Jan. 3, 1996

Dear Steve,

If you have issues worth raising, the folks at Isthmus will, when possible, help you to raise them, as we have in the past. But it may be useful for you to think of Isthmus as a dog: Sometimes it's friendly and cuddly; maybe it will even let you pat it on the head. Just remember, though: The dog bites.

Hope you have a happy new year.

Best,

Bill Lueders
