

Legislative Action Alert!

At 10 a.m. this morning, the Legislature will meet to consider a proposal to distribute a **\$525 PFD** to Alaskans - the lowest amount in our state's history. Despite bipartisan support for a \$2,350 PFD and permanent constitutional protections, a small group of powerful legislators has once again pulled a number for the PFD out of thin air. Worse, they've tied funding for critical infrastructure projects, school funding, and the Troopers to their PFD scheme in an attempt to coerce their colleagues.

Urge your legislators to vote NO on this coercive budget.

Our legislators must stand up to the bullies who believe government deserves your PFD. The bipartisan plan to provide a \$2,350 PFD and [constitutionalize a 50-50 split](#) forever is fair and equitable. It requires no hit to the Permanent Fund's core savings account, and will balance our budget within five years without broad-based taxes.

Use our easy-to-use tool to email your legislators!

Both floor sessions can be viewed at [akleg.gov](#). Actions speak louder than words, and I urge all Alaskans to watch their elected leaders closely this morning.

Sincerely,
Governor Mike Dunleavy
