individuals interested in poll working positions
- **Easy-to-leverage dashboard** for marketing across your state/county's website and social media platforms

Check out the
Operation Vote Safe
website [here](#)

Subject: RE: Designated Drop Box Collection Team
Celestine,

That term means staff designated by the municipal clerk's office to regularly collect absentee ballots from any drop boxes the municipality is using for the election. They should be trained on collection procedures, including any chain of custody procedures that are being used.

In addition, I am still trying to track down some more information regarding the emancipated high school student. I was informed by someone in state government familiar with the emancipation process in WI that the state does not have a process like other states. The outstanding question I need answered is whether emancipated individuals are provided by the State with a substitute guardian who could meet the poll worker sign off requirement. Does your city attorney have any thoughts on this situation?

Rydecki, Richard H - ELECTIONS Richard.Rydecki@wisconsin.gov
Cc: Michael Spitzer-Rubenstein michael@voteathome.org, Erin Grunze
erin@votingrightslab.org

Dear Ms. Wolfe and Mr. Rydecki,

I hope you are both doing well, I appreciate your leadership in this extremely hectic time for election officials.

You've done great work getting both pandemic response and election security funds to localities and requiring important security improvements.

I am writing to request a brief meeting to discuss livestreaming the central count and/or post-election audits, with myself, Erin Grunze of Voting Rights Lab and Michael Spitzer-Rubenstein Wisconsin state lead for Vote at Home.

As you know, livestreaming the processing of absentee ballots as well as post-election audits is a best practice used in Colorado, Kentucky and California, among other states. In a year when there is more confusion and disinformation about elections -- despite the ongoing work of election officials -- we believe encouraging officials to livestream would:

- provide transparency and counter disinformation about the fate and processing of absentee ballots
- prevent unsafe crowding in central count municipalities for election workers

We'd like to hear your thoughts on this topic and if this is something WEC might consider encouraging for clerks who are interested.

Set up should be fairly easy for clerks with reliable IT support, but there is some assistance available to those who need it as well.

Do let us know if there is a time one or both of you might be free to meet in the coming week to ten days.

I know it's a hectic time, I think 15-20 minutes should be sufficient.

Thanks for all you do,

Thank you for your speedy response. It's great to have someone so invested and knowledgeable about security at the helm in Wisconsin.

Quick question – wondering if you've been successful in getting the 9 counties that had been leaving their ES&S central count systems online in between election days to end that practice?

An ally reached out to Milwaukee County about this recently, and they just said they were working with the WEC – but it wasn't clear if this particular issue had been addressed.

Is the sense that those systems need to be online for early vote at the end of each night? I would hope it's just briefly rather than all the time.

One of original researchers who found the systems on the public internet is willing to hop the phone if there are counties/IT staff that would like to hear it from the horse's mouth. I suppose it could be possible to assemble a group call if that made sense, though I'd have to check back with the researcher.

I was planning to reach out to counties, but wanted to check in with you first.

We are encouraging all localities we have contact information for, to heed the CISA/FBI warning about chaining by asking their IT folks to make sure their software is up to date and patched even on systems not directly related to voting machines. Just explaining that chaining is just breaking into one system/email/ account in order to get access to others, I think is helpful.

We're also encouraging them to use 2 factor on both work and personal email. I was a concerned that almost none of the Clerks I spoke with seemed to know if they had 2FA set up on any accounts outside of WisVote, or even that having two passwords on other software was something to be thinking about. They certainly know about 2FA in relation to WisVote thanks to your team's hard work.

My apologies for not raising this earlier.

Thanks for all you do,

Subject: RE: quick conversation re: livestreaming absentee ballot central counts

Thanks for the note. I would suggest that you reach out directly to the central count jurisdictions about this, there aren't many of them and you can find the list here: <https://elections.wi.gov/clerks/guidance/central-count-absentee>

There's no one size fits all approach, and I think there are a lot of other resource considerations for streaming that some of the jurisdictions may not have. I know when we livestreamed our recall petition review in 2012 it resulted in hundreds of questions from the public who didn't understand what they were seeing (or making allegation of seeing something) meaning we needed to staff a response center to have staff who could answer these questions. When you live stream something the additional transparency is great, but you are also inviting a more broad viewership from an audience that may not understand what they are seeing, and there is no narration with a livestream, like there would be when viewing in-person, which can lead to misunderstandings. I think that's very important consideration or it can actually lead to more confusion. It's a balance- like everything!

Ultimately, it's each municipality's choice, so I think it makes the most sense for you to reach out to them directly so they can weigh their options. I know some of the large central count locations are already planning to do this.

Take care,

Meagan

Subject: quick conversation re: livestreaming absentee ballot central counts

Dear Ms. Wolfe and Mr. Rydecki,

I hope you are both doing well, I appreciate your leadership in this extremely hectic time for election officials.

You've done great work getting both pandemic response and election security funds to

localities and requiring important security improvements.

I am writing to request a brief meeting to discuss livestreaming the central count and/or post-election audits, with myself, Erin Grunze of Voting Rights Lab and Michael Spitzer-Rubenstein Wisconsin state lead for Vote at Home.

As you know, livestreaming the processing of absentee ballots as well as post-election audits is a best practice used in Colorado, Kentucky and California, among other states. In a year when there is more confusion and disinformation about elections -- despite the ongoing work of election officials -- we believe encouraging officials to livestream would:

- provide transparency and counter disinformation about the fate and processing of absentee ballots
- prevent unsafe crowding in central count municipalities for election workers

We'd like to hear your thoughts on this topic and if this is something WEC might consider encouraging for clerks who are interested.

Set up should be fairly easy for clerks with reliable IT support, but there is some assistance available to those who need it as well.

Do let us know if there is a time one or both of you might be free to meet in the coming week to ten days.

I know it's a hectic time, I think 15-20 minutes should be sufficient.

Thanks for all you do,

Aquene Freechild (she/hers)

Subject: clarification

Richard,

Thank you again for all your hard work!

a

We'd like to know a little more about the training for WisVote. A few clarifying questions:

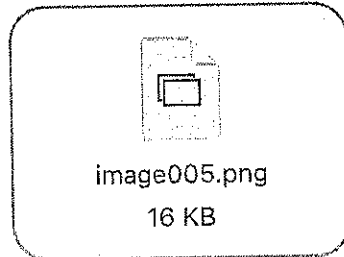

- Is there on-line training? **Yes, all of our WisVote Training is housed in our online learning center. Users would just need a log in and password to access the site and get started on training. If there is a need for**

credentials in bulk, our Help Desk can get that set up. Kris would just have to provide us with a list of names, etc. Once training is complete, each user would be issued credentials for WisVote.

- How long does the training take to complete, and how does the WEC know the training is completed? **Training time depends on the task the user is being trained to do. If they will just be doing a specific task they would have to take the security modules (roughly 75 minutes) and whatever modules pertain to the specific task. We think that the full training protocol for data entry level permissions could take up to 5.5 hours. If they are only being asked to do a specific task, it is possible that training could take less time, but these users will not be as fluent with how the system works. They would not need comprehensive training on the entire system, which would take longer, in that situation. The user self-certifies that they have completed the required training and they are issued a 'badge' when they complete each module that the trainee could share with the clerk. We have the ability to verify the status of training if there are concerns about whether a user has completed their training, but we would prefer to do that on a case-by-case basis.**
- Does a person need to be trained in order to use WisVote? **Yes, each user has to at least take the security modules before we will issue them credentials. The amount of additional training could be decided by the clerk's office.**
- What does "using" WisVote entail? Is this to enter-in information or is this just to print labels? **WisVote is a complex database the runs the election from start to finish. There are a number of basic data entry tasks such as entering voter registrations or issuing absentee ballots that the system is used for and there are also more complicated election set up tasks that require more knowledge of elections and the system.**
- If a voter is already registered, what level of access (training) in WisVote is required to print a label for the absentee ballot envelope? **The user would only need 'data entry' access to system to complete that specific task. There are tiered levels of access for security purposes and that would be one of the most basic profiles.**
- Assuming training is necessary, can a trained person enter the information to create a label and "send" that label for someone else to print? **Labels can be created as a pdf that could be printed by another person. The specific process would depend on what type of labels they are using (sheet**

labels v. dymo labels). Without knowing the exact procedures that are being used I cannot provide specific guidance on that but we have specialists that can help with those questions.

Hi Celestine,

In order to get everyone credentials, we need the attached form filled out. The form has space for four individuals so you may need to use two if you need five additional sets of credentials. Once you have this information filled out, I can work with our Help Desk to get

these created ASAP.

Thanks and let me know if you have any questions.

Best,

Richard Rydecki

Hi Celestine,

My apologies for the confusion but we need a signed form to get Melissa credentials for the learning center as well. If you can get me that form, I can work on expediting credentials for her.

Please note that Chief Inspector Training is also available on the agency website here: <https://elections.wi.gov/clerks/education-training/baseline-cit>.

The differences between this version and the one on the learning center are that this version is slightly less interactive and the progress of the trainee cannot be tracked and they are not issued badges when they complete each section of the training. Otherwise, the content is nearly identical.

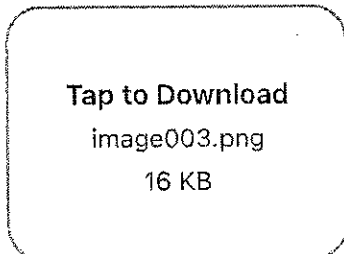

Let me know how you would like to proceed and I can assist.

Best,

Subject: RE: Urgent question

Celestine,

There is no problem with using multiple machine types at central count. Both of the machines you listed are certified for use in Wisconsin elections. You may have to ask the vendor about how you will need to aggregate and report results from the different memory sticks. The DS450 does not have any results transmission features, so results from those machines will have to be hand delivered to the county. '

Let me know if this does not make sense or if you have any additional questions.

Importance: High

Good morning, Richard!

I'm sure you receive many urgent emails.

We have a question about using different ES&S machines. We've obtained one DS450 for central count. We lease DS200s from Brown County and have given those assigned to us back to the county for their use.

Can we use both styles of machines, simultaneously, at central count? Is there something in the law that prevents us from using two different machines? Is this a matter of industry

standards or best practices?
Thank you so much!!

Subject: C-Green Bay Central Count concerns
Importance: High

Nate, I have concerns about this person from an outside organization at the central county location for the City of Green Bay. I observed that he has a laptop, printer, and cell phone assessible within the central count facility. Likewise, we were told he is an observer for the outside organization that gave them a grant and his position is paid for by that even though he's from a different org. I observed him interacting with the poll workers and advising them on matters.

I believe the central count location is tainted by the influence of a person working for an outside organization affecting the election.

Please explain how grant money from a private outside organization and employee from a private outside organization does not violate election laws for free and fair elections?

Hi Sandy, thanks for the email. We've had several conversations with Green Bay leading up to today and are aware that they were going to be using consultants from some outside groups today. We've discussed the roles these individuals were going to be assigned and told them that while there is nothing that would prohibit the City of from using these individuals, the inspectors and the absentee board of canvassers working the location are the individuals that are to be making decisions, not the consultants. I have talked to Kim, the Deputy Clerk who was going to reach out to the central count folks and reinforce this guidance.

I would certainly like to be made aware of issues or decisions that have been "tainted" at the central count, I'm not 100% sure what you mean. As far as grant money, etc., I'm again interested if there are issues or decision that have been made that you think we should look into. I'm only really aware of the recent litigation related to grants given to municipalities which included Green Bay, Milwaukee, Madison and a couple others, but I was under the impression that case was dismissed and the US Supreme Court chose not to take it up prior to the election.

Let me know if there is anything else I can help with on this.

Thanks

Subject: City of Green Bay Central Count Delay
Importance: High

Good Evening,

Our office contacted the City of Green Bay about an hour ago to check the status of their Central Count. At that time we were informed that the City has run into some issues, unclear what issues exactly were, and that at around 4pm the city had only tabulated 7,000 absentees. As of this morning, the city had over 31,000 absentees returned, which would mean that approximately 24,000 ballots are yet to be run. Based on this information, it seems safe to assume that Brown County will not have all results posted until very late/early tomorrow morning, as we await the City of Green Bay's results.

Thank You.

Subject: City of Green Bay Central Count Delay

Importance: High

Good Evening,

Our office contacted the City of Green Bay about an hour ago to check the status of their Central Count. At that time we were informed that the City has run into some issues, unclear what issues exactly were, and that at around 4pm the city had only tabulated 7,000 absentees. As of this morning, the city had over 31,000 absentees returned, which would mean that approximately 24,000 ballots are yet to be run. Based on this information, it seems safe to assume that Brown County will not have all results posted until very late/early tomorrow morning, as we await the City of Green Bay's results.

Thank You.

Justin W. Schmit

Chief Deputy County Clerk, Brown County

305 E. Walnut St. Rm. 120, Green Bay, WI

Subject: FW: C-Green Bay Central Count concerns

William,

Per your request I have provided the email thread below from Brown County Clerk Sandy Juno and our office. As Attorney Judnic outlines in his response, we had a number of calls with the city clerk's office in Green Bay leading up to the election to ensure they had the support and resources necessary to be successful on election day. Administrator Wolfe and I initiated several calls whose purpose was to confirm that the clerk's office felt like they were still in charge of running both central count and polling places on election day after we heard secondhand concerns that other entities were intervening in the planning process. Each time, we were assured by clerk's staff that they were leading these efforts and that the deputy clerk was overseeing the polling places for election day and her colleague was supervising central count. We asked them specifically about any concerns they had about decision making and feeling that they were not involved in making these decisions. The only instance they expressed concern about was when the City decided to move the central count operation to a different facility prior to election day due to setup and space concerns that would have made it difficult for observers to see the entire ballot processing from one observation area. The previous facility would have had ballots being processed on multiple floors and they ended up choosing a different facility after concerns were raised from observer groups about that setup. We were assured on several other occasions that the clerk's staff was running the election and that the consultants were there to provide feedback and suggestions but were not the ultimate decision makers.

Let me know if you have any other questions and I will be happy to assist.

Subject: letter of reprimand sent to Gina(election facilitator) from Wisc. Elect. Commission not followed

Gina was working the polls on Tuesday, April 6th. John the election chief where I was an election official at Lane School at the end of the day told us election officials that we could leave when the ballots weren't sealed yet. I told John I'm not leaving until the ballots are sealed. The rest of the election officials left. John said he was waiting for Gina to give final directions. I believe when John and Gina realized that I wasn't leaving until the ballots were sealed that John said to me to seal the ballots. This all happened very quickly after the other election officials left. I sent you the correspondence from the Wisconsin Election Commission on their findings at what was done by them. So you could look at see that correspondence and determine if what was done by Gina followed what the WEC did?

Thank you for your time and effort in keeping our elections fair!!!

Subject: Mark Zuckerberg et al

Dear Wisconsin Legislators,

I applaud all of you for writing many new bills to try to stop the fraud in our election system. However, why is the entire Republican membership in the legislature not joining in the filing of law suits against Mark Zuckerberg and his companies for the blatant election tampering and manipulation that he and his organizations are responsible for? There is no excuse for not taking legal action against him, the members of the Wisconsin Election Commission and the mayors of all cities that received funding from Zuckerberg. He knew full well what his money was being provided for. Election fraud was the goal, plain and simple.

No one is allowed to facilitate any actions that cause the election process of our state to be compromised and that is what Zuckerberg and his organizations did.

We don't need a law to enforce that aspect of our elections. Secret ballot implies this standard.

Dear Servant of the People,

A Bill was not needed to execute your constitutional duty of overseeing all elections and setting the times, places, and manner of elections. Your authority is found in the US constitution Article 1, Section 4, Clause 1: The Times, Places and Manner of holding Elections for Senators and Representatives, shall be prescribed in each State by the Legislature thereof.

I am strongly urging the Senate to issue subpoenas for all ballots, voting machines, system files, etc used in the November election in Wisconsin for an independent forensic audit.

Wisconsin, like most states, uses the Mason's Manual of Legislative Procedure to outline the duties of state legislatures. It reads, "A legislative body or a committee, when acting within the scope of its authority to conduct an investigation, may summon and examine witnesses, require the production of and examine books, records and papers." (Page 292, Sec. 802, Summons, Subpoenas and Warrants, 1).

This section also states, "When a subpoena duces tecum has been issued under statutory authority showing that the purpose of the examination was within the scope of the inquiry authorize, the court

cannot cancel the subpoena nor enjoin the issuance of any further subpoena” (Page 292, Sec. 802, Summons, Subpoenas and Warrants, 6).

The Senate has legal authority to conduct their own legislative investigation via subpoenas of all ballots, tabulators, routers, passwords, machines, records, etc. All cases where counties, cities, towns challenged the Senate’s authority have ended in judges denying their challenges. This proved true in Arizona; with Judge Timothy Thomason’s ruling: “The Court finds that that Subpoenas are legal and enforceable. There is no question that the Senators have the power to issue legislative subpoenas. The Subpoenas comply with the statutory requirements for legislative subpoenas. The Senate also has broad constitutional power to oversee elections. The Arizona legislature clearly has the power to investigate and examine election reform matters. Accordingly, the Senators have the power to subpoena material as part of an inquiry into election reform measures. As such, the Subpoenas have a proper legislative purpose. The Subpoenas also do not violate separation of powers principles. Production of the subpoenaed materials would not violate confidentiality laws.”

With the numerous incidents that occurred in Wisconsin during the November 2020 general election, it is crucial the Legislature audits the whole state to ensure this was not a statewide issue that potentially affected all races. Only legal votes should be counted.

Thank you for your consideration.

Best regards,

Donna

Rep. Sanfelippo Praises Start of Elections Investigation

MADISON, Wis. – This afternoon, the Wisconsin State Assembly passed [Assembly Resolution 15](#), directing the Assembly Committee on Campaigns and Elections to investigate the administration of recent elections in Wisconsin. Rep. Joe Sanfelippo (R–New Berlin) authored Assembly Resolution 15 and issued the following statement:

“There have been troubling reports of state and local elections officials disregarding the clear language of our state’s voting laws and regulations during recent elections. In our recent hearings in the Assembly Committee on Campaigns and Elections, we heard testimony from witnesses and reviewed records of electronic communications between elections officials, which have together provided persuasive evidence of a number of clear violations of the law. I am pleased that my colleagues in the Assembly have joined me today in recognizing the significance of these concerning allegations and the need conduct a thorough and methodical investigation.

“As lawmakers engaging in our oversight duties, we need to carefully scrutinize the identified instances of apparent noncompliance with our elections laws and to determine just how widespread such noncompliance is around the state. I want to make it clear that the objective of this investigation is not reviewing or relitigating the results of any specific race or election; rather, the focus of the investigation is to examine the processes used, and actions undertaken, by elections officials as they conducted recent elections. We need a comprehensive understanding of how our laws are being followed so that we can hold accountable any individuals who have willfully disregarded them and to work to refine our laws as necessary to ensure that the actual practices comport with the law moving forward. The Resolution approved today lays the foundation for the Committee to use certain investigative powers granted to it by statutes and rules, including the ability to

request the issuance of subpoenas to compel witnesses to appear before the committee or to produce relevant documents or records.”

###

Subject: Protect Our Election Process with these Reforms

Dear Representative Sanfelippo,

The 2020 elections revealed serious gaps in the election process that threaten election integrity.

More importantly, these grave concerns of election integrity undermine the public's trust in our election system.

As your constituent, I urge you to examine our state election laws to ensure that we have taken every measure to protect the integrity of every legal vote.

Please consider ensuring these nine critical protections are in place in our state law.

1. Verify the accuracy of voter registration lists against other state record databases.
2. Verify citizenship of voters by cross referencing state information with the Department of Homeland Security records.
3. Require voter identification with a government issued ID.
4. Limit absentee ballots and reserve this voting means only for those who have a disability or who will be out of town on election day.
5. Prevent vote trafficking also known as ballot harvesting so that third parties do not collect ballots with no election system supervision.
6. Allow election observers complete access to the election process.
7. Provide voting assistance but require any individual assisting a disabled voter to file a form with election officials explaining the reason their assistance is needed.
8. Prohibit early voting counting and the early release of election results before polls close on Election Day.
9. Provide state legislatures with legal standing by ensuring our state can sue, if necessary, any state officials for making unauthorized changes to state election laws.

I believe that we can achieve both high participation and strong integrity. These are not mutually exclusive goals. We can do both!

I look forward to hearing from you. I hope you will fulfill your responsibility not just to the people you serve, but to the election process and system that you are charged to protect.

Thank you for serving our state.

May God Bless you.

Subject: Re: Campaigns and Elections Committee Hearing

Dear Representative Sanfelippo,

I contacted your office after watching the Assembly Campaigns and Elections Committee hearing on Wisconsin Eye last week. I want to share two observations about the content of the hearing.

First I was surprised to hear legislative counsel disseminate incorrect information about the manner in which municipal clerks are placed in their positions. Initially she stated she wasn't sure. She then incorrectly stated that municipal clerks are only appointed and none are elected to their positions. Legislators were given inaccurate information as they considered current election policy. Fortunately one of the speakers, a retired county clerk, provided legislators accurate information about the issue.

Second and more important was an apparent misunderstanding about the decision-making structure of a central count alternate site, formally referred to as a municipal board of absentee ballot canvassers. As I listened to the speakers and the questions posed by legislators, it appeared that central count locations were viewed to function in the same manner as polling sites. That is not the case.

During the hearing, speakers identified an individual when asked who they saw as being in charge of the Green Bay Central Count. That person would be considered the chief election inspector, if you were discussing a polling place. At a central count location, the entity in charge is called the board of absentee ballot canvassers, as described in Wis. Stat. 7.53 (2m). The canvassing of absentee ballots at central count alternate locations is outlined in Wis. Stat. 7.52.

The establishment of municipal boards of absentee ballot canvassers (central count alternate sites) in their current form has increased our government's administrative bureaucracy. The central count process should be eliminated or least reformed. Making this change would simplify the election process in Wisconsin, following the axiom, "simplicity equals greater security".

Thank you for your time,

Debra Morin

Dear Senator Stroebel,

The issue with the Green Bay election should not be allowed to "die on the vine". Currently your bill is too little, too late and addresses the issue after the fact . This crime must be dealt with in the strongest possible manner. Anything that Mark Zuckerberg is involved in is never done for innocent reasons. We should all know that by now. He lied about the real purpose behind FaceBook from the very beginning. There should be an investigation launched by the Wisconsin Legislature to find out exactly what can be done for this blatant violation of Wisconsin's election laws by the officials in Green Bay, Brown County, Mr. Zuckerberg and every one of the phony volunteer activists involved. They need to be prosecuted for "vote / election manipulation and tampering". The democRAT activists from out of state and his partners knew what they were doing was illegal in Wisconsin and ignorance of the law is not an excuse that allows them to get away with it without serious punishment.

I am sure Tony Evers and his complicit Attorney General will refuse to prosecute this crime but it must be done, none the less. We cannot let these criminals make fools of Wisconsin, our laws and our citizens. Every time I hear "there is no evidence of voter fraud" it makes my blood boil. The only thing there is no evidence of is voter fraud indictments and prosecutions. Please don't let that be true in this case. The guilty need to be punished.

Stroebel Bills Pass Legislature, Head to Gov. Evers

My [bill](#) requiring Gov. Tony Evers to tell us when state employees will return to work passed the Assembly this week. It now heads to Gov. Evers' desk where I hope he signs it. One year into the COVID-19 pandemic and many Wisconsin workers have returned to the workplace. It is time for state employees to begin doing the same, because Wisconsin taxpayers deserve a responsive, productive state government.

Another [bill](#) that I am proud to lead authorizes virtual charter school students to participate in athletics and extracurricular activities offered by the school district in which they reside. State law already allows homeschool students to play for local school sports teams and participate in extracurricular events offered by their resident district. This provision has been around for many years and has worked very well.

With COVID-19 and the lack of in-person education in some school districts

changing how many families choose to educate their child, it only made sense to expand these opportunities to virtual charter school students. This bill has now passed both chambers of the legislature and now goes to the governor. Hopefully he will sign it.

Green Bay Disaster Demonstrates Need for Election Integrity Reform

Over the past two weeks we have been learning that the City of Green Bay outsourced key portions of its administration of the November election to former Democratic campaign operatives paid for by out-of-state billionaires. According to [investigative news reports](#), these partisan operatives – who were not employees of the municipal clerk’s office – sought to interfere in a number of the city’s election procedures.

Ahead of the election, Green Bay received \$1.6 million in special interest money from the Center for Tech and Civic Life, a group funded by Facebook founder Mark Zuckerberg. Several other Wisconsin cities received large donations from the foundation. The Wisconsin Institute for Law and Liberty, a non-partisan organization, [reviewed the money’s impact](#) on voting patterns and found that statewide the grants correlated to higher Democrat voter turnout. They had no impact on Republican voter turnout.

Election administration should never favor one party or another.

While the grants were supposed to help offset increased election costs due to COVID-19, emails show the leftwing activists who were helping administer the grant were really trying to run the election and bypass the local municipal clerk. These activists tried to help with absentee ballot “curing,” run the central count

facility (and ended up being given keys to the facility and dictating the central count process), and [help establish multiple Wi-Fi networks](#) at the central count location.

State law vests the authority for administering elections in municipal clerks and their employees. When my office asked Legislative Council for their expert opinion on the law, they clarified that no one may administer elections if they are not the municipal clerk or an election official appointed in accordance with state law. Wisconsin law currently requires election workers to be residents of the state.

The released emails and news reports depict an appalling picture of overtly partisan individuals attempting to subvert a municipal clerk's local systems and processes that were put in place to follow the law and efficiently administer an election.

I'm proud to be working with Sen. Roger Roth, Sen. Alberta Darling, Rep. Adam Neylon, Rep. Cindi Duchow and many other colleagues [on a bill](#) that addresses one facet of the problem we've seen in Green Bay. Our bill requires any private funds donated or granted to support elections, like those from the Center for Tech and Civic Life, to go first to the Wisconsin Elections Commission where they are subsequently distributed on a per-capita basis to all municipalities in the state.

We must ensure that these grants are transparent, come with no strings attached, and are equally distributed across the state. Large, out-of-state donors should not be able to favor specific communities over others and strong-arm their way into election administration.

New Poll: 75% of Voters Support Voter ID

Wisconsin's voter ID law went into effect in 2015. Since then, we've seen an increase in the number of people who vote in Wisconsin elections. A [new Rasmussen poll](#) released last week finds that 75% of likely voters across the U.S. support Voter ID laws. That's great news because it shows that election integrity is not, and should not have to be, a partisan issue!

Biden Stimulus Gives \$5.7 Billion to Gov. Evers with Zero Legislative Oversight

The federal stimulus plan that President Joe Biden pushed for gives the state of Wisconsin [\\$5.7 billion](#). This new round of federal funding was not accounted for in the proposed state budget because the bill hadn't passed Congress when Gov. Evers submitted his plan to the legislature. Unfortunately, while Democrats in Congress attached strings to this money to [prevent states from cutting taxes](#), they couldn't be bothered to require governors to consult with their legislatures on how the funds will be spent.

As of today, there is zero legislative oversight of these COVID-19 relief funds. That needs to change and that is why legislative Republicans have voted to require the executive branch to [consult the legislature](#) on how the funds will be spent. This money is taxpayer money. Just because it comes as a federal handout doesn't mean Wisconsin taxpayers should have their representatives cut out of the oversight process.

Getting Wisconsin Gov't Employees Back to In-person Work

New York City Mayor Bill de Blasio is [telling city employees](#) they will return to in-person work in May. According to The New York Times, Mayor de Blasio's order "is meant to broadcast that New York City will soon be open for business, and to encourage private companies to follow suit". [My bill](#) asking Gov. Tony Evers to tell us his plan for getting Wisconsin state employees back to in-person work passed the Assembly on Tuesday and is now headed to Gov. Evers' desk. I sincerely hope he signs this important legislation.

Sincerely,

Our mailing address is:

Rep. Sanfelippo Praises Start of Elections Investigation

MADISON, Wis. – This afternoon, the Wisconsin State Assembly passed [Assembly Resolution 15](#), directing the Assembly Committee on Campaigns and Elections to investigate the administration of recent elections in Wisconsin. Rep. Joe Sanfelippo (R–New Berlin) authored Assembly Resolution 15 and issued the following statement:

“There have been troubling reports of state and local elections officials disregarding the clear language of our state’s voting laws and regulations during recent elections. In our recent hearings in the Assembly Committee on Campaigns and Elections, we heard testimony from witnesses and reviewed records of electronic communications between elections officials, which have together provided persuasive evidence of a number of clear violations of the law. I am pleased that my colleagues in the Assembly have joined me today in recognizing the significance of these concerning allegations and the need conduct a thorough and methodical investigation.

“As lawmakers engaging in our oversight duties, we need to carefully scrutinize the identified instances of apparent noncompliance with our elections laws and to determine just how widespread such noncompliance is around the state. I want to make it clear that the objective of this investigation is not reviewing or relitigating the results of any specific race or election; rather, the focus of the investigation is to examine the processes used, and actions undertaken, by elections officials as they conducted recent elections. We need a comprehensive understanding of how our laws are being followed so that we can hold accountable any individuals who have willfully disregarded them and to work to refine our laws as necessary to ensure that the actual practices comport with the law moving forward. The Resolution approved today lays the foundation for the Committee to use certain investigative powers granted to it by statutes and rules, including the ability to request the issuance of subpoenas to compel witnesses to appear before the committee or to produce relevant documents or records.”

###

The [15th Assembly District](#) includes most of West Allis and the northern half of New Berlin.

Subject: Request

Dear Servant of the People,

A Bill was not needed to execute your constitutional duty of overseeing all elections and setting the times, places, and manner of elections. Your authority is found in the US constitution Article 1, Section 4, Clause 1: The Times, Places and Manner of holding Elections for Senators and Representatives, shall be prescribed in each State by the Legislature thereof.

I am strongly urging the Senate to issue subpoenas for all ballots, voting machines, system files, etc used in the November election in Wisconsin for an independent forensic audit.

Wisconsin, like most states, uses the Mason's Manual of Legislative Procedure to outline the duties of state legislatures. It reads, "A legislative body or a committee, when acting within the scope of its authority to conduct an investigation, may summon and examine witnesses, require the production of and examine books, records and papers." (Page 292, Sec. 802, Summons, Subpoenas and Warrants, 1).

This section also states, "When a subpoena duces tecum has been issued under statutory authority showing that the purpose of the examination was within the scope of the inquiry authorize, the court cannot cancel the subpoena nor enjoin the issuance of any further subpoena" (Page 292, Sec. 802, Summons, Subpoenas and Warrants, 6).

The Senate has legal authority to conduct their own legislative investigation via subpoenas of all ballots, tabulators, routers, passwords, machines, records, etc. All cases where counties, cities, towns challenged the Senate's authority have ended in judges denying their challenges. This proved true in Arizona; with Judge Timothy Thomason's ruling: "The Court finds that that Subpoenas are legal and enforceable. There is no question that the Senators have the power to issue legislative subpoenas. The Subpoenas comply with the statutory requirements for legislative subpoenas. The Senate also has broad constitutional power to oversee elections. The Arizona legislature clearly has the power to investigate and examine election reform matters. Accordingly, the Senators have the power to subpoena material as part of an inquiry into election reform measures. As such, the Subpoenas have a proper legislative purpose. The Subpoenas also do not violate separation of powers principles. Production of the subpoenaed materials would not violate confidentiality laws."

With the numerous incidents that occurred in Wisconsin during the November 2020 general election, it is crucial the Legislature audits the whole state to ensure this was not a statewide issue that potentially affected all races. Only legal votes should be counted.

Thank you for your consideration. Best regards,

Subject: Wisconsin 2020 election

I would like to know just what is currently going on in relation to our questionable election. We all probably have heard about the late night ballot dumps that took place in Milwaukee and Madison. We also all know about the Spitzer-Rubinstein tampering in Green Bay and some sort of his collusion with the cities of Racine and Kenosha. I have also read several articles that Wisconsin has a reported 200,000 plus illegal / invalid ballots. Certainly enough to overturn Biden's alleged 11,000 vote win. So what is really going on? Is the Wisconsin Legislature holding an audit or demanding a forensic audit like AZ, MI, and most likely PA and GA? You guys as members of the Legislature have the authority to do that. I have been closely monitoring the AZ audit as the house of democrats continues to tumble. Antrim County MI. is now demanding a forensic audit. Officials in PA. are pushing for a similar audit. Then on top of all of this I heard rumors that Wisconsin's 2016 election may well be called for to be looked into. Particularly the late night ballot dump in Milwaukee County. This is all too crazy to just not do something about it.
