The majority keeps asking "what is it you want?" Well, here is my list.

1. A full statutory dividend. The back pay of what was taken out past dividends, all paid out of the ERA where it remains a passthrough dividend and does not become an appropriation, SJR6.
2. ANY proposed changes to the dividend program MUST be approved by the voters.
3. ANY taxes that are proposed MUST be approved by the voters, SJR5.
4. A 15% cut across the board from ALL departments. If they need more funds they must justify the need. Make each department justify their budget.
5. No state funds for abortions.
6. Fix the constitutional spending cap, base it on revenue not expenditures, SJR7.
7. Move the legislative sessions to somewhere on the road system, maybe have roving sessions where each session would be held in different areas of the state.
