Senator Engel,

Background:

This morning I responded to Sandy Bahr's Legislative Alert #6 by going on RTS to support or oppose 17 bills.

I was part of the LD9 group meeting with Victoria Steele at the virtual Environmental Day at the Legislature. One of the interesting (to me) items that came up was Victoria's comment that she was interested in some way to reach out to environmentalists to get some help supporting bills she sponsored.

My Comment:

Your message essentially was what Victoria asked for. You described a number of bills that you thought needed to be passed. However they are not yet assigned to a committee. I'm an RTS guy. I jump on Sandy's legislative alerts over the weekend and oppose or support the bills. I also send messages to the LD9 legislators if she asks.

Getting your message distributed once the bills are assigned to committee plus a simple support or oppose the bill is easier for me to take action.

Thanks for all you are doing in the Legislature. Stay safe up there.

Dear Friend,

Thus far this legislative session has been a big disappointment. Rather than address the pandemic, the Legislature has been filling its time passing non-pandemic bills stuck in the queue last year and teeing up bills that undercut our voting rights or pile on more tax cuts.

It does not have to be this way. In this newsletter I would like to talk about some of my proposals for addressing the eviction and housing crisis we are facing and to contrast these proactive, pandemic-related measures with some of the disturbing bills that I believe will suppress the vote and undermine our elections. I'll conclude with some ways you can make your voice heard - in support or opposition to the bills currently being considered.

Spotlight on My bills to Prevent Evictions and Promote Housing Stability in Arizona

I've now introduced nine eviction-prevention/affordable housing bills. These bills address the short-term eviction crisis, systemic problems in our landlord-tenant act, and the long-term challenge of creating more affordable housing.

Bills Addressing the Eviction Crisis

Thousands of Arizona families are at risk of eviction when the moratorium, extended by the Biden Administration to March 31, 2021, expires. The moratorium is helping to keep a roof over people's heads (though there are large loopholes that result in evictions continuing), but it doesn't pay rent in arrears or give families a cushion going forward as they work to get themselves back into the

job market. Families eligible for rental assistance are often unable to satisfy the paperwork requirements to actually receive a payment before they are evicted. Many tenants now have eviction judgments on their records, a blight on their credit that will dog their ability to find housing for the next seven years. As detailed in [today's New York Times](#), some families are going to extraordinary lengths to avoid an eviction - running up debt on credit cards and moving in with other family members into crowded living arrangements.

Legislation is only part of the answer to this crisis. Arizona will be receiving over \$490 million in rental relief from the latest federal stimulus package, and that will be a huge help. This money will be distributed by the AZ Department of Economic Security and the legislature is not directly involved in its distribution. It is important to note that not all families struggling qualify for this aid and for some tenants with an eviction already on their records, the assistance comes too late. Working with Pima County's Eviction Prevention Taskforce, here's some solutions I'm proposing in legislation:

SB 1666 affordable housing; appropriation: appropriates \$25 million to the AZ Housing Trust Fund and conditions a landlord's receipt of any of this funding upon its agreement not to file, finalize or enforce an eviction action.

Assigned to: Senate Appropriations Committee
Status: Has yet to be placed on a Committee agenda

SB 1661 housing assistance program; appropriation: Establishes a new grant program, the "Housing Assistance Program" in the AZ Department of Housing and appropriates \$10 million toward the program during 2021-22. Under the legislation, a nonprofit legal services organization, community action agency, or HUD-approved housing counseling agency may apply for funds to hire housing navigators to provide community outreach, education and resources related to general housing matters, effective tenancy, leases and rental agreements, eviction and foreclosure processes and referrals to housing programs.

Assigned to: Senate Appropriations and Senate Commerce Committees
Status: Has yet to be placed on a Committee agenda

SB 1663 state; emergency; eviction reporting; prohibited: Requires the sealing of any filing, pleading or judgment in an eviction action based on nonpayment of rent that was rendered during the Covid-19 pandemic and between the dates of March 11, 2020 and June 30th, 2022. Requires housing applications to inform prospective tenants that they may answer "No record" in response to an inquiry, on a housing application, regarding a record sealed pursuant to the legislation.

Assigned to: Senate Judiciary Committee

Status: Has yet to be placed on a Committee agenda

Bills addressing systemic problems in Arizona's Landlord-Tenant Laws

The eviction crisis has laid bare systemic problems with our landlord-tenant laws. I have introduced the following bills to deal with some of these issues, raised by stakeholders:

SB 1038 landlord tenant: rent: fifteen days. Currently, Arizona law requires landlords to notify tenants of their intent to evict the tenant for nonpayment of rent just 5 days before they actually file to do so, one of the shortest periods for such notices in the nation. Tenants are left scrambling, often over a weekend, to pull together money or contact their landlord to work out a payment plan. This short time period has been a particular problem during the pandemic, as five days is usually too short a timeframe for tenants to apply for and receive, rental assistance from a city, county or nonprofit program. This bill does one thing and one thing only: it extends that 5 day period to 15 days. This is an easy fix and one very much needed for tenants and landlords alike.

Assigned to: Senate Commerce Committee

Status: Has yet to be placed on a Committee agenda

SB1130: constables; pending eviction notification; mileage: Provides that constables may be reimbursed for their mileage with respect to any additional trips they make to visit tenants in the eviction process to inform the tenants about housing resources. A pilot project by Pima County constables found the number of evictions tumbled after constables did this basic outreach to inform tenants in advance of a pending eviction action and to provide them information about housing options. This successful pilot program was even featured in High Country News! This bill is designed to ensure that constables are not discouraged from making these visits by having to pay for the mileage out of their own pockets.

Assigned to: Senate Judiciary Committee

Status: Has yet to be placed on a Committee agenda

SB 1039 eviction prevention; study committee: Establishes a study committee on statewide eviction prevention and housing affordability and specifies a broad array of stakeholders to serve on the study committee. The Committee is charged with determining how the state can reduce eviction filings and mitigate the financial and personal costs of evictions to tenants and landlords, explore processes to ensure tenants understand their rights under the law, gather information on housing affordability and propose legislation to address problems identified by the

committee.

Assigned to: Senate Commerce Committee

Status: Has yet to be placed on a Committee agenda

For those who wish to take a deeper dive in some of additional bills that I have introduced, please see:

[SB 1665 landlord tenant; housing assistance; waiver](#)

[SB 1664 landlord tenant; evictions; forms](#)

What the Arizona Legislature is doing instead of eviction-prevention and pandemic relief:

But the Arizona legislature is NOT addressing our eviction and housing crises, but instead is spending a large amount of its time and effort keeping alive conspiracy theories regarding the 2020 election, debating bills to remove Arizonans from the voting rolls, and burdening our election officials with more bureaucratic requirements that seem to lack all justification.

Graphic courtesy of the New York Times, Opinion, The Voter Suppression State, Jan 31, 2019.

As has been widely reported in the national and local press, there are multiple bills pending in the Arizona legislature that would upend our election and voting laws. The most extreme bill is Rep Bolick's HB 2720, would enable the the Arizona Legislature to overturn the results of a presidential election, even after the count is formally certified by the governor and secretary of state — and even after

Congress counts the state's electors. See [this article](#) for more on this bill that completely circumvents the voters!

Most curious are bills that seek to restrict the use of mail-in ballots. Arizona practically invented mail-in ballots and over 80 percent of Arizonans use them, finding they give them time to research candidates and initiatives and, in the time of Covid-19, are safer than venturing in person to vote at a polling location. I oppose each of these bills that appear to be an effort by those unhappy with the outcome of the November 2020 election to suppress the vote.

Below are some of the bills I am most concerned about. As you can see, many of the Senate bills have passed out of committee and are ready for Floor debate and final vote.

[SB 2720: ballots; election contests; certificates](#): As mentioned above, this bill sponsored by Rep Bolick would enable the the Arizona Legislature to overturn the results of a presidential election.

[SB 1069 permanent early voting list; eligibility](#): Removes a voter from the permanent early voting list (PEVL) if the voter fails to vote by early ballot in both the primary election and the general election for two consecutive primary and general elections for which there was a federal, statewide or legislative race on the ballot.

Status: Passed the Government Committee on a party-line vote; waiting debate on the Senate Floor.

[SB 1083 elections; recount margin](#): Increases, from one-tenth of one percent or a set number of votes to one-half of one percent, the trigger for an automatic recount in a primary or general election.

Status: Passed the Government Committee on a party-line vote; waiting debate on the Senate Floor.

[SB1020 voting locations; electioneering](#); Removes the ability of a county recorder or other officer in charge of elections to designate emergency non-electioneering polling places.

Status: Passed the Government Committee on a party-line vote.

SB 1358: recorders; voter registrations; public buildings: Prohibits a county recorder from conducting a voter registration drive or other similar voter registration event at any location that is not government owned.

Status: Passed the Government Committee on a party-line vote.

SB 1240 hand counts; precincts; procedures manual: Requires ballots in counties using voting centers to be separated and grouped by precinct for the purpose of a hand count audit.

Status: Passed the Government Committee on a party-line vote.

Where to find the 47 bills I've filed this Legislative Session

You can easily find my eviction-prevention and housing affordability bills described above, as well as my bills on education, water, criminal justice and other topics by going to: www.azleg.gov, click "Bills", click "Bills Tracking," hit "Search" on left side menu, click "Sponsors" and search under my name. You will see the list of bills that I have "prime" sponsored or co-sponsored. Enjoy!

It will be a Tough Week Ahead

Tomorrow, the Senate will spend more countless hours trying to give life to baseless conspiracy claims about the Nov. election by likely passing the GOP-sponsored resolution to hold the GOP-controlled Maricopa Board of Supervisors in contempt (which makes them subject to imprisonment!). The reason? Senate Republicans are upset the Board failed to comply to with a crazy- broad subpoena

from the Chair of the Senate Judiciary Committee to obtain copies of 2.1 million voted secret ballots and the inspection of certified elections equipment by a sketchy auditing company and is instead is pursuing its own audit. Because I am on the Judiciary Committee, I am actually named as a defendant in the County's lawsuit to quash that subpoena!

The complaint of the Maricopa Board of Supervisors seeking to quash the subpoena issued by the Chair of the Senate Judiciary Committee.

Sign up for the Legislature's "Request to Speak" system to make your voice heard on bills you like or oppose!

You can register your support or opposition to particular bills once the bill has made it onto a Committee agenda through the legislature's "Request to Speak" (RTS) system.

You may have heard that you need to go in person to activate your RTS account. Luckily, there is an organization that can activate your account on your behalf!

Contact Civic Engagement Beyond Voting to request an account. They will create an account for you at the Capitol and notify you when it's ready.

This legislative manual walks you through how to use the Request to Speak system.

Look out for future emails from me about specific bills to oppose or support and thank you in advance for speaking out on these important issues!

Dear Friend,

Thus far this legislative session has been a big disappointment. Rather than address the pandemic, the Legislature has been filling its time passing non-pandemic bills stuck in the queue last year and teeing up bills that undercut our voting rights or pile on more tax cuts.

It does not have to be this way. In this newsletter I would like to talk about some of my proposals for addressing the eviction and housing crisis we are facing and to contrast these proactive, pandemic-related measures with some of the disturbing bills that I believe will suppress the vote and undermine our elections. I'll conclude with some ways you can make your voice heard - in support or opposition to the bills currently being considered.

Spotlight on My bills to Prevent Evictions and Promote Housing Stability in Arizona

I've now introduced nine eviction-prevention/affordable housing bills. These bills address the short-term eviction crisis, systemic problems in our landlord-tenant act, and the long-term challenge of creating more affordable housing.

Bills Addressing the Eviction Crisis

Thousands of Arizona families are at risk of eviction when the moratorium, extended by the Biden Administration to March 31, 2021, expires. The moratorium is helping to keep a roof over people's heads (though there are large loopholes that result in evictions continuing), but it doesn't pay rent in arrears or give families a cushion going forward as they work to get themselves back into the

job market. Families eligible for rental assistance are often unable to satisfy the paperwork requirements to actually receive a payment before they are evicted. Many tenants now have eviction judgments on their records, a blight on their credit that will dog their ability to find housing for the next seven years. As detailed in today's New York Times, some families are going to extraordinary lengths to avoid an eviction - running up debt on credit cards and moving in with other family members into crowded living arrangements.

Legislation is only part of the answer to this crisis. Arizona will be receiving over \$490 million in rental relief from the latest federal stimulus package, and that will be a huge help. This money will be distributed by the AZ Department of Economic Security and the legislature is not directly involved in its distribution. It is important to note that not all families struggling qualify for this aid and for some tenants with an eviction already on their records, the assistance comes too late. Working with Pima County's Eviction Prevention Taskforce, here's some solutions I'm proposing in legislation:

SB 1666 affordable housing; appropriation: appropriates \$25 million to the AZ Housing Trust Fund and conditions a landlord's receipt of any of this funding upon its agreement not to file, finalize or enforce an eviction action.

Assigned to: Senate Appropriations Committee
Status: Has yet to be placed on a Committee agenda

SB 1661 housing assistance program; appropriation: Establishes a new grant program, the "Housing Assistance Program" in the AZ Department of Housing and appropriates \$10 million toward the program during 2021-22. Under the legislation, a nonprofit legal services organization, community action agency, or HUD-approved housing counseling agency may apply for funds to hire housing navigators to provide community outreach, education and resources related to general housing matters, effective tenancy, leases and rental agreements, eviction and foreclosure processes and referrals to housing programs.

Assigned to: Senate Appropriations and Senate Commerce Committees
Status: Has yet to be placed on a Committee agenda

SB 1663 state; emergency; eviction reporting; prohibited: Requires the sealing of any filing, pleading or judgment in an eviction action based on nonpayment of rent that was rendered during the Covid-19 pandemic and between the dates of March 11, 2020 and June 30th, 2022. Requires housing applications to inform prospective tenants that they may answer "No record" in response to an inquiry, on a housing application, regarding a record sealed pursuant to the legislation.

Assigned to: Senate Judiciary Committee

Status: Has yet to be placed on a Committee agenda

Bills addressing systemic problems in Arizona's Landlord-Tenant Laws

The eviction crisis has laid bare systemic problems with our landlord-tenant laws. I have introduced the following bills to deal with some of these issues, raised by stakeholders:

SB 1038 landlord tenant: rent: fifteen days. Currently, Arizona law requires landlords to notify tenants of their intent to evict the tenant for nonpayment of rent just 5 days before they actually file to do so, one of the shortest periods for such notices in the nation. Tenants are left scrambling, often over a weekend, to pull together money or contact their landlord to work out a payment plan. This short time period has been a particular problem during the pandemic, as five days is usually too short a timeframe for tenants to apply for and receive, rental assistance from a city, county or nonprofit program. This bill does one thing and one thing only: it extends that 5 day period to 15 days. This is an easy fix and one very much needed for tenants and landlords alike.

Assigned to: Senate Commerce Committee

Status: Has yet to be placed on a Committee agenda

SB1130: constables; pending eviction notification; mileage: Provides that constables may be reimbursed for their mileage with respect to any additional trips they make to visit tenants in the eviction process to inform the tenants about housing resources. A pilot project by Pima County constables found the number of evictions tumbled after constables did this basic outreach to inform tenants in advance of a pending eviction action and to provide them information about housing options. This successful pilot program was even featured in High Country News! This bill is designed to ensure that constables are not discouraged from making these visits by having to pay for the mileage out of their own pockets.

Assigned to: Senate Judiciary Committee

Status: Has yet to be placed on a Committee agenda

SB 1039 eviction prevention; study committee: Establishes a study committee on statewide eviction prevention and housing affordability and specifies a broad array of stakeholders to serve on the study committee. The Committee is charged with determining how the state can reduce eviction filings and mitigate the financial and personal costs of evictions to tenants and landlords, explore processes to ensure tenants understand their rights under the law, gather information on housing affordability and propose legislation to address problems identified by the

committee.

Assigned to: Senate Commerce Committee

Status: Has yet to be placed on a Committee agenda

For those who wish to take a deeper dive in some of additional bills that I have introduced, please see:

[SB 1665 landlord tenant; housing assistance; waiver](#)

[SB 1664 landlord tenant; evictions; forms](#)

What the Arizona Legislature is doing instead of eviction-prevention and pandemic relief:

But the Arizona legislature is NOT addressing our eviction and housing crises, but instead is spending a large amount of its time and effort keeping alive conspiracy theories regarding the 2020 election, debating bills to remove Arizonans from the voting rolls, and burdening our election officials with more bureaucratic requirements that seem to lack all justification.

Graphic courtesy of the New York Times, Opinion, The Voter Suppression State, Jan 31, 2019.

As has been widely reported in the national and local press, there are multiple bills pending in the Arizona legislature that would upend our election and voting laws. The most extreme bill is Rep Bolick's HB 2720, would enable the the Arizona Legislature to overturn the results of a presidential election, even after the count is formally certified by the governor and secretary of state — and even after

Congress counts the state's electors. See [this article](#) for more on this bill that completely circumvents the voters!

Most curious are bills that seek to restrict the use of mail-in ballots. Arizona practically invented mail-in ballots and over 80 percent of Arizonans use them, finding they give them time to research candidates and initiatives and, in the time of Covid-19, are safer than venturing in person to vote at a polling location. I oppose each of these bills that appear to be an effort by those unhappy with the outcome of the November 2020 election to suppress the vote.

Below are some of the bills I am most concerned about. As you can see, many of the Senate bills have passed out of committee and are ready for Floor debate and final vote.

[SB 2720: ballots; election contests; certificates:](#) As mentioned above, this bill sponsored by Rep Bolick would enable the the Arizona Legislature to overturn the results of a presidential election.

[SB 1069 permanent early voting list; eligibility:](#) Removes a voter from the permanent early voting list (PEVL) if the voter fails to vote by early ballot in both the primary election and the general election for two consecutive primary and general elections for which there was a federal, statewide or legislative race on the ballot.

Status: Passed the Government Committee on a party-line vote; waiting debate on the Senate Floor.

[SB 1083 elections; recount margin:](#) Increases, from one-tenth of one percent or a set number of votes to one-half of one percent, the trigger for an automatic recount in a primary or general election.

Status: Passed the Government Committee on a party-line vote; waiting debate on the Senate Floor.

[SB1020 voting locations; electioneering;](#) Removes the ability of a county recorder or other officer in charge of elections to designate emergency non-electioneering polling places.

Status: Passed the Government Committee on a party-line vote.

SB 1358: recorders; voter registrations; public buildings: Prohibits a county recorder from conducting a voter registration drive or other similar voter registration event at any location that is not government owned.

Status: Passed the Government Committee on a party-line vote.

SB 1240 hand counts; precincts; procedures manual: Requires ballots in counties using voting centers to be separated and grouped by precinct for the purpose of a hand count audit.

Status: Passed the Government Committee on a party-line vote.

Where to find the 47 bills I've filed this Legislative Session

You can easily find my eviction-prevention and housing affordability bills described above, as well as my bills on education, water, criminal justice and other topics by going to: www.azleg.gov, click "Bills", click "Bills Tracking," hit "Search" on left side menu, click "Sponsors" and search under my name. You will see the list of bills that I have "prime" sponsored or co-sponsored. Enjoy!

It will be a Tough Week Ahead

Tomorrow, the Senate will spend more countless hours trying to give life to baseless conspiracy claims about the Nov. election by likely passing the GOP-sponsored resolution to hold the GOP-controlled Maricopa Board of Supervisors in contempt (which makes them subject to imprisonment!). The reason? Senate Republicans are upset the Board failed to comply to with a crazy- broad subpoena

from the Chair of the Senate Judiciary Committee to obtain copies of 2.1 million voted secret ballots and the inspection of certified elections equipment by a sketchy auditing company and is instead is pursuing its own audit. Because I am on the Judiciary Committee, I am actually named as a defendant in the County's lawsuit to quash that subpoena!

The complaint of the Maricopa Board of Supervisors seeking to quash the subpoena issued by the Chair of the Senate Judiciary Committee.

Sign up for the Legislature's "Request to Speak" system to make your voice heard on bills you like or oppose!

You can register your support or opposition to particular bills once the bill has made it onto a Committee agenda through the legislature's "Request to Speak" (RTS) system.

You may have heard that you need to go in person to activate your RTS account. Luckily, there is an organization that can activate your account on your behalf!

Contact Civic Engagement Beyond Voting to request an account. They will create an account for you at the Capitol and notify you when it's ready.

This legislative manual walks you through how to use the Request to Speak system.

Look out for future emails from me about specific bills to oppose or support and thank you in advance for speaking out on these important issues!

Dear Friend,

Thus far this legislative session has been a big disappointment. Rather than address the pandemic, the Legislature has been filling its time passing non-pandemic bills stuck in the queue last year and teeing up bills that undercut our voting rights or pile on more tax cuts.

It does not have to be this way. In this newsletter I would like to talk about some of my proposals for addressing the eviction and housing crisis we are facing and to contrast these proactive, pandemic-related measures with some of the disturbing bills that I believe will suppress the vote and undermine our elections. I'll conclude with some ways you can make your voice heard - in support or opposition to the bills currently being considered.

Spotlight on My bills to Prevent Evictions and Promote Housing Stability in Arizona

I've now introduced nine eviction-prevention/affordable housing bills. These bills address the short-term eviction crisis, systemic problems in our landlord-tenant act, and the long-term challenge of creating more affordable housing.

Bills Addressing the Eviction Crisis

Thousands of Arizona families are at risk of eviction when the moratorium, extended by the Biden Administration to March 31, 2021, expires. The moratorium is helping to keep a roof over people's heads (though there are large loopholes that result in evictions continuing), but it doesn't pay rent in arrears or give families a cushion going forward as they work to get themselves back into the

job market. Families eligible for rental assistance are often unable to satisfy the paperwork requirements to actually receive a payment before they are evicted. Many tenants now have eviction judgments on their records, a blight on their credit that will dog their ability to find housing for the next seven years. As detailed in [today's New York Times](#), some families are going to extraordinary lengths to avoid an eviction - running up debt on credit cards and moving in with other family members into crowded living arrangements.

Legislation is only part of the answer to this crisis. Arizona will be receiving over \$490 million in rental relief from the latest federal stimulus package, and that will be a huge help. This money will be distributed by the AZ Department of Economic Security and the legislature is not directly involved in its distribution. It is important to note that not all families struggling qualify for this aid and for some tenants with an eviction already on their records, the assistance comes too late. Working with Pima County's Eviction Prevention Taskforce, here's some solutions I'm proposing in legislation:

SB 1666 affordable housing; appropriation: appropriates \$25 million to the AZ Housing Trust Fund and conditions a landlord's receipt of any of this funding upon its agreement not to file, finalize or enforce an eviction action.

Assigned to: Senate Appropriations Committee
Status: Has yet to be placed on a Committee agenda

SB 1661 housing assistance program; appropriation: Establishes a new grant program, the "Housing Assistance Program" in the AZ Department of Housing and appropriates \$10 million toward the program during 2021-22. Under the legislation, a nonprofit legal services organization, community action agency, or HUD-approved housing counseling agency may apply for funds to hire housing navigators to provide community outreach, education and resources related to general housing matters, effective tenancy, leases and rental agreements, eviction and foreclosure processes and referrals to housing programs.

Assigned to: Senate Appropriations and Senate Commerce Committees
Status: Has yet to be placed on a Committee agenda

SB 1663 state; emergency; eviction reporting; prohibited: Requires the sealing of any filing, pleading or judgment in an eviction action based on nonpayment of rent that was rendered during the Covid-19 pandemic and between the dates of March 11, 2020 and June 30th, 2022. Requires housing applications to inform prospective tenants that they may answer "No record" in response to an inquiry, on a housing application, regarding a record sealed pursuant to the legislation.

Assigned to: Senate Judiciary Committee

Status: Has yet to be placed on a Committee agenda

Bills addressing systemic problems in Arizona's Landlord-Tenant Laws

The eviction crisis has laid bare systemic problems with our landlord-tenant laws. I have introduced the following bills to deal with some of these issues, raised by stakeholders:

SB 1038 landlord tenant: rent: fifteen days. Currently, Arizona law requires landlords to notify tenants of their intent to evict the tenant for nonpayment of rent just 5 days before they actually file to do so, one of the shortest periods for such notices in the nation. Tenants are left scrambling, often over a weekend, to pull together money or contact their landlord to work out a payment plan. This short time period has been a particular problem during the pandemic, as five days is usually too short a timeframe for tenants to apply for and receive, rental assistance from a city, county or nonprofit program. This bill does one thing and one thing only: it extends that 5 day period to 15 days. This is an easy fix and one very much needed for tenants and landlords alike.

Assigned to: Senate Commerce Committee

Status: Has yet to be placed on a Committee agenda

SB1130: constables; pending eviction notification; mileage: Provides that constables may be reimbursed for their mileage with respect to any additional trips they make to visit tenants in the eviction process to inform the tenants about housing resources. A pilot project by Pima County constables found the number of evictions tumbled after constables did this basic outreach to inform tenants in advance of a pending eviction action and to provide them information about housing options. This successful pilot program was even featured in High Country News! This bill is designed to ensure that constables are not discouraged from making these visits by having to pay for the mileage out of their own pockets.

Assigned to: Senate Judiciary Committee

Status: Has yet to be placed on a Committee agenda

SB 1039 eviction prevention; study committee: Establishes a study committee on statewide eviction prevention and housing affordability and specifies a broad array of stakeholders to serve on the study committee. The Committee is charged with determining how the state can reduce eviction filings and mitigate the financial and personal costs of evictions to tenants and landlords, explore processes to ensure tenants understand their rights under the law, gather information on housing affordability and propose legislation to address problems identified by the

committee.

Assigned to: Senate Commerce Committee

Status: Has yet to be placed on a Committee agenda

For those who wish to take a deeper dive in some of additional bills that I have introduced, please see:

[SB 1472 landlord tenant; security deposits; waiver](#)

[SB 1665 landlord tenant; housing assistance; waiver](#)

[SB 1664 landlord tenant; evictions; forms](#)

What the Arizona Legislature is doing instead of eviction-prevention and pandemic relief:

But the Arizona legislature is NOT addressing our eviction and housing crises, but instead is spending a large amount of its time and effort keeping alive conspiracy theories regarding the 2020 election, debating bills to remove Arizonans from the voting rolls, and burdening our election officials with more bureaucratic requirements that seem to lack all justification.

Graphic courtesy of the New York Times, Opinion, The Voter Suppression State, Jan 31, 2019.

As has been widely reported in the [national](#) and [local press](#), there are multiple bills pending in the Arizona legislature that would upend our election and voting laws. The most extreme bill is Rep Bolick's HB 2720, would enable the the Arizona Legislature to overturn the results of a presidential election, even after the count is formally certified by the governor and secretary of state — and even after

Congress counts the state's electors. See [this article](#) for more on this bill that completely circumvents the voters!

Most curious are bills that seek to restrict the use of mail-in ballots. Arizona practically invented mail-in ballots and over 80 percent of Arizonans use them, finding they give them time to research candidates and initiatives and, in the time of Covid-19, are safer than venturing in person to vote at a polling location. I oppose each of these bills that appear to be an effort by those unhappy with the outcome of the November 2020 election to suppress the vote.

Below are some of the bills I am most concerned about. As you can see, many of the Senate bills have passed out of committee and are ready for Floor debate and final vote.

[SB 2720: ballots; election contests; certificates](#): As mentioned above, this bill sponsored by Rep Bolick would enable the the Arizona Legislature to overturn the results of a presidential election.

[SB 1069 permanent early voting list; eligibility](#): Removes a voter from the permanent early voting list (PEVL) if the voter fails to vote by early ballot in both the primary election and the general election for two consecutive primary and general elections for which there was a federal, statewide or legislative race on the ballot.

Status: Passed the Government Committee on a party-line vote; waiting debate on the Senate Floor.

[SB 1083 elections; recount margin](#): Increases, from one-tenth of one percent or a set number of votes to one-half of one percent, the trigger for an automatic recount in a primary or general election.

Status: Passed the Government Committee on a party-line vote; waiting debate on the Senate Floor.

[SB1020 voting locations; electioneering](#); Removes the ability of a county recorder or other officer in charge of elections to designate emergency non-electioneering polling places.

Status: Passed the Government Committee on a party-line vote.

SB 1358: recorders; voter registrations; public buildings: Prohibits a county recorder from conducting a voter registration drive or other similar voter registration event at any location that is not government owned.

Status: Passed the Government Committee on a party-line vote.

SB 1240 hand counts; precincts; procedures manual: Requires ballots in counties using voting centers to be separated and grouped by precinct for the purpose of a hand count audit.

Status: Passed the Government Committee on a party-line vote.

Where to find the 47 bills I've filed this Legislative Session

You can easily find my eviction-prevention and housing affordability bills described above, as well as my bills on education, water, criminal justice and other topics by going to: www.azleg.gov, click "Bills", click "Bills Tracking," hit "Search" on left side menu, click "Sponsors" and search under my name. You will see the list of bills that I have "prime" sponsored or co-sponsored. Enjoy!

It will be a Tough Week Ahead

Tomorrow, the Senate will spend more countless hours trying to give life to baseless conspiracy claims about the Nov. election by likely passing the GOP-sponsored resolution to hold the GOP-controlled Maricopa Board of Supervisors in contempt (which makes them subject to imprisonment!). The reason? Senate Republicans are upset the Board failed to comply to with a crazy- broad subpoena

from the Chair of the Senate Judiciary Committee to obtain copies of 2.1 million voted secret ballots and the inspection of certified elections equipment by a sketchy auditing company and is instead is pursuing its own audit. Because I am on the Judiciary Committee, I am actually named as a defendant in the County's lawsuit to quash that subpoena!

The complaint of the Maricopa Board of Supervisors seeking to quash the subpoena issued by the Chair of the Senate Judiciary Committee.

Sign up for the Legislature's "Request to Speak" system to make your voice heard on bills you like or oppose!

You can register your support or opposition to particular bills once the bill has made it onto a Committee agenda through the legislature's "Request to Speak" (RTS) system.

You may have heard that you need to go in person to activate your RTS account. Luckily, there is an organization that can activate your account on your behalf!

Contact Civic Engagement Beyond Voting to request an account. They will create an account for you at the Capitol and notify you when it's ready.

This legislative manual walks you through how to use the Request to Speak system.

Look out for future emails from me about specific bills to oppose or support and thank you in advance for speaking out on these important issues!

On Fri, Jun 4, 2021 at 2:33 PM State Senator Kirsten Engel <kengel@azleg.gov> wrote:

Dear Friend,

The Arizona Budget saga continues with no clear resolution in sight. Last week, after it became clear that the extreme flat tax budget deal worked out between the Governor and GOP legislative leadership did not have sufficient votes to pass, both the House and the Senate recessed with the expectation of returning on or before June 10th.

In response, the Governor promptly vetoed 22 bills that the legislature had sent to his desk. In an [editorial published today in the Arizona Daily Star](#), I tell it like it is: Gov. Ducey's veto spree was a blatant budget power play that harms Arizonans by tossing several good policy proposals and undermining the legislative process.

This budgetary train wreck could have been avoided with the exercise of some basic statesmanship. Statesmanship here would have meant GOP leaders reaching across the aisle to craft a budget that a true majority of lawmakers could support. This would be a budget that eschews extreme tax cuts that slash funding for cities and towns, potentially jeopardizing basic city services, in favor of the smart investment of our temporary budget surpluses in COVID recovery for families and small businesses and services and programs that benefit all Arizonans.

Unfortunately, statesmanship seems to be in short supply in the Arizona legislature right now.

You can access my AZ Daily Star quest column -- published just today -- here!

It's not over til it's over. I'll keep working for a decent budget that reflects your priorities. In the meantime, however, you can get the latest scoop by tuning into our LD10 Town Hall tomorrow morning, Saturday June 5th, 10 - 11 a.m.! See details below!

Our Town Halls are broadcast live over our respective Facebook pages, but you do not need to be a member of Facebook to watch or engage in the Town Hall. You can simply view the Town Hall via our Facebook pages and submit questions to us using this form. You can also view recordings of our last Town Halls [here](#).

55th Legislature; 1st Regular Session

THE HOUSE AND SENATE ADJOURNED SINE DIE on June 30, Wednesday, at 4:54 p.m.

55th Legislature; 1st Special Session

THE HOUSE AND SENATE ADJOURNED SINE DIE on June 17, Thursday, at 1 p.m.

NEWS NOTES

DEMOCRATS SEEKING REFERENDUM NEED 118,823 SIGNATURES IN THREE MONTHS

Dem organizers filed referendums to send two controversial new election laws to the ballot and are working on another referendum on a budget bill. Eric Kramer, chair of the Navajo County Democratic Party and the filer of each referendum, told our reporter hundreds of volunteers have been out collecting signatures for a couple weeks to send Ugenti-Rita's S1485 (early voting list; eligibility) to the ballot. This morning, Arizona Deserves Better, which is behind the first referendum effort, filed a new one on H2569 (elections; private funding; prohibition), which prohibits election officials from using private grants. Kramer said the organizers are working on a third referendum, this time on S1819 (budget procedures; budget reconciliation; 2021-2022), which contains a host of last-minute election measures from Fann, Borrelli and Townsend. That bill creates provisions for ballots printed on security paper, establishes a task force to investigate social media sites that ban or suspend political accounts, lets the Legislature appoint someone to review voter rolls, and gives the attorney general supreme power over election litigation through the end of Brnovich's and Hobbs' terms. Kramer said he's working closely with Alison Porter, the Save Our Schools organizer who was instrumental in referring the 2017 school voucher expansion to the ballot. Voters soundly rejected the ESA expansion law. The organizers are only using volunteers to collect signatures now, but plan to use a mix of paid and volunteer circulators throughout the summer. The group has until Sept. 29, 90 days after *sine die*, to collect 118,823 signatures.

MORE COUNTIES = MORE SUPERVISORS, MORE SPENDING, BIGGER GOVERNMENT

Rogers plans to slice and dice Maricopa County following a session in which she was duped by an activist who ran a complex Borat-style stunt to introduce a bill to create a 16th county. The idea started with Kelli Ward, who posed a question to her Twitter followers asking if Maricopa County should be split into multiple counties because its population is so much larger than other counties. “1,000 times yes. I will propose this bill unless someone else beats me to it. Will probably have to order a study first to see how we would do it,” Rogers responded ([LINK](#)). This year, Rogers introduced S1653 (study committee; county boundaries; appropriation) and became the latest northern Arizona politician to propose cutting out the mostly white southern portions of Navajo and Apache counties to form a new county - this time to be called “Sitgreaves.” After S1653 made it to COW, where Democrats read from a lengthy and racially-charged document drafted by its main proponent, Jesse Valencia, Valencia sent a *mea culpa* explaining that he started the project as a publicity stunt for a film and then kept up his persona.

TILTING AT WINDMILLS IS HARDER THAN IT LOOKS

Fann is the latest elected official to face a recall attempt – though the Sedona doctor organizing it acknowledged that it’s a long shot she’ll actually face a new election, let alone be removed from office. William Levinger filed the recall petition last week and has until Oct. 21 to collect at least 36,444 signatures to force an election. “I think that it’s possible to gather the signatures, but the district that she represents has decided that it’s acceptable to have Paul Gosar be their representative to Congress in spite of the fact that he seems to be opposed to protecting the constitution,” Levinger told our reporter. His recall effort is based on Fann’s authorization of the Senate’s ongoing audit, which remains murky but will directly or indirectly cost taxpayers millions of dollars. The Senate is on the hook for \$150,000 in its contract with the Cyber Ninjas, \$20,000 for security and the cost of utilities for two months at Veterans’ Memorial Coliseum. Maricopa County also needs to buy or lease new election equipment to replace the equipment the county said was compromised by the audit. “If an audit like this were conducted by Democrats, the Republican party would be howling,” Levinger said. More than a dozen recall efforts, most led by Trump supporters angry at fellow Republicans, have already failed this year. All five Maricopa County supervisors, Ducey, Bowers, Hoffman, Hobbs and Finchem survived recall attempts, and Boyer successfully avoided two. Only one recall succeeded in Arizona’s history – the effort to recall S0170 author Russell Pearce, who lost in the election to Jerry Lewis.

BLACKMAN DISSECTS FAILURE TO PASS EARNED RELEASE CREDITS BILL

Blackman dedicated the latest episode of his “The Walt Blackman Show” podcast to dissecting the death of S1064 (earned release; credits; prisoners), accusing longtime victims’ rights advocate Steve Twist of using his substantial influence in the Capitol to kill the bill. “I will tell my listeners that I worked in good faith, across the aisle, across all spectrum of government and folks that needed to be involved in the stakeholder meetings, and worked in good faith, and what happened is the people that did not want this bill were not working in good faith,” Blackman said in Friday’s episode.

Blackman said the bill’s opponents claimed it would “defund the police” and lead to drug and sex traffickers getting time off their sentences, which he said wasn’t true, listing off the types of more serious offenders who would not have been eligible for early release and saying the savings could have gone into law enforcement and prison rehabilitative programs. He also touted the support for the bill from longtime anti-tax advocate Grover Norquist and groups, such as the American Legislative Exchange Council and Americans for Tax Reform. “It is so conservative that other states have used the language off of H2713 and applied it to their states,” Blackman said, referring to the original House bill number. Blackman said Twist has Ducey’s ear. “The legislative body is not ... calling the shots for reform in Arizona,” he said. “Special interests are doing that.”

HOFFMAN TO SEEK CIVICS CURRICULUM MANDATE NEXT YEAR

Although disappointed the legislation was stripped from the final K-12 BRB, Hoffman expects a proposal to impose a civics curriculum mandate that would have required students receive instructions on the evils of communism and totalitarianism to be introduced next year. He also praised the budget for barring schools from requiring Covid vaccines or face masks, and for banning certain types of instruction related to race, ethnicity or sex. “This bill bans teaching critical race theory in our schools,” Hoffman said, adding, “Now, critical race theory, just to be clear ... teaches that your kid is racist or sexist because of the color of their skin ...” Rodriguez cut him off with an objection, saying he wanted to correct Hoffman under House rule 18D, although he added he would withdraw his objection if Hoffman rephrased to make it clear he is expressing his opinion. Instead of rewording, Hoffman thanked Rodriguez for the opportunity to clarify. “One of the most vocal proponents of critical race theory, Ibram Kendi, has described critical race theory and the anti-racism movement as a whole that the only answer to prior racism is current racism and the only answer to current racism is future racism,” Hoffman said. The civics education measure was copied from a

recently passed Florida legislation.

WHAT ABOUT TRANSPARENCY?

Just before adjourning *sine die*, the Senate officially repealed its Covid emergency rules. When the Legislature returns next year – or for a special session that Townsend and no one else believes will happen – lawmakers will no longer be allowed to vote remotely. But the bulk of the Senate’s Covid restrictions – including the rules that have kept the public out of the building and that Fann used as an excuse to keep reporters out of caucus meetings – aren’t included in the rule change approved by the majority of the Senate. Instead, they’re laid out in a Covid-19 protocol document created by Fann’s office at the beginning of the session, under a Senate rule that gives Fann general control of the building. A Senate spokesman did not return our reporter’s call about whether the Covid protocol remains in effect, but it was still being zealously enforced yesterday. At one point, Marsh had to go downstairs to fill the water bottle of a teacher playing flute outside because security officers were under orders not to let the teacher in even to refill her water in 106-degree heat, our reporter was still blocked from caucus meetings and staff and pages were still required to wear masks on the floor.

LEGISLATURE REVERTS TO IN-PERSON VOTING

The House also voted to repeal Rule 38, its Covid protocols that allow lawmakers to vote remotely. The House had done more to relax Covid restrictions for lawmakers, staff and members of the public. Most staff members haven’t been wearing masks for more than a month, and members of the public have been allowed into the House gallery to observe the proceedings. The House got rid of its mask mandate for lawmakers and most of the glass partitions dividing lawmakers’ desks in late March after Ducey issued an executive order overriding local mask mandates.

SECRETARY OF STATE CANDIDATES: GREAT JOB, BRNO!

Bolick and Finchem, the two Republican House members who are seeking their party’s nod for Secretary of State, joined Ugenti-Rita in praising the US Supreme Court’s 6-3 decision Thursday in *Brnovich v DNC* to uphold Arizona’s ban on ballot harvesting and its requirement that voters must vote in the correct precinct for their ballots to count. “Today is a win for Arizona,” Bolick said. “There is more work to do, but I am committed to securing Arizona’s elections and restoring your confidence that your vote counts.” Finchem also praised the ruling and highlighted his vote for the 2016 law banning ballot harvesting that was the subject of the challenge.

BLACKMAN CALLS BOLICK DEAR LEADER

In another Secretary of State-race related news, Blackman on Wednesday urged people to join him in contributing to Bolick's campaign. "As a military combat veteran, I've seen firsthand what good leadership looks like," he said. "Shawna Bolick is that leader."

ENJOY THE LONG WEEKEND!

We will not be publishing on Monday in celebration of Independence Day. We will be back on Tuesday. In the meantime, whatever you do, have fun!

Reps. Gallego, Hayes, Adams, and Houlihan lead call to Invest in and Diversify the Educator Workforce

WASHINGTON, DC - Today, Rep. Ruben Gallego (D-AZ), along with Reps. Jahana Hayes (D-CT), Alma Adams (D-NC), Chrissy Houlihan (D-PA) and 18 other Members of Congress, sent a letter to Senate and House leadership calling on them to enact spending legislation that reflects President Biden's proposed \$9 billion to train, equip and diversify the American educator workforce.

The U.S. education system is facing a teacher shortage and teacher diversity crisis. The COVID-19 pandemic has exacerbated this crisis, with polls showing that teachers of color in particular are more likely to retire early or leave the profession because of the pandemic. Even before the pandemic, studies showed that completion of teacher prep programs fell by one-third between 2010 and 2018 and that while over half of all students in the U.S. are non-white, only 20 percent of our teacher workforce is made up of people of color.

The letter urges the Appropriations Committee to begin to address these crises by investing \$9 billion to address teacher shortages, improve teacher preparation, strengthen pipelines for teachers of color, invest in educator leadership, and help current teachers earn in-demand credentials. Many of the letter's proposals are also included in President Biden's American Families Plan.

"Our teachers and students have faced an incredibly difficult year due to pandemic. As teachers, especially teachers of color, have left or consider leaving the workforce, the education system needs a substantial investment in teacher preparation, diversity, and retention. The investments outlined in the American Families Plan, including my proposed Teacher Diversity and Retention Act, will relieve and strengthen our American education system, and help ensure every student has access to a high quality education." **said Rep. Ruben Gallego (AZ-07).** "I am proud to advocate for teachers and aspiring teachers to receive

the support they need and to increasingly become a workforce that reflects the diversity of the students they serve.”

“Our nation is in the middle of a teacher shortage – one that is especially prevalent for educators of color. This legislation supports the increase of a diverse workforce by equipping educators with the tools required to recover from the pandemic, improve classroom environments, mitigate teacher shortages by improving the educator pipeline and curb retention issues by developing better career advancement opportunities to leadership. It is important to prioritize education as we move forward. This is an important step forward toward diversity and retention in the education workforce,” **said Congresswoman Hayes (CT-05).**

“Research has shown conclusively that Black students who have just one black teacher are more likely to enroll in college,” **said Congresswoman Adams (NC-12).** “Hiring and retaining diverse educators in America’s workforce ensures that the coming generations of students will see themselves reflected in the people who will shape them. I’m happy to join this effort to facilitate a more diverse teaching workforce that will help our students see more opportunities and possibilities.”

“Our teachers and students have had an unprecedentedly difficult past 15 months,” **said Congresswoman Houlihan (PA-06).** “We have a responsibility, now more than ever, to invest in our country’s future, which means investing in teachers and our kids’ education. That’s why I’m proud to join Representatives Gallego, Hayes and Adams in this effort to invest in teacher preparation, diversity and retention. As someone who taught high school chemistry, I know the profound sacrifices our teachers make to provide our children with the best education possible. I also know how important it is for our students to see themselves reflected in their teachers, which is why I believe a more diverse teaching talent pool is so necessary. You can’t be what you can’t see. It’s time every student be able to see themselves in the people who instruct, nurture and teach them. Our education system, communities and country will be all the better for it.”

Teach Plus CEO and President Roberto J. Rodríguez said: “We applaud Congressman Gallego and Congresswomen Hayes, Adams and Houlihan for taking up President Biden’s charge to prepare, support and invest in a diverse and talented teaching workforce. The American Families Plan is a game changer for the future of teaching and the teaching profession. There has never been a more important time to make these investments – our children’s future depends on it.”

The NEA applauds Reps. Gallego, Hayes, Adams, and Houlihan for leading this important letter to acknowledge the historic funding proposed by the American Families Plan to advance the educator workforce,” **said Marc Egan, NEA Director of Government of Relations.** “For years, the educator profession has faced serious challenges of attrition, only to be hampered further by the COVID-19 pandemic. Implementing President Biden’s proposal to uplift the educator pipeline would demonstrate Congress’s commitment towards retaining profession-ready teachers, and recruiting a diverse educator workforce that accurately reflects the students they serve.”

“As an organization that advocates for funding for Hispanic-Serving Institutions, we support

this legislation that invests in existing programs to further strengthen teacher diversity efforts," **said HACU President and CEO Antonio R. Flores.** "Hispanic students account for 27 percent of elementary and secondary U.S. public school students, yet only 9 percent of teachers are Hispanic. Strengthening the pipeline and increasing recruitment and retention of diverse teachers at HSIs and MSIs is crucial."

"For too long, our federal government has failed to afford every student in America a quality education regardless of their zip code," **said Khalilah Harris, Team Managing Director for the Center for American Progress.** "Prioritizing our students and the adults who develop them is a critical component of the American Families Plan that Congress must commit to, and a pivotal step towards addressing decades of racial and economic injustice."

Roxanne Garza, Senior Policy Advisor, Education at UnidosUS said: "Latino students, English learners, and other underserved student populations have been disproportionately impacted by the COVID-19 pandemic. One way to ensure that students have the best chance for learning recovery is to make certain that they have access to qualified teachers that reflect their racial, cultural, and linguistic background. We strongly support funding provisions in the American Families Plan to recruit, prepare, and retain a more diverse teacher workforce through the FY2022 appropriations process."

This letter has been endorsed by Teach Plus, National Education Association, Center for American Progress, UnidosUS, Teach for America, National Center for Learning Disabilities, Education Trust, New America, TNTP, and Hispanic Association of Colleges and Universities.

Reps. Jones, Gallego Introduce Bill to Restore Section 2 of the Voting Rights Act

Hours after the Supreme Court's decision weakening Section 2 of the Voting Rights Act, the Inclusive Elections Act of 2021 would restore and strengthen this critical provision

WASHINGTON, DC — Today, **Reps. Mondaire Jones (D-NY) and Ruben Gallego (D-AZ)** introduced the Inclusive Elections Act of 2021, legislation to restore Section 2 of the Voting Rights Act, which bars states and localities from adopting election laws that disparately burden the voting rights of people of color and linguistic minorities. The bill comes just hours after the Supreme Court's devastating decision in *Brnovich v. Democratic National Committee*, which carved loopholes into the law that significantly reduce its power to stop voter suppression.

"The Voting Rights Act of 1965 was the crown jewel of the Civil Rights movement, but over the past decade, the Roberts Court has staged an all-out assault on the VRA, culminating in today's *Brnovich* decision," **said Congressman Mondaire Jones.** "At a time when the voting rights of Black and brown Americans are under attack to a degree not seen since Jim Crow, protecting the sacred right to vote is more important than ever. The Inclusive Elections Act of 2021 would undo the Supreme Court's destructive decision by outlawing discriminatory voter suppression laws like the ones the Court just upheld in Arizona."

“Democracy is under attack by state legislatures across the country, including in Arizona. The right of every American to have equal access to the ballot – regardless of their race or political orientation – is critical to a functioning democracy. The Supreme Court trampled on that right today by upholding two Arizona laws that make it harder to vote for Latino, Black, and Native American communities in particular,” **said Congressman Ruben Gallego**. “Our very democracy is at stake in this fight, and Congress must act. I’m proud to introduce this bill with Congressman Jones to protect voters of color from discrimination and help restore the foundation of our democracy.”

State Rep. Aaron Lieberman Raises \$250,000 in First 48 Hours of Campaign

90 Percent of Donors Are From Arizona

PHOENIX, AZ – Today State Representative Aaron Lieberman (LD 28), job creator, education leader and candidate for governor, announced that his campaign raised \$250,000 in the first 48 hours since its launch on June 29.

His launch video, titled “Right Leader, Right Now,” can be viewed [here](#), as well as with captions in [English](#) and [Spanish](#).

“Aaron’s a different kind of candidate, one with a track record of creating jobs while developing innovative solutions to complex problems, and we’re thrilled so many Arizonans are supporting him right out of the gate,” said Miguel Medrano, campaign manager.

“Aaron is hearing from people throughout the state that they want an end to extreme partisan dysfunction and a start to real investments in education, healthcare, clean water and air, so that we can have a booming economy which helps every Arizonan succeed,” added Medrano.

During his time in the private sector, Aaron founded two organizations, Jumpstart, and Acelero Learning, that have grown to impact nearly 1 million young children and their families while employing thousands of people.

###

Aaron Lieberman, state representative for Legislative District 28 and a social entrepreneur, is a candidate for governor of Arizona. After seeing first-hand the effectiveness and success of early childhood intervention programs, Aaron launched Jumpstart, a national nonprofit to ensure all children had the opportunity to enter kindergarten prepared to succeed. To date, more than 50,000 college students have served, working with more than 100,000 children and earning over \$200 million in scholarships through AmeriCorps. Later, he founded Acelero Learning to close the achievement gap for Head Start children. Impacting over 40,000 kids every day, children enrolled in Acelero’s programs make gains at nearly three times the national average. Aaron was born and raised in Arizona. He and his wife live in Phoenix,

where they're raising their two sons. Aaron's daughter is studying history at Yale, his alma mater.

House ends session with flurry of bills

By Julia Shumway, Nathan Brown

Arizona Capitol Times

07-02-21

The House wrapped up this year's legislative session by, among other things, voting to give rural lawmakers more money.

The Senate voted June 29 to pass HB2053, which increases the daily stipend for living expenses for lawmakers outside of Maricopa County during the session. The House followed suit June 30. It is currently set at \$60 a day for the first 120 days of the session, dropping to \$20 after that. The bill will increase it to \$207 – the average of the six highest months of the

federal employee per diem for Maricopa County – for the first 120 days of the session, and cut it in half after that. (To read more, click [here](#)).

GOP lawmakers seek limits on voter power

By Julia Shumway

Arizona Capitol

Times

07-02-21

In 2022, depending on which advocacy groups succeed in gathering enough support, voters may see questions on their ballot asking about capping medical debt, stopping secretive election spending or ending machine counting of ballots.

They'll also be asked to vote to make it more difficult for citizens to make lasting laws through the initiative process, after legislative Republicans finally succeeded in sending two initiative-limiting referendums to the ballot. (To read more, click [here](#)).

Early voter law changed before SCOTUS ruling

By Howard Fischer

Capitol Media

Services

07-02-21

A new ruling upholding Arizona election laws comes as state lawmakers just changed one of the reasons the U.S. Supreme Court agreed to leave those statutes in place.

In concluding the ban on ballot harvesting does not violate the Voting Rights Act, the court cited how easy it is for Arizonans to cast early ballots, Justice Samuel Alito pointed out that, among other things, “any voters may ask to be sent an early ballot automatically in future elections.” That was true at the time the case was argued at the court in March. (To read more, click [here](#)).

State budget includes \$46M to repave SR-95

By Michael Zogg
Herald

Today's News

07-02-21

Arizona's state budget for FY2022 includes \$321 million in road maintenance and expansion projects including \$46.7 million to repave State Route 95 from Lake Havasu City north to Bullhead City.

Rep. Leo Biasiucci (R-Lake Havasu City) has been pushing to obtain funding for the repairs he says are long past due. Part of the project will repave the highway from Lake Havasu City north to the junction with I-40. That portion of the repairs will cost about \$26 million. The state will also repave SR95 from Bullhead City south through Mohave Valley to the bridge leading into Needles, California, which will cost about \$21 million. (To read more, click [here](#)).

County jail suffered \$300,000 shortfall in FY20-21

By Sam Ribakoff
Courier

Eastern Arizona

07-02-21

Graham County's chief financial officer is blaming COVID-19 for a \$300,000 shortfall in FY20-21, saying the federal government and Bureau of Indian Affairs sent far fewer inmates to the county to be housed last year.

The Graham County Board of Supervisors voted June 28 to cover the loss with county general funds. (To read more, click [here](#)).

Required Attendees: Kirsten Engel

MEDIA ALERT: Senate Democrat's Press Conference on Senate Audit of the 2020 Election

**IMMEDIATE
RELEASE**

Josselyn Berry | 602-376-5705

March 19th, 2020

PHOENIX— After news that Senate President Karen Fann is discussing using volunteers to count voter's ballots and an ongoing lack of transparency with the public, Senate Democrats will hold a press conference with Supervisor Steve Gallardo on the Senate Republican's audit of the 2020 election.

WHAT: Senate Democrats' press conference on Senate audit of 2020 election results

WHEN: Monday, March 22nd at 10:30AM

WHO: Senate Democratic Leader Rebecca Rios, Senator Martin Quezada, Senator

Kirsten Engel, and Maricopa County Supervisor Steve Gallardo.

WHERE: Arizona State Legislature: Rose Garden

From: Kirsten Engel <kengel@azleg.gov>
Sent: Sunday, February 7, 2021 4:37:58 PM
To: Peter Bengtson <mundo7111@gmail.com>
Subject: Re: Comment on : Letter from the Legislature 2021 #2: Wasted Opportunities!

Hi Pete! Yes, that's one of our problems. All bills are assigned to a committee, but I don't think the RTS system works unless they appear on an agenda, right? So unfortunately, there is little folks can do other than write their legislators to try to get bills onto an agenda. Sigh.

One of my more minor bills is on the NREW Senate agenda this week — SCR 1046
<https://www.azleg.gov/legtext/55leg/1R/bills/SCR1046P.pdf>
<https://apps.azleg.gov/BillStatus/BillOverview/75911>

The bill is a resolution in support of outdoor recreation. It was brought to me by Kirk Astroth and outdoor recreational organizations.

I would rather one of my substantive environmental, climate or water bills had made it onto an agenda, but I would appreciate your support of this resolution!

Thanks for all you do. Wow, 17 comments, that is a lot!

Best,
Kirsten

Senator Engel,

Background:

This morning I responded to Sandy Bahr's Legislative Alert #6 by going on RTS to support or oppose 17 bills.

I was part of the LD9 group meeting with Victoria Steele at the virtual Environmental Day at the Legislature. One of the interesting (to me) items that came up was Victoria's comment that she was interested in some way to reach out to environmentalists to get some help supporting bills she sponsored.

AMERICAN
OVERSIGHT

My Comment:

Your message essentially was what Victoria asked for. You described a number of bills that you thought needed to be passed. However they are not yet assigned to a committee. I'm an RTS guy. I jump on Sandy's legislative alerts over the weekend and oppose or support the bills. I also send messages to the LD9 legislators if she asks.

Getting your message distributed once the bills are assigned to committee plus a simple support or oppose the bill is easier for me to take action.

Thanks for all you are doing in the Legislature. Stay safe up there.

Pete Bengtson

On Sun, Feb 7, 2021 at 2:22 PM State Senator Kirsten Engel <kengel@azleg.gov> wrote:

Dear Friend,

Thus far this legislative session has been a big disappointment. Rather than address the pandemic, the Legislature has been filling its time passing non-pandemic bills stuck in the queue last year and teeing up bills that undercut our voting rights or pile on more tax cuts.

It does not have to be this way. In this newsletter I would like to talk about some of my proposals for addressing the eviction and housing crisis we are facing and to contrast these proactive, pandemic-related measures with some of the disturbing bills that I believe will suppress the vote and undermine our elections. I'll conclude with some ways you can make your voice heard - in support or opposition to the bills currently being considered.

Spotlight on My bills to Prevent Evictions and Promote Housing Stability in Arizona

I've now introduced nine eviction-prevention/affordable housing bills. These bills address the short-term eviction crisis, systemic problems in our landlord-tenant act, and the long-term challenge of creating more affordable housing.

Bills Addressing the Eviction Crisis

Thousands of Arizona families are at risk of eviction when the moratorium, extended by the Biden Administration to March 31, 2021, expires. The moratorium is helping to keep a roof over people's heads (though there are large loopholes that result in evictions continuing), but it doesn't pay rent in arrears or give families a cushion going forward as they work to get themselves back into the

job market. Families eligible for rental assistance are often unable to satisfy the paperwork requirements to actually receive a payment before they are evicted. Many tenants now have eviction judgments on their records, a blight on their credit that will dog their ability to find housing for the next seven years. As detailed in today's New York Times, some families are going to extraordinary lengths to avoid an eviction - running up debt on credit cards and moving in with other family members into crowded living arrangements.

Legislation is only part of the answer to this crisis. Arizona will be receiving over \$490 million in rental relief from the latest federal stimulus package, and that will be a huge help. This money will be distributed by the AZ Department of Economic Security and the legislature is not directly involved in its distribution. It is important to note that not all families struggling qualify for this aid and for some tenants with an eviction already on their records, the assistance comes too late. Working with Pima County's Eviction Prevention Taskforce, here's some solutions I'm proposing in legislation:

SB 1666 affordable housing; appropriation: appropriates \$25 million to the AZ Housing Trust Fund and conditions a landlord's receipt of any of this funding upon its agreement not to file, finalize or enforce an eviction action.

Assigned to: Senate Appropriations Committee
Status: Has yet to be placed on a Committee agenda

SB 1661 housing assistance program; appropriation: Establishes a new grant program, the "Housing Assistance Program" in the AZ Department of Housing and appropriates \$10 million toward the program during 2021-22. Under the legislation, a nonprofit legal services organization, community action agency, or HUD-approved housing counseling agency may apply for funds to hire housing navigators to provide community outreach, education and resources related to general housing matters, effective tenancy, leases and rental agreements, eviction and foreclosure processes and referrals to housing programs.

Assigned to: Senate Appropriations and Senate Commerce Committees
Status: Has yet to be placed on a Committee agenda

SB 1663 state; emergency; eviction reporting; prohibited: Requires the sealing of any filing, pleading or judgment in an eviction action based on nonpayment of rent that was rendered during the Covid-19 pandemic and between the dates of March 11, 2020 and June 30th, 2022. Requires housing applications to inform prospective tenants that they may answer "No record" in response to an inquiry, on a housing application, regarding a record sealed pursuant to the legislation.

Assigned to: Senate Judiciary Committee

Status: Has yet to be placed on a Committee agenda

Bills addressing systemic problems in Arizona's Landlord-Tenant Laws

The eviction crisis has laid bare systemic problems with our landlord-tenant laws. I have introduced the following bills to deal with some of these issues, raised by stakeholders:

SB 1038 landlord tenant: rent: fifteen days. Currently, Arizona law requires landlords to notify tenants of their intent to evict the tenant for nonpayment of rent just 5 days before they actually file to do so, one of the shortest periods for such notices in the nation. Tenants are left scrambling, often over a weekend, to pull together money or contact their landlord to work out a payment plan. This short time period has been a particular problem during the pandemic, as five days is usually too short a timeframe for tenants to apply for and receive, rental assistance from a city, county or nonprofit program. This bill does one thing and one thing only: it extends that 5 day period to 15 days. This is an easy fix and one very much needed for tenants and landlords alike.

Assigned to: Senate Commerce Committee

Status: Has yet to be placed on a Committee agenda

SB1130: constables; pending eviction notification; mileage: Provides that constables may be reimbursed for their mileage with respect to any additional trips they make to visit tenants in the eviction process to inform the tenants about housing resources. A pilot project by Pima County constables found the number of evictions tumbled after constables did this basic outreach to inform tenants in advance of a pending eviction action and to provide them information about housing options. This successful pilot program was even featured in High Country News! This bill is designed to ensure that constables are not discouraged from making these visits by having to pay for the mileage out of their own pockets.

Assigned to: Senate Judiciary Committee

Status: Has yet to be placed on a Committee agenda

SB 1039 eviction prevention; study committee: Establishes a study committee on statewide eviction prevention and housing affordability and specifies a broad array of stakeholders to serve on the study committee. The Committee is charged with determining how the state can reduce eviction filings and mitigate the financial and personal costs of evictions to tenants and landlords, explore processes to ensure tenants understand their rights under the law, gather information on housing affordability and propose legislation to address problems identified by the

committee.

Assigned to: Senate Commerce Committee

Status: Has yet to be placed on a Committee agenda

For those who wish to take a deeper dive in some of additional bills that I have introduced, please see:

[SB 1472 landlord tenant; security deposits; waiver](#)

[SB 1662 constable ethics standards board; membership](#)

[SB 1665 landlord tenant; housing assistance; waiver](#)

[SB 1664 landlord tenant; evictions; forms](#)

What the Arizona Legislature is doing instead of eviction-prevention and pandemic relief:

But the Arizona legislature is NOT addressing our eviction and housing crises, but instead is spending a large amount of its time and effort keeping alive conspiracy theories regarding the 2020 election, debating bills to remove Arizonans from the voting rolls, and burdening our election officials with more bureaucratic requirements that seem to lack all justification.

Graphic courtesy of the New York Times, Opinion, The Voter Suppression State, Jan 31, 2019.

As has been widely reported in the [national](#) and [local press](#), there are multiple bills pending in the Arizona legislature that would upend our election and voting laws. The most extreme bill is Rep Bolick's HB 2720, would enable the the Arizona Legislature to overturn the results of a presidential election, even after the count is formally certified by the governor and secretary of state — and even after

Congress counts the state's electors. See [this article](#) for more on this bill that completely circumvents the voters!

Most curious are bills that seek to restrict the use of mail-in ballots. Arizona practically invented mail-in ballots and over 80 percent of Arizonans use them, finding they give them time to research candidates and initiatives and, in the time of Covid-19, are safer than venturing in person to vote at a polling location. I oppose each of these bills that appear to be an effort by those unhappy with the outcome of the November 2020 election to suppress the vote.

Below are some of the bills I am most concerned about. As you can see, many of the Senate bills have passed out of committee and are ready for Floor debate and final vote.

[SB 2720: ballots; election contests; certificates](#): As mentioned above, this bill sponsored by Rep Bolick would enable the the Arizona Legislature to overturn the results of a presidential election.

[SB 1069 permanent early voting list; eligibility](#): Removes a voter from the permanent early voting list (PEVL) if the voter fails to vote by early ballot in both the primary election and the general election for two consecutive primary and general elections for which there was a federal, statewide or legislative race on the ballot.

Status: Passed the Government Committee on a party-line vote; waiting debate on the Senate Floor.

[SB 1083 elections; recount margin](#): Increases, from one-tenth of one percent or a set number of votes to one-half of one percent, the trigger for an automatic recount in a primary or general election.

Status: Passed the Government Committee on a party-line vote; waiting debate on the Senate Floor.

[SB1020 voting locations; electioneering](#); Removes the ability of a county recorder or other officer in charge of elections to designate emergency non-electioneering polling places.

Status: Passed the Government Committee on a party-line vote.

SB 1358: recorders; voter registrations; public buildings: Prohibits a county recorder from conducting a voter registration drive or other similar voter registration event at any location that is not government owned.

Status: Passed the Government Committee on a party-line vote.

SB 1240 hand counts; precincts; procedures manual: Requires ballots in counties using voting centers to be separated and grouped by precinct for the purpose of a hand count audit.

Status: Passed the Government Committee on a party-line vote.

Where to find the 47 bills I've filed this Legislative Session

You can easily find my eviction-prevention and housing affordability bills described above, as well as my bills on education, water, criminal justice and other topics by going to: www.azleg.gov, click "Bills", click "Bills Tracking," hit "Search" on left side menu, click "Sponsors" and search under my name. You will see the list of bills that I have "prime" sponsored or co-sponsored. Enjoy!

It will be a Tough Week Ahead

Tomorrow, the Senate will spend more countless hours trying to give life to baseless conspiracy claims about the Nov. election by likely passing the GOP-sponsored resolution to hold the GOP-controlled Maricopa Board of Supervisors in contempt (which makes them subject to imprisonment!). The reason? Senate Republicans are upset the Board failed to comply to with a crazy- broad subpoena

from the Chair of the Senate Judiciary Committee to obtain copies of 2.1 million voted secret ballots and the inspection of certified elections equipment by a sketchy auditing company and is instead is pursuing its own audit. Because I am on the Judiciary Committee, I am actually named as a defendant in the County's lawsuit to quash that subpoena!

The complaint of the Maricopa Board of Supervisors seeking to quash the subpoena issued by the Chair of the Senate Judiciary Committee.

Sign up for the Legislature's "Request to Speak" system to make your voice heard on bills you like or oppose!

You can register your support or opposition to particular bills once the bill has made it onto a Committee agenda through the legislature's "Request to Speak" (RTS) system.

You may have heard that you need to go in person to activate your RTS account. Luckily, there is an organization that can activate your account on your behalf!

Contact Civic Engagement Beyond Voting to request an account. They will create an account for you at the Capitol and notify you when it's ready.

This legislative manual walks you through how to use the Request to Speak system.

Look out for future emails from me about specific bills to oppose or support and thank you in advance for speaking out on these important issues!

Graphic courtesy of the New York Times, *How to Participate in Politics*.

Another GREAT way to participate: Join our March 6th LD10 Town Hall!

Join us 10-11:30 on Saturday, March 6th for our next Town Hall! Photo from our Jan 30th Town Hall with special guest Pima County Health Director Dr. Theresa Cullen. LD10 Reps. Domingo DeGrazia and Stephanie Stahl Hamilton and I got

terrific questions from those who were able to tune in. We're looking forward to answering more of your questions on March 6th! You can send in your questions anytime by filling out and submitting [this form](#) before or during the Town Hall. We'll try to get to as many of your questions as we can!

During the January 30th LD10 Town Hall, we heard from Pima County Health Director and Admra: Theresa Cullen on the status of the pandemic in Pima County as well as progress on the vaccine roll-out. Reps Domingo DeGrazia and Stephanie Stahl

Hanson and myself gave a legislative update. Tune in March 6th from 10 - 11:30 for our next Town Hall. Details on www.facebook.com/kengel4arizona.

There's more to come, so stay tuned!

I try to keep my Facebook page updated with news of recent events. Email me your comments and concerns at: kengel@azleg.gov and I will try to get back to you (but unfortunately, please keep in mind that, due to volume of emails it is proving impossible to respond to every email I receive).

See you March 6th for the next LD10 Town Hall!

Best,

Kirsten Engel

NEWS NOTES AND GOSSIP

ELECTION FRAUD PROTESTERS TARGET BOWERS' HOME

Somebody shared Bowers' house address and personal phone number on Twitter yesterday and people angry about election results began protesting outside. Another protest is expected this evening. Bowers and Fann both have their own Dept of Public Safety security detail, and Maricopa County Sheriff's deputies monitored his property last night because of the protest. One of Townsend's Twitter followers shared Bowers' Mesa address in response to a Townsend tweet about House Chief of Staff Michael Hunter thwarting her attempts to hold an election hearing that Bowers had not given her permission to have. (Only the Speaker or Senate President can authorize committee hearings outside of their regularly scheduled

time during the regular session.) Nicole Garcia, a candidate for Phoenix City Council who will proceed to a runoff election this spring, separately tweeted Bowers' personal phone number last night. Addresses are a matter of public record – unless one of the residents is eligible to have the address protected because he or she is a judge or a victim of stalking or domestic violence, for example. Elected officials' addresses, which are required on candidate filing forms and financial disclosures, are easier to find online, but it still takes a certain level of work to get that information. In response to the doxxing, Townsend tweeted this morning: "I cannot condone this action" ([LINK](#)). When another Twitter user responded that she could not condone Bowers' lack of action, Townsend responded, "Me either" ([LINK](#)). Townsend did not return a phone call from our reporter by our deadline.

SHOPE, TOMA, GRANTHAM: IT'S NOT COOL

Shope, Toma and Grantham condemn any behavior that escalates to protests outside someone's home, they told our reporter today. While they were referring to Bowers, they said their concern extends beyond the speaker's case. Shope publicly called the doxxing and protests of the House Speaker "gross" and "crappy" in separate Twitter posts. He told our reporter it's "not acceptable" to do this to anyone, including to Hobbs or Mitch McConnell. "You shouldn't have to fear for your safety at your own home," he said. Shope said Townsend's tweet about not condoning the "action" is not enough, but "it's a good start." Toma, who will serve as the next Majority Leader, shared the same sentiment as Shope. "Obviously, it concerns me and it should concern anybody. For me, I think it's crossing the line," he told our reporter. He called it "un-American." "We don't do this as Republicans. It's one thing to make your displeasure known to someone in their official capacity – showing up at the Capitol and protesting and what not. It's quite another to try to terrorize their family at their home," he said. Toma said he was on the phone with Bowers as it happened and could hear cars honking in the background. Grantham, who will serve as speaker pro tem, told our reporter he condemns the behavior, as well. "Escalating to that level is inappropriate and I condemn it," he said via text.

ARE YOU SURE YOU'RE READY FOR 2021?

With just over a month until members of the 55th Legislature take their seats, Ugenti-Rita pre-filed the first bill of the 2021 session. Her S1001 (breast implant surgery; informed consent) is a retrod of last year's S1439 (breast implant surgery; informed consent), which passed the Senate unanimously and was approved by House hel-hu ser but never received a final vote in the House. Senators will have until Jan. 19 and representatives until Feb. 5 to request bills be drafted, and all 2021 bills must be introduced in the Senate by Feb. 1 and the House by Feb. 8. Friday, Feb. 19, is the last day to hear bills in committees in their chamber of origin, while March 26 will be the last day to hear bills in committees in the opposing chamber. The 100th day of session will fall on April 20.

YOU'VE GOT TWO YEARS UNTIL THE NEXT ELECTION

Mesnard wanted S1001 for an election bill he plans to introduce to send a signal to voters that the Legislature takes their concerns about election security seriously, he told our reporter. Ugenti-Rita, however, beat him to the number. Mesnard said it will still be his first bill of the year. The measure would require that counties audit 5 percent of their ballots, as opposed to the current statutory requirement that they audit 2 percent. It would also allow the Attorney General, Secretary of State or Legislative Council to require that an individual county further increase the audit percentage. Brnovich asked

Maricopa County to increase its audit to 5 percent this year, but he didn't have any authority to require it. Mesnard's bill would also allow anyone to request a full recount – provided he or she pays for it. Many other states have this feature in place, but Arizona only permits recounts in extraordinarily close races. In a presidential race, the state's recount laws would only get triggered if the difference between candidates is less than 200 votes, or 1/10 of 1 percent of the votes cast, whichever number is smaller. In legislative races, the recount threshold shrinks to either 50 votes or 1/10 of 1 percent. Mesnard acknowledged that his bill won't do anything to address complaints about the 2020 election, but he said it could help build voter confidence in future elections. "We need to bend over backwards, even if it costs a little bit of extra money and takes a little extra effort, to remove as much distrust as possible," he said.

ARIZONA'S VACCINE DOSES TO ARRIVE DEC. 13

The first shipments of the COVID-19 vaccine will arrive in Arizona sometime next week and will first be distributed in Maricopa and Pima counties, state officials said today. The state is expecting 383,750 doses by the end of December and will prioritize "health care workers, residents of long-term care facilities, educators and vulnerable populations." The announcement from Dept of Health Services and Ducey's office ([LINK](#)) provides more clarity on the vaccination plan officials outlined last week. One week after the state's two largest counties receive shipments of 47,000 doses to Maricopa and roughly 11,000 for Pima, all 15 counties, at least four tribes and some nursing facilities will receive doses, as well. It's important to note that receiving shipments of the vaccine is not the same thing as people being able to line up to receive it. Doctors told our reporter that next summer seems to be the target for when the virus will be "under control," and Dr. Cara Christ said as much on *KTAR* this morning ([LINK](#)).

ARIZONA, STATES TARGET FACEBOOK IN ANTITRUST LAWSUIT

Brnovich's office is joining 47 other states in filing an antitrust lawsuit against Facebook, he announced today. The bipartisan suit targets Facebook's purchases of smaller competitors, such as Instagram, and its blocking of some services from third-party apps that could become competitors. "Facebook's dominant market power has been illegally achieved at the cost of consumer choice, market innovation, and consumer privacy," Brnovich said in a news release. The lawsuit alleges that Facebook holds an "unprecedented, virtually 360-degree view of users and their contacts, interests, preferences, and activities" that allows it to continue making money from its users even when it's against those users' interests. The 48 suing states are seeking a court order to prevent Facebook from continuing to block third-party apps and require that the company give notice before it spends more than \$10 million to acquire another company. In an email, Jennifer Newstead, Facebook's vice president and general counsel, called the lawsuit "revisionist history," and a "chilling warning to American business that no sale is ever final." "Antitrust laws exist to protect consumers and promote innovation, not to punish successful businesses," Newstead said, adding Instagram and WhatsApp became "incredible products" because Facebook invested billions of dollars to develop features and better experiences for users. "People and small businesses don't choose to use Facebook's free services and advertising because they have to, they use them because our apps and services deliver the most value. We are going to vigorously defend people's ability to continue making that choice," she said.

CONGRESSMEN'S FAVORITE PASTIME

Stanton isn't the first Arizona congressman to propose boycotting Arizona in response to an action – or inaction – on the part of the state. In 2010, Grijalva proposed a boycott after the state enacted SB1070, Russell Pearce's hardline immigration law. Grijalva's boycott drew a swift backlash, and in the election that year, the veteran legislator faced a political novice, Republican Ruth McClung, who gave him a run for his money. McClung won 44 percent of the vote to Grijalva's 50 percent in what many view as a rebuke of the Democrat's boycott. Grijalva had traditionally won 60 percent of his district's vote in past elections. He has since recovered. He won this year's election with 65% of the vote. Stanton this week said "bad-actor states and cities" that refuse to impose mask mandates should not get federal aid. "Congress has a responsibility to put resources in the hands of those who are taking this crisis seriously and these bad actors can't be trusted," Stanton said in a news release.

TOVAR KEEPS DUNN'S POLICY ADVISOR

Commissioner-elect Anna Tovar is already picking her Corp Comm staff and she doesn't have to go far for her policy advisor. Tovar said she plans to keep Erin Ford Faulhaber, who currently serves in that role for Commissioner Boyd Dunn. One GOP railbird said it is unusual for a policy advisor to jump from a member of one party to the next. Tovar didn't comment further on what made her decide to keep Faulhaber on staff.

·PRESS RELEASES AND NEWS CLIPS·

Sinema, Kelly: \$13 Million in COVID-19 Federal Relief Heads to Arizona

Arizona Senators Kyrsten Sinema and Mark Kelly announced today that \$13 million in federal COVID relief funds is heading to the Arizona Department of Health Services to reimburse the state for purchases of gowns, coveralls, disposable thermometers, gloves, and N95 masks to prevent the spread of COVID-19.

“Today’s funding will help shore up budgets in Arizona and continue to help slow the spread of COVID-19 and protect frontline health workers caring for Arizona families during the pandemic,” **said Sinema.**

“These funds are important to ensure Arizona can continue getting our health care workers the protective equipment they need to safely treat patients as we face a rise in COVID-19 cases and hospitalizations. To slow that rise, all Arizonans should follow public health guidance including wearing masks and social distancing,” **said Kelly.**

The Department of Homeland Security and Federal Emergency Management Agency funds cover 75% of the cost share, meaning that a total of \$17,716,359.41 was spent on reimbursable costs from May 7, 2020 to June 26, 2020 for Arizona Department of Health Services’ response to the COVID-19 pandemic.

These funds were made possible through Sinema’s urging of the President to issue a Major Disaster Declaration for Arizona, which allows the state to access more public safety resources to combat the coronavirus outbreak.

###

Thursday Virtual Roundtable: On the 5th Anniversary of the Paris Climate Accord: Arizona is still in!

(Arizona) - On Thursday, December 10th at 2:00 pm., notable Arizona civic, science and youth leaders including **Tempe Mayor Corey Woods**; **Sonja Klinsky**, Senior Sustainability Scientist, Global Institute of Sustainability and Innovation at Arizona State University; **State Senator-elect Kirsten Engel**; and **Daniella Lopez**, a 15-year-old youth climate leader from Mesa, will gather for a virtual roundtable discussion about the Paris Climate Agreement and what it means for Arizona communities and families.

This Saturday, December 12th, marks the 5-year anniversary of the landmark Accords that are aimed at limiting the impacts of climate change. Sadly, on November 4th, less than 2 months ago, the United States officially left the agreement and abandoned our position of leadership. President-elect Joe Biden has said he’ll rejoin the Paris Agreement on day 1, which will mark drastic change in course on climate change policy in the United States.

What does this mean for Arizona? Our panelists will provide some necessary insight and expertise to help that question.

Who:

- **State Senator-elect Kirsten Engel**
- **Mayor Corey Woods**, City of Tempe
- **Sonja Klinsky**, Senior Sustainability Scientist, Global Institute of Sustainability and Innovation at Arizona State University
- **Daniella Lopez**, co-lead for Arizona Youth Climate Coalition

What: Virtual Roundtable

Where:

- Online via Zoom with RSVP, *please email adam@sagecreeksolutions.com*

- Facebook Live: <https://www.facebook.com/events/1700505300111228/>

When: Thursday, December 10th at 2:00 PM MST

Contacts:

- Sandy Bahr, Sierra Club - Grand Canyon Chapter: (602) 999-5790 sandy.bahr@sierraclub.org
- Adam Pimley, Sage Creek Solutions: (406) 579-6524 adam@sagecreeksolutions.com

###

AG Brnovich Joins Multistate Lawsuit Seeking to End Facebook's Alleged Illegal Monopoly

Facebook is Accused of Thwarting Competition, Reduced Consumer Privacy for Profits

WASHINGTON, D.C. - Attorney General Mark Brnovich today joined a bipartisan coalition of 48 attorneys general in filing an antitrust lawsuit against Facebook Inc., alleging that the company has and continues to stifle competition to protect its monopoly power illegally. The lawsuit alleges that Facebook violated Section 2 of the Sherman Act and Section 7 of the Clayton Act by illegally acquiring competitors in a predatory manner and cutting services to smaller threats, depriving users of the benefits of competition and reducing privacy protections along the way — all to boost its bottom line through increased advertising revenue.

“Facebook’s dominant market power has been illegally achieved at the cost of consumer choice, market innovation, and consumer privacy,” said General Mark Brnovich. “Our bipartisan coalition of Attorneys General is committed to standing up for all of the consumers and hardworking small businesses that have been harmed along the way.” In an effort to “build a competitive moat” around the company and maintain its market dominance, Facebook employs a variety of methods to impede competition. The two most utilized strategies have been to (i) acquire smaller rivals and potential rivals before they could threaten Facebook’s dominance and (ii) suffocate and squash third-party developers that Facebook invited to utilize its platform. These illegal tactics enable Facebook to maintain its monopoly over the social networking market.

Reduced Privacy and Fewer Options

Facebook’s unlawful monopoly gives it broad discretion to set the terms for how its users’ private information is collected and used to further its business interests. When Facebook cuts off integration to third-party developers, users cannot easily move their own information — such as their lists of friends — to other social networking services. This decision forces users to either stay put or start their online lives from scratch if they want to try an alternative. The volume, velocity, and variety of Facebook’s user data give it an unprecedented, virtually 360-degree view of users and their contacts, interests, preferences, and activities. The more users Facebook can acquire and convince to spend additional time on its platforms, the more data Facebook can accumulate by surveilling the activities of its users and thereby increase its monopolistic revenues through advertising.

Because Facebook users have nowhere else to go, the company is able to make decisions about how to curate content on the platform and use the personal information it collects from users to further its business interests, even if those choices conflict with the interests and preferences of Facebook users.

Since taking office, General Brnovich has prioritized consumer data privacy. In March 2018, General Brnovich [sent a letter](#) to Facebook discussing his obligation as Attorney General to help “ensure that the privacy of the people of Arizona is respected and preserved.” He also raised concerns about Facebook allowing third-party application developers to not only access personal data from Facebook users but also acquire comprehensive data about friends of those Facebook users.

Acquisition of Competitive Threats

Facebook employs unique data-gathering tools to monitor new apps all in an effort to see what is gaining traction with users. That data helps Facebook select acquisition targets that pose the greatest threats to Facebook’s dominance. Once selected, Facebook offers the heads of these companies vast amounts of money — that greatly inflate the values of the apps to avoid any competition for Facebook in the future.

The two most obvious examples of this successful strategy were Instagram and WhatsApp — of which posed a unique and direct threat to Facebook’s monopoly.

Purchase of Instagram

After initially trying to build its own version of Instagram with relatively low traction, Facebook acquired Instagram for \$1 billion, despite the company not having a single cent of revenue and valuing itself at only \$500 million.

Facebook offered double the purported valuation of Instagram even though Mark Zuckerberg previously described the \$500 million value as “crazy.”

Purchase of WhatsApp

While Facebook initially focused on several emerging mobile messaging services, WhatsApp was viewed as the “category leader” with over 400 million active users worldwide in 2014. Accordingly, WhatsApp, provided the greatest threat.

Facebook feared WhatsApp eroding its monopoly power, and also was concerned that WhatsApp could ultimately be bought by a competing behemoth, Google, that had previously shown interest in social networking.

This led Facebook, in February 2014, to acquire WhatsApp for nearly \$19 billion — wildly more than the extravagant price CEO Zuckerberg had recommended paying a few months earlier and the \$100 million another competitor offered to buy the company two years earlier.

Cutting Competitors Off from Facebook Overnight

The multistate complaint further alleges that Facebook targets competitors with a ‘buy or bury’ approach. If they refuse to be bought out, Facebook used an “open first–closed later” strategy to stop competitive threats, or deter them from competing at the inception. Facebook opened its platform to apps created by third-party developers in an effort to increase functionality on the site and, subsequently, increase the number of users on Facebook. Facebook also drove traffic to third-party sites by making it easier for users to sign in, so that Facebook could capture valuable data about its users’ off-Facebook activity and enhance its ability to target advertising.

After years of promoting open access to its platform, in 2011, Facebook began to rescind and block access to the site to apps that Facebook viewed as actual or potential competitive threats. Facebook understood that an abrupt termination of established access to the site can be devastating to an app — especially one still relatively new to the market. Some of these companies experienced almost overnight drop-off in user engagement and downloads, and their growth stalled.

Remedies

The bipartisan coalition of states requests that the court halt Facebook’s illegal, anticompetitive conduct and block the company from continuing this behavior in the future. Additionally, the coalition asks the court to restrain Facebook from making further acquisitions valued at or in excess of \$10 million without advance notice. The court is also asked to require divestiture or restructuring of illegally acquired companies, or other current Facebook assets along with any additional, appropriate relief.

The complaint was filed in the U.S. District Court for the District of Columbia.

Separately, but in coordination with the multistate coalition, the Federal Trade Commission (FTC) today filed a complaint against Facebook in the U.S. District Court for the District of Columbia.

This case is being handled by Unit Chief Dana Vogel and Assistant Attorney General Christina Grey from the Civil Litigation Division.

Copy of the [complaint](#).

###

AG Brnovich Leads 20-State Amicus Brief Supporting Kentucky AG’s Defense of State Laws in Federal Court

WASHINGTON, D.C. - Attorney General Mark Brnovich announced today that Arizona led a 20-state amicus brief urging the Supreme Court of the United States (SCOTUS) to reverse a decision by the Sixth Circuit Court of Appeals that prevented the Kentucky Attorney General from intervening to defend a state law after the state official named declined to continue defending the law through the appellate process.

“Arizonans know first-hand how elected officials can fail to respect the law,” said General Brnovich. “Attorneys General have a duty to ensure state laws receive a faithful defense regardless of the inaction of other government officials.”

The matter of strategic capitulation in litigation is not reserved to Kentucky. The Arizona Attorney General’s Office, for example, has had to intervene in several important elections cases over the past year after the Arizona Secretary of State failed to defend challenged laws. One such prominent case, *Brnovich v DNC*, is now before SCOTUS.

The issue of whether an Attorney General can intervene in federal court to continue the defense of a challenged state law is an important component of our democratic system of governance. Public officials are not empowered to repeal

duly enacted state laws unilaterally. Federal courts must permit Attorneys General to continue the defense of state law when others will not. This rule respects the voters' ability to elect legislators separately from executive officials and preserves the checks balances within the state's legislative process.

In the Kentucky case, the Attorney General defended the state law on behalf of the Cabinet for Health and Family Services (CHFS). The Secretary of CHFS is appointed by the Governor. When the CHFS chose not to seek further review of a Sixth Circuit Court of Appeals decision, the Kentucky Attorney General moved to intervene in the case and continue defending the law. However, the Sixth Circuit did not allow the Kentucky Attorney General to intervene. The Kentucky Attorney General is asking SCOTUS to consider whether a state attorney general should be allowed to intervene to defend a state law, after a federal court of appeals invalidates it and no other state official will defend it.

Attorney General Brnovich was joined in the brief by Attorneys General representing the following states: Alabama, Alaska, Arkansas, Georgia, Indiana, Kansas, Louisiana, Mississippi, Missouri, Montana, Nebraska, Ohio, Oklahoma, South Carolina, South Dakota, Tennessee, Texas, Utah, and West Virginia.

Screening Meeting Information for Maricopa County Commission on Trial Court Appointments

The Maricopa County Commission on Trial Court Appointments will meet to review 22 applications for two vacancies on the Superior Court in Maricopa County created by the retirement of Judges Douglas Gerlach and Jeanne Garcia.

The meeting agenda, public meeting notice and the applications can be viewed online at the Commission's website, <https://www.azcourts.gov/jnc>.

The meeting will begin at 9:30 a.m. on Friday, December 11, 2020, in conference room 345 of the Arizona State Courts Building, 1501 W. Washington, Phoenix, AZ 85007. Public comment is accepted at this meeting, however, in order to maintain social distance, there is very limited seating. We highly encourage speakers to call-in at 602-452-3533, the meeting access code is 994 353 478.

If you wish to speak at this meeting, you must send your information and the subject of your comments to Blanca Moreno, at bmoreno@courts.az.gov by 8:30 a.m. on Friday, December 11, 2020.

Congressman Biggs Votes Against the NDAA Conference Report

WASHINGTON, D.C. – Tonight, the U.S. House of Representatives passed the *Conference Report to Accompany H.R. 6395 – Mac Thornberry National Defense Authorization Act*. Congressman Biggs voted against this conference report and issued the following statement:

"I support our military and have voted in support of the National Defense Authorization Act in previous years. However, this year's version of the NDAA was chalked full of special and anti-American interests that I could not, in good conscience, vote to support. Both the policies and the process are broken for this NDAA, and the House must begin to consider this bill under an open rule process. The considerations under the NDAA are too important for them not to warrant honest and open debate.

"The NDAA fails to prioritize strong border security operations along the southern border. It allows our endless wars to continue into perpetuity. It did not include my amendment that would have required the Department of Defense to report to Congress on defense spending by allied countries. And it authorizes the repeal of the Chief Management Officer position – one of the only offices at DOD that saves us money.

"Due to these reasons, and others, I was forced to oppose this conference report. I support President Trump's promise to veto this legislation once it reaches his desk, and I will do everything in my power to ensure that Congress will not be able to override his veto. We can and must do much better for our troops. I hope my Democrat colleagues will come back to the table and work with us to give our troops the very best from the United States Congress."

Sinema Hosts Call with Arizona Mayors and County Leaders to Answer Coronavirus Surge

Sinema continues holding regular calls with Arizona mayors and county leaders, Tribal communities, non-profit leaders, small business owners, and first responders

WASHINGTON – Arizona senior Senator Kyrsten Sinema hosted a call with Arizona mayors and county leaders about their coronavirus-related concerns, the importance of slowing the spread of the virus across Arizona, and what Sinema is fighting for in a next coronavirus-relief legislative package.

“Working directly with local leaders to stop the spread of the coronavirus and deliver coronavirus relief to communities in need will help save Arizona lives and jobs, and set our economy up for a full recovery,” said Sinema.

Mayors and county leaders from across Arizona joined Sinema on today’s call to discuss how to stop the spread of coronavirus, provide updates on a next coronavirus-relief package, and hear how to access coronavirus relief resources. Sinema has held regular calls with Arizona non-profit leaders, small business owners, and first responders.

Sinema has also added a resources page to her website, www.sinema.senate.gov/corona, for Arizonans looking for the latest information on coronavirus.

###

Arizona Transportation Electrification Forum to highlight the adoption of clean electric vehicles across the state

PHOENIX – The second annual Arizona Transportation Electrification Forum will bring together the key players in Arizona’s growing electric vehicle (EV) sector, including EV manufacturers, policymakers, utilities, educators and innovators. **The Forum will convene virtually on Friday, December 11, 2020.**

The event will feature a virtual EV ride and drive, and address a variety of topics, including an overview of the EV market nationwide and how the market is active and growing in Arizona. The event will also dive into the synergy between transportation electrification policies in Arizona and economic recovery policy efforts. U.S. Rep. Greg Stanton will be featured as the keynote speaker, highlighting what Arizona can expect from the federal level on transportation electrification policies. The Forum will also include an awards ceremony for those leading the electric vehicle transition in Arizona, as well as videos from EV drivers in the state. The event will conclude with a series of concurrent case studies focused on including equity considerations in any transportation electrification policies and programs, fleet electrification, programs for the public and private sectors, and policies cities can adopt to advance transportation electrification.

Come learn about the benefits of electrified transportation and what Arizona is already doing to support more EVs on the roads, and how Arizona can accelerate the adoption of electric vehicles.

WHAT: Arizona Transportation Electrification Forum

WHEN: Friday, December 11, 8 am—2:00 pm MST

WHERE: Virtually on Zoom, registration at azteforum.com

WHO: Presented by Plug In America, the Energy Policy Innovation Council at Arizona State University, and the Southwest Energy Efficiency Project. Participating organizations include American Lung Association Arizona, Arizona PIRG Education Fund, Arizona Public Service, Atlas Public Policy, the Electrification Coalition, EVgo, Lucid Motors, City of Phoenix, Salt River Project, Siemens, Tucson Electric Power, and Western Resource Advocates. U.S. Rep. Greg Stanton of Arizona Congressional District 9 is also our featured speaker. [See full agenda.](#)

About Plug In America: Plug In America is the nation’s leading independent consumer voice for accelerating the use of plug-in electric vehicles in the United States. Formed as a non-profit in 2008, Plug In America provides practical,

objective information collected from our coalition of plug-in vehicle drivers, through public outreach and education, policy work and a range of technical advisory services. Our expertise represents the world's deepest pool of experience of driving and living with plug-in vehicles. We drive electric. You can too. PlugInAmerica.org

About Energy Policy Innovation Council at Arizona State University:

The Energy Policy Innovation Council at Arizona State University informs and educates policymakers on current, complex issues in energy policy that impact Arizona and beyond. We are housed within the School for the Future of Innovation in Society and the College of Global Futures at Arizona State University in Tempe, Arizona.

Visit: www.sustainability.asu.edu/energy-policy/

About the Southwest Energy Efficiency Project:

The Southwest Energy Efficiency Project is a public interest organization promoting greater energy efficiency in Arizona, Colorado, Nevada, New Mexico, Utah, and Wyoming. For more information, visit www.swenergy.org.

NEWS NOTES AND GOSSIP

ELECTION FRAUD PROTESTERS TARGET BOWERS' HOME

Somebody shared Bowers' house address and personal phone number on Twitter yesterday and people angry about election results began protesting outside. Another protest is expected this evening. Bowers and Fann both have their own Dept of Public Safety security detail, and Maricopa County Sheriff's deputies monitored his property last night because of the protest. One of Townsend's Twitter followers shared Bowers' Mesa address in response to a Townsend tweet about House Chief of Staff Michael Hunter thwarting her attempts to hold an election hearing that Bowers had not given her permission to have. (Only the Speaker or Senate President can authorize committee hearings outside of their regularly scheduled

time during the regular session.) Nicole Garcia, a candidate for Phoenix City Council who will proceed to a runoff election this spring, separately tweeted Bowers' personal phone number last night. Addresses are a matter of public record – unless one of the residents is eligible to have the address protected because he or she is a judge or a victim of stalking or domestic violence, for example. Elected officials' addresses, which are required on candidate filing forms and financial disclosures, are easier to find online, but it still takes a certain level of work to get that information. In response to the doxxing, Townsend tweeted this morning: "I cannot condone this action" ([LINK](#)). When another Twitter user responded that she could not condone Bowers' lack of action, Townsend responded, "Me either" ([LINK](#)). Townsend did not return a phone call from our reporter by our deadline.

SHOPE, TOMA, GRANTHAM: IT'S NOT COOL

Shope, Toma and Grantham condemn any behavior that escalates to protests outside someone's home, they told our reporter today. While they were referring to Bowers, they said their concern extends beyond the speaker's case. Shope publicly called the doxxing and protests of the House Speaker "gross" and "crappy" in separate Twitter posts. He told our reporter it's "not acceptable" to do this to anyone, including to Hobbs or Mitch McConnell. "You shouldn't have to fear for your safety at your own home," he said. Shope said Townsend's tweet about not condoning the "action" is not enough, but "it's a good start." Toma, who will serve as the next Majority Leader, shared the same sentiment as Shope. "Obviously, it concerns me and it should concern anybody. For me, I think it's crossing the line," he told our reporter. He called it "un-American." "We don't do this as Republicans. It's one thing to make your displeasure known to someone in their official capacity – showing up at the Capitol and protesting and what not. It's quite another to try to terrorize their family at their home," he said. Toma said he was on the phone with Bowers as it happened and could hear cars honking in the background. Grantham, who will serve as speaker pro tem, told our reporter he condemns the behavior, as well. "Escalating to that level is inappropriate and I condemn it," he said via text.

ARE YOU SURE YOU'RE READY FOR 2021?

With just over a month until members of the 55th Legislature take their seats, Ugenti-Rita pre-filed the first bill of the 2021 session. Her S1001 (breast implant surgery; informed consent) is a retrod of last year's S1439 (breast implant surgery; informed consent), which passed the Senate unanimously and was approved by House hel-hu ser but never received a final vote in the House. Senators will have until Jan. 19 and representatives until Feb. 5 to request bills be drafted, and all 2021 bills must be introduced in the Senate by Feb. 1 and the House by Feb. 8. Friday, Feb. 19, is the last day to hear bills in committees in their chamber of origin, while March 26 will be the last day to hear bills in committees in the opposing chamber. The 100th day of session will fall on April 20.

YOU'VE GOT TWO YEARS UNTIL THE NEXT ELECTION

Mesnard wanted S1001 for an election bill he plans to introduce to send a signal to voters that the Legislature takes their concerns about election security seriously, he told our reporter. Ugenti-Rita, however, beat him to the number. Mesnard said it will still be his first bill of the year. The measure would require that counties audit 5 percent of their ballots, as opposed to the current statutory requirement that they audit 2 percent. It would also allow the Attorney General, Secretary of State or Legislative Council to require that an individual county further increase the audit percentage. Brnovich asked

Maricopa County to increase its audit to 5 percent this year, but he didn't have any authority to require it. Mesnard's bill would also allow anyone to request a full recount – provided he or she pays for it. Many other states have this feature in place, but Arizona only permits recounts in extraordinarily close races. In a presidential race, the state's recount laws would only get triggered if the difference between candidates is less than 200 votes, or 1/10 of 1 percent of the votes cast, whichever number is smaller. In legislative races, the recount threshold shrinks to either 50 votes or 1/10 of 1 percent. Mesnard acknowledged that his bill won't do anything to address complaints about the 2020 election, but he said it could help build voter confidence in future elections. "We need to bend over backwards, even if it costs a little bit of extra money and takes a little extra effort, to remove as much distrust as possible," he said.

ARIZONA'S VACCINE DOSES TO ARRIVE DEC. 13

The first shipments of the COVID-19 vaccine will arrive in Arizona sometime next week and will first be distributed in Maricopa and Pima counties, state officials said today. The state is expecting 383,750 doses by the end of December and will prioritize "health care workers, residents of long-term care facilities, educators and vulnerable populations." The announcement from Dept of Health Services and Ducey's office ([LINK](#)) provides more clarity on the vaccination plan officials outlined last week. One week after the state's two largest counties receive shipments of 47,000 doses to Maricopa and roughly 11,000 for Pima, all 15 counties, at least four tribes and some nursing facilities will receive doses, as well. It's important to note that receiving shipments of the vaccine is not the same thing as people being able to line up to receive it. Doctors told our reporter that next summer seems to be the target for when the virus will be "under control," and Dr. Cara Christ said as much on *KTAR* this morning ([LINK](#)).

ARIZONA, STATES TARGET FACEBOOK IN ANTITRUST LAWSUIT

Brnovich's office is joining 47 other states in filing an antitrust lawsuit against Facebook, he announced today. The bipartisan suit targets Facebook's purchases of smaller competitors, such as Instagram, and its blocking of some services from third-party apps that could become competitors. "Facebook's dominant market power has been illegally achieved at the cost of consumer choice, market innovation, and consumer privacy," Brnovich said in a news release. The lawsuit alleges that Facebook holds an "unprecedented, virtually 360-degree view of users and their contacts, interests, preferences, and activities" that allows it to continue making money from its users even when it's against those users' interests. The 48 suing states are seeking a court order to prevent Facebook from continuing to block third-party apps and require that the company give notice before it spends more than \$10 million to acquire another company. In an email, Jennifer Newstead, Facebook's vice president and general counsel, called the lawsuit "revisionist history," and a "chilling warning to American business that no sale is ever final." "Antitrust laws exist to protect consumers and promote innovation, not to punish successful businesses," Newstead said, adding Instagram and WhatsApp became "incredible products" because Facebook invested billions of dollars to develop features and better experiences for users. "People and small businesses don't choose to use Facebook's free services and advertising because they have to, they use them because our apps and services deliver the most value. We are going to vigorously defend people's ability to continue making that choice," she said.

CONGRESSMEN'S FAVORITE PASTIME

Stanton isn't the first Arizona congressman to propose boycotting Arizona in response to an action – or inaction – on the part of the state. In 2010, Grijalva proposed a boycott after the state enacted SB1070, Russell Pearce's hardline immigration law. Grijalva's boycott drew a swift backlash, and in the election that year, the veteran legislator faced a political novice, Republican Ruth McClung, who gave him a run for his money. McClung won 44 percent of the vote to Grijalva's 50 percent in what many view as a rebuke of the Democrat's boycott. Grijalva had traditionally won 60 percent of his district's vote in past elections. He has since recovered. He won this year's election with 65% of the vote. Stanton this week said "bad-actor states and cities" that refuse to impose mask mandates should not get federal aid. "Congress has a responsibility to put resources in the hands of those who are taking this crisis seriously and these bad actors can't be trusted," Stanton said in a news release.

TOVAR KEEPS DUNN'S POLICY ADVISOR

Commissioner-elect Anna Tovar is already picking her Corp Comm staff and she doesn't have to go far for her policy advisor. Tovar said she plans to keep Erin Ford Faulhaber, who currently serves in that role for Commissioner Boyd Dunn. One GOP railbird said it is unusual for a policy advisor to jump from a member of one party to the next. Tovar didn't comment further on what made her decide to keep Faulhaber on staff.

·PRESS RELEASES AND NEWS CLIPS·

Sinema, Kelly: \$13 Million in COVID-19 Federal Relief Heads to Arizona

Arizona Senators Kyrsten Sinema and Mark Kelly announced today that \$13 million in federal COVID relief funds is heading to the Arizona Department of Health Services to reimburse the state for purchases of gowns, coveralls, disposable thermometers, gloves, and N95 masks to prevent the spread of COVID-19.

“Today’s funding will help shore up budgets in Arizona and continue to help slow the spread of COVID-19 and protect frontline health workers caring for Arizona families during the pandemic,” **said Sinema.**

“These funds are important to ensure Arizona can continue getting our health care workers the protective equipment they need to safely treat patients as we face a rise in COVID-19 cases and hospitalizations. To slow that rise, all Arizonans should follow public health guidance including wearing masks and social distancing,” **said Kelly.**

The Department of Homeland Security and Federal Emergency Management Agency funds cover 75% of the cost share, meaning that a total of \$17,716,359.41 was spent on reimbursable costs from May 7, 2020 to June 26, 2020 for Arizona Department of Health Services’ response to the COVID-19 pandemic.

These funds were made possible through Sinema’s urging of the President to issue a Major Disaster Declaration for Arizona, which allows the state to access more public safety resources to combat the coronavirus outbreak.

Thursday Virtual Roundtable: On the 5th Anniversary of the Paris Climate Accord: Arizona is still in!

(Arizona) - On Thursday, December 10th at 2:00 pm., notable Arizona civic, science and youth leaders including **Tempe Mayor Corey Woods**; **Sonja Klinsky**, Senior Sustainability Scientist, Global Institute of Sustainability and Innovation at Arizona State University; **State Senator-elect Kirsten Engel**; and **Daniella Lopez**, a 15-year-old youth climate leader from Mesa, will gather for a virtual roundtable discussion about the Paris Climate Agreement and what it means for Arizona communities and families.

This Saturday, December 12th, marks the 5-year anniversary of the landmark Accords that are aimed at limiting the impacts of climate change. Sadly, on November 4th, less than 2 months ago, the United States officially left the agreement and abandoned our position of leadership. President-elect Joe Biden has said he’ll rejoin the Paris Agreement on day 1, which will mark drastic change in course on climate change policy in the United States.

What does this mean for Arizona? Our panelists will provide some necessary insight and expertise to help that question.

Who:

- **State Senator-elect Kirsten Engel**
- **Mayor Corey Woods**, City of Tempe
- **Sonja Klinsky**, Senior Sustainability Scientist, Global Institute of Sustainability and Innovation at Arizona State University
- **Daniella Lopez**, co-lead for Arizona Youth Climate Coalition

What: Virtual Roundtable

Where:

- Online via Zoom with RSVP, *please email adam@sagecreeksolutions.com*

- Facebook Live: <https://www.facebook.com/events/1700505300111228/>

When: Thursday, December 10th at 2:00 PM MST

Contacts:

- Sandy Bahr, Sierra Club - Grand Canyon Chapter: (602) 999-5790 sandy.bahr@sierraclub.org
- Adam Pimley, Sage Creek Solutions: (406) 579-6524 adam@sagecreeksolutions.com

###

AG Brnovich Joins Multistate Lawsuit Seeking to End Facebook's Alleged Illegal Monopoly

Facebook is Accused of Thwarting Competition, Reduced Consumer Privacy for Profits

WASHINGTON, D.C. - Attorney General Mark Brnovich today joined a bipartisan coalition of 48 attorneys general in filing an antitrust lawsuit against Facebook Inc., alleging that the company has and continues to stifle competition to protect its monopoly power illegally. The lawsuit alleges that Facebook violated Section 2 of the Sherman Act and Section 7 of the Clayton Act by illegally acquiring competitors in a predatory manner and cutting services to smaller threats, depriving users of the benefits of competition and reducing privacy protections along the way — all to boost its bottom line through increased advertising revenue.

“Facebook’s dominant market power has been illegally achieved at the cost of consumer choice, market innovation, and consumer privacy,” said General Mark Brnovich. “Our bipartisan coalition of Attorneys General is committed to standing up for all of the consumers and hardworking small businesses that have been harmed along the way.” In an effort to “build a competitive moat” around the company and maintain its market dominance, Facebook employs a variety of methods to impede competition. The two most utilized strategies have been to (i) acquire smaller rivals and potential rivals before they could threaten Facebook’s dominance and (ii) suffocate and squash third-party developers that Facebook invited to utilize its platform. These illegal tactics enable Facebook to maintain its monopoly over the social networking market.

Reduced Privacy and Fewer Options

Facebook’s unlawful monopoly gives it broad discretion to set the terms for how its users’ private information is collected and used to further its business interests. When Facebook cuts off integration to third-party developers, users cannot easily move their own information — such as their lists of friends — to other social networking services. This decision forces users to either stay put or start their online lives from scratch if they want to try an alternative. The volume, velocity, and variety of Facebook’s user data give it an unprecedented, virtually 360-degree view of users and their contacts, interests, preferences, and activities. The more users Facebook can acquire and convince to spend additional time on its platforms, the more data Facebook can accumulate by surveilling the activities of its users and thereby increase its monopolistic revenues through advertising.

Because Facebook users have nowhere else to go, the company is able to make decisions about how to curate content on the platform and use the personal information it collects from users to further its business interests, even if those choices conflict with the interests and preferences of Facebook users.

Since taking office, General Brnovich has prioritized consumer data privacy. In March 2018, General Brnovich [sent a letter](#) to Facebook discussing his obligation as Attorney General to help “ensure that the privacy of the people of Arizona is respected and preserved.” He also raised concerns about Facebook allowing third-party application developers to not only access personal data from Facebook users but also acquire comprehensive data about friends of those Facebook users.

Acquisition of Competitive Threats

Facebook employs unique data-gathering tools to monitor new apps all in an effort to see what is gaining traction with users. That data helps Facebook select acquisition targets that pose the greatest threats to Facebook’s dominance. Once selected, Facebook offers the heads of these companies vast amounts of money — that greatly inflate the values of the apps to avoid any competition for Facebook in the future.

The two most obvious examples of this successful strategy were Instagram and WhatsApp — of which posed a unique and direct threat to Facebook’s monopoly.

Purchase of Instagram

After initially trying to build its own version of Instagram with relatively low traction, Facebook acquired Instagram for \$1 billion, despite the company not having a single cent of revenue and valuing itself at only \$500 million.

Facebook offered double the purported valuation of Instagram even though Mark Zuckerberg previously described the \$500 million value as “crazy.”

Purchase of WhatsApp

While Facebook initially focused on several emerging mobile messaging services, WhatsApp was viewed as the “category leader” with over 400 million active users worldwide in 2014. Accordingly, WhatsApp, provided the greatest threat.

Facebook feared WhatsApp eroding its monopoly power, and also was concerned that WhatsApp could ultimately be bought by a competing behemoth, Google, that had previously shown interest in social networking.

This led Facebook, in February 2014, to acquire WhatsApp for nearly \$19 billion — wildly more than the extravagant price CEO Zuckerberg had recommended paying a few months earlier and the \$100 million another competitor offered to buy the company two years earlier.

Cutting Competitors Off from Facebook Overnight

The multistate complaint further alleges that Facebook targets competitors with a ‘buy or bury’ approach. If they refuse to be bought out, Facebook used an “open first–closed later” strategy to stop competitive threats, or deter them from competing at the inception. Facebook opened its platform to apps created by third-party developers in an effort to increase functionality on the site and, subsequently, increase the number of users on Facebook. Facebook also drove traffic to third-party sites by making it easier for users to sign in, so that Facebook could capture valuable data about its users’ off-Facebook activity and enhance its ability to target advertising.

After years of promoting open access to its platform, in 2011, Facebook began to rescind and block access to the site to apps that Facebook viewed as actual or potential competitive threats. Facebook understood that an abrupt termination of established access to the site can be devastating to an app — especially one still relatively new to the market. Some of these companies experienced almost overnight drop-off in user engagement and downloads, and their growth stalled.

Remedies

The bipartisan coalition of states requests that the court halt Facebook’s illegal, anticompetitive conduct and block the company from continuing this behavior in the future. Additionally, the coalition asks the court to restrain Facebook from making further acquisitions valued at or in excess of \$10 million without advance notice. The court is also asked to require divestiture or restructuring of illegally acquired companies, or other current Facebook assets along with any additional, appropriate relief.

The complaint was filed in the U.S. District Court for the District of Columbia.

Separately, but in coordination with the multistate coalition, the Federal Trade Commission (FTC) today filed a complaint against Facebook in the U.S. District Court for the District of Columbia.

This case is being handled by Unit Chief Dana Vogel and Assistant Attorney General Christina Grey from the Civil Litigation Division.

AG Brnovich Leads 20-State Amicus Brief Supporting Kentucky AG’s Defense of State Laws in Federal Court

WASHINGTON, D.C. - Attorney General Mark Brnovich announced today that Arizona led a 20-state amicus brief urging the Supreme Court of the United States (SCOTUS) to reverse a decision by the Sixth Circuit Court of Appeals that prevented the Kentucky Attorney General from intervening to defend a state law after the state official named declined to continue defending the law through the appellate process.

“Arizonans know first-hand how elected officials can fail to respect the law,” said General Brnovich. “Attorneys General have a duty to ensure state laws receive a faithful defense regardless of the inaction of other government officials.”

The matter of strategic capitulation in litigation is not reserved to Kentucky. The Arizona Attorney General’s Office, for example, has had to intervene in several important elections cases over the past year after the Arizona Secretary of State failed to defend challenged laws. One such prominent case, *Brnovich v DNC*, is now before SCOTUS.

The issue of whether an Attorney General can intervene in federal court to continue the defense of a challenged state law is an important component of our democratic system of governance. Public officials are not empowered to repeal

duly enacted state laws unilaterally. Federal courts must permit Attorneys General to continue the defense of state law when others will not. This rule respects the voters' ability to elect legislators separately from executive officials and preserves the checks balances within the state's legislative process.

In the Kentucky case, the Attorney General defended the state law on behalf of the Cabinet for Health and Family Services (CHFS). The Secretary of CHFS is appointed by the Governor. When the CHFS chose not to seek further review of a Sixth Circuit Court of Appeals decision, the Kentucky Attorney General moved to intervene in the case and continue defending the law. However, the Sixth Circuit did not allow the Kentucky Attorney General to intervene. The Kentucky Attorney General is asking SCOTUS to consider whether a state attorney general should be allowed to intervene to defend a state law, after a federal court of appeals invalidates it and no other state official will defend it.

Attorney General Brnovich was joined in the brief by Attorneys General representing the following states: Alabama, Alaska, Arkansas, Georgia, Indiana, Kansas, Louisiana, Mississippi, Missouri, Montana, Nebraska, Ohio, Oklahoma, South Carolina, South Dakota, Tennessee, Texas, Utah, and West Virginia.

Copy of [Amicus Brief](#).

Screening Meeting Information for Maricopa County Commission on Trial Court Appointments

The Maricopa County Commission on Trial Court Appointments will meet to review 22 applications for two vacancies on the Superior Court in Maricopa County created by the retirement of Judges Douglas Gerlach and Jeanne Garcia.

The meeting agenda, public meeting notice and the applications can be viewed online at the Commission's website, <https://www.azcourts.gov/jnc>.

The meeting will begin at 9:30 a.m. on Friday, December 11, 2020, in conference room 345 of the Arizona State Courts Building, 1501 W. Washington, Phoenix, AZ 85007. Public comment is accepted at this meeting, however, in order to maintain social distance, there is very limited seating. We highly encourage speakers to call-in at 602-452-3533, the meeting access code is 994 353 478.

If you wish to speak at this meeting, you must send your information and the subject of your comments to Blanca Moreno, at bmoreno@courts.az.gov by 8:30 a.m. on Friday, December 11, 2020.

###

Congressman Biggs Votes Against the NDAA Conference Report

WASHINGTON, D.C. – Tonight, the U.S. House of Representatives passed the *Conference Report to Accompany H.R. 6395 – Mac Thornberry National Defense Authorization Act*. Congressman Biggs voted against this conference report and issued the following statement:

"I support our military and have voted in support of the National Defense Authorization Act in previous years. However, this year's version of the NDAA was chalked full of special and anti-American interests that I could not, in good conscience, vote to support. Both the policies and the process are broken for this NDAA, and the House must begin to consider this bill under an open rule process. The considerations under the NDAA are too important for them not to warrant honest and open debate.

"The NDAA fails to prioritize strong border security operations along the southern border. It allows our endless wars to continue into perpetuity. It did not include my amendment that would have required the Department of Defense to report to Congress on defense spending by allied countries. And it authorizes the repeal of the Chief Management Officer position – one of the only offices at DOD that saves us money.

"Due to these reasons, and others, I was forced to oppose this conference report. I support President Trump's promise to veto this legislation once it reaches his desk, and I will do everything in my power to ensure that Congress will not be able to override his veto. We can and must do much better for our troops. I hope my Democrat colleagues will come back to the table and work with us to give our troops the very best from the United States Congress."

Sinema Hosts Call with Arizona Mayors and County Leaders to Answer Coronavirus Surge

Sinema continues holding regular calls with Arizona mayors and county leaders, Tribal communities, non-profit leaders, small business owners, and first responders

WASHINGTON – Arizona senior Senator Kyrsten Sinema hosted a call with Arizona mayors and county leaders about their coronavirus-related concerns, the importance of slowing the spread of the virus across Arizona, and what Sinema is fighting for in a next coronavirus-relief legislative package.

“Working directly with local leaders to stop the spread of the coronavirus and deliver coronavirus relief to communities in need will help save Arizona lives and jobs, and set our economy up for a full recovery,” said Sinema.

Mayors and county leaders from across Arizona joined Sinema on today’s call to discuss how to stop the spread of coronavirus, provide updates on a next coronavirus-relief package, and hear how to access coronavirus relief resources. Sinema has held regular calls with Arizona non-profit leaders, small business owners, and first responders. Sinema has also added a resources page to her website, www.sinema.senate.gov/corona, for Arizonans looking for the latest information on coronavirus.

###

Arizona Transportation Electrification Forum to highlight the adoption of clean electric vehicles across the state

PHOENIX – The second annual Arizona Transportation Electrification Forum will bring together the key players in Arizona’s growing electric vehicle (EV) sector, including EV manufacturers, policymakers, utilities, educators and innovators. **The Forum will convene virtually on Friday, December 11, 2020.**

The event will feature a virtual EV ride and drive, and address a variety of topics, including an overview of the EV market nationwide and how the market is active and growing in Arizona. The event will also dive into the synergy between transportation electrification policies in Arizona and economic recovery policy efforts. U.S. Rep. Greg Stanton will be featured as the keynote speaker, highlighting what Arizona can expect from the federal level on transportation electrification policies. The Forum will also include an awards ceremony for those leading the electric vehicle transition in Arizona, as well as videos from EV drivers in the state. The event will conclude with a series of concurrent case studies focused on including equity considerations in any transportation electrification policies and programs, fleet electrification, programs for the public and private sectors, and policies cities can adopt to advance transportation electrification.

Come learn about the benefits of electrified transportation and what Arizona is already doing to support more EVs on the roads, and how Arizona can accelerate the adoption of electric vehicles.

WHAT: Arizona Transportation Electrification Forum

WHEN: Friday, December 11, 8 am—2:00 pm MST

WHERE: Virtually on Zoom, registration at azteforum.com

WHO: Presented by Plug In America, the Energy Policy Innovation Council at Arizona State University, and the Southwest Energy Efficiency Project. Participating organizations include American Lung Association Arizona, Arizona PIRG Education Fund, Arizona Public Service, Atlas Public Policy, the Electrification Coalition, EVgo, Lucid Motors, City of Phoenix, Salt River Project, Siemens, Tucson Electric Power, and Western Resource Advocates. U.S. Rep. Greg Stanton of Arizona Congressional District 9 is also our featured speaker. [See full agenda.](#)

About Plug In America: Plug In America is the nation’s leading independent consumer voice for accelerating the use of plug-in electric vehicles in the United States. Formed as a non-profit in 2008, Plug In America provides practical,

objective information collected from our coalition of plug-in vehicle drivers, through public outreach and education, policy work and a range of technical advisory services. Our expertise represents the world's deepest pool of experience of driving and living with plug-in vehicles. We drive electric. You can too. PlugInAmerica.org

About Energy Policy Innovation Council at Arizona State University:

The Energy Policy Innovation Council at Arizona State University informs and educates policymakers on current, complex issues in energy policy that impact Arizona and beyond. We are housed within the School for the Future of Innovation in Society and the College of Global Futures at Arizona State University in Tempe, Arizona.

Visit: www.sustainability.asu.edu/energy-policy/

About the Southwest Energy Efficiency Project:

The Southwest Energy Efficiency Project is a public interest organization promoting greater energy efficiency in Arizona, Colorado, Nevada, New Mexico, Utah, and Wyoming. For more information, visit www.swenergy.org.

Subject: Sen Engel Newsletter with info about eviction bills

Hi Jerod, I recall talking to you back in January after I had just dropped just a couple of my eviction related bills. I have now dropped all of them (9) and I describe them in the newsletter that I just sent out over the weekend. Pls see below.

Feel free to let me know if you would like to talk about them in more detail.

sincerely,

Kirsten Engel

Subject: Letter from the Legislature 2021 #2: Wasted Opportunities!
Reply-To: State Senator Kirsten Engel <kengel@azleg.gov<mailto:kengel@azleg.gov>>

What the AZ Legislature could be doing but isn't.

[<https://mcusercontent.com/379bcf4769d8d9acabe9ec634/images/f88c1860-dc8d-455a-889f-31defba6daf5.png>]

Dear Friend,

Thus far this legislative session has been a big disappointment. Rather than address the pandemic, the Legislature has been filling its time passing non-pandemic bills stuck in the queue last year and teeing up bills that undercut our voting rights or pile on more tax cuts.

It does not have to be this way. In this newsletter I would like to talk about some of my proposals for addressing the eviction and housing crisis we are facing and to contrast these proactive, pandemic-related measures with some of the disturbing bills that I believe will suppress the vote and undermine our elections. I'll conclude with some ways you can make your voice heard - in support or opposition to the bills currently being considered.

Spotlight on My bills to Prevent Evictions and Promote Housing Stability in Arizona

I've now introduced nine eviction-prevention/affordable housing bills. These bills address the short-term eviction crisis, systemic problems in our landlord-tenant act, and the long-term challenge of creating more affordable housing.

[<https://mcusercontent.com/379bcf4769d8d9acabe9ec634/images/f444da5c-146d-409d-ba6a-be5db0511e15.png>]

Bills Addressing the Eviction Crisis

Thousands of Arizona families are at risk of eviction when the moratorium, extended by the Biden Administration to March 31, 2021, expires. The moratorium is helping to keep a roof over people's heads (though there are large loopholes that result in evictions continuing), but it doesn't pay rent in arrears or give families a cushion going forward as they work to get themselves back into the job market. Families eligible for rental assistance are often unable to satisfy the paperwork requirements to actually receive a payment before they are evicted. Many tenants now have eviction judgments on their records, a blight on their credit that will dog their ability to find housing for the next seven years. As detailed in today's New York

Times<[https://engelforarizona.us17.list-manage.com/track/click?](https://engelforarizona.us17.list-manage.com/track/click?u=379bcf4769d8d9acabe9ec634&id=b39b232013&e=7262f38991)

[u=379bcf4769d8d9acabe9ec634&id=b39b232013&e=7262f38991](https://engelforarizona.us17.list-manage.com/track/click?u=379bcf4769d8d9acabe9ec634&id=b39b232013&e=7262f38991)>, some families are going to extraordinary lengths to avoid an eviction - running up debt on credit cards and moving in with other family members into

crowded living arrangements.

Legislation is only part of the answer to this crisis. Arizona will be receiving over \$490 million in rental relief from the latest federal stimulus package, and that will be a huge help. This money will be distributed by the AZ Department of Economic Security and the legislature is not directly involved in its distribution. It is important to note that not all families struggling qualify for this aid and for some tenants with an eviction already on their records, the assistance comes too late. Working with Pima County's Eviction Prevention Taskforce, here's some solutions I'm proposing in legislation:

SB 1666 affordable housing; appropriation<<https://engelforarizona.us17.list-manage.com/track/click?u=379bcf4769d8d9acabe9ec634&id=b7a97e2506&e=7262f38991>>: appropriates \$25 million to the AZ Housing Trust Fund and conditions a landlord's receipt of any of this funding upon its agreement not to file, finalize or enforce an eviction action.

Assigned to: Senate Appropriations Committee

Status: Has yet to be placed on a Committee agenda

SB 1661 housing assistance program; appropriation<<https://engelforarizona.us17.list-manage.com/track/click?u=379bcf4769d8d9acabe9ec634&id=20461150f9&e=7262f38991>>: Establishes a new grant program, the "Housing Assistance Program" in the AZ Department of Housing and appropriates \$10 million toward the program during 2021-22. Under the legislation, a nonprofit legal services organization, community action agency, or HUD-approved housing counseling agency may apply for funds to hire housing navigators to provide community outreach, education and resources related to general housing matters, effective tenancy, leases and rental agreements, eviction and foreclosure processes and referrals to housing programs.

Assigned to: Senate Appropriations and Senate Commerce Committees

Status: Has yet to be placed on a Committee agenda

SB 1663 state; emergency; eviction reporting; prohibited<<https://engelforarizona.us17.list-manage.com/track/click?u=379bcf4769d8d9acabe9ec634&id=a96ad42294&e=7262f38991>>: Requires the sealing of any filing, pleading or judgment in an eviction action based on nonpayment of rent that was rendered during the Covid-19 pandemic and between the dates of March 11, 2020 and June 30th, 2022. Requires housing applications to inform prospective tenants that they may answer "No record" in response to an inquiry, on a housing application, regarding a record sealed pursuant to the legislation.

Assigned to: Senate Judiciary Committee

Status: Has yet to be placed on a Committee agenda

[<https://mcusercontent.com/379bcf4769d8d9acabe9ec634/images/d95e63a1-8d6d-4a87-b5ff-56af3ec9c2c9.png>]

Photo courtesy of Tucson.com.

Bills addressing systemic problems in Arizona's Landlord-Tenant Laws

The eviction crisis has laid bare systemic problems with our landlord-tenant laws. I have introduced the following bills to deal with some of these issues, raised by stakeholders:

SB 1038 landlord tenant; rent; fifteen days<<https://engelforarizona.us17.list-manage.com/track/click?u=379bcf4769d8d9acabe9ec634&id=7cfb792ce8&e=7262f38991>>. Currently, Arizona law requires landlords to notify tenants of their intent to evict the tenant for nonpayment of rent just 5 days before they actually file to do so, one of the shortest periods for such notices in the nation. Tenants are left scrambling, often over a weekend, to pull together money or contact their landlord to work out a payment plan. This short time period has been a particular problem during the pandemic, as five days is usually too short a timeframe for tenants to apply for and receive, rental assistance from a city, county or nonprofit program. This bill does one thing and one thing only: it extends that 5 day period to 15 days. This is an easy fix and one very much needed for tenants and landlords alike.

Assigned to: Senate Commerce Committee

Status: Has yet to be placed on a Committee agenda

SB1130: constables; pending eviction notification; mileage<<https://engelforarizona.us17.list-manage.com/track/click?u=379bcf4769d8d9acabe9ec634&id=29521b042e&e=7262f38991>>: Provides that constables may be reimbursed for their mileage with respect to any additional trips they make to visit tenants in the eviction process to inform the tenants about housing resources. A pilot project by Pima County constables found the number of evictions tumbled after constables did this basic outreach to inform tenants in advance of a pending eviction action and to provide them information about housing options. This successful pilot program was even featured in High Country News<<https://engelforarizona.us17.list-manage.com/track/click?u=379bcf4769d8d9acabe9ec634&id=efb1986941&e=7262f38991>>! This bill is designed to ensure that constables are not discouraged from making these visits by having to pay for the mileage out of their own pockets.

Assigned to: Senate Judiciary Committee

Status: Has yet to be placed on a Committee agenda

[<https://mcusercontent.com/379bcf4769d8d9acabe9ec634/images/2e308ced-d6aa-4223-add1-fba45f118fd0.png>]

SB 1039 eviction prevention; study committee<<https://engelforarizona.us17.list-manage.com/track/click?u=379bcf4769d8d9acabe9ec634&id=f6bf27a43e&e=7262f38991>>: Establishes a study committee on statewide eviction prevention and housing affordability and specifies a broad array of stakeholders to serve on the study committee. The Committee is charged with determining how the state can reduce eviction filings and mitigate the financial and personal costs of evictions to tenants and landlords, explore processes to ensure tenants understand their rights under the law, gather information on housing affordability and propose legislation to address problems identified by the committee.

Assigned to: Senate Commerce Committee

Status: Has yet to be placed on a Committee agenda

For those who wish to take a deeper dive in some of additional bills that I have introduced, please see:

SB 1472 landlord tenant; security deposits; waiver<<https://engelforarizona.us17.list-manage.com/track/click?u=379bcf4769d8d9acabe9ec634&id=53411163ee&e=7262f38991>>

SB 1662 constable ethics standards board; membership<<https://engelforarizona.us17.list-manage.com/track/click?u=379bcf4769d8d9acabe9ec634&id=ce448d4d40&e=7262f38991>>

SB 1665 landlord tenant; housing assistance; waiver<<https://engelforarizona.us17.list-manage.com/track/click?u=379bcf4769d8d9acabe9ec634&id=b8037e4291&e=7262f38991>>

SB 1664 landlord tenant; evictions; forms<<https://engelforarizona.us17.list-manage.com/track/click?u=379bcf4769d8d9acabe9ec634&id=b424655d56&e=7262f38991>>

What the Arizona Legislature is doing instead of eviction-prevention and pandemic relief:

But the Arizona legislature is NOT addressing our eviction and housing crises, but instead is spending a large amount of its time and effort keeping alive conspiracy theories regarding the 2020 election, debating bills to remove Arizonans from the voting rolls, and burdening our election officials with more bureaucratic requirements that seem to lack all justification.

[<https://mcusercontent.com/379bcf4769d8d9acabe9ec634/images/8e626b47-2fc4-4a5a-b965-75df313da0a9.png>]

Graphic courtesy of the New York Times, Opinion, The Voter Suppression State, Jan 31, 2019.

As has been widely reported in the national<<https://engelforarizona.us17.list-manage.com/track/click?u=379bcf4769d8d9acabe9ec634&id=4a80a267de&e=7262f38991>> and local press<<https://engelforarizona.us17.list-manage.com/track/click?u=379bcf4769d8d9acabe9ec634&id=6e65711fde&e=7262f38991>>, there are multiple bills pending in the

Arizona legislature that would upend our election and voting laws. The most extreme bill is Rep Bolick's HB 2720, would enable the the Arizona Legislature to overturn the results of a presidential election, even after the count is formally certified by the governor and secretary of state — and even after Congress counts the state's electors. See this article<<https://engelforarizona.us17.list-manage.com/track/click?>

[u=379bcf4769d8d9acabe9ec634&id=6bfaea0092&e=7262f38991](https://engelforarizona.us17.list-manage.com/track/click?u=379bcf4769d8d9acabe9ec634&id=6bfaea0092&e=7262f38991)> for more on this bill that completely circumvents the voters!

Most curious are bills that seek to restrict the use of mail-in ballots. Arizona practically invented mail-in ballots and over 80 percent of Arizonans use them, finding they give them time to research candidates and initiatives and, in the time of Covid-19, are safer than venturing in person to vote at a polling location. I oppose each of these bills that appear to be an effort by those unhappy with the outcome of the November 2020 election to suppress the vote.

Below are some of the bills I am most concerned about. As you can see, many of the Senate bills have passed out of committee and are ready for Floor debate and final vote.

SB 2720: ballots; election contests; certificates<<https://engelforarizona.us17.list-manage.com/track/click?u=379bcf4769d8d9acabe9ec634&id=f14d3ac434&e=7262f38991>>: As mentioned above, this bill sponsored by Rep Bolick would enable the the Arizona Legislature to overturn the results of a presidential election.

SB 1069 permanent early voting list; eligibility:<<https://engelforarizona.us17.list-manage.com/track/click?u=379bcf4769d8d9acabe9ec634&id=bf138cae4a&e=7262f38991>> Removes a voter from the permanent early voting list (PEVL) if the voter fails to vote by early ballot in both the primary election and the general election for two consecutive primary and general elections for which there was a federal, statewide or legislative race on the ballot.

Status: Passed the Government Committee on a party-line vote; waiting debate on the Senate Floor.

SB 1083 elections; recount margin<<https://engelforarizona.us17.list-manage.com/track/click?u=379bcf4769d8d9acabe9ec634&id=f38a2b0abd&e=7262f38991>>: Increases, from one-tenth of one percent or a set number of votes to one-half of one percent, the trigger for an automatic recount in a primary or general election.

Status: Passed the Government Committee on a party-line vote; waiting debate on the Senate Floor.

SB1020 voting locations; electioneering<<https://engelforarizona.us17.list-manage.com/track/click?u=379bcf4769d8d9acabe9ec634&id=0a418c5d4d&e=7262f38991>>; Removes the ability of a county recorder or other officer in charge of elections to designate emergency non-electioneering polling places.

Status: Passed the Government Committee on a party-line vote.

SB 1358: recorders; voter registrations; public buildings:<<https://engelforarizona.us17.list-manage.com/track/click?u=379bcf4769d8d9acabe9ec634&id=6a5aca3b20&e=7262f38991>> Prohibits a county recorder from conducting a voter registration drive or other similar voter registration event at any location that is not government owned.

Status: Passed the Government Committee on a party-line vote.

SB 1240 hand counts; precincts; procedures manual<<https://engelforarizona.us17.list-manage.com/track/click?u=379bcf4769d8d9acabe9ec634&id=3488eda5fa&e=7262f38991>>: Requires ballots in counties using voting centers to be separated and grouped by precinct for the purpose of a hand count audit.

Status: Passed the Government Committee on a party-line vote.

Where to find the 47 bills I've filed this Legislative Session

You can easily find my eviction-prevention and housing affordability bills described above, as well as my bills on education, water, criminal justice and other topics by going to: www.azleg.gov<<http://www.azleg.gov>>,

click "Bills", click "Bills Tracking," hit "Search" on left side menu, click "Sponsors" and search under my name. You will see the list of bills that I have "prime" sponsored or co-sponsored. Enjoy!

[<https://mcusercontent.com/379bcf4769d8d9acabe9ec634/images/2ec093ec-871b-4370-9f54-548e9967c7da.jpeg>]

This past Monday was the deadline for filing bills in the Senate. I dropped off the last of my 47 bills! It will be a Tough Week Ahead

Tomorrow, the Senate will spend more countless hours trying to give life to baseless conspiracy claims about the Nov. election by likely passing the GOP-sponsored resolution to hold the GOP-controlled Maricopa Board of Supervisors in contempt (which makes them subject to imprisonment!). The reason? Senate Republicans are upset the Board failed to comply to with a crazy- broad subpoena from the Chair of the Senate Judiciary Committee to obtain copies of 2.1 million voted secret ballots and the inspection of certified elections equipment by a sketchy auditing company and is instead is pursuing its own audit. Because I am on the Judiciary Committee, I am actually named as a defendant in the County's lawsuit to quash that subpoena!

[<https://mcusercontent.com/379bcf4769d8d9acabe9ec634/images/743f1b56-88af-4ab2-a99f-991dbedee477.png>]

The complaint of the Maricopa Board of Supervisors seeking to quash the subpoena issued by the Chair of the Senate Judiciary Committee.

Sign up for the Legislature's "Request to Speak" system to make your voice heard on bills you like or oppose!

You can register your support or opposition to particular bills once the bill has made it onto a Committee agenda through the legislature's "Request to Speak" (RTS) system.

You may have heard that you need to go in person to activate your RTS account. Luckily, there is an organization that can activate your account on your behalf!

Contact Civic Engagement Beyond Voting to request an account. <<https://engelforarizona.us17.list-manage.com/track/click?u=379bcf4769d8d9acabe9ec634&id=5556d45646&e=7262f38991>> They will create an account for you at the Capitol and notify you when it's ready.

This legislative manual <<https://engelforarizona.us17.list-manage.com/track/click?u=379bcf4769d8d9acabe9ec634&id=c797a4836f&e=7262f38991>> walks you through how to use the Request to Speak system.

Look out for future emails from me about specific bills to oppose or support and thank you in advance for speaking out on these important issues!

Another GREAT way to participate: Join our March 6th LD10 Town Hall!

Join us 10-11:30 on Saturday, March 6th for our next Town Hall! Photo from our Jan 30th Town Hall with special guest Pima County Health Director Dr. Theresa Cullen. LD10 Reps. Domingo DeGrazia and Stephanie Stahl Hamilton and I got terrific questions from those who were able to tune in. We're looking forward to answering more of your questions on March 6th! You can send in your questions anytime by filling out and submitting this form <<https://engelforarizona.us17.list-manage.com/track/click?u=379bcf4769d8d9acabe9ec634&id=0b4346c07e&e=7262f38991>> before or during the Town Hall. We'll try to get to as many of your questions as we can!

[<https://mcusercontent.com/379bcf4769d8d9acabe9ec634/images/035e6052-5a58-425d-b4f7-9b4e9f75eb4c.png>]

During the January 30th LD10 Town Hall, we heard from Pima County Health Director and Admiral Theresa Cullen on the status of the pandemic in Pima County as well as progress on the vaccine roll-out. Reps Domingo DeGrazia and Stephanie Stahl Hamilton and myself gave a legislative update. Tune in March 6th from 10 - 11:30 for our next Town Hall. Details on

www.facebook.com/engelforarizona<<http://www.facebook.com/engelforarizona>>.

There's more to come, so stay tuned!

I try to keep my Facebook page updated with news of recent events. Email me your comments and concerns at: kengel@azleg.gov<<mailto:kengel@azleg.gov>> and I will try to get back to you (but unfortunately, please keep in mind that, due to volume of emails it is proving impossible to respond to every email I receive).

See you March 6th for the next LD10 Town Hall!

Best,

THE BACKSTORY IS EVEN WEIRDER

Last week's resignation of Rae Chornenky as chair of the Maricopa County GOP was precipitated by a months-long power struggle between the county party and the Trump campaign, former county GOP Executive Director Van DiCarlo told our reporter.

HER ORIGINAL RANT MAKES MORE SENSE IN CONTEXT

Chornenky has not returned calls for comment at her office but confirmed parts of the story this week on Twitter, where she wrote that as she was arriving at the County Election Center, she was told that Swoboda had signed in as an observer.

TRUMP'S TEAM USED BULLY TACTICS, YOU SAY?

As DiCarlo tells it – and Chornenky tweets it – the wrestling between Trump campaign representatives and the county party started over who would train poll observers.

AMERICAN
OVERSIGHT

IF SHE RESIGNED, WHO WOULD BE THE SCAPEGOAT?

The Trump campaign also demanded Chornenky pre-sign paperwork that poll observers fill out, and at one point, she felt so uncomfortable with what the Trump campaign was asking her to do, she offered to resign, according to DiCarlo.

WITH TALK LIKE THAT, NO WONDER HE RESIGNED

DiCarlo isn't so sure that it even matters that Chornenky wasn't there for the test.

WE WERE STARTING TO GET WORRIED ABOUT DOUG

With pressure mounting from several elected officials to issue a statewide mask mandate, Ducey is set to face the public in his first press conference since the election.

THREE-DAY WORKWEEK!

Bowers chose Jake Hoffman, whose political consulting firm was kicked off social media for using fake accounts to spread election disinformation, to be second-in-command to Kavanaugh on the new House Government and Elections Committee.

WHAT'S BLUE ON TOP AND RED ALL OVER?

Outgoing Arizona Democratic Party chair Felecia Rotellini abruptly ended a call with our reporter today after insisting Democrats had a banner year.

IT'S REALLY BRINGING OUT THE BEST PEOPLE

Former lawmaker Barbara Blewster joined the chorus of Republicans calling on legislators to start a special session to conduct "an immediate recount" of the 2020 general election – a prospect that's highly unlikely.

NEWS NOTES AND GOSSIP

THE BACKSTORY IS EVEN WEIRDER

Last week's resignation of Rae Chornenky as chair of the Maricopa County GOP was precipitated by a months-long power struggle between the county party and the Trump campaign, former county GOP Executive Director Van DiCarlo told our reporter. Another former top-level party official largely confirmed his account. Chornenky's resignation followed criticism from within her own party that she failed to appear to observe the October logic and accuracy test of voting machines in the county. Chornenky's absence looked suspicious to conservatives convinced that the voting machines helped enable vote fraud, and intense criticism from Townsend and others led up to her abrupt resignation last week ([YS, 11/11](#)) But, according to DiCarlo, who resigned yesterday in protest, Chornenky is not to blame. On the day of

the logic and accuracy test, Chornenky had left her law office to observe the test when she got a phone call that Gina Swoboda, the Trump campaign's Arizona director of elections, had arrived and declared herself Chornenky's designee to observe the test without her knowing. Chornenky turned around, only to receive a call from the county informing her that Swoboda had left and instead a representative from the state party named Jack Clark had taken over the duty. DiCarlo said that the county told Chornenky that there was a "big problem," and that she was advised that Swoboda could not observe the test because she's a representative from a campaign, and candidates are not allowed to enter voting facilities after early ballots go out. Megan Gilbertson, a spokeswoman for the Maricopa County Elections Department, told our reporter that the county's policy is not to allow candidates, campaigns or their agents inside the ballot tabulation room, and Swoboda was invited to watch from the public observation area instead. Clark also came to the test, but when the county called Chornenky, she said he wasn't authorized to act as her agent. Steven Slugocki, the Maricopa County Democratic Chair who first pointed out Chornenky's absence on Twitter, said he remembers Swoboda waiting outside the facility and some man from the state party – presumably Clark – coming in and initialing a few of the machines. "He and I even joked about it. He was like, 'guess I'm getting kicked out,'" Slugocki told our reporter. Swoboda did not return an email or phone call, nor did a spokesman for the Trump campaign in Arizona.

HER ORIGINAL RANT MAKES MORE SENSE IN CONTEXT

Chornenky has not returned calls for comment at her office but confirmed parts of the story this week on Twitter, where she wrote that as she was arriving at the County Election Center, she was told that Swoboda had signed in as an observer. "Although I had RSVP'd as the GOP-authorized Observer, AZ law allows only one single observer per party," she wrote ([LINK](#)). "AZ Election Day Operation Director Swoboda knows this and House Elections Committee Chairman Kelly Townsend knows this. To avoid a GOP public conflict in front of the Democrat Secretary of State and county chairman, I did not walk in." This background also shines a light on Chornenky's vitriolic response to Townsend on Twitter last week. "I'll tell you what, I'll resign when you sprout even an ounce of integrity and obtain the intelligence to check your facts before spreading filth about a person whom you don't know on a topic about which you have not the slightest clue," she wrote ([YS, 11/10](#)).

TRUMP'S TEAM USED BULLY TACTICS, YOU SAY?

As DiCarlo tells it – and Chornenky tweets it – the wrestling between Trump campaign representatives and the county party started over who would train poll observers. Before the primary, the county began training the observers – volunteers who go to polling places to watch for irregularities – but found the applicant pool to be thin. “There were about 10,000 one hour time slots that had to be filled,” he said. “Let’s just say we weren’t successful.” Ahead of the November election, DiCarlo and Chornenky got a call from Swoboda, who said the Trump campaign wanted to take over the recruiting, training and deploying poll observers, DiCarlo said. “The problem with that is the authorization to be a poll

observer is the exclusive purview of the county party,” he said ([LINK](#)). Chornenky, not sure if she could legally abdicate her responsibilities and not particularly wanting to regardless, refused. The campaign could not abide by this. “They came to her, and with heavy-handed tactics, pressured her into relinquishing her duties,” DiCarlo said. “They said, ‘If you don’t do this, we’re going to lose the election, and if we lose, you’re going to be the person responsible for it.’” After weeks of pressure, DiCarlo, Swoboda and Chornenky entered into an agreement: The Trump campaign could recruit and train observers, but they must provide an updated list of trainees and copies of the training materials – with the opportunity to make additions – to the county GOP. “They didn’t follow through on either one,” DiCarlo said. This, for obvious reasons, was problematic for Chornenky. “There’s about 1,000 ways a polling observer can go to a polling location and do something or say something that can be illegal and get them thrown out,” DiCarlo continued. “The county chairwoman would bear responsibility in that.”

IF SHE RESIGNED, WHO WOULD BE THE SCAPEGOAT?

The Trump campaign also demanded Chornenky pre-sign paperwork that poll observers fill out, and at one point, she felt so uncomfortable with what the Trump campaign was asking her to do, she offered to resign, according to DiCarlo. “What they were demanding of Rae was that she sign one thousand blank authorization forms and turn them over to Gina,” he said. She begrudgingly agreed, but didn’t move fast enough, and the angry calls resumed, along with emails, texts and tweets. Eventually, while Chornenky was out of town, the campaign demanded that she hand over the forms, and told her that an envoy would meet her upon her arrival at Sky Harbor to retrieve them, DiCarlo said. Separately, the Trump campaign asked Chornenky to

relinquish access to the live-lookup voter file that all county party chairs and state parties can access. This arrangement made her uncomfortable, as she’s not just a party activist but also an attorney who could be subject to bar complaints. “Because of the agreement you sign with the Maricopa County elections department, there’s a certain amount of liability that attaches to the chairman if and when that information is used improperly or becomes public,” DiCarlo said. “Rae, because of her profession, has added exposure.” As such, she offered to resign and let First Vice Chairman Linda Brickman take over – that way, if something improper were to occur with the voter data, Chornenky’s career wouldn’t be in jeopardy. But Swoboda and the Trump campaign asked that she stay, DiCarlo said.

WITH TALK LIKE THAT, NO WONDER HE RESIGNED

DiCarlo isn't so sure that it even matters that Chormenky wasn't there for the test – he figures that if there was a problem with the logic of the tabulation machines, it could hurt Democrats as well – meaning that Slugocki or the various county or state officials present would likely have said something. However, this didn't stop the waves of criticism. “That one tweet from Kelly Townsend got 5,266 likes,” DiCarlo said. “That was the straw that broke the camel's back. How do you explain yourself to 5,000-plus people who already have the mindset that you were negligent?”

WE WERE STARTING TO GET WORRIED ABOUT DOUG

With pressure mounting from several elected officials to issue a statewide mask mandate, Ducey is set to face the public in his first press conference since the election. It's unclear what the governor's focus will be, but Hoffman yesterday published a statement calling for a statewide mask mandate, among other efforts, saying they “are essential to protecting our healthcare and education professionals and institutions, including our students and families.” She didn't call out Ducey by name, but it's clear she was addressing the governor. Phoenix Mayor Kate Gallego took a more direct approach. “I have asked [Ducey] to issue a statewide mask mandate and keep that order in place until we have wide distribution of a vaccine, more effective treatments, or both,” she tweeted and said during her State of the City address today. Ducey has not spoken to Gallego since he allowed cities to issue mask mandates in June and he did not attend a press conference with Hoffman and Dept of Health Services Director Cara Christ last week about schools and coronavirus. Ducey is now the only governor in the country to not give any live public statements to the press in the past two weeks ([LINK](#)).

THREE-DAY WORKWEEK!

Bowers chose Jake Hoffman, whose political consulting firm was kicked off social media for using fake accounts to spread election disinformation, to be second-in-command to Kavanaugh on the new House Government and Elections Committee. Hoffman is also personally banned from Twitter for his use of Russian troll farm tactics to push disinformation ([YS, 10/14](#)). Besides that eyebrow-raising pick, the biggest change from Bowers' announcement about Republican committee assignments today is that the House will have far fewer committees – just 13 compared to 19 this year – allowing Bowers to shorten the four-day workweek down to just three days. Thursdays will be solely dedicated to floor action. Gone are the Federal Relations Committee, the Regulatory Affairs Committee, the State and International Affairs Committee, and the Technology Committee. Besides mashing Government and Elections committees together, Bowers had the Military and Veterans Affairs Committee absorb the Public Safety Committee to become the Military Affairs and Public Safety Committee. The Land and Agriculture Committee also added a rural component to become the Land, Agriculture and Rural Affairs. There's also one new committee: Blackman, after a full term of agitating for sentencing reform, will at last get his standing committee on Criminal Justice Reform. The new chairs include Pratt, who will take over for J Allen on the Judiciary Committee; Osborne, who will replace Barto on the Health and Human Services Committee; Bolick, who will chair Ways and Means, replacing Toma, now the House majority leader; and Carroll, who will replace Campbell on Transportation. Nutt will replace Kern on Rules, and replace Shope as head of Ethics. Payne will remain chair of the retooled Military Affairs and Public Safety Committee; Dunn will retain control of the new Land, Agriculture and Rural Affairs Committee; Cobb and Kavanaugh will continue to rule over the powerful Appropriations Committee; Udall will remain chair of the Education Committee alongside freshman Rep. Beverly Pingerelli; and Nutt will remain chair of the Natural Resources, Energy and Water Committee.

WHAT'S BLUE ON TOP AND RED ALL OVER?

Outgoing Arizona Democratic Party chair Felecia Rotellini abruptly ended a call with our reporter today after insisting Democrats had a banner year. “We are a blue state,” she emphatically told our reporter. She pointed to the fact that Arizona now has two Democratic US Senators in Sinema and Mark Kelly, two Democrats on Corp Comm and sent its 11 electoral votes to a Democrat for the first time since 1996. Adding a seat to Corp Comm still does not give Democrats control of the body. Republicans kept the majority in both legislative chambers, retained all Maricopa County seats and picked up the County Recorder’s Office, which complicates the simplistic argument that Arizona is blue. Yet Rotellini argued that nothing went wrong for Democrats in the election. “We killed it in early voting. That’s why Biden had a 10 percent advantage on the night of the election,” she said. Biden still only won by three-tenths of a percent. She said if people want to blame her for not winning more seats further down the ballot, then that’s their business. “Politics is a blood sport and if folks have to find somebody to blame for something, then that is what I signed up for as chair, but I can tell you that we will continue to work very hard to flip more seats,” she said. The state party will have to do that without Rotellini in charge as she’s already announced she won’t run again ([YS, 11/16](#)). Rotellini then ended the call with our reporter after being asked if the Biden or Kelly campaigns could have used their national resources or endorsements to help down ballot candidates. “I really don’t have a comment on that. I need to get off the phone. I work for a living and I have to take a call,” she said.

IT'S REALLY BRINGING OUT THE BEST PEOPLE

Former lawmaker Barbara Blewster joined the chorus of Republicans calling on legislators to start a special session to conduct “an immediate recount” of the 2020 general election – a prospect that’s highly unlikely. The former lawmaker, who has a penchant for conspiracies and racist rhetoric, is a lifelong member of the John Birch Society. She sent a letter to House and Senate lawmakers today calling on lawmakers to immediately begin a special session, though, of course, a special session must be called by Ducey or by two-thirds of each chamber, meaning it would need Democratic support. She attached to her email an interview from *Fox News*’ Lou Dobbs with Sidney Powell, a right-wing attorney who represented former National Security Adviser Mike Flynn during the Russia probe. Powell “exposes the altered elections program of the Dominion Voting Systems and indicates corruption of state governors and other state officials

similar to Joseph Biden in the Burisma-Ukraine case,” Blewster wrote. Calls for audits and recounts have become commonplace among conservatives who have bought into (or propagated) baseless claims of election fraud centering on the use of Dominion Voting Systems, a company that several states contracted with for voting machines. House leadership has not signaled any interest in a special session on this subject. Blewster, who represented the Dewey area in the early 2000s, had a record of racist, deeply homophobic and anti-Semitic remarks while at the Legislature, to the point that her name still comes up as one of the most controversial lawmakers to ever serve. Among the most frequently repeated stories of her time at the Capitol is when she told then-Republican lawmaker Barbara Leff, who objected to holding a special session over Passover, that she was surprised to learn Leff was Jewish “because you don’t have a big hooked nose and you don’t act like one” ([LINK](#)).

Former School District Secretary Indicted for Allegedly Stealing School District Funds

JOSEPH CITY, AZ --- Attorney General Mark Brnovich announced that based upon an investigation performed by the Office of the Auditor General, a State Grand Jury indicted Tonnie Rae Pugh, a former attendance secretary for the Joseph City Unified School District. Pugh is accused of stealing \$40,436 in District funds.

Joseph City Unified School District is one of 11 public schools in Navajo County and provides public education from preschool to grade 12 and serves approximately 412 students. In addition to her duties as attendance secretary, Pugh was also responsible for depositing funds raised through student activities such as club fundraisers and those raised by auxiliary operations like athletic event ticket sales. It is alleged that between July of 2011 and January of 2018, Pugh used her position to take cash payments she collected from faculty, students, and parents for her own personal use. Pugh was indicted on charges of Fraudulent Schemes and Artifices, Violation of Duties of a Custodian of Public Monies, and Theft.

All defendants are presumed innocent until proven guilty in a court of law.

Assistant Attorney General Mary Harriss is prosecuting this case.

Congressman Biggs Applauds Continued Withdrawal of American Troops from Middle East

WASHINGTON, D.C. – Today, U.S. Department of Defense Acting Secretary Christopher Miller announced that the Trump administration would continue to withdraw American troops from Afghanistan and Iraq. According to the acting secretary, there would be 2,500 troops left in both Afghanistan and Iraq by January 15, 2021. Congressman Biggs issued the following statement:

“Today is a great day for our nation and for the men and women who serve in our military. For almost two decades, American troops have occupied Afghanistan and Iraq – at great cost to our nation both in lives and in dollars. Our men and women in uniform deserve to fight constitutionally sanctioned wars where American interests are on the line. American servicemembers have fought valiantly in the Middle East, but the current stage of these conflicts can no longer justify the tremendous sacrifices made by our troops stationed in Afghanistan and Iraq.

“Since taking office, President Trump has kept his promises to withdraw our troops from the Middle East and to stop America’s involvement in endless wars. President Trump understands that our troops should only be used to defend American interests where there is an immediate or ongoing threat to our citizens or allies. And President Trump knows that our propensity for endless wars has bankrupted our grandchildren’s financial futures. I am grateful for the president’s courage and commitment to his promises, and I look forward to the return of our troops.”

Last week, Congressman Biggs [sent a letter to President Trump](#), asking him to continue to strategically draw down our nation’s military presence in Afghanistan and Iraq.

“QUOTE
OF THE DAY”

“They came to her, and with heavy-handed tactics, pressured her into relinquishing her duties.”

- Van DiCarlo, former executive director of Maricopa County Republican Party, on the Trump campaign’s attempt to take over party duties from former Chairwoman Rae Chornenky

ANOTHER ONE BITES THE DUST

Maricopa County Superior Court judge John Hannah dismissed the AZGOP's lawsuit calling for a new hand audit of election results, leaving a second "Sharpiegate" suit as the last obstacle to certifying election results in Maricopa County.

HEY, THAT'S WAY MORE THAN DUCEY SAID

In a letter to fellow Republicans yesterday, Bowers pushed back on the election conspiracies some have been pushing and shot down questions about whether the Legislature has the ability to deny Biden's victory in Arizona.

AND SOMEHOW HE DIDN'T END UP WITH A CHAIRMANSHIP

Divisions between Republicans who want to further audit the election and those who want to respect the results of already completed legal audits spilled

AMERICAN
OVERSIGHT

over onto Twitter last night as Roberts publicly aired his grievances with Bowers.

REPLY ALL

Bowers responded to Roberts' "greatly mischaracterized" version of events in a letter to his caucus today titled "Setting the Record Straight."

NEXT TIME, CC YELLOW SHEET

Bowers' response to Roberts' tweet thread, of course, engendered more pushback.

THE TEST WAS SO GOOD, EVERYONE WANTED TO SIGN

AZGOP Chair Kelli Ward and interim Maricopa County GOP Chair Linda Brickman fought over who gets to sign the paperwork certifying the results of yesterday's post-election logic and accuracy test of voting machines in Maricopa County.

IT PUTS SWEET HOME ARIZONA TO SHAME

Trump's Arizona elections director Gina Swoboda has been all over the Yellow Sheet Report recently for her role in party infighting, but her husband, Rob, caught our attention for one of the strangest campaign videos our reporter has ever seen.

REST IN PEACE

Former lawmaker Jerry Overton, a Republican who served in the Legislature for nine years in the late 1990s and early 2000s, passed away earlier this month.

NEWS NOTES AND GOSSIP

ANOTHER ONE BITES THE DUST

Maricopa County Superior Court judge John Hannah dismissed the AZGOP's lawsuit calling for a new hand audit of election results, leaving a second "Sharpiegate" suit as the last obstacle to certifying election results in Maricopa County. Hannah's ruling came out immediately before our deadline and an accompanying filing with his explanation was not yet available, but he was skeptical during yesterday's arguments. He also cleared Hobbs' office to request attorney's fees under a state statute that specifically applies to lawsuits brought without substantial verification, giving another insight into Hannah's annoyance with the case ([LINK](#)). The

state GOP sought to force the county to separate its ballots by precinct and perform a hand audit of 2 percent of precincts. Following guidance from the Election Procedures Manual – which bears the force of law – Maricopa County did its audit from 2 percent of voting centers. The hand counted audit results matched perfectly with ballots counted by tabulating machines. Party attorney Jack Wilenchik argued that precinct results would be more accurate, claiming that hackers would seek to change votes in specific precincts. With this dismissal, the only remaining election litigation is attorney Alexander Kolodin's repeat attempt to allow two of his Sharpiegate plaintiffs to vote again and watch their votes be counted. A hearing for that case is scheduled for tomorrow morning. (However, Trump's lawyer, Rudy Giuliani, claimed without evidence today that there was a nationally coordinated attempt to steal the election, and pledged another lawsuit in Arizona ([LINK](#).)

HEY, THAT'S WAY MORE THAN DUCEY SAID

In a letter to fellow Republicans yesterday, Bowers pushed back on the election conspiracies some have been pushing and shot down questions about whether the Legislature has the ability to deny Biden's victory in Arizona. "Given the outcome of the presidential race in Arizona, an enormous amount of pressure is being directed at my office and my colleagues," Bowers wrote in the letter, a copy of which our reporter obtained today ([LINK](#)). "I wish to respond by simply saying – I took an oath to support the Constitution of the United States and the Constitution and laws of the State of Arizona." Bowers has privately indicated his faith in the integrity of the state's election systems and the validity of the result, even if he doesn't like the outcome. However, with the backing of conspiracy-pedaling AZ GOP Chair Kelli Ward, a vocal contingent – Roberts, Blackman and others among them – has continued to question Biden's victory, even as election officials face threats of violence. In the letter, Bowers cited statute (including laws authored by current members of the caucus) to explain that the Legislature cannot retroactively select new presidential electors; that electors must cast their votes for the candidate who won Arizona; that there were "zero discrepancies" in Maricopa County's hand count; that none of the testing of Maricopa County's tabulation equipment has revealed any tabulation errors; and that lawmakers cannot force Maricopa County to hand count votes at all of its voting centers, among other points. "Many of the issues are or have been adjudicated," Bowers wrote. "We all are emotionally vested to one degree or another, but these are truths that I feel bound to uphold, expecting that the courts will give a final expression of their binding force upon me and us."

AND SOMEHOW HE DIDN'T END UP WITH A CHAIRMANSHIP

Divisions between Republicans who want to further audit the election and those who want to respect the results of already completed legal audits spilled over onto Twitter last night as Roberts publicly aired his grievances with Bowers. Roberts complained that the House Speaker called him into his office and “made it very clear” that he didn’t want Roberts to release a letter he sent to Brnovich and the Maricopa County Board calling for an audit and hand recount of the election ([LINK](#)). “I am not sure what the Speaker’s motives are, but it was disappointing that the Speaker would try and stop our effort to protect the integrity of our elections,” Roberts tweeted. Several Republicans in both chambers sign the letter, which Roberts eventually released anyway. Its thesis is that the use of voting centers instead of precinct polling places is in “direct contravention” of Arizona law. Roberts’ post also led Cook to tweet his support – he has been feuding with House leadership since the ethics investigation into his alleged affair with, and favors for, a lobbyist last year. Cook seemed to suggest that Bowers is denying Roberts a committee chairmanship because he was willing to speak out against leadership – though admittedly, in true Cook tweet style, this is just one possible interpretation. “So what’s the difference here?” he wrote. “O yea a vote – chairmanship- ‘LD6 State Representative Walt Blackman Calls for Election Audit State Wide’ – Just waiting for the results. – Pass the popcorn.”

REPLY ALL

Bowers responded to Roberts’ “greatly mischaracterized” version of events in a letter to his caucus today titled “Setting the Record Straight.” Bowers said he received Roberts’ letter and gave it to House attorneys to review. The attorneys, he wrote, identified inaccuracies. “I suggested to Mr. Roberts that if he and any caucus members wanted to sign and publish the letter, he ought to first ensure it was accurate,” Bowers wrote. “Mr. Roberts disagreed there were inaccuracies, saying he had consulted with unnamed attorneys and had also run it by the House Rules Attorneys. (Let me say, I strongly caution members against using the non-partisan Rules Office for political purposes.)” Bowers also said he disagreed with Roberts’ choice to include signatures from members-elect on official legislative letterhead. Ultimately, he told Roberts that “while I would not sign the letter, he was free to do as he wished, as could others, but my opinion was it would be ill advised of him to proceed.” Cobb, an ally of Bowers, offered a similar account. “I can’t believe he put that out there,” she said.

NEXT TIME, CC YELLOW SHEET

Bowers’ response to Roberts’ tweet thread, of course, engendered more pushback. Townsend, now headed for the Senate, replied to Bowers, writing that she was “dismayed” with his response. “This email is discoverable and this type of personnel management is grossly substandard,” she wrote. “Your abusive way of dealing with those who disagree with you, all while with a smile on your face, has become intolerable.” She also reminded Bowers that she had sent a records request for the expenses the House incurred while investigating Cook. “If this is what the members have to expect from your leadership when they disagree with you, I recommend they have another election and choose a more fair Speaker who can handle dissent,” she said.

THE TEST WAS SO GOOD, EVERYONE WANTED TO SIGN

AZGOP Chair Kelli Ward and interim Maricopa County GOP Chair Linda Brickman fought over who gets to sign the paperwork certifying the results of yesterday's post-election logic and accuracy test of voting machines in Maricopa County, according to one onlooker. Brickman, the first vice chair of the Maricopa County GOP who took over after the resignation of Rae Chornenky, was on hand to observe the test, as is the purview of a county party chair. However, not unlike the situation that eventually led to Chornenky's departure, Ward attended the test and claimed her right to sign the paper certifying the results ([YS, 11/17](#)). Steven Slugoeki, the chair of the Maricopa Democratic Party, who witnessed the exchange, said Ward grabbed the paper after the others had signed, leading Ward, Brickman and her husband snatching the sheet back and forth from each other. "Then I tried to grab it," Slugoeki said. "I was yelling, 'Please don't rip it! Please don't rip it!'" This all transpired in full view of state and county observers as well as the media. Slugoeki said he didn't notice at the time that Brickman had signed the paper while also writing "certification denied" ([LINK](#)). Ward and Brickman eventually agreed that she could sign the paper, but only after Brickman had taken photos, Slugoeki said. "Kelli signs the paper, then storms out to do her press conference," he said. "It happened in front of everybody."

IT PUTS SWEET HOME ARIZONA TO SHAME

Trump's Arizona elections director Gina Swoboda has been all over the *Yellow Sheet Report* recently for her role in party infighting, but her husband, Rob, caught our attention for one of the strangest campaign videos our reporter has ever seen. Rob Swoboda, currently a vice chair with the LD23 GOP, is seeking the chairman position during tonight's organizational meeting. He announced his candidacy with a two-minute video that starts with an image of ancient fighters holding round shields as they stare down from a hill and only gets weirder from there ([LINK](#)). There's plenty of patriotic stock footage of historical documents and flags — including a waving Arizona flag that is inexplicably imposed over an eyeball. Phrases like "MAGA" and "our constitutional republic" appear on screen in word art and text effects that would embarrass even a newbie to Microsoft PowerPoint. About halfway through, Swoboda switches gears into discussing how he will modernize LD23 and a crosswalk symbol displaying the phrase "stop hate" appears on screen. The next few slides are an eclectic mix, with pictures including the word "racism" on a crumpled up piece of paper and "merit based" over an image of a trophy. Stock art of people of various races and a graphic of many hands inserting the rainbow pride flag into a ballot box accompany narration about how he'll reach out to all patriotic Americans, and the video ends with an exhortation to "Make LD23 great again" written in a font that resembles a ransom note made of magazine letters.

REST IN PEACE

Former lawmaker Jerry Overton, a Republican who served in the Legislature for nine years in the late 1990s and early 2000s, passed away earlier this month ([LINK](#)). Overton, who also served on the Litchfield Park City Council and a variety of civic organizations, was born in 1933 in Kansas City, Missouri, and moved around frequently before settling in the West Valley. After leaving the Legislature, he bought a travel agency in Litchfield Park and became active with the Arizona Highway Users Assn. In a letter to other members of the association announcing his passing, Overton's wife of 63 years, Grace, wrote that the

couple had just moved to an independent living facility in Peoria. “As always he was trying to make sure I was taken care of in the best way possible,” she wrote.

Senate President sets up email account for voting reports

(Phoenix, State Capitol) --- With questions swirling over election integrity in Arizona, Senate President Karen Fann today announced the Senate Republican Caucus is setting up a special email account to gather documented proof of voting irregularities in the 2020 General Election in Arizona. The email will be 'live' until November 27, 2020, so Arizona residents who have firsthand knowledge of possible fraud can detail their accounts.

"We have heard from constituents across the state concerned about the voting process in Arizona," said President Fann. "I have consistently said, if there is evidence of fraud, we need to look into it. This email account will be a resource for people who are aware of improprieties in Arizona's election process. My hope is this will sort out the facts from vague allegations, give us a clear indication of the veracity of the election and begin an effort to ensure voters have confidence in the election system."

To report evidence of fraud or any other voting irregularities, residents should send a detailed description to 2020election@azleg.gov. Please include name and contact information so those looking into the incident can follow up. The Senate President will monitor the reports as they come in and gather all evidence before the election canvass, which is set to take place on November 30, 2020.

Biden Campaign Statement on latest AZ Ruling

Statement from Geoff Burgan, the Biden Campaign's Arizona Communications Director:

"This lawsuit was frivolous and rightfully dismissed. Arizona's election was well-run and transparent, and far-right fringes of the Arizona Republican Party should stop trying to undermine Arizonans' faith in free and fair elections. This ruling is a win for Arizonans who turned out in record numbers this fall. It's time for Governor Ducey and others to move forward and recognize the will of the voters, given the pressing issues Arizona is facing with COVID-19."

Rep. Teller Isolating After COVID-19 Diagnosis

PHOENIX – Rep. Arlando Teller announced today that he has tested positive for COVID-19. He is isolating and recovering at home in Chinle.

"On Wednesday afternoon I was informed that I had tested positive for COVID-19 after experiencing mild symptoms. I want to thank my family, colleagues and friends for the outpouring of support I have received. I have been taking precautions throughout the pandemic – which has had a devastating impact on the communities I serve – but this virus is very contagious, very real, and I am unsure where I contracted it. I urge Arizonans to take all precautions – wear a mask at all times while out, keep physical distance, and stay at home if you can."

Phoenix, Tucson, Flagstaff, and Tolleson Mayors Hold Press Conference on the Rise of COVID-19 Cases Across the State

Arizona Mayors Regina Romero, Kate Gallego, Coral Evans, and Anna Tovar concerned about rise in COVID-19 cases statewide

WHAT: Arizona Mayors Regina Romero, Kate Gallego, Coral Evans, and Anna Tovar hold virtual press conference on rise of COVID-19 cases across the state.

WHEN: Friday, November 20, 2020 at 8:30 am

WHERE: The virtual press conference will be via Zoom:

<https://zoom.us/j/93909958096?pwd=c1VGaU11SWJON0Y1ZDdvdE9YRmxE9Z09>

Meeting ID: 939 0995 8096

Passcode: 039357

Members of the press, please RSVP to myriam.cruz@tucsonaz.gov.

The press conference will also be live-streamed on [Mayor Regina Romero's Facebook Page](#)

Arizona Department Of Health Services Strengthens Mask Wearing Requirement For Schools

Emergency Measure Aims To Improve Mitigation Measures On Campuses And Buses

PHOENIX — To protect the health of our school communities, the Arizona Department of Health Services (ADHS) today issued an emergency measure requiring district and charter schools to immediately mandate that masks are worn on school campuses, on school buses and during school-associated activities by all students, faculty, staff, contractors, and visitors.

“Keeping kids and teachers safe is one of our top priorities,” said Governor Doug Ducey. “This emergency measure issued by ADHS addresses the serious threat COVID-19 poses to our communities. It requires schools to implement the simple step of mask-wearing to reduce transmission and keep our kids safe.”

In July, Governor Ducey issued Executive Order 2020-51, which required all school districts and charter schools to develop and implement a policy to require masks for all staff and students. It also required ADHS and the Arizona Department of Education to work collaboratively to develop the Guidance for Safely Returning to Schools, based on the Roadmap for Reopening Schools.

As part of this guidance, schools must implement COVID-19 mitigation strategies, based on the school benchmarks, to keep students and staff safe on campuses. These mitigation strategies include mask-wearing, physical distancing, increased cleaning and disinfecting protocols, limiting the size of groups, and increased hand hygiene.

“Based on recently released data, we now know masks provide more protection than previously thought,” said ADHS Director Dr. Cara Christ. “The new studies show that wearing a mask also protects the mask wearer, not just those around them. I encourage everyone to wear a mask whenever they are around people they don’t live with.”

Public health works closely with schools to provide technical assistance to schools on implementing mitigation measures, such as masks. To ensure everyone who needs a mask has access to one, ADHS has partnered with Hanes to provide five free masks to students and their families. Families and schools can go to azhealth.gov/ordermasks to have free masks shipped to them.

For more information, please visit azhealth.gov/COVID19.

Arizona Department of Health Services Releases Menu of Health Tips for Safer Holiday Gatherings

Smaller groups, moving dinner outside help reduce COVID-19 risk

Your menu may be the same this year, but other aspects of Thanksgiving may need to be different to reduce the risk of transmitting COVID-19.

That’s why the Arizona Department of Health Services has developed a [menu of precautions](#) to take during holiday gatherings. Doing one makes your family and your guests safer. Doing more is even better.

“It’s an unfortunate reality that household gatherings are contributing to the current rise in COVID-19 cases, percent positivity, and stress on our healthcare system,” said Dr. Cara Christ, director of ADHS the Arizona Department of Health Services. “The holidays can bring together more households and more generations, including older individuals who are more vulnerable to COVID-19 and young adults and children who are more likely to be asymptomatic carriers. Following these simple guidelines can help keep everyone safe during the holidays.”

Recommendations for [safer holiday gatherings](#)

“QUOTE OF THE DAY”

“I wish to respond by simply saying – I took an oath to support the Constitution of the United States and the Constitution and laws of the State of Arizona.”

- Bowers, on the pressure he’s facing to attempt to nullify the results of the presidential election

Members, I was able to get a copy of the complaint filed today by the Maricopa BOS. Senate Judiciary committee members and President Fann are named as defendants.

Jim Barton was representing the D members in the litigation stemming from the first subpoena issued in December. This complaint is based on the subpoena issued in January. I'll be confirming that his representation will continue and once we have that verified, maybe we can meet this weekend or Monday.

Please let me know if you have any questions.

Attorneys for Maricopa County Plaintiffs

IN THE SUPERIOR COURT OF THE STATE OF ARIZONA

IN AND FOR THE COUNTY OF MARICOPA

MARICOPA COUNTY; JACK
SELLERS, in his official capacity as
Chairman of the Maricopa County Board
of Supervisors; and BILL GATES,
CLINT HICKMAN, STEVE CHUCRI,
and STEVE GALLARDO, in their
official capacities as Members of the
Maricopa County Board of Supervisors,

Plaintiffs,

No. _____

COMPLAINT

v.

KAREN FANN, in her official capacity as President of the Arizona Senate; WARREN PETERSON, in his official capacity as Chairman of the Arizona Senate Judiciary Committee; WENDY ROGERS, in her official capacity as Vice Chairman of the Arizona Senate Judiciary Committee; NANCY BARTO, SONNY BORRELLI, LUPE CONTRERAS, KIRSTEN ENGEL, VINCE LEACH, and MARTIN QUEZADA, in their official capacities as the Members of the Arizona Senate Judiciary Committee,

Defendants.

Come now Plaintiffs MARICOPA COUNTY; JACK SELLERS, in his official capacity as Chairman of the Maricopa County Board of Supervisors; and BILL GATES, CLINT HICKMAN, STEVE CHUCRI, and STEVE GALLARDO, in their official capacities as Members of the Maricopa County Board of Supervisors, (together, “Plaintiff Maricopa County” or the “Maricopa County Plaintiffs”), by and through Counsel, and for their Complaint state as follows:

INTRODUCTION

1. This case is **not** about whether the Arizona legislature has the power to issue subpoenas: it does. The Maricopa County Plaintiffs respect the Arizona legislature, including both the Arizona Senate and the Arizona House of Representatives, and recognize their authority to issue subpoenas and to insist that all parties comply with lawful subpoenas.

2. Rather, this case is about the limited power of the Arizona Senate to issue a subpoena commanding the presence of a witness at a hearing that does not exist, commanding the production of 2.1 million voted, secret ballots in violation of Arizona statute, and commanding the inspection of certified elections equipment by a team of uncertified laymen who have demonstrated a stunning lack of knowledge about election processes and election security.

1 3. In short, this case is about sham legislative subpoenas.

2 4. On January 12, 2021, the President of the Arizona Senate and the Chairman
3 of that chamber’s Judiciary Committee issued subpoenas commanding the Maricopa
4 County Board of Supervisors, Maricopa County Recorder, and Maricopa County
5 Treasurer to appear for testimony before the Judiciary Committee on January 13 at 9:00
6 a.m.—fewer than twenty-four hours later—and to bring with them, among other items,
7 roughly 2.1 million voted, secret paper ballots and certified elections equipment used in
8 the 2020 general election in Maricopa County. *See Exhibit A.*

9 5. Those subpoenas did not follow a vote of the full Arizona Senate to establish
10 an investigation related to the 2020 general election in Arizona. *See, e.g., Buell v. Superior*
11 *Court*, 96 Ariz. 62, 64 (1964). Instead, the subpoenas followed a prior legal dispute about
12 similar legislative subpoenas requesting these items and months of conspiracy theories
13 debunked by the press and rejected by the courts following the 2020 general election in
14 Maricopa County.¹

15 6. In a show of good faith, the Chairman of the Maricopa County Board of
16 Supervisors, the Maricopa County Recorder, and the Maricopa County Treasurer appeared
17 with counsel at the Arizona Capitol to testify before the Judiciary Committee and discuss
18 the subject of these subpoenas, despite our stated objections to the subpoenas. *See Exhibit*
19 **B.**

20 7. But there was a problem: there was no hearing at the Arizona Senate on
21 January 13; one was never scheduled, and one was never held. Despite this obvious set-
22 up, in the days that followed—and, again, as a sign of good faith—the Maricopa County
23

27 [agreement-arizona-senate-joe-biden-inauguration/6661033002/](https://www.usatoday.com/story/news/factcheck/2021/01/21/maricopa-county-agreement-arizona-senate-joe-biden-inauguration/6661033002/) (“Trump and his
28 supporters have repeatedly alleged that Biden unfairly won the 2020 election, but these
claims are baseless,” and collecting some debunked conspiracy theories); *see also* Jeremy
Duda, *Fann picks Trump-allied firm with history of false election statements to audit*
Maricopa election, AZ Mirror (Feb. 3, 2021, 8:11 a.m.),
[https://www.azmirror.com/2021/02/03/fann-picks-trump-allied-firm-with-history-of-](https://www.azmirror.com/2021/02/03/fann-picks-trump-allied-firm-with-history-of-false-election-statements-to-audit-maricopa-election/)
[false-election-statements-to-audit-maricopa-election/](https://www.azmirror.com/2021/02/03/fann-picks-trump-allied-firm-with-history-of-false-election-statements-to-audit-maricopa-election/).

1 Board of Supervisors and the Maricopa County Recorder produced over 11 gigabytes of
2 data (estimated over half a million pages) requested by the Senators in their subpoenas,
3 including the Voter Registration Database (subject to the redactions of certain personal
4 information required by law) and numerous computer log files and ballot tabulation reports
5 associated with the November 3, 2020, general election. The Board also voted to perform
6 two additional audits of its elections equipment to once again confirm that the baseless
7 conspiracy theories about the 2020 general election in Maricopa County were just that—
8 baseless. These audits were in addition to the statutorily mandated hand count completed
9 on November 9, 2020 that the machines performed with 100% accuracy.

10 8. Rather than working with the Board to resolve this dispute, the President of
11 the Arizona Senate and the Chairman of the Judiciary Committee introduced a resolution
12 to hold the individual members of the Maricopa County Board of Supervisors in contempt.
13 *See Exhibit C.*

14 9. As explained in more detail below, the only one who has acted
15 contemptuously is whomever drafted the subpoenas in the name of the Arizona Senate,
16 including the demand to appear and testify at a hearing – who knew at the time of the
17 writing that there would be no hearing – that is the person who has shown contempt for
18 the Arizona Senate. Presently, the Senate intends to hold individual Maricopa County
19 Supervisors in contempt for failing to obey an **unlawful** subpoena. They ignore the fact
20 that the Chairman of the Board of Supervisors attempted to obey the subpoena despite its
21 unlawfulness but was rebuffed by the Senate; and, that Maricopa County’s elected officials
22 have produced a multitude of documents in response to the subpoenas, despite them being
23 unlawful. In sum, these Senators ignore the good-faith efforts of the Maricopa County
24 Plaintiffs to work with them. They instead choose to threaten the Board of Supervisors
25 with imprisonment and misdemeanor-prosecution, which are the possible outcomes of a
26 finding of contempt.

27 10. These Senators have left Plaintiff Maricopa County with no choice but to
28 ask this Court for an order quashing the Senators’ unlawful subpoena, issued to the Board

1 of Supervisors on January 12, 2021.

2 11. Plaintiff Maricopa County recognizes the lawful authority of the Senate to
3 issue subpoenas, and also recognizes that the Senate has the right to expect lawful
4 subpoenas to be obeyed.

5 12. But the Senate is not above the law, and it cannot demand, *upon pain of*
6 *imprisonment or a misdemeanor conviction*, that its subpoenas be obeyed even when
7 unlawful, as it does here.

8 13. Accordingly, this Court should quash the unlawful subpoena.

9 **JURISDICTION AND VENUE**

10 14. This Court has jurisdiction pursuant to the Uniform Declaratory Judgments
11 Act, A.R.S. § 12-1831 *et seq.*, and A.R.S. § 12-1801.

12 15. The events giving rise to this action happened in Maricopa County. The
13 Arizona Senate sits in Maricopa County. Venue is proper. A.R.S. § 12-401.

14 16. This case is subject to Tier 3 pursuant to Rule 26.2(b)(3) of the Arizona
15 Rules of Civil Procedure as it is legally complex.

16 **PARTIES**

17 17. Maricopa County, a Plaintiff in this action, is a jural entity with power to sue
18 and be sued, which power is exercised by the Board of Supervisors. A.R.S. § 11-201(A).

19 18. Plaintiff Jack Sellers is the Chairman of the Maricopa County Board of
20 Supervisors. He brings this suit in his official capacity.

21 19. Plaintiff Bill Gates is a Member of the Maricopa County Board of
22 Supervisors. He brings this suit in his official capacity.

23 20. Plaintiff Clint Hickman is the Chairman of the Maricopa County Board of
24 Supervisors. He brings this suit in his official capacity.

25 21. Plaintiff Steve Chucuri is a Member of the Maricopa County Board of
26 Supervisors. He brings this suit in his official capacity.

27 22. Plaintiff Steve Gallardo is a Member of the Maricopa County Board of
28 Supervisors. He brings this suit in his official capacity.

1 required by Arizona law, A.R.S. § 16-449, and in complete accordance with the
2 procedures, and testing requirements and protocols, established by the Arizona Elections
3 Procedures Manual (2019).²

4 **35.** The logic and accuracy test prescribed by law and conducted by the secretary
5 of state is an audit of the vote tabulation machines' ability to properly read and accurately
6 tabulate ballots. It consists of using the tabulation machines to tabulate pre-marked ballots
7 to ensure that the tabulation totals are correct.

8 **36.** The vote tabulation machines received a perfect score (100%) on the pre-
9 election logic and accuracy test conducted by the Arizona secretary of state on October 6,
10 2020. Stated differently, **the tabulation of the votes by the electronic tabulators was**
11 **one hundred percent (100%) accurate.** See Exhibit D (a true and correct copy of the
12 October 6, 2020, Logic and Accuracy Certificate of Accuracy).

13 **37.** After the Election, on November 18, 2020, the Arizona secretary of state
14 conducted a post-election logic and accuracy test of the vote tabulation machines, as
15 required by the Arizona Elections Procedures Manual. (EPM (2019) at 94-95 and 235).

16 **38.** The post-election logic and accuracy test was conducted in complete
17 accordance with the procedures, and testing requirements and protocols, established by the
18 Arizona Elections Procedures Manual.

19 **39.** The vote tabulation machines received a perfect score (100%) on the post-
20 election logic and accuracy test conducted by the Arizona secretary of state on November
21 18, 2020. Stated differently, **the tabulation of the votes by the electronic tabulators was**
22 **one hundred percent (100%) accurate.** See Exhibit E (a true and correct copy of the
23 November 18, 2020, Logic and Accuracy Certificate of Accuracy).

24 **40.** On November 4, 2020, representatives from the Republican, Democratic,

25 ² The operative version of the Arizona Elections Procedures Manual ("EPM") is the 2019
26 version. It is available on the secretary of state's website, at
27 [https://azsos.gov/sites/default/files/2019 ELECTIONS PROCEDURES MANUAL AP
28 PROVED.pdf](https://azsos.gov/sites/default/files/2019_ELECTIONS_PROCEDURES_MANUAL_APPROVED.pdf). The Elections Procedures Manual is prepared by the secretary of state in
consultation with the elections officials in all fifteen counties. Once approved by the
governor and attorney general, the Elections Procedures Manual has the force of law.
A.R.S. § 16-452.

1 and Libertarian political parties conducted a post-election, hand count audit of all the
2 ballots cast at two percent (2%) of the vote centers used in Maricopa County, as well as
3 over 5,000 early ballots, as required by Arizona law. A.R.S. § 16-602; EPM (2019) at
4 213-33.

5 41. The vote centers included in the two percent sample were randomly selected
6 by the political party representatives.

7 42. The presidential race was included in the hand count audit.

8 43. There were no discrepancies found between the hand count audit and the
9 results tabulated by the vote tabulation machines. Stated differently, **the tabulation of**
10 **ballots by the tabulators was found to be one hundred percent (100%) accurate.** See
11 **Exhibit F** (a true and correct copy of the Hand Count Audit Report for the November 3,
12 2020, General Election).

13 44. Despite the various audits that demonstrated that Maricopa County's
14 election was accurately tabulated, numerous challenges and election contests were filed in
15 superior court, contesting the results, as provided for by A.R.S. § 16-671 *et seq.* Plaintiffs
16 in these cases included President Donald Trump, the Arizona Republican Party, and the
17 Chairwoman of the Arizona Republican Party, Dr. Kelli Ward.

18 45. Each of the cases alleged some form of misconduct by elections officers,
19 erroneous vote counts, unlawful voting, or deprivation of the right to vote. None of the
20 cases were successful, and no court found that any misconduct, erroneous vote counts, or
21 unlawful voting had occurred such that the results of the Election should be overturned.
22 Each was ultimately dismissed. The cases filed in Maricopa County Superior Court
23 included:

- 24 • *Aguilera v. Fontes*, No. CV2020-014083 (voluntarily dismissed, November
25 7, 2020).
- 26 • *Donald J. Trump v. Hobbs*, No. CV2020-014248 (Min. Entry Order,
27 November 13, 2020 (after conducting an evidentiary hearing, dismissing the
28 complaint with prejudice).

- 1 • *Arizona Republican Party v. Fontes*, No. CV2020-014553 (Min. Entry
2 Order, November 18, 2020 (dismissing the complaint with prejudice and
3 ordering that the Secretary of State, who had requested her fees, could file a
4 motion pursuant to AR.S. § 12-349 (the frivolous litigation statute)).
- 5 • *Aguilera v. Fontes II*, No. CV2020-014562 (Min. Entry, November 29, 2020
6 (after conducting an evidentiary hearing, “dismiss[ing] with prejudice for
7 failing to state a claim upon which relief can be granted; or alternatively,
8 denying the relief sought by Plaintiffs given their failure to produce evidence
9 demonstrating entitlement to same).
- 10 • *Kelli Ward v. Jackson*, No. CV2020-015285 (Min. Entry Ruling, December
11 4, 2020 (after conducting an evidentiary hearing, denying the requested
12 relief and “confirming the election,” because the court found that the
13 evidence did not show fraud, misconduct, illegal votes, or an erroneous vote
14 count), *affirmed*, *Ward v. Jackson*, No. CV-20-0343-AP/EL (Ariz. S. Ct.
15 December 9, 2020) (“conclude[ing], unanimously, that . . . the challenge
16 fails to present any evidence of ‘misconduct,’ ‘illegal votes’ or that the Biden
17 Electors ‘did not in fact receive the highest number of votes for office,’ let
18 alone establish any degree of fraud or a sufficient error rate that would
19 undermine the certainty of the election results”).

20 **46.** Additionally, an election contest was filed in federal district court. *Bowyer,*
21 *et al., v. Ducey, et al.*, No. CV-20-02321-PHX-DJH. Dr. Ward, the Chairwoman of the
22 Arizona Republican Party, was—once again—one of the plaintiffs. Sidney Powell, a
23 former attorney for President Trump, was one of the plaintiffs’ attorneys. This lawsuit
24 alleged fraud resulting from foreign interference in the election via offshore algorithms
25 that somehow infiltrated Maricopa County’s vote tabulation equipment, leading to
26 “injections” of votes for President-elect Biden, and ballot fraud. The plaintiffs sought to
27 decertify the election and cause Arizona’s presidential electors to be awarded to President
28 Trump. After reviewing the “evidence” submitted by the plaintiffs, Judge Humetewa

1 dismissed the case. She ruled that the “Plaintiffs failed to provide the Court with factual
2 support for their extraordinary claims[.]” Additionally, the court noted that “[a]llegations
3 that find favor in the public sphere of gossip and innuendo cannot be a substitute for earnest
4 pleadings and procedure in federal court[.]” and, “cannot be the basis for upending
5 Arizona’s 2020 General Election.” Accordingly—because plaintiffs provided no actual,
6 evidentiary support for their absurdly-fantastic claims, “[t]he Court is left with no
7 alternative but to dismiss this matter in its entirety.” (Doc. 84, Order, December 9, 2020,
8 at 28-29).

9 **47.** Additionally, another case challenging the result of the Election was filed in
10 Pinal County Superior Court. *Burk v. Ducey*, No. S1100CV202001869. The plaintiff in
11 this matter raised the same claims as alleged by the plaintiffs in the federal court case
12 discussed in the preceding paragraph. It, too, was dismissed. (Ruling on Motion to
13 Dismiss, December 15, 2020).

14 **48.** Thus, all told, there were seven separate challenges to the results of the
15 Election, and all involved accusations that wrongdoing of some sort happened in Maricopa
16 County. Six superior court judges, one federal district court judge, and seven Arizona
17 Supreme Court Justices were involved in their disposition. None found any evidence of
18 wrongdoing on the part of Maricopa County, its elections officers, or the electronic voting
19 system it uses. And, none found any basis for decertifying Arizona’s election or awarding
20 Arizona’s eleven presidential electors to President Trump.

21 **49.** On December 14, 2020, the Arizona Senate Judiciary Committee purported
22 to hold a “special meeting” in order to question witnesses about the Election.

23 **50.** At the request of the Judiciary Committee, the Maricopa County Plaintiffs
24 voluntarily made their officers and personnel available at this hearing. The then-Chairman
25 of the Maricopa County Board of Supervisors, Clint Hickman, personally appeared and
26 testified. So did Scott Jarrett, Maricopa County’s Director of Election Day and Emergency
27 Voting. Additionally, Thomas Liddy, the Civil Division Chief for the Maricopa County
28 Attorney’s Office, appeared to answer questions about the various legal challenges to the

1 election that had been litigated.

2 **51.** All told, the Maricopa County Plaintiffs’ officers and personnel voluntarily
3 provided some six hours of testimony, answering every question put to them, before being
4 excused from the hearing.

5 **52.** The same day as the special meeting by the Senate Judiciary Committee Plus
6 One, members of the Arizona Legislature signed what purported to be a “Joint
7 Resolution.” It requested “that the alternate 11 electoral votes be accepted for Donald J.
8 Trump or to have all electoral votes nullified completely until a full forensic audit can be
9 conducted.” It further “resolved that the United States Congress is not to consider a slate
10 of electors from the State of Arizona until the Legislature deems the election to be final
11 and all irregularities resolved.”

12 **53.** Notwithstanding that the Maricopa County Plaintiffs voluntarily provided
13 the testimony referenced above and answered every question they were asked, in an
14 attempt to be helpful to the members of the Senate, President Fann and the Judiciary
15 Committee served two subpoenas on the Maricopa County Board of Supervisors the next
16 day, on December 15, 2020, at 3:08 p.m. (the “December 15, 2020, Subpoenas”).

17 **54.** Each of the December 15, 2020, Subpoenas commanded the Maricopa
18 County Board of Supervisors “to produce, and permit inspection, testing or sampling of
19 the items identified in the attached Exhibit 1”—an extremely large number of documents
20 consisting of multiple hundreds of thousands of pages, as well as all of Maricopa County’s
21 election tabulators and other election-related equipment—“on or before 5:00 p.m. on
22 December 18, 2020 to the Chairman of the Senate Judiciary Committee for inspection,
23 testing or sampling thereafter.”

24 **55.** Thus, the deadline for production provided by the December 15, 2020,
25 Subpoenas was barely three days after the subpoenas were served.

26 **56.** The Maricopa County Plaintiffs could not lawfully comply with producing
27 some of the items requested by the December 15, 2020, Subpoenas, such as voted ballots
28 from the November 3, 2020, general election.

1 **57.** Additionally, the Maricopa County Plaintiffs could not produce the full
2 amount of documents requested within the three-day time period provided by the
3 December 15, 2020, Subpoenas.

4 **58.** Accordingly, the Maricopa County Plaintiffs filed a Complaint in the
5 Superior Court, seeking to quash the December 15, 2020, Subpoenas. *Maricopa County v.*
6 *Fann*, No. CV2020-016840 (Cmplt. filed December 18, 2020).

7 **59.** The Maricopa County Plaintiffs’ Complaint alleged that the December 15,
8 2020, Subpoenas were unlawful and so due to be quashed for several reasons. First,
9 because the goal of the subpoenas was to gather data to audit the November 3, 2020,
10 general election, they were *ultra vires* and lacked a proper legislative purpose. Second, to
11 the extent that the subpoenas sought to adjudicate an election contest or re-canvass the
12 election, they violated the separation of powers doctrine. Third, the subpoenas sought
13 ballots and digital images of ballots, which violated both the Arizona Constitution and
14 statutory law. And fourth, the December 15, 2020, Subpoenas suffered from technical
15 deficiencies, such as the fact that they did not command any witness to appear at any
16 hearing, which rendered them void.

17 **60.** President Fann and then-Chairman Farnsworth responded by filing their own
18 special action against Maricopa County, No. CV2020-016904 (filed December 21, 2020),
19 and moved for a writ of mandamus that would have compelled the Maricopa County
20 Plaintiffs to immediately produce the subpoenaed data. In their application for an order to
21 show cause, President Fann and then-Chairman Farnsworth stated that they needed relief
22 “sufficiently in advance of the congressional review of the Electoral College returns on
23 January 6, 2021”—thus demonstrating that the purpose of the December 15, 2020,
24 Subpoenas, was to overturn the vote of the People of Arizona in the November 3, 2020,
25 election for president of the United States.

26 **61.** The Maricopa County Plaintiffs moved to dismiss President Fann’s and
27 then-Chairman Farnsworth’s Complaint, filed December 23, 2020, pointing out to the
28 Court that Fann and Farnsworth were not lawfully entitled to special action mandamus

1 relief to enforce legislative subpoenas. The Court agreed, ordering Fann’s and
2 Farnsworth’s claim for special action dismissed. (Min. Entry, December 23, 2020.)

3 **62.** After their loss in their special action lawsuit, Fann and Farnsworth, along
4 with the rest of the Senate Judiciary Committee, filed an Answer and Counterclaim in the
5 Maricopa County Plaintiffs’ action challenging the December 15, 2020, Subpoenas. (No.
6 CV2020-016840, Answer and Verified Counterclaim, filed December 29, 2020.) They
7 also filed a motion for preliminary injunction, again seeking an order compelling the
8 Maricopa County Plaintiffs to immediately produce the subpoenaed data. The Maricopa
9 County Plaintiffs opposed their motion, arguing that Fann and Farnsworth were not
10 entitled to injunctive relief.

11 **63.** While this motion practice was occurring, something else happened: on
12 January 11, 2021, the 54th Legislature ended, and the 55th Legislature began.

13 **64.** When the 54th Legislature ended, the December 15, 2020, Subpoenas,
14 which had been issued by the Senate President and Judiciary Committee Chairman of that
15 Legislature, became void and no longer enforceable, even had they been lawful.

16 **65.** Perhaps recognizing that fact, Senate President Fann and the new chairman
17 of the 55th Legislature’s Senate Judiciary Committee, Chairman Peterson, issued new
18 subpoenas on January 12, 2021 (the “January 12, 2021, Subpoenas”).

19 **66.** The January 12, 2021, Subpoenas were directed to the members of the Board
20 of Supervisors, the Maricopa County Recorder, and the Maricopa County Treasurer. The
21 subpoenas sought identical items from each of the elected officials.

22 **67.** The January 12, 2021, Subpoenas sought an immense amount of documents,
23 data, and equipment. The January 12, 2021, Subpoena directed to the Board of
24 Supervisors, which is at issue in this litigation, is attached as **Exhibit A**, and is
25 incorporated by reference as if fully stated herein. As evidenced by Exhibit A, the items
26 sought by the January 12, 2021 Subpoenas included:

- 27 a. all of the ballot tabulation and processing equipment (i.e., machines)
28 used in the November 3, 2020, general election;

- b. numerous types of election log files, provided “in XML, EML, JSON, DVD and XSLT formats;”
- c. the Maricopa County Voter Registration Database, containing the voter registration data for all of Maricopa County’s registered voters;
- d. all 2.1 million paper ballots cast in Maricopa County in the November 3, 2020, general election, including early ballots, Election Day ballots, and provisional ballots; and
- e. all electronic images of the ballots cast in Maricopa County in the November 3, 2020, general election.

68. The Senators served their January 12, 2021, Subpoenas on the Board of Supervisors at **3:49 p.m. on January 12.** The Recorder and the Treasurer were served at approximately the same time. The subpoenas commanded these elected officials to appear at a Senate hearing to provide testimony the next day, **January 13, 2021, at 9:00 a.m.—**
only 17 hours from when the subpoenas were served, and also commanded the elected officials to bring with them the multitudinous volume of items listed in the subpoenas.

69. Despite only being given 17 hours’ notice, the Chairman of the Board of Supervisors, Jack Sellers, along with Maricopa County Recorder Stephen Richer and Maricopa County Treasurer John Allen appeared at the Senate Building at 9:00 a.m. to provide the requested testimony, and also to inform the Senate that, while they could not possibly transport all the subpoenaed items to the Senate with only 17 hours’ notice, they wanted to discuss how they might begin production of the subpoenaed material that they could lawfully produce.

70. However, despite issuing the January 12, 2021, Subpoenas commanding the Maricopa County elected officials to appear to provide testimony, the Senate had not scheduled a hearing.

71. And so, despite the Maricopa County elected officials interrupting their plans with extremely little notice in order to appear before the Senate to provide testimony that they were commanded by subpoena to provide, the Senate held no hearing, did not

1 allow them to appear, did not take their testimony, asked them no questions, but instead
2 they sent a staffer who sheepishly informed the Chairman, the Treasurer and the Recorder
3 that there were no Senators to meet with them that day and asked them to leave.

4 **72.** Upon information and belief, the Senate is considering voting on Monday,
5 February 8, 2021, to hold the individual members of the Maricopa County Board of
6 Supervisors in contempt of the January 12, 2021, Subpoena—despite the fact that the
7 Chairman of the Board of Supervisors appeared for the hearing that the subpoena
8 commanded him to appear for, and despite the fact that the Senate did not schedule the
9 hearing.

10 **73.** Later in the day on January 13, 2021, the Maricopa County Superior Court,
11 Judge Thomason, considered the motion for preliminary injunction filed by Fann and
12 Farnsworth related to the December 15, 2020, Subpoenas—the ones at issue in *Maricopa*
13 *County v. Fann* which had been issued while the 54th Legislature had been in session,
14 before the start of the current, 55th Legislature.

15 **74.** Fann and the current Judiciary Committee Chairman, Petersen, argued that
16 despite the end of the 54th Legislature, the December 15, 2020, Subpoenas were
17 enforceable and so the Court should grant preliminary injunctive relief. The Maricopa
18 County Plaintiffs argued that the authority of the Senate to enforce subpoenas issued under
19 the 54th Legislature dissolved at the conclusion of that Legislature.

20 **75.** Once again, the Court agreed with the Maricopa County Plaintiffs, ruling
21 that the December 15, 2020, Subpoenas were moot. (Min. Entry, January 13, 2021.) The
22 Court also ruled that “the current dispute is moot” because the December 15, 2020,
23 Subpoenas, which were the only subpoenas at issue, were moot. (*Id.*) To be clear, the
24 Senators never sought to amend their Counterclaim to add a claim concerning the January
25 12, 2021, Subpoenas from the Senate of the 55th Legislature. The only subpoenas before
26 the Court were the December 15, 2020, Subpoenas from the 54th Legislature. Because
27 those subpoenas were moot, so was the Senators’ Counterclaim—and, so was the
28 Maricopa County Plaintiffs’ Complaint seeking to quash the December 15, 2020,

1 Subpoenas. The entire action before the Court was moot—which is what the Court stated
2 in its Minute Entry. (*Id.*).

3 **76.** The Court took the added step, however, of “encourage[ing] the parties to
4 confer to see if the issues [arising under the newly-issued, January 12, 2021, Subpoenas]
5 may be resolved.” (*Id.*)

6 **77.** None of the items subpoenaed by the January 12, 2021, Subpoenas was in
7 the custody or control of the Maricopa County Treasurer.

8 **78.** The Maricopa County Plaintiffs, along with the Maricopa County Recorder,
9 quickly began compiling the data requested by the January 12, 2021, Subpoenas, that they
10 could lawfully produce.

11 **79.** And attorneys for the Maricopa County Plaintiffs had numerous good-faith
12 discussions with attorneys for Fann and Peterson, trying to reach resolution to the January
13 12, 2021, Subpoenas.

14 **80.** On January 15, 2021, the Maricopa County Plaintiffs and the Maricopa
15 County Recorder produced 9.5 gigabytes of responsive data to the January 12, 2021,
16 Subpoenas, subject to lawfully-required redactions, as follows:

- 17 • Election Log Files for the Tabulators
- 18 • Election Log Files for the Result Files
- 19 • Provisional Votes Files (included in the Election Log Files for the Tabulators)
- 20 • Rejected Ballots Report by Reason Code
- 21 • Windows event log and Access logs
- 22 • The Administrator & Audit logs for the EMS Election Event Designer (EED)
23 and EMS Results Tally & Reporting (RTR) Client Applications.
- 24 • Early Ballot Report
- 25 • Provisional Ballot Report
- 26 • ImageCast Central Logs
- 27 • Ballot Scanning/Tabulation Machine Logs
- 28 • The Database of voter rolls
- Forensic image of computers/devices used to work with voter rolls
- Copy of media device used to transfer voter rolls
- Name and voter registration address
- Mailing address for voters
- Date of birth for voters
- Voter ID numbers for voters

- The manner that voters voted in the 2020 general election (early by mail, early in person, in person on Election Day)
- The location at which voters voted
- The date that voters voted
- The political party affiliation of voters
- The early ballot request date for voters
- The early ballot sent date
- The Voted early ballot return or receipt date
- The Ballot canceled date
- The image of ballot envelope of pollbook entry
- Final General Election Manual – Poll worker Training (2020)
- Final November 2020 General Election Day and Emergency Voting Plan
- Hands on Activity Outline.
- Tabulator Aid (09/14/2020)
- Certified letter from Secretary of State re pre-election L&A
- Certified letter from Secretary of State re post-election L&A
- Certification letter from Secretary of State, accepting recommendation from the Certification Committee that Dominion tabulators with electronic adjudication capabilities are certified for use in Arizona elections.
- Arizona Secretary of State List of Voting Equipment by County
- Arizona Secretary of State Certified Vote Tabulating Equipment List
- Arizona Secretary of State Certification Advisory Committee Minutes
- Combined correspondence between Attorney General’s Office and Maricopa County pertaining to Sharpie Markers (3 letters) (Nov. 2020)
- Image Cast Evolution Internal Memorandum regarding approved pens dated 06/04/2015
- Maricopa County Adjudication Quick Reference Guide
- Electronic Adjudication Board Procedures
- Maricopa County General Election – November 3, 2020 Hand Count/Audit Report.
- Signature Verification Training Materials.

81. On January 21, 2021, the Maricopa County Plaintiffs provided an additional 1.82 gigabytes of data comprised of:

- The Cast Vote Record, containing raw data, in JSON format.

82. All told, the Maricopa County Plaintiffs and the Recorder provided 11.32 gigabytes of data in response to the January 12, 2021, Subpoenas.

83. The Maricopa County Plaintiffs, along with the Recorder and the Treasurer, also alerted the Senators that none of them possessed some of the data requested by the January 12, 2021, Subpoenas including:

- RTMLogs
- Result Pair Resolution
- Data and items related to “Election Systems & Software” (ESS) voting systems, which Maricopa County does not use.

1
2
3
4 **84.** The Maricopa County Plaintiffs also asked the Senators for clarification
5 regarding some of the data requested by the January 12, 2021, Subpoena to the Board of
6 Supervisors. The Supervisors, and their employees in the Maricopa County Elections
7 Department, did not know what this requested data was, and so they asked the Senators to
8 provide clarification, as follows:

- The meaning of “Signature Checking & Sorting Machine”
- The meaning of “FTP Transfer Points Log”
- The meaning of “Windows software log”
- The meaning of “Network logs”
- The domain name “Admin.enr.dominionvoting.com” and
9 “*.dominionvoting.com domains.” With regard to this one, the
10 correspondence noted that the Board of Supervisors, their Election
11 Department Staff, and their contacts at Dominion Voting Systems are
12 not familiar with those URLs.
13
14

15 **85.** As of the date of the filing of this Complaint, the Senators have not
16 responded to the Maricopa County Plaintiffs’ requests for clarification.

17 **86.** The Maricopa County Plaintiffs provided all of the above-mentioned data to
18 the House of Representatives as well as to the Senate.

19 **87.** While the Maricopa County Plaintiffs were supplying this data, their
20 attorneys were continuing to talk with the Senators’ attorneys. On January 20, 2021, the
21 Senators or their representatives provided the Arizona Republic a list of terms to which
22 they were willing to agree, which included the following:

- “An audit will be performed including a logic and accuracy test on a
23 random sample of tabulation machines and a review of the source code
24 on a random sample of tabulation machines.”
- “The auditor will be certified by the U.S. Election Assistance
25 Commission and will have access to a ‘random sample of desktops,
26
27
28

1 servers, and routers’ in a way that wouldn’t disrupt county operations.”
2 • “Only authorized parties would have access to data or materials provided
3 by the county.”

4 **Exhibit G**, Jen Fifield, Arizona Republic, “Maricopa County is preparing for a new audit
5 of election results. Here’s how it might go,” January 20, 2021, *available at*
6 [https://www.azcentral.com/story/news/politics/elections/2021/01/20/maricopa-county-](https://www.azcentral.com/story/news/politics/elections/2021/01/20/maricopa-county-supervisors-respond-subpoenas-arizona-senate-demanding-election-material-so-senate-c/4222085001/)
7 [supervisors-respond-subpoenas-arizona-senate-demanding-election-material-so-senate-](https://www.azcentral.com/story/news/politics/elections/2021/01/20/maricopa-county-supervisors-respond-subpoenas-arizona-senate-demanding-election-material-so-senate-c/4222085001/)
8 [c/4222085001/](https://www.azcentral.com/story/news/politics/elections/2021/01/20/maricopa-county-supervisors-respond-subpoenas-arizona-senate-demanding-election-material-so-senate-c/4222085001/) (last visited February 4, 2021).

9 **88.** Importantly, no agreement was ever reached between the Maricopa County
10 Plaintiffs and the Senators concerning what additional data, if any, would be provided by
11 the Maricopa County Plaintiffs to the Senators. So, despite the fact that the Senators or
12 their representatives told Arizona Republic’s reporter, Jen Fifield, that the County would
13 provide images of ballots to the Senators, *id.*, the County never agreed to that, because
14 Arizona law prohibits the Maricopa County Plaintiffs from producing ballots or their
15 images absent a court order.

16 **89.** Still, in a continued good faith effort to cooperate with the Senate, the
17 Maricopa County Plaintiffs retained two U.S. Election Assistance Commission certified
18 laboratories—Pro V&V Laboratory, and SLI Compliance—to conduct an independent
19 audit of the Maricopa County tabulation machines and software.

20 **90.** The selection of only EAC-certified laboratories to conduct this audit was
21 necessary because a forensic audit conducted by a technician that is not certified by the
22 EAC could void the certification and could cause the secretary of state to de-certify the
23 equipment, meaning it could not be used in Arizona. *See* A.R.S. § 16-442(D).

24 **91.** Were the secretary of state to de-certify Maricopa County’s election
25 equipment, the ability of Maricopa County to conduct a free and fair, safe and secure
26 election would be substantially undermined if not compromised altogether and thus the
27 County and its voters would suffer irreparable harm.

28 **92.** Indeed, an election will take place in Goodyear, Arizona, on March 9, 2021.

1 Plaintiff Maricopa County must have tabulators and other election-related equipment
2 available to conduct that election; otherwise, Plaintiff Maricopa County will violate
3 Arizona law and also compromise its ability to conduct a free and fair election. *See, e.g.*,
4 A.R.S. § 16-447 (requiring the Board of Supervisors to provide at each polling location at
5 least one electronic voting device that complies with the federal Help America Vote Act).

6 **93.** The Maricopa County Plaintiffs developed a scope of work for these EAC-
7 certified firms that would comprehensively review the tabulators and software, as the
8 Senators represented they wanted, as follows:

- 9 • Verify that hash values submitted to the Arizona Secretary of State as
10 part of the testing for certification match the components in the
11 location.
- 12 • Verify that no malicious software is running on the components.
- 13 • Verify that the components are not connected to the internet.
- 14 • Conduct a logic and accuracy test of the 2020 General Election ballot
15 and program to confirm the equipment is accurately tabulating ballots.
16 As part of the logic and accuracy test, invite representatives from the
17 Arizona Legislature and Arizona’s political parties to participate in a
18 pre and post hand count of the ballots used during the logic and
19 accuracy test.
- 20 • Perform a physical security assessment of controls the County has
21 implemented to prevent unauthorized access to central count
22 processing including ballots, tabulators, servers, and software.

23 **94.** The Maricopa County Plaintiffs scheduled for this analysis of their
24 tabulation equipment to begin on February 2, 2021.

25 **95.** On January 29, 2021, Senate President Fann inexplicably issued a press
26 release titled, “Senate chooses its own qualified auditing firm to conduct forensic audit of
27 Maricopa County election results.”

28 **96.** President Fann’s press release incorrectly stated that “[w]e have now learned

1 that the EAC does not certify auditors as such[.]” despite the fact that the EAC does in fact
2 certify laboratories that conduct audits of election equipment.

3 97. Chairman Peterson was also quoted in the press release, stating that
4 President Fann had **already** chosen the firm that would conduct the Senate’s audit of
5 Maricopa County’s tabulation machines.

6 98. Currently, only two laboratories are certified by the EAC as qualified to
7 conduct analysis on election equipment—the two firms that the Maricopa County
8 Plaintiffs retained.

9 99. Neither EAC certified laboratory has been retained by the Arizona Senate.

10 100. Chairman Peterson stated in the press release that President Fann had already
11 chosen the firm that would conduct the Senate’s audit; therefore, the firm that the Senators
12 intend to use is not EAC certified.

13 101. Upon information and belief, the President of the Arizona Senate and the
14 Chairman of the Judiciary Committee have hired, or will hire, Allied Security Operations
15 Group (“ASOG”) to perform an audit of the County’s elections equipment if they
16 successfully gain access to this equipment. *See* Jeremy Duda, *Fann picks Trump-allied*
17 *firm with history of false election statements to audit Maricopa election*, AZ Mirror (Feb.
18 3, 2021, 8:11 a.m.), [https://www.azmirror.com/2021/02/03/fann-picks-trump-allied-firm-](https://www.azmirror.com/2021/02/03/fann-picks-trump-allied-firm-with-history-of-false-election-statements-to-audit-maricopa-election/)
19 [with-history-of-false-election-statements-to-audit-maricopa-election/](https://www.azmirror.com/2021/02/03/fann-picks-trump-allied-firm-with-history-of-false-election-statements-to-audit-maricopa-election/); Ben Giles & Steve

22 [https://kjzz.org/content/1656193/senate-republicans-support-resolution-arrest-maricopa-](https://kjzz.org/content/1656193/senate-republicans-support-resolution-arrest-maricopa-county-supervisors-contempt)
23 [county-supervisors-contempt](https://kjzz.org/content/1656193/senate-republicans-support-resolution-arrest-maricopa-county-supervisors-contempt).

24 102. ASOG is not accredited by the U.S. EAC as a laboratory certified to test
25 election equipment and systems.

26 103. Upon information and belief, ASOG’s employees are wholly unqualified to
27 audit the County’s elections equipment.

28 104. Upon information and belief, ASOG was founded by Russell Ramsland, and

1 also upon information and belief, the Senators intend to have Ramsland involved in
2 conducting their “audit.”

3 **105.** Ramsland has publicly claimed, among other things, that
4 George Soros helped form the “Deep State” in Nazi Germany in the 1930s—along with
5 President George H.W. Bush’s father, the Muslim Brotherhood, and “leftists.” John
6 Savage, *Texas Tea Partiers Are Freaking Out Over ‘Deep State’ Conspiracy Theories*,
7 Vice (Sept. 20, 2018), available at,
8 [https://www.vice.com/en/article/mbwgxx/texas-tea-partiers-are-freaking-out-over-deep-](https://www.vice.com/en/article/mbwgxx/texas-tea-partiers-are-freaking-out-over-deep-state-conspiracy-theories)
9 [state-conspiracy-theories](https://www.vice.com/en/article/mbwgxx/texas-tea-partiers-are-freaking-out-over-deep-state-conspiracy-theories).

10 **106.** Ramsland has been discredited for making false claims of overvoting in
11 Michigan, basing his claims on vote totals from a completely different state—Minnesota.
12 Clara Hendrickson, *Affidavit in Michigan lawsuit seeking to overturn election makes*
13 *wildly inaccurate claims about vote*,
14 PolitiFact (Dec. 4, 2020), available at,
15 [https://www.politifact.com/factchecks/2020/dec/04/russell-james-ramslandjr/affidavit-](https://www.politifact.com/factchecks/2020/dec/04/russell-james-ramslandjr/affidavit-michigan-lawsuit-seeking-overturn-electi/)
16 [michigan-lawsuit-seeking-overturn-electi/](https://www.politifact.com/factchecks/2020/dec/04/russell-james-ramslandjr/affidavit-michigan-lawsuit-seeking-overturn-electi/); *see also*, Louis Jacobson & Noah Y. Kim,
17 *Giuliani cites affidavit with*
18 *crucial errors in press conference*, PolitiFact (Nov. 20, 2020), available at ,
19 [https://www.politifact.com/factchecks/2020/nov/20/rudy-giuliani/giuliani-cites-affidavit-](https://www.politifact.com/factchecks/2020/nov/20/rudy-giuliani/giuliani-cites-affidavit-crucial-errors-press-conf/)
20 [crucial-errors-press-conf/](https://www.politifact.com/factchecks/2020/nov/20/rudy-giuliani/giuliani-cites-affidavit-crucial-errors-press-conf/) .

21 **107.** A Delaware judge found that Ramsland provided “materially false
22 information” in support of his claims of vote manipulation. *Rule to Show Cause, Page v.*
23 *Oath Inc.*, No. S20C-07-030 (Del. Super. Ct. Dec. 18, 2020).

24 **108.** Indeed, extensive public reporting since the November 3, 2020 general
25 election indicates that ASOG has peddled debunked conspiracy theories and error-riddled
26 analyses in its quixotic quest to prove that election fraud occurred. *See, e.g.*, Louis
27 Jacobson & Noah Y. Kim, *Rudy Giuliani cites affidavit about Michigan that erroneously*
28 *includes Minnesota locations*, Detroit Free Press (Nov. 21, 2020, 9:02 p.m.),

23 [https://www.freep.com/story/news/politics/elections/2020/12/16/antrim-county-report-](https://www.freep.com/story/news/politics/elections/2020/12/16/antrim-county-report-debunked-by-former-trump-election-official/3923499001/)
24 [debunked-by-former-trump-election-official/3923499001/](https://www.freep.com/story/news/politics/elections/2020/12/16/antrim-county-report-debunked-by-former-trump-election-official/3923499001/) (“The former acting director of
25 the EAC’s Voting System Testing and Certification Program, Ryan Macias, said the
26 [ASOG Antrim County] report showed “a grave misunderstanding” of the voting system
27 used in Antrim County as well as “a lack of knowledge of election technology and
28 process.”).

1 **109.** Further, at a November 2020 “hearing” in Arizona, ASOG employee and
2 self-proclaimed “information warfare officer” and “expert on ‘how to get in and corrupt
3 these machines to conduct strategic influence operations’” Phil Waldron “claimed Arizona
4 voting machines were connected to the internet while they were being used, which is
5 inaccurate” and “repeatedly — and falsely — suggested that signatures on mail-in ballots
6 are not verified.” Ryan Randazzo & Maria Polletta, Arizona GOP lawmakers hold meeting
7 on election outcome with Trump lawyer Rudy Giuliani, Arizona Republic, (Nov 30, 2020,
8 6:59 p.m.),
9 [https://www.azcentral.com/story/news/politics/elections/2020/11/30/republican-](https://www.azcentral.com/story/news/politics/elections/2020/11/30/republican-lawmakers-arizona-hold-meeting-rudy-giuliani/6468171002/)
10 [lawmakers-arizona-hold-meeting-rudy-giuliani/6468171002/](https://www.azcentral.com/story/news/politics/elections/2020/11/30/republican-lawmakers-arizona-hold-meeting-rudy-giuliani/6468171002/) (reporting on Arizona
11 “hearing” testimony of ASOG employee Phil Waldron.; Aila Slisco, Trump Campaign
12 Witness Can’t Back Up Claims in Georgia Election Fraud Hearings, Newsweek, (Dec. 3,
13 2020, 6:15 p.m.), [https://www.newsweek.com/trump-campaign-witness-cant-back-](https://www.newsweek.com/trump-campaign-witness-cant-back-claims-georgia-election-fraud-hearings-1552257)
14 [claims-georgia-election-fraud-hearings-1552257](https://www.newsweek.com/trump-campaign-witness-cant-back-claims-georgia-election-fraud-hearings-1552257) (reporting on Georgia hearing testimony
15 of ASOG employee Phil Waldron); Craig Mauger, Why 8 claims from Rudy Giuliani’s
16 Michigan witnesses don’t add up, The Detroit News, (Dec. 4, 2020, 4:26 p.m.),
17 [https://www.detroitnews.com/story/news/politics/2020/12/04/why-8-claims-rudy-](https://www.detroitnews.com/story/news/politics/2020/12/04/why-8-claims-rudy-giulianis-michigan-witnesses-dont-add-up/3824210001/)
18 [giulianis-michigan-witnesses-dont-add-up/3824210001/](https://www.detroitnews.com/story/news/politics/2020/12/04/why-8-claims-rudy-giulianis-michigan-witnesses-dont-add-up/3824210001/) (reporting on Michigan hearing
19 testimony of ASOG employee Phil Waldron). As stated above, upon information and
20 belief, the County’s elections equipment would be “audited” by Ramsland and Waldron if
21 obtained through the subpoena. *See Duda, supra.*

22 **110.** Additionally, Senate President Fann and her attorney, Kory Langhofer, gave
23 an interview indicating that the true purpose of the January 12, 2021, Subpoenas is to audit
24 the November 3, 2020, general election for president of the United States. *See Howard*
25 *Fisher, Capitol Media Services, Tucson.com, “Arizona Senate to conduct own audit of*
26 *2020 election results after all,”* (n.d.), [https://tucson.com/news/state-and-regional/arizona-](https://tucson.com/news/state-and-regional/arizona-senate-to-conduct-own-audit-of-2020-election-results-after-all/article_9bfb83c9-f60d-5a4e-b81f-36afc5577c7a.amp.html?_twitter_impression=true)
27 [senate-to-conduct-own-audit-of-2020-election-results-after-all/article_9bfb83c9-f60d-](https://tucson.com/news/state-and-regional/arizona-senate-to-conduct-own-audit-of-2020-election-results-after-all/article_9bfb83c9-f60d-5a4e-b81f-36afc5577c7a.amp.html?_twitter_impression=true)
28 [5a4e-b81f-36afc5577c7a.amp.html?_twitter_impression=true.](https://tucson.com/news/state-and-regional/arizona-senate-to-conduct-own-audit-of-2020-election-results-after-all/article_9bfb83c9-f60d-5a4e-b81f-36afc5577c7a.amp.html?_twitter_impression=true)

1 118. The January 12, 2021, Subpoena purported to command the Maricopa
2 County Supervisors to attend a hearing at the Senate, to provide testimony, at 9:00 a.m. on
3 January 13, 2021.³

4 119. The Maricopa County Supervisors complied with the subpoena—they sent
5 Chairman Jack Sellers and their attorney to appear at the designated hearing.

6 120. But there was no hearing noticed or scheduled, and the Senate would not let
7 Chairman Sellers testify.

8 121. The Senators apparently only want access to the data and items listed in the
9 subpoena. But that is not how legislative subpoenas work. Rather, the law provides that a
10 lawful subpoena must require a witness to attend and testify at a specific time and place.
11 A.R.S. § 41-1151. *See also* A.R.S. § 41-1153 (stating that contempt proceedings may be
12 brought against “a witness neglects or refuses to obey a legislative subpoena, or,
13 appearing, neglects or refuses to testify,” thereby recognizing that refusing to *attend* or
14 *testify* are the actions that can lead to contempt charges).

15 122. For a legislative subpoena to be lawful, there must actually be a hearing at
16 which the witness is commanded to attend in order to provide testimony.

17 123. Despite the subpoena purporting to require attendance at a hearing on
18 January 13, 2021, at 9:00 a.m., there was in fact no hearing at that time, and the subpoenaed
19 witness—the Chairman of the Board of Supervisors—was not allowed to provide
20 testimony, even though he appeared at the proper time and place designated by the
21 subpoena.

22 ³ As noted in Exhibit A, the subpoena stated in pertinent part:

23 YOU ARE COMMANDED TO APPEAR at the time, date and place set
24 forth below to provide testimony concerning the items set forth in Exhibit A
25 attached hereto. You must designate one or more of your officers, agents or
representatives who consent to testify on your behalf about the same.

26 **Date & Time:** January 13, 2021 at 9:00 a.m.

27 **Place:** Arizona Senate
28 Arizona State Capitol
1700 West Washington Street
Phoenix, Arizona 85007

1 **124.** Accordingly, the January 12, 2021, Subpoena directed to the Board of
2 Supervisors is unlawful and unenforceable. This Court should quash it.

3 **COUNT II**

4 **The January 12, 2021, Subpoena is Invalid**

5 **Because it Lacks a Proper Legislative Purpose but is *Ultra Vires*.**

6 **125.** Plaintiff Maricopa County incorporates by reference all of the foregoing
7 allegations as if set forth herein.

8 **126.** As all branches of government, the Legislature has only those powers
9 granted to it by the Constitution or authorized by statute.

10 **127.** A legislative subpoena is proper only if it, **first**, is authorized by ordinance
11 or similar enactment, **second**, serves a valid legislative purpose, and **third**, the witnesses
12 or material subpoenaed are pertinent to the subject matter of the investigation. *Conn.*
13 *Indem. Co. v. Superior Court*, 23 Cal. 4th 807, 813, 3 P.3d 868, 872 (citing *Wilkinson v.*
14 *United States*, 365 U.S. 399, 408-409 (1961)).

15 **128.** The January 12, 2021, Subpoena fails each of these three requirements.

16 **129.** The power of the legislature to issue subpoenas derives from Title 41 of the
17 Arizona Revised Statutes.

18 **130.** The law provides that: “A subpoena may be issued by the presiding officer
19 of either house or the chairman of any committee *before whom the attendance of a witness*
20 *is desired*. The subpoena is *sufficient* if it states *whether the proceeding is before the*
21 *senate, house of representatives or a committee*, is addressed to the witness, *requires the*
22 *attendance of the witness at a certain time and place*, and is signed by either presiding
23 officer or a committee chairman. The subpoena may be served and returned in like manner
24 as civil process. A.R.S. § 41-1151 (Emphasis added).

25 **131.** The law also provides that the Legislature or any of its committees may
26 subpoena a person “to attend as a witness” and “to produce, *upon reasonable notice*, any
27 material and relevant books, papers or documents in his possession or under his control . .
28 . . .” A.R.S. § 41-1154 (emphasis added).

1 **132.** Thus, to be valid, a legislative subpoena must, **first**, command a witness to
2 appear and provide testimony at a hearing scheduled at a specific time and place.

3 **133.** The January 12, 2021, Subpoena to the Board of Supervisors purported to
4 command a witness to appear before the Senate, at a specific time and place some 17 hours
5 after the subpoena was served, but no hearing had been noticed or scheduled at that time
6 and place, no hearing occurred, and the witness who appeared in response to the
7 subpoena—Chairman Jack Sellers—was not allowed to testify.

8 **134.** No law authorizes a legislative subpoena that does not require a witness to
9 testify at a specific time and place.

10 **135.** Because the January 12, 2021, Subpoena did not comport with the
11 requirement that a lawful legislative subpoena compel a witness to appear and provide
12 testimony at a specific time and place, it failed the first requirement for a lawful legislative
13 subpoena.

14 **136.** Even were that not so, the January 12, 2021, Subpoena provided 17 hours’
15 notice before the (non-existent) hearing at which Chairman Sellers was supposed to testify,
16 and also produce, among other things, all of Maricopa County’s tabulation machines and
17 some 2.1 million paper ballots.

18 **137.** A.R.S. § 41-1154 does not define what constitutes the “reasonable notice”
19 that must be provided witnesses before the hearing at which they must testify. But
20 regardless, 17 hours cannot be “reasonable notice” as the law requires for a legislative
21 subpoena to be valid.

22 **138. Second,** the Subpoenas serve no valid legislative purpose.

23 **139.** The January 12, 2021, Subpoena to the Board of Supervisors seeks the 2.1
24 million paper ballots, tabulators, and source code necessary to conduct a recount-audit of
25 the November 3, 2020, general election, as well as an audit of the machines, software, and
26 ballots.

27 **140.** President Fann, and counsel for the Senate, has admitted that the purpose of
28 the subpoena is to conduct a recount-audit of the election, as well as an audit of the

1 machines, software, and ballots.

2 141. There is no legislative authority to audit election results.

3 142. There is no legislative authority to conduct forensic audits of election
4 tabulation machines, software, and other equipment.

5 143. There is certainly no legislative authority to investigate an election after six
6 superior court judges, one federal district court judge, and seven Arizona Supreme Court
7 Justices heard a total of seven election-related contests and found no evidence of
8 wrongdoing on the part of Maricopa County, its elections officers, or the electronic voting
9 system it uses, or any basis for decertifying Arizona's election or awarding Arizona's
10 eleven presidential electors to President Trump.

11 144. Because the law does not provide the Senate these powers, there can be no
12 proper legislative purpose to the January 12, 2021, Subpoena.

13 145. **Third**, the witnesses or material subpoenaed are not pertinent to the subject
14 matter of the investigation.

15 146. Upon information and belief, there is not currently an open investigation in
16 the Senate related to the November 3, 2020 general election.

17 147. Accordingly, the Subpoenas were issued without proper authority, are
18 improper on their face, and serve no legislative purpose—and so, are invalid.

19 148. Rather, the subpoena seeks to further an *ultra vires* act of the Senate, i.e., the
20 recount audit of an election and the audit of tabulators, software, and ballots—something
21 the Senate lacks authority to do.

22 149. Accordingly, the January 12, 2021, Subpoena directed to the Board of
23 Supervisors is unlawful and unenforceable. This Court should quash it.

24 **COUNT III**

25 **Legislative Subpoenas Cannot Lawfully Compel**

26 **Production of Machines and Equipment.**

27 150. Plaintiff Maricopa County incorporates by reference all of the foregoing
28 allegations as if set forth herein.

1 **162.** A.R.S. § 16-515(G) makes it illegal to take photographs within 75 feet of
2 voting locations while voters are voting. Notably, the law does not prohibit “taking
3 photographs of a voter with her ballot,” or “taking photographs that would tie a specific
4 ballot to a specific voter.” The law prohibits photography in voting locations, and so taking
5 a photograph of someone’s voted ballot—even with no voter in the photograph—would
6 be unlawful.

7 **163.** A.R.S. § 16-1005(H), (I), makes it unlawful to possess another’s voted early
8 ballot, unless the possessor is an election official, a United States postal worker or other
9 worker authorized to transmit the U.S. mail, or the voter’s family member, household
10 member, or caregiver. Notably, the possession of another’s voted early ballot is unlawful
11 regardless of whether the possessor knows the identity of the voter who voted that
12 particular ballot. *Id.*

13 **164.** A.R.S. § 16-1018(4) makes it unlawful to “[s]how another voter’s ballot to
14 any person after it is prepared for voting in such a manner as to reveal the contents[.]”
15 There are only two exceptions: one may show her own ballot to someone assisting her
16 with voting, and one may post to the internet a picture of her own early vote-by-mail ballot.
17 *Id.* Otherwise, if one shows another’s voted ballot to someone—the very thing that this
18 subpoena commands the County to do—she has broken the law.

19 **165.** Turning over ballots and ballot images to the Committee unquestionably
20 compromises the secrecy of the ballots, which would be a violation of the Arizona
21 constitution and statutory law. The purpose for the request and the intent of the committee
22 is entirely unknown. Moreover, once ballots are provided to the committee and are no
23 longer within the custody and control of Maricopa County, they will no longer be protected
24 and, arguably, will be subject to disclosure pursuant to any public records request made to
25 the Judiciary Committee—a further violation of the Constitution and statutory law.
26 Accordingly, the Subpoenas are unlawful.

27 **166.** Additionally, the ballots are currently under seal, and cannot be unsealed
28 absent a court order, which can only be granted in limited circumstances not applicable

1 here. A.R.S. § 16-624.

2 **167.** The law commands that “after the canvass has been completed, the officer
3 in charge of elections shall deposit the package or envelope containing the ballots in a
4 secure facility managed by the county treasurer, who shall keep it unopened and unaltered
5 for twenty-four months for elections for a federal office or for six months for all other
6 elections, at which time he shall destroy it without opening or examining the contents.”
7 A.R.S. § 16-624(A).

8 **168.** The Arizona Elections Procedure Manual,⁴ which has the force of law,
9 A.R.S. 16-452, cites to A.R.S. 16-624(A) and commands that “[a]fter the county canvass
10 is complete, the officer in charge of elections must seal the voted ballots and deliver these
11 ballots and official returns to the County Treasurer (or a secure facility contracted by the
12 County Treasurer) for secure storage.”

13 **169.** Thus, the law is that the ballots are *sealed* as soon as the canvass is complete,
14 and remain sealed from that point until they are destroyed by the treasurer. The only way
15 they can be unsealed is with a court order because of a recount or contest, upon which
16 time they come under the custody and control of the court. A.R.S. 16-624(D).

17 **170.** Here, there is no recount or election contest. Accordingly, the Court should
18 not order the ballots unsealed.

19 **171.** Further, the law’s command to protect the secrecy of the ballot, and to seal
20 the ballots and prevent their inspection after elections except in times of recounts or
21 contests, applies equally to digital images of ballots. The law expressly provides that “[t]he
22 officer in charge of elections shall ensure that electronic data from and electronic or digital
23 images of ballots are protected from physical and electronic access, including
24 unauthorized copying or transfer, and that all security measures are at least as protective
25 as those prescribed for paper ballots.” A.R.S. § 16-625.

26 **172.** Thus, there is no lawful mechanism by which the Senate can obtain ballots

27 ⁴ The current edition of the Arizona Elections Procedures Manual is available at
28 [https://azsos.gov/sites/default/files/2019 ELECTIONS PROCEDURES MANUAL AP
PROVED.pdf](https://azsos.gov/sites/default/files/2019_ELECTIONS_PROCEDURES_MANUAL_APPROVED.pdf).

1 or ballot images via a legislative subpoena. To the extent that the January 12, 2021,
2 Subpoena commands the production of ballots or ballot images, it must be quashed.

3 **DEMAND FOR RELIEF**

4 WHEREFORE, Plaintiff Maricopa County asks this Court to:

5 1. Declare that the January 12, 2021, Subpoena to the Board of Supervisors is
6 unlawful and so invalid;

7 2. Order that the January 12, 2021, Subpoena to the Board of Supervisors is
8 quashed;

9 3. Award the Plaintiff Maricopa County its attorney fees under the Private
10 Attorney General Doctrine, because by having the subpoena quashed Plaintiff Maricopa
11 County acted to vindicate the rights of the citizens of Maricopa County by protecting the
12 secrecy of their ballots, as guaranteed by Arizona constitutional and statutory law. *See*
13 *Meyer v. State*, 246 Ariz. 188, 436 P.3d 511 (Ct. App. 2019), *review denied* (Aug. 27,
14 2019) (recognizing that legislators were entitled to attorney fees under Private Attorney
15 General Doctrine where their lawsuit against the state was successful and vindicated the
16 rights of citizens of the state).

17 4. Grant any other relief that the Court deems appropriate.

18 Respectfully submitted this 5th day of February, 2021.

TO: The Maricopa County Board of Supervisors

YOU ARE COMMANDED TO APPEAR at the time, date and place set forth below to provide testimony concerning the items set forth in Exhibit A attached hereto. You must designate one or more of your officers, agents or representatives who consent to testify on your behalf about the same.

Date & Time: January 13, 2021 at 9:00 a.m.

Place: Arizona Senate
Arizona State Capitol
1700 West Washington Street
Phoenix, Arizona 85007

You or your representative must also produce, and permit inspection, testing or sampling of the items set forth in Exhibit A at the date, time and location set forth above.

**FAILURE TO COMPLY WITH THIS SUBPOENA MAY CONSTITUTE CONTEMPT OF THE
LEGISLATURE, PURSUANT TO A.R.S. § 41-1153**

Executed this 12th day of January, 2021.

Karen Fann, President of the Arizona Senate

Warren Petersen, Chairman
Senate Judiciary Committee

EXHIBIT A

For the November 2020 general election in Maricopa County, Arizona:

1. The ballot tabulation and processing equipment from each polling place and tabulation center.
2. The software for the equipment described above and the election management system used.
3. Hardware and Forensic Images of Election Servers, Desktops, Removable Media (such as thumb drives, USB, memory cards, PCMCIA cards, Compact Flash, CD/DVD etc.) used to transfer ballots to tabulation centers from voting locations and to load software/programming.
4. Election Log Files, in XML, EML, JSON, DVD and XSLT formats, and any other election files and logs for the:
 - Tabulators
 - Result Pair Resolution
 - Result Files
 - Provisional Votes
 - RTMLogs
 - SQL Database Files
 - Signature Checking & Sorting Machine
5. Election Settings
 - Rejected Ballots Report by Reason Code
6. Accounts and Tokens
 - Username & Passwords (Applications, Operation Systems)
 - Encryption Passwords (Bitlocker, Veracrypt, Etc)
 - Security Tokens (iButton, Yubikey, SmartCard, Etc)
7. Windows Server & Desktop
 - Windows software log
 - Windows event log and Access logs
 - Network logs
 - FTP Transfer Points Log
 - Usernames & Passwords
 - Application specific usernames and passwords (Election Software, Database Access)
8. Dominion Equipment
 - The Administrator & Audit logs for the EMS Election Event Designer (EED) and EMS Results Tally & Reporting (RTR) Client Applications.
9. Dominion Network

- Identity of each person accessing the domain name Admin.enr.dominionvoting.com and *. dominionvoting.com domains.
 - Windows security log of the server that is hosted at Admin.enr.dominionvoting.com
 - Internal admin.enr.dominionvoting.com logs
10. Election Systems & Software (ESS) Specific
- The Administrator & Audit logs for the Electionware election management system, Ballot on Demand - BOD printing system, DS200 scanner and tabulator, DS450 scanner and tabulator, DS850 scanner and tabulator, and Voting Systems (ExpressPoll, ExpressVote, ExpressVote XL).
11. Voter rolls
- Database of voter rolls
 - Forensic image of computers/devices used to work with voter rolls
 - Copy of media device used to transfer voter rolls
12. Daily and cumulative voter records for those who voted, with sufficient information to determine for each voter:
- Name and voter registration address;
 - Mailing address
 - Date of birth;
 - Voter ID number;
 - Manner of voting (*e.g.*, early by mail, early in-person, in-person on Election Day)
 - Voting location (if applicable)
 - Date voted
 - Political party affiliation (if applicable);
 - Early ballot request date (if applicable)
 - Early ballot sent date (if applicable)
 - Voted early ballot return or receipt date (if applicable)
 - Ballot canceled date (if applicable)
 - Image of ballot envelope or pollbook entry in .RAW, HTML, XHTML, SVG, or other format
13. Access or control of ALL routers, tabulators or combinations thereof, used in connection with the administration of the 2020 election, and the public IP of the router.
14. Voter Rally Paper Rolls, Test Ballots, Ballot Test Matrix.
15. Access to all original, paper ballots (including but not limited to early ballots, Election Day ballots, and provisional ballots).
16. Each original, unique native electronic image of each early ballot cast, with the original associated metadata (multiple ballot images **may not** be combined into a single file and no metadata associated the original electronic ballot image shall be deleted, removed or altered).

17. Each image of each early ballot cast in (a) TIFF format, (b) PDF format, and (c) JPG format (multiple ballot images **may not** be combined into a single file).

18. From the Dominion electronic election management system, each of the following must be provided as (a) an XML file, (b) a JSON file, and (c) a TXT file:

- Dominion Electronic Cast Vote Record
- Ballot Images – Raw Images
- Ballot Images – Ballot Audit and Review
- Early Ballot Report
- Provisional Ballot Report
- Conditional Voter Registration Ballot Report
- Cast Vote Record (raw data) – JSON
- ImageCast Central Logs
- Ballot Scanning/Tabulation Machine Logs
- Ballot Scanning/Tabulating Machine Tape

Any electronically stored information contained in this Exhibit A shall be electronically uploaded to one or more computer drives supplied by the Senate Judiciary Committee or its agents.

RE: Subpoena to the Maricopa County Board of Supervisors dated January 12, 2021

To the Senate and the Judiciary Committee:

On behalf of our client, the Maricopa County Board of Supervisors (the "Board"), this letter acknowledges receipt of the above-referenced subpoena. The Board will work with the County Attorney and her staff to respond to the specific requests therein; however, the Board formally objects to the unreasonable deadline for such a subpoena - as 17 hours is not adequate time to respond. The Board looks forward to working with you on this and other election related matters.

Sincerely,

ALLISTER ADEL
MARICOPA COUNTY ATTORNEY

A RESOLUTION

DECLARING THE MEMBERS OF THE MARICOPA COUNTY BOARD OF SUPERVISORS IN
CONTEMPT OF THE ARIZONA SENATE.

(TEXT OF BILL BEGINS ON NEXT PAGE)

1 Be it resolved by the Senate of the State of Arizona:

2 1. That Jack Sellers, Steve Chucri, Bill Gates, Clint Hickman and
3 Steve Gallardo, members of the Maricopa County Board of Supervisors, are
4 in contempt of the Arizona Senate for failing to comply with a subpoena
5 executed by the President of the Arizona Senate and the chairman of the
6 Senate Judiciary Committee relating to the November 2020 general election
7 in Maricopa County.

8 2. That the members of the Maricopa County Board of Supervisors
9 have not complied with the subpoenas issued on December 1, 2020 and
10 January 12, 2021 and have repeatedly and wilfully delayed and obstructed a
11 vital and duly authorized investigation by the Arizona Senate.

12 3. That the President of the Arizona Senate take all legal action
13 pursuant to section 41-1153, Arizona Revised Statutes, to enforce the
14 subpoena.

15 4. That a copy of this Resolution, signed by the President of the
16 Senate and countersigned by the Secretary of the Senate, be forwarded to
17 the Senate Sergeant-at-arms.

Exhibit F

MARICOPA COUNTY, ARIZONA

GENERAL ELECTION – NOVEMBER 3, 2020

HAND COUNT/AUDIT REPORT

Synopsis:

Pursuant to A.R.S. §16-602(B), Maricopa County conducted the hand count/early ballot audit for the **November 3, 2020 General Election**, 2% of the polling places (vote centers) were counted as required by statute, which amounted to **4** polling places (vote centers) out of **175** total polling places (vote centers).

The hand count begin on **Wednesday, November 4, 2020 at 6:08 p.m.** when the Maricopa County Chairs of the **Republican, Democrat and Libertarian** Party met to select the polling places (vote centers), races and early ballot audit batches to be audited. All ballots were accounted for in the central counting location before the selection process started. The selection order was chosen by lot, and the **Republican** Party was selected to go first, followed by the **Libertarian** Party and then the **Democrat** Party.

With the order established, the specific polling places (vote centers) to be counted were selected with the participating County Party Chairs alternating the various selections. Once the polling places (vote centers) were chosen, the 5,000 early ballots to be audited were selected. A total of **26 batches** were drawn to be audited to reach this 1% or 5,000 ballot total, whichever is less.

Five contested races were chosen as required by law: 1 Presidential, 1 Statewide Race, 1 Statewide Ballot Measure, 1 Federal Race and 1 State Legislative Race were counted. Specifically, the following list display's the contested races that were audited:

- Presidential - **President**
- Statewide Candidate – **Corporation Commissioner**
- Statewide Ballot Measure – **Proposition 208**
- Federal Candidate – **U.S. Representative**
- State Legislative – **State Senator**

The master precinct and race selection lists are attached for review. The physical hand count started at **9:05 a.m.** on **Saturday, November 7, 2020** and was paused at **5:08 p.m.** and then restarted and concluded on **Monday, November 9, 2020 at 1:15 p.m.** The tabulation method used was the stacking method for the paper ballots. The audit was conducted by **26** boards made up of 3 members, of which not more than 2 members were from the same political party. This hand count included votes cast on both the scanned ballots and the accessible marking devices from the selected polling places (vote centers).

Early Ballot Audit:

Over 5,000 early ballots were audited, per the requirement to audit 1% or 5,000 early ballots, whichever is less, as required per Arizona State Law. The early ballot audit consisted of **26** batches with at least **1** batch from every machine used for tabulation. Each batch contained approximately **200** early ballots. There was a little over **1.9 million** early ballots cast in Maricopa County for the **November 3, 2020 General Election**.

Comments:

No discrepancies were found by the Hand Count Audit Boards. Please find to follow the polling places (vote centers) and early ballot reports for review.

Comments: If a discrepancy occurred, the reason is notated and described in each of the detailed Precinct/EV Batch reports.

CUMULATIVE AGGREGATED MARGINS - BY TYPE				
	Hand Count Total	Machine Count	Absolute Difference	Aggregated Margin
VOTE CENTERS	15,569	15,569	0	0.000%
EV'S	31,739	31,739	0	0.000%
Aggregated Margin	= Absolute Difference ÷ Machine Count X 100			

"VOTE CENTER SPECIFIC" HAND COUNT REPORTS AND "EARLY BALLOT BATCH SPECIFIC" HAND COUNT REPORTS FOLLOW THIS SUMMARY

THE FOLLOWING WORKSHEETS ARE THE SUPPORTING AND DETAILED COUNTS THAT WERE USED TO DERIVE THE ABOVE SUMMARIES AND DESIGNATED MARGIN PERCENTAGES.

If any variances occurred, the specific Precinct or Early Ballot Hand Count Reports that follow would indicate the reasons for these variances in the "Comments" section for the affected "Race Category". Those variances are noted as part of the designated margin calculation when "Intent" or "Machine Error" is deemed to have occurred based on the Board's audit. For those variances noted as "Intent" errors, this reflect votes that were unreadable by the machine but were determined by the boards to be votes for a given candidate or issue. As an example, ballots where the voter circled the candidate's name instead of connecting the arrow pointing to the candidate's name (as instructed) OR where there were very visible and profound bleed through marks from the back of the ballot where the machine saw this as an actual readable mark on the front of the ballot, and so on. The machine is faulted for this despite it not actually being a machine read error and this occurrence is included as a machine error variance and is part of the designated margin calculation.

For any marks not read by the machine because they were too light for the machine to accurately read them or the board, upon their verified count, deemed the machine count to be in error, those would be listed as "machine errors" and as such those totals would also be part of the designated margin calculations, if existing. All variances, if any, are noted in the final result reports that follow.

Exhibit G

ELECTIONS

Maricopa County is preparing for a new audit of election results. Here's how it might go

Jen Fiffeld Arizona Republic

Published 11:58 a.m. MT Jan. 20, 2021 | Updated 6:09 p.m. MT Jan. 20, 2021

The Maricopa County Board of Supervisors is preparing to release election material to the Arizona Senate in response to its subpoenas, so that the Senate can perform an audit.

The supervisors said in a statement on Wednesday that they continue to negotiate with the Senate on how to respond to the subpoenas, while Senate President Karen Fann put out a statement on Wednesday that said the Senate and supervisors had come to an agreement.

The announcement of a potential agreement comes the day President Joe Biden was inaugurated and as a legal battle between the supervisors and Senate has lasted more than a month.

A list provided by Senate Republicans shows what could be included in the agreement, including, but not limited to:

The county will provide images of ballots.

An audit will be performed including a logic and accuracy test on a random sample of tabulation machines and a review of the source code on a random sample of tabulation machines.

The audit will only examine material related to the "2020 election."

The auditor will be certified by the U.S. Election Assistance Commission and will have access to a "random sample of desktops, servers, and routers" in a way that wouldn't disrupt county operations.

Only authorized parties would have access to data or materials provided by the county.

The parties will "work together in good faith" to resolve issues arising during the audit.

The supervisors declined to confirm the terms of the potential agreement.

The Senate first issued two subpoenas to the supervisors on Dec. 15 after repeatedly calling on them to complete an additional independent audit of general election results, even though the routine audit the county conducted went flawlessly and challenges to the outcome alleging irregularities and fraud failed in court.

The subpoenas gave the supervisors three days to respond and produce a voluminous amount of material from the general election, including images of all mail-in ballots, detailed voter information and machines used to count votes.

Instead of responding, the supervisors sued to stop the subpoenas, saying, in part, that state law prohibits the county from turning over copies of ballots and arguing the Senate was overreaching its powers. The supervisors asked the court to decide whether they had to respond.

Potential agreement reached regarding subpoenas

More recently, though, Supervisors Chairman Jack Sellers authorized attorneys to negotiate with the Senate, according to county spokesperson Fields Moseley.

Once there is a final plan, the board will vote on it, Moseley said.

In a letter to state Sen. Paul Boyer, Supervisor Bill Gates said that the supervisors, "stand ready to work with the Arizona Senate to provide additional documents and material responsive to the January subpoena."

"In these challenging times, we believe that we can best represent our shared constituents by working together to determine how our state's election system can be further improved to ensure that every valid vote is counted," Gates wrote.

Senate Republicans consider the negotiations complete.

"I am pleased to announce that after a hard-fought battle to seek information on behalf of Arizona voters regarding the integrity of the 2020 election, we have reached a favorable agreement with the Maricopa County Board of Supervisors," Fann wrote in her statement on Wednesday. "Not only has the Board agreed to turn over all the relevant information we sought in our subpoenas so that we may perform an audit, but they also acknowledge that the Legislature is a sovereign power of the state and that the county is a political subdivision, and as such, the Legislature has the constitutional and statutory authority to issue subpoenas."

On Jan. 19, Sellers wrote a letter to Fann acknowledging that the county "holds none of the sovereign power in the state," and that each legislative body "has power to issue legislative subpoenas by statute and as provided by the Constitution."

His letter seems to adhere to another one of the terms of the potential agreement with the county that states, "The County will acknowledge the legislature's authority to issue investigatory subpoenas."

Judge had asked county, Senate to come to agreement

The supervisors, four Republicans and one Democrat, help oversee general elections in the county and are responsible for certifying election results. The supervisors voted on Nov. 20 to certify the results of November's elections, after spending hours asking county officials questions about the integrity of the election results.

Since the subpoenas were issued, Maricopa County Superior Court judges have considered the intent of the subpoenas, in part to determine whether the Senate had power to issue them.

County attorneys have argued that the subpoenas were a last-ditch attempt to try to overturn the results of the election, in which Arizona voted to elect President Joe Biden, to which Superior Court Judge Timothy Thomason said last week, "that ship has clearly sailed."

Senate attorneys argued that the subpoenas were intended to give the lawmakers access to election materials that will be important as they consider whether to pass new election-related laws.

Attorney General Mark Brnovich weighed in, telling the court in a brief that the Senate had the authority to issue the subpoenas.

Brnovich wrote that the supervisors misunderstood the scope of the Legislature's sweeping authority to issue and enforce subpoenas. The brief contends the county's position is "inconsistent with constitutional structure, governmental tradition and practice, the plain meaning of an Arizona statute, and binding Arizona Supreme Court case law."

At a court hearing last week, though, Thomason said that the subpoenas were now moot, because the Legislature that issued the subpoenas adjourned and a new Legislature has convened.

Perhaps understanding that this could become an issue, the Senate issued a new subpoena a day before that court hearing, with the same demands.

A county attorney urged Thomason to wait to see how the county responded to the new request, saying that he was “fully confident” that the county could work with the Legislature on the request.

Thomason did not make a decision on the case and instead told the lawyers that the county and the Legislature should come to a solution outside of court.

“I do wonder why the senators and county officials can’t sit down and work this out,” he said. “It just seems, as responsible government officials, it is incumbent upon them to sit down and work this out.”

A court hearing scheduled for Wednesday morning was vacated.

Arizona Senate Republicans are abusing their subpoena power. Strip them of it

Opinion: Senate Republicans are demanding that supervisors break the law to assist an election review that won't be credible or trustworthy.

Robert Robb Arizona Republic

Published 8:00 a.m. MT Feb. 5, 2021

Evaluating the ruction over a review of the 2020 election between the Arizona Legislature and the Maricopa County Board of Supervisors starts with two points, bluntly made:

First, the GOP members of the Maricopa County Board of Supervisors are the last bastion of sanity left in the Arizona Republican Party.

Second, no election review by Senate Republicans will be credible or trustworthy. Too many of them were complicit in Donald Trump's plot to remain in power despite losing the presidential election.

Ballots are protected by Arizona law

At issue are the ballots, or images of the ballots, from the 2020 election. And the machines used to count them.

Senate Republican leadership issued a subpoena demanding that the county turn over both. While producing an avalanche of other subpoenaed material, the county has declined to produce the ballots or the machines.

There is an explicit state law that requires ballots to be locked up after an election and only released pursuant to a court order. Images of the ballots are afforded the same protection.

Senate Republican leadership has obtained no such court order. So, the leadership is demanding that the county commit an illegal act.

The machines are different. There, the problem is that turning them over could invalidate their certification under federal law or violate contractual obligations.

OVERSIGHT

The county is conducting its own tests of the election machines beyond what is required by state law and administrative procedures. This was a tactical mistake.

The board decided to do so in hopes of tamping down allegations of irregularities still circulating among Trumpeteers. That's never going to happen. Further tests and audits simply feed the delusion, suggesting that there might still be something to find, or something that is being hidden.

The only path forward is for everyone else to move on and leave the Trumpeteers to their delusions.

Lawmakers' review is partisan, opaque

However, the difference between what the board did and how Senate Republicans are proceeding is instructive.

How the board proceeded was entirely bipartisan. There is no distance between the four Republican members of the board (Jack Sellers, Steve Chuceri, Bill Gates and Clint Hickman) and its Democratic member (Steve Gallardo).

The additional tests conducted by the board are entirely transparent and public. The firms that are conducting them are known and approved by the federal government for such purposes, so certification of the machines has not been put at risk. Legislators and media can watch the tests taking place.

In contrast, the Senate review is entirely partisan. No Democrat is supporting it.

And it is suspiciously opaque. Senate President Karen Fann said that a firm had been hired and then said that one hadn't. The firm hired but not hired wasn't named. Reporters turning over rocks discovered that it includes Phil Waldron, who joined Rudy Giuliani on the conspiracy-mongering circuit. And it's not approved by the federal government, which would put certification of the machines at risk.

Nevertheless, all Senate Republicans have sponsored a resolution finding the supervisors in contempt, subjecting them to potential arrest and detention for the duration of the session.

They're acting as judge, jury and jailer

Now, I don't think legislatures should have subpoena power. There are no due process protections, as there are for document and witness demands issued as part of a judicial

process. A judge can quash or modify them if they are overbroad or abusive.

This subpoena is clearly abusive. State law requires that ballots be locked up and released only as a result of a court order, which has not been obtained. Yet Senate Republicans are asserting the authority to act as judge, jury and jailer and hold supervisors in contempt for not engaging in an illegal act.

That's a gross abuse of authority. And it arguably violates the separation of powers provision of the state Constitution. The Legislature is clearly exercising what are quintessential judicial powers.

Senate Republicans only have a one-vote margin. If there is any Republican in the caucus with a shred of judgment and conscience left, now is the time to stand up and put an end to this travesty.

Meanwhile, an initiative that, at a minimum, strips the Legislature of authority to arrest and incarcerate would be appropriate and timely. Removing its subpoena power entirely would be even better.

This body has demonstrated that it cannot be entrusted with such authority.

Retired Army Colonel Phil Waldron has appeared at multiple events with Rudy Giuliani boosting voter fraud conspiracy theories, including a staged "hearing" that took place at a Phoenix, Arizona hotel as President-elect Joe Biden's victory in the state was certified. He has been presented as a "cybersecurity expert," although his background and credentials in the field are unclear.

- Waldron claimed that a Maricopa County official said the county did not validate signatures on some ballots, creating a "1.9 million vote fraud potential." That official has not produced an affidavit, he said. SOURCE: https://www.foxnews.com/politics/trump-giuliani-arizona-election-fraud-gophearing?utm_campaign=wp_the_trailer&utm_medium=email&utm_source=newsletter&wpsrc=nl_the_trailer
- Rudy Giuliani referred to him as his "information warfare officer" during his post-election push to uncover election fraud. During an unsanctioned legislative hearing held in December at a Phoenix hotel, Waldron testified that Dominion machines used in Arizona could have been hacked or even manipulated at polling places to change the outcome of the election. But, of course, he had no actual evidence that they were hacked or manipulated and elections officials say the machines aren't even connected to the internet. SOURCE: <https://www.azcentral.com/story/opinion/op-ed/laurieroberts/2021/02/02/senate-republicans-losing-their-minds-over-election-audit-jail-really/4366180001/>
- Retired Army Colonel Phil Waldron testified in his prior official US Gov job he occasionally "fixed" foreign elections. Waldron Tells Michigan Lawmakers Truckloads of Ballots for Joe Biden Were Inserted into the 2020 Election SOURCE: https://www.thegatewaypundit.com/2020/12/col-phil-waldron-tells-michigan-lawmakers-truckloads-ballots-joe-biden-inserted-2020-election/?utm_source=Twitter&utm_medium=PostSideSharingButtons&utm_campaign=websitesharingbuttons
- Presented an email sent Nov. 10, from an anonymous individual claiming to have witnessed a detailed plan to embed 35,000 fraud votes to each Democrat candidate's total votes while at a Pima County Democratic Party meeting in September. SOURCE: <https://www.villagenews.com/story/2020/12/03/national/cybersecurity-expert-35000-fraud-votes-embedded-for-local-and-national-democrat-candidates-in-arizona/64351.html>
- Retired Army Col. Phil Waldron, who was called to testify at the Georgia state Senate hearing by President Donald Trump's personal lawyer Rudy Giuliani, could not confirm allegations that a video showing bags being "pulled from a table" by election workers contained fraudulent ballots when questioned by Democratic Senator Jen Jordan. Statement from Supervisor Gates on Arizona Senate Contempt Resolution

Today, the Arizona State Senate Judiciary Chairman Warren Petersen, with the blessing of Senate President Karen Fann, crafted a floor resolution to hold the Maricopa County Board of Supervisors in contempt of the Senate for not turning over the 2.1 million ballots cast in Maricopa County during the 2020 election.

The Arizona Senate Judiciary Chairman's request is simple: Give them the ballots so Colonel Phil Waldron and his associates can examine them. Not only is it illegal under Arizona state law for this Board to turn over custody of the ballots, it is also unfathomable that the Arizona Senate has hired a known, and frequently debunked, conspiracy theorist to conduct their audit.

From the outset of our conflict with the Senate, my priority has been the privacy and security of voter data and the sacrosanct right of a secret ballot. The request and subsequent retribution from the Senate is a direct attack on both.

Additionally, the Arizona Senate has put Maricopa County in the unattainable position of following Arizona state law, which we in good faith believe we are doing, or submitting the information demanded by the legislative subpoena. Maricopa County originally filed suit to ask for clarification from the courts what information we can legally provide to the Senate. That is not obstructionism. That is not willfully violating a subpoena. It is a legitimate concern that the Board has in protecting people's secret ballot and following the law.

If the Arizona Senate believes that they have a right to examine your secret ballot, I invite them to make a good faith argument to a court and will respect any decision henceforth. Barring a court order, I will never be in favor of turning over your ballots.

In the meantime, I stand willing and able to work with the legislature to address any concerns about how the election was handled in order to craft legislation to address any deficiencies. I also look forward to the results of the two independent audits currently being conducted at the request of the Board of Supervisors. It is paramount that voters have confidence in our system and I am hopeful that having qualified and independent auditors review the data will do just that.

Maricopa County 2020 Elections Fact Sheet

Accomplishments

With nearly 2.6 million voters, Maricopa County is the second largest voting jurisdiction in the nation, while also being geographically larger than seven states. In the midst of a pandemic, Maricopa County redesigned the election model to administer five safe, secure, reliable, and accurate elections, while ensuring Arizona laws allowed all voting options. Below are a few highlights from Maricopa County's 2020 Election Cycle.

- Served nearly 3.4 million voters (an historic amount of voters with record turnout)
 - o March Jurisdictional Election
 - Chandler: 37,324 votes cast / 23.77% turnout
 - Tempe: 27,878 votes cast/ 30.71% turnout
 - o March PPE
 - 358,390 votes cast/ 48.94% turnout
 - o May Jurisdictional Election
 - 11,478 votes cast/ 66% turnout
 - o August Primary
 - 860,704 votes cast/ 35.40% turnout
 - o November General
 - 2,089,563 votes cast/ 80.51% turnout
- Counted more ballots faster and reported results sooner than in prior elections
- Reduced the amount of voters that were required to vote a provisional ballot
 - o 2020 – 18,310 Provisional Ballots / 2016 - 52,173 Provisional Ballots
- Significantly Increased voter communication:
 - o Published over 1,000 paid ads to communicate important election information with voters on TV, radio, online, social media, print and billboards
 - o Participated in over 300 media interviews during the Primary and General elections
 - o Posted over 1,500 social media posts during the Primary and General Elections
- Published robust and detailed Early Voting and Election Day Plans
- Conducted over 45 public hearings and meetings to discuss 2020 Election Plans.
- Implemented a brand new accurate, reliable, and secure tabulation system to better serve Maricopa County voters.
 - o Fewer overvotes: 2020 Presidential Contest 0.239% (5,002) / 2016 Presidential Contest 1.389% (21,785)
 - o Fewer undervotes: 2020 Presidential Contest 0.406% (8,475) / 2016 Presidential Contest 1.228% (19,256)
- Maricopa County is considered a best in class election department. Maricopa County provided tours, meetings, and advice to other election jurisdictions (e.g., Salt Lake County, Harris County) so they could implement similar best practices.

Election Integrity

Transparency, accuracy and accountability are paramount to Maricopa County and its Elections Department. This has been demonstrated and proven over and over again through audits, accuracy tests, hand counts, and court cases.

- Dominion Tabulation Equipment is certified by the U. S. Elections Assistance Commission.

Maricopa County 2020 Elections Fact Sheet

- Accredited Voting System Testing Laboratories, audited by the National Institute of Technology (NIST) performed robust security testing of the equipment prior to certifying Dominion Equipment.
- Over the course of 2020, Maricopa County had 11 separate Logic and Accuracy Tests completed on its processes and tabulation equipment. The Secretary of State, an independent entity, performed four of these tests. All 11 accuracy tests found the processes used by Maricopa County and the Dominion tabulation equipment was reliable and accurate.
- 3 separate Hand Counts performed by the parties found the tabulation system was 100% accurate
- 13 separate court cases and/or appeals **found no evidence of fraud** manipulation, or tampering in Maricopa County's 2020 election. At these court cases, Maricopa County clearly presented the facts to judges at the county, state and federal level to address each of these allegation. Each case was dismissed by the courts or withdrawn by the plaintiffs.
- The Elections Department also piloted the tabulation equipment in the November 2019 Madison School District election. To verify the accuracy of the equipment, the county also performed a 100 percent hand count of the Madison ballots. There was no discrepancy between the counts.

Key Dates and Events for the November 2020 General Election

- On **October 6, 2020**, the Elections Department and the Arizona Secretary of State's Office performed a logic and accuracy test on the tabulation equipment. The test date was published in the newspaper, open to the public and observed by political party representatives, city clerks, and school and health care district representatives. The law requires an errorless count before tabulators and software can be used in an election. The tests confirmed the equipment was tabulating ballots accurately, paving the way for the November General Election in which a record number of voters participated and lines at polling sites were kept to a minimum.
- On **November 4**, a hand count audit of election results performed by Maricopa County political parties found a 100 percent match to the vote tabulation machines. The hand count audit, which is required by law, covered a statistically significant sample of ballots. The hand count was viewable on the Elections Department's website and the results were shared publicly.
- On **November 17**, then-Chairman Clint Hickman sent a [letter to all Maricopa County voters](#) addressing some of the misinformation circulating regarding elections. This letter was accompanied by a link to a [fact page](#) that provided more detail about election processes and is still available to any interested party.
- On **November 18**, the Elections Department and the Arizona Secretary of State's Office performed a post-election logic and accuracy test on the equipment to ensure it was not changed or tampered with during the election. Members of all three political parties and a representative from the Arizona Attorney General's Office observed the test.
- On **November 20**, the Board held a nearly three-hour public meeting to discuss concerns and questions raised by Maricopa County residents. Only after these questions were answered in a public forum did the Board certify the results of the election. [This meeting was broadcast live and is still available for anyone to watch.](#)
- On **December 14**, then-Chairman Clint Hickman and Elections Director Scott Jarrett appeared before the Senate Judiciary Committee and devoted six hours to fully answering questions by legislators.
- On **January 7, 2021** the U.S. Congress confirmed the results of the Electoral College, finalizing the November 3, 2020 General Election.

IMPORTANT GUIDANCE

- *It is important to note these remarks are in context of your vote explanation as SR1005 is on the third read calendar. Unless Fann grants permission to speak at other times during the third reading of SR1005, you will have only one chance to deliver your remarks.*

SUGGESTIONS:

- *When talking on the floor, visualize a friend, family member, neighbor, anyone who isn't in politics, someone who's struggling with the pandemic and pretend you're talking for them. It will help you stay focused on the message that this issue isn't important to the majority of Arizonans. They want your help with the COVID Pandemic.*
- *Always pivot back to why aren't we focusing on the COVID pandemic.*

Speaker list:

1. Rios-Opener
2. Engel- Second speaker
3. Navarrette- Third speaker
4. Quezada- Closer

Senator Rios:

My constituents are struggling every day through the COVID pandemic and they want to know what we, as their senators, are doing right now to help them. And I can't say we're focusing on rent relief, food assistance, unemployment insurance, or getting them and their loved ones vaccines. I can't say that because we're focusing on threatening the Maricopa County Board of Supervisors with possible arrest for refusing to comply with these wide-ranging subpoenas for election equipment and materials. The Republican Party has lost a stunning 8 lawsuits trying to find fraud in the election. The Board of Supervisors has done its own audit and both the Secretary of State and Governor Ducey have certified our election was free, fair and without issue. There is no there there, members. This "audit" is not about increasing voter trust. If that was the intent, you would have included Democrats every step of the way, because elections are not a partisan issue and especially when we're talking about the possibility of an election being tampered with. We need to move on and focus on the real crisis: The COVID-19 pandemic. As of today there are over -----known positive cases COVID cases and -----deaths from COVID. We need to focus on stronger action to slow this virus down before more people get sick and more loved ones are lost. Thank you.

Senator Engel:

- The reason there are doubts about our elections right now is because of uncorroborated claims, misinformation and flat-out lies that have been repeated relentlessly. But here are

the facts. More than 2 million eligible ballots were cast in Maricopa County and there is no evidence of fraud, misconduct or malfunction. No matter how you voted, this election was administered with integrity, transparency and in accordance with state laws.

- This “audit” is not about increasing voter trust. If that was the intent, you would have included Democrats every step of the way, because elections are not a partisan issue and especially when we’re talking about the possibility of an election being tampered with.
- Furthermore, if this is about being fully transparent, then why the secrecy and backpedaling around who Senate Republicans hired? We know from reporting that President Fann is considering a firm that produced a widely discredited report on voting in Michigan, and includes a Trump campaign associate with a well-documented history of spreading false and baseless claims about the 2020 election. How does that make this less political?

IMPORTANT DATA FROM MARICOPA COUNTY ELECTIONS:

- Maricopa County is considered a best in class election department. Maricopa County provided tours, meetings, and advice to other election jurisdictions (e.g., Salt Lake County, Harris County) so they could implement similar best practices.
- Three separate hand counts performed by the parties found the tabulation system was 100% accurate
- 13 separate court cases and/or appeals found no evidence of fraud manipulation, or tampering in Maricopa County’s 2020 election. At these court cases, Maricopa County clearly presented the facts to judges at the county, state and federal level to address each of these allegations. Each case was dismissed by the courts or withdrawn by the plaintiffs.
- The Elections Department also piloted the tabulation equipment in the November 2019 Madison School District election. To verify the accuracy of the equipment, the county also performed a 100 percent hand count of the Madison ballots. There was no discrepancy between the counts.
- On December 14, then-Chairman Clint Hickman and Elections Director Scott Jarrett appeared before the Senate Judiciary Committee and devoted six hours to fully answering questions by legislators.

Senator Navarrette:

- We need to move on and focus on the real crisis: the COVID-19 pandemic. As of today there are over ----- known positive cases COVID cases and ----- deaths from COVID. We need to focus on stronger action to slow this virus down before more people get sick and more loved ones are lost. Like Senator Rios and I’m sure every single one of us, I have constituents calling my office every day asking for help with getting a vaccine, getting

help with rent or unemployment. It's truly baffling to me that not even a global pandemic can help us set aside our differences and work together on bringing relief and help to Arizonans.

- We should be pouring our energy into slowing COVID, increasing vaccine distribution across Arizona, fixing unemployment insurance, protecting families from being evicted, helping our local small businesses from closing down forever. Democrats have bills that address ALL OF THESE ISSUES, But they haven't even received a committee hearing. We could be working on that together as a legislature. Instead we're doing this.

Senator Quezada:

I honestly cannot believe we are here on the Senate floor seriously discussing this and entertaining the idea of arresting the Maricopa County Board of Supervisors. It is shameful. The reason that there are doubts about our election right now is because of uncorroborated claims, misinformation and flat-out lies that have been told over and over again about this past election, from the former President all the way down to this very body. And here we are continuing those lies. When will it be enough? Our election was conducted accurately and fairly. Even Governor Doug Ducey, a Republican, certified the election. There will always be people that are never going to accept the election results because they just don't agree with that perception of reality. How long are we going to entertain that small fragment of people, and at what cost? This is only causing further damage to our Democracy, etc other great Quezada remarks.

ADDITIONAL TALKING POINTS

- Democrats also care about the process of running an election: one that is transparent, fair, credible and accountable. And thanks to all the pre and post election checks conducted by Maricopa pursuant to law, we recognize the results of the election are legitimate. The election was certified by both Secretary Hobbs and Governor Ducey.
- Americans' right to vote is sacred and how elections are run is paramount to preserving trust in our democracy. Their words and actions have kept the flame of fraud lit and we've seen how gaslighting voters into thinking the election was stolen and manipulated ends. We've seen nothing is enough to stop the election lies. This audit won't be enough and will only continue the misinformation that the election was manipulated.
- What about the millions of Arizonans who voted in this election and believed it was free and fair? Why are we allowing ourselves to be terrorized by a vocal minority of conspiracy theorists?

Dear Friend,

Thus far this legislative session has been a big disappointment. Rather than address the pandemic, the Legislature has been filling its time passing non-pandemic bills stuck in the queue last year and teeing up bills that undercut our voting rights or pile on more tax cuts.

It does not have to be this way. In this newsletter I would like to talk about some of my proposals for addressing the eviction and housing crisis we are facing and to contrast these proactive, pandemic-related measures with some of the disturbing bills that I believe will suppress the vote and undermine our elections. I'll conclude with some ways you can make your voice heard - in support or opposition to the bills currently being considered.

Spotlight on My bills to Prevent Evictions and Promote Housing Stability in Arizona

I've now introduced nine eviction-prevention/affordable housing bills. These bills address the short-term eviction crisis, systemic problems in our landlord-tenant act, and the long-term challenge of creating more affordable housing.

Bills Addressing the Eviction Crisis

Thousands of Arizona families are at risk of eviction when the moratorium, extended by the Biden Administration to March 31, 2021, expires. The moratorium is helping to keep a roof over people's heads (though there are large loopholes that result in evictions continuing), but it doesn't pay rent in arrears or give families a cushion going forward as they work to get themselves back into the job market. Families eligible for rental assistance are often unable to satisfy the paperwork requirements to actually receive a payment before they are evicted. Many tenants now have eviction judgments on their records, a blight on their credit that will dog their ability to find housing for the next seven

years. As detailed in today's New York Times, some families are going to extraordinary lengths to avoid an eviction - running up debt on credit cards and moving in with other family members into crowded living arrangements.

Legislation is only part of the answer to this crisis. Arizona will be receiving over \$490 million in rental relief from the latest federal stimulus package, and that will be a huge help. This money will be distributed by the AZ Department of Economic Security and the legislature is not directly involved in its distribution. It is important to note that not all families struggling qualify for this aid and for some tenants with an eviction already on their records, the assistance comes too late. Working with Pima County's Eviction Prevention Taskforce, here's some solutions I'm proposing in legislation:

SB 1666 affordable housing; appropriation: appropriates \$25 million to the AZ Housing Trust Fund and conditions a landlord's receipt of any of this funding upon its agreement not to file, finalize or enforce an eviction action.

Assigned to: Senate Appropriations Committee
Status: Has yet to be placed on a Committee agenda

SB 1661 housing assistance program; appropriation: Establishes a new grant program, the "Housing Assistance Program" in the AZ Department of Housing and appropriates \$10 million toward the program during 2021-22. Under the legislation, a nonprofit legal services organization, community action agency, or HUD-approved housing counseling agency may apply for funds to hire housing navigators to provide community outreach, education and resources related to general housing matters, effective tenancy, leases and rental agreements, eviction and foreclosure processes and referrals to housing programs.

Assigned to: Senate Appropriations and Senate Commerce Committees
Status: Has yet to be placed on a Committee agenda

SB 1663 state; emergency; eviction reporting; prohibited: Requires the sealing of any filing, pleading or judgment in an eviction action based on nonpayment of rent that was rendered during the Covid-19 pandemic and between the dates of March 11, 2020 and June 30th, 2022. Requires housing applications to inform prospective tenants that they may answer "No record" in response to an inquiry, on a housing application, regarding a record sealed pursuant to the legislation.

Assigned to: Senate Judiciary Committee
Status: Has yet to be placed on a Committee agenda

Photo courtesy of Tucson.com.

Bills addressing systemic problems in Arizona's Landlord-Tenant Laws

The eviction crisis has laid bare systemic problems with our landlord-tenant laws. I have introduced the following bills to deal with some of these issues, raised by stakeholders:

SB 1038 landlord tenant; rent; fifteen days. Currently, Arizona law requires

landlords to notify tenants of their intent to evict the tenant for nonpayment of rent just 5 days before they actually file to do so, one of the shortest periods for such notices in the nation. Tenants are left scrambling, often over a weekend, to pull together money or contact their landlord to work out a payment plan. This short time period has been a particular problem during the pandemic, as five days is usually too short a timeframe for tenants to apply for and receive, rental assistance from a city, county or nonprofit program. This bill does one thing and one thing only: it extends that 5 day period to 15 days. This is an easy fix and one very much needed for tenants and landlords alike.

Assigned to: Senate Commerce Committee

Status: Has yet to be placed on a Committee agenda

SB1130: constables; pending eviction notification; mileage: Provides that constables may be reimbursed for their mileage with respect to any additional trips they make to visit tenants in the eviction process to inform the tenants about housing resources. A pilot project by Pima County constables found the number of evictions tumbled after constables did this basic outreach to inform tenants in advance of a pending eviction action and to provide them information about housing options. This successful pilot program was even featured in High Country News! This bill is designed to ensure that constables are not discouraged from making these visits by having to pay for the mileage out of their own pockets.

Assigned to: Senate Judiciary Committee

Status: Has yet to be placed on a Committee agenda

SB 1039 eviction prevention; study committee: Establishes a study committee on statewide eviction prevention and housing affordability and specifies a broad array fo stakeholders to serve on the study committee. The Committee is charged with determining how the state can reduce eviction filings and mitigate the financial and personal costs of evictions to tenants and landlords, explore processes to ensure tenants understand their rights under the law, gather information on housing affordability and propose legislation to address problems identified by the committee.

Assigned to: Senate Commerce Committee

Status: Has yet to be placed on a Committee agenda

For those who wish to take a deeper dive in some of additional bills that I have introduced, please see:

[SB 1472 landlord tenant; security deposits; waiver](#)

[SB 1662 constable ethics standards board; membership](#)

[SB 1665 landlord tenant; housing assistance; waiver](#)

[SB 1664 landlord tenant; evictions; forms](#)

[What the Arizona Legislature is doing instead of eviction-prevention and pandemic relief:](#)

But the Arizona legislature is NOT addressing our eviction and housing crises, but instead is spending a large amount of its time and effort keeping alive conspiracy theories regarding the 2020 election, debating bills to remove Arizonans from the voting rolls, and burdening our election officials with more bureaucratic requirements that seem to lack all justification.

Graphic courtesy of the New York Times, Opinion, The Voter Suppression State, Jan 31, 2019.

As has been widely reported in the [national](#) and [local press](#), there are multiple bills pending in the Arizona legislature that would upend our election and voting laws. The most extreme bill is Rep Bolick's HB 2720, would enable the the Arizona Legislature to overturn the results of a presidential election, even after the count is formally certified by the governor and secretary of state — and even after Congress counts the state's electors. See [this article](#) for more on this bill that completely circumvents the voters!

Most curious are bills that seek to restrict the use of mail-in ballots. Arizona

practically invented mail-in ballots and over 80 percent of Arizonans use them, finding they give them time to research candidates and initiatives and, in the time of Covid-19, are safer than venturing in person to vote at a polling location. I oppose each of these bills that appear to be an effort by those unhappy with the outcome of the November 2020 election to suppress the vote.

Below are some of the bills I am most concerned about. As you can see, many of the Senate bills have passed out of committee and are ready for Floor debate and final vote.

SB 2720: ballots; election contests; certificates: As mentioned above, this bill sponsored by Rep Bolick would enable the the Arizona Legislature to overturn the results of a presidential election.

SB 1069 permanent early voting list; eligibility: Removes a voter from the permanent early voting list (PEVL) if the voter fails to vote by early ballot in both the primary election and the general election for two consecutive primary and general elections for which there was a federal, statewide or legislative race on the ballot.

Status: Passed the Government Committee on a party-line vote; waiting debate on the Senate Floor.

SB 1083 elections; recount margin: Increases, from one-tenth of one percent or a set number of votes to one-half of one percent, the trigger for an automatic recount in a primary or general election.

Status: Passed the Government Committee on a party-line vote; waiting debate on the Senate Floor.

SB1020 voting locations; electioneering; Removes the ability of a county recorder or other officer in charge of elections to designate emergency non-electioneering polling places.

Status: Passed the Government Committee on a party-line vote.

SB 1358: recorders; voter registrations; public buildings: Prohibits a county recorder from conducting a voter registration drive or other similar voter registration event at any location that is not government owned.

Status: Passed the Government Committee on a party-line vote.

SB 1240 hand counts; precincts; procedures manual: Requires ballots in counties using voting centers to be separated and grouped by precinct for the

purpose of a hand count audit.

Status: Passed the Government Committee on a party-line vote.

Where to find the 47 bills I've filed this Legislative Session

You can easily find my eviction-prevention and housing affordability bills described above, as well as my bills on education, water, criminal justice and other topics by going to: www.azleg.gov, click "Bills", click "Bills Tracking," hit "Search" on left side menu, click "Sponsors" and search under my name. You will see the list of bills that I have "prime" sponsored or co-sponsored. Enjoy!

It will be a Tough Week Ahead

Tomorrow, the Senate will spend more countless hours trying to give life to baseless conspiracy claims about the Nov. election by likely passing the GOP-sponsored resolution to hold the GOP-controlled Maricopa Board of Supervisors in contempt (which makes them subject to imprisonment!). The reason? Senate Republicans are upset the Board failed to comply with a crazy- broad subpoena from the Chair of the Senate Judiciary Committee to obtain copies of 2.1 million voted secret ballots and the inspection of certified elections equipment by a sketchy auditing company and is instead is pursuing its own audit. Because I am on the Judiciary Committee, I am actually named as a defendant in the County's lawsuit to quash that subpoena!

The complaint of the Maricopa Board of Supervisors seeking to quash the subpoena issued by the Chair of the Senate Judiciary Committee.

Sign up for the Legislature's "Request to Speak" system to make your voice heard on bills you like or oppose!

You can register your support or opposition to particular bills once the bill has made it onto a Committee agenda through the legislature's "Request to Speak" (RTS) system.

You may have heard that you need to go in person to activate your RTS account. Luckily, there is an organization that can activate your account on your

behalf!

Contact Civic Engagement Beyond Voting to request an account. They will create an account for you at the Capitol and notify you when it's ready.

This legislative manual walks you through how to use the Request to Speak system.

Look out for future emails from me about specific bills to oppose or support and thank you in advance for speaking out on these important issues!

Graphic courtesy of the New York Times, *How to Participate in Politics*.

Another GREAT way to participate: Join our March 6th LD10 Town Hall!

Join us 10-11:30 on Saturday, March 6th for our next Town Hall! Photo from our Jan 30th Town Hall with special guest Pima County Health Director Dr. Theresa Cullen. LD10 Reps. Domingo DeGrazia and Stephanie Stahl Hamilton and I got terrific questions from those who were able to tune in. We're looking forward to answering more of your questions on March 6th! You can send in your questions anytime by filling out and submitting [this form](#) before or during the Town Hall. We'll try to get to as many of your questions as we can!

During the January 30th LD10 Town Hall, we heard from Pima County Health Director and Assistant Theresa Julien on the status of the pandemic in Pima County as well as progress on the vaccine roll-out. Reps Downing DeGrasse and Stephanie Saha-Hamilton and myself gave a legislative update. Tune in March 6th from 10-11:30 for our next Town Hall. Details on www.facebook.com/kengelengels

There's more to come, so stay tuned!

I try to keep my Facebook page updated with news of recent events. Email me your comments and concerns at: kengel@azleg.gov and I will try to get back to you (but unfortunately, please keep in mind that, due to volume of emails it is proving impossible to respond to every email I receive).

See you March 6th for the next LD10 Town Hall!

Best,

Kirsten Engel

I've now introduced nine eviction-prevention/affordable housing bills. These bills address the short-term eviction crisis, systemic problems in our landlord-tenant act, and the long-term challenge of creating more affordable housing.

Bills Addressing the Eviction Crisis

Thousands of Arizona families are at risk of eviction when the moratorium, extended by the Biden Administration to March 31, 2021, expires. The moratorium is helping to keep a roof over people's heads (though there are large loopholes that result in evictions continuing), but it doesn't pay rent in arrears or give families a cushion going forward as they work to get themselves back into the job market. Families eligible for rental assistance are often unable to satisfy the paperwork requirements to actually receive a payment before they are evicted. Many tenants now have eviction judgments on their records, a blight on their credit that will dog their ability to find housing for the next seven years. As detailed in today's New York Times, some families are going to extraordinary lengths to avoid an eviction - running up debt on credit cards and moving in with other family members into crowded living arrangements.

Legislation is only part of the answer to this crisis. Arizona will be receiving over \$490 million in rental relief from the latest federal stimulus package, and that will be a huge help. This money will be distributed by the AZ Department of Economic Security and the legislature is not directly involved in its distribution. It is important to note that not all families struggling qualify for this aid and for some tenants with an eviction already on their records, the assistance comes too late. Working with Pima County's Eviction Prevention Taskforce, here's some solutions I'm proposing in legislation:

SB 1666 affordable housing; appropriation: appropriates \$25 million to the AZ Housing Trust Fund and conditions a landlord's receipt of any of this funding upon its agreement not to file, finalize or enforce an eviction action.

Assigned to: Senate Appropriations Committee
Status: Has yet to be placed on a Committee agenda

SB 1661 housing assistance program; appropriation: Establishes a new grant program, the "Housing Assistance Program" in the AZ Department of Housing and appropriates \$10 million toward the program during 2021-22. Under the legislation, a nonprofit legal services organization, community action agency, HUD-approved housing counseling agency may apply for funds to hire housing navigators to provide community outreach, education and resources related to general housing matters, effective tenancy, lease and rental agreements, eviction and foreclosure processes and referrals to housing programs.

Assigned to: Senate Appropriations and Senate Commerce Committees
Status: Has yet to be placed on a Committee agenda

SB 1663 state; emergency; eviction reporting; prohibited: Requires the sealing of any filing, pleading or judgment in an eviction action based on nonpayment of rent that was rendered during the Covid-19 pandemic and between the dates of March 11, 2020 and June 30th, 2022. Requires housing applications

inform prospective tenants that they may answer "No record" in response to an inquiry, on a housing application, regarding a record sealed pursuant to the legislation.

Assigned to: Senate Judiciary Committee

Status: Has yet to be placed on a Committee agenda

[Bills addressing systemic problems in Arizona's Landlord-Tenant Laws](#)

The eviction crisis has laid bare systemic problems with our landlord-tenant laws. I have introduced the following bills to deal with some of these issues, raised by stakeholders:

SB 1038 landlord tenant; rent; fifteen days. Currently, Arizona law requires landlords to notify tenants of their intent to evict the tenant for nonpayment of rent just 5 days before they actually file to do so, one of the shortest periods for such notices in the nation. Tenants are left scrambling, often over a weekend, to pull together money or contact their landlord to work out a payment plan. This short time period has been a particular problem during the pandemic, as five days is usually too short a timeframe for tenants to apply and receive, rental assistance from a city, county or nonprofit program. This bill does one thing and one thing only: it extends that 5 day period to 15 days. This is an easy fix and one very much needed for tenants and landlords alike.

Assigned to: Senate Commerce Committee

Status: Has yet to be placed on a Committee agenda

SB1130: constables; pending eviction notification; mileage. Provides that constables may be reimbursed their mileage with respect to any additional trips they make to visit tenants in the eviction process to inform the tenants about housing resources. A pilot project by Pima County constables found the number of evictions tumbled after constables did this basic outreach to inform tenants in advance of a pending eviction action and to provide them information about housing options. This successful pilot program was even featured in High Country News! This bill is designed to ensure that constables are not discouraged from making these visits by having to pay for the mileage out of their own pockets.

Assigned to: Senate Judiciary Committee

Status: Has yet to be placed on a Committee agenda

SB 1039 eviction prevention; study committee: Establishes a study committee on statewide eviction prevention and housing affordability and specifies a broad array fo stakeholders to serve on the study committee. The Committee is charged with determining how the state can reduce eviction filings and mitigate the financial and personal costs of evictions to tenants and landlords, explore processes to ensui tenants understand their rights under the law, gather information on housing affordability and propose legislation to address problems identified by the committee.

Assigned to: Senate Commerce Committee

Status: Has yet to be placed on a Committee agenda

For those who wish to take a deeper dive in some of additional bills that I have introduced, please see:

[SB 1472 landlord tenant; security deposits; waiver](#)

[SB 1662 constable ethics standards board; membership](#)

[SB 1665 landlord tenant; housing assistance; waiver](#)

[SB 1664 landlord tenant; evictions; forms](#)

[What the Arizona Legislature is doing instead of eviction-prevention and pandemic reli](#)

But the Arizona legislature is NOT addressing our eviction and housing crises, but instead is spending a large amount of its time and effort keeping alive conspiracy theories regarding the 2020 election, debating bills to remove Arizonans from the voting rolls, and burdening our election officials with more bureaucratic requirements that seem to lack all justification.

Graphic courtesy of the New York Times, Opinion, The Voter Suppression State, Jan 31, 2019.

As has been widely reported in the [national](#) and [local press](#), there are multiple bills pending in the Arizona legislature that would upend our election and voting laws. The most extreme bill is Rep Bolick's HB 2720, would enable the the Arizona Legislature to overturn the results of a presidential election, even after the count is formally certified by the governor and secretary of state — and even after Congress counts the state's electors. See [this article](#) for more on this bill that completely circumvents the voters!

Most curious are bills that seek to restrict the use of mail-in ballots. Arizona practically invented mail-in ballots and over 80 percent of Arizonans use them, finding they give them time to research candidates and initiatives and, in the time of Covid-19, are safer than venturing in person to vote at a polling location. I

oppose each of these bills that appear to be an effort by those unhappy with the outcome of the November 2020 election to suppress the vote.

Below are some of the bills I am most concerned about. As you can see, many of the Senate bills have passed out of committee and are ready for Floor debate and final vote.

SB 2720: ballots; election contests; certificates: As mentioned above, this bill sponsored by Rep Bolick would enable the the Arizona Legislature to overturn the results of a presidential election.

SB 1069 permanent early voting list; eligibility: Removes a voter from the permanent early voting list (PEV) if the voter fails to vote by early ballot in both the primary election and the general election for two consecutive primary and general elections for which there was a federal, statewide or legislative race on 1 ballot.

Status: Passed the Government Committee on a party-line vote; waiting debate on the Senate Floor.

SB 1083 elections; recount margin: Increases, from one-tenth of one percent or a set number of votes to one-half of one percent, the trigger for an automatic recount in a primary or general election.

Status: Passed the Government Committee on a party-line vote; waiting debate on the Senate Floor.

SB1020 voting locations; electioneering; Removes the ability of a county recorder or other officer in charge of elections to designate emergency non-electioneering polling places.

Status: Passed the Government Committee on a party-line vote.

SB 1358: recorders; voter registrations; public buildings: Prohibits a county recorder from conducting a voter registration drive or other similar voter registration event at any location that is not government owned.

Status: Passed the Government Committee on a party-line vote.

SB 1240 hand counts; precincts; procedures manual: Requires ballots in counties using voting centers to separated and grouped by precinct for the purpose of a hand count audit.

Status: Passed the Government Committee on a party-line vote.

Where to find the 47 bills I've filed this Legislative Session

You can easily find my eviction-prevention and housing affordability bills described above, as well as my bills on education, water, criminal justice and other topics by going to: www.azleg.gov, click "Bills", click "Bills Tracking," hit "Search" on left side menu, click "Sponsors" and search under my name. You will see the list of bills that I have "prime" sponsored or co-sponsored. Enjoy!

The past Monday was the deadline for filing bills in the Senate. I dropped off the list of my 47 bills!

It will be a Tough Week Ahead

Tomorrow, the Senate will spend more countless hours trying to give life to baseless conspiracy claims about the Nov. election by likely passing the GOP-sponsored resolution to hold the GOP-controlled Maricopa Board of Supervisors in contempt (which makes them subject to imprisonment!). The reason? Senate Republicans are upset the Board failed to comply to with a crazy- broad subpoena from the Chair the Senate Judiciary Committee to obtain copies of 2.1 million voted secret ballots and the inspection of certified elections equipment by a sketchy auditing company and is instead is pursuing its own audit. Because I am on the Judiciary Committee, I am actually named as a defendant in the County's lawsuit to quash that subpoena!

The complaint of the Maricopa Board of Supervisors seeking to quash the subpoena issued by the Chair of the Senate Judiciary Committee.

Sign up for the Legislature's "Request to Speak" system to make your voice heard on bills you like or oppose!

You can register your support or opposition to particular bills once the bill has made it onto a Committee agenda through the legislature's "Request to Speak" (RTS) system.

You may have heard that you need to go in person to activate your RTS account. Luckily, there is an organization that can activate your account on your behalf!

Contact Civic Engagement Beyond Voting to request an account. They will create an account for you at the Capitol and notify you when it's ready.

This legislative manual walks you through how to use the Request to Speak system.

Look out for future emails from me about specific bills to oppose or support and thank you in advance for speaking out on these important issues!

Subject: Re: Comment on : Letter from the Legislature 2021 #2: Wasted Opportunities!

Hi Pete! Yes, that's one of our problems. All bills are assigned to a committee, but I don't think the RTS system works unless they appear on an agenda, right? So unfortunately, there is little folks can do other than write their legislators to try to get bills onto an agenda. Sigh.

One of my more minor bills is on the NREW Senate agenda this week — SCR 1046
<https://www.azleg.gov/legtext/55leg/1R/bills/SCR1046P.pdf>
<https://apps.azleg.gov/BillStatus/BillOverview/75911>

The bill is a resolution in support of outdoor recreation. It was brought to me by Kirk Astroth and outdoor recreational organizations.

I would rather one of my substantive environmental, climate or water bills had made it onto an agenda, but I would appreciate your support of this resolution!

Thanks for all you do. Wow, 17 comments, that is a lot!

Best,
Kirsten

Senator Engel,

Background:

This morning I responded to Sandy Bahr's Legislative Alert #6 by going on RTS to support or oppose 17 bills.

I was part of the LD9 group meeting with Victoria Steele at the virtual Environmental Day at the Legislature. One of the interesting (to me) items that came up was Victoria's comment that she was interested in some way to reach out to environmentalists to get some help supporting bills she sponsored.

My Comment:

Your message essentially was what Victoria asked for. You described a number of bills that you thought needed to be passed. However they are not yet assigned to a committee. I'm an RTS guy. I jump on Sandy's legislative alerts over the weekend and oppose or support the bills. I also send messages to the LD9 legislators if she asks.

Getting your message distributed once the bills are assigned to committee plus a simple support or oppose the bill is easier for me to take action.

Thanks for all you are doing in the Legislature. Stay safe up there.

Pete Bengtson

Spotlight on My bills to Prevent Evictions and Promote Housing Stability in Arizona

I've now introduced nine eviction-prevention/affordable housing bills. These bills address the short-term eviction crisis, systemic problems in our landlord-tenant act, and the long-term challenge of creating more affordable housing.

Bills Addressing the Eviction Crisis

Thousands of Arizona families are at risk of eviction when the moratorium, extended by the Biden Administration to March 31, 2021, expires. The moratorium is helping to keep a roof over people's heads (though there are large loopholes that result in evictions continuing), but it doesn't pay rent in arrears or give families a cushion going forward as they work to get themselves back into the

job market. Families eligible for rental assistance are often unable to satisfy the paperwork requirements to actually receive a payment before they are evicted. Many tenants now have eviction judgments on their records, a blight on their credit that will dog their ability to find housing for the next seven years. As detailed in today's New York Times, some families are going to extraordinary lengths to avoid an eviction - running up debt on credit cards and moving in with other family members into crowded living arrangements.

Legislation is only part of the answer to this crisis. Arizona will be receiving over \$490 million in rental relief from the latest federal stimulus package, and that will be a huge help. This money will be distributed by the AZ Department of Economic Security and the legislature is not directly involved in its distribution. It is important to note that not all families struggling qualify for this aid and for some tenants with an eviction already on their records, the assistance comes too late. Working with Pima County's Eviction Prevention Taskforce, here's some solutions I'm proposing in legislation:

SB 1666 affordable housing; appropriation: appropriates \$25 million to the AZ Housing Trust Fund and conditions a landlord's receipt of any of this funding upon its agreement not to file, finalize or enforce an eviction action.

Assigned to: Senate Appropriations Committee
Status: Has yet to be placed on a Committee agenda

SB 1661 housing assistance program; appropriation: Establishes a new grant program, the "Housing Assistance Program" in the AZ Department of Housing and appropriates \$10 million toward the program during 2021-22. Under the legislation, a nonprofit legal services organization, community action agency, or HUD-approved housing counseling agency may apply for funds to hire housing navigators to provide community outreach, education and resources related to general housing matters, effective tenancy, leases and rental agreements, eviction and foreclosure processes and referrals to housing programs.

Assigned to: Senate Appropriations and Senate Commerce Committees
Status: Has yet to be placed on a Committee agenda

SB 1663 state; emergency; eviction reporting; prohibited: Requires the sealing of any filing, pleading or judgment in an eviction action based on nonpayment of rent that was rendered during the Covid-19 pandemic and between the dates of March 11, 2020 and June 30th, 2022. Requires housing applications to inform prospective tenants that they may answer "No record" in response to an inquiry, on a housing application, regarding a record sealed pursuant to the legislation.

Bills addressing systemic problems in Arizona's Landlord-Tenant Laws

The eviction crisis has laid bare systemic problems with our landlord-tenant laws. I have introduced the following bills to deal with some of these issues, raised by stakeholders:

SB 1038 landlord tenant: rent: fifteen days. Currently, Arizona law requires landlords to notify tenants of their intent to evict the tenant for nonpayment of rent just 5 days before they actually file to do so, one of the shortest periods for such notices in the nation. Tenants are left scrambling, often over a weekend, to pull together money or contact their landlord to work out a payment plan. This short time period has been a particular problem during the pandemic, as five days is usually too short a timeframe for tenants to apply for and receive, rental assistance from a city, county or nonprofit program. This bill does one thing and one thing only: it extends that 5 day period to 15 days. This is an easy fix and one very much needed for tenants and landlords alike.

Assigned to: Senate Commerce Committee

Status: Has yet to be placed on a Committee agenda

SB1130: constables; pending eviction notification; mileage: Provides that constables may be reimbursed for their mileage with respect to any additional trips they make to visit tenants in the eviction process to inform the tenants about housing resources. A pilot project by Pima County constables found the number of evictions tumbled after constables did this basic outreach to inform tenants in advance of a pending eviction action and to provide them information about housing options. This successful pilot program was even featured in High Country News! This bill is designed to ensure that constables are not discouraged from making these visits by having to pay for the mileage out of their own pockets.

Assigned to: Senate Judiciary Committee

Status: Has yet to be placed on a Committee agenda

SB 1039 eviction prevention; study committee: Establishes a study committee on statewide eviction prevention and housing affordability and specifies a broad array of stakeholders to serve on the study committee. The Committee is charged with determining how the state can reduce eviction filings and mitigate the financial and personal costs of evictions to tenants and landlords, explore processes to ensure tenants understand their rights under the law, gather information on housing affordability and propose legislation to address problems identified by the

committee.

Assigned to: Senate Commerce Committee

Status: Has yet to be placed on a Committee agenda

For those who wish to take a deeper dive in some of additional bills that I have introduced, please see:

[SB 1472 landlord tenant; security deposits; waiver](#)

[SB 1665 landlord tenant; housing assistance; waiver](#)

[SB 1664 landlord tenant; evictions; forms](#)

What the Arizona Legislature is doing instead of eviction-prevention and pandemic relief:

But the Arizona legislature is NOT addressing our eviction and housing crises, but instead is spending a large amount of its time and effort keeping alive conspiracy theories regarding the 2020 election, debating bills to remove Arizonans from the voting rolls, and burdening our election officials with more bureaucratic requirements that seem to lack all justification.

Graphic courtesy of the New York Times, Opinion, The Voter Suppression State, Jan 31, 2019.

As has been widely reported in the national and local press, there are multiple bills pending in the Arizona legislature that would upend our election and voting laws. The most extreme bill is Rep Bolick's HB 2720, would enable the the Arizona Legislature to overturn the results of a presidential election, even after the count is formally certified by the governor and secretary of state — and even after

Congress counts the state's electors. See [this article](#) for more on this bill that completely circumvents the voters!

Most curious are bills that seek to restrict the use of mail-in ballots. Arizona practically invented mail-in ballots and over 80 percent of Arizonans use them, finding they give them time to research candidates and initiatives and, in the time of Covid-19, are safer than venturing in person to vote at a polling location. I oppose each of these bills that appear to be an effort by those unhappy with the outcome of the November 2020 election to suppress the vote.

Below are some of the bills I am most concerned about. As you can see, many of the Senate bills have passed out of committee and are ready for Floor debate and final vote.

[SB 2720: ballots; election contests; certificates](#): As mentioned above, this bill sponsored by Rep Bolick would enable the the Arizona Legislature to overturn the results of a presidential election.

[SB 1069 permanent early voting list; eligibility](#): Removes a voter from the permanent early voting list (PEVL) if the voter fails to vote by early ballot in both the primary election and the general election for two consecutive primary and general elections for which there was a federal, statewide or legislative race on the ballot.

Status: Passed the Government Committee on a party-line vote; waiting debate on the Senate Floor.

[SB 1083 elections; recount margin](#): Increases, from one-tenth of one percent or a set number of votes to one-half of one percent, the trigger for an automatic recount in a primary or general election.

Status: Passed the Government Committee on a party-line vote; waiting debate on the Senate Floor.

[SB1020 voting locations; electioneering](#); Removes the ability of a county recorder or other officer in charge of elections to designate emergency non-electioneering polling places.

Status: Passed the Government Committee on a party-line vote.

SB 1358: recorders; voter registrations; public buildings: Prohibits a county recorder from conducting a voter registration drive or other similar voter registration event at any location that is not government owned.

Status: Passed the Government Committee on a party-line vote.

SB 1240 hand counts; precincts; procedures manual: Requires ballots in counties using voting centers to be separated and grouped by precinct for the purpose of a hand count audit.

Status: Passed the Government Committee on a party-line vote.

Where to find the 47 bills I've filed this Legislative Session

You can easily find my eviction-prevention and housing affordability bills described above, as well as my bills on education, water, criminal justice and other topics by going to: www.azleg.gov, click "Bills", click "Bills Tracking," hit "Search" on left side menu, click "Sponsors" and search under my name. You will see the list of bills that I have "prime" sponsored or co-sponsored. Enjoy!

It will be a Tough Week Ahead

Tomorrow, the Senate will spend more countless hours trying to give life to baseless conspiracy claims about the Nov. election by likely passing the GOP-sponsored resolution to hold the GOP-controlled Maricopa Board of Supervisors in contempt (which makes them subject to imprisonment!). The reason? Senate Republicans are upset the Board failed to comply to with a crazy- broad subpoena

from the Chair of the Senate Judiciary Committee to obtain copies of 2.1 million voted secret ballots and the inspection of certified elections equipment by a sketchy auditing company and is instead is pursuing its own audit. Because I am on the Judiciary Committee, I am actually named as a defendant in the County's lawsuit to quash that subpoena!

The complaint of the Maricopa Board of Supervisors seeking to quash the subpoena issued by the Chair of the Senate Judiciary Committee.

Sign up for the Legislature's "Request to Speak" system to make your voice heard on bills you like or oppose!

You can register your support or opposition to particular bills once the bill has made it onto a Committee agenda through the legislature's "Request to Speak" (RTS) system.

You may have heard that you need to go in person to activate your RTS account. Luckily, there is an organization that can activate your account on your behalf!

[Contact Civic Engagement Beyond Voting to request an account.](#) They will create an account for you at the Capitol and notify you when it's ready.

This [legislative manual](#) walks you through how to use the Request to Speak system.

Look out for future emails from me about specific bills to oppose or support and thank you in advance for speaking out on these important issues!

Another GREAT way to participate: Join our March 6th LD10 Town Hall!

Join us 10-11:30 on Saturday, March 6th for our next Town Hall! Photo from our Jan 30th Town Hall with special guest Pima County Health Director Dr. Theresa Cullen. LD10 Reps. Domingo DeGrazia and Stephanie Stahl Hamilton and I got

terrific questions from those who were able to tune in. We're looking forward to answering more of your questions on March 6th! You can send in your questions anytime by filling out and submitting [this form](#) before or during the Town Hall. We'll try to get to as many of your questions as we can!

During the January 30th LD10 Town Hall, we heard from Pima County Health Director and Admra: Theresa Cullen on the status of the pandemic in Pima County as well as progress on the vaccine roll-out. Reps Domingo DeGrazia and Stephanie Stahl

Hanson and myself gave a legislative update. Tune in March 6th from 10-11:30 for our next Town Hall. Details on www.facebook.com/kengel4arizona.

There's more to come, so stay tuned!

I try to keep my Facebook page updated with news of recent events. Email me your comments and concerns at: kengel@azleg.gov and I will try to get back to you (but unfortunately, please keep in mind that, due to volume of emails it is proving impossible to respond to every email I receive).

See you March 6th for the next LD10 Town Hall!

Best,

Kirsten Engel

On Feb 7, 2021, at 2:22 PM, State Senator Kirsten Engel <kengel@azleg.gov> wrote:

Dear Friend,

Thus far this legislative session has been a big disappointment. Rather than address the pandemic, the Legislature has been filling its time passing non-pandemic bills stuck in the queue last year and teeing up bills that undercut our voting rights or pile on more tax cuts.

It does not have to be this way. In this newsletter I would like to talk about some of my proposals for addressing the eviction and housing crisis we are facing and to contrast these proactive, pandemic-related measures with some of the disturbing bills that I believe will suppress the vote and undermine our elections. I'll conclude with some ways you can make your voice heard - in support or opposition to the bills currently being considered.

Spotlight on My bills to Prevent Evictions and Promote Housing Stability in Arizona

I've now introduced nine eviction-prevention/affordable housing bills. These bills address the short-term eviction crisis, systemic problems in our landlord-tenant act, and the long-term challenge of creating more affordable housing.

Bills Addressing the Eviction Crisis

Thousands of Arizona families are at risk of eviction when the moratorium, extended by the Biden Administration to March 31, 2021, expires. The moratorium is helping to keep a roof over people's heads (though there are large loopholes that result in evictions continuing), but it doesn't pay rent in arrears or give families a cushion going forward as they work to get themselves back into the job market. Families eligible for rental assistance are often unable to satisfy the paperwork requirements to actually receive a payment before they are evicted. Many tenants now have eviction judgments on their records, a blight on their credit that will dog their ability to find housing for the next seven

years. As detailed in [today's New York Times](#), some families are going to extraordinary lengths to avoid an eviction - running up debt on credit cards and moving in with other family members into crowded living arrangements.

Legislation is only part of the answer to this crisis. Arizona will be receiving over \$490 million in rental relief from the latest federal stimulus package, and that will be a huge help. This money will be distributed by the AZ Department of Economic Security and the legislature is not directly involved in its distribution. It is important to note that not all families struggling qualify for this aid and for some tenants with an eviction already on their records, the assistance comes too late. Working with Pima County's Eviction Prevention Taskforce, here's some solutions I'm proposing in legislation:

[SB 1666 affordable housing; appropriation](#): appropriates \$25 million to the AZ Housing Trust Fund and conditions a landlord's receipt of any of this funding upon its agreement not to file, finalize or enforce an eviction action.

Assigned to: Senate Appropriations Committee
Status: Has yet to be placed on a Committee agenda

[SB 1661 housing assistance program; appropriation](#): Establishes a new grant program, the "Housing Assistance Program" in the AZ Department of Housing and appropriates \$10 million toward the program during 2021-22. Under the legislation, a nonprofit legal services organization, community action agency, or HUD-approved housing counseling agency may apply for funds to hire housing navigators to provide community outreach, education and resources related to general housing matters, effective tenancy, leases and rental agreements, eviction and foreclosure processes and referrals to housing programs.

Assigned to: Senate Appropriations and Senate Commerce Committees
Status: Has yet to be placed on a Committee agenda

[SB 1663 state; emergency; eviction reporting; prohibited](#): Requires the sealing of any filing, pleading or judgment in an eviction action based on nonpayment of rent that was rendered during the Covid-19 pandemic and between the dates of March 11, 2020 and June 30th, 2022. Requires housing applications to inform prospective tenants that they may answer "No record" in response to an inquiry, on a housing application, regarding a record sealed pursuant to the legislation.

Subject: Re: Ballots Shredded and Burned? Lawless Mess

Good Evening:

Thank you for your letter. I would like to share some information with you from our newly elected Maricopa County Recorder, Stephen Richer.

Also, the audit decisions are being made and controlled, by the Senate and not the House of Representatives. Please see below and have a blessed week ahead.

Sincerely,

Representative Joanne Osborne

Hi Representative Osborne!

Maricopa County has not, and would never destroy voted ballots until legally authorized to do so after the 24-month retention period.

The reality is the November General Election ballots are sealed and stored in the vault, not the warehouse. The vault is under the watch of a 24-7 camera. None of the ballots or other General Election materials from the vault were in the garbage, and as a matter of business, the county can and does throw out trash.

The fact is, these individuals were dumpster diving on Maricopa County property. Security footage shows they attempted to break into the warehouse entrance of the Elections Department on Saturday with a board from the dumpster.

Maricopa County plans to follow up with law enforcement about these activities.

A few other points to consider:

The photos circulated of the warehouse bay door are not even where the ballots are kept. The stacked pallets are boxes of blank voter registration forms.

The blog states that Ms. Burk went to the Elections Department on Friday (3/5) and found doors wide open and unattended. This is not true. After speaking with staff and reviewing video footage, Ms. Burk was taking pictures for less than a minute before staff came out to see what she needed. She asked about the boxes and staff informed her they were blank voter registration forms. The bay doors were not left unattended. In the pictures you can see staff is in the background.

The ballots are not stored in the warehouse. While six pallets were placed on a truck on Monday, March 1, in the presence of multiple members of staff, the sealed ballots were off loaded and placed back into a secure storage area that evening when the Senate notified the county that they did not have a place to store them.

· The photo of the one ballot could very well be the person's own ballot. It was shredded in a different direction that the other items that have the Recorder's address on the top, which is not included on Maricopa County ballots. We respect there are different opinions about this issue, but there is only one set of facts. This particular blog has published numerous false posts about Maricopa County and elections operations since November. We can't speak to their motivations, but some of their writers clearly have no interest in the truth.

· The blog states that the County had a wireless network name that used profanity. There are many wireless networks near or around the Elections Department that are not controlled by the County or the Elections Department. Some may contain foul language, but they are owned and operated by private citizens and/or private companies.

Subject: RE: Voters don't expect another audit of Maricopa County election results

Hello,

Thank you so much for your email. I appreciate hearing your views as it helps me to understand what my constituents most care about. I ran for office on a platform of supporting our schools, teachers and students, voting rights, creating quality jobs in our community, protecting our environment, especially our water resources, fighting for criminal justice reform and prison oversight, as well as reducing gun violence in our communities. As we move toward the conclusion of the 2021 legislative session, you can count on me to advocate on your behalf.

Please be sure to follow me on [Facebook](#) and [Twitter](#) for more updates on how I'm fighting for Arizonans. I would like to keep you up to date on what I am doing in the legislature and will be adding you to my newsletter list. If you prefer, you can unsubscribe from the newsletter at any time.

Thank you,

Kirsten Engel

Subject: Voters don't expect another audit of Maricopa County election results

Dear Senator Fann,

I read this in the Arizona Republic today and I believe you missed the point of what voters expect:

"Our voters expect this audit, and it can be a big step in returning trust and confidence in our election process."

Voters really expect the state legislature to fully fund public education, expand health care to more families, enact laws to protect scarce water resources, increase funding to universities, the economic engines of our state. I never expected an audit of election results, especially since the results already have been audited.

Where are you finding the money to do this?

Are you auditing state house and senate results, too?

You are wasting time, money and people power.

Sincerely,
Katie Maass

Hi Kirsten,
Thank you for all that you are doing to keep us from the worst outcomes now pending in the state legislature.

I wanted to know if these ADLCC notices should be forwarded to our LD leadership teams, territory coordinators, PCs and Dem activists as a matter of course. Since these are regular and timely notices from the party staff, our Dem activists can use them to good effect in their work. We should promote this as a tool that also brings awareness of the ADLCC to our activists. What do you think?

I'm doing phone banks all week with the AFL-CIO to alert voters to the urgency of the PRO Act as a critical structural part of the Biden/Harris American Jobs Act—its crucially important that all workers have their rights to organize for workplace safety and fair standards. Even without a formal union, protected concerted actions on behalf of co-workers is a fundamental right.

Thank heavens we have a pro-union President and Vice President at the head of our party! It's time for Senators Sinema and Kelly to sign on and fulfill their campaign pledge to support the rights to organize.

Stay safe, stay well, fight hard!
In Solidarity,
Paul

Arizona Legislative Newsclips
Week 4.19.21 - 4.23.21

[Republican lawmakers revive sweeping anti-abortion proposal in Arizona](#) | Contentious legislation that would criminalize abortions based on genetic abnormalities and grant personhood rights to fetuses appears headed for passage, after the sole GOP lawmaker to oppose the bill changed his position.

Sen. Tyler Pace, R-Mesa, had temporarily sunk the sweeping Senate Bill 1457 earlier this month when he joined Democrats in voting "no" on the Senate floor. But after reviving the legislation through a series of procedural maneuvers, the bill's sponsor, Republican Sen. Nancy Barto of Phoenix, brokered a compromise.

Arizona's GOP Senate is abusing its authority. It must end this election 'audit' now | Republicans in the Arizona Legislature have set aside dollars, hired consultants, procured the hardware and software to conduct what they call "an audit" of the 2020 presidential election in Maricopa County. What they don't have is the moral authority to make it credible. Their conduct post-election has been so nakedly partisan that whatever their audit finds, its results will not be believed. They'll be mocked and derided. State Senate Republicans insist they are not trying to reverse the election, but are rather trying to build greater trust in the system. But how can anyone trust them?

The deafening corporate silence about Arizona's anti-democracy proposals | Arizona laws made me an activist. As a teenager, I lived through the passage of SB1070, the anti-immigrant law that legalized racial profiling, and saw what it did to our state. My family and neighbors were targeted, and families were ripped apart forever. While other teens were planning their sweet sixteen, I spent my time knocking on doors to help people register to vote.

Hobbs Urges Senate, Governor To Reject Purge Of Arizona's Mail Voting List | Arizona Secretary of State Katie Hobbs said Republican lawmakers are bucking the will of the people by proposing changes to the state's popular Permanent Early Voting List. Senate Bill 1485 was approved Tuesday on a party-line vote by House Republicans. It now awaits a final vote in the Senate, where it's expected to pass on Thursday.

Dems won't post \$1M bond, so election audit won't be paused | A brief weekend pause in the Arizona Senate's election audit that a judge ordered on Friday won't happen because the Arizona Democratic Party declined to put up a \$1 million bond that the judge requested to cover any expenses that the Senate wrongfully incurs due to the halt. Maricopa County Superior Court Judge Christopher Coury ruled that the audit must halt from 5 p.m. Friday to noon on Monday. But that order was contingent on the Arizona Democratic Party, which brought the lawsuit seeking to block the audit, posting a \$1 million bond to cover any expenses that the Senate wrongfully incurs due to the delay. The Senate's lease of Veterans Memorial Coliseum, where the audit is being conducted, ends on May 14.

'You want to see a temper tantrum?': Arizona Republican sides with Democrats, blocks voting bill | A bill that would stop some voters from getting a ballot automatically mailed to them each election failed unexpectedly in Arizona's state Senate Thursday after a single Republican joined Democrats in voting against the legislation. GOP state Sen. Kelly Townsend explained her surprise "no" vote on the state Senate floor amid a tense episode that saw the senator get into a heated confrontation with the bill's sponsor.

Arizona election audit updates: Republic reporter volunteering as audit observer can't provide updates but can take notes | The Arizona Senate-ordered recount of Maricopa County election ballots was to begin Friday — nearly six months after voters elected Joe Biden as president — at Veterans Memorial Coliseum in Phoenix. The Senate contracted with Florida-based technology company Cyber Ninjas to conduct the audit with a team of paid counters and volunteer observers. Journalists were denied specific access to report or record the process, although The Arizona Republic and other media outlets have retained an attorney to challenge that decision.

Paid for by the Arizona Democratic Legislative Campaign Committee, a project of the Arizona Democratic Party. Not authorized by any candidate or candidates committee.

April 24, 2021

[Take Action](#) | [Bill Watch List](#) | [Toolkit](#)

We Defeated Anti-LGTBQ Bill!

Thank you to the hundreds of activists who sent emails to legislators and the governor to defeat this discriminatory legislation. Governor Vetoed SB1456, which

AMERICA/
OVERSIGHT

would have affected not only sexual education curriculum, but all learning materials in the classroom and make it harder for LGBTQ kids to see themselves in school curriculum.

Stop Privatization Schemes in Our Neighborhoods **TAKE ACTION**

Two bills threatening neighborhood public schools are close to passing out of the Arizona Legislature. HB2427 will ban district boundaries, mandate enrollment lotteries, and require tax dollars to market school choice opportunities, including private school vouchers. This bill is ready for a final vote in the House. SB1280 will take \$10 million from the general fund to provide Uber grants to bus students out of our neighborhoods, draining money from our neighborhood schools. This bill passed in House Ways and Means Committee and is on its way to Rules then Caucus before floor vote. Contact your legislators to keep these privatization schemes out of our neighborhoods.

Budget Negotiations Stalled **TAKE PLEDGE**

Looks like Senate Republicans are too busy with their election audit to focus on budget negotiations. Efforts to get Republicans on board with a flat tax proposal have hit a roadblock with Representative Walt Blackman joining Senator Paul Boyer in opposing Representative Ben Toma's plan according to the *Yellow Sheet Report*. AEA objects to any state budget with new, permanent tax cuts, including flat tax or tax cap proposals, until per-student funding reaches the national average. In addition, we will oppose any state budget that threatens the Invest in Education Act or reduces public education funding. At a time when we have billions of dollars in budget surplus and the rainy day fund, Arizona's leaders should be investing in public education and our children. Join other education supporters like you and take the Pledge to Protect Public Education.

AEA Legislative Action Center **TAKE ACTION**

Many bills have stalled and are either waiting for a hearing in Rules Committee or a final vote. Continue to keep up the pressure and visit our Action Center to contact legislators to stop bills that could harm our students.

Bill Watch List

AEA is monitoring legislation that impacts education funding and policy. Keep an eye on AEA's Bill Watch List to stay in the know on what's happening at the Capitol.

On Fri, Jun 4, 2021 at 2:33 PM State Senator Kirsten Engel <kengel@azleg.gov> wrote:

Dear Friend,

The Arizona Budget saga continues with no clear resolution in sight. Last week, after it became clear that the extreme flat tax budget deal worked out between the Governor and GOP legislative leadership did not have sufficient votes to pass, both the House and the Senate recessed with the expectation of returning on or before June 10th.

In response, the Governor promptly vetoed 22 bills that the legislature had sent to his desk. In an [editorial published today in the Arizona Daily Star](#), I tell it like it is: Gov. Ducey's veto spree was a blatant budget power play that harms Arizonans by tossing several good policy proposals and undermining the legislative process.

This budgetary train wreck could have been avoided with the exercise of some basic statesmanship. Statesmanship here would have meant GOP leaders reaching across the aisle to craft a budget that a true majority of lawmakers could support. This would be a budget that eschews extreme tax cuts that slash funding for cities and towns, potentially jeopardizing basic city services, in favor of the smart investment of our temporary budget surpluses in COVID recovery for families and small businesses and services and programs that benefit all Arizonans.

Unfortunately, statesmanship seems to be in short supply in the Arizona legislature right now.

It's not over til it's over. I'll keep working for a decent budget that reflects your priorities. In the meantime, however, you can get the latest scoop by tuning into our LD10 Town Hall tomorrow morning, Saturday June 5th, 10 - 11 a.m.! See details below!

Our Town Halls are broadcast live over our respective Facebook pages, but you do not need to be a member of Facebook to watch or engage in the Town Hall. You can simply view the Town Hall via our Facebook pages and submit questions to us using this form. You can also view recordings of our last Town Halls here.

All my best,

Kirsten Engel

NEWS NOTES

DEMOCRATS SEEKING REFERENDUM NEED 118,823 SIGNATURES IN THREE MONTHS

Dem organizers filed referendums to send two controversial new election laws to the ballot and are working on another referendum on a budget bill. Eric Kramer, chair of the Navajo County Democratic Party and the filer of each referendum, told our reporter hundreds of volunteers have been out collecting signatures for a couple weeks to send Ugenti-Rita's S1485 (early voting list; eligibility) to the ballot. This morning, Arizona Deserves Better, which is behind the first referendum effort, filed a new one on H2569 (elections; private funding; prohibition), which prohibits election officials from using private grants. Kramer said the organizers are working on a third referendum, this time on S1819 (budget procedures; budget reconciliation; 2021-2022), which contains a host of last-minute election measures from Fann, Borrelli and Townsend. That bill creates provisions for ballots printed on security paper, establishes a task force to investigate social media sites that ban or suspend political accounts, lets the Legislature appoint someone to review voter rolls, and gives the attorney general supreme power over election litigation through the end of Brnovich's and Hobbs' terms. Kramer said he's working closely with Alison Porter, the Save Our Schools organizer who was instrumental in referring the 2017 school voucher expansion to the ballot. Voters soundly rejected the ESA expansion law. The organizers are only using volunteers to collect signatures now, but plan to use a mix of paid and volunteer circulators throughout the summer. The group has until Sept. 29, 90 days after *sine die*,

to collect 118,823 signatures.

MORE COUNTIES = MORE SUPERVISORS, MORE SPENDING, BIGGER GOVERNMENT

Rogers plans to slice and dice Maricopa County following a session in which she was duped by an activist who ran a complex Borat-style stunt to introduce a bill to create a 16th county. The idea started with Kelli Ward, who posed a question to her Twitter followers asking if Maricopa County should be split into multiple counties because its population is so much larger than other counties. “1,000 times yes. I will propose this bill unless someone else beats me to it. Will probably have to order a study first to see how we would do it,” Rogers responded ([LINK](#)). This year, Rogers introduced S1653 (study committee; county boundaries; appropriation) and became the latest northern Arizona politician to propose cutting out the mostly white southern portions of Navajo and Apache counties to form a new county - this time to be called “Sitgreaves.” After S1653 made it to COW, where Democrats read from a lengthy and racially-charged document drafted by its main proponent, Jesse Valencia, Valencia sent a *mea culpa* explaining that he started the project as a publicity stunt for a film and then kept up his persona.

TILTING AT WINDMILLS IS HARDER THAN IT LOOKS

Fann is the latest elected official to face a recall attempt – though the Sedona doctor organizing it acknowledged that it’s a long shot she’ll actually face a new election, let alone be removed from office. William Levinger filed the recall petition last week and has until Oct. 21 to collect at least 36,444 signatures to force an election. “I think that it’s possible to gather the signatures, but the district that she represents has decided that it’s acceptable to have Paul Gosar be their representative to Congress in spite of the fact that he seems to be opposed to protecting the constitution,” Levinger told our reporter. His recall effort is based on Fann’s authorization of the Senate’s ongoing audit, which remains murky but will directly or indirectly cost taxpayers millions of dollars. The Senate is on the hook for \$150,000 in its contract with the Cyber Ninjas, \$20,000 for security and the cost of utilities for two months at Veterans’ Memorial Coliseum. Maricopa County also needs to buy or lease new election equipment to replace the equipment the county said was compromised by the audit. “If an audit like this were conducted by Democrats, the Republican party would be howling,” Levinger said. More than a dozen recall efforts, most led by Trump supporters angry at fellow Republicans, have already failed this year. All five Maricopa County supervisors, Ducey, Bowers, Hoffman, Hobbs and Finchem survived recall attempts, and Boyer

successfully avoided two. Only one recall succeeded in Arizona's history – the effort to recall S0170 author Russell Pearce, who lost in the election to Jerry Lewis.

BLACKMAN DISSECTS FAILURE TO PASS EARNED RELEASE CREDITS BILL

Blackman dedicated the latest episode of his “The Walt Blackman Show” podcast to dissecting the death of S1064 (earned release; credits; prisoners), accusing longtime victims’ rights advocate Steve Twist of using his substantial influence in the Capitol to kill the bill. “I will tell my listeners that I worked in good faith, across the aisle, across all spectrum of government and folks that needed to be involved in the stakeholder meetings, and worked in good faith, and what happened is the people that did not want this bill were not working in good faith,” Blackman said in Friday’s episode. Blackman said the bill’s opponents claimed it would “defund the police” and lead to drug and sex traffickers getting time off their sentences, which he said wasn’t true, listing off the types of more serious offenders who would not have been eligible for early release and saying the savings could have gone into law enforcement and prison rehabilitative programs. He also touted the support for the bill from longtime anti-tax advocate Grover Norquist and groups, such as the American Legislative Exchange Council and Americans for Tax Reform. “It is so conservative that other states have used the language off of H2713 and applied it to their states,” Blackman said, referring to the original House bill number. Blackman said Twist has Ducey’s ear. “The legislative body is not ... calling the shots for reform in Arizona,” he said. “Special interests are doing that.”

HOFFMAN TO SEEK CIVICS CURRICULUM MANDATE NEXT YEAR

Although disappointed the legislation was stripped from the final K-12 BRB, Hoffman expects a proposal to impose a civics curriculum mandate that would have required students receive instructions on the evils of communism and totalitarianism to be introduced next year. He also praised the budget for barring schools from requiring Covid vaccines or face masks, and for banning certain types of instruction related to race, ethnicity or sex. “This bill bans teaching critical race theory in our schools,” Hoffman said, adding, “Now, critical race theory, just to be clear ... teaches that your kid is racist or sexist because of the color of their skin ...” Rodriguez cut him off with an objection, saying he wanted to correct Hoffman under House rule 18D, although he added he would withdraw his objection if Hoffman rephrased to make it clear he is expressing his opinion. Instead of rewording, Hoffman thanked Rodriguez for the opportunity to clarify. “One of the most vocal proponents of critical race theory, Ibram

Kendi, has described critical race theory and the anti-racism movement as a whole that the only answer to prior racism is current racism and the only answer to current racism is future racism,” Hoffman said. The civics education measure was copied from a recently passed Florida legislation.

WHAT ABOUT TRANSPARENCY?

Just before adjourning *sine die*, the Senate officially repealed its Covid emergency rules. When the Legislature returns next year – or for a special session that Townsend and no one else believes will happen – lawmakers will no longer be allowed to vote remotely. But the bulk of the Senate’s Covid restrictions – including the rules that have kept the public out of the building and that Fann used as an excuse to keep reporters out of caucus meetings – aren’t included in the rule change approved by the majority of the Senate. Instead, they’re laid out in a Covid-19 protocol document created by Fann’s office at the beginning of the session, under a Senate rule that gives Fann general control of the building. A Senate spokesman did not return our reporter’s call about whether the Covid protocol remains in effect, but it was still being zealously enforced yesterday. At one point, Marsh had to go downstairs to fill the water bottle of a teacher playing flute outside because security officers were under orders not to let the teacher in even to refill her water in 106-degree heat, our reporter was still blocked from caucus meetings and staff and pages were still required to wear masks on the floor.

LEGISLATURE REVERTS TO IN-PERSON VOTING

The House also voted to repeal Rule 38, its Covid protocols that allow lawmakers to vote remotely. The House had done more to relax Covid restrictions for lawmakers, staff and members of the public. Most staff members haven’t been wearing masks for more than a month, and members of the public have been allowed into the House gallery to observe the proceedings. The House got rid of its mask mandate for lawmakers and most of the glass partitions dividing lawmakers’ desks in late March after Ducey issued an executive order overriding local mask mandates.

SECRETARY OF STATE CANDIDATES: GREAT JOB, BRNO!

Bolick and Finchem, the two Republican House members who are seeking their party’s nod for Secretary of State, joined Ugenti-Rita in praising the US Supreme Court’s 6-3 decision Thursday in *Brnovich v DNC* to uphold Arizona’s ban on ballot harvesting and its requirement that voters must vote in the correct precinct for their ballots to count. “Today is a win for Arizona,” Bolick said. “There is more work to do, but I am

committed to securing Arizona's elections and restoring your confidence that your vote counts." Finchem also praised the ruling and highlighted his vote for the 2016 law banning ballot harvesting that was the subject of the challenge.

BLACKMAN CALLS BOLICK DEAR LEADER

In another Secretary of State-race related news, Blackman on Wednesday urged people to join him in contributing to Bolick's campaign. "As a military combat veteran, I've seen firsthand what good leadership looks like," he said. "Shawna Bolick is that leader."

ENJOY THE LONG WEEKEND!

We will not be publishing on Monday in celebration of Independence Day. We will be back on Tuesday. In the meantime, whatever you do, have fun!

Reps. Gallego, Hayes, Adams, and Houlihan lead call to Invest in and Diversify the Educator Workforce

WASHINGTON, DC - Today, Rep. Ruben Gallego (D-AZ), along with Reps. Jahana Hayes (D-CT), Alma Adams (D-NC), Chrissy Houlihan (D-PA) and 18 other Members of Congress, sent a letter to Senate and House leadership calling on them to enact spending legislation that reflects President Biden's proposed \$9 billion to train, equip and diversify the American educator workforce.

The U.S. education system is facing a teacher shortage and teacher diversity crisis. The COVID-19 pandemic has exacerbated this crisis, with polls showing that teachers of color in particular are more likely to retire early or leave the profession because of the pandemic. Even before the pandemic, studies showed that completion of teacher prep programs fell by one-third between 2010 and 2018 and that while over half of all students in the U.S. are non-white, only 20 percent of our teacher workforce is made up of people of color.

The letter urges the Appropriations Committee to begin to address these crises by investing \$9 billion to address teacher shortages, improve teacher preparation, strengthen pipelines for teachers of color, invest in educator leadership, and help current teachers earn in-demand credentials. Many of the letter's proposals are also included in President Biden's American Families Plan.

"Our teachers and students have faced an incredibly difficult year due to pandemic. As teachers, especially teachers of color, have left or consider leaving the workforce, the education system needs a substantial investment in teacher preparation, diversity, and

retention. The investments outlined in the American Families Plan, including my proposed Teacher Diversity and Retention Act, will relieve and strengthen our American education system, and help ensure every student has access to a high quality education.” **said Rep. Ruben Gallego (AZ-07)**. “I am proud to advocate for teachers and aspiring teachers to receive the support they need and to increasingly become a workforce that reflects the diversity of the students they serve.”

“Our nation is in the middle of a teacher shortage – one that is especially prevalent for educators of color. This legislation supports the increase of a diverse workforce by equipping educators with the tools required to recover from the pandemic, improve classroom environments, mitigate teacher shortages by improving the educator pipeline and curb retention issues by developing better career advancement opportunities to leadership. It is important to prioritize education as we move forward. This is an important step forward toward diversity and retention in the education workforce,” **said Congresswoman Hayes (CT-05)**.

“Research has shown conclusively that Black students who have just one black teacher are more likely to enroll in college,” **said Congresswoman Adams (NC-12)**. “Hiring and retaining diverse educators in America’s workforce ensures that the coming generations of students will see themselves reflected in the people who will shape them. I’m happy to join this effort to facilitate a more diverse teaching workforce that will help our students see more opportunities and possibilities.”

“Our teachers and students have had an unprecedentedly difficult past 15 months,” **said Congresswoman Houlahan (PA-06)**. “We have a responsibility, now more than ever, to invest in our country’s future, which means investing in teachers and our kids’ education. That’s why I’m proud to join Representatives Gallego, Hayes and Adams in this effort to invest in teacher preparation, diversity and retention. As someone who taught high school chemistry, I know the profound sacrifices our teachers make to provide our children with the best education possible. I also know how important it is for our students to see themselves reflected in their teachers, which is why I believe a more diverse teaching talent pool is so necessary. You can’t be what you can’t see. It’s time every student be able to see themselves in the people who instruct, nurture and teach them. Our education system, communities and country will be all the better for it.”

Teach Plus CEO and President Roberto J. Rodríguez said: “We applaud Congressman Gallego and Congresswomen Hayes, Adams and Houlahan for taking up President Biden’s charge to prepare, support and invest in a diverse and talented teaching workforce. The American Families Plan is a game changer for the future of teaching and the teaching profession. There has never been a more important time to make these investments – our children’s future depends on it.”

The NEA applauds Reps. Gallego, Hayes, Adams, and Houlahan for leading this important letter to acknowledge the historic funding proposed by the American Families Plan to advance the educator workforce,” **said Marc Egan, NEA Director of Government of Relations**. “For years, the educator profession has faced serious challenges of attrition, only to be hampered further by the COVID-19 pandemic. Implementing President Biden’s proposal to uplift the educator pipeline would demonstrate Congress’s commitment towards retaining profession-

ready teachers, and recruiting a diverse educator workforce that accurately reflects the students they serve.”

“As an organization that advocates for funding for Hispanic-Serving Institutions, we support this legislation that invests in existing programs to further strengthen teacher diversity efforts,” **said HACU President and CEO Antonio R. Flores.** “Hispanic students account for 27 percent of elementary and secondary U.S. public school students, yet only 9 percent of teachers are Hispanic. Strengthening the pipeline and increasing recruitment and retention of diverse teachers at HSIs and MSIs is crucial.”

“For too long, our federal government has failed to afford every student in America a quality education regardless of their zip code,” **said Khalilah Harris, Team Managing Director for the Center for American Progress.** “Prioritizing our students and the adults who develop them is a critical component of the American Families Plan that Congress must commit to, and a pivotal step towards addressing decades of racial and economic injustice.”

Roxanne Garza, Senior Policy Advisor, Education at UnidosUS said: “Latino students, English learners, and other underserved student populations have been disproportionately impacted by the COVID-19 pandemic. One way to ensure that students have the best chance for learning recovery is to make certain that they have access to qualified teachers that reflect their racial, cultural, and linguistic background. We strongly support funding provisions in the American Families Plan to recruit, prepare, and retain a more diverse teacher workforce through the FY2022 appropriations process.”

This letter has been endorsed by Teach Plus, National Education Association, Center for American Progress, UnidosUS, Teach for America, National Center for Learning Disabilities, Education Trust, New America, TNTP, and Hispanic Association of Colleges and Universities.

Reps. Jones, Gallego Introduce Bill to Restore Section 2 of the Voting Rights Act

Hours after the Supreme Court's decision weakening Section 2 of the Voting Rights Act, the Inclusive Elections Act of 2021 would restore and strengthen this critical provision

WASHINGTON, DC — Today, **Reps. Mondaire Jones (D-NY)** and **Ruben Gallego (D-AZ)** introduced the Inclusive Elections Act of 2021, legislation to restore Section 2 of the Voting Rights Act, which bars states and localities from adopting election laws that disparately burden the voting rights of people of color and linguistic minorities. The bill comes just hours after the Supreme Court's devastating decision in *Brnovich v. Democratic National Committee*, which carved loopholes into the law that significantly reduce its power to stop voter suppression.

“The Voting Rights Act of 1965 was the crown jewel of the Civil Rights movement, but over the past decade, the Roberts Court has staged an all-out assault on the VRA, culminating in today's *Brnovich* decision,” **said Congressman Mondaire Jones.** “At a time when the voting

rights of Black and brown Americans are under attack to a degree not seen since Jim Crow, protecting the sacred right to vote is more important than ever. The Inclusive Elections Act of 2021 would undo the Supreme Court’s destructive decision by outlawing discriminatory voter suppression laws like the ones the Court just upheld in Arizona.”

“Democracy is under attack by state legislatures across the country, including in Arizona. The right of every American to have equal access to the ballot – regardless of their race or political orientation – is critical to a functioning democracy. The Supreme Court trampled on that right today by upholding two Arizona laws that make it harder to vote for Latino, Black, and Native American communities in particular,” **said Congressman Ruben Gallego**. “Our very democracy is at stake in this fight, and Congress must act. I’m proud to introduce this bill with Congressman Jones to protect voters of color from discrimination and help restore the foundation of our democracy.”

State Rep. Aaron Lieberman Raises \$250,000 in First 48 Hours of Campaign

90 Percent of Donors Are From Arizona

PHOENIX, AZ – Today State Representative Aaron Lieberman (LD 28), job creator, education leader and candidate for governor, announced that his campaign raised \$250,000 in the first 48 hours since its launch on June 29.

His launch video, titled “Right Leader, Right Now,” can be viewed [here](#), as well as with captions in [English](#) and [Spanish](#).

“Aaron’s a different kind of candidate, one with a track record of creating jobs while developing innovative solutions to complex problems, and we’re thrilled so many Arizonans are supporting him right out of the gate,” said Miguel Medrano, campaign manager.

“Aaron is hearing from people throughout the state that they want an end to extreme partisan dysfunction and a start to real investments in education, healthcare, clean water and air, so that we can have a booming economy which helps every Arizonan succeed,” added Medrano.

During his time in the private sector, Aaron founded two organizations, Jumpstart, and Acelero Learning, that have grown to impact nearly 1 million young children and their families while employing thousands of people.

###

Aaron Lieberman, state representative for Legislative District 28 and a social entrepreneur, is a candidate for governor of Arizona. After seeing first-hand the effectiveness and success of early childhood intervention programs, Aaron launched Jumpstart, a national nonprofit to ensure all children had the opportunity to enter kindergarten prepared to succeed. To date,

more than 50,000 college students have served, working with more than 100,000 children and earning over \$200 million in scholarships through AmeriCorps. Later, he founded Acelero Learning to close the achievement gap for Head Start children. Impacting over 40,000 kids every day, children enrolled in Acelero's programs make gains at nearly three times the national average. Aaron was born and raised in Arizona. He and his wife live in Phoenix, where they're raising their two sons. Aaron's daughter is studying history at Yale, his alma mater.

House ends session with flurry of bills

By Julia Shumway, Nathan Brown

Arizona Capitol Times

07-02-21

The House wrapped up this year's legislative session by, among other things, voting to give rural lawmakers more money.

The Senate voted June 29 to pass HB2053, which increases the daily stipend for living expenses for lawmakers outside of Maricopa County during the session. The House followed suit June 30. It is currently set at \$60 a day for the first 120 days of the session, dropping to \$20 after that. The bill will increase it to \$207 – the average of the six highest months of the federal employee per diem for Maricopa County – for the first 120 days of the session, and cut it in half after that. (To read more, click [here](#)).

GOP lawmakers seek limits on voter power

By Julia Shumway

Arizona Capitol

Times

07-02-21

In 2022, depending on which advocacy groups succeed in gathering enough support, voters may see questions on their ballot asking about capping medical debt, stopping secretive election spending or ending machine counting of ballots.

They'll also be asked to vote to make it more difficult for citizens to make lasting laws through the initiative process, after legislative Republicans finally succeeded in sending two initiative-limiting referendums to the ballot. (To read more, click [here](#)).

Early voter law changed before SCOTUS ruling

By Howard Fischer

Capitol Media

Services

07-02-21

A new ruling upholding Arizona election laws comes as state lawmakers just changed one of the reasons the U.S. Supreme Court agreed to leave those statutes in place.

In concluding the ban on ballot harvesting does not violate the Voting Rights Act, the court cited how easy it is for Arizonans to cast early ballots, Justice Samuel Alito pointed out that, among other things, “any voters may ask to be sent an early ballot automatically in future elections.” That was true at the time the case was argued at the court in March. (To read more, click [here](#)).

State budget includes \$46M to repave SR-95

By Michael Zogg Today's News Herald 07-02-21

Arizona's state budget for FY2022 includes \$321 million in road maintenance and expansion projects including \$46.7 million to repave State Route 95 from Lake Havasu City north to Bullhead City.

Rep. Leo Biasiucci (R-Lake Havasu City) has been pushing to obtain funding for the repairs he says are long past due. Part of the project will repave the highway from Lake Havasu City north to the junction with I-40. That portion of the repairs will cost about \$26 million. The state will also repave SR95 from Bullhead City south through Mohave Valley to the bridge leading into Needles, California, which will cost about \$21 million. (To read more, click [here](#)).

County jail suffered \$300,000 shortfall in FY20-21

By Sam Ribakoff Eastern Arizona Courier 07-02-21

Graham County's chief financial officer is blaming COVID-19 for a \$300,000 shortfall in FY20-21, saying the federal government and Bureau of Indian Affairs sent far fewer inmates to the county to be housed last year.

The Graham County Board of Supervisors voted June 28 to cover the loss with county general

funds. (To read more, click [here](#)).

Arizona newspaper takes state Senate, Cyber Ninjas to court for audit info

By Dominick Mastrangelo

The Hill

07-02-21

Arizona's leading newspaper is suing the state Senate and a digital contractor in a bid to obtain information about the GOP-backed audit of the 2020 election results in Maricopa County.

The Arizona Republic reported Thursday it has "filed a special action in Maricopa County Superior Court seeking financial records and communications about the audit from the [Arizona] Senate and Cyber Ninjas," the company carrying out the audit. (To read more, click [here](#)).

Comments:

Good afternoon. I just wanted to let you know, as a third generation Phoenician, I am not willing to wait until January 20th for the court to hear the case and possibly order the Maricopa Board of Supervisors to turn over the voting machines. I do not feel like the machines belong to the BOS, they belong to the citizens of Maricopa County. We are entitled to a fair and honest election. We are entitled to an audit. I would like you to pass a resolution TOMORROW (since I am a bit late writing this) to enforce the subpoena and either have the BOS arrested or get the information needed to start the audit. You have an opportunity here to help rebuild the trust of Arizonans across the state, not just those in Maricopa county. This needs to be done to help move forward. Please do this and encourage others to be the strong leaders Arizona needs right now. Thank you,

Subject: Re: Inadequate "audit"

Which is why the liberal media is not reliable information anymore. This is a fully legitimate forensic audit as authorized by the Superior Court. The BOS and media has tried to sabotage and discredit it from day one citing "the crazies" are just trying to overturn the election. This is entirely false. We have hundreds of thousands who are questioning the integrity of our electoral system. As your elected Senators, we are responsible to our voters to get answers to their questions to reinstall your confidence in the electoral system. It's disheartening the media and BOS believe you do not deserve answers to your questions. We have asked them to work with us in selecting the auditor...they refused. They are now refusing to even answer simple questions like how the ballots are stored.

NEWS NOTES AND GOSSIP

WELL, AT LEAST IT'S NOT CORRUPTION

A corporation commissioner asked CEOs of utility companies not to vaccinate employees, multiple sources at the Corporation Commission confirmed, and he wanted to send regulated companies a video arguing the Covid vaccine kills people. Jim O'Connor, the newly elected Republican commissioner, has been reaching out to utility CEOs to ask them not to have their employees vaccinated en masse, multiple senior officials at Corp Comm told our reporter. An APS spokeswoman confirmed O'Connor and APS CEO Jeff Guldner had a call this week to discuss whether the utility would mandate vaccines for its employees, but did not provide our reporter with specifics. "[Guldner] confirmed that we are not mandating any employees be vaccinated. APS continues to

operate according to CDC guidelines with a focus on keeping our employees and customers safe," Jenna Rowell said via email, later adding that was the "extent of what I can confirm." It's unclear who else was on the call. At one point, staff requested O'Connor open a docket on the topic, but he refused, according to multiple Corp Comm senior officials. "He's been calling the CEOs telling them to not make their employees get the vaccine because it's been killing people," another source told our reporter. "And apparently he's been told to docket it because communications with utilities need to be docketed ... and he refused." O'Connor offered a vague denial through a spokesman who didn't answer follow up questions. "Commissioner O'Connor states that your comments are untrue," Nick Debus emailed our reporter. "If you're reaching out to them individually to like tell them what to do – even if it's about vaccines, which is bizarre – that's just weird," a former commission staffer said. "At least it sounds like staff was trying to keep it ethical." After our reporter first broached the topic during yesterday's marathon meeting, one source at the Commission said staff was running around frantically trying to find out how our reporter was tipped off. A second source said O'Connor was overheard yesterday telling his policy advisor and a spokesperson that if he denies the conversations happened, then the story will go away. A senior official told our reporter that O'Connor continued his anti-vax campaign last night, as he called Corp Comm insiders to ask that officials sign off on sending utilities a video providing "proof" that the Covid vaccine is killing people who receive it. "He's talking to all of the CEOs of the big companies asking them to show a video that he will provide that goes against the grain of taking the vaccination," one Corp Comm source said, adding that at least one CEO said the video was "not necessary." Our reporter reached out to all five commissioners, and several staff members asking for a copy of the video, but nobody responded before our deadline. The commission was still midway through its two-day meeting and had just started its main topic of utility shutoffs at our deadline ([YS, 4/13](#)).

CORP COMM SHOULD REQUIRE COMMISSIONERS TO VACCINATE

That call was at least the second time O'Connor had broached the topic with utility CEOs and staff. In a March 30 meeting about summer preparedness, O'Connor only asked one question of each utility that gave a presentation. "Do you folks over at SRP mandate your employees to accept the vaccine as a condition of employment," he asked of Salt River Project around the 2:12:00 mark of the video ([LINK](#)) during a totally unrelated discussion. SRP and other utilities in the meeting told him they do not mandate the vaccine, but strongly encourage it. It's not the first anti-science stance O'Connor has taken in the past year. On the campaign trail, he said he does not believe climate change is manmade – something that astounded Corp Comm watchers considering he was running for the branch of government that regulates public utilities in areas of electricity, water, gas and energy.

ABOLISHING THE DEATH PENALTY, ONE CANDLE AT A TIME

If the state executes death row inmate Frank Atwood, at least one person the Dept of Corrections director must invite won't attend. Pima County Attorney Laura Conover, a long-time opponent of the death penalty, will instead "do what she always does when someone in Arizona is put to death by the state," her spokesman Joe Watson told our reporter. "[She'll] light a candle and pray very hard for all the people, from every angle involved, suffering trauma on that day." Atwood, who was convicted of kidnapping and murdering an 8-year-old Tucson girl in 1984, is one of the two inmates for whom the state is seeking a death warrant. When

Arizona executes someone, the Dept of Corrections director is required to invite a list of specific people to witness the execution. State law dictates that list include the attorney general and "at least twelve reputable citizens of the director's selection" and that defendants must be allowed two clergymen and five friends or family members, and that no minor be allowed to witness the execution. But department protocol gets more specific, requiring the director to invite five official media witnesses, law enforcement, victims and survivors, up to three members of the inmate's legal team, and "prosecutors from the jurisdiction where the crime occurred," which in this case means Pima County ([LINK](#)). (During the hiatus following the botched 2014 execution, the department settled a lawsuit by agreeing to allow additional witnesses – journalists, family members and officials – to watch and hear the execution. It also agreed to not use paralytic drugs in future executions and is now limited to the barbiturates pentobarbital or sodium thiopental.) Conover has moved Pima County away from capital punishment in her first few months on the job, dismantling its death penalty advisory panel and vowing not to pursue the death penalty during her tenure. Watson told our reporter there are no remaining cases in the county where the death penalty is being sought. "As long as Laura Conover is county attorney, the Pima County Attorney's Office will not be seeking the death penalty," Watson said.

PRO TIP: TRY FORMAT PAINTER

The Cyber Ninja’s contract with the Senate displays a concerning lack of clarity and methodology and a general shoddiness indicative of rushed workmanship, according to contract lawyer Jay Calhoun of The Calhoun Law Firm, who reviewed the contract for our reporter. One of the first concerns that jumped out at Calhoun when she reviewed the master services agreement and statement of work was it uses different fonts throughout, signifying a cut-and-paste approach to writing contracts. “It’s clearly a cut-and-paste job,” Calhoun said, adding that the document still included unaccepted track changes.

She was also concerned about the lack of clarity in the firms’ methodology section in the statement of work, which encompasses a whole of four lines, calling the brevity “ridiculous.” For example, the proposed scope of work section says there will be forensic images taken and reviewed, but it doesn’t say what analysis will be performed. “It’s going to be very difficult to replicate their audit if we don’t know how they went about doing it,” she said. The language used in the methodology section appeared crafted with a certain result in mind, she said, pointing to phrases like “issues where results may have been manipulated in the software.” “The word ‘manipulated’ is so intentional,” she said. “Instead of saying ‘issues where results may have mistakenly been changed,’ the agreement does not suggest that. They use the word manipulated, which is a loaded term.” She said many of the provisions are conclusory, making statements as fact without evidence to back them up. For example, they refer to providing “proper personnel” to conduct analysis without defining what constitutes proper personnel. “Cyber Ninjas has already assumed that there’s going to be a problem,” she said.

IF THEY GET SUED, WE’RE ALL ON THE HOOK

The Senate also agrees in the contract to “defend, indemnify and hold harmless” Cyber Ninjas for a host of potential problems with the audit, including if a third party (like, say, Dominion) sues. That protection extends to “allegations related to the analysis of any third party’s systems or processes or to the decryption, analysis of, collection or transfer of data to Contractor,” basically putting any legal ramification to the audit on the Senate, rather than the company it hired. There’s also a provision that says Cyber Ninjas is not liable for claims arising from any action the contractor takes that was directed or approved by the Senate.

“They’re saying no matter what they do, if someone brings an action against them, the state is going to defend them,” Calhoun said. Calhoun found it odd that Cyber Ninjas issued a master services agreement, not a simple service agreement, which she said would be more typical of a one-off project. While Calhoun deals with federal contracts, not state contracts, she said she hadn’t seen a contractor issue an MSA to the government – usually it’s the other way around. Calhoun also said she’d like to get a copy of Cyber Ninja’s errors and omissions insurance policy. E&O insurance helps protect companies from lawsuits related to their negligence or mistakes. (Our reporter requested a copy of the insurance policy from the Senate, along with other documents, but the Senate has yet to turn them over.)

LET'S BE HONEST, IT WAS NEVER ABOUT THE MONEY

Calhoun also doesn't see how Cyber Ninjas or the other firms can make a profit off this project. "A recount is not inexpensive, so how [Cyber Ninjas] is going to do all of it with two additional companies for \$150,000 just blows my mind," she said. The audit will almost certainly cost more than \$150,000, and Senate liaison Ken Bennett has said the Senate is looking to private sources for additional private funding. *One America News Network* has already raised more than \$150,000 for the audit ([LINK](#)). And while there's a process by which the Senate can accept funds through Legislative Council, if the funds are provided directly to Cyber Ninjas, it's unlikely the public will be able to find out where that money is coming from. Bennett, on *KJZZ's The Show* today ([LINK](#)) said he "hopes" people will be able to find out who pays for the audit. But he offered no assurances. "I would hope all of those things will become public knowledge," Bennett said, again noting that the project will likely run over budget and "there's talk of grants and other sorts of things to make up that difference." Of course, if the company is being subsidized directly by donations, rather than through donations to the Senate, there's no way the public can request that information from Cyber Ninjas. The Senate's contract doesn't require the company to disclose that.

RAILBIRDS KNOW WHAT'S UP

As expected, former Arizona Supreme Court Justice Andrew Gould filed his statement of interest for Attorney General in 2022, joining Tiffany Shedd, a two-time CD1 candidate, in the Republican primary. Multiple legal railbirds told our reporter in early March that it would happen ([YS, 3/5](#)), and one week after we published, Gould retired from the court. He was appointed in 2016. Gould served the Arizona courts for several decades, first winning an election to the Yuma County Superior Court, then former Gov Jan Brewer appointed him to the appellate court in 2010 and Ducey promoted him when the Supreme Court expanded six years later. The attorney

general race is expected to be a wide-open field since Brnovich is termed out and is likely to run for governor. Legal sources have repeatedly told our reporter to pay attention to contributions Gould receives when he files his first report next January and compare it to court cases he decided on while on the high bench. It could call into question those decisions; one source told our reporter. In addition to Shedd, who launched her campaign a day before Gould filed, railbirds are expecting biennial candidate Rodney Glassman to jump in the race, as well as Lacey Cooper, who currently works in the US Attorney's Office and applied for the Maricopa County Attorney's Office appointment in 2019. One new name that multiple sources have floated as a potential candidate is Dawn Grove, the Arizona Chamber of Commerce board chair ([LINK](#)).

Mayor Romero Responds to Arizona Supreme Court Ruling Upholding City of Tucson Odd-Year Elections

This morning, the Arizona Supreme Court ruled in favor of the City of Tucson in an action brought by the Arizona Attorney General to determine the legality of the City's Charter-based requirement of holding its candidate elections on odd years, despite state laws enacted in 2018 that sought to require the City to move those elections to even years. The ruling means that the City will have its elections for the Ward 3, 5, and 6 Council seats in 2021, instead of being forced to move to 2022. In November 2018, in response to the newly enacted state laws, Mayor & Council referred to the ballot the question of whether to keep City candidate elections in odd years or move them to even years. Tucson voters voted strongly in favor of keeping our elections on odd-years, re-affirming a process that has been in place since the 1960s.

This is the second time in 7 years that the State has attempted to force the City of Tucson to move to even-year elections through state legislation. In 2014, the Arizona Court of Appeals ruled that the State cannot force even year elections on Tucson.

The Arizona Supreme Court's opinion on the 2021 case is included as an attachment.

"I am pleased that the Arizona Supreme Court agreed with the City of Tucson that our local elections are a matter of local concern," *said Mayor Romero*. "Phoenix State Legislators have once again failed to override the will of Tucsonans in disrupting our local elections. Tucsonans have repeatedly affirmed that our local elections belong on odd years, which allows for city-focused campaigns and robust public discourse on local issues that would otherwise be overshadowed by federal and state elections on even years."

"I hope that this ruling finally puts the issue to rest, and that our State Legislators can return their focus to the pressing issues facing Arizonans instead of meddling with our local elections. My thanks to our City Attorney and his legal team for their work to ensure that the will of Tucsonans continues to be respected."

MEDIA ADVISORY: Governor Ducey To Sign Historic Tribal-State Gaming Compact

PHOENIX — Governor Doug Ducey will hold a ceremonial signing of a historic tribal-state gaming compact amendment and its associated legislation to modernize and improve gaming throughout the state tomorrow at the Heard Museum. He will be joined by tribal leaders and lawmakers as he ceremonially signs House Bill 2772 and the amended compact.

Background

Earlier this week, the Arizona Legislature passed a bill that modernizes gaming in Arizona and provides additional revenues for Arizona and tribal nations. The legislation, House Bill 2772, is part of a compromise that was negotiated in the amended gaming compact, which is undergoing the most significant modernization in almost two decades. The compact amendments and the associated legislation took more than five years to negotiate, and it ensures gaming in Arizona remains limited and regulated while providing certainty for the future of the state and tribes.

NOTE: Media must arrive by 10 a.m. Late arrivals may not be admitted. The event will be live-streamed here:

<https://youtube.com/c/dougducey/live>

WHO: Governor Doug Ducey, Senator T.J. Shope, Representative Jeff Weninger, additional members of the Arizona Legislature, Gila River Indian Community Governor Stephen Roe Lewis, and additional leaders of tribal nations throughout Arizona

WHAT: Signing of House Bill 2772 and the amended Tribal-State Gaming Compact

WHEN: Thursday, April 15 at 10:30 a.m.

All media must arrive by 10 a.m.

WHERE: Heard Museum

Steele Auditorium

2301 N Central Ave

Phoenix, AZ 85004

*Museum policy requires the wearing of face masks

RSVP: RSVP required with names of all attendees to communications@az.gov by 8 a.m. on Thursday, April 15.

Arizona Department of Health Services Releases New PSA Featuring Several Community Leaders

The PSA is Part of the Roll Up Your Sleeve Campaign to Encourage People to get the COVID-19 Vaccine

PHOENIX — The Arizona Department of Health Services (ADHS) launched a new public service announcement as part of the “Roll Up Your Sleeve to Get Vaccinated Against COVID-19” campaign. The new PSA features community leaders, local celebrities, and influencers from several industries including professional sports teams, the faith community, non-profits, and the business community.

“We are honored that this group of Arizona leaders and influencers came together to encourage everyone in our community to get vaccinated against COVID-19,” Dr. Cara Christ said. “Getting vaccinated against COVID-19 is one of the best tools that we have to reduce the spread of the virus and save lives in Arizona.”

The PSA features: Dr. Cara Christ, ADHS director; Pastor Sherielyn Curry, Presiding Elder of Rocky Mountain District at African Methodist Episcopal Church; David Adame, president and CEO of Chicanos Por La Causa; Alan “AP” Powell, founding chairman of the HEROZONA Foundation; Dr. Cecilia Rosales, associate dean of the University of Arizona Mel and Enid Zuckerman College of Public Health; John Goodie, legendary Arizona high school football coach and community leader; Luis “Gonzo” Gonzalez, Arizona Diamondbacks legend; Tom Chambers, Phoenix Suns legend; Vaughn Willis, an Arizona-based R&B musician; and Governor Doug Ducey.

The Arizona influencers PSA is part of a series of PSAs that encourage vaccinations statewide. The current PSAs are running on broadcast and cable television and social media and feature Governor Ducey, Dr. Christ, and a Spanish version with David Adame.

“I want to thank our partners and community leaders for coming together to help promote this important message about getting vaccinated,” Dr. Christ said. “I encourage everyone to get vaccinated when they can as new appointments become available.”

To learn more about getting vaccinated against COVID-19, visit azhealth.gov/COVID19vaccines. To book your vaccine appointment, visit azhealth.gov/findvaccines.

Representative Cobb: “I Won’t be Intimidated from Fighting to Protect Arizonans from Big Tech Monopolies & Exorbitant Fees”

Will continue to fight for HB 2005, which would lower costs for small businesses, increase choice & savings for consumers by preventing big tech’s “app tax”

STATE CAPITOL, PHOENIX – State Representative Regina Cobb (R-5) said she won’t back down in her fight to end the anti-competitive and monopolistic practices of Big Tech. Cobb said she will continue to build support for her legislation to protect consumers and small businesses from Big Tech’s monopolistic fees—better known as the “app tax.” Cobb made the comments after her legislation, which was scheduled for a Senate Commerce Committee vote in March, was abruptly held just before the hearing started.

“Effectively cancelling a hearing to stop lawmakers from having a public debate and before Arizona citizens is wrong,” Representative Cobb. **“Seeing Big Tech’s tactics up close proves that they will stop at nothing to maintain their monopoly, while generating record profits on the backs of hardworking innovators and Arizona consumers. Our fight to lower costs for businesses and consumers is far from over – I will never be intimidated by Silicon Valley and their bully tactics. In fact, Big Tech’s desperation to kill HB 2005 has calcified my opinion that checking their monopoly power is more important than ever.”**

Cobb said she won’t back down and is continuing to speak to colleagues about this issue saying, **“Rest assured: this fight is far from over. I will continue to work with my colleagues from both sides of the aisle to stop Big Tech from using their monopoly power to tax our small businesses, entrepreneurs and innovators, and squash**

legislation keeping their power in check. They have continually silenced their critics, but they can't shut us all down."

HB 2005 would level the playing field for app developers by giving them, and their customers, more choice—lowering costs for developers, lowering prices for consumers and incentivizing growing tech companies and entrepreneurs to relocate to Arizona. After HB 2005 successfully cleared the Arizona House of Representatives, David Heinemeier Hansson, a co-founder of software maker, Basecamp, said the company would move its operations from Chicago to a state like Arizona that offers a level playing field free from the Big Tech monopoly.

Apple and Google's effective monopoly allows them to force app developers to use their respective payment systems, where they impose a 30 percent "app tax" on purchases made through the App Store and Google Play store. This not only harms small app developers through increased costs but results in higher prices and reduced choice for consumers who have no way to avoid these anticompetitive fees. HB 2005 would free small app developers from the "app tax" by allowing them to accept payments without being forced to go through Apple and Google.

Since Representative Cobb's legislation was introduced, voices from across the political spectrum have spoken out about the need to reign in Big Tech, with some highlighting the legislation in Arizona as a necessary step to act where Congress has not:

Bolding and House Democrats Urge Veto of Anti-LGBTQ SB1456

PHOENIX— House Democratic Leader Reginald Bolding urged Governor Ducey to veto Senate Bill 1456 sponsored by Republican Senator Nancy Barto, which passed today along party lines and would require parents of students to opt-in to sex education curriculum and any instruction involving gender identity, gender expression or sexuality. Multiple members of the Democratic caucus noted that parents already control whether students receive age-appropriate comprehensive sex education, but this bill would also effectively shut off any discussion of gender identity, information about HIV prevention, how to recognize and report sexual abuse, or even discussion of historical events involving LGBTQ people.

"If our Republican colleagues truly cared about preventing childhood sexual abuse – which they frequently profess – then they should have rejected this bill," said Bolding, D-Phoenix. "Age-appropriate comprehensive sex education helps children when they are most vulnerable to distinguish between – for example – a good touch and a bad touch and gives them the language to tell a responsible adult if they have been abused. Parents can already opt out of this instruction if they choose, but if the legislature erects so many barriers that this instruction disappears altogether it will only allow and cause more harm."

Bolding added, "Two years ago, by an overwhelming bi-partisan majority, the Legislature repealed the discriminatory so-called 'No Promo Homo' law that for decades led to stigmatization and bullying of LGBTQ students. The passage of SB1456 effectively puts those restrictions on discussion of public health issues like HIV-AIDS – or even the history and contributions of the LGBTQ community – back into place. The same governor who repealed that stain on our state's history should not sign this one."

Congressman Biggs Fights Back Against the Democrats' Dangerous and Unconstitutional D.C. Statehood Proposal

Today, the House Committee on Oversight and Reform met to debate H.R. 51, a Democratic effort to transform the overwhelming majority of the District of Columbia's current territory into a 51st state, to be named "Washington, Douglass Commonwealth." At the same time, this bill would carve out a tiny sliver of current D.C. territory, containing merely the White House, Capitol, and a few other government buildings, to serve as the new federal capital district.

Committee Member Congressman Andy Biggs offered the following statement:

“The Democrats are so greedy to permanently tilt the political balance of power in their favor that they have presented us with a laughable D.C. statehood proposal. For one thing, it is a terrible idea to create a tiny new ‘capital district’ no larger than a city park that would be completely surrounded by an entirely new state. What if the government of ‘Washington, Douglass Commonwealth’ doesn’t want to ensure the security of the new capital district? Or to help supply its electricity or plumbing? How could a territory no larger than a few city blocks avoid being coerced into submission? But more fundamentally, H.R. 51 is unconstitutional. The Democrats would like to pretend that the 23rd Amendment, which grants residents of the capital at least 3 electoral votes in presidential elections, does not exist. But unfortunately it does, and this reality can’t simply be willed away. Or maybe the Democrats want the few actual residents of the new capital district—essentially just President Biden and his immediate family in the White House—to have as much voting power as the residents of some entire U.S. states: a completely ludicrous proposition. If the Democrats, in disregard of our Founders and the will of the majority of Americans, still want to make D.C. a state, they need to start drafting a constitutional amendment.”

Kelly, Sinema, Stanton, Colleagues Ask Biden to Fully Fund Initiatives to Increase U.S. Semiconductor Production

Today Arizona Senators Mark Kelly and Kyrsten Sinema and Representative Greg Stanton led a bipartisan group of 70 Senators and Representatives in requesting that President Biden fully fund initiatives to expand semiconductor manufacturing on American soil and create high-paying jobs authorized in the Creating Helpful Incentives to Produce Semiconductors (CHIPS) for America Act that were enacted as part of the FY21 National Defense Authorization Act. Arizona, home to 16 semiconductor companies, is a leading state in chip manufacturing with companies looking to expand their existing operations in the state. Recently, Kelly and Sinema applauded Intel’s announcement to build two new chip factories in Arizona amidst the global chip shortage. Additionally, the Taiwan Semiconductor Manufacturing Company (TSMC) announced its plans to build a mega site with six factories in Arizona which would create thousands of good-paying manufacturing jobs for Arizonans. Samsung Electronics is also actively considering opening a new U.S. manufacturing facility in Phoenix.

“Increasing the production of semiconductors on American soil is an economic and national security imperative. Arizona is a leader in the sector, proven by recent investments by Intel and Taiwan Semiconductor Manufacturing Company. Funding the CHIPS Act will create thousands of high-paying jobs, and be critical to our national security to ensure our competitiveness over China and on the global stage,” **said Senator Mark Kelly.**

“Building on our recent success passing our CHIPS for America plan, continued investment in semiconductor manufacturing creates good-paying jobs across our state, strengthens our national security, and ensures our country continues to lead in innovation,” **said Senator Kyrsten Sinema.**

“The bipartisan CHIPS initiative is critical for both our economy and our national security—and now we need to ensure it is fully funded,” said Rep. Greg Stanton. “When high-tech and semiconductor companies build and scale in Arizona, they add new, quality jobs and lift up our entire economy. CHIPS will help strengthen Arizona’s—and America’s—leadership in chip-technology innovations,” **said Representative Greg Stanton.**

Last month, Kelly held a call with a group of Republican and Democratic Senators and Brian Deese, chairman of the National Economic Council, to discuss the need to quickly provide full funding for the CHIPS for America Act programs included in last year’s bipartisan National Defense Authorization Act, which included key elements of the CHIPS for America Act that will bring semiconductor manufacturing jobs to Arizona.

Last year, Kelly worked to pass key elements of the CHIPS for America Act, which provides federal incentives for domestic semiconductor manufacturing designed to spur investment, and also makes investments in research and development of semiconductor technology. Sinema, a member of the Senate Commerce Committee, was an original cosponsor of the CHIPS for America Act and championed its passage into law.

Good morning Mrs. Fann.

I just finished watching the Weekly Briefing on OAN with Christina Bobb as I do every week and saw your latest interview with a few questions asked by Christina about the actual Forensic Audit the Senate has been fighting to accomplish. I was

disappointed to once again hear no concrete information about when this will be performed. This has been the same old song, the same old dance and the same old stalling by one or the other and we are all running out of time. When Superior Court Judge Timothy Thomason ordered the county to comply with the Senate subpoena, I thought that would be the end of it. But no, now we have stories published by left wing AZ Central

<https://www.azcentral.com/story/opinion/op-ed/laurieroberts/2021/03/03/arizona-senate-demands-maricopa-county-ballots-then-clueless-arrive/6907646002/> which I'm sure you are aware of and here we go again.

So I ask a simple question, when will the Arizona State Senate take possession of the 2.1 million ballots that have been boxed up, palletized and shipped somewhere and when will the true Forensic Audit be performed on these ballots once and for all ? For some reason I was under the impression that everything was in place, the Forensic Team had been hired and all you needed were the ballots and the voting machines.

Thank you for your time with this and I hope I can get a rock solid answer on this issue this week.

Respectfully
Roy Forbes
Kingman, Arizona

We would have to file court actions to do all those so we have no standing now. Our total focus is getting the Maricopa county audit done. We are now being sued by dems to stop that audit which is further wasting time and monies It's difficult with limited financial resources to defend all battlefronts at one time

GAIL GOLEC asserts legislature should send an ORDER TO 14 OTHER AZ COUNTIES to eliminate the 6-mo-destroy of IRREGULAR BALLOTS stated in AZ Law 16-624. She appeared on the Nick Moseter YOUTUBE that Mark Finchem said the 16-624 only applied to local elections, but she pointed out, the Law 16-624 does not specify that limitation. She said the legislature should take maximum precaution with an ORDER to preserve these Irregular Ballots in the remaining 14 counties ... otherwise they still could be destroyed. Other counties could interpret this law differently.

Hi Karen,

I know you are incredibly busy, however, we need your input on AZ redistricting. Patt Parker is the Regional Director and we have invited Paul Gosar to a meeting on Saturday, May 15th at 4:00 PM. We would also like to invite You as both Paul and you have an incredible amount of information that we the team probably are missing.

We could meet at Patt's home but thought if you are going to the YavGOP event that night, we might be able to meet at your home as it is around the corner from the Centennial. I don't mean to put you on the spot, if it is not possible we can meet at Patt's home in Hassayampa. It's just a lot further away.

Okay, Karen...I really appreciate your response, soon.

Thanks for holding firm on the Election Audit! :<))

Donna Tanzi
CD4 Member-At-Large
Redistricting Team for Yavapai County

PS:

Here are the six criteria needed to ensure the Arizona Statute on Redistricting is met:

1. Districts shall comply with the United States Constitution and the United States Voting Rights Act.
2. District boundaries shall respect communities of interest to the extent practicable.
4. Congressional districts shall have equal population to the extent practicable, and state legislative districts shall have equal population to the extent practicable.
5. Districts shall be geographically contact and continuous to the extent practicable.
6. To the extent possible, competitive districts should be favored where to do so would create no significant detriment of the other goals.

Here are the redistricting goals from the National Republican Redistricting Trust:

1. Constitutional Redistricting: State legislators are entrusted with the responsibility of redrawing their state's election districts by the Constitution. Districts must comply with the

Voting Rights Act, adhere to all other federal and state laws, and give every citizen an equal voice in the House of Representatives and in the state legislatures.

2. Clean Redistricting: Districts should be sufficiently compact and preserve communities of interest by respecting municipal and county boundaries. Districts should avoid combining disparate populations to the extent possible.

3. Commonsense Redistricting: Redistricting impacts all Americans and all Americans should be able to look at their district and understand why it was drawn the way it was. Districts don't need to be bizarrely shaped.

Office of the Recorder
Maricopa County, Arizona

111 North Third Avenue
Phoenix, Arizona 85004-2001
Phone: (602) 506-2543
Fax: (602) 506-2544

County Recorder - Stephen Richer

PHOENIX, AZ 85048

Dear Voter,

I am writing to inform you of a recent security incident involving your voter record. This past November, an unauthorized individual gathered voter information from our website. Our IT Security Department immediately identified the attack and successfully took steps to stop the activity.

The information acquired did not contain sensitive personal information such as social security numbers or driver's license numbers – only the information on your voter identification card, such as your name, address, political party, and voter ID. An example of your voter ID is enclosed. Importantly, the information obtained does not identify you as a protected voter and there is no way for the individual to determine your status from the information obtained.

At this time, we have no reason to believe that the unauthorized individual has shared or disclosed any of the information. The case has been passed on to the appropriate law enforcement authorities, and our office immediately put security measures into place to prevent this from occurring in the future.

If you have any questions or concerns, please contact us at 602-506-2543.

Subject: Re: Voter Canvass

Thanks Jim. It's a challenge and please know this has nothing to do with overturning an election. Polls are showing 42 per cent of all voters do not trust our elections anymore. This is a combination of wild accusations, country recorders and Secretary of States doing inappropriate things surrounding our elections and just a lot of questions about how secure the systems truly are. You are my Constituents and if you have questions someone needs to step up and give you those answers to reinstall voter confidence

COMMITTEES:
Rules, Chairman

Arizona State Senate

May 12, 2021

Maricopa Board of Supervisors
c/o Chairman Jack Sellers
301 West Jefferson Street, #10
Phoenix, Arizona 85003

Dear Chairman Sellers:

I am writing to seek your assistance and cooperation in the resolution of three (3) serious issues that have arisen in the course of the Senate's ongoing audit of the returns of the November 3, 2020 general election in Maricopa County.

I. Ongoing Non-Compliance with the Legislative Subpoenas

The first issue concerns Maricopa County's apparent intent to renege on its previous commitment to comply fully with the legislative subpoenas issued on January 13, 2021, which, as you know, Judge Thomason found were valid and enforceable.

To date, attorneys for Maricopa County have refused to produce virtual images of routers used in connection with the general election, relying on a conclusory and unsupported assertion that providing the routers would somehow "endanger the lives of law enforcement officers, their operations, or the protected health information and personal data of Maricopa County's citizens." If true, the fact that Maricopa County stores on its routers substantial quantities of citizens' and employees' highly sensitive personal information is an alarming indictment of the County's lax data security practices, rather than of the legislative subpoenas. Similarly, the County's assertion that producing the internet routers for inspection would cost up to \$6,000,000 seems at odds with Deputy County Attorney Joseph La Rue's prior representation to Audit Liaison Ken Bennett that the routers already had been disconnected from the County's network and were prepared for imminent delivery to the Senate.

Nevertheless, in an effort to resolve the dispute regarding production of the routers, we propose that agents of CyFIR, an experienced digital forensics firm and subcontractor of Cyber Ninjas, review virtual images of the relevant routers in Maricopa County facilities and in the presence of representatives of the Maricopa County Sheriff's Office. Such an arrangement would permit Maricopa County to retain custody and monitor the review of router data, while ensuring that the Senate may access the information it requires—and to which it is constitutionally entitled—to successfully complete its audit. The Senate has no interest in viewing or taking possession of any information that is unrelated to the administration of the 2020 general election.

Separately, Maricopa County has refused to provide the passwords necessary to access vote tabulation devices. Its attorneys' insistence that the County does not have custody or control of this information is belied by the County's conduct of its own audits, which, if they were as comprehensive as they purported to be, almost certainly would have entailed use of the passwords to examine the tabulation devices, and it strains credulity to posit that the County has no contractual right to obtain (*i.e.*, control of) password information from Dominion.

II. Chain of Custody and Ballot Organization Anomalies

As the audit has progressed, the Senate's contractors have become aware of apparent omissions, inconsistencies, and anomalies relating to Maricopa County's handling, organization, and storage of ballots. We hope you can assist us in understanding these issues, including specifically the following:

1. The County has not provided any chain-of-custody documentation for the ballots. Does such documentation exist, and if so, will it be produced?
2. The bags in which the ballots were stored are not sealed, although the audit team has found at the bottom of many boxes cut seals of the type that would have sealed a ballot bag. Why were these seals placed at the bottom of the boxes?
3. Batches within a box are frequently separated by only a divider without any indication of the corresponding batch numbers. In some cases, the batch dividers are missing altogether. This lack of organization has significantly complicated and delayed the audit team's ballot processing efforts. What are the County's procedures for sorting, organizing, and packaging ballot batches?
4. Most of the ballot boxes were sealed merely with regular tape and not secured by any kind of tamper-evident seal. Is that the County's customary practice for storing ballots?
5. The audit team has encountered a significant number of instances in which there is a disparity between the actual number of ballots contained in a batch and the total denoted on the pink report slip accompanying the batch. In most of these instances, the total on the pink report slip is greater than the number of ballots in the batch, although there are a few instances in which the total is lower. What are the reasons for these discrepancies? For your reference, please see several illustrative (*i.e.*, not comprehensive) examples in the table below:

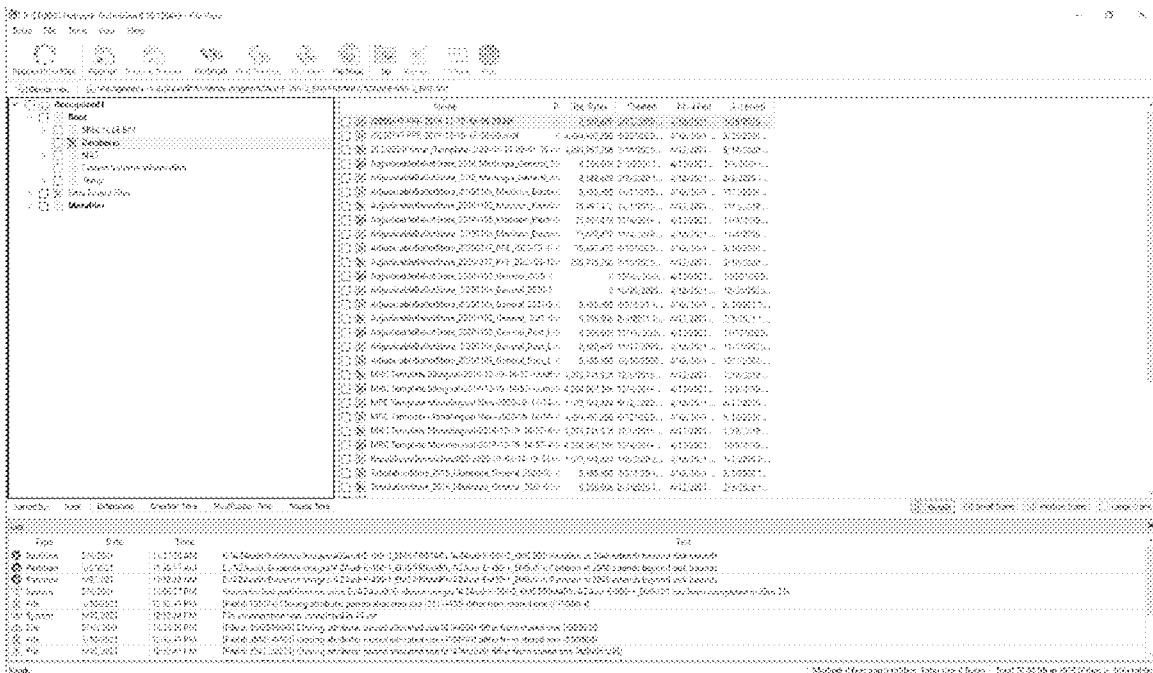

Pallet	Ballot Type	Batch	Pink Slip Total	Actual Total	Discrepancy
5	EV	2104	200	198	-2
5	EV	9276	200	165	-35
15	EV	9278	200	187	-13
15	EV	1643	200	218	18
7	EV	6359	197	187	-10

For your convenience, images of the corresponding pink report slips are attached in **Exhibit A**.

III. Deleted Databases

We have recently discovered that the entire “Database” directory from the D drive of the machine “EMSPPrimary” has been deleted. This removes election related details that appear to have been covered by the subpoena. In addition, the main database for the Election Management System (EMS) Software, “Results Tally and Reporting,” is not located anywhere on the EMSPPrimary machine, even though all of the EMS Clients reference that machine as the location of the database. This suggests that the main database for all election related data for the November 2020 General Election has been removed. Can you please advise as to why these folders were deleted, and whether there are any backups that may contain the deleted folders?

The image below shows the location of the files known to be deleted. In addition, the main database for “Results Tally and Reporting” is not present.

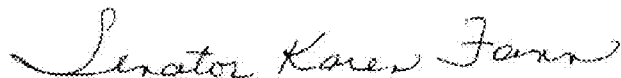

* * *

I am hopeful that we can constructively resolve these issues and questions without recourse to additional subpoenas or other compulsory process. To that end, I invite you and any other officers or employees of Maricopa County (to include officials in the Elections Department) who possess knowledge or information concerning the matters set forth above to a meeting at the Arizona State Capitol on **Tuesday, May 18, 2021 at 1:00 p.m.** in Hearing Room 109. Chairman Petersen, former Secretary Bennett and I will attend the meeting, which will be live-streamed to the public.

Please let me know at your earliest convenience whether you accept my invitation and, if so, which Maricopa County personnel will attend.

Thank you for your cooperation on these important issues of public concern.

Respectfully,

A handwritten signature in cursive script that reads "Senator Karen Fann".

Karen Fann, President
Arizona State Senate

Subject: Re: Media Inquiry: Story coming on OAN at AZ Audit

Sarah, The Arizona Senate has a contract with the vendor for \$150,000 plus costs of facilities and some of the security for a complete forensic audit.

The Vendor, Cyber Ninjas, also has contracts with three other auditing firms for various phases in their field of expertise.

Part of Cyber Ninjas proposal was to provide 24 hour live streaming and recording for full transparency and documentation. It was known ahead of time and stated by everyone interested in performing the audit would be more than \$150 k but there would grassroots organizations who would help with the costs over our contract amount. Whomever received the contract, it would be their responsibility for any additional costs over our contract amount.

The Arizona Senate as a body or any member individually has not received any monies from anyone for the audit being performed. I have asked the vendor if it would be possible for the senate to have a list of all the contributors for full transparency and was told yes, they would comply with all IRS and election disclosure laws and provide us with that information at the end of the contract.

You would have to contact the vendor for any additional information since it's outside of our contract.

With respect to the media access questions: You may want to reach out to Ken Bennett who is the Senate Liason for the current information since he is coordinating that on a daily basis. What we were informed about at the beginning of the audit, there were media people trying to shove past the security, opening locked doors for media to sneak in, zooming in on workers faces and ballots, stalking them in the parking lot when they arrived to work and a host of other issues. Our attorney and the media's attorney agreed to some basic guidelines to allow access and try to curtail some of the initial abuses.

Respectfully,
Senate President Karen Fann

On Thu, May 13, 2021 at 4:58 PM Sarah Mimms <sarah.mimms@buzzfeed.com> wrote:
Senate President Fann,

My name is Sarah Mimms and I'm an editor with BuzzFeed News. I'm currently working on a story about OAN's access to the Arizona audit — both in Christina Bobb's unique access within the coliseum (vs. the pool) and OAN's as the exclusive live streamer of the audit — while Bobb and Chanel Rion, another OAN employee, are running a 501(c)(4) group that is helping to fund the audit. I have a few questions and points of clarification:

AMERICAN
OVERSIGHT

Christina Bobb formed Voices & Votes in early April and by April 9, she announced that her group had raised at least \$150,000 for the audit and kept fundraising. On April 21, the Arizona GOP tweeted that OAN would be the exclusive live streamer of the audit. Is there any connection between an OAN correspondent raising money to fund the audit — including on OAN's air — and your decision to give them live streaming rights? What about between Bobb's fundraising and her personal access to report within the coliseum?

How much money has the audit effort received from Voices and Votes so far?

Has the Arizona Senate recouped any costs for the audit via donations from Voices and Votes?

Have you or your campaign received any funding from Voices and Votes?

Other reporters covering the audit have said that one early proposal for media access was that reporters would have to volunteer as observers for at least five six-hour shifts (that was later changed to at least one shift, I was told) and that they could not bring paper or pens with them. To be clear, their only access under this plan was as workers for the audit, they would not be permitted additional time within the coliseum to report. Is that all correct?

You can reach me by email or on my cell phone at 509-850-6687. I would appreciate a response by close of business today.

Thank you,
Sarah Mimms

You would have to contact the vendor for any additional information since it's outside of our contract.

With respect to the media access questions: You may want to reach out to Ken Bennett who is the Senate Liason for the current information since he is coordinating that on a daily basis. What we were informed about at the beginning of the audit, there were media people trying to shove past the security, opening locked doors for media to sneak in, zooming in on workers faces and ballots, stalking them in the parking lot when they arrived to work and a host of other issues. Our attorney and the media's attorney agreed to some basic guidelines to allow access and try to curtail some of the initial abuses.

Respectfully,
Senate President Karen Fann

Senate President Fann,

My name is Sarah Mimms and I'm an editor with BuzzFeed News. I'm currently working on a story about OAN's access to the Arizona audit — both in Christina Bobb's unique access within the coliseum (vs. the pool) and OAN's as the exclusive live streamer of the audit — while Bobb and Chanel Rion, another OAN employee, are running a 501(c)(4) group that is helping to fund the audit. I have a few questions and points of clarification:

Christina Bobb formed Voices & Votes in early April and by April 9, she announced that her group had raised at least \$150,000 for the audit and kept fundraising. On April 21, the Arizona GOP tweeted that OAN would be the exclusive live streamer of the audit. Is there any connection between an OAN correspondent raising money to fund the audit — including on OAN's air — and your decision to give them live streaming rights? What about between Bobb's fundraising and her personal access to report within the coliseum?

How much money has the audit effort received from Voices and Votes so far?

Has the Arizona Senate recouped any costs for the audit via donations from Voices and Votes?

Have you or your campaign received any funding from Voices and Votes?

Other reporters covering the audit have said that one early proposal for media access was that reporters would have to volunteer as observers for at least five six-hour shifts (that was later changed to at least one shift, I was told) and that they could not bring paper or pens with them. To be clear, their only access under this plan was as workers for the audit, they would not be permitted additional time within the coliseum to report. Is that all correct?

You can reach me by email or on my cell phone at 509-850-6687. I would appreciate a response by close of business today.

Thank you,
Sarah Mimms

Sarah, The Arizona Senate has a contract with the vendor for \$150,000 plus costs of facilities and some of the security for a complete forensic audit.

The Vendor, Cyber Ninjas, also has contracts with three other auditing firms for various phases in their field of expertise.

Part of Cyber Ninjas proposal was to provide 24 hour live streaming and recording for full transparency and documentation. It was known ahead of time and stated by everyone interested in performing the audit would be more than \$150 k but there would grassroots organizations who would help with the costs over our contract amount. Whomever received the contract, it would be their responsibility for any additional costs over our contract amount.

The Arizona Senate as a body or any member individually has not received any monies from anyone for the audit being performed. I have asked the vendor if it would be possible for the senate to have a list of all the contributors for full transparency and was told yes, they would comply with all IRS and election disclosure laws and provide us with that information at the end of the contract.

You would have to contact the vendor for any additional information since it's outside of our contract.

Subject: Re: Comment for Newsweek?

The Arizona Senate Audit is nothing more than ensuring election integrity. Almost half of our voters have no confidence in our electoral system for a variety of reasons. Our goal is to answer their questions, verify or prove false their concerns and re-install voter confidence.

It is the Senate's job to write the laws, make sure they are being adhered to and update those laws over time or the discovery of irregularities.

Good morning Senator Fann,

My name is Brooke Conrad, and I'm a writer/producer for Sinclair Broadcast Group's national news hub, which distributes content to 60+ local stations across the country.

I wanted to ask you for clarification on a few issues related to the Maricopa County audit. Yesterday, County Recorder Stephen Richer flatly denied that any election-related database had been deleted. I was wondering how you know that files were deleted, and what kind of information they contain that would be necessary for conducting the audit?

Richer also suggested that access to county routers and a Dominion systems password is not necessary for conducting the audit. Why does Cyber Ninjas want access to these things?

I'd be happy to speak over the phone if you prefer. You can reach me at 402-651-9305. We could also set up a Zoom call.

Thank you!
Brooke

 **American Oversight Sues Arizona Senate to**

Release Audit Records to the Public

Senate claims it doesn't have "possession, custody, or control" of key records of its own audit of Maricopa County ballots

Washington, DC – Today, nonpartisan watchdog group American Oversight sued the Arizona Senate under Arizona's public records law for failing to release documents related to the Senate's audit of the 2020 general election ballots cast in Maricopa County.

American Oversight is represented in today's lawsuit, filed in Maricopa County Superior Court, by the law firm Coppersmith Brockelman, PLC.

"If President Fann had kept her promise to run a transparent process, we wouldn't be forced to go to court today," said Austin Evers, executive director at American Oversight. "Instead, President Fann is playing a legal shell game — insisting that the audit is official state business when the Senate needs to issue subpoenas, then keeping it at arm's length to duck transparency laws."

In April, American Oversight launched an investigation of the state Senate's partisan audit of the Maricopa County ballots. Following Senate President Karen Fann's announcement that the audit team would be led by the cybersecurity firm Cyber Ninjas, American Oversight filed a suite of public records requests with the Arizona Senate for documents related to the audit. The records the watchdog requested include contracts with Cyber Ninjas, communications between members of the Senate majority and external parties, plans for securing election materials, information about costs and payments made for the audit, and scripts or other guidelines to be used by the auditors for contacting individual voters.

In the weeks since the watchdog group opened its investigation, only a handful of records have been released and local and national reporting have raised significant questions about the audit's integrity.

Notably, the Senate has not released information on how it intends to aggregate data from the audit. Nor has it released any recruitment or training materials for the presumably dozens of volunteers and employees staffing the audit.

On May 4, the Senate notified American Oversight, "(there) are no more responsive documents to provide at this time because the Senate doesn't have custody, control or possession of any of the records requested."

On May 10, American Oversight submitted a supplemental request to confirm the Senate's position, expressly seeking the following records:

- Communications between former Secretary of State Ken Bennett and any party engaged in planning or executing the audit.
- Contracts between the Senate, Cyber Ninjas, and third-party vendors.
- Records reflecting the audit's budget and any external funding it may have received.
- Plans detailing the audit's operations including security measures; chains of custody; organization charts; and investigation techniques.
- Plans and training materials for direct voter contact.

The Senate produced only a few additional records in response to that request and otherwise maintained its position that the remaining records are not in the Senate's possession and, therefore, are not public records.

“If the Senate is allowed to do this, it could mean any public body in Arizona could circumvent public records laws by using public money to hire private contractors to perform government functions and instructing those contractors to maintain sole custody of records,” said Roopali Desai, Partner at Coppersmith Brockelman. “This attempt to shield the Senate’s illegitimate investigation from public scrutiny poses a serious threat to voter privacy, civil liberties, and confidence in future elections.”

Under Arizona’s Public Records Law, any public organization or agency “expending monies provided by [the] state,” is required to maintain records of their official activities.

Given the Senate’s insistence that the audit is a “valid legislative purpose” — a view that was upheld by a judge when affirming the audit’s authority to issue subpoenas — the public has a right to any records related to the audit, including those in the possession of the Senate’s agents and contractors such as Cyber Ninjas.

Today’s lawsuit asks a judge to enforce Arizona Public Records Law by compelling the Senate to promptly produce records responsive to American Oversight’s requests.

This litigation, along with the entirety of American Oversight’s investigation, aims to provide the public with urgently needed transparency to determine if the audit is intended to return legitimate results through a secure and honest process or serve political ends.

Hi Karen,

Alexa Corse, reporter with The Wall Street Journal here. I'm writing a story about the audit restarting next week. I wanted to ask you a few questions below. My deadline is tomorrow.

1. Some critics, Democrats and some Republicans, say that Cyber Ninjas has badly mismanaged the audit. Do you think Cyber Ninjas is doing a good job?
2. What is the justification for the audit? What do you say to critics who say the audit is unnecessary and is undermining confidence in the voting system?

Thanks so much,
Alexa

Subject: Chairman Jack Sellers' Statement on New Letter to Senate, Audit Contractors

Supervisor Jack Sellers

Statement from Chairman Jack Sellers: Senate Should Preserve Evidence

It is clear the Arizona Senate and its contractors do not intend to retract false allegations defaming the County and its employees. For that reason, Maricopa County is formally requesting Senate President Fann, Senator Petersen, Senate liaison Ken Bennett, and contractors involved in the "audit" preserve documents and evidence as they may be subject to future legal claims.

[READ THE LETTER TO SENATOR FANN >](#)

It is unfortunate we have reached this point, especially considering the "audit" was never authorized by a full Senate vote. Instead, two Senators out of a total of 30 used subpoenas to obtain private ballots, voter information, and taxpayer-funded

tabulation machines, then turned all that material over to biased, out-of-state groups with little to no election auditing experience. The conclusions already drawn by these contractors and shared prior to the completion of the audit clearly intend to disparage the County and call into question the integrity of the 2020 elections.

Earlier this week, the Maricopa County Board of Supervisors, Recorder, and other county elected leaders sent a [13-page letter](#) to the Arizona Senate President providing answers to what she characterized as "three serious issues" her contractors allegedly uncovered about our vote tabulation machines and election processes. As the letter states, their "issues" demonstrate a lack of understanding of Arizona election law and best practices for running elections.

The most serious claim is that Elections officials deleted a database folder before providing it to the Cyber Ninjas. This is not true. We demanded a retraction. But Senate President Fann's letter and tweet from the official Senate audit Twitter account continues to spread the false allegation even after her own contractor admitted he found the files on the copy he made of the server.

The claim that our employees deleted election files and destroyed evidence is outrageous and baseless. I again demand an immediate retraction of any public statements made to the news media and or posted to Twitter. Since this seems unlikely to happen, I will repeat what I said at the press conference on Monday: finish your report and be prepared to defend it and your actions related to this "audit" in court.

Congress of the United States
Washington, DC 20515

May 27, 2021

The Honorable Merrick Garland
Attorney General
U.S. Department of Justice
950 Pennsylvania Avenue, NW
Washington, DC 20530

Dear Attorney General Garland,

The time has come for the government to determine whether the stranglehold large meatpackers have over the beef processing market violate our antitrust laws and principles of fair competition.

For over 100 years, the purpose of antitrust laws in our country has been to preserve the process of fair competition for the benefit of consumers. Too much market power often yields less competition and is ripe for market abuse. Yet as you know, four large meat packing companies control over 80% of the processing market in today's economy and are seemingly able to control prices at their will, or even defy expectations of market fundamentals.

In the last several years, the price of live cattle in the United States market has plummeted, while the price of boxed beef has significantly increased, raising consumer prices at the grocery store. Concurrently, the major packing companies realized significant profits, while both U.S. beef consumers and independent cattle producers paid the price. These large price disparities are leading independent cattle producers to go broke and causing consumers to pay an unnecessary, over-inflated premium on beef.

These difficulties faced by consumers and producers are not experienced by meatpackers. For example, in the past decade, there have been repeated instances in the market which demonstrates a disconnection between the price of live cattle purchased by meatpackers and the value of choice beef cutout sold by meatpackers (see chart 1; the gap between these two values is isolated and displayed in chart 3). These persistent irregularities reveal an unfairness in the producer-meatpacker relationship and possibly anticompetitive behavior in the beef industry.

One potential explanation for this disparity may be the ability of meatpackers to import beef from foreign countries, either through external sources or their own vertically integrated sources. Based on data from the United States Department of Agriculture (USDA) Global Agricultural Trade System (GATS), as the price increases for live cattle, there is a subsequent and consistent increase experienced in beef importation (see chart 2). Furthermore, the initiation of plummeting prices in the live cattle market appears to correspond almost exactly with the repeal of Mandatory Country of Origin Labeling, which demonstrates the negative impact of imports on domestic beef prices (also chart 2). These trends indicate a potential existence of collaborative price-fixing activity or other anticompetitive behavior on behalf of the largest beef meatpacking companies in the United States. These issues deserve meaningful investigation, especially given the unprecedented consolidation of this industry.

The U.S. meatpacking industry is more consolidated today, than it was in 1921 when the Packers and Stockyards Act was enacted. Four companies operate 18 of the top 20 beef slaughter facilities in the country, which constitutes 94% of this capacity. Ironically, two of the four giant domestic processors are foreign owned. In our opinion, that concentration has caused a market disconnect, resulting in tangible market manipulation that has economically disadvantaged American ranchers and ultimately, American consumers who want to buy U.S. beef at an affordable price.

As stated by Congress, the purpose of the Packers and Stockyards Act is, "*to assure fair competition and fair trade practices, to safeguard farmers and ranchers...to protect consumers...and to protect members of the livestock, meat, and poultry industries from unfair, deceptive, unjustly discriminatory and monopolistic practices....*" It is truly unfortunate that exactly 100 years later, the problem is actually worse.

In the last 30 years, there has been no major expansion of beef packing capacity in the United States. Beef packers continue to bring foreign beef into their facilities and place "Product of the U.S.A." on the final product. This is, at the very least, highly misleading and undermines the price and quality of U.S. beef. Without mandatory country of origin labeling for beef – packers are provided a federal sanction to undercut American producers and dupe American consumers.

U.S. meatpackers also take advantage of their vast resources to hold what is known in the industry as a captive supply. Through forward contracting and formula based sales, packers, collectively, can easily predict their needs many months in advance. These captive supply practices allow meatpackers to exert more control, limit competition and depress sales in the live cash market.

Additionally, legalizing the sale of state inspected meat in interstate commerce has been thwarted, forcing local producers to bottleneck their beef processing at major U.S. meat packing facilities to get the federal stamp of approval.

Arguably, every piece of beef legislation introduced before Congress is the direct result of our attempts to put a band-aid on the real issue: packer concentration.

Exactly 100 years ago, the United States saw fit to break up the packing industry because of concentration and market manipulation. Since that time, packer concentration and foreign influence has significantly grown and until the question of whether consolidation of power in the meatpacking industry has amounted to violations of our antitrust laws is fully answered, this market will continue to suffer for both the consumer and the producer.

From our perspective, the anticompetitive practices occurring in the industry today are unambiguous and either our antitrust laws are not being enforced or they are not capable of addressing the apparent oligopoly that so plainly exists. This is where we need to work together. In the past 18 months, the Department of Justice has received multiple letters raising these concerns, and collectively, we urge your department to take decisive action.

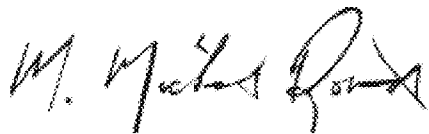

President Biden prioritizes “Buy American” policies that would benefit both consumers and producers and we believe our requests outlined here today support that mission. Unfortunately, the current situation involves multi-national meatpacking companies that continue to get fat off of the high price they impose on retailers and consumers, and the low price they set for producers.

This needs to change.

Our American ranchers work hard every day to produce the best beef in the world. They battle the wind, the rain, the snow and the sun. They shouldn't have to battle a problem their government has an obligation to fix. If we do not take action, current U.S. policies will be identified as the cause for the demise of the American rancher and American consumers will be forced to pay a higher price for a much lower quality product. The time has come to either enforce or examine our antitrust laws to restore fairness to the marketplace. American producers and consumers depend on us.

We look forward to your response.

Sincerely,

M. Michael Rounds
United States Senator

Tina Smith
United States Senator

CC: President Biden, Secretary Vilsack

Dear Ms. Fann,

I would like to take a brief moment to tell you how fortunate my family and I feel having you as one of our representatives. Grateful we are for your persistence through the horrendous events you are enduring as the truth is pursued through the Arizona audit . Though much corruption has overtaken our beautiful country; there are still plenty of us freedom loving patriots that will not be denied our rights; Constitutional and Natural.

Also, please pay timely heed to perhaps the most important joint letter ever to be circulated in Congress in the past 100 years about our broken cattle and beef markets. I have attached the Rounds-Smith letter for your purview.

I am sure you know; Arizona loves you and so does Prescott Meat Company. Stop in when you are in town; we would love to offer you a complimentary pair of the best tastings steaks in America!

God Bless,

Deedee Wright

MEAT COMPANY

Congress of the United States
Washington, DC 20515

May 27, 2021

The Honorable Merrick Garland
Attorney General
U.S. Department of Justice
950 Pennsylvania Avenue, NW
Washington, DC 20530

Dear Attorney General Garland,

The time has come for the government to determine whether the stranglehold large meatpackers have over the beef processing market violate our antitrust laws and principles of fair competition.

For over 100 years, the purpose of antitrust laws in our country has been to preserve the process of fair competition for the benefit of consumers. Too much market power often yields less competition and is ripe for market abuse. Yet as you know, four large meat packing companies control over 80% of the processing market in today's economy and are seemingly able to control prices at their will, or even defy expectations of market fundamentals.

In the last several years, the price of live cattle in the United States market has plummeted, while the price of boxed beef has significantly increased, raising consumer prices at the grocery store. Concurrently, the major packing companies realized significant profits, while both U.S. beef consumers and independent cattle producers paid the price. These large price disparities are leading independent cattle producers to go broke and causing consumers to pay an unnecessary, over-inflated premium on beef.

These difficulties faced by consumers and producers are not experienced by meatpackers. For example, in the past decade, there have been repeated instances in the market which demonstrates a disconnection between the price of live cattle purchased by meatpackers and the value of choice beef cutout sold by meatpackers (see chart 1; the gap between these two values is isolated and displayed in chart 3). These persistent irregularities reveal an unfairness in the producer-meatpacker relationship and possibly anticompetitive behavior in the beef industry.

One potential explanation for this disparity may be the ability of meatpackers to import beef from foreign countries, either through external sources or their own vertically integrated sources. Based on data from the United States Department of Agriculture (USDA) Global Agricultural Trade System (GATS), as the price increases for live cattle, there is a subsequent and consistent increase experienced in beef importation (see chart 2). Furthermore, the initiation of plummeting prices in the live cattle market appears to correspond almost exactly with the repeal of Mandatory Country of Origin Labeling, which demonstrates the negative impact of imports on domestic beef prices (also chart 2). These trends indicate a potential existence of collaborative price-fixing activity or other anticompetitive behavior on behalf of the largest beef meatpacking companies in the United States. These issues deserve meaningful investigation, especially given the unprecedented consolidation of this industry.

The U.S. meatpacking industry is more consolidated today, than it was in 1921 when the Packers and Stockyards Act was enacted. Four companies operate 18 of the top 20 beef slaughter facilities in the country, which constitutes 94% of this capacity. Ironically, two of the four giant domestic processors are foreign owned. In our opinion, that concentration has caused a market disconnect, resulting in tangible market manipulation that has economically disadvantaged American ranchers and ultimately, American consumers who want to buy U.S. beef at an affordable price.

As stated by Congress, the purpose of the Packers and Stockyards Act is, "*to assure fair competition and fair trade practices, to safeguard farmers and ranchers...to protect consumers...and to protect members of the livestock, meat, and poultry industries from unfair, deceptive, unjustly discriminatory and monopolistic practices....*" It is truly unfortunate that exactly 100 years later, the problem is actually worse.

In the last 30 years, there has been no major expansion of beef packing capacity in the United States. Beef packers continue to bring foreign beef into their facilities and place "Product of the U.S.A." on the final product. This is, at the very least, highly misleading and undermines the price and quality of U.S. beef. Without mandatory country of origin labeling for beef – packers are provided a federal sanction to undercut American producers and dupe American consumers.

U.S. meatpackers also take advantage of their vast resources to hold what is known in the industry as a captive supply. Through forward contracting and formula based sales, packers, collectively, can easily predict their needs many months in advance. These captive supply practices allow meatpackers to exert more control, limit competition and depress sales in the live cash market.

Additionally, legalizing the sale of state inspected meat in interstate commerce has been thwarted, forcing local producers to bottleneck their beef processing at major U.S. meat packing facilities to get the federal stamp of approval.

Arguably, every piece of beef legislation introduced before Congress is the direct result of our attempts to put a band-aid on the real issue: packer concentration.

Exactly 100 years ago, the United States saw fit to break up the packing industry because of concentration and market manipulation. Since that time, packer concentration and foreign influence has significantly grown and until the question of whether consolidation of power in the meatpacking industry has amounted to violations of our antitrust laws is fully answered, this market will continue to suffer for both the consumer and the producer.

From our perspective, the anticompetitive practices occurring in the industry today are unambiguous and either our antitrust laws are not being enforced or they are not capable of addressing the apparent oligopoly that so plainly exists. This is where we need to work together. In the past 18 months, the Department of Justice has received multiple letters raising these concerns, and collectively, we urge your department to take decisive action.

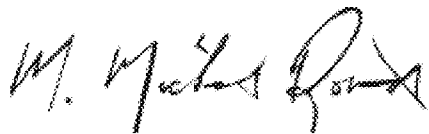

President Biden prioritizes “Buy American” policies that would benefit both consumers and producers and we believe our requests outlined here today support that mission. Unfortunately, the current situation involves multi-national meatpacking companies that continue to get fat off of the high price they impose on retailers and consumers, and the low price they set for producers.

This needs to change.

Our American ranchers work hard every day to produce the best beef in the world. They battle the wind, the rain, the snow and the sun. They shouldn't have to battle a problem their government has an obligation to fix. If we do not take action, current U.S. policies will be identified as the cause for the demise of the American rancher and American consumers will be forced to pay a higher price for a much lower quality product. The time has come to either enforce or examine our antitrust laws to restore fairness to the marketplace. American producers and consumers depend on us.

We look forward to your response.

Sincerely,

M. Michael Rounds
United States Senator

Tina Smith
United States Senator

CC: President Biden, Secretary Vilsack

Subject: Re: Senate Maricopa Audit

We have asked the dems many times to be a part of this audit. We wanted it done with the supervisors at their facilities and not have the ballots and equipment moved. The Dems have refused to participate with SOS and party chair telling their party members not to participate We are not doing another audit, once again the media is putting out false information
We are doing this audit because 45%of Az voters think there were serious problems with the election integrity and chain of custody. It is our job to answer to the voters by proving or dispelling those concerns. Nothing more ... nothing less

Subject:	Senate Maricopa Audit

Comments:

Senator Fann: I write to ask if a bipartisan Maricopa audit had been considered and if not, why not? If a second audit is in the works,* why not propose it be bipartisan? If an authentic GOP proposal is made to Dems -- an illegit offer doesn't count, it would have the merit, if accepted, of doing an audit the right way, and if not accepted, allow the GOP to blast the Dems. Unlike many Dems, I would wholeheartedly support such. The issue here for me is not the 2020 election outcome -- the then established electoral process in AZ and the US was absolutely fair -- challenges fairly considered and winners and losers fairly determined. The issue is to legitimately address strongly held ongoing concerns of a sizable minority of all voters. An authentic bipartisan audit would examine ALL allegations, with the Dem Senate Minority leader as co-chair and invitee to press conferences, in coordination with state voting officials (e.g., the SecState, BOS, Maricopa Registrar), would follow the state elections manual and AZ law, would be funded totally by available Senate funds meaning only identified donors allowed, would add to the investigation and apply the same criteria to two losing Dems, for example, Fontes and Jeanne Casteen, whose losing margins were many times smaller in Maricopa to those of Trump and McSally. Let the findings' chips fall where they may, and, based on whatever irregularities are uncovered, large or small, include recommendations to improve the electoral process and PERCEPTIONS of the electoral process. Findings in my view, (a) that would have been, would be, far more credible than the current excessively

partisan audit promises, and (b) would subdue current Dem Fraudit bashing, no matter the shortcomings that have so far been uncovered in the present audit -- some corrected, and the MANY valid questions raised about audit leaders' assertions of "transparency, security, nonpartisanship, and competency." I also support a national bipartisan commission to examine ALL allegations -- no response from Sens. Kelly and Sinema. FYI I've emailed Sens. Gray and Rios. Thank you for your consideration. T. Sonandres, AZ voter since 1983 * Arizona Republic: "The Arizona Senate, apparently not satisfied with one recount, is close to signing a deal for its second review of Maricopa County's 2020 general election ballots."

I have made inquiries for you on this and was told the only information tied to anyone's recorded vote is whether they voted or not in that election. It is public information and can be accessed by anyone as to which elections someone voted. No other identifying information is on the ballot.

Sent from my iPhone

On Jun 3, 2021, at 12:12 PM, Rubin, Olivia A. <Olivia.A.Rubin@abc.com> wrote:

Senator Fann,

I hope you are doing well. I am reaching out to you from ABC News (national) in regard to a story we are working on about the audit currently underway in Arizona, and some data privacy concerns that have been raised.

A number of experts have told us that there is valuable information located on the ballots now in the hands of a third party coming-- including as voting history and voting patterns. That would include when and how a person voted (in October and by mail, for example), and how they voted (Democrat at the top of the ticket and Republican for the rest, as another example).

There are concerns that this sort of information could be mined and handed over to political campaigns-- who would have the most use for it ahead of 2022 and 2024 elections.

Is this information something that is being collected during the audit? Or can you assure that it is being protected?

I am hoping to publish a story tomorrow afternoon. Let me know if you are available to comment/ speak by then.

Thank you very much,
Olivia

Thank you, Senator. I appreciate the effort and the quick response.

Experts have said that this information would be available down the precinct level-- not tied to the individual record. So, for example, it would be clear when/how ballots came in down the precinct level. Also, how votes went down the ballot down to the precinct level.

Is it your understanding that this would be possible?

Subject: The Deep Rig movie

Hi Mike,

It's pretty clear that Doug Logan has participated in the Deep Rig movie - although apparently anonymously. I'm hoping the Senate President can field some questions on this - specifically if she's ok with it and why the person leading her audit would be participating in a movie that has already drawn a conclusion that the election was rigged and there was widespread fraud.

For reference - <https://twitter.com/mattgalkafox10/status/1400552653231321091?s=21>

Any response is appreciated. Thanks

Matt

> Your failure to allow election auditing experts to confirm your counts as published today in the Arizona Republic confirms what many of us already knew, that this audit is simply a "grift" to continue to raise money for Republicans who are becoming a minority in our state. We all knew that when you only decided to review races Republicans lost.

>

> The fraudit you are leading is extremely dangerous in many ways. If you claim to find fraud that most of us know didn't happen, bamboo, or "kinematic artifacts" then the crazy unhinged supporters of our former orange president will take to the streets and commit violence just like they did on January 6th. They will demand he be reinstated. This will spread across the country to the rest of the tRump Cult members, and you well solely be to blame for loss of life and property that will occur as apparently you are the most powerful person in the country and the only one who can stop this or let the "Ninjas" count be verified. Way too much power for one person to have considering you only control the legislature by one vote.

>

> If by chance you and your people have a conscience and release results confirming the election, these unhinged right wing clowns with guns will still come out and be violent. See, they simply won't believe their Dear Leader tRump lost. They will never believe it, which is why you made such a huge mistake humoring them. A real leader would have told them the truth, just like you told the Maricopa BOS, that you know Biden won, but no, you gave these conspiracy nuts more power.

>

> You have done more damage to our democracy than anyone has done to our country since the Civil War. I hope before you release your biased partisan results you have all police agencies ready for the violence that will erupt from these right wing conspiracy cultists. This will all be on you.

Subject: Re: Public observation pf the audit

We had hundreds of volunteers who were part of the process (who all had to pass a background check) and the entire audit is being live streamed 24/7 for everyone to observe. As much as I would have loved for everyone to see it in person it was not possible because of security and safety. Doing background checks on everyone is expensive and the workers needed not to be distracted.

Noel. I'm so sorry but they are not doing anymore tours which were very limited anyway because of security and safety. We are having a video made of the entire process and will be glad to put that out when available and allowed.

Hi.

I was wondering if a member of the public can take a tour of the audit? I certainly would like to see it for myself so that the people can have confidence in its process as there are a lot of questions being asked about it. Thank you.

Subject: Re: ARIZONA SENATORS

This is incorrect information. We are continuing with the audit in full force. There is a lot more to all this than you may be aware of. It's disappointing to hear you attack our members when we have endured daily attacks from the liberal media and democrats for doing this audit.

Sent from my iPhone

On Jun 22, 2021, at 11:34 AM, kam arthur <kamarttx@gmail.com> wrote:

Yup exactly what we Patriots knew would happen. You are a communist rino Karen Fann!! You knew all along that you would take a break once the fraud was found. We Patriots who love this country are not finished. We will finish the audit and GET YOU OUT OF OFFICE and in prison for covering up fraud! You are all guilty and absolutely weak and disgusting demonic spirits. You find fraud with the audit and then take a break - good God it couldn't be more clear that you don't want the world to see that you are behind the fraud. ALLL of you are covering it up and there will be consequences.

Any fraud and other findings must be fully addressed by the Legislature!!

Taking an extended recess should be the only consideration. Do not adjourn!

You are NOT listening to constituents and YOU are letting the people of Arizona and the world down!!

A REAL Patriot!

On Sat, Mar 20, 2021 at 4:44 PM kam arthur <kamarttx@gmail.com> wrote:

Karen it's been almost 5 months since the fraudulent election. A hand count is not covering all bases and details... at all. You are ensuring me that all bases are being covered and ALL details are being addressed... then why isn't Jovan Pulitzer doing a kinematic audit? You have already destroyed Trump's ballots and you know this... we all know this. If any of you are really listening to constituents, like you say, then you would fight to get Jovan Pulitzer to do a kinematic audit but you know that would reveal the truth about the corruption that you are all behind. The respect that patriots once had for our state representatives has disappeared when we realized you are all rinos. You have all waited too long - just enough time for ballots to be destroyed and cover up the fraud. Why didn't any of you speak up like Marjorie Greene or Ted Cruz? Arizona is full of rinos - our governor and most of you. If you think my email is a threat then clearly, you can't handle being in the position you are in. I am a patriot who loves this state and country and we are watching it be destroyed by a fake president. It's really sick that this is happening. You must remember... you all work for us.

Also PLEASE nullify the disastrous Joe Biden's EO's. It is happening in other states who have strong representatives. You say you are listening to the constituents, then nullify the EO'S. Also, if the "hand count" is fair then it will show that Trump won this election and all of you know this.

AMERICAN
OVERSIGHT

Do the right thing to help save this state and country. The whole world is watching. We need senators who have stronger voices, please!!

Why are we still wearing ridiculous masks(that don't work) for a virus that has a 99.9% recovery rate? The virus was for the election so that they could do mail-in ballots. It's time this craziness stops. Elections are coming up and we need representatives who fight for us. We are not stupid.

God sees everything.

Subject: Re: ARIZONA SENATORS

Here is additional information. Which may answer some of your concerns

I received your email regarding the Maricopa County audit of the 2020 election and concern over a sine die motion in the Arizona Senate. I want to clarify that if the Legislature ends a session sine die, it will not impact any effort by the Senate to investigate potential findings of fraud or irregularities. The Senate President and Judiciary Chair will still call public hearings and subpoena witnesses when appropriate. In addition, if the Legislature were to recess, instead of sine die, there would be a negative impact people aren't talking about. All the quality legislation we have passed this year cannot take effect until 90 days after sine die. Important legislation such as SB 1485, to clean up our early voting list, and SB 1003, to block early ballots from being counted if they don't have a signature, or SB 1530, which ensures early ballots go to current addresses, would all sit on hold. The audit results may not be finalized for a few more months due to the continued litigation from the Board of Supervisors and Democrats. While it may seem like a good idea to delay the end of the session until the audit is complete, the consequences of postponing good legislation would be more detrimental.

Subject: Re: Request for Comment

I really do not remember when their name first came up. When we started the process it was a matter of making calls starting with people in other states who were already talking about audits, contacting the FEC and doing some on line research. The firms we spoke with confirmed they did not do full audits but some were experienced to do specific parts of an audit. For every contact I made, I asked them if they could recommend other companies or individuals who where experienced in this field. It was part of this process that Doug Logan's name came up along with many other referrals. I was told Mr Logan was the gentleman working with the issues in Atrium County and Fulton County.

Mr. Logan confirmed everything we had heard from others and said he would be glad to put together a proposal for a forensic audit by building a team of experts and experienced firms to performed the various phases.

Thank you Sen. Fann.

Two more - how did you first hear of Cyber Ninjas? (an AP story says that you "doesn't remember how she heard of them). And why did the Senate opt to use them over firms with more auditing experience?

Thank you,
Zack

On Fri, Jul 16, 2021 at 12:25 PM Karen Fann <KFann@azleg.gov> wrote:

Good morning Zack. One of my first calls was to the FEC to get a list of certified election auditors. According to the FEC, there are no "certified forensic election auditors". The FEC on authorizes a few firms to certify the machines before and after an election. This is where the Board of Supervisors are being coy with the public. The know there are no certified auditors and they also know the two companies they hired are only authorized to certify the machines. So while they say they have performed two audits, that is a misstatement to say the least. It is my understanding the two firms they hired was Pro V & V and SLI.

Regards, Senator Fann

LINCOLN REPUBLICAN WOMEN

**The Honorable Karen Fann, President
2021**

28 January

Arizona State Senate

1700 West Washington St.

Capitol Complex

Phoenix, Az 85007

Dear President Fann,

The Lincoln Republican Women's Club applaud you on the great work you are doing on behalf of the people of Arizona. Especially on the strong stand you have taken in the fight for **Election Integrity**. Your success, just today, of getting an audit for the Maricopa election results is most impressive.

We join you in being very concerned on this issue and would be honored if you could come to our March 1st meeting and speak to us on that subject, as well as on the Agenda that will come before the Senate this year.

March 1st kicks off **Women's History Month** and we want to celebrate our outstanding Arizona Republican women leaders on that day and we certainly would like to celebrate you, as the President of the Arizona Senate.

Our Meeting is being held on **Monday, March 1, at 5:30** at The McCormick Scottsdale Resort, 7401 N. Scottsdale Rd. in Scottsdale. (480-948-5050). We have a short social time starting at 5:30 with the meeting and speaker at 6:00, followed by dinner. (about a 20 minute speech-with about 10 to 15 minutes for questions). We have a lot of questions for you!

Hopefully, you will be able to join us for an evening of lively discussion and celebration.

If you have any questions, give us a call at 480-998-9886 or (cell) 480-652-3720.

We look forward to hearing from you.

Thank you for being such a great representative of Arizona Women,

BettyBitterman

Mentioned below are the links to the latest edition of ARIZONA TODAY. I discuss briefly (more to follow) the agreement made by the Maricopa County, Arizona Board of Supervisors and the Arizona Senate, to conduct a full and complete forensic evaluation on all machines and ballots associated with the November election. I also share some personal thoughts. Thank you so very, very much for your warm remarks and words of support and encouragement. Thank you so very, very much for your prayers. Thank you for caring in the first-place about what has occurred in plain sight to our election, and to reshape our Nation into something it was never intended to become!

Comments:

Ms. Fann, I would like you to read this article. LET THIS SINK IN FOR A BIT Iâ€™m very concerned with not only the censorship but also to have these leftist come after someone because of their differences. This is a very scary situation for me and my family. We elect our REPUBLICAN REPRESENTATIVES to put up a fight when things get tough. How did we get here? I will tell you how we got here. This election was a fraud and a scam. The senate had people come in and demonstrate how this fraud happen. Some spineless republicans decided not to fight and allow this election to be stolen. 1. There were 1 million people vote in 2016 election and this 2020 election 3.4 million vote 2.4 more votes. Again think about it 2.4 MILLION VOTES 2. Republicans have 130 thousand more republican voters then democrats. 3. We picked up seats in the house and lost none. Ga. was a joke for the senate race. If grade school students watched the Georgia video, they to would say fraud happened. The math is there. Only if some representatives believed the fraud happened and took a steadfast approach, we would not be reading this kind of article. I pray this article is a eye opener for you and the other appointed representatives. Know what Arizona republicans are up against. Though itâ€™s after the election and legislators are working for an audit. I need a full audit, every ballot audited. I was told legislators are looking into a independent company, but we also need Jovan Pultzzer there. It wouldnâ€™t hurt for a real expert to assist and be there as well. Please fight the fight. We will lose to these elites, big tech etc., they donâ€™t care about me mush less you. Thank you Stephanie <https://www.thegatewaypundit.com/2021/01/purge-reeducation/>

Good Morning Karen

I am fed up! All the promises of getting to the bottom of the absolute voter fraud perpetrated in this state.....and NOTHING. Now the Maricopa BoS wants to choose who they desire to do the Forensic Audit. As I am sure, many have suggested NON PARTISAN Jovan Pulitzer and I am sure that Rudy Giuliani can connect you with Col. Waldron. Just what is everyone afraid of? Most Republicans in this state know that Gov. Ducey signed a fraudulent certification. He may be a very nice person, but, bottom line he put himself first and his country last. The Maricopa BoS may all be good men that you have known for years, but they are hiding something, or they would have been totally on board for an audit – for the good of the country. ALL of you may HATE President Trump, but he is the legally voted in President of the USA – the Biden Regime is a fake, put in place by a cyber coup from foreign enemies – this is fact from the NSA, not a conspiracy theory. So may I suggest that ALL of you get on board with the majority of the electorate, who are mad as hell. Communicate with all members of leadership of Republicans in this state (suggesting Kelly Ward), so that everyone is on the same page legally and quit using her enthusiasm as a way to slow walk this audit.

You really could do something good for this country using the Writ of Quo Warranta. You really could have a “come to Jesus talk” with Gov. Ducey to redeem his actions and back a forensic audit – yes, what he did was against the law and there would be consequences – but he could be encouraged to man up. It is common knowledge that he wanted to “move up” in the party. Well, that party is the party of RINOS (yes, McCain, Flake) and no true conservative will ever vote for a RINO and hold our noses again (IF there is ever another election), moving up options are getting pretty slim.

You would really help yourself, AZ and the country to put aside your personal feelings as to the question of whether there was fraud or not and PUSH HARD for a paper ballot and machine forensic audit. The Biden Regime has created havoc world wide in the 72 hours of his occupation. This country will NEVER have another clean election until this political mess is resolved. Heck, we will never have another election because we will be under the thumb of China, Iran and Russia – how will that feel to know you were a part of the evil that killed our country? It has taken a long time for conservatives to wake up –slowly but surely we have, but too late it seems, because we have no leaders who actually are leaders, they just like the titles and perks. That is WHY we voted for Donald J Trump – he is a fighter for the American People and our Nation.

AMERICAN
OVERSIGHT

Step up to the plate!!!
Sincerely,
Deb Bryan (Prescott, AZ)

Message: I am reaching out in regards to the election fraud. I realize you are not my representative in Arizona (I am from Michigan), but you actually are representing republicans nationwide in this case. It's a very heavy burden, I'm sure. The leaders of our party don't seem to be understanding the enormity of this problem. Whatever organization is hired to do this audit, MUST be witnessed by Jovan Politzer or Phil Waldron, if not both. Additionally, this should be done on camera.

Transparency is a word that gets too overused, but it is imperative in this case.

I fear the leaders of our great party do not understand the enormity of what is happening here. I personally will never contribute again through the RNC or WinRed. Ever. Voting itself is in question.

I preached my entire adult life to anyone who would listen how important it is to vote.

If this isn't fixed & transparent, I will never be able to preach again. I am only one of millions.

Thank you for hearing me and Godspeed!!

Message: Senator Fann,

I wanted to reach out to you and hope that you would have the courage to stand up to Maricopa County board of electors and actually allow Jovan Hutton Pulitzer to review all of the ballots in that county. In addition a complete investigation and actually putting people in Jail for buying votes in your state. All it would take is one state to uncover the truth about the 2020 election and the rest of the states will be exposed and fall. Arizona was pivotal to the 2020 election and having the courage to stand up to the establishment you will allow for true free and fair elections going forward. In addition the actual voting machines need to have white hat hackers review and analyze them. If they are found to be flawed then I would hope that the legislature would ban their use and hat company in all future elections.

Here is a link in case you are not familiar with Mr. Pulitzer's work:

<https://www.worldtribune.com/here-is-jovan-pulitzers-election-fraud-investigation-report-the-u-s-congress-was-not-interested/>

Please stand up to the establishment and have the courage to save our republic.

Sincerely

Mike Kline

Message: Senator,

I am writing you today because I believe the integrity of my vote and others votes were compromised in this recent Presidential election.

I have spent many weeks,days,and hours patiently

listening to the sworn testimonies of American citizens,here and across this country. I have done my part to be non biased and open minded about each and everyone's claims in this matter. I have come to my conclusion that there has in deed been an unbelievable amount of suspicious and fraudulent activity ongoing in this election process.

I am humbling demanding that the following individuals represent myself and the legal voting citizens of Arizona to audit the upcoming Maricopa county vote.

Col. Phil Waldron and Jovan Pulitzer

I am also requesting that it be a full forensic audit so that they can determine that there was NO fraudulent activity what so ever. That our votes were recorded fairly,honestly and awarded to the correct candidates.

Thank you,
Dave Martens

Yup exactly what we Patriots knew would happen. You are a communist rino Karen Fann!! You knew all along that you would take a break once the fraud was found. We Patriots who love this country are not finished. We will finish the audit and GET YOU OUT OF OFFICE and in prison for covering up fraud! You are all guilty and absolutely weak and disgusting demonic spirits. You find fraud with the audit and then take a break - good God it couldn't be more clear that you don't want the world to see that you are behind the fraud. ALLL of you are covering it up and there will be consequences.

Any fraud and other findings must be fully addressed by the Legislature!!

Taking an extended recess should be the only consideration. Do not adjourn!

You are NOT listening to constituents and YOU are letting the people of Arizona and the world down!!

A REAL Patriot!

On Sat, Mar 20, 2021 at 4:44 PM kam arthur <kamarttx@gmail.com> wrote:

Karen it's been almost 5 months since the fraudulent election. A hand count is not covering all bases and details... at all. You are ensuring me that all bases are being covered and ALL details are being addressed... then why isn't Jovan Pulitzer doing a kinematic audit? You have already destroyed Trump's ballots and you know this... we all know this. If any of you are really listening to constituents, like you say, then you would fight to get Jovan Pulitzer to do a kinematic audit but you know that would reveal the truth about the corruption that you are all behind. The respect that patriots once had for our state representatives has disappeared when we realized you are all rinos. You have all waited too long - just enough time for ballots to be destroyed and cover up the fraud. Why didn't any of you speak up like Marjorie Greene or Ted Cruz? Arizona is full of rinos - our governor and most of you. If you think my email is a threat then clearly, you can't handle being in the position you are in. I am a patriot who loves this state and country and we are watching it be destroyed by a fake president. It's really sick that this is happening. You must remember... you all work for us.

Also PLEASE nullify the disastrous Joe Biden's EO's. It is happening in other states who have strong representatives. You say you are listening to the constituents, then nullify the EO'S. Also, if the "hand count" is fair then it will show that Trump won this election and all of you know this.

Do the right thing to help save this state and country. The whole world is watching. We need senators who have stronger voices, please!!

AMERICAN
OVERSIGHT

Why are we still wearing ridiculous masks(that don't work) for a virus that has a 99.9% recovery rate? The virus was for the election so that they could do mail-in ballots. It's time this craziness stops. Elections are coming up and we need representatives who fight for us. We are not stupid.

God sees everything.

Subject: Re: ARIZONA SENATORS

Here is additional information. Which may answer some of your concerns

I received your email regarding the Maricopa County audit of the 2020 election and concern over a sine die motion in the Arizona Senate. I want to clarify that if the Legislature ends a session sine die, it will not impact any effort by the Senate to investigate potential findings of fraud or irregularities. The Senate President and Judiciary Chair will still call public hearings and subpoena witnesses when appropriate. In addition, if the Legislature were to recess, instead of sine die, there would be a negative impact people aren't talking about. All the quality legislation we have passed this year cannot take effect until 90 days after sine die. Important legislation such as SB 1485, to clean up our early voting list, and SB 1003, to block early ballots from being counted if they don't have a signature, or SB 1530, which ensures early ballots go to current addresses, would all sit on hold. The audit results may not be finalized for a few more months due to the continued litigation from the Board of Supervisors and Democrats. While it may seem like a good idea to delay the end of the session until the audit is complete, the consequences of postponing good legislation would be more detrimental.

What in Gods name is going on???? Why are you behaving as tho Patriots in America don't care??? GIVE US THE INFO! GIVE US THE RESULTS!! We are getting MAD! At least tell us.....WHEN!! This is cruel.....evil.....wrong....unjust.....and YOU....are responsible!!!! GIVE US THE RESULTS of the AUDIT WE PAID FOR..... And what AZ Patriots worked for WEEKS to accomplish!!!!!!!!!!

WE ARE WAITING!!!!!! Patience is running thin.

Subject: Re: Media inquiry

Jack , We have concern about this latest attack on the audit and the allegations they can't "certify or prove" the machines were not tampered with during the audit process . If their experts can't prove the machines have not been tampered with , then how does the SOS or County Elections certify the machines before every audit to make sure the machines haven't been tampered with ?

Also remember we asked numerous times for this audit to be performed jointly with Maricopa County, at their facility, selecting a mutual auditor, and did not want the ballots or machines moved from their facilities. Maricopa County refused, loaded up pallets of ballots on a truck , sent pictures out to the media with the statement "where do you want them delivered "

Hello,

My name is Natalie Mooney, a producer for OAN's newest show "The Real Story" with former Trump Advisory Board Member, Natalie Harp.

I wanted to reach out to see if it is possible to book you for the show tomorrow at 1:25 pm PST. Topic will be the Maricopa Audit.

The appearances could be conducted through Skype or through one of our bureaus in San Diego, Washington D.C., and New York City.

Please let me know if you are available. We would absolutely love to have you!

Best,

Natalie Mooney

Subject: Re: War Room Audit twitter account -- hating on someones dog who previously died

Tom. The Arizona audit has no connection with this Twitter account you are referring to. I'm not even sure who is the actual person that put up this account but I agree no one should make fun of anything tragic

Sent from my iPhone

On Jul 16, 2021, at 8:56 PM, Tom <tom_n_phx@yahoo.com> wrote:

Hello,

I am a resident of Arizona, I live in Tempe. Although I don't agree with the audit at all, my complaint is about the actions of your Twitter account @AuditWarRoom. Tonight, I am absolutely shocked to learn that the Twitter feed is actually making fun of someones dog who recently died -- I guess whoever is running this account sifted through this poor persons account to find pictures of his dog that passed away and posted them on YOUR official twitter account apparently as a joke. I don't enjoy the constant digs on the press but at least that doesn't seem beyond the pale like THIS one is.

Whether or not you agree or disagree with the audit, the behavior of the people behind this Twitter is in shockingly bad taste. For the sake of all of us Arizonans YOU NEED TO DO SOMETHING ABOUT THIS IMMEDIATELY. Not only is this reprehensible and disgusting but I would imagine (although I am not a lawyer) you are subjecting yourself, and the State to significant legal liability.

TAKE ACTION NOW!!

Sincerely,

Tom Markham

Subject: Re: Keep up Your Great Work

The audit will definitely be made public. The judge is ruling on a freedom of information act. The senate has already complied with a dozen or more requests producing thousands of documents Everything I have. The Democrat attorneys are asking for all the personal emails , texts and documents between the auditor and his subcontractors and clients. These are transactions between private individuals and between two private companies. I do not have these records so I can't produce something we don't have Everything the auditors are producing for the audit is the property of the taxpayers and will be made public

Dear Senator Fann,

It's Doug McPheters again, here in Prescott Valley.

I certainly don't expect you to answer this message in writing but I'm dying to ask you the following question in person. Apparently a judge decided the results of the forensic audit must be made public in response to the Senate's suit to keep those results private (sorry if any of this is inaccurate but I've not read either of opinion); was it your initial strategy to back the opposition into a corner by having results of the audit made fully public after your good work is finally done, so no one will have any grounds to complain that the Senate hasn't, at the end of the day, been fully transparent?

Best personal regards,

Doug

Hi Senator Fann,

I was wondering if you could clarify something related to yesterday's hearing. Mr. Cotton maintained that some election files had been "deleted" and said that he was able to "recover" them. CNN reported on this by saying auditors "backtracked" claims that a database had been deleted, "admitting" that "they'd been looking the wrong way." Would you say this is an accurate portrayal of the situation, or of Mr. Cotton's comments? Did Mr. Cotton discover where the database was located as a result of information contained in the Board of Supervisors' May 17th letter?

If you have any contact information for Mr. Cotton that you are permitted to share, I would appreciate it!

Thank you,
Brooke

Good morning Senator Fann,

My name is Brooke Conrad, and I'm a writer/producer for Sinclair Broadcast Group's national news hub, which distributes content to 60+ local stations across the country.

I wanted to ask you for clarification on a few issues related to the Maricopa County audit. Yesterday, County Recorder Stephen Richer flatly denied that any election-related database had been deleted. I was wondering how you know that files were deleted, and what kind of information they contain that would be necessary for conducting the audit?

Richer also suggested that access to county routers and a Dominion systems password is not necessary for conducting the audit. Why does Cyber Ninjas want access to these things?

I'd be happy to speak over the phone if you prefer. You can reach me at 402-651-9305. We could also set up a Zoom call.

Thank you!
Brooke

The file was deleted but Cyfir was able to recover it from other areas. But yes , the file had been deleted on that portion of the drive Are you following the Maricopa audit tweet ? I believe Cyfir put out a statement clarifying what he said

Hi Sen. Fann,

I believe we have most of that info, if you are referring to why you all have said you wanted the audit, your subpoenas, the county taking you to court, the court siding with you, the audit itself, the Democrats attempt to stop it, the judge ruling against them, the settlement agreement, and the latest back-and-forth concerning routers, passwords, the database, and other issues.

If there's something you believe we have missed in our coverage, please let us know. If there's something you think we should be aware of we may not be, please let me know. Additionally, we would love to do an interview with you at some point (maybe Monday or Tuesday next week?). We aim to be nonpartisan and try to avoid the slanting you referenced that is often seen in the media nowadays.

Thank you,
Zack

Hi Everyone!

Reaching out from the office of John Solomon with Just the News.

We're really hoping to have Karen Fann on John's podcast next week to discuss the AZ election audit and also the potential effects that this will play out with other state's looking into their voting process.

John's podcast currently has over 8M listeners and it's broadcast on several different platforms. A print article piece will also be posted on justthenews.com which has a monthly viewership of 25M.

The interview would be about 20 minutes and be conducted over the phone.

Would she be available any day this week? (M-F) (5/24-5/28)

We would love to get her on Monday, if possible!

We can record anytime between 10 am- 3 pm ET.

Thank you!

Zack, This is the first I've heard of this but does not surprise me. The Democrats have been trying every avenue they can to stop or discredit this audit. I'm sure this will be one of many avenues they will pursue post audit as well. What disturbs me more than anything is the fact that according to recent polls, 40 to 50 % of voters believe there are serious problems or "serious fraud" in our electoral system and none of these entities think it's important enough for them to do an audit to answer all our citizens concerns or questions.

Subject: Re: Comment for Newsweek?

Jason. The Senate has authorized a contract for a full forensic audit to be performed on the Maricopa County 2020 elections. According to a recent poll, we have 45% of our constituents who believe there are serious concerns or fraud during this last election. It is our job to pass legislation, ensure the laws are working or update them as needed. The Senate works for our constituents and it is our job to either prove or disprove their concerns to ensure election integrity.

When the audit is complete there will be plenty of time for "experts" to agree or disagree with the findings. Until that time, it is inappropriate to interfere with the ongoing audit.

Respectfully
Senator Fann

Jack , We have concern about this latest attack on the audit and the allegations they can't "certify or prove " the machines were not tampered with during the audit process . If their experts can't prove the machines have not been tampered with , then how does the SOS or County Elections certify the machines before every audit to make sure the machines haven't been tampered with ?

Also remember we asked numerous times for this audit to be performed jointly with Maricopa County, at their facility, selecting a mutual auditor, and did not want the ballots or machines moved from their facilities. Maricopa County refused, loaded up pallets of ballots on a truck , sent pictures out to the media with the statement "where do you want them delivered "

Jack, The Arizona Senate has extended our contract with the State Fairgrounds for two weeks at the Wesley Bolin building. Our vendor is finishing the aggregation process which is double and triple checking the tallies of the hand counts, spreadsheet, tally sheets, image scanning etc. This is a critical step to ensure the tallies can be accurately verified which will give us a path forward in completing the audit. We are still waiting for the Maricopa County Supervisors to provide us with the missing items on the original subpoena as ordered by the court.

Subject: Re: Comment for Newsweek?

Maricopa County is being disingenuous in their statements. According to the FEC, there are no certified election auditors... only a few companies authorized to certify the machines. From the day of the election we have asked them to work with us, at their facilities, to jointly perform a full audit to address the concerns of our voters about election integrity. Instead of working with us, they have done everything in their power to derail the audit by withholding items they were required to provide by a lawful subpoena and confirmed by the courts. We do not understand why Maricopa County is fighting this audit so hard. It's their electoral system. We would think they would want to know that everything is operating as it should.

I really do not remember when their name first came up. When we started the process it was a matter of making calls starting with people in other states who were already talking about audits, contacting the FEC and doing some on line research. The firms we spoke with confirmed they did not do full audits but some were experienced to do specific parts of an audit. For every contact I made, I asked them if they could recommend other companies or individuals who where experienced in this field. It was part of this process that Doug Logan's name came up along with many other referrals. I was told Mr Logan was the gentleman working with the issues in Atrium County and Fulton County.

Mr. Logan confirmed everything we had heard from others and said he would be glad to put together a proposal for a forensic audit by building a team of experts and experienced firms to performed the various phases.

Thank you Sen. Fann.

Two more - how did you first hear of Cyber Ninjas? (an AP story says that you "doesn't remember how she heard of them). And why did the Senate opt to use them over firms with more auditing experience?

Thank you,
Zack

On Fri, Jul 16, 2021 at 12:25 PM Karen Fann <KFann@azleg.gov> wrote:

Good morning Zack. One of my first calls was to the FEC to get a list of certified election auditors. According to the FEC, there are no "certified forensic election auditors". The FEC on authorizes a few firms to certify the machines before and after an election. This is where the Board of Supervisors are being coy with the public. The know there are no certified auditors and they also know the two companies they hired are only authorized to certify the machines. So while they say they have performed two audits, that is a misstatement to say the least. It is my understanding the two firms they hired was Pro V & V and SLI.

Subject: RE: Clyde and Bess Foster Roger And Betty Johnson.

Patrick, I hope this email finds you well. I truly am disappointed in this email. First you should realize the audit has nothing to do with Trump or anyone else. In Arizona, polling shows 45% of Arizona voters believe there were serious problems or serious fraud in this last election. As your Senator, I believe my constituents have the right to answers to their questions and concerns. From the beginning, I have never claimed fraud or anything of that nature. From the beginning I have said this is only about election integrity. As a Senate body, we pass election laws, ensure they are being followed and pass new legislation as needed to solve issues. We are doing our job and nothing more. Lastly to use my grandparents and Aunt as a "way to get back at me" and to actually infer that Jesus will not accept me into heaven, then I have to question your Christian heart. God knows I am a Cristian and I strive to be a good person so I have no doubt of his love and acceptance of me. If you truly remember my grandparents, Aunt and father, you would know they are in heaven looking down with strong approval of me standing up for the rights of ALL our voters and citizens. It is because of my upbringing by their code of morals, standards and honesty which has given me the courage to stand up and do the right thing.

Hi Karen. Patrick Johnson here Roger Johnson's son and Betty Schuster's step son. I'm so disappointed in your actions as a state official. Nana, Grandpa Clyde and Ollie would not approve of your actions from this fraud audit to your hate of people not like yourself. Please when you say your conservative parents upbringing that makes me vomit. Remember Bess told Betty everything going on in your family. Jesus will not accept you into Heaven for sure. Patrick Johnson.

Subject: Extra Mail In Ballot

Hi,

Thank you for working on getting this audit done. My husband and I have received the mail-in ballots for a number of years now for elections. This year was unusual. We received the normal ones, filled them out and mailed them back. A week or so later, we received 2 more mail-in ballots for voting. We didn't know why and had no idea who had sent them. We threw them away. If this happened to everyone, no wonder the mail in ballots are so screwed up. Just saying. We wish we knew if our votes were counted for Trump or if they got changed to Biden. You have our permission to check if you wish. Karen and Gerardo Vega, 4909 E. Fairfield St., Mesa, AZ 85205. Let me know if you need anything from us. Thank you.

Hello this is Trevor Reedy. I was a resident and registered independant voter in Maricopa County during the 2020 elections. After watching your update on the Maricopa County audit yesterday I realized that I still have my mail in ballot. I have been on the early voting list for years but last year I decided to vote in person from the Queen Creek location on voting day. Which as a side note, the Queen Creek voting center only provided black sharpies to fill out the ballots and the ballot that they printed and provided to me on site after verifying my ID was of a different paper stock and thickness than my mail in ballot. Not sure why I remember that but it stood out to me at the time.

I would be happy to provide my original mail in ballot or answer further questions if it helps with the audit process. I would be more than happy to sign an affidavit with my statements if necessary. Please feel free to contact me via this email or by phone at 6024480626

To Whom it May Concern:

RE: State of Arizona, Maricopa County – Possible Fraud Found in Voting System Data

Note: Please see attached actual data from the State of Arizona, Maricopa County election database verifying an upswing in the registered and turn out count for just the presidential, congressional, and senate race. This change to the database could have been done to accommodate the addition of falsified votes to the overall count.

On Saturday 11/8/2020, out of curiosity, I went to the State of Arizona Maricopa County Elections Department website at <https://recorder.maricopa.gov/electionresults><<https://recorder.maricopa.gov/electionresults/>> to see if there were any updates on the progress related to the presidential count.

I noticed on the website that they provided a ‘full dump’ of election data which, by way of making this available, was a wise decision on behalf of our legislators. As a career and curious database administrator, I decided to download it. The file consists of 27MB of data and included 155,022 records detailed by candidate and precinct. After loading this data into a database known as Microsoft SQL Server and analyzing the data, I believe I found what is an attempt to commit voter count fraud by those managing the count for the State of Arizona or by those that would have administrative access (adding, changing, deleting) to the database.

1. Although the file includes a cumulative count for each record of registered and turnout voters by precinct, it is only the national candidates in the records and for this precinct segmented as ‘TRUMP / PENCE’, ‘BIDEN / HARRIS’, ‘GILES, DAVE’, ‘STANTON, GREG’, ‘MCSALLY, MARTHA’, and ‘KELLY, MARK’ where the numbers increased or differ from other candidates, propositions, etc.

2. Since this file has a primary key or what’s known as an id (PrecinctId), it is extremely unlikely that this cumulative number within each record should or could, from a programming perspective (SQL – Structured Query Language), deviate from all others unless it was manually adjusted to suit a purpose within a subsequent reporting mechanism. In other words, the key for the precinct provided below is 27 and the registered and turnout voter count would have been joined from the precinct file key with what should be a consistent cumulative number for all 155,022 records in the result. In the data provided below for the precinct known as 0027 ARCADIA, the candidates, for example the ‘County Attorney,’ show the same number as the other candidates, propositions, etc., whereas the number of registered and turnout voters for the presidency has been changed to reflect a higher overall count. This, from my experience, is a typical example of what’s known as ‘fudging the numbers’, in this case, increasing the registered and turnout count to allow for a manually adjusted increase in votes without it appearing null or suspicious.

3. This is not to be confused with undervotes or overvotes. That number has, of course, nothing to do with the number of registered and turnout voters.

4. From a non-technical standpoint, it is questionable as to why the number of registered voters and those that

AMERICAN
OVERSIGHT

turned out count would differ from those on the same ballot or polling place voting for a County Attorney, State representative, Sheriff, etc. if not to provide an avenue to fudge the number of votes for the national presidential, congressional, and senate races. The data itself provides no reasoning for the discrepancy. Although the attached is just a tiny slice of the overall count, in total, why does the county-wide count show that more voters turned out and are registered to vote for the President than that have turned out to legalize marijuana? I heard recently that a possible answer is that you have to increase the common denominator to add more votes needed.

Because of what I found, I am in the process of analyzing the data for all of Maricopa County and for all of the State of Arizona if that data is made available to me by each county's respective website. In my opinion, which includes a great deal of database and auditing experience, a full audit of this data against its physical counterpart (people/paper) is warranted. If you have any questions, please feel free to contact me at (602) 474-6563.

Sincerely,

Mark Ebling

Dear President Fann and Speaker Bowers,

The Attorney General's Office has received multiple legislative inquiries and questions concerning the manual hand count audits conducted by counties, specifically as they pertain to voting centers.

See the attached letter, which will be followed by a future formal opinion. Please feel free to share with members who have voiced similar questions.

Thank you and please let me know if you have any questions.

Josh Kredit
Deputy Attorney General for Law & Policy

MARK BRNOVICH
ATTORNEY GENERAL

OFFICE OF THE ATTORNEY GENERAL
STATE OF ARIZONA

November 12, 2020

The Honorable Karen Fann
President of the Senate
Arizona State Senate
1700 West Washington Street
Phoenix, Arizona 85007

The Honorable Russell Bowers
Speaker of the House
Arizona House of Representatives
1700 West Washington Street
Phoenix, Arizona 85007

Dear President Fann and Speaker Bowers:

The Arizona Attorney General's Office has received a number of inquiries regarding the scope and nature of the manual hand count audit required under A.R.S. § 16-602(B), in light of Maricopa County's use of voting centers during the November 3, 2020 general election. We offer our initial thoughts on this question, which will be analyzed in a formal opinion to follow in due course.

Arizona law has long required each county officer in charge of elections to conduct a post-election hand count audit of a certain percentage (currently at least two percent) of ballots cast on election day. *See* A.R.S. § 16-602(B). In 2011, the Arizona Legislature authorized the use of voting centers for voters to cast ballots. *See* A.R.S. § 16-411(B)(4) ("On a specific resolution of the board, the board may authorize the use of voting centers *in place of* or in addition to specifically designated polling places.") (emphasis added). Thus, the law provides that voting centers can replace or supplement precincts.

The Legislature correctly recognized that it could not predict all of the variations between voting centers and precincts that counties might adopt. Instead, the Legislature directed the Secretary of State to do so through the Election Procedures Manual ("EPM"), which is approved by the Governor and Attorney General. Specifically, the law provides that "[t]he hand count shall be conducted as prescribed by this section and in accordance with hand count procedures established by the secretary of state in the official

The Honorable Karen Fann
The Honorable Russell Bowers
November 12, 2020
Page 2 of 2

instructions and procedures manual adopted pursuant to section 16-452.” See A.R.S. § 16-602(B).

This is not a new procedure. Since 2012, versions of the EPM drafted by Secretaries of State Ken Bennett, Michele Reagan and Katie Hobbs have addressed voting centers with respect to the hand count audit procedure. Two versions of those manuals were approved by Governors Brewer and Ducey and Attorneys General Horne and Brnovich. The most current version of the EPM provides that “[i]n counties that utilize vote centers, each vote center is considered to be a precinct/polling location and the officer in charge of elections must conduct a hand count of regular ballots from at least 2% of the vote centers, or 2 vote centers, whichever is greater.” EPM, Chapter 11, § III(A) (2019).

Some have asserted that the audit should be conducted only using precincts because the statute mentions precincts despite the language in the EPM. The statute, however, is silent on how the hand count audit should be conducted when voting centers are used. Instead, the statute directs the Secretary of State to fill in that gap and establish additional hand count procedures with the approval of the Governor and Attorney General, which was done in 2019. In those counties that use voting centers, the practical effect of a hand count audit based only on precincts could result in no ballots being counted because no ballots would have been cast using tabulating machines at precincts. We do not believe the Legislature intended this result.

The Attorney General believes strongly in the importance of election integrity, including a hand count audit to ensure that all tabulating machines utilized at voting centers were functioning properly. This is why the Attorney General’s Office suggested to the Maricopa County Board of Supervisors on November 4, 2020, that it consider increasing the percentage of ballots audited from two to five percent. Although not required, it is certainly permitted and may help alleviate much of the concern that has been expressed in the past week about the integrity of the vote tabulation process.

Thank you for the opportunity to update you on our efforts with regard to this very important election integrity matter.

Sincerely,

Joseph Kanefield

Mark and Vince.

Until this month when my term ended, I was on the Pima County Election Integrity Commission as an appointee of Ally Miller. I also witnessed the Secretary of State Logic and Accuracy test and performed the political party Logic and Accuracy test of the tabulation machines for the Pima GOP for both the 2020 Primary and 2020 General elections.

I know the following inside analysis is not popular and unfortunately paints a negative picture of President Trump, but the detailed facts and logic in the following are sound.

To: Grady L Rhodes <grhodes40@yahoo.com<<mailto:grhodes40@yahoo.com>>>

Cc:
Folks,

This is my personal analysis.

After watching several hours of the marathon, 6+ hour meeting today (11/30) where Trump's legal team laid out their evidence of voter fraud in Arizona, and after consulting Benny White who has performed a comprehensive statistical analysis of the election data in Pima County, it appears there is a lot of smoke but no smoking gun.

One allegation from an anonymous letter to the DOJ and the AZ State Legislature, claimed he/she was in the room in a meeting when the "Recorder" and members of the Democrat Party in Pima County stated that they planned to shift 35,000 votes from each Republican candidate to the corresponding Democrat candidate in each race (this includes the Presidential and U.S. Senate races). The tabulation machines would just spread out this shift over every precinct's ballots (to smooth the data so as not to be seen as a statistical anomaly).

Benny White who was the Republican candidate for Pima Co. Recorder this election, who has been deeply involved in election laws and processes in Pima/AZ/U.S. for 8+ years, and who attained a law degree (after an extensive fighter pilot career) to support his election integrity interests, stated that his analysis did not show the possibility of any where near the approximately 35,000 (5%) votes allegedly switched in Pima Co. that was claimed in this anonymous letter. His analysis of the election data strongly contradicts this allegation.

This anonymous letter had lots of details that added to its credibility, but had several red flags:

- 1) In Pima County, the Recorder does not tabulate ballots, the Pima County Elections Department Director, Brad Nelson has responsibility for tabulation of ballots. Anyone who would be in the position to make this anonymous allegation would have known this and would not have made that mistake in referencing the Recorder.
- 2) If there would have been an effort to switch votes, there would not have been a meeting to announce the plan, it would have been performed by one or two election Department employees. About a year after the 2005 RTA (road bond) election in Pima County, there was an extensive investigation and lawsuit brought by Pima County Democrats claiming an employee of the election department in charge of the election machines confessed, in a drunken stupor, to rigged numerous election machines in favor of passing the bond. This employee claimed that his bosses forced him to rig the machines. Brad Nelson was his supervisor at that time. The fallout of that election was that there was not enough proof for the legal case to proceed. But setting aside that incident, just knowing that people can break down and report (or let this information slip out), there would not have been a meeting to discuss and question switching votes. One should question the purpose of such a meeting altogether - what would have been the benefit of letting additional people know that voter fraud was being planned but they would not need to participate in the conspiracy?
- 3) The author of the letter may not have known that the physical security on the tabulation machines is really pretty tight in Pima County. Before the election there is a hash code (electronic thumb print) generated for all software on the tabulation machines performed by the Pima County IT department (for outside oversight). After the election this hash code is regenerated and should match the hash code before the election and match what is on file with the AZ Secretary of State that was generated when the election equipment was approved for use in Arizona. In addition there are serialized (numbered) seals placed on the election equipment that prevent physical access to the reprogramming ports to the equipment. These seals are recorded daily during the election by the political party observers (both D and R) along with seals on the doors to the tabulation room. And there is 24/7/365 live streaming video of the tabulation room that would show someone tampering with the equipment or unauthorized access. In short, the vote shifting as alleged would have been exceedingly difficult to perform without leaving many traces.
- 4) A hand recount audit was performed on about 4% of the precincts and the early ballot batches to ensure the tabulation machine counts for maybe 4 or 5 races match the hand recount totals. The precincts and early ballot batches to be audited are randomly pulled out of a hat. The audit showed there were no concerns of tabulation equipment miscount. This directly contradicts the claim of vote shifting spread over all the precincts and the early ballots that were counted prior to the polls closing on election night.
- 5) The letter to the DOJ/AZ Legislature was anonymous, as if the author did not want any real investigation and

did not want to be prosecuted for making false statements, otherwise he/she would have cooperated with law enforcement or at least made an affidavit professing under penalty of law that the statements were true. The letter therefore seems to have been carefully crafted to cause excitement from Trump's base, to throw into doubt the integrity of the election and to potentially steal the election in Arizona from Biden to Trump.

Prior to the meeting I was excited about the prospect that the Presidential election had not been lost, and I personally had an expectation of seeing multiple smoking guns in this presentation. But because of the above analysis and many more concerns from the meeting with Trump's legal team, I came away with a realization this was a poorly coordinated and poorly presented combination of grasping at straws and a face saving for President Trump.

That being stated, I am still monitoring claims of election irregularities to see if there are any that could call into question the final certified vote count of more than just a handful of votes.

Subject: Re: Request for comment from Wall Street Journal

Alexa,

The purpose of the audit is to ensure election integrity with our voters. Never once has the senate claimed fraud, disparaged the machines or those who conducted the audit. However, when almost half of the voters say they lack confidence and have questions about the integrity of our system, it's time for someone to step up and give them answers. The Senate body makes election laws and passes additional laws to ensure a secure and honest elections. Whenever a legislative body tries to close loopholes, they are told "you have no proof" this problem occurs. This audit will help us identify those weaknesses in our system and give us the opportunity to fix those problems.

We are trying to make this as open, transparent and bi-partisan as possible while protecting the ballots, workers and property.

Hi Karen,

My name is Alexa Corse and I'm a reporter with The Wall Street Journal. I'm writing a story about the Arizona audit and I wanted to reach out to run some questions by you and make sure I give you the chance to comment. Please see my questions below, and my deadline is tomorrow at noon ET. Thank you.

1. What would you say is the purpose of the audit?
2. What is your response to critics who say the audit will undermine confidence in the voting system?

Thanks so much,
Alexa

Subject: Wake TSI experience and other audit questions

I've got some questions about several topics.

*Ben Cotton said he recovered the files that the audit accused the county of deleting, but his explanation to President Fann and Senator Petersen made it clear that the audit team hadn't properly configured the hard drive and wasn't searching for the files correctly, which means they weren't deleted at all. Why did he continue to say "deleted" at the Senate hearing, and why didn't he explain in plain English during the hearing that the audit team made a mistake? That was an extremely serious allegation, and it turned out to be false. Shouldn't he and the audit team correct the record? How can the public trust the audit team's findings if they won't be open about what happened?

*What experience does Wake TSI have with elections in New Mexico? I've spoken with officials across the state, and no one has ever heard of this company. The secretary of state's office is unaware of Wake doing any official elections work anywhere in the state related to the 2020 election. Republican candidates, as well as the New Mexico GOP, brought litigation related to the election results in a few counties. But the chairman of the NMGOP tells me he's never heard of Wake. Same for the attorney who represented the state party in those lawsuits, and the election officials in those counties. President Fann's notes indicated that Wake did some work in Bernalillo County, where Albuquerque is, but election officials and the executive director of the county GOP are unaware of any involvement in Bernalillo by Wake. Does Wake actually have any experience in New Mexico, and if so, what is it? You have all refused to answer this question for a month and a half, and it's beginning to look like the reason for that is that this experience in New Mexico is completely fictitious. The same goes for Wake team members' alleged involvement in a 1994 election fraud investigation by the FBI. Please provide some details of this investigation and explain which Wake employees were involved.

*Wake's only verifiable experience in election work was in Fulton County, Pennsylvania. In that situation, a state senator who has been one of the most prominent legislative supporters of the "Stop the Steal" movement asked county officials to allow Wake to audit the election. How did Sen. Doug Mastriano and Wake TSI become acquainted with each other? Why would a legislator

pick a company with zero election experience to conduct a post-election audit? The county did not pay Wake for these services. Did anyone pay Wake to conduct this audit, and if so, who?

AMENDMENT TO LETTER OF AGREEMENT

BETWEEN ARIZONA EXPOSITION AND STATE FAIR BOARD ("BOARD") AND ARIZONA SENATE ("CONTRACTOR")

This amendment modifies the terms of the Letter of Agreement ("Contract") from April 9, 2021, as follows:

The Board Agrees to:

- Extend occupancy of Arizona Veterans Memorial Coliseum through July 1, 2021, for the purpose of removing all material and equipment from the Coliseum.
- Provide space in the Wesley Bolin Building for the purpose of storage from June 30, 2021 up to and including July 14, 2021 as needed by the Contractor.

The Contractor Agrees to:

- Remove all materials and equipment from the Coliseum no later than 5 pm, July 1, 2021.
- Occupy the Wesley Bolin Building for the purposes of storage only from June 30 through July 14, 2021.
- Comply with all state fire marshal codes and refrain from storing any items that would be in violation of state fire marshal code.
- Pay the actual cost for electricity for the Wesley Bolin Building for the term of the occupancy.
- Vacate the Wesley Bolin Building and remove all materials and equipment from the grounds no later than 5 pm July 14, 2021.

All other terms and conditions of the Letter of Agreement shall remain the same.

Subject: **Open letter to Arizona Senate President, Senator Karen Fann**

July 12, 2021

Dear Senator Fann,

We note that two high-speed paper counters have been brought in to audit the ballot count of the two-month-long hand recount of the Maricopa County 2020 General Election.

We applaud your goal to perform an independent ballot count compared to the Cyber Ninja's results.

While independently verifying the ballot count is an excellent first step, to be clear, an audit of the Cyber Ninja's recount is not an audit of the election.

To realize the Arizona Senate's goal of conducting an audit, the Cyber Ninja's manual counts of ballots and votes must be compared against an independent count. Practically, the official results are the only other independent count. Unfortunately, the Maricopa Elections Department did not report ballot and vote counts for each storage boxes.

So, without independent ballot and vote counts by box, the Cyber Ninja's two-month-long recount cannot be audited. However, all is not lost. We have taken it upon ourselves to create an independent comparison against the official results.

AMERICAN
OVERSIGHT

Using only publicly available data and with no access to the ballots, we have assigned 2,089,563 ballots into 10,341 batches (of approximately 200 ballots each) and grouped them into 1,634 storage boxes that now sit on 45 pallets. All ballots have been accounted for, and ballot counts for each counter group match perfectly. If, during the hand count, the ballots were placed back in their original box, the ballot counts will match the high-speed ballot counts.

We are providing the attached spreadsheet, which contains two tabs. Operators can use the first to record the ballot count from the high-speed ballot counters without revealing the count to the operator. The second has the ballot counts for each of 1,634 storage boxes. If, as we hope, our spreadsheet is used to record the high-speed ballot counts per box, we would like the opportunity to talk to the counting team to show them how to check our assignments.

We believe strongly that the operators **should not be told** of the CVR counts. That way, they are not influenced to change their count. Likewise, the Cyber Ninjas should escrow their ballot and vote counts by box. Once all machine counts are completed, the three independently created results should be made public.

Finally, we have also prepared vote counts for the candidates in the Presidential and U.S. Senate races. Once the ballot counts are confirmed, we can easily compare the vote counts in a public setting.

Having conducted or participated in over 200 audits, we can say confidently that if the ballot counts match, rarely do the vote counts disagree by more than a handful of votes – usually caused by differences in the interpretation of ambiguous voter intent.

Senator Fann, again, we applaud your desire to have a fair audit conducted with transparency.

Best regards,

Benny White, Larry Moore, Tim Halvorsen

RE:
Selection of Presidential Electors (R-54-142)
ARIZONA LEGISLATIVE COUNCIL MEMO
TO: President Karen Fann
FROM: Ken Behringer, General Counsel
This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.
In regard to presidential electors, the United States Constitution provides:
Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.
U.S. Const. art. II, § 1, cl. 2.
Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.
Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.
The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:
1
November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

On Nov 7, 2020, at 6:28 AM, Cathy Schwanke <schwankeld1@gmail.com> wrote:

Our voters are concerned that a computer glitch revealed in PA may have also happened here and affected votes in Maricopa County. They want to be assured that their votes were not changed by the ballot machine their was inserted into. Voters want hand counts for Maricopa County ballots. Thank you for your consideration,

Cathy Schwanke
LD1 Republican Chairman (Maricopa County)

“One Michigan county clerk caught a glitch in tabulation software so they hand counted votes and found the glitch caused 6,000 votes to go to Biden + Democrats that were meant for Trump and Republicans.”

From a concerned Carefree, AZ voter:

“The article I have attached confirms that Maricopa County Elections uses the same software that Michigan uses, and other swing states.

That could have changed how ballots where counted for ALL races, from President to state measures. This is huge. Can't ask for a machine recount because you will get the same results. There needs to be hand counts and an audit. The audit has to be ordered by the State Legislature. Thank goodness Karen Fann is President of the Senate.

All races up and down the ballot are in play.”

<https://redstate.com/jenvanlaar/2020/11/07/election-software-responsible-for-glitch-in-antrim-county-mi-used-in-every-swing-state-n276327/amp>

From the article:

When the discrepancy (glitch) was first revealed Wednesday, it was believed that 32 other counties in Michigan used the same software that was used in Antrim County. According to the Michigan GOP chair, a total of 47 counties in Michigan use that same software.

Curious as to what this software was, I investigated and found that Dominion Systems was the provider for Antrim County. According to their website, they actually service 65 of 83 counties in Michigan.

... Dominion also just rolled out in Maricopa County, Arizona

...Dominion machines are being used in at least these Pennsylvania counties:
Armstrong, Carbon, Clarion, Crawford, Dauphin, Delaware, Erie, Fayette, Fulton,
Luzerne, Montgomery, Pike, Warren, York.

Dominion machines are also being used in numerous Wisconsin counties and in Clark County, Nevada. Considering the numerous problems with these machines and the documented “glitch” in Antrim County, Michigan, every county that uses this type of ballot counting machine – no matter the provider – should have a manual recount to ensure that the totals on precinct-level counting tapes match what is recorded.

Where else are they?

Interesting. It turns out that Dominion has the contract for the entire state of Georgia – and the statewide rollout was in 2020.

Subject: AGO Letter Addressing Manual Hand Count Audits

Dear President Fann and Speaker Bowers,

The Attorney General's Office has received multiple legislative inquiries and questions concerning the manual hand count audits conducted by counties, specifically as they pertain to voting centers.

See the attached letter, which will be followed by a future formal opinion. Please feel free to share with members who have voiced similar questions.

Thank you and please let me know if you have any questions.

Josh Kredit
Deputy Attorney General for Law & Policy

MARK BRNOVICH
ATTORNEY GENERAL

OFFICE OF THE ATTORNEY GENERAL
STATE OF ARIZONA

November 12, 2020

The Honorable Karen Fann
President of the Senate
Arizona State Senate
1700 West Washington Street
Phoenix, Arizona 85007

The Honorable Russell Bowers
Speaker of the House
Arizona House of Representatives
1700 West Washington Street
Phoenix, Arizona 85007

Dear President Fann and Speaker Bowers:

The Arizona Attorney General's Office has received a number of inquiries regarding the scope and nature of the manual hand count audit required under A.R.S. § 16-602(B), in light of Maricopa County's use of voting centers during the November 3, 2020 general election. We offer our initial thoughts on this question, which will be analyzed in a formal opinion to follow in due course.

Arizona law has long required each county officer in charge of elections to conduct a post-election hand count audit of a certain percentage (currently at least two percent) of ballots cast on election day. *See* A.R.S. § 16-602(B). In 2011, the Arizona Legislature authorized the use of voting centers for voters to cast ballots. *See* A.R.S. § 16-411(B)(4) ("On a specific resolution of the board, the board may authorize the use of voting centers *in place of* or in addition to specifically designated polling places.") (emphasis added). Thus, the law provides that voting centers can replace or supplement precincts.

The Legislature correctly recognized that it could not predict all of the variations between voting centers and precincts that counties might adopt. Instead, the Legislature directed the Secretary of State to do so through the Election Procedures Manual ("EPM"), which is approved by the Governor and Attorney General. Specifically, the law provides that "[t]he hand count shall be conducted as prescribed by this section and in accordance with hand count procedures established by the secretary of state in the official

instructions and procedures manual adopted pursuant to section 16-452.” See A.R.S. § 16-602(B).

This is not a new procedure. Since 2012, versions of the EPM drafted by Secretaries of State Ken Bennett, Michele Reagan and Katie Hobbs have addressed voting centers with respect to the hand count audit procedure. Two versions of those manuals were approved by Governors Brewer and Ducey and Attorneys General Horne and Brnovich. The most current version of the EPM provides that “[i]n counties that utilize vote centers, each vote center is considered to be a precinct/polling location and the officer in charge of elections must conduct a hand count of regular ballots from at least 2% of the vote centers, or 2 vote centers, whichever is greater.” EPM, Chapter 11, § III(A) (2019).

Some have asserted that the audit should be conducted only using precincts because the statute mentions precincts despite the language in the EPM. The statute, however, is silent on how the hand count audit should be conducted when voting centers are used. Instead, the statute directs the Secretary of State to fill in that gap and establish additional hand count procedures with the approval of the Governor and Attorney General, which was done in 2019. In those counties that use voting centers, the practical effect of a hand count audit based only on precincts could result in no ballots being counted because no ballots would have been cast using tabulating machines at precincts. We do not believe the Legislature intended this result.

The Attorney General believes strongly in the importance of election integrity, including a hand count audit to ensure that all tabulating machines utilized at voting centers were functioning properly. This is why the Attorney General’s Office suggested to the Maricopa County Board of Supervisors on November 4, 2020, that it consider increasing the percentage of ballots audited from two to five percent. Although not required, it is certainly permitted and may help alleviate much of the concern that has been expressed in the past week about the integrity of the vote tabulation process.

Thank you for the opportunity to update you on our efforts with regard to this very important election integrity matter.

Sincerely,

Joseph Kanefield
Chief Deputy & Chief of Staff

Subject: Re: 2020 election needs audit of the voter rolls to be certified

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful.

Please forgive this mass email response. I have received many hundreds of emails and I would like to respond to each of you as quickly as possible. I will try to keep you all abreast of updates and changes thru various media forms.

-Hand count: Maricopa County should consider increasing the percentage of audited ballots from two to five percent, which may alleviate concerns about the validity and integrity of the vote tabulation process. The Board of Supervisors will meet to discuss a further audit beyond the already completed hand count. Representatives of the county Republican, Libertarian and Democratic parties participated in the audit. That hand count result showed a 100% match with the tally of the Maricopa County voting machines.

-Audit of vendor: the Legislature can convene a special committee that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines.

-Presidential Electors: the eleven electors were selected by a vote of the people on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass.

-Legal Remedies: Lawsuits have been filed by the Trump campaign and another is expected next week. Furthermore, the Arizona State GOP has filed suit and we anticipate a court ruling very soon.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election. We are monitoring those developments closely and hope for results soon.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Dear Senator Fann:

To ensure the legitimacy of any outcome, the 2020 election needs a complete election audit of the voter rolls to ensure only eligible, registered voters were the ones who voted and then complete statewide recounts. Governments derive their just powers from the consent of the governed, and without it, any new administration will lack the legitimacy that holds America together.

The 2020 election cannot be certified by state legislatures unless we know it was honest, and the only way to do that is to verify the outcome.

In Pennsylvania and other battleground states, poll watchers were not given the opportunity to challenge absentee, mail-in ballots. According to President Donald Trump's lawyer, Rudy Giuliani, speaking at a press conference on Nov. 7, "Even when a court order was obtained to allow the Republican inspectors to get six feet closer, they moved the people counting the ballots six further feet away. It's really simple. If you have nothing to hide with these mail-in ballots, you allow inspection. I mean, this is common knowledge, common practice in the examination of absentee ballots, which happens all the time. You take out the absentee ballot, you open it up, the Republican looks at it, the Democrat looks at it. If nobody objects, you put it in the pile. If either objects, you put it aside. That's what's done for absentee ballots, which have the extra security of having signatures you can match. Here, which is a much more insecure method of voting, no Republican got a chance to look at that ballot. Some of the ballots you will see looked suspicious. From very far away, they look like the same pen, possibly the same handwriting. We can't say that, because we never got to see it... [B]allots were un-inspected, un-reviewed, not observed by a single Republican. Not a single one. There's got to be a pattern. As a friend of mine says, I don't believe in conspiracies, but I also don't believe in coincidences. "

Monitors were not allowed to inspect ballots and challenge them, rendering the counting illegal under state laws. Now the only way to verify if voters were eligible will be a complete audit of the voter rolls and then recounts of all the legal votes.

The ballots in our democratic republic are sacred, and when they are submitted via mail-in absentee, the political parties are entitled to challenge each and every one of them to determine that the voter was properly registered and living in the state.

It is standard procedure, and yet, in major cities run by Democrats across the country in critical battleground states, Republican poll watchers were prevented from doing their jobs. Now, state legislatures, governors and secretaries of state must do their jobs to ensure the legitimacy of the outcome with a complete election audit of the voter rolls and then recounts. No outcome should be certified without such an audit.

Sincerely,

AMERICAN

Sen. Fann, I am writing to remind the state legislators/state senators that Article II of the US Constitution grants the state legislatures the SOLE power of designating electors. The Democrats are engaged in a coup against the Republic through fraudulent and illegal voting practices that have disenfranchised every legitimate voter in your state. Fraud cannot be allowed to stand! This election must be investigated. The integrity of our election process is at stake. I urge you to stand up and defend our Constitution and Rule of Law. The GOP needs to stand with President Trump to expose and nullify the illegalities that have taken place. You have every legal Trump voter ready to stand beside you. The dawn is always darkest before the dawn. Right now it is pitch black. But all you have to do is find the courage to do your constitutional duty to prevent this coup against the Republic itself. Fight! Thank you, Jeannine Gordon Po Box 510244 Front Royal Va 22630

The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election. We are monitoring those developments closely and hope for results soon.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Warmest,
Senate President Karen Fann

Subject: Sen. Karen Fann

Date: Nov. 13, 2020

Subject: PLEASE DO NOT CERTIFY THIS ELECTION until authorities have investigated President Trump's allegations of voter fraud. We the American people DEMAND AND DESERVE ANSWERS!

Dear Senator Karen Fann:

This election is plagued with allegations of fraud, and Donald Trump is fighting back. We respectfully request that you support him in this fight. **PLEASE DO NOT CONCEDE OR CERTIFY THE VOTES IN ARIZONA, GEORGIA, PENNSYLVANIA, MICHIGAN, or WISCONSIN UNTIL THE AMERICAN PEOPLE HAVE ANSWERS.**

Under the cover of darkness, Democrats have allegedly ejected [lifesitenews.com] Republican poll watchers, boarded up [dailywire.com] windows, and hauled in suitcases [thegatewaypundit.com] full of ballots that flipped Michigan and Wisconsin blue overnight. Tens of thousands of those "votes" in Michigan [rebelnews.com] and Pennsylvania [breitbart.com] allegedly belonged to dead people, and the software that was used to count them suffered a "glitch" that wrongly declared Democrat victories in Antrim [foxnews.com] and Oakland [foxnews.com] county, Michigan. That same "glitch" software is in use across the country [huffpost.com].

This could be an attack on the very fabric of our democracy, **but Democrats are refusing to allow us to investigate!**

The Democrats have been preparing for this. They changed the rules in the last minute and then told Republicans not to question it. They committed to accepting late ballots in defiance of federal law [law.cornell.edu]. They made wild and unsubstantiated predictions about a "Red Mirage" and a Biden landslide, and then told you that *YOU* were crazy if you did not believe them. Now, the election is over for them, and Joe Biden is their victor. Nothing else matters. **THEIR NARRATIVE HAS BEEN SET, AND THEY WANT TO SCARE AMERICANS EVERYWHERE INTO ACCEPTING IT WITHOUT A FIGHT.**

The American people deserve answers. If Republicans are wrong, then we the American people call on the president to concede peacefully. But if Republicans are right and we do not get the investigation we deserve, then Democrats will have gotten away with the greatest fraud campaign in our nation's history—all without a fight. If they can do it now, they will do it again. **We will never have a free and fair election again.**

PLEASE DO NOT CONCEDE OR ALLOW CERTIFICATION TO CONTESTED STATES UNTIL THE INVESTIGATION AND FACTS ANSWER OUR QUESTIONS CONCERNING VOTER FRAUD.

Thank you for your time and assistance with this important matter of mutual concern.

AMERI Sincerely,
OVERSIGHT

A Proud American and Registered Voter

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful.

Please forgive this mass email response. I have received many hundreds of emails and I would like to respond to each of you as quickly as possible. I will try to keep you all abreast of updates and changes thru various media forms.

-Hand count: Maricopa County should consider increasing the percentage of audited ballots from two to five percent, which may alleviate concerns about the validity and integrity of the vote tabulation process. The Board of Supervisors will meet to discuss a further audit beyond the already completed hand count. Representatives of the county Republican, Libertarian and Democratic parties participated in the audit. That hand count result showed a 100% match with the tally of the Maricopa County voting machines.

-Audit of vendor: the Legislature can convene a special committee that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines.

-Presidential Electors: the eleven electors were selected by a vote of the people on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass.

-Legal Remedies: Lawsuits have been filed by the Trump campaign and another is expected next week. Furthermore, the Arizona State GOP has filed suit and we anticipate a court ruling very soon.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election. We are monitoring those developments closely and hope for results soon.

Comments:

We the people, demand a hand recount of votes as well as an investigation into the suspicious software, Dominion, used to count votes here in the battleground state of Az, and known to have "glitches" as well as the ability to be easily hacked. I do not have confidence that my vote was not changed from Trump to Biden, as happened in Michigan. In a state that was/is overwhelmingly for Donald Trump, there is no logical or statistical reason for the margins to be this close, let alone for Biden to actually win. We are asking all legislators that call themselves Republicans to stand and fight for this president who we know WON on election day in an overwhelming landslide. We will not let our election or our votes be stolen by software that was programmed to steal. We know first hand that many "irregularities" happened in this state, as our college daughter was sent 3 ballots herself after registering to vote - all to the same address. Please support the call to look into this election, specifically the software, and demand justice where fraud is found!

Dear Karen,

How can we have a fair election if DOMINION machines across the country are proving algorithms of errors without auditing the DOMINION machines in Maricopa County?

Also wonder why Dems posted on their website Nov 3, 2020:

Do I need a special pen to mark my ballot?

A standard black or blue ballpoint pen is sufficient. Do not use a red ink or permanent marker.

This may result in a false read by the ballot tabulation machines.

On Nov 4, 2020 this was removed from their website. I have photos of proof.

Could their algorithms be any sharpies become Biden Votes???? There are videos of people advising the poll workers adamantly made them use sharpies.

Photos attached

I have written to Katie Hobbs. What else can citizens do to make this happen?

Kind regards, Pamela Kacir

On Nov 14, 2020, at 4:03 PM, Brian shire <brianashire@outlook.com> wrote:

Dear Senator Fann:

To ensure the legitimacy of any outcome, the 2020 election needs a complete election audit of the voter rolls to ensure only eligible, registered voters were the ones who voted and then complete statewide recounts. Governments derive their just powers from the consent of the governed, and without it, any new administration will lack the legitimacy that holds America together.

The 2020 election cannot be certified by state legislatures unless we know it was honest, and the only way to do that is to verify the outcome.

In Pennsylvania and other battleground states, poll watchers were not given the opportunity to challenge absentee, mail-in ballots. According to President Donald Trump's lawyer, Rudy Giuliani, speaking at a press conference on Nov. 7, "Even when a court order was obtained to allow the Republican inspectors to get six feet closer, they moved the people counting the ballots six further feet away. It's really simple. If you have nothing to hide with these mail-in ballots, you allow inspection. I mean, this is common knowledge, common practice in the examination of absentee ballots, which happens all the time. You take out the absentee ballot, you open it up, the Republican looks at it, the Democrat looks at it. If nobody objects, you put it in the pile. If either objects, you put it aside. That's what's done for absentee ballots, which have the extra security of having signatures you can match. Here, which is a much more insecure method of voting, no Republican got a chance to look at that ballot. Some of the ballots you will see looked suspicious. From very far away, they look like the same pen, possibly the same handwriting. We can't say that, because we never got to see it... [B]allots were un-inspected, un-reviewed, not observed by a single Republican. Not a single one. There's got to be a pattern. As a friend of mine says, I don't believe in conspiracies, but I also don't believe in coincidences. "

Monitors were not allowed to inspect ballots and challenge them, rendering the counting illegal under state laws. Now the only way to verify if voters were eligible will be a complete audit of the voter rolls and then recounts of all the legal votes.

The ballots in our democratic republic are sacred, and when they are submitted via mail-in absentee, the political parties are entitled to challenge each and every one of them to determine that the voter was properly registered and living in the state.

It is standard procedure, and yet, in major cities run by Democrats across the country in critical battleground states, Republican poll watchers were prevented from doing their jobs. Now, state legislatures, governors and secretaries of state must do their jobs to ensure the legitimacy of the outcome with a complete election audit of the voter rolls and then recounts. No outcome should be certified without such an audit.

Sincerely,

Mr. Brian shire

We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful.

Please forgive this mass email response. I have received many hundreds of emails and I would like to respond to each of you as quickly as possible. I will try to keep you all abreast of updates and changes thru various media forms.

-Hand count: Maricopa County should consider increasing the percentage of audited ballots from two to five percent, which may alleviate concerns about the validity and integrity of the vote tabulation process. The Board of Supervisors will meet to discuss a further audit beyond the already completed hand count. Representatives of the county Republican, Libertarian and Democratic parties participated in the audit. That hand count result showed a 100% match with the tally of the Maricopa County voting machines.

-Audit of vendor: the Legislature can convene a special committee that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines.

-Presidential Electors: the eleven electors were selected by a vote of the people on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass.

-Legal Remedies: Lawsuits have been filed by the Trump campaign and another is expected next week. Furthermore, the Arizona State GOP has filed suit and we anticipate a court ruling very soon.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election. We are monitoring those developments closely and hope for results soon.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Warmest,
Senate President Karen Fann

Subject: RE: Vote Recount

Richard, For the record, I asked our secretary of state to provide me with the data on the certification of the voting machines to prove to the constituents the machines were verified according to state statute. I have not asked for a recount but did ask the Maricopa County Board of Supervisors to at least increase their sampling verification from 2 % to 5 %. The legislature does not have the authority to ask for a recount. Remedies are left to the courts based on lawsuits and will be decided by the judges.

My soul purpose is to restore the confidence of our democracy and election process for our citizens. This is not a partisan issue. Many of these "potential fraud" claims were actually made a few years ago by members of the Democratic party so it appears there is concern on both sides of the isle. If there are concerns about our system then we should do everything possible to disprove the unfounded allegations and ,IF, any improprieties are found, let's fix them and get back to normal again.

I'm sorry you believe I am "just another party hack" because that is not the case. Yes, I am a Republican, but I have always tried my best to listen and represent all of my constituents.

Warmest, Karen

Ms. Fann, I have always voted for you, even though I disagree with your position about 60% of the time. I have done so, because I believed you were a conscientious, ethical representative of the community.. I was extremely disappointed to find you to be just another party hack. Demanding recounts (which will cost taxpayers thousands of dollars) even though you know there is zero evidence of irregularity. Shame on you!

I was born and raised in Arizona. We moved from southern Az to Prescott where my father, Arthur Mc Mains, started a successful excavation business. My three children were born in Prescott. My husband was transferred to California, where we lived for the last thirty years. Last November we joyfully moved back to Arizona. I was excited for the first time in years to cast my ballot. It seemed my vote would actually count. But unfortunately that is not the case. At this point I feel that you, Senator Fann as President of the Senate, need to call the legislative body to session. I DEMAND AN AUDIT OF THE VOTES!!! Thank you for your service to our beautiful state and for this opportunity to speak to you. Sincerely, Starla Edwards

Hi John. Great hearing from you. Below is the list of answers we have been providing to all the questions. As you can see, as legislators we are somewhat limited in what we are allowed to do with respect to this election. Most of the recounting issues must be accomplished at the County supervisors jurisdiction. However, we are doing everything we can and trying hard not to interfere with the various lawsuits filed by President Trump's team, the RNC, and state party. Since many of these issues involve numerous states it is being handled at the Trump campaign level. In addition, we have already established a committee to delve into all of the election issues and expect to introduce legislation to fix many of these concerns.
Warmest, Karen

Subject: The Debacle known as the 2020 Election

Senator Fann, I'm pleased and relieved that you received such great support and also that, thankfully, we have retained control of both Houses of the State Legislature. The margins are very thin, which is worrisome, and I suspect that fact will make your job as President of the Arizona Senate even more difficult. You are in my prayers.

On the national level I was really saddened that our great state of Arizona has turned left. It did not surprise me to see that Pima County voted blue, but I was shocked to see that Maricopa County did likewise. If the voting was fair, which I do not believe, then we will face difficult times ahead. Memories of how Kyrsten Sinema won her Senate seat still upset me. It did not take long for her reasonably balanced track record as a Representative to be corrupted by Chuck Schumer's Senate hate machine.

Frankly, it was not a surprise to see Martha McSally defeated by Mark Kelly. It seemed to me that she did not fight very hard to retain her seat and faced with the substantial financial support Kelly had from outside sources, her loss was inevitable. I keep praying that Georgians will vote for sanity in their runoff Senate election.

Speaking of sanity, that brings me to my most important point. I, like many others is the nation and especially here in Arizona, do not feel that our election was open and honest. Why is there no recount of Arizona ballots? The presidential race here is very, very close, with only 10,377 votes separating the candidates. Remembering what happened with Sinema, I feel it is imperative that there be an audit/recount. Why rush to certify the vote? Please use your influence, with the support of the Republican party, to demand a delay of the certification until the presidential vote can be audited. Georgia too is suspect with only 14,172 votes separating the candidates. Closer examination of 4 other state election results should certainly be examined, in greater detail.

There have been numerous theories and claims thrown about. Some have been untrue, yet others have become more plausible. There is too much at stake to ignore the possibility that election results have been tampered with, especially with ballot information being transmitted over the internet. Hacking, tampering, and deliberate alteration of ballots is not only immoral, it is criminal.

AMERICAN
OVERSIGHT

I still believe in the fundamental good of the American people, and although President Donald Trump may be brash and abrasive at times, he does not deserve the hate and vicious attacks he has endured since he defeated Hillary Clinton in 2016. Well organized campaigns to take him down have failed, until now. I believe he loves this country and that he has done far more good for America than the previous 8 years of the Obama administration ever could have dreamed of doing. In another era, some of the democratic party leaders, and their financial backers, would have been charged with Treason and Sedition for the deliberate acts they have already committed. It is not my intention to sound like a nut case, but certain truths have to be aired. I believe there is reasonable doubt about the integrity of the 2020 election.

Respectfully,
John Traynor, Carefree

Subject: RE: Arizona Election

Hi Joanne. We are doing everything we can based on what is allowed by law and our constitution. Arizona's laws are different than some other states so we don't have the authority to demand a recount unless we can prove to the courts there is fraud or an irregularity that would fundamentally change the outcome of the election. We are still working on solutions.

Dear Senator Fann,

Congratulations on winning the LD 1 senate seat.

My husband John and I would like you to talk with Governor Ducey and Secretary of State Katie Hobbs and demand a recount of our state election. We as Arizona voters are so concerned about this computer program that over 30 of our united states used for this election. I feel like there is fraud going on and I don't believe that the election in Arizona is accurate.

Thank you for looking into this matter. Looking forward to hearing from you soon.

Thanks Karen!

Subject: RE: Election Fraud

Samantha, Here is the response I am sending to those who have emailed me. With respect to the hearing on Monday, the Arizona Senate has already set up a dedicated email account 2020election@azleg.gov asking the voters to please email us with their concerns and documentation of fraud and irregularities so we can act upon that information. Apparently Representative Fincham decided he wanted to have his own hearing to gather information as well. We will be glad to share the Senate information and welcome him sharing any information he is able to gather as well. We are all working hard to make sure this election was fair and accurate. Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

For those of you asking to not allow the certification to happen on Monday, November 30th, please be aware that President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Good evening Senator Fann,

I am writing out of concern that you all are not attending the AZ election hearing on Monday. There is obvious concerns with this election, and hearing the evidence is the beginning of understanding what happened. I am appalled that you all seem to care less about your constituents, that gave you your majority. I've never understood why Republicans refuse to fight for their constituents, when the democrats would do everything they could in this situation. Please know that that we are watching, and we want to elect fighters. If you are unwilling to fight for something so important, it may be time for someone else to take your spot in legislature. How you and your colleagues respond to this, will definitely determine the future of AZ politics. Please do not underestimate the people of AZ.

Samantha Aiken

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the

election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

It's this way, it's fraud pure and simple. I'm an independent and pretty middle down the road type of person but this is BS. If allowed to certify the election without a full AUDIT many Arizonans will never believe it, myself included. Katie Hobbs is an absolute joke! Anyone that calls "the people" Nazi's shouldn't be in office. She should not be trusted with handling the election PERIOD! Arizona needs a full audit

Subject: RE: AZ Electors

Below is the response I am sending to those who have emailed me. With respect to the hearing on Monday, the Arizona Senate has already set up a dedicated email account 2020election@azleg.gov asking the voters to email us with their concerns and documentation of fraud and irregularities so we can act upon that information. Apparently Representative Fincham decided he wanted to have his own hearing to gather information as well. We will be glad to share the Senate information and welcome him sharing any information he is able to gather as well. We are all working hard to make sure this election was fair and accurate.

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

For those of you asking to not allow the certification to happen on Monday, November 30th, please be aware that President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

AMERICAN
OVERSIGHT

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections.

However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted

pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

I am concerned about how the election was counted and whether the electors will be certified. From all accounts in the news, the ballots in Arizona and how they were tabulated and reported is under a cloud of suspicion. It seems to me, as a voter, that a full audit on what happened needs to be done. Please let me know what you, as my representative, are doing to ascertain if the election was valid.

Dear Ms Fann. There are enough questions being raised about the conduct and technical issues In the recent election, that seems to have thrown Arizona to VP Biden, that the hearing being held to proffer to the legislature proof regarding them is crucial. I would request that you attend the hearing in the most effective way, and that you consider a joint resolution with the lower chamber to send Republican Electors to Washington.

Thank you for your consideration.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections.

However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Email address for Quang Nguyen and Judy Burges

Hello Karen Fann,

As a resident of District 1 in Prescott and a Trump supporter, I am writing to make sure that you and representatives Quang Nguyen and Judy Nguyen support our President. I do not email address for Nguyen and Burges so that I can write them personally. I wondered if you might have them.

I am aware of the meeting/hearing the Trump team is having with republicans on Monday and the implications this might have with the selection of electors. What I am hearing from to many republicans is that President Trump should just throw in the towel and accept that Biden has won. If these republicans don't have the backbone to stand up for the President then I know the won't stand up for me either.

To me the difference between President Trump and Beijing Biden is freedom and communism. The information on the "laptop from hell" shows that the CCP owns Biden.

If you can provide me with the email addresses of my reps I would appreciate it.

Regards,

Cody Stark

Subject: RE: Rep. Voters Expect YOUR Attendance at the Hearing 11/30

Below is the response I am sending to those who have emailed me. With respect to the hearing on Monday, the Arizona Senate has already set up a dedicated email account 2020election@azleg.gov asking the voters to email us with their concerns and documentation of fraud and irregularities so we can act upon that information. Apparently Representative Fincham decided he wanted to have his own hearing to gather information as well. We will be glad to share the Senate information and welcome him sharing any information he is able to gather as well. We are all working hard to make sure this election was fair and accurate.

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

For those of you asking to not allow the certification to happen on Monday, November 30th, please be aware that President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections.

However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted

pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Rep. Voters Expect YOUR Attendance at the Hearing 11/30

I respectfully ask that you, as a GOP Representative of the people of Arizona, attend the public hearing on November 30th with the President's team.

The voting rights of Arizonians should not be disenfranchised because THEIR OWN Representatives refuse to hear the evidence of statistically impossible election irregularities.

If the legitimate voting public cannot trust the AZ state's system of counting only legal votes, we will NOT vote for you in any future contest.

Sincerely,
Victoria Jones

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections.

AMERICAN
OVERSIGHT

However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Stop the Steal! True the vote! Support Trump/Pence! Don't send Biden electors to electoral college!

Nov. 27, 2020

Dear Senator Fann:

I and my family reside in Monroe County PA. On Nov 3, we stood in line with friends and neighbors for 3 hours in the freezing cold to vote the straight GOP ticket. Now I realize that our votes were cancelled out 1,000-fold by some election "worker" in PHL stuffing fake ballots through a Dominion voting machine, which is designed to "fix" elections.

There appears to have been large voting irregularities in Detroit, Milwaukee, ATL, NV and AZ as well. I believe these irregularities were large and targeted enough to rob President Trump and Veep Pence of their landslide victory in those states.

To make matters worse, the vote irregularities seem unstoppable in ATL, which is primed to steal 2 Senate seats on Jan 5 if something isn't done to true the voting there. The flip of 2 GA Senate seats would flip the US Senate blue.

The SCOTUS would then be packed and thus flipped blue. That means all three branches of government (executive, legislative and judiciary) will have been robbed in a single election cycle by January 21, 2021. **Please do not certify the questionable election results in AZ so that we avoid this awful outcome. And please do not send Biden electors to the electoral college since the election was stolen.**

Just before the election, **Biden said he and Obama are running the biggest voter fraud operation in the history of US politics.** God made him "accidentally" blurt out the truth about what he was about to do to us. Please do not let America be destroyed by a triple-stolen election (executive, legislative and judiciary). Stop the steal! True the vote!

Subject: RE: Stop the Steal!

Below is the response I am sending to those who have emailed me. With respect to the hearing on Monday, the Arizona Senate has already set up a dedicated email account 2020election@azleg.gov asking the voters to email us with their concerns and documentation of fraud and irregularities so we can act upon that information. Apparently Representative Fincham decided he wanted to have his own hearing to gather information as well. We will be glad to share the Senate information and welcome him sharing any information he is able to gather as well. We are all working hard to make sure this election was fair and accurate.

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

For those of you asking to not allow the certification to happen on Monday, November 30th, please be aware that President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the

election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the

election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

We as Arizona American citizens have heard of the fraud that is happening in possibility in our state and across the country and we're asking for you and the rest of the Republicans of Arizona to stop this fraud and not to Certify this election. This Dominion program which we have heard we use here in AZ and is a travesty that it can be used to change votes. This needs to be investigated and we want is a fair election and we know as American citizens we know the President won and maybe even McSally should have won, but this program was used to prevent them from winning. Please stand by your Constitutional oath and DO NOT CERTIFY this election. Thank you.

Subject: RE: Az: Not just Arizona voters want fair elections,

Below is the response I am sending to those who have emailed me. With respect to the hearing on Monday, the Arizona Senate has already set up a dedicated email account 2020election@azleg.gov asking the voters to email us with their concerns and documentation of fraud and irregularities so we can act upon that information. Apparently Representative Fincham decided he wanted to have his own hearing to gather information as well. We will be glad to share the Senate information and welcome him sharing any information he is able to gather as well. We are all working hard to make sure this election was fair and accurate.

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

For those of you asking to not allow the certification to happen on Monday, November 30th, please be aware that President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

AMERICAN
OVERSIGHT

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

My name is TERRENCE NELSON, retired Military, and Federal Government, Today I'm writing to urge you to support a transparent audit of votes in our state to protect all legal votes. There have been proven irregularities nationwide, including with electronic voting systems. I'm asking you to support electoral transparency and integrity, with an urgent audit of both ballots AND electronic voting systems.

Please protect the Constitution, the future of our grandchildren, and our vote integrity.

Respectfully

Terry

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections.

However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted

pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Please stand with those suspecting voter fraud on all levels in AZ. The out come just doesn't pass the smell test and voting machines must be investigated. It is odd that Texas was able to figure out Dominion voting machines were a risk to fair elections and Arizona (Maricopa County in particular) was not. Then we have the issue of an obviously biased Attorney General that oversees election results. Constitutional Arizonans must stand up against fraud and the coming tyranny. Count ever LEGAL vote.

Subject: RE: Major Election Integrity issues

Below is the response I am sending to those who have emailed me. With respect to the hearing on Monday, the Arizona Senate has already set up a dedicated email account 2020election@azleg.gov asking the voters to email us with their concerns and documentation of fraud and irregularities so we can act upon that information. Apparently Representative Fincham decided he wanted to have his own hearing to gather information as well. We will be glad to share the Senate information and welcome him sharing any information he is able to gather as well. We are all working hard to make sure this election was fair and accurate.

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

For those of you asking to not allow the certification to happen on Monday, November 30th, please be aware that President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

AMERICAN
OVERSIGHT

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections.

However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted

pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Major Election Integrity issues

Good morning Senator,

I hope you had a wonderful Thanksgiving.

While I right this email the song, God Bless America, is playing on TV. In 1968 I joined the United States Marine Corps and fought in Vietnam for my country. I never thought I would writing to a state senator about an election fraud issue and an election totally with no integrity. This needs to be addressed.

Arizona installed the Dominion Voting System with Smartmatic software in 2019. I researched what the issues are in 6 battleground states using this system. Sydney Powell, former US Assistant District Attorney, has filed law suites in 2 states, so far. She has sworn affidavits from experts about the deficiencies of this system.

I am not asking Arizona “flip” an election, I am asking for Arizona to look at the evidence, un-certify the votes from an election certification and seriously investigate this before electors are sent to the Electoral College for their vote. After all, Sydney Powell has done much of the work, gathered evidence and sworn affidavits of voter fraud and irregularities with the Dominion System.

As a last resort I am asking the Legislature to follow the Constitution of the United States Article 2 Section 2, allowing the Legislature to select the Electors under certain conditions. This election fraud would be one of this circumstances.

My vote was comprised in this election. I do not feel the election system installed in Arizona was secure, accurate or had any sense of integrity. My Constitutional Rights were infringed under the 14th Amendment, equal protection.

My hopes are the election machines are secured from anyone wanting to tamper with them before they can inspected. After this election season, a complete and exhaustive investigation needs to e conducted who brought this system in, why a system that was identified by numerous news reports, to be flawed was installed in Arizona. The AG’s office election fraud investigators need to be investigating these issues. I filed a complaint, on-line, last week and have heard nothing.

AMERICAN
OVERSIGHT
Thanking you in advance,

John Mattes
Carefree, AZ

The link below explains how their research team check change of address requests, people moving out of state, and those who voted anyway. In Arizona there were 19,997. More than enough to show President Trump won the election in Arizona. This does not take into account other election issues. Here are the highlights:

WASHINGTON—The former data and strategy director for President Donald Trump’s 2016 election campaign says he has found enough evidence to suggest the election results could be “easily” turned to favor the current president. “I have no confidence that Joe Biden is the deserved winner of this election, based on our findings,” Matt Braynard said in a Nov. 25 [video](#). “He may have won, he may not have won. Trump may have lost, Trump may have been reelected. “We just can’t know because of how bad this election system has operated.”

Braynard assembled a team just days after the election to look for inconsistencies in six contested states: Pennsylvania, Georgia, Michigan, Wisconsin, Arizona, and Nevada. The group initially identified 1.25 million voter issues and followed up on them through phone calls and by cross-checking data against other databases.

The team ran several major analyses including of voters who had moved out of state but still voted in the state they had left; voters who registered to vote using a post office box number rather than a residential address as required; voters who requested a mail-in ballot and sent it in, only for it not to be counted; voters who didn’t request a mail-in ballot and didn’t receive one, but discovered a vote had been cast in their name; as well as research on people who voted more than once and on those who are listed in the death index.

Change of Address

One of Braynard’s biggest findings involved voters who had submitted a National Change of Address form to the post office, indicating they had moved out of state, yet appeared to have voted in 2020 in the state they moved from.

In Georgia, the team found 138,221 such people, which represents a much larger number than the state’s current vote differential (12,670) in the presidential race.

In Michigan, there were 51,302 such people; Wisconsin had 26,673, Nevada had 27,271, Arizona had 19,997, and Pennsylvania had 13,671.

Braynard said the numbers are high enough that they could “easily” overturn current election projections.

The number of questionable ballots surpasses the vote margin in at least three states right now—

Arizona, Georgia, and Wisconsin,” Braynard told The Epoch Times on Nov. 25. Those three states have a combined total of 37 electoral votes. “This isn’t speculative. This is just what the data shows.”

https://m.theepochtimes.com/election-findings-could-easily-overturn-3-states-data-analyst-concludes_3595153.html?utm_source=morningbrief&utm_medium=email&utm_campaign=mb-2020-11-27

The following shows that Dominion Voting Systems are accessed by foreign entities and Obama ACORN organization from Sydney Powell’s lawsuit filing.

And then on **page 16 of the legal filing** the document identifies foreign actors having access to US elections through the Dominion – Edison Research connections.

20. As seen in included document titled

“AA20-304A-

Iranian_Advanced_Persistent_Threat_Actor_Identified_Obtaining_Voter_Registration_Data” that was authored by the Cybersecurity & Infrastructure Security Agency (CISA) with a Product ID of AA20-304A on a specified date of October 30, 2020, CISA and the FBI reports that Iranian APT teams were seen using ACUTENIX, a website scanning software, to find vulnerabilities within Election company websites, confirmed to be used by the Iranian APT teams but seized cloud storage that I had personally captured and reported to higher authorities. These scanning behaviors showed that foreign agents of aggressive nations had access to US voter lists, and had done so recently.

21. In my professional opinion, this affidavit presents unambiguous evidence that Dominion Voter Systems and Edison Research have been accessible and were certainly compromised by rogue actors, such as Iran and China. By using servers and employees connected with rogue actors and hostile foreign influences combined with numerous easily discoverable leaked credentials, these organizations neglectfully allowed foreign adversaries to access data

16

However, as we perused the appendix further, we see that Iran and China are not the only entities with access to the Dominion data and the ability to manipulate the results of our elections. There is a direct connection to Belgrade, Serbia and there are or were numerous Dominion employees in Serbia.

But on page 8 we see Dominion – Edison has connections to domestic players. One entity is Indivisible which was formerly Obama connected ACORN:

<https://www.thegatewaypundit.com/2020/11/not-dominion-prone-attack-china-iran-also-connected-pro-obama-entity-known-acorn/>

Dominion software shown in Sydney Powell’s Michigan filing to flipping votes:

<https://twitter.com/reduxvernon/status/1331952099945549825?s=10>

Highlights of the Georgia filling. Link with the full story below:

A lawsuit released by lawyers led by former federal prosecutor Sidney Powell makes 30 allegations of electoral fraud and other illegal and irregular activities and features pertaining to the 2020 general elections in Georgia (pdf).

The allegations, most of which are based on witness and expert statements, relate to mail-in ballot fraud and insecurities, recount irregularities and deficiencies, and security hazards of the Dominion Voting Systems machines used by the state.

The suit alleges the following:

1. The software used by the Dominion machines was accessed by agents of malicious actors, such as China and Iran, "in order to monitor and manipulate elections," including the 2020 election. The allegation is based on a redacted declaration of a former electronic intelligence analyst under 305th Military Intelligence.

"By using servers and employees connected with rogue actors and hostile foreign influences combined with numerous easily discoverable leaked credentials, Dominion neglectfully allowed foreign adversaries to access data and intentionally provided access to their infrastructure in order to monitor and manipulate elections, including the most recent one in 2020," the suit says.

2. An affiant, whose name was redacted for security reasons, alleged that the software used by Dominion was designed for Venezuelan government with the specific purpose to rig elections without the risk of getting caught. The affiant said he was part of a national security detail to former Venezuelan socialist dictator Hugo Chavez.

"The purpose of this conspiracy was to create and operate a voting system that could change the votes in elections from votes against persons running the Venezuelan government to votes in their favor in order to maintain control of the government," he said.

The allegation was corroborated by another witness who "was in an official position related to elections and witnessed manipulations of petitions to prevent a removal of President Chavez."

3. Another affiant said he's the cousin of the former chief executive of Smartmatic, the company that developed the software adopted by Dominion. He said he has personal knowledge that the executive manipulated the company "to ensure the election for Chavez in the 2004 Referendum in Venezuela," the suit says.

He also testified that the executive, Anthony Mugica, "received tens of millions of dollars from 2003–2015 from the Venezuelan government to ensure Smartmatic technology would be implemented around the world, including in the U.S.," the suit says.

4. The vote tallies produced by the Dominion machines can be manipulated by imputing a malicious code with just “7 minutes alone with [the voting machine] and a screwdriver,” according to Andrew Appel, Princeton professor of computer science and election security expert.
5. A ballot can be spoiled or altered by the Dominion machine because “the ballot marking printer is in the same paper path as the mechanism to deposit marked ballots into an attached ballot box,” a study by University of California–Berkeley said. It indicates that after a voter submits a ballot to the machine, the machine can add additional marks on it.
6. The voting machines are susceptible to hacking or remote tampering because they are connected to the internet, even though they’re not supposed to be. “Voting machines were able to be connected to the internet by way of laptops that were obviously internet accessible,” the suit says. “If one laptop was connected to the internet, the entire precinct was compromised.” Affiant Hari Hursti, a Finnish computer programmer and election security expert, said, “There is evidence of remote access and remote troubleshooting, which presents a grave security implication.”
7. The voting machines have activity logs that can be overwritten, according to Hursti. That means hackers or malevolent operators can tamper with the results and then erase their steps.
8. Ronald Watkins, a software and cyber-security expert who reviewed the Dominion software manual, said the machine operators can change the setting to exclude certain ballots from being counted (based on how much of the “bubble” they had filled in to indicate a vote for a candidate). Scans of the excluded ballots are placed in a separate folder and the operator can delete them simply using Windows File Manager.
9. Watkins said that to report the final vote counts, the machine operator would copy and paste the “Results” folder from the machine onto a USB drive. “While a simple procedure, this process may be error-prone and is very vulnerable to malicious administrators,” he said.
10. There are no procedures that would ensure the security of the USB drives used to report vote tallies from precincts. In one Georgia County, 3,300 votes were found on memory sticks not loaded into the central vote tally system, the suit says.

https://www.theepochtimes.com/sidney-powell-suit-makes-30-allegations-in-bid-to-invalidate-georgia-election-results_3595129.html

The link below is a great article on what needs to be done before the next election. Florida got it correct, follow their lead. They have mail in ballots done right. Here are the highlights:

A model already exists to do much of this. After the recount debacle in Florida in 2000, the state

drastically overhauled its election processes.

In Florida, absentee ballots must be returned by 7 p.m. on election night, period, with no shenanigans about postmarks. The state requires a matching signature for mail-in ballots. Ballots that are returned earlier are opened and verified early before being stored securely, and critically, *they are counted first*, meaning they can never be used to play “catch-up” against a surprising election-night deficit. Florida had plenty of mail-in and early votes, but it still had no difficulty having ballots almost completely counted by midnight. That performance should be the norm everywhere.

Everywhere they can, Republicans should seek to imitate Florida’s performance on election night this year. Republicans should insist on a process where at least 99 percent of votes are entirely tallied within six hours of polls closing. The faster votes are counted, the harder it is to smuggle fraudulent ballots into the process, and the more likely the public itself is to regard the process as legitimate. Faster counting also limits fraud in another way: It requires more personnel, causing each individual person to handle fewer ballots and making a fraud operation require more participants.

The American people deserve a Republican Party who will fight to the bitter end against any and all fraud perpetrated against Trump and his supporters in the 2020 election. The American people also deserve Republican state governments that will do everything in their power to ensure that such a mess never happens again. It is no secret that the Democrats will do anything it takes to win, by hook or by crook. It is incumbent on Republicans to stop them. When the stakes are this high, incompetence and lack of preparation are complicity. Over 70 million patriots are watching the Republican response with eagle eyes.

Time to get smart or suffer the consequences.

Subject: RE: Presidential Election

Below is the response I am sending to those who have emailed me. With respect to the hearing on Monday, the Arizona Senate has already set up a dedicated email account 2020election@azleg.gov asking the voters to email us with their concerns and documentation of fraud and irregularities so we can act upon that information. Apparently Representative Fincham decided he wanted to have his own hearing to gather information as well. We will be glad to share the Senate information and welcome him sharing any information he is able to gather as well. We are all working hard to make sure this election was fair and accurate.

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

For those of you asking to not allow the certification to happen on Monday, November 30th, please be aware that President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

AMERICAN
OVERSIGHT

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections.

However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted

pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

11-27-2020 I am sending this letter to request that you do everything in your power to make sure that our November 3rd Presidential vote tabulation in Arizona is 100% legal. All illegal votes should be dismissed. President Trump continues to fight the voting fraud and corruption in many battle ground states. His team of lawyers along with Sidney Powell are uncovering massive mail-in and machine count voting fraud. Arizona electoral votes are vital to his re-election. This is your call to action! All conservatives need to take on this fight for our constitution and the Republic. We cannot have the radical left take over this country and become a socialistic society! Thank you.

Subject: RE: Election Fraud Hearings

Below is the response I am sending to those who have emailed me. With respect to the hearing on Monday, the Arizona Senate has already set up a dedicated email account 2020election@azleg.gov asking the voters to email us with their concerns and documentation of fraud and irregularities so we can act upon that information. Apparently Representative Fincham decided he wanted to have his own hearing to gather information as well. We will be glad to share the Senate information and welcome him sharing any information he is able to gather as well. We are all working hard to make sure this election was fair and accurate.

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

For those of you asking to not allow the certification to happen on Monday, November 30th, please be aware that President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the

election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Election Fraud Hearings

Dear Karen Fann,

I am emailing you asking that you hold an official hearing on potential voter fraud in Arizona's presidential election. You in good conscience cannot send electors to the electoral college without holding public hearings to assail the fears of many Arizona voters. Voter confidence in the political process is gone. You must help by holding official hearings now. If there is suspicion of fraudulent behaviors you have an obligation to the voters who placed you in your job to not send the electors to the electoral college until the situation is remedied.

Sincerely,
Chris Lingo

Good morning! I'm writing today to encourage you to delay certification of the election held in November of this year. As a duly elected official of this great state, I encourage you to pursue an accurate and verified count of the ballots submitted in this election. I am not writing on behalf of political leanings, I'm writing in the hope our election will only contain ballots that are submitted by verified voters. Please take a stand for the America we all grew up in and for the Constitution. Thank you for the work you are already doing! God bless you and God Bless America!

Good Morning Representative Fann, I hope you had a great Thanksgiving. I hear upon the Trump legal team that you along with Senate President Karen Fann refused to allow our state representatives to hold a hearing about on the election fraud in our state. That is a huge mistake. We have experienced the greatest election fraud not only in this state but nationwide. Our constitutional freedoms are now on the line. You MUST allow this hearing to take place. This election fraud must be resolved! We the People of Arizona demand a hearing now! We will NOT allow any form of corruption in our state government to go unnoticed! All we ask is a fair and honest election! Vijai N Narayan

Subject: We the People and the US Constitution have your back

Dear Senator Fann,

We the People of the United States implore you and your colleagues to not prematurely certify your State voting results, or to overturn the certification if has been done, and conduct a thorough and complete audit with both parties fully engaged. If this cannot be done to absolute certainty, then certification cannot be legitimate. The People support you and recognize the difficulty in this decision affecting the future of this Nation.

You must see to it that your legislature's voting laws are followed without exception, and that any recent voting changes not within your official law be cause for rejection of non-conforming ballots. A pressing date deadline cannot be an excuse to push forward invalid and or illegal voting results.

The Constitution provides for this scenario which has been invoked in the past and stands as the only legitimate way to resolve a contested election if it comes to that. We must adhere to the Constitution, and be thankful it has provision to save you and the Nation with this difficult decision. You are not being asked to make a decision for one candidate or another but simply to uphold your State law and the US Constitution, and let their provisions lead to the conclusion.

It cannot be denied that there is a very significant number of invalid votes. These votes are virtually all for the Democratic Presidential candidate. That should be telling. For example, why do dead people vote Democratic? Why do voter rolls and ballots not match up? How do votes cast exceed the number of registered voters? Why are there so many non-resident votes? How are late and other illegal votes counted that are clearly not legitimate per State law? Why are the Democrats not on board with a full audit if they are confident they have the legitimate votes?

This has become an utmost serious matter of potential corruption that must be addressed. The difficulty if not impossibility of resolving a 'count', with comingled legal and illegal votes, cannot be an excuse to accept error or corruption. This potential fraud spans not just one but multiple States. When 'count' cannot be unquestionably resolved we must accept the inability to certify. And, if it comes to it, simply let the provision for "Contingent Election" in the US Constitution be applied.

Consider that when a college student is caught cheating on an exam they are failed or expelled. When a

single member of a team fails to adhere to the rules, the whole team suffers the penalty. Likewise, the voting results should be disqualified if corrupt actions are verified.

We the People put you in office to uphold the Constitution however difficult the decisions you face, like the warriors we send to battle, and you must be brave and fight for this great Nation to preserve faith in our elections. Again, let the Constitution save you and the Nation.

Respectfully,
Steve Tichenor

Subject: RE: Do not commit Arizona Electoral Votes

Below is the response I am sending to those who have emailed me. With respect to the hearing on Monday, the Arizona Senate has already set up a dedicated email account 2020election@azleg.gov asking the voters to email us with their concerns and documentation of fraud and irregularities so we can act upon that information. Apparently Representative Fincham decided he wanted to have his own hearing to gather information as well. We will be glad to share the Senate information and welcome him sharing any information he is able to gather as well. We are all working hard to make sure this election was fair and accurate.

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

For those of you asking to not allow the certification to happen on Monday, November 30th, please be aware that President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the

election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Please Do NOT Allow Arizona's Presidential Election Results to be Certified

Sen. Fann--

In light of yesterday's hearing in Pennsylvania and the great likelihood that Arizona, as another swing state, was targeted for election fraud in a similar manner, I do NOT agree with Gov. Ducey that Joe Biden won Arizona and its 11 electoral votes. Getting to the absolute, legal bottom of what DID happen here is crucial! Please do everything in your power to make sure that's done, and prevent our result from being certified before the truth is determined.

Thank you!

Subject: Please hold a proper 2020 General Election fraud hearing

Dear Senator Fann, I'm writing to you on this Thanksgiving morning because the 2020 General Election fraud is that overwhelming and can not be ignored. Our country is at stake. I watched the Pennsylvania State legislature committee conduct their hearing on the election fraud in their State and it should be watched by every citizen. Repeatedly referenced in the hearing was Article 2 of the Constitution: "State Legislatures are uniquely qualified and positioned to hold hearings on election irregularities and fraud before electors are chosen," the press release said. "As established in Article 2, Section 1.2 of the United States Constitution, State Legislatures have the sole authority to select their representatives to the Electoral College, providing a critical safeguard against voter fraud and election manipulation." (excerpt from the "Just The News" website) It is deeply disheartening to hear the Attorney General of our state, and to some degree the Governor, present a "nothing to see here" attitude. Please disregard the naysayers, and as our representative, listen to the citizens who demand and deserve a fraud free election and hold a very specific hearing to address the fraud that did occur in our state! Your time and consideration are appreciated. Respectfully, Victoria A Dolan

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections.

However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted

pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

We demand the fraudulent counting of illegal ballots be thrown out. We need our true votes to count. Too many irregularities took place at the voting polls.

Subject: RE: 2020 Election Fraud Hearing

Below is the response I am sending to those who have emailed me. With respect to the hearing on Monday, the Arizona Senate has already set up a dedicated email account 2020election@azleg.gov asking the voters to email us with their concerns and documentation of fraud and irregularities so we can act upon that information. Apparently Representative Fincham decided he wanted to have his own hearing to gather information as well. We will be glad to share the Senate information and welcome him sharing any information he is able to gather as well. We are all working hard to make sure this election was fair and accurate.

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

For those of you asking to not allow the certification to happen on Monday, November 30th, please be aware that President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current

election, because the day for selecting presidential electors (November 3, 2020) has passed. The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: 2020 Election Fraud Hearing

First, thank you for having the courage to hold hearings about the fraud that has happened, but a hearing isn't going to fix the problem. We, American citizens who do our job and vote honestly, need you to have even more courage to protect the integrity of this election and future elections. Please do what is constitutionally granted to you to protect us and our country. If this kind of fraud is allowed, it will only embolden those who committed it to do more in future elections, and we will never have a fair and honest election in this country again.

American citizens deserve to know that their votes are counted legally; and right now, many of us feel cheated and do not believe this was a fair, honest election. Each illegal vote disenfranchises those of us who voted honestly and steals our ability to change our local, state, and national governments. We are not happy with what happened and will remember those who acted courageously and defended our country from a fraudulent election. I am praying that you will have the resolve of our Founders to do what is right and difficult no matter what the outcome may be.

I hope you and your family have a wonderful Thanksgiving!

Sincerely,

Jenna Gherardini

Subject: For the election fraud

Hi, this is Hazel, As you may see the 2020 election is totally rigged by the corrupt Dems. Please step out and protect the rights illegal voters. Please understand that you are not alone, we the people are your back all the time. We need the house and senate to get involved. Please hold the hearing to expose the evidence, and refuse to recognize the result and affirm the massive election fraud and pick our own GOP electoral college. We the people elected you to represent us, now we the people need you to protect us. If you need any financial help, you can tell us, but if you just sitting there doing nothing, we the people will never forgive you, and will never vote for you anymore. And please remember, if we let dems to steal this election, I don't think the GOP will win any elections in the future, and see a GOP president in the future. Please stand up to protect the integrity of America!

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections.

However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted

pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Below is the response I am sending to those who have emailed me. With respect to the hearing on Monday, the Arizona Senate has already set up a dedicated email account 2020election@azleg.gov asking the voters to email us with their concerns and documentation of fraud and irregularities so we can act upon that information. Apparently Representative Fincham decided he wanted to have his own hearing to gather information as well. We will be glad to share the Senate information and welcome him sharing any information he is able to gather as well. The Senate and House will be acting in an official capacity once the Trump campaign has filed their lawsuit. We are all working hard to make sure this election was fair and accurate.

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

For those of you asking to not allow the certification to happen on Monday, November 30th, please be aware that President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we

AMERICAN
OVERSIGHT

do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: RE: FYI: Watch the Math, Its tricky, but important!

Below is the response I am sending to those who have emailed me. With respect to the hearing on Monday, the Arizona Senate has already set up a dedicated email account 2020election@azleg.gov asking the voters to email us with their concerns and documentation of fraud and irregularities so we can act upon that information. Apparently Representative Fincham decided he wanted to have his own hearing to gather information as well. We will be glad to share the Senate information and welcome him sharing any information he is able to gather as well. We are all working hard to make sure this election was fair and accurate.

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

For those of you asking to not allow the certification to happen on Monday, November 30th, please be aware that President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Subject: FYI:: Watch the Math, Its tricky, but important!

You may be asked to evaluate batches of votes exclusively for 1 candidate in the days to come this is FYI

The Mathematics of what Joe Biden supposedly did in PA , was the Mathamatical equivalent of winning the Powerball Lottery 2x a week for the next 30 Years and I'LL PROVE IT TO YOU!

This may be of interest to simple folks like me.

I've seen people talk about the odds of Biden winning large Chunks of votes with little or no TRUMP Votes

I'd like to put that into perspective using some PA Data I heard on TV.

BIDEN got about 600,000 votes Trump about 3,000 that's about 200 to 1.

Since Voting is Very close to a 50/50 Coin Flip Biden like wins 200 in a row for every Trump Win.

There are only 2 ways to win a Coin flip. Mathematically speaking that 2 to the 200th power for winning 200 flips.

The result is the odds of winning 200 coin flips in a row is 1.6 times 10 with 60 zeros to 1..Thats a Big number.. you get that by multilply $2 \times 2 = 4$; $4 \times 2 = 8$; $8 \times 2 = 16$ doing that

AMERICAN
OVERSIGHT

200 times.

The odds of winning Powerball Lottery is 3 times 10 with 8 zeros a little less than 1 in a Billion .

The odds of winning 200 coin flips in a row is astronomically higher than hitting powerball and JOE did that 3000 times , That's like hitting Powerball winning 3000 times in a row buying only 1 number.

ITS IMPOSSIBLE

Just remember the odds of hitting powerball are 300,000,000 to 1
The odds of Joe getting 1 small batch of 200 Votes 1.6×10 with 60 zeros way way big Number
In this batch of 600,000 votes Biden got 20 of those batches

The real odds are actually higher than that....

Plan like you are going to live forever; Live like you are going to die tomorrow.

Hi, my name is Ann, I live in Auburn. I'm upset with the process. We need confidence in our elections. The fact that We The People gave you a Republican majority in the state house, the fact that courts can't move fast enough, and the fact that both sides are divided means you should issue a press release calling for a special legislative session to address the following issues:

- Oversight of the election
- Oversight of certification
- State legislatures choosing the electors

"THE ELECTION THAT IS CLEAR IS THE ONE GIVING YOU A MAJORITY INSIDE THE STATE HOUSE."

Also, you need to SHOW UP!!! We will remember! They are stealing this election!

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1
November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: 2020 election needs audit

Dear Senator Fann,

To ensure the legitimacy of any outcome, the 2020 election cannot be certified by state legislatures unless we know it was honest, and the only way to do that is to verify the outcome with a complete election audit to ensure only eligible, registered voters voted and then statewide recounts.

In Pennsylvania and other battleground states, poll watchers were not allowed to challenge absentee, mail-in ballots, rendering the counting illegal under state laws. According to President Donald Trump's lawyer, Rudy Giuliani, speaking at a press conference on Nov. 7, "Even when a court order was obtained to allow the Republican inspectors to get six feet closer, they moved the people counting the ballots six further feet away. It's really simple. If you have nothing to hide with these mail-in ballots, you allow inspection... Here, which is a much more insecure method of voting, no Republican got a chance to look at that ballot... Not a single one."

It is standard procedure, and yet, in major cities run by Democrats across the country in critical battleground states, Republican poll watchers were prevented from doing their jobs. Now, state legislatures, governors and secretaries of state must do their jobs to ensure the legitimacy of the election with an audit to ensure any new administration the legitimacy that holds America together.

Sincerely,

Nancy McNamara

Subject: RE: We see voter fraud in Az

Below is the response I am sending to those who have emailed me. With respect to the hearing on Monday, the Arizona Senate has already set up a dedicated email account 2020election@azleg.gov asking the voters to email us with their concerns and documentation of fraud and irregularities so we can act upon that information. Apparently Representative Fincham decided he wanted to have his own hearing to gather information as well. We will be glad to share the Senate information and welcome him sharing any information he is able to gather as well. We are all working hard to make sure this election was fair and accurate.

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

For those of you asking to not allow the certification to happen on Monday, November 30th, please be aware that President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

AMERICAN
OVERSIGHT

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections.

However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted

pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: We see voter fraud in Az

Comments:

We need a legislative hearing to address voter fraud in the state of Arizona! We do not trust the outcome and want to address the evidence! Arizonans are beginning not to trust their politicians and think they're being bought by the Democrats and the Koch brothers, and the John McCain politicians. They are beginning not to trust their governor or the last set of elections we had in Arizona. Something is not right and only the guilty parties would not agree to such a legislative session to confront fears and evidence of voter fraud. Their work is enough to call into question the winner of the Presidential race in at least four states: The Voter Integrity Project discovered easily provable irregularities and statistically significant amounts of fraud. The VIP analysis alone is sufficient to call into question the results in AZ, WI, GA, and NV.

Comments:

This will be the second time I have written to you collectively to address my deep concerns over the proper handling of my vote during the 2020 election. As I have stated before, I have virtually no confidence in the Democratic representation from my district (2) in getting my concerns addressed. I look to you to be my voice in Arizona. Please speak for me. It is my understanding that a legislative hearing will be conducted in Phoenix on 30 November 2020. Even if that hearing does not occur I still urgently request that you bring up the following concerns, if not for me, then for every Arizonan you represent. I still have several outstanding issues that I believe need to be addressed; 1. Did at any time, did any Arizonan vote leave the State of Arizona for processing, storage, tabulation, bundling, etc? Isn't that illegal according to the AZ laws? What about chain of custody? Potential fraud? 2. Was the "Dominion" software mandated (by the Secretary of State or Governor) or legislated for use in Arizona? 3. Are there any voter registrations that falsely used post office boxes as "residential addresses"? Evidence in other states show that voter registrations illegally used PO boxes from USPS, UPS, FEDEX, and other third party postal drops as their residence to secure mail in/ absentee ballots. Evidence shows that terms "apt", "unit", etc were inserted into the address to hide the fact that these were PO boxes vice "residential addresses." I praise the Arizona legislature for holding a hearing to ascertain the security of the Arizona vote. Please find the truth. There are some voices across the nation that say voter fraud is just "oneses and twoses" and it's not an issue. Let me ask you this, would you want your vote cancelled because of one or two fraudulent votes? Would that be okay with you? Not me! Your efforts will go a long way to affirm to the Arizonan voter that their vote counts. Again, please be my voice. Thank you for your time and consideration. Gary Gora, MSGT, USAF (retired) Tucson, AZ

Subject: RE: 2020 election needs audit

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

For those of you asking to not allow the certification to happen on Monday, November 30th, please be aware that President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: 2020 election needs audit

Dear Senator Fann,

AMERICAN
OVERSIGHT

To ensure the legitimacy of any outcome, the 2020 election cannot be certified by state legislatures unless we know it was honest, and the only way to do that is to verify the outcome with a complete election audit to ensure only eligible, registered voters voted and then statewide recounts.

In Pennsylvania and other battleground states, poll watchers were not allowed to challenge absentee, mail-in ballots, rendering the counting illegal under state laws. According to President Donald Trump's lawyer, Rudy Giuliani, speaking at a press conference on Nov. 7, "Even when a court order was obtained to allow the Republican inspectors to get six feet closer, they moved the people counting the ballots six further feet away. It's really simple. If you have nothing to hide with these mail-in ballots, you allow inspection... Here, which is a much more insecure method of voting, no Republican got a chance to look at that ballot... Not a single one."

It is standard procedure, and yet, in major cities run by Democrats across the country in critical battleground states, Republican poll watchers were prevented from doing their jobs. Now, state legislatures, governors and secretaries of state must do their jobs to ensure the legitimacy of the election with an audit to ensure any new administration the legitimacy that holds America together.

Sincerely,

James Harvey

Comments:

Senator, Given the fact that the AZ legislature is in charge of the elections per the US Constitution, I want to know what your office plans to do to ensure that the AZ election was fair, safe and secure. I respectfully request you conduct a hearing (even though you are out of session) into any abnormalities surrounding the results in AZ, and invite the public, just like PA did today. What about an audit of all the voter registrations in 2020? How many dead people voted in AZ? Greenlee county just found 6,000 Trump votes, which brings the election to like 4,000 votes for Biden. Shouldnt this trigger a full hand recount? Also, given the testimonies coming out surrounding Dominion, and the reported irregularities, your job is to make 100% certain our election was not laden with fraud, or irregularities. Any illegal vote disenfranchises the legal voters of the state. Simply discounting this request does not provide re-assurance that our election was in fact conducted properly. However, taking this request seriously and conducting an audit of the entire election, even if ZERO evidences of fraud or irregularities exist only will help satisfy that the election was fair...regardless of the vote. Thanks, Ryan Nicholas

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: RE: Full audit in Presidential Election

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

For those of you asking to not allow the certification to happen on Monday, November 30th, please be aware that President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined

above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject:	Full audit in Presidential Election

Comments:

At this point, it is clear the presidential election was riddled with fraud in many states. To ensure that Arizona has a result that is accurate and fair, it is imperative that the legislature convene in a special session to authorize a full and complete audit and hand count of all paper ballots cast in the election. Additionally, it is essential to determine why Dominion software was chosen for electronic ballot tabulation when the issues with foreign ownership and back door access were public knowledge. Only by completing these investigations can the legislature answer the serious questions that surround this election.

Subject: 2020 election needs audit

Dear Senator Fann,

To ensure the legitimacy of any outcome, the 2020 election cannot be certified by state legislatures unless we know it was honest, and the only way to do that is to verify the outcome with a complete election audit to

ensure only eligible, registered voters voted and then statewide recounts.

In Pennsylvania and other battleground states, poll watchers were not allowed to challenge absentee, mail-in ballots, rendering the counting illegal under state laws. According to President Donald Trump's lawyer, Rudy Giuliani, speaking at a press conference on Nov. 7, "Even when a court order was obtained to allow the Republican inspectors to get six feet closer, they moved the people counting the ballots six further feet away. It's really simple. If you have nothing to hide with these mail-in ballots, you allow inspection... Here, which is a much more insecure method of voting, no Republican got a chance to look at that ballot... Not a single one."

It is standard procedure, and yet, in major cities run by Democrats across the country in critical battleground states, Republican poll watchers were prevented from doing their jobs. Now, state legislatures, governors and secretaries of state must do their jobs to ensure the legitimacy of the election with an audit to ensure any new administration the legitimacy that holds America together.

Sincerely,

Linda Chadwick

Comments:

ELECT PRESIDENT TRUMP: STOP the FRAUD USURPING YOUR CONSTITUTIONAL AUTHORITY! Dear Senator Fann, Please take back your power granted by the Constitution, restore the integrity of this election, and assign the rightful electoral votes to President Trump, as legally cast by "We the People". I am furious, sickened, and heartbroken that Arizona (and other states) stole my legal vote. The following "anomalies" ... 100% BIASED TOWARD BIDEN! all took place: * Your legal authority and laws were usurped by other state entities in an unconstitutional abuse of power (with their organized scheme of unprecedented mail-in voting rules under the colour of "pandemic" and voluminous lawsuits to that end). * There was no transparency as Republican poll watchers were unlawfully, even physically, kept from meaningful view. * The Over/Under analysis shows no explanation for the unbalanced votes...more votes than ballots!?! * An over-vote count of up to 350% was found. (unregistered, dead people, other state residents, voting more than once/provisional ballots, etc.) * Violation of the Equal Protection Clause of the 14th Amendment allowed disparate methods of discerning voter intent in the recounting of ballots. * A stop of vote-counting in the middle of the night(!?) was followed by truckloads of ballots in a mathematically impossible spike of votes for Biden only. * These dumped, after-hour ballots were fraught with every inconsistency: no signature, same signature, triple-counting, changed-dates, clean unfolded paper, Biden top of ticket only--no down-ballot votes, etcetera. * Recounts, including illegal votes (what's the point!!), did not give full proper audit and verification thru signature-matching, etc., --- when only Legal votes must be admitted. * "Glitches" were profuse in Dominion machines, SmartMatic software, and Hammer and Scorecard™ surveillance manipulation programming --- as explained by Lt. Gen. McInerney. * Investigations revealed Dominion ties to Venezuelan communists and other deep state corrupt actors --- Dominion refused to appear in PA hearing at the last minute to avoid discovery(!?). * Poll watchers, certifiers, et al, were intimidated, harassed, doxed, and even threatened! their jobs, their children, their addresses, their LIVES... by thugs as in a 3rd world dictatorship! * All this exact same incredulous Modus Operandi was exposed, not only here and 5 other states, but is being further uncovered now in New Mexico and Virginia. ---only from democrat-run areas. Not only in Arizona, but across the country --- as in WIDESPREAD FRAUD. And more is continually being exposed! The law and your conscience require you to take over this certification process, and without fear or favor to save our Constitutional Republic and our Freedom (from the Socialism/Communism invasion treachery in this massive fraud) by allotting the

rightful electoral votes for President Trump. Thank you and God Bless You, Trina Janura

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: 2020 election

Dear President

This my first time email to you. As you can imagine many Republicans are extremely upset that we can not get a full forensic audit of ballots and systems with Gov, Majority Legislature all Republicans. No Audit of ballots, signatures, dates, addresses, move out of state, illegal aliens. No systems audit.

Can you'all expect us to ever vote for ANY OF YOU AGAIN? There is no transparency or integrity of this election. Why bother voting at all?

You have the power to launch an Investigation into the election and properly do forensic audits. But do you have the courage to is the question. We will NOT accept the results of this election until a full forensic audit of ballots and systems are performed by a non-partisan independent auditor. The growing number of irregularities can NOT be ignored or pushed under the rug.

Do SOMETHING more than making a written Request (why was rejected) to the Democrat Secretary of State!

Americans have NO belief in the integrity of our voting systems. NONE!

Sincerely
Melissa Tock

Subject: RE: Arizona 2020 Election

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

For those of you asking to not allow the certification to happen on Monday, November 30th, please be aware that President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined

above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Comments:

Dear Ms. Fann: From speaking with several constituents across Arizona, faith in our election process has been decimated. I've spoken with clients around the US through my business and there's a resounding opinion mirroring that distrust. You must understand that without faith in our government and the election process, society will collapse and anarchy will ensue " it's happened many times over the history of the world. If any Arizonan is to have faith in any future elections, a full audit and hand recount must be performed. Very few elected Republicans have spoken out about the issues with Dominion voting systems and whether or not you are termed out, this will destroy any future confidence in your veracity in future elections " whether the office you hold or any other political endeavor. I had a couple contact me on 11/2/2020 that were very upset as they planned to vote on election day as they've always done. They checked online that day and someone had already voted for them! I'm hoping that the process they took at the poll actually invalidated the illegal vote, but now I wonder if their subsequent ballot was discarded as what has happened in other states. Was it? I have no confidence that it was. Then Dominion. Please tell me how it is that Arizona is sending their ballots overseas to be counted? Who approved this? Who authorized the purchase of this voting system? Why was this purchased when there have been several reports, including from Democrats Elizabeth Warren, Ron Wyden & Amy Klobuchar, that Dominion systems are unreliable and were designed to be able to manipulate the votes? Why was our tax money spent on this? Why is our Secretary of State calling conservatives neo-Nazis on social media? This displays a bias toward a group of individuals that should not be! Arizonans deserve answers, not sitting on your hands! You must keep in mind that YOU work for US and YOU must answer to US! I know very few people that have any faith in this election. I DEMAND a full audit and hand recount of our votes! Without that, you will begin to see people not participate in the electoral process as they believe their voice has been silenced by corrupted politicians and anarchy is bound to ensue. I will be one of those people. Respectfully, Carole Wilson AZ LD 18 Precinct Committeeman Cell: 602-421-6916

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Comments:

Dear Mrs. Fann, I am respectfully asking you to call a SPECIAL SESSION of the State Legislature to investigate the validity of the controversial Dominion software that was used in Maricopa County's recent presidential election. As you are aware, the same Dominion software is peppered with flaws, including numerous back doors and the ability to discard or alter candidate votes to name just two. Numerous experts have testified in this regard and I'm sure you have seen these excerpts on-line. Many Arizona's believe the presidential election tabulations were seriously flawed. In order to allay these fears and concerns, you have the power to call the State Legislature into Special Session to investigate these claims by a detailed forensic audit of all voting equipment as well as a hand count of all voting center ballots. Is there anything wrong with wanting to assure Arizona and the nation that Arizona conducted an honest and legitimate election? Respectfully, Jennifer Ferguson

Subject: Elections integrity and our Party

Dear President Fann,

I hope you're doing well and looking forward to a good Thanksgiving.

I wanted to reach out because I'm worried that Republican refusal to accept the outcome of the 2020 election is going to hurt our party's electoral chances by saying we shouldn't trust the election system. I ran a voting center on election day in Yuma County, and with all the safeguards and checks and balances I observed, I personally trust the integrity of our system - certainly when it comes to the massive scale of fraud that would be required to change any election results.

Aside from losing the White House, and the McSally-Kelly race in Arizona, Republicans across the country and in Arizona had a strong night, taking several seats in Congress and hanging onto several tight Senate seats, as well as maintaining control of our state legislature. By claiming the election was flawed, aren't we discrediting these critical wins and any future narrow wins as well?

In two years, we have a very good shot at flipping the House of Representatives, beating Mark Kelly, and building on our Senate majority - that needs to be our focus. If we claim our election system is broken, I'm concerned that Republican voters might just give up.

You've always been a strong leader in our party, so I know your voice would be important to ensure Republican voters trust our elections, stay engaged, and help us win in 2022. I hope that you can use your influence to help us stop denying the outcome of this election before the denials do irreparable damage to our brand as a party.

Sincerely,

Paul Brierley

The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO
TO: President Karen Fann
FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Arizona 2020 Election Integrity

Dear Senator Fann,

As your constituent, I request that you please take action and investigate our recent election for fraud and misconduct. The integrity of our elections is essential to our republic, and now more than ever the American

people need to be able to trust our system. Please see the work that Michigan Speaker of the House Lee Chatfield is doing by viewing the link below. I encourage you to take a stand on behalf of Arizona as he has for his state on this important non-partisan issue.

Subject: RE: Arizona 2020 Election Integrity

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

For those of you asking to not allow the certification to happen on Monday, November 30th, please be aware that President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Dear _____

Our elections, and more importantly, our faith in elections, are under attack. Please let me know what you are doing to secure the elections in Arizona:

- to ensure our legal votes are not diluted by illegal votes
- to ensure our election process has not been corrupted by foreign software tampering.

Without your strong commitment to ensuring a fair and legal process in Arizona, the public's trust in our great democracy will be irreparably undermined, probably forever. Please do the right thing, and know that your courage will be supported by myself and other patriots.

Sincerely,

ncampbell@azleg.gov

Hi, my name is Maria Dimeo, I live in Maricopa county. I'm upset with the process. We need confidence in our elections. The fact that We The People gave you a Republican majority in the state house, the fact that courts can't move fast enough, and the fact that both sides are divided means you should issue a press release calling for a special legislative session to address the following issues:

- Oversight of the election
- Oversight of certification
- State legislatures choosing the electors

"THE ELECTION THAT IS CLEAR IS THE ONE GIVING YOU A MAJORITY INSIDE THE STATE HOUSE."

If you're not willing to issue a press release within the next 48 hours that you support a call for a special session, so that you can have oversight over these things, then I'm not voting for you or any other republican again.

Call for a special session RIGHT NOW.

Thank you

Maria

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Dear Karen Fann

Our elections, and more importantly, our faith in elections, are under attack. Please let me know what you are doing to secure the elections in Arizona:

- to ensure our legal votes are not diluted by illegal votes
- to ensure our election process has not been corrupted by foreign software tampering.

Without your strong commitment to ensuring a fair and legal process in Arizona, the public's trust in our great democracy will be irreparably undermined, probably forever. Please do the right thing, and know that your courage will be supported by myself and other patriots. Also please remember that many of you are where you are because of the ideals that Trump is upholding.

Sincerely,
Linda Kotzamanis
Prescott AZ 86305

Subject: RE: Count only all legal votes

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

For those of you asking to not allow the certification to happen on Monday, November 30th, please be aware that President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined

above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

Subject: Count only all legal votes

Dear Senator Fann, my name is David Moore and I am calling to insist that there must be a recount of all legal votes (from the 2020 Presidential Election) to be performed in Arizona. I am greatly concerned by the increasingly growing number of voting irregularities reported & fraudulent voting software used in multiple counties throughout Arizona. The integrity of this Election will not be preserved in Arizona if a recount is not performed.

This is the reason why I am calling on you to take action to ensure the Arizona State Legislature upholds the validity of our election process.

Thank you for your time and I look forward to seeing the steps you will take to preserve the integrity of our election through this recount.

Sincerely,
David A. Moore

I read that you are raising concerns about our election here in AZ. I want to thank you for bringing this up, not only for your District but for the integrity of our elections, all of Arizonans and all US citizens. Please keep up the questions, and again thank you for pressing those, such as Katie Hobbs. From my perspective there is either incompetence at best or ill intentions with those involved in choosing the election systems used in AZ. I will continue to pray for you and all of our legislators who hold tremendous power in choosing our AZ electors. We love you and know you are in our prayers.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections.

However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Demand for FAIR and Transparent election

Honorable AZ legislators,

As you have already noticed, there has been massive fraud on the election night and the days after. The insidious interest groups have conducted a concerted effort to rig the election. The integrity of our democracy has been severely devastated and our Constitution and Republic are in grave danger.

As one of your constituents, I would like to remind you that you have the final say over the choosing of electors for our state. According to Article II of the Constitution, the State Legislature has the control of election system, not the Board of Elections or the Secretary of State or the Governor or even the Court.

Given the ample evidence of voter fraud happening in this state, to restore the integrity of the election, I urge you to conduct an emergency state legislature meeting to reclaim the authority over the Electoral College and rectify the fraud that has upended our election process.

Your quick action on this matter will be greatly appreciated.

Sincerely,

Jie Vitelli

From: Karen Fann </O=EXCHANGELABS/OU=EXCHANGE ADMINISTRATIVE GROUP (FYDIBOHF23SPDLT)/CN=RECIPIENTS/CN=2A7BE760744B469197C45D6646442A44-KAREN FANN>

Subject: RE: 2020 Election Integrity

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

For those of you asking to not allow the certification to happen on Monday, November 30th, please be aware that President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector. U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Comments:

I am contacting you to ask you to support our President Donald J. Trump. Please do not certify this election until there is a complete audit of the vote, including a hand recount and a full computer audit of the machines using Dominion Software. Amidst the allegations of election fraud and the national focus that has now fallen upon Arizona with the use of Dominion Software, it is critical that we the people see you taking action to insure election integrity in Arizona, and raising your voice in support of our President in this fight to preserve our Constitutional rights.

I find it odd that you want to do everything by email, and that you wouldn't personally call for a hearing on your own. Appearances are important in politics, and the decision you all are making is a huge mistake. This is a great opportunity to be able to ask questions to people presenting the evidence, and at least show you care to fight for true and fair elections. Matt Braynard will be presenting specific details of all types voter fraud, such as people voting in two states. All his info is accurate with affidavits. It has the appearance that you do not care and are part of the problem. It's absurd that you are handling this by email.

Subject: voter integrity

Dear Representative Noel Campbell

Significant evidence of vote fraud was revealed through data analysis and investigations by Matt Braynard, executive director of Look Ahead America (<https://youtu.be/atkp6fnwk9w>). Other widespread election irregularities are being documented throughout Arizona and the nation all benefiting Joe Biden. Many election experts now estimate that the President won the election in a landslide!

It is clear that there can be no confidence in the integrity of this election in Arizona and many other states. Therefore, I respectfully request that you exercise your authority granted by Article II, Section 1 of the U.S. Constitution and appoint a slate of presidential electors to reelect President Donald J. Trump in the Electoral College.

Thank you for your service to our state and our great nation!

Sincerely,

Dino Cavins

We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

For those of you asking to not allow the certification to happen on Monday, November 30th, please be aware that President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

AMERICAN
OVERSIGHT

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector. U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: WE NEED YOU!!!!!!!

Hi, my name is Mary Ann Chambers, I live in Maricopa County. I am VERY upset with the process. AND I TRUST THAT YOU WILL BE AT MONDAYS PUBLIC ELECTION INTEGRITY HEARING WITH RUDY GIULIANI AND JENNA ELLIS!!! We NEED confidence in OUR elections. The fact that WE THE PEOPLE gave YOU a REPUBLICAN MAJORITY IN THE STATE HOUSE, the fact that courts can't move fast enough, and the fact that BOTH SIDES are divided means YOU should issue a press release calling for a SPECIAL LEGISLATIVE SESSION to address the following issues:

- OVERSIGHT OF THE ELECTION
- OVERSIGHT OF THE CERTIFICATION
- STATE LEGISLATURES CHOOSING THE ELECTORS

"THE ELECTION THAT IS CLEAR IS THE ONE GIVING YOU A MAJORITY INSIDE THE STATE HOUSE."

If YOU are not willing to issue a press release within the next 48 hours that YOU support a call FOR A SPECIAL SESSION, so that YOU can HAVE OVERSIGHT over these things, THEN I'M NOT VOTING FOR YOU OR ANY OTHER REPUBLICAN EVER AGAIN!!!!

Call for a special session RIGHT NOW.

Thank you,

Mary Ann Chambers

Dear Representative Noel Campbell

Significant evidence of vote fraud was revealed through data analysis and investigations by Matt Braynard, executive director of Look Ahead America (<https://youtu.be/atkp6fnwk9w>). Other widespread election irregularities are being documented throughout Arizona and the nation all benefiting Joe Biden. Many election experts now estimate that the President won the election in a landslide!

It is clear that there can be no confidence in the integrity of this election in Arizona and many other states. Therefore, I respectfully request that you exercise your authority granted by Article II, Section 1 of the U.S. Constitution and appoint a slate of presidential electors to reelect President Donald J. Trump in the Electoral College.

Thank you for your service to our state and our great nation!

Sincerely,
Dino Cavins

Comments:

Dear President Fann, Thank you for your service. I understand that the President's legal team will be presenting evidence of fraud and voter irregularities of the 2020 Presidential election on Monday, November 30. It will be up to the AZ Senate to vote on whether or not the elect results are accepted or the Senate votes to approve electors to vote for President Trump. I would strongly encourage you to listen to the evidence and vote that the electors vote for Trump. It is more than apparent that there was voter fraud in our state and also in the 2018 senator election. I consider myself a very informed voter and was quite taken back by Sinema winning the Senate seat after the election was called for McSally. Mysteriously, 40,000 ballots for Maricopa were found in a truck of a car that put Sinema over the top. Interestingly, there were 70,000 more votes for Sinema than the governor in the 2018 election. A reverse of down balloting. A credible political analyst suggests that the democrats used our state to test their voter fraud in 2018. Wow, as an Arizona voter, I feel total disenfranchised. We as Republicans need to stand firm and make sure that all legal votes are counted and all illegal as tossed. Our red state should not be taken over by fraudulent ballots as apparently has been in 2018 and 2020. I thank you for this time in this matter and hope that you will see how important correcting our 2020 voter irregularities by giving the electoral college the right to vote for our state's legitimate candidate. JoElyn Hennington

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

For those of you asking to not allow the certification to happen on Monday, November 30th, please be aware that President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined

above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections.

However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Re: Presidential Electors

Dear Senator Fann:

Significant evidence of vote fraud was revealed through data analysis and investigations by Matt Braynard, executive director of Look Ahead America (<https://youtu.be/atkp6fnwk9w>). Other widespread election irregularities are being documented throughout Arizona and the nation all benefiting Joe Biden. Many election experts now estimate that the President won the election in a landslide!

It is clear that there can be no confidence in the integrity of this election in Arizona and many other states. Therefore, I respectfully request that you exercise your authority granted by Article II, Section 1 of the U.S. Constitution and appoint a slate of presidential electors to reelect President Donald J. Trump in the Electoral College.

Thank you for your service to our state and our great nation!

Sincerely,
Fernando F. Mendigutia

We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Change the certification rules

Comments:

As you may be aware, the State Senate of PA just passed a law to change the certification process. It will be going to their House on Monday for a vote. This will effectively take away from the Gov the certification process and give it back "to the people". Just as it should've been in the first place. I pray and hope that you and our legislature here does the same thing, give it back to the people, just as it should be. If you've followed this, you can see that the PA state Supreme Court ruled against real evidence, the AG did the same. They didn't look at the proof, just party. It's time, no past time for all states to fix this so we don't have anymore "rigged elections". Anyone with Brain one can see and know that Biden never left his basement because "He knew the fix was in". It's just that simple. The machines used by our state and 29 others we made to "fix the election". Now, it's up to you and the rest of the legislature to fix what went wrong, otherwise we'll just be another Socialist Country with no laws, no Freedoms, nothing.

Subject: RE: Presidential election

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

For those of you asking to not allow the certification to happen on Monday, November 30th, please be aware that President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined

above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Madam President Fann, The purpose of this message is to strongly urge you and the entire Senate to carefully consider the testimony you will receive on Monday November 30, 2020 regarding the last election. The future of our Democracy is literally hanging in the balance if there is shown to be any hint of fraud in the voting system, no matter who wins. I would urge you to use your position to urge the Legislators to take control of the electoral process if there is any hint of fraud in accordance with the Arizona Constitution and State law. The only way to restore confidence of the people is for there to be a complete hand re-count of the voting, in all areas. Our entire election system depends on the truth being told about this election, and if fraud is found that it be exposed. Respectfully, Ronald Jackson

Maybe take a look at the integrity projects results. This information alone is enough to call a hearing and ask for a full audit. For example: In a large (over 2000) sample of calls to voters, 44% didn't request ballots in AZ. Who requested those ballots for them? He looked into a variety of factors in all the states having problems, including AZ. He goes through the following summary of findings in the video. Wouldn't be great if you were able to ask him questions, since he will be at the hearing.

I find it odd that you want to do everything by email, and that you wouldn't personally call for a hearing on your own. Appearances are important in politics, and the decision you all are making is a huge mistake. This is a great opportunity to be able to ask questions to people presenting the evidence, and at least show you care to fight for true and fair elections. Matt Braynard will be presenting specific details of all types voter fraud, such as people voting in two states. All his info is accurate with affidavits. It has the appearance that you do not care and are part of the problem. It's absurd that you are handling this by email.

Good evening Senator Fann,

I am writing out of concern that you all are not attending the AZ election hearing on Monday. There is obvious concerns with this election, and hearing the evidence is the beginning of understanding what happened. I am appalled that you all seem to care less about your constituents, that gave you your majority. I've never understood why Republicans refuse to fight for their constituents, when the democrats would do everything they could in this situation. Please know that that we are watching, and we want to elect fighters. If you are unwilling to fight for something so important, it may be time for someone else to take your spot in legislature. How you and your colleagues respond to this, will definitely determine the future of AZ politics. Please do not understand estimate the people of AZ.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Call for a Special Legislative Session immediately!

Hi, my name is Lisa Beckett and I'm a resident of Queen Creek, Arizona. I am VERY upset with this election process. I EXPECT THAT YOU WILL BE AT MONDAYS PUBLIC ELECTION INTEGRITY HEARING WITH RUDY GIULIANI AND JENNA ELLIS!!! We NEED confidence in OUR elections. The fact that WE THE PEOPLE gave YOU a REPUBLICAN MAJORITY IN THE STATE HOUSE, the fact that courts can't move fast enough, and the fact that BOTH SIDES are divided means YOU should issue a press release calling for a SPECIAL LEGISLATIVE SESSION to address the following issues:

- OVERSIGHT OF THE ELECTION
- OVERSIGHT OF THE CERTIFICATION
- STATE LEGISLATURES CHOOSING THE ELECTORS

"THE ELECTION THAT IS CLEAR IS THE ONE GIVING YOU A MAJORITY INSIDE THE STATE HOUSE."

If YOU are not willing to issue a press release within the next 48 hours that YOU support a call FOR A SPECIAL SESSION, so that YOU can HAVE OVERSIGHT over these things, THEN I'M NOT VOTING FOR YOU OR ANY OTHER REPUBLICAN EVER AGAIN!!!!

Call for a special session RIGHT NOW. WE WILL NOT GO AWAY QUIETLY. WHERE ARE YOU MEN/WOMEN OF COURAGE?

Thank you,

Lisa Beckett

Subject: RE: We will not tolerate stealing of this election.

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

For those of you asking to not allow the certification to happen on Monday, November 30th, please be aware that President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined

above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: We will not tolerate stealing of this election.

My family lived in the USSR. I was ashamed by the lie of our leaders and our elections. We didn't have freedom and never had voice.

That is the only reason why we immigrated – it's not possible to live without freedom.

We never thought that we will see the same lie here, in the US... Now USA is like house full of mold. If you don't get rid the mold and sanitize the house, soon the building will be ruined. Your lives, your kids' lives will be ruined. Stop the mold.

We the people, the American electorate, have had enough and we are tired of our freedom, principles, values, and way of life being trampled on by politicians that are only worried about their own skin. We will not tolerate the stealing of this election! You need to wake up because we are not kidding!

I hope you will not be part of the greatest travesty in American history.

Subject: Election Fraud

Hi, my name is Tamara Flosi. I live in Cave Creek, AZ. I'm upset with the election process. We need confidence in our elections or the people will not vote because they know their vote won't count. The fact that We The People gave you a Republican majority in the state house, the fact that courts can't move fast enough, and the fact that both sides are divided means you should issue a press release calling for a special legislative session to address the following issues:

- Oversight of the election
- Oversight of certification
- State legislatures choosing the electors

"THE ELECTION THAT IS CLEAR IS THE ONE GIVING YOU A MAJORITY INSIDE THE STATE HOUSE.

My husband and I both voted, yet for some reason our votes show cancelled. The only thing we can think is because of them making us use sharpies. This is incredibly disappointing.

If you're not willing to issue a press release within the next 48 hours that you support a call for a special session, so that you can have oversight over these things, then I'm not voting for you or any other republican again.

This is not about just President Trump, this is about the truth. It feels very few are courageous enough to stand up for the truth. God will protect those who stand for truth, and those who will not have will have to answer for this. Our nation will never be the same if our representatives won't stand up or are corrupt. Everyone knows the election was rigged, and the democrats are happy about getting away with it, and it feels like Republican politicians should be supporting him. Democrats stick together year after year, whether for good or bad, but republicans seem to oppose each other.

Please do the right thing.

Call for a special session RIGHT NOW.

Tammy Flosi

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector. U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: election fraud

Dear Ms. Fann, I reside in Carefree and am asking you to ensure that the true winner of the Arizona popular vote for President of the United States, Donald J. Trump, receives Arizona's eleven electoral votes on December 14th, 2020, when the Electoral College convenes to cast its vote for this office. Arizona used voting machines produced by Dominion Voting Systems, which were produced for the singular purpose of rigging elections. Because of this very poor decision, I don't know of any Arizonans, including me, who have any faith, whatsoever, that a ballot completed with a vote for President Trump ended up as an actual vote for our President. Elections must be secure and free from fraud, and with the usage of this voting system, that end cannot be achieved. Please represent me by urging your fellow state senators to follow the US Constitution and appoint Republican electors who will exercise their faith and vote for President Trump. Sincerely, Deborah Meier Carr, Esq.

Subject: RE: Demand for Election Integrity

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

For those of you asking to not allow the certification to happen on Monday, November 30th, please be aware that President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined

above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections.

However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Demand for Election Integrity

Good evening Senator Fann, I hope you had an enjoyable Thanksgiving holiday and you and your loved ones are staying healthy during this challenging time. I am writing today to urge you to take a stand for election integrity, if you haven't committed to doing so already. The 2020 elections have been marred by numerous acts of fraud including fraudulently dated ballots, unverified and mismatched signatures, forced-through invalid votes, along with many others. In addition, the new procedures in Arizona which allowed voters to vote anywhere they wanted (outside of their precinct) prevented the statutorily required audit of 2% of precincts from occurring. The reports of fraud and disregard for the law is why it is so essential for the Arizona Legislature to convene for hearings to examine the November 3rd election and ensure integrity in our election process. As I'm sure you are aware, Article 2, Section 1.2 of the United States Constitution grants the State Legislatures the sole authority to select their representatives to the Electoral College, specifically to provide security against voter fraud and election manipulation. I urge you and your colleagues to reclaim and exercise this critical responsibility. This election is about more than just President Trump and Joe Biden. It is about the future of this great country, the integrity and respect for our Constitution and our institutions, and the defense of our inalienable rights. As a proud American who believes in the divinity of the Constitution and sanctity of the right to vote, nothing would infuriate me more than to be disenfranchised by fraudulent votes casted in order to suppress my voice and the voice of the American people. Please help restore voters' faith in our election system by attending the hearing regarding the November 3rd election, listening attentively to the evidence presented, and acting accordingly on the behalf of the voters in Arizona, as we entrusted you to do. Thank you. And may God bless you during this holiday season. Best Regards, Desiree N. Tercek

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Hi, my name is Susie Chase, I live in Prescott Valley, AZ. . I am VERY upset with the process. AND I TRUST THAT YOU WILL BE AT MONDAYS PUBLIC ELECTION INTEGRITY HEARING WITH RUDY GIULIANI AND JENNA ELLIS!!! We NEED confidence in OUR elections. The fact that WE THE PEOPLE gave YOU a REPUBLICAN MAJORITY IN THE STATE HOUSE, the fact that courts can't move fast enough, and the fact that BOTH SIDES are divided means YOU should issue a press release calling for a SPECIAL LEGISLATIVE SESSION to address the following issues: -OVERSIGHT OF THE ELECTION -OVERSIGHT OF THE CERTIFICATION -STATE LEGISLATURES CHOOSING THE ELECTORS "THE ELECTION THAT IS CLEAR IS THE ONE GIVING YOU A MAJORITY INSIDE THE STATE HOUSE." If YOU are not willing to issue a press release within the next 48 hours that YOU support a call FOR A SPECIAL SESSION, so that YOU can HAVE OVERSIGHT over these things, THEN Iâ€™M NOT VOTING FOR YOU OR ANY OTHER REPUBLICAN EVER AGAIN!!!! Call for a special session RIGHT NOW. Thank you, Susie M. Chase

Subject: RE: 2020 Presidential Election results & Trump Legal Team

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the

AMERICAN
OVERSIGHT

credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: 2020 Presidential Election results & Trump Legal Team

Hello Senator Fann, The Trump Legal Team will be presenting evidence of Voter Fraud to the Arizona Legislature on Monday, November 30, 2020 that occurred in our Presidential Election on November 3, 2020. The Trump Legal Team has put together strong evidence & testimonies that this election was not clean & fair. It has been confirmed that Arizona used the corrupt Dominion software in their voting system that was designed to cause voter fraud in ballot tally processes. I am hoping & praying that you will serve the people of Arizona honestly by weighing the evidence presented. I recommend you then take the proper actions necessary to demand a full audit of all ballots to help restore the faith in an honest, clean & fair election process going forward. Thank you for your attention & action on this matter. A concerned Arizona resident, Cindy Ziegler

Subject: AZ integrity

Dear Senate President Fann,

November 28, 2020

I am an extremely concerned Arizona voter. As a tax paying citizen, I can not believe that the state certified such a mistake riddled vote count and just pushed the certification through. Due to all of the discrepancies which occurred in this year's election process, the Arizona Legislature should be bold and ignore the certified vote and vote for the Arizona electoral votes as a whole legislative body, rather than go with the normal electoral process. In this year's very extraordinary vote, that was filled with many stunning irregularity's, the integrity of this year's vote is called into the shadows of doubt! I believe the bravery of the Legislative body needs to shed light and truth and vote for the electoral votes by legislative body! At a minimum, the legislature should hold special session and hear the arguments of the opposing side. Afterall, we still have due process in this country!

Thank you for standing up for our constitution's sacred voting rights!

Sincerely,
Regina Pelto

Subject: AZ Election Hearing on November 30th

Ms. Karen Fann:

As a long-time resident of Arizona, I strongly urge you to attend the hearing on November 30 regarding the state of our 2020 elections. The issues uncovered around the country are nothing short of appalling. If this election cannot be carried out nor completed with 100% confidence, I am not sure that any future elections will be able to be either.

As our representatives in Arizona, your attendance is CRUCIAL to ensure we have all of the information presented by the parties who are urgently trying to have a hearing for what may be the most important election in our lifetime.

Be well, stay safe, and God Bless.

Respectfully,
Jason Gerek

We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration.

The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Your leadership is crucial!

Dear Senators, Representatives and Leaders,

I am Arizona native of now "senior" years with quite a few elections behind me and hopefully a bit of wisdom gained. We have now arrived at one of those "times that try men's souls". It seems to me that anyone with eyes, ears and common sense is now aware that a fraud has been perpetrated against us and against one of our most precious rights: to vote. This has been executed against us by the Democrat Party and their supporters in media, big tech, Hollywood and others.

You as our leaders in Arizona will now be faced with serious decisions to be made on our behalf. You will have to choose real justice, real truth and our Constitution as written. We want you to stand against corruption and the theft of our vote.

Please do the right thing to preserve our Republic. It is you who make our Arizona election rules not the Secretary of State, judges or Governor. Stand strong. I like many are praying for your wisdom and strength! God bless you and thank you for your service.

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1
November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: RE: AZ Congress - hold election hearing - find the Truth

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration.

AMERICAN
OVERSIGHT

The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. Subject: Please set up a public hearing to investigate voter fraud claims

Dear Senators,

I am a libertarian and I plead with you to use your powers to call a public hearing for the election fraud evidence to be heard by the voters. Many people are extremely concerned that the evidence is significant and that our vote is being denied.

Please look into to this to ensure the integrity of this and all future elections. Please restore confidence in system!

Thanks
Sarah

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election

results through changing the statutory selection process for presidential electors.

Subject: Hold a public hearing on 2020 election fraud.

Six years ago my wife and I located to Payson in the great State of AZ to escape the Democrat supermajority of CA. Now the same shenanigans that changed CA are starting in AZ. Stand up to this before it is too late. Hold an official hearing on the alleged fraud conducted during this presidential election NOW, before the electoral votes are cast.

Subject: RE: Presidential Election

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the

credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. Sen. Flynn, I am extremely upset! We are in the fight of our Country's life! The hearing on Monday with President Trumps legal team is critical! I voted for President Trump and I believe my vote is being stolen! Katie Hobbs and Adrian Fontes have pulled the wool over our eyes! They allowed these CORRUPT voting machines to count our votes. They allowed illegal voting to occur, they allowed mis information to be disseminated. Katie Hobbs and Adrian Fontes need to resign ASAP! I implore you to DO YOUR JOB and defend ALL LEGAL VOTES! Defend our State and our Country! All eyes are on our State right now. WE NEED YOU TO ACT NOW! BE PREPARED TO ACT AND SAVE OUR COUNTRY! I AM OUTRAGE THAT OUR STATE HAS ALLOWED THESE FRAUDULENT ACTIVITIES HAVE OCCURRED! STAND UP! DEFEND OUR STATE AND OUR COUNTRY!

Subject: RE: Presidential election fraud

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration.

The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration.

The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: RE: Election Fraud In Arizona

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: RE: Attend Hearings

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration.

The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Dear Ms. Fann,

This morning I was advised that you have not committed to attending the upcoming Arizona State Legislature Election Integrity Hearing scheduled for November 30th, 2020.

“As established in Article 2, Section 1.2 of the United States Constitution, State Legislatures have the sole authority to select their representatives to the Electoral College, providing a critical safeguard against voter fraud and election manipulation,”

Please attend the hearing and take action to protect our election integrity.

All the best,

Jim Lankes

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1
November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: RE: Urgent

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration.

The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Urgent

Hello my name is Cherisse. Today I'm emailing to urge you to support a transparent audit of votes in Arizona to protect all legal votes. There have been proven irregularities nationwide, including with electronic voting systems. Please support electoral transparency and integrity, with an urgent audit of both ballots AND electronic voting systems.

Sincerely,

Cherisse Harrington

AZ State Senate Pres Karen Fann:
AZ Speaker of the House Rusty Bowers:

I am writing to urge you to go to the Hearings in your state. I am a Floridian and an American. I have family and friends in AZ who love your state. I am writing for them and all Arizonians.

Clearly, this election was stolen from WE THE PEOPLE!!!! Everyone especially elected officials should be outraged and want to get to the bottom of this!!! We need fair and honest elections.

My home state of PA is getting to the bottom of this and not certifying the results until they clear up all the voter fraud.

So please go and hear for yourselves all the evidence of voter fraud.

Thank you for your time!! Thank you for caring about America and AZ!!

Subject: Do your CONSTITUTIONAL JOB

To the Republican Members of the Arizona Senate:

It is wonderful news that members of the Arizona legislature plan to meet on November 30th to hear allegations of election irregularities. This is a great first step toward the Arizona Senate and House doing their CONSTITUTIONAL JOB, a riff on the motto of the New England Patriots NFL football team: DO YOUR JOB. The members of the Arizona Legislature took an oath when they were sworn into office to uphold the United States Constitution.

Article II, Section 1, Clause 2, gives to the state legislatures the power to appoint electors to the Electoral College. This is one of those instances when the Constitution grants powers to entities not part of the federal government: powers characterized by federal courts as the exercise of a “federal function.” The power of the Michigan state legislature to appoint electors to the Electoral College is the exercise of a federal function. As such, the “CONSTITUTIONAL JOB” of the Arizona state legislature in appointing electors is exercising power under the Constitution on behalf of all American voters. To continue to do their CONSTITUTIONAL JOB, the full Arizona Senate and House need to investigate alleged election irregularities and determine what to do with Arizona’s 11 electoral votes.

As reaffirmed by the United States Supreme Court in *Chiafalo v. Washington*, this summer, while state legislatures have broad authority under Article II to

AMERICAN
OVERSIGHT

appoint electors, it is not limitless. A state may not select its electors in a manner that violates the Equal Protection Clause by treating voters differently. This appears to have happened in the November 3 Arizona presidential election. What should the Arizona legislature do to properly exercise its federal function under Article 2 of the Constitution? The CONSTITUTIONAL JOB of the Arizona legislature is not to blindly follow state law and ignore suspect election results certified by state officials but rather to investigate further. The CONSTITUTIONAL JOB of the Arizona Legislature is to determine whether the results certified in the Arizona Presidential election were obtained in violation of the United States constitution. If they were, then how can Arizona's electors be properly appointed to the Electoral College? 3 U.S.C. § 2 provides a remedy by giving to the state legislatures the power to step in.

The statute states that if a state has held an election for the purpose of choosing electors to the Electoral College and has failed to do so, for any reason, then those electors may be appointed on a day after the election in such manner as the legislature of the state may direct. An election to choose electors which was conducted in violation of the United States constitution is a "failure" as its results cannot be accepted. The November 3 Arizona Presidential election may be such an election.

Therefore, the "CONSTITUTIONAL JOB" the Arizona legislature must complete, if it determines the November 3 Arizona Presidential election is a "failure", is to uphold and follow the United States Constitution and determine a manner by which to appoint Arizona's electors. The remedy could be to hold a special election limited to presidential electors only; to choose the electors itself; or to craft some other constitutionally acceptable solution.

Please investigate, deliberate and take action to decide the correct path for the Arizona legislature. In such circumstances, faced with evidence of constitutional violations, ignoring suspect election results is a violation of your duty to uphold the United States constitution. All Americans are in this together. Please do your CONSTITUTIONAL JOB.

Elisa Holland

Subject: RE: Please stand up and do duty re election

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your

AMERICAN
OVERSIGHT

frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election

AMERICAN
OVERSIGHT

results through changing the statutory selection process for presidential electors.

Subject: RE: It is not acceptable to not attend Monday's hearing...your constituents are talking!

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration.

Good morning to you both,

I just read an article regarding the hearing the President Trump's team will be presenting on Monday here in Phoenix. The article stated that neither of you had committed to attend. I was shocked to hear that and I truly hope that the article was incorrect as so much of the news is these days.

Both of you hold the highest seats in our State Legislative branch. Both of you were elected by the people of Arizona. Both of you owe your constituency the respect of showing up on Monday and hearing what we have to tell you as people who actually witnessed this year's voting processes. This process isn't about President Trump's legal team, this process is about We the People of Arizona who saw corruption first hand and could not get our Governor to convene the Legislature so we could speak to you directly.

I urge you to commit to being at "our" hearing on Monday. We need to share with you what we saw happen, so you can make an informed decision on how to move forward with regard to the electoral certification of our state.

Thank you,
Sheri Moran

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the

credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Karen Fann - Request for Legislative Session to Hear President Trump's Election Fraud Allegations

Dear Senator Fann,

I pray that you and yours had a very Happy Thanksgiving. I send this email to you to urge you to hold a Legislative Session to hear the allegations from President Trump regarding 2020 election fraud in Arizona.

Arizona's people deserve to know if such fraud occurred. And you, as Arizona's legislative body, have the authority and responsibility to ensure that Arizona's electors put forth their vote based only upon legal votes from the electorate.

I ask that you hold this Session in the next few days because this matter is extremely urgent.

Kind regards,

--

Roger Owers

Subject: RE: Follow PA's example

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration.

The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Election 2020 USA

Hello my name is Diana Matejsek.

Today I'm writing to urge YOU to support a transparent audit of votes in our state to protect all legal votes. There have been proven irregularities nationwide, including with electronic voting systems. I'm asking that YOU support electoral transparency and integrity, with an urgent audit of both ballots AND electronic voting systems.

In addition, it is against the law for tv networks to knowingly report false news. CNN, Fox, & others are reporting that Joe Biden is the, quote, "President Elect." This is not true because a legal election winner has not been declared by official election authorities. Authorities have not made this announcement and states have not certified their votes. Please take action to prevent networks from spreading this dangerous false information, which does material harm and damage to the country. Thank you.

Sincerely,
Diana Matejsek

Subject: RE: WILL YOU BE AT THE HEARING?

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration.

ARIZONA
OVERSIGHT

The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Re: Hearing on voter and election fraud

Senator Fann,

Thank you for your prompt response. I understand the procedures you laid out. None of that prevents you from attending the hearing that Mark Finchem has scheduled on Monday, November 30. You MUST personally attend this hearing and listen to the evidence presented by President Trump's legal team. You need to hear it first hand. Your leadership of the senate and the GOP majority requires it. As a voter in Arizona, I am very concerned that my vote will be disenfranchised by the illegal voting and irregularities with Dominion software. Our electors were chosen by the LEGAL voters in the state of Arizona. You have a constitutional duty to ensure that is the case. All illegal votes must be removed from the count and no certification of votes can occur until the accurate and legal count is determined. There must be an accurate hand audit of all precincts, not just polling centers and all signatures of votes cast must be analyzed. The citizens of Arizona will never have faith and confidence in our 2020 election or future elections if that is not done.

Sincerely,

Jane Hubbard

On Fri, Nov 27, 2020 at 6:51 PM Karen Fann <KFann@azleg.gov> wrote:

Below is the response I am sending to those who have emailed me. With respect to the hearing on Monday, the Arizona Senate has already set up a dedicated email account 2020election@azleg.gov asking the voters to email us with their concerns and documentation of fraud and irregularities so we can act upon that information. Apparently Representative Fincham decided he wanted to have his own hearing to gather information as well. We will be glad to share the Senate information and welcome him sharing any information he is able to gather as well. We are all working hard to make sure this election was fair and accurate.

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results

were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

For those of you asking to not allow the certification to happen on Monday, November 30th, please be aware that President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of

AMERICAN
OVERSIGHT

the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector. U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Hearing on voter and election fraud

“State Legislatures are uniquely qualified and positioned to hold hearings on election irregularities and fraud before electors are chosen. As established in Article 2, Section 1.2 of the United States Constitution, State Legislatures have the sole authority to select their representatives to the Electoral College, providing a critical safeguard against voter fraud and election manipulation. “ As president of the Arizona Senate you must show leadership and attend the hearing scheduled for Monday, November 30 with the Trump Campaign’s legal team to hear the evidence of voter and election fraud in our state.

Subject: RE: PLEASE DO NOT CERTIFY MONDAY

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your

AMERICAN
OVERSIGHT

frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election

Subject: Voter Fraud

Dear Karen

Significant evidence of vote fraud was revealed through data analysis and investigations by Matt Braynard, executive director of Look Ahead America (<https://youtu.be/atkp6fnwk9w>). Other widespread election irregularities are being documented throughout Arizona and the nation all benefiting Joe Biden. Many election experts now estimate that the President won the election in a landslide!

It is clear that there can be no confidence in the integrity of this election in Arizona and many other states. Therefore, I respectfully request that you exercise your authority granted by Article II, Section 1 of the U.S. Constitution and appoint a slate of presidential electors to reelect President Donald J. Trump in the Electoral College.

Thank you for your service to our state and our great nation!

Sincerely,

Dear Karen, Whatever it takes to reveal and reverse the illegal vote tallies due to fraud you should do so. Why? I have lived in the beautiful town of Prescott for 18 years. I am Republican and have consistently voted for you. Now it isn't a question of the tables being turned, we are about to experience a transformation that the left has been dreaming of for more than 50 years, a revolution. I started to think about you and your family business that has been at center of Prescott as a point of reference. With Biden your business will fail from the emergence of a third world economy. You will become a minority in a sea of democratic legislators and illegal voters. Please find a way. Put it before the people. We will support you. We love our state and want it to be a leading light.

Subject: Plea to NOT certify Electors in Arizona
Importance: High

Dear Senator Fann,

You are no doubt aware of serious allegations of pervasive voter fraud and election irregularities in Arizona and the recent evidence of foreign and domestic actors' attempts to usurp the will of the American voters.

As such, I am asking you to please protect the integrity of the 2020 Presidential Election and **not certify any electors** until the State of Arizona has thoroughly **pursued these allegations** and **conducted a full audit of your election results** (including Republican observers no more than three feet away, verification of signatures and the dates on which the ballots were received, etc.).

Millions of Americans are watching Arizona right now and pleading for you to take a firm stance to enforce election integrity. Fair and free elections are a protected right, and indeed, one of the foundations upon which our Republic rests. If voter fraud and corruption are allowed to go unchecked, and unpunished, we **will** lose our nation in this generation.

Thank you in advance for being resolute in this matter. I pray that we will look back on this moment with gratitude for those leaders who stood with honor and fortitude at this critical juncture in our nation's history.

Sincerely yours,

Julianne E. Curtis
Nashville, TN

Subject: RE: please stand for fair elections

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the

credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election

results through changing the statutory selection process for presidential electors.

Subject: SPECIAL SESSION

Hi, my name is Rose Ann Puma, I live in (city or county). I am VERY upset with the process. AND I TRUST THAT YOU WILL BE AT MONDAYS PUBLIC ELECTION INTEGRITY HEARING WITH RUDY GIULIANI AND JENNA ELLIS!!! We NEED confidence in OUR elections. The fact that WE THE PEOPLE gave YOU a REPUBLICAN MAJORITY IN THE STATE HOUSE, the fact that courts can't move fast enough, and the fact that BOTH SIDES are divided means YOU should issue a press release calling for a SPECIAL LEGISLATIVE SESSION to address the following issues:

- OVERSIGHT OF THE ELECTION
- OVERSIGHT OF THE CERTIFICATION
- STATE LEGISLATURES CHOOSING THE ELECTORS

"THE ELECTION THAT IS CLEAR IS THE ONE GIVING YOU A MAJORITY INSIDE THE STATE HOUSE."

If YOU are not willing to issue a press release within the next 48 hours that YOU support a call FOR A SPECIAL SESSION, so that YOU can HAVE OVERSIGHT over these things, THEN I'M NOT VOTING FOR YOU OR ANY OTHER REPUBLICAN EVER AGAIN!!!!

Call for a special session RIGHT NOW.

Thank you,

AMERICAN

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections.

However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Re: Please hold a proper 2020 General Election fraud hearing

Dear Senator Fann,

Please know how much I truly appreciate your immediate reply over this Thanksgiving weekend to my concerns and the concerns of millions of Arizona citizens.

Regarding one point noted in your email because it is truly the "sticking point":

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

We, the citizens of Arizona, through rife fraud did not elect Joe Biden. Therefore, our electors will be certifying this fraud along with others involved in the certification process - including the Secretary of State.

I sincerely hope you will remain steadfast and do your utmost to reverse this travesty of corruption once the lawsuits permit you to open those floodgates.

Moreover, I appreciate your hopefulness that "all efforts will be made to ensure safe elections in the future".

However, should this fraud and corruption be allowed to stand there will never be fraud free elections ever again in this state and in this country.

Yes, it is that dire and every person knows this deep down, that is why a "business as usual" approach of implementing this rule or regulation or passing this piece of legislation here or there will do nothing, because the precedent for outright, in your face corruption has be set in stone.

May the course of this fraudulent certification be reversed.

My thanks and with respect,
Victoria Dolan

Subject: RE: Please hold a proper 2020 General Election fraud hearing

Below is the response I am sending to those who have emailed me. With respect to the hearing on Monday, the Arizona Senate has already set up a dedicated email account 2020election@azleg.gov asking the voters to email us with their concerns and documentation of fraud and irregularities so we can act upon that information. Apparently Representative Fincham decided he wanted to have his own hearing to gather information as well. We will be glad to share the Senate information and welcome him sharing any information he is able to gather as well. We are all working hard to make sure this election was fair and accurate.

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

For those of you asking to not allow the certification to happen on Monday, November 30th, please be aware that President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the

voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector. U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections.

However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Please hold a proper 2020 General Election fraud hearing

Dear Senator Fann, I'm writing to you on this Thanksgiving morning because the 2020 General Election fraud is that overwhelming and can not be ignored. Our country is at stake. I watched the Pennsylvania State legislature committee conduct their hearing on the election fraud in their State and it should be watched by every citizen. Repeatedly referenced in the hearing was Article 2 of the Constitution: "State Legislatures are uniquely qualified and positioned to hold hearings on election irregularities and fraud before electors are chosen," the press release said. "As established in Article 2, Section 1.2 of the United States Constitution, State Legislatures have the sole authority to select their representatives to the Electoral College, providing a critical safeguard against voter fraud and election manipulation." (excerpt from the "Just The News" website) It is deeply disheartening to hear the Attorney General of our state, and to some degree the Governor, present a "nothing to see here" attitude. Please disregard the naysayers, and as our representative, listen to the citizens who demand and deserve a fraud free election and hold a very specific hearing to address the fraud that did occur in our state! Your time and consideration are appreciated. Respectfully, Victoria A Dolan

Hi,I hope you had an excellent Thanksgiving! I am a long time Republican resident of Arizona and a huge fan of our President Mr. Trump! I watched the voter fraud hearing in Pennsylvania in its entirety earlier this week and the evidence is compelling. I was informed a similar hearing will be taking place here in Az on Monday. I would like to be involved in any way I can! I understand the gravity of keeping our President in the White House another 4 years. I am also starting to see a path to victory with these hearings. Please help support our President in undertaking your constitutional right in Article 2 Section 1.2 as the state legislature has the sole vested authority to appoint the electoral college delegates.Thanks, Nate (Az resident for over 30 years)

Wake Up!!! We the people are pissed off and are fed up!!! Follow the Pennsylvania Judge and State Legislatures. We don't need you; if you not willing to fight for what is legally right. We the people elected you to insure our country stays a free land. A quote from EPOCH Times: "The judge who ordered Pennsylvania to not certify the results of the 2020 election wrote in an opinion on Friday that the Republicans who filed the related lawsuit will likely win the case. Pennsylvania Commonwealth Judge Patricia McCullough made the assessment as part of an opinion explaining her rationale for blocking Pennsylvania's election certification. A group of Republican lawmakers and candidates sued the Keystone State earlier this week, arguing that the state legislatures mail-in voting law "Act 77" violated the commonwealth's constitution." We are demanding you take action, there is nothing more important! Verify each vote is legal. If we the people lose in court, then it is ok, it's the law. But, if you don't do anything, you become part of the problem. Our country needs YOU. Do something now!!! What more proof do you need - <https://www.youtube.com/watch?v=WGRnhBmHYN0>

Subject: RE: Monday meeting

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration.

The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Greetings from Tucson my name is john i am a Registered Republican and i would like to let you all know that i hope that the Arizona Republican party Supports the president. and and we the people in our Quest for the truth we all know that trump won the election the night of the election every single illegal vote and fraudulent vote in Arizona should be made null and void this includes votes for trump that were switched to biden instead we have all of the proof and evidence to over turn the results of this election now is the time for All Republicans Nationwide to unite and not only support our president but also the 70 million plus voters who voted for OUR President Donald John Trump lets all remember that that now is not the time for political correctness when it comes to the integrity of this and any future elections in all reality if only paper ballots would have been used this problem would not have happened not to mention all the mailed in ballots it is this Americans sincere suggestion that the only people who should be allowed to mail in a ballot are those American citizens who are living abroad. It is time that Arizona Republicans Reclaim their constitutional Rights in matters concerning the choosing of electors As a american i refuse to allow my Republic to be taken hostage by a socialist Agenda its time for action. And to those Republicans who are on the Fence concerning this election remember this let it burn inside your memory it is the will of the people that all politicians are Obligated to Oblige We the people have made our choice to Re Elect Donald John Trump to be The Next president Of Our Republic no we are not a Democracy we are a Republic. Now i really wish to also say thank you to all Republicans here in Arizona who have not caved to Democrats demands in i wish i could attend this conference. I would also like to say that were not out of the woods yet this election is not over yet but if this election is not over turned than the future of our Republic and

future Generations of Americans will cease to exist. Every single instance of voter fraud illegal ballots including dead people. and ballots that were mailed to those living in our Republic who are not US Citizens also if there were any instances where Republicans were not allowed to preform the sacred duty of being a poll watchers and being denied their authority to view all ballots during the counting process Etc i would also like to take the time to address the possibility of even more ballots that are being found or that have already been manufactured but yet claimed as newly discovered ballots in bidens favor. In closing i would like to say i live in Tucson pima country nevertheless i still wanted to reach out to you Karen Fann i cannot write to Raul griljava he is a democrat so i have reached out to my fellow Republicans in the Arizona Legislature

Subject: MONDAYS ELECTION MEETING-THIS IS OUR COUNTRY! NOT COMMUNIST COUNTRY!!

Hi, my name is Kenneth B. I live in (Maricopa, AZ). I am VERY upset with the process. AND I TRUST THAT YOU WILL BE AT MONDAYS PUBLIC ELECTION INTEGRITY HEARING WITH RUDY GIULIANI AND JENNA ELLIS!!! We NEED confidence in OUR elections. The fact that WE THE PEOPLE gave YOU a REPUBLICAN MAJORITY IN THE STATE HOUSE, the fact that courts can't move fast enough, and the fact that BOTH SIDES are divided means YOU should issue a press release calling for a SPECIAL LEGISLATIVE SESSION to address the following issues:

- OVERSIGHT OF THE ELECTION
- OVERSIGHT OF THE CERTIFICATION
- STATE LEGISLATURES CHOOSING THE ELECTORS

"THE ELECTION THAT IS CLEAR IS THE ONE GIVING YOU A MAJORITY INSIDE THE STATE HOUSE."

If YOU are not willing to issue a press release within the next 48 hours that YOU support a call FOR A SPECIAL SESSION, so that YOU can HAVE OVERSIGHT over these things, THEN I'M NOT VOTING FOR YOU OR ANY OTHER REPUBLICAN EVER AGAIN!!!!

Call for a special session RIGHT NOW.

Thank you,

Kenneth B
Tax Paying Citizen,
THIS IS THE PEOPLES USA!!

Subject: RE: Voter Fraud

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration.

The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Comments:

Please require that Arizona listens to the voter fraud discussions and takes a close detailed audit and forensics study to find the truth (ballet by ballet). I have looked at the statistics and can easily identify the unexplainable problems with the votes. Respectfully, Doug and Pauline Chase Arizona (we voted)

Subject: RE: Urgent public hearing

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration.

The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Comments:

Dear Senator Fann, I write to urge you to use your Legislative & Constitutional authority to stand up against the Democrats whom have interfered & tainted our election process. I have read much information regarding the Dominion Voting machines which were designed in such a way to be easily compromised via an internet connection. Also in question are use of Sharpie which were handed out in Chino Valley & other locations and supposedly our Secretary of State assured us that was not a problem, which is not true. Other information is available on how those votes were rejected & never recorded. There are hundreds of violations recorded by people whom signed affidavits under penalty of perjury witnessing voter fraud not only in Az, but in MI, WI, PA, NV & GE, all of which use Dominion Voting Systems. Since Democrats have compromised our election process this election should not be certified for Biden. President Trump should be awarded, through your Constitutional authority & two legislative power, Arizona's electoral votes. If this interference & fraud is allowed, the Republican Party may never win another election. Our freedom & liberty are at stake. Thank You for your time & your public service. Sincerely, Jeff Bunch

Comments:

Dear Ms. Fann, as a registered voter in Pima County, I am requesting that you fully support President Trump's efforts to present his case to AZ legislators and the American people. Based on the evidence presented to date, I firmly believe that the 2020 general election was severely compromised. To deliver this election to Joe Biden given what we know so far would be a travesty. Four years of watching the democrats and liberal left try to destroy President Trump (and thereby ME, one of his supporters) without EVIDENCE is akin to treason. Please stand up and stop this election from being stolen. Sincerely, Carole Lindly

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Re: AZ Vote Audit

Just a reminder for those who can affect and ensure the integrity of our AZ Elections, I know there will be a hearing on Monday and I am asking as one of the many citizens in AZ that you do whatever you can to oversee that adequate measures are taken to ensure our votes were counted which means any voter who was not legal should not be counted as well as any concerns with electronic, ballot harvesting, signature matching need to be investigated & audited. This is for now and the future of all our elections.

Fraud or illegal actions of ANY type cannot be tolerated and must be acted upon immediately.

Thank you, I look forward to seeing the hearing on Monday.

Dear AZLEG,

Please demand a full audit of the AZ election results immediately.

As a long time citizen/voter in AZ as well as a business owner, I am very disturbed about voter irregularities in our state and nationwide.

The only way to ensure the trust and integrity of the voting public in this election and for all future elections is to demand a full external audit of our votes regardless of party preference so we can be assured the results are accurate and fair. And to identify any operation deficiencies so that we know our vote is secure and counts and correct them.

We count on you to be our voice and be fully transparent and ethical in your approach and this can only be ensured with a full audit and operational assessment of our process in AZ.

AMERICAN
OVERSIGHT

Sincerely.

Erin E Kelley

Subject: RE: election CONSTITUTION

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your

frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election

results through changing the statutory selection process for presidential electors.

Comments:

I'am emailing on the concerns of the Presidential election. There is ALOT of evidence and SWORN affidavits from citizens. The Constitution is on your side . You have the final say. Your governor had no right certifying a corrupt and stolen election. There is so much evidence and affidavits . So, this is the highest office President of the USA . There is alot more fraud, corruption stealing going on here in the presidential election. So, please do your job and the right thing . WE THE PEOPLE ARE FED UP AND SICK AND TIRED OF HOW THIS HAS GONE. STAND UP FOR THE RIGHT THING AND OUR CONSTITUTION. Thank you for your time, God Bless!!!!

Comments:

Dear Ms. Fann, I am writing to implore you to listen closely to the hearings regarding election fraud in Arizona being conducted this upcoming Monday. There have been far too many irregularities in our election in Arizona, and most specifically, Maricopa County, for my wife and I to feel comfortable accepting the election results. We have contacted our legislators, and I have personally spoken with a number of them at a gathering in Fountain Hills only to be told either, "Our hands are tied" or by the Maricopa Board of Supervisors, "No, you're wrong, there has been no evidence of fraud." How can people know about evidence if they have no desire to look for it? How can voters be expected to trust the very people who are possibly complicit in the fraud, or who will be the ones embarrassed by revelations of their incompetence which may have led to it? Our requests for outside investigations and audits have fallen on deaf ears and have made my wife and I, both stalwart Republicans, seriously question the future of the Arizona Republican party. This Monday will be the first time that Arizona legislators will be publicly forced to face actual evidence of voter irregularities in Arizona. If they are even a fraction of what was presented to the Pennsylvania legislature this past week, you cannot ignore it. To simply rubber stamp certified elections results, which are shrouded in a specter of fraud would be both unethical and embarrassing for the Arizona legislature and will frankly alienate a significant portion of your base. We are demanding that you follow the courageous acts of the Pennsylvania legislature and use all that is within your legislative powers to not allow the Arizona legislature to back questionable election results. Sincerely, John Andrews

Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration.

The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. Subject: Urgent Election Feedback

Dear Senator Fann

As a registered voter in District 1, I have become increasingly concerned and outraged over the way our most recent election was conducted. Because of apparent fraud, and what looks like an ongoing coverup of multiple types and levels of fraud, I have no confidence in the results put forth by our election officials or the Secretary of State.

It is critically important that you as my legislator stand up for what is right and not be lulled or bullied into accepting a false, or at least highly questionable, status quo. It is imperative that all voting machines, software, and ballots be immediately secured, sequestered, and scrupulously analyzed by the most qualified experts we can find.

When wrongdoing or its coverup is found, you must be ready to demand that law enforcement authorities in Arizona do their job. If they don't or won't, you must be ready to take action on behalf of the disenfranchised. The legislature is not an inferior branch of government to the courts or the executive, and must not wrongly subjugate itself or embrace irrelevance.

But while we wait for the wheels of justice to turn, you as my representative have the ability and the obligation to act now.

Although you are surely well aware of the solemn responsibilities given you under the United States Constitution (Article II, Section 1) to be the final or corrective authority for appointing presidential electors, I want to emphasize in the strongest terms that this is the defining moment of your career. However difficult, you and your colleagues must not succumb to threats, facile excuses, or go-along-to-get-along rhetoric.

The power is in your hands, please don't drop the ball.

Dr Hayle Aldren

Subject: Election Integrity

The Honorable Karen Fann;

My name is Greg Dennerlein and I am a resident of Chandler, AZ LD #17. I am writing to you today as senior elected representative in the state legislature regarding the alleged widespread fraud from mail-in ballots to electronic tampering and EVERYTHING in between.

As a concerned resident of Arizona, I ask that you attend the Trump Campaign's hearing in the legislature at 9am on Monday November 30 and listen carefully and ask questions. More importantly, I ask you to reflect on the day's voluminous evidence of elaborate, coordinated and wanton incidences of fraud and ask yourself if this is the type of elections we should be conducting in Arizona and the United States of America?

If you answer NO, this is unacceptable, then you need to vote NO on any certification of the Arizona elections and ABSOLUTELY vote NO on seating any Electors for Cheating Joe Biden.

You also need to immediately call a special session of the legislature to sort out this Joe Biden induced nonsense!!

My taxes pay your salary and I will be resolute in following your votes on this important issue -- as I see it as a threat to our great Republic and an assault on our Constitution. Indeed, this is the most profound Constitutional crisis in more than 100 years!!

Just ask yourselves, why are we here? and how did we get here? Well, Joe Biden is on video claiming to have put together the most comprehensive voter fraud apparatus in history....the evidence is overwhelming that something rotten happened on Nov 3rd so I believe him!! Do YOU?

With respect,

Greg Dennerlein
234-500-7995

--

Cheers,
Greg

The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration.

The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: 2020 Presidential Election Integrity

Importance: High

I am an American citizen residing in Fridley, Minnesota. I am concerned about the integrity and legitimacy of the 2020 Presidential election. As Arizona is one of the battle ground states where the election is very close, I urge you to ensure a fair, free, and legitimate Presidential election. There appears to be an extensive amount of evidence of fraud in Arizona and as the state's legislators it is critical that you reclaim your state legislative authority and do your constitutional duty by selecting Arizona's electoral college delegates based on the actual election results whereby all legal votes are counted and no illegal votes are counted. The integrity of this election and all future elections is at stake. Thank you.

Sincerely,
John Adams
1478 Royal Oak Court NE
Fridley, MN 55432

Subject: RE: Trump support

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you. First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Subject: Voter Fraud Hearings

I recieved word that you would not be attending the voter fraud hearings in Arizona. If I am incorrect, please disregard this message but if you are, in fact, skipping out on these hearings I am highly disappointed. As an elected Republican politician, there will never be a more important fight in your political career. Your voters voted for Trump. If you allow their votes to be silenced and stolen by systematic fraud, then you are not worthy of your office. There will be no return to "business as usual" if we lose the republic as founded. Stand up for your constituents. Whether you believe fraud occured or not, you owe it to your voters to hear the evidence and fight for them if necessary. Do the right thing.

Sincerely,
Alexander Nunez

We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you. First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1
November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Saving the Republic

Dear House and Senate members of AZ:

I am a proud, tried and true, American. My grandmother Lillian, whose maiden name is Adams, was a direct descendant of John Adams and John Quincy Adams. Patriotism runs thick in my blood. When I see the globalist attack on America, I stand up and fight for my freedom and those of others. After hearing numerous unfoldings of massive voter fraud in this nation, I cringe. Ordinary citizens of all walks of life are coming forward with sworn testimony to speak out against voter fraud. They are risking their livelihoods. The evidence is appalling and overwhelming when you consider the numbers.

On Monday, there will be an evidentiary hearing in AZ and the testimony will be mind blowing. I ask you to consider attending the hearing or at least watch it on Right Side Broadcasting via YouTube. **This election was stolen and this fight isn't about Trump. It's about fighting for our Republic and the American people's most sacred right to vote.** If Biden gets away with fraud, I believe this nation will lose to the global elitists and the socialist agenda who I believe, rigged this election. We can't allow this to happen.

I am begging for your support of an open ear with these hearings on Monday. I ask that you consider protecting this nation from irrefutable election fraud so that the American people can be assured that they can trust the election system for generations to come.

Yours truly,

Hank Fagnant

Blessed are the pure of heart for they shall see God. (Matthew 5:8)

We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined

above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1
November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Thank you Mary. That's a good question re the counting of votes after Nov. 3. I will check with legal council on Monday. And yes, I agree, our SOS is definitely favoring the democrats based on her own statements.

Subject: Re: Election

Dear Sen. Fann:

Thank you for your response. However, since the counting of the votes went past Nov. 3, I question whether the date offered in the legal counsel's opinion takes precedence. Further, as far as the Secretary of State certifying the election, she should be disqualified from that decision due to her blatant and very public disdain for President Trump and his supporters. Katie Hobbs has repeatedly mocked President Trump and his supporters in social media. She publicly called Trump supporters Nazis. Her involvement in this election should be invalid and nullified.

We ask you to show courage and do your part in correcting this fraudulent election. There should definitely be legal remedies you can exercise in light of what has transpired in the election scam.

Best regards,
Mary Baldwin

Subject: RE: Election

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the

live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. Comments:

I demand a full audit of the votes for President, Senate, and House. I want this done with streamed cameras on all the ballots that are counted, so that the public can watch, as well as the observers. I expect the observers to be close enough to identify the votes on each ballot. We deserve a trustworthy election in Arizona.

Subject: Hearing on AZ Election

Heard you are not attending the hearing.

Why?

Your Secretary of State has stated publicly that Trump voters are Neo-Nazis, and yet she still was allowed to be in charge of the vote

Your counting machines are NOT certified.

Your Secretary of State released the Certificate to prove no Republicans bothered to show up.

She didn't realize she was exposing the fact that a Republican is REQUIRED to be present and part of the process, by State law. I have seen no official statement from any elected official regarding this certification, so I must assume the count was completed with uncertified electronic equipment.

This hearing is a pivotal step in YOUR education, and you should be there. If you don't believe it is not in your constituents best interest for you to be informed on matters concerning the election, perhaps you should resign your seat.

Hope to see you there, still employed and working for your Arizona constituents.

We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Election Security

Dear legislators,

PLEASE protect our constitutional rights and stop the steal of our 2020 election! At the hearing on Monday please look at the massive amounts of evidence. I've seen the data, read all about the changes that were made to the voting process and listened to the voters and pollsters testify to massive election interference. We'll never have a fair and just election ever again if you don't do something. The numbers don't lie and they don't match up. Everything is on the line. I have NEVER been so disturbed by what has occurred in our critical swing states. You have the power to fix this so I'm begging you to protect we-the-people!!! Thank you.

Subject: RE: Meeting with Trump team

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you. First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1
November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: RE: Election Fraud must be investigated and certification questioned!

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your

frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election

results through changing the statutory selection process for presidential electors.

Subject: Election Fraud must be investigated and certification questioned!

My name is Claire Honeycutt. I live in Mesa in Maricopa county.

I am very dismayed to see that our election process may not have been fair. If the people can not be certain that their vote counts, we are no longer a republic. Moreover, I fear the ramifications of over half the country believing the election was not fair. Current polls say even 30% of Democrats think the election was stolen.

I implore you to look carefully at allegations of fraud with an open mind.

If there are enough to cast doubt on the election, you have no choice but to declare that the vote can not be certified (you as legislatures ALONE have this responsibility per the US constitution). This will send the vote to the House or Representatives. It is the only path forward. Certifying fraud will only lead to complete division of the country - and maybe worse.

Stand up for the truth!

Know that Republicans who don't stand with MAGA now - will be primaries OUT! The base is more fervent than before.

~Claire

Subject: Hearing in Arizona on Monday

Karen,

Will you be attending the hearing that Rudi Giuliani and Jenna Ellis are hosting in Arizona on Monday? You need to hear the evidence. If you truly believe it is an American's democratic right to vote, then you need to stop this steal and protect all future elections. It is your duty to speak for the people of Arizona and the people of the United States of America.

Thank you for your service,

Amanda Owen

Subject: Election recount

Dear Senator,

Every American has the Constitutional right not only to vote but to have that vote and every other legal vote cast, verified and counted. We also have the right for legal votes not to be dilute with the count of illegal ballots or vote count manipulation.

It is, therefore, incumbent upon you to not only protect the integrity of all elections for the citizens of Arizona, but also to protect every American voting in a Federal election from having their vote, cast in good faith, from being cancelled out by the counting of fraudulent ballots.

DO NOT throw off your responsibility to all the voters of Arizona and all voters from sea to shining sea. We deserve your best effort, and only your best effort, to sanitize the Arizona tally, from the top of every legal ballot to the bottom. Protect the integrity, not only of the State of Arizona, but of yourself, no matter who the victor may be. That is suppose to be the American way.

Best regards

Georgia Carroll
American Citizen

Subject: special session

AMERICAN
OVERSIGHT

Hello,

I am writing in an attempt for you to follow the constitution and hold a special session in regards to electors for Trump. Everyday that has passed since the election confirms the overwhelming amount of voter fraud in this election. You are working for the people and swore an oath to the Constitution of the United States. Even the media is now being forced to admit there is evidence of fraud. With even a small amount of fraud present, it's time to use the process the founding fathers laid out to remedy a fraudulent election. You must follow the constitution hold the special session. 74 to 80 million voters spoke on the 3rd. Every computer glitch and other amount of fraud went to one side of the aisle. The nation and world is watching. If you can't bother to look into it than you must be bought and paid for. Either side should be following every avenue to ensure a free and fair election. People have died in combat for that right. Don't trample on every veteran who paid that ultimate price. Follow the constitution and remedy this fraudulent election. Arizona is better than this. This is activity seen in third world countries. Time to step up and honor your oath. When elected officials don't follow their oaths. Others who have also taken oaths will have to follow theirs. Against all enemies foreign and DOMESTIC. Thank you for your time

Subject: RE: Call for a special session RIGHT NOW.

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration.

The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Call for a special session RIGHT NOW.

Here is what we suggest you tell your local legislators - by phone

Hi, Senators! My name is Perry Sung, I live in Phoenix city. I'm upset with the process. We need confidence in our elections. The fact that We The People gave you a Republican majority in the state house, the fact that courts can't move fast enough, and the fact that both sides are divided means you should issue a press release calling for a special legislative session to address the following issues:

- Oversight of the election
- Oversight of certification
- State legislatures choosing the electors

"THE ELECTION THAT IS CLEAR IS THE ONE GIVING YOU A MAJORITY INSIDE THE STATE HOUSE."

If you're not willing to issue a press release within the next 48 hours that you support a call for a special session, so that you can have oversight over these things, then I'm not voting for you or any other republican again.

Call for a special session RIGHT NOW.

From: Karen Fann </O=EXCHANGELABS/OU=EXCHANGE ADMINISTRATIVE GROUP (FYDIBOHF23SPDLT)/CN=RECIPIENTS/CN=2A7BE760744B469197C45D6646442A44-KAREN FANN>

Subject: Monday Hearing

Dear Senator,

I am writing to request that you please attend the hearing with the Trump Team Monday. Please give them a fair chance to present their case and to listen to what they have to say.

We the people of the United States of America and President Trump humbly ask that you seek the truth in this election. I pray that you will seek wisdom, guidance, and clarity when it comes to doing the right thing for our country.

I beg of you to please hear their case on Monday, not just for me and the future of my children but for you in the future of your family!

Sincerely,
Amy Stephens

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the

election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Election Hearing

Comments:

I am writing to express my concern over voter fraud and to request that you attend the upcoming hearing where evidence of voter fraud will be presented by Donald Trumps legal team. Please hear this evidence with an open mind. We should all be concerned about fair and clean elections. No fraudulent votes should be counted. Nor should we ever allow voting machines to be connected to the internet where other nations could hack in and affect the vote. I am asking you to stand for truth and clean and fair elections.

Subject: RE: Tomorrow's Meeting Attendance

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration.

The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. Dear Senator,

Free and fair uncorrupted elections MATTER. That's why we have Article II, Section 1.2. TAKE IMMEDIATE ACTION NOW!

No reasonable person can look at this TOTAL DISASTER state election and want this kind of precedent for our nation. Democrats, Mainstream Media and Big Tech may like the "projected" outcome now, but that is NOT how the law works. DO YOUR JOB NOW OR YOU WILL BE VOTED OUT OF YOUR JOB.

Subject: Extremely Urgent - schedule a Hearing to Investigate Election Fraud
Importance: High

Dear Speaker Bowers,

I am a resident of New Jersey but more importantly I am a citizen of the USA. Because the results of the presidential election in Arizona affect all US citizens, and because there is overwhelming evidence of election fraud in Arizona, I am respectfully requesting with the highest possible urgency that you schedule a legislative session to review the evidence of fraud. As you may be aware, the evidence includes more than a hundred affidavits from eyewitnesses of egregious criminal acts, illegal barring of vote auditors from overseeing the counting of hundreds of thousands of ballots, and much more. Under the US Constitution it is the responsibility of state legislatures to ensure the integrity of federal elections. I firmly believe that the current counts do not reflect the will of the citizens of Arizona. This is a crisis not only for this election but also to avoid public erosion of confidence in the results of all future elections. It is the solemn responsibility of the Arizona legislature to investigate and ensure the electors represent the will of voting citizens.

Respectfully yours,
Tom Duffy
Randolph NJ.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: RE: Election Hearing

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your

frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election

results through changing the statutory selection process for presidential electors.

Subject: Election Hearing

Dear Sir/ Madam,

I am writing in response to being told that many of the members within the legislature, are refusing to attend the hearing about the fraud committed during the 2020 election. I do implore that you change your mind. The people deserve a fair and honest election. As it apparent that did not transpire in the great state of Arizona, this burden now falls on to the shoulders of those that they have voted into office, You.

Please ensure that the constitution is begin upheld in your state.

God Bless you all ❤️

Subject: Hold Fraud AND ATTEND Hearings, Throw out the Fraudulent Results and Certification, Send Trump Electors or Resign

Sylvia, Sonny, and Karen,

Attend the fraud hearings. If you don't you might as well resign now. You won't win again- unless you've paid some to Dominion for a 2-3% voting overage. I don't know if that will be enough though. Your names are all over the internet right now. You're been revealed as backstabbing never-Trumper RINOs. The republican party is now Trump's whether you like it or not. The populist movement has taken over full force and your only hope of re-election is through Dominion cheating. Will it be enough?

You can redeem yourselves. Attend the hearings and vote to throw out the fraudulent results. Count the votes cast by the constitution and law only. **GROW A PAIR!** The democrats would have already decided to use their legislative powers, and would have already said they're sending their electors.

You have the power to do this. You have the evidence to justify it, and the Trump team is going to put that evidence out for you to consider this upcoming week. We're watching to see if you're representing us, and the nation is watching too.

We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

AMERICAN
OVERSIGHT

Dear Senator Fann,

I hope and pray you will attend the hearing on Monday November 30, 2020 to listen to potential evidence of voter fraud in Arizona. If after the hearing, you believe there was fraud, you **MUST** stand up for what is right. The citizens of Arizona deserve to know if their elections are fair. If this election was not fair, and you do nothing, we will no longer live in a free society, and life as we know it will never be the same.

God bless Arizona and The United States of America!

Beth Guard

Proud US Citizen

Subject: RE: 2020 Election

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the

credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Subject: 2020 Election

Dear Senator Fann,

The people of this country are quickly losing hope that their voices even matter anymore. Are we living in the United States of America or a third world country?

I want a fair election and for every legal and legitimate voice to be heard and counted. Unfortunately, it seems that is not happening and democracy is taking a back seat to personal bias and agendas. There is enough hard evidence now to know there was widespread election fraud across our nation. I am calling on our elected officials, of every state, to audit their votes. Without this we may never know the legitimate winner of any of these races or the true extent of the corruption that has taken place and that is just not acceptable. The people will never believe or trust an election when you have biased representatives like Katie Hobbs, who in 2017 actually tweeted “@realDonaldTrump has made it abundantly clear he’s more interested in pandering to his neo-nazi base than being @POTUS for all Americans.” The fact that she is in charge of the election process in Arizona is appalling and on that basis alone there should be a new election!

I don't care which "side" you are on. We must not allow an election to be stolen. Elections have to be fair and unbiased or we lose everything our country was founded on. This should be overwhelmingly bi-partisan because today may be the day Republicans freedoms are taken away, but tomorrow just might be yours.

It seems like our Representatives believe if they keep quiet long enough Donald Trump will just fade away and this will all be over. I'm here to tell you, this is not going away and 77 million Americans will not stand for a coup against our President.

I'm praying for a great awakening for our politicians, our media, our churches, and our people. It's time to pick a side. You are either going to stand for this country and it's people for truth and justice or you are going to sell us all out. You are either going to be on the right side of history or you are going to be the reason this country falls.

I pray you choose wisely because our Republic and it's people are counting on you.
Let our voices be heard, truth prevail and justice be served or our country will be lost forever.

Sincerely,
Michelle Holt

Subject: Urgent!! Protect Our Republic and Elections

Dear senator/representative,

Our nation's future as a constitutional republic is hanging on the balance of actions by state legislators in a few states, including Pennsylvania. Your urgent and decisive action is needed to defend it.

The public hearing held in Gettysburg on 11/25 brought into public view with sworn testimonies asserting large scale frauds, confirming the suspicions already held by many that the 2020 election was actually a coordinated effort to steal an election and push our nation towards a socialist dictatorship in the likes of Venezuela, Cuba or communist China.

I am very grateful to PA state Senator Doug Mastriano who only spearheaded the aforementioned public hearing which exposed the conspiracy, but also is working on righting the wrong by bringing up a joint resolution to return to the legislature the

AMERICAN
OVERSIGHT

constitutional authority of appointing the electors. This is not just about supported the candidate truly representing the will of the people of your state, but also about restoring the integrity of our election process and the public's faith in it.

I urge you, elected representative in Pennsylvania, to support the senator Doug Mastriano's resolution with all your might. The fate of our nation and also the GOP depend on all of us, but you in particular, taking the right action at this important juncture, and this brave patriotic act will be remembered by the people and by history.

Respectfully,

Lielei Wahlmann

The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election

results through changing the statutory selection process for presidential electors.

Subject: Fw: 11/30/2020 Hearing

Sent from my Galaxy Tab A

We the people need you to be the leaders we elected. Stand up and lead the fight against this massive election fraud, to save our Republic! There is serious concern for election integrity, the use of Dominion voting machines and smartmatic software is alarming! This election was bias, Republicans and Libertarians were not allowed in the counting rooms from the beginning. Witnesses are being threatened if they come forward, ridiculous! If we fail to investigate right now, I fear there won't be a remotely honest election again. You have a constitutional

duty to the people of Arizona and we urge you to use that power.

I strongly urge you to listen to the hearings and select pro-Trump electors!

Sincerely,
Roger H. Traylor.
Barbara A. Traylor

Subject: RE: Please, ATTEND the hearing!!

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the

credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Trump legal team hearing in AZ Nov 30th

AMERICAN
OVERSIGHT

Dear Senator Fann,

Rumor has it that you will not be attending the Trump legal team hearing on Monday, Nov. 30th. I hope this is not true. It is important to see and hear the facts of election fraud that occurred in AZ so it can be fixed now and moving forward. Please do your job in representing the overwhelming majority of Arizonans who voted for President Donald Trump and Republicans down the ballot.

Thank you for standing for truth!

Respectfully,

Denise Carr
Arizona Resident

Subject:	2020 arizona election irregularities

Comments:

Hi Senator Fann, I live in the City of Litchfield Park. I'm a naturalized US citizen born in Vietnam and now a retired police officer. My family escaped a communist regime in 1975 and were fortunate enough to become citizens of the greatest country in the world. I have voted for both democrats and Republicans throughout my voting history. For the last 16 years, I have been a registered Republican because I easily identified with the core conservative values of the party. Since the 2016 election, my commitment to the republican party was immensely increased predominately due to President Trump and everything he was able to accomplish, despite overwhelming resistance from democrats, Republicans, and the media. This 2020 election has made me doubt the worth of my vote. Facts and evidence of voting irregularities in Arizona are increasing by the day. If you do a simple search on the internet, you will find unbiased information showing the results in arizona to be inaccurate. My biggest concern involves all the mail in ballots that were susceptible to fraud. It's been reported that 36,000 illegals voted in this election. In addition, it's been reported that republican poll watchers were denied any meaningful oversight of ballot counting...arizona law requires poll watchers from both parties to have the ability to contest the validity of ballots. The dominion machines should have never been used...Texas found they were not reliable and Canada won't even use dominion despite thats where dominion is from. Why did the secretary of state stop counting the night of the election? Arizona should have been able to complete the ballot counting by November 4th like the majority of the other states...thats just unacceptable. Arizona legislators in good consciousness can NOT allow the certification of these ballots due to the many irregularities. The only remedy is to count the legal votes and remove all the illegal votes. An audit that allows a true inspection of ballots will clarify many of these irregularities. The legislators need to retake their election authority from the executive members and immediately initiate a resolution to rectify the election results. It's disgusting to me that Republicans in the arizona house and senate are not aggressively taking public action to expose these irregularities. Where is our republican governor and republican attorney general? We need republican leaders to actually LEAD and not sit idly by while this

election is stolen by dishonest means. Please be the warrior that we need and rally the rest of the warriors in this critical time in history...time is of the essence!!! Honestly, I'm tired of seeing Republicans getting abused and just accepting defeat in our current 2 tier justice system. Please stand up and do the right thing for our country, otherwise these corrupt practices will continue and fester in our governing. If our party allows the radical left to steal this election, then they will ultimately destroy our republic. Thank you in advance, Ryan LeNguyen

Subject: RE: Election Fraud

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you. First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1
November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Election Fraud

AMERICAN
OVERSIGHT

Dear Ms. Fann,

I am encouraged that a hearing concerning election fraud will be held on Monday, November 30.

I will be attending the support rally, on the same date, at the Hyatt Regency. Will you be in attendance at the hearing? Or at the rally?

I strongly suggest that our elected Republican legislators show up and represent the citizens of Arizona with respect to the discovered election fraud.

We must unite to fix the current election malfeasance. Please be in attendance at the hearing and give a few minutes of your time to the rally Patriots who stood together and voted for Republican candidates.

Thank you for your reply.

Sincerely,
Tonya Sky

Subject: Election integrity

I request a 2020 Election full audit, matching signatures, checking for dead voters, ghost voters, voters who voted in other states, voters who voted illegally from PO Boxes, UPS stores. I also demand a computer forensic audit of the election machines including an audit of the flash drives. I have no confidence in the Arizona 2020 General Election. Please read Sidney Powell's lawsuits against Michigan and Georgia, including the exhibits. I have no confidence that my votes weren't flipped by a foreign country. I also want Dominion software and anything like it prohibited from future elections. The evidence of fraud is overwhelming. We cannot in good conscience certify this election without a forensic audit of the voting machines and of the election results.

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: RE: Monday's Hearing on Election Integrity

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration.

The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. Subject:	Monday's Hearing on Election Integrity

Comments:

Dear Madame President: I'm a precinct committee woman and have worked for many Arizona Republican races in this election cycle. It is my understanding that President Trump's legal team will be in town on Monday, asking legislators to contemplate the fraud that occurred in Arizona's election. Like me, I hope you find it concerning that there are 3 precincts where the GOP won all down-ballot races in scope, including the US Senate, but Trump allegedly lost the Presidential race. Alarming to me, there are also 10 precincts where the GOP won all down-ballot races in scope except for the US Senate and Presidential races. (Source: Marissa Hamilton of Strong Communities) I'm asking you to stand up, unwaveringly, to protect the legitimate votes in Arizona that re-elected President Trump. Please do whatever is necessary in your capacity as President of the Senate. I believe we are at a crucible for our country and if you and other legislators don't hold the line, we will never have another legitimate election in our country. Please don't let the flag fall on your watch. Sincerely, Gloria Dean

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Constitutional Duty

Hello,

Just a reminder that it is your Constitutional duty (federally not part of state law) to call yourself into session and vote for electors rather than simply sitting back and ceding your duty to the Secretary of State.

Subject: RE: ELECTORS

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you. First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: STOP THE CERTIFICATION OF THE VOTES

Comments:

November 28, 2020 This is my 3rd time emailing you. I am a fourth generation of Arizona. I love my state and have traveled many places within the state. I grew up when there were dirt roads and four way stop signs just outside of Phoenix. I have seen Arizona grow to an enormous never ending city. I can not recall however the protest to the extent that we are seeing now. Most of my life I stayed away from politics because I felt that corrupt people were the ones in control and none of them were worth voting for. I was asked a few years ago to vote and make a difference. I did, I researched and voted and became consumed by politics and find that more corruption is out there than I had ever imagined. You have an obligation as an elected official to do a job and to take that job seriously. You should have called for a SPECIAL SESSION when there was issues with voting fraud. You should have had the backbone to look into the allegations and research each and every one of them. It should not have taken a meeting with the Presidents Lawyers to look into these criminal activities. Arizonans are protesting for a very good reason. We know that the election is being stolen and we know that you can stop this! If it takes a HAND COUNT OF THE VOTES FOR AN AUDIT then do it, please. The evidence that is coming out is from Arizona Citizens, the ones that have elected you. If you were not invited to the meeting downtown in Phoenix, then please go anyways and show up! You are important and can find a way to stop the Certification of the FRAUDULENT Votes.

Subject: Election fraud

Dear Ms. Fann and Mr. Campbell;

Significant evidence of vote fraud was revealed through data analysis and investigations by Matt Braynard, executive director of Look Ahead America (<https://youtu.be/atkp6fnwk9w>).

As a retired statistical /data analyst specializing in health care fraud detection, I am willing to bet my 27-year career that the outcome is not an anomaly, but a fraud.

When you add the empirical information, such as how did Biden get 1,040,000 votes in Maricopa County when Obama only received 542,000, this does not pass the smell test.

I have trained state and federal agents to use data in criminal case development and the available data for this election is textbook perfect! This election is riddled with fraud

Other widespread election irregularities are being documented throughout Arizona and the nation all benefiting Joe Biden. Many election experts now estimate that the President won the election in a landslide!

It is clear that there can be no confidence in the integrity of this election in Arizona and many other states. Therefore, I respectfully request that you exercise your authority granted by Article II, Section 1 of the U.S. Constitution and appoint a slate of presidential electors to reelect President Donald J. Trump in the Electoral College.

Thank you for your service to our state and our great nation!

Sincerely,
Jay Loden

Subject: RE: Special session

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration.

The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Appeal to AZ State Legislators

Nov 23, 2020

Hello my name is Linda Tucker

Today I'm writing to urge YOU to support a transparent audit of votes in our state to protect all legal votes. There have been proven irregularities nationwide, including with electronic voting systems. I'm asking that YOU support electoral transparency and integrity, with an urgent audit of both ballots AND electronic voting systems.

In addition, it is against the law for tv networks to knowingly report false news. CNN, Fox, & others are reporting that Joe Biden is the, quote, "President Elect." This is not true because a legal election winner has not been declared by official election authorities. Authorities have not made this announcement and states have not certified their votes. Please take action to prevent networks from spreading this dangerous false information, which does material harm and damage to the country. Thank you.

Linda Tucker

Subject: RE: Hearing voter fraud.

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration.

The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Constitutional Duty

Hi Ms. Fann,

I am writing to let you know that there are a lot of people in Arizona and across the country that are counting on you to follow your Constitutional duty to find out the TRUTH of the election. I understand that you plan on skipping the hearing that the Trump lawyer team is holding on Monday. I strongly encourage you to do the right thing and attend to hear all the EVIDENCE. We the People KNOW there was an **injustice** in this election and a lot of that fraud occurred in Arizona. Don't you think you owe it to your constituents and the REST OF THE COUNTRY to support your President and set the election to rights? The country is watching what you do, along with your colleagues and the citizens will remember what you decide to do. Are you going to do the RIGHT THING? Or are you going to stand with the Deep State establishment that is on the wrong side of this? I pray you choose the right thing.

Sincerely,
Kimberly Hollingsworth
A concerned citizen and supporter of the TRUTH and JUSTICE

We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration.

The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: RE: 2020 Election

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. Subject: Certification

Dear Representative,

It was most disappointing to learn of the certification of the election. Soon you will have the opportunity to delay, postpone, or decertify the results as tallied. This is exactly what "We The People" demand you do. Certainly you should have observed, with each passing day, the unexplainable, mysterious, and impossible "anomalies" (A.K.A. fraud) appearing within the vote totals in our state, as well as 6 others. Yes, "Every Legal Vote Must Count", none the less, every illegal, fraudulently cast attempt to steal an election must be nullified/discarded!

We will be monitoring closely to observe your decision in the coming days. This is about much more than THIS election but instead retaining the right of "We The People" to freely choose OUR government.

Respectfully,

Joe Hopf

District 25

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: **What do you have tomorrow that's more important then attending the hearing tomorrow?**

Good day Ms. Fann,
Did I read correctly that you are refusing to attend the hearing tomorrow in the state you represent? Are you not an American first and foremost? Is it possible you can leave politics at home and attend a hearing to show you are committed to a fair election? Your choice if it is true suggests to me you are not representing your constituents fairly by refusing to hear evidence that suggests voter fraud. It looks more like you are playing politics and possibly tied to the deep state by simply denying facts. Would you not want a fair election if it was you who had concerned as to your election if the tables were turned? I hope you will clear your calendar your prejudices and your mind so as to think see and hear as an American. Just a reminder you represent the People not yourself. Thank you for your time and consideration to do the right thing, show up at the hearing tomorrow.

Respectfully,
Dory O'Toole

Subject: RE: Voter Fraud 2020 election

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the

credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

Subject: Monday Public Hearing amd your duty to attend

Hello

Word is out that you are not planning to attend the hearing on Monday regarding the fraud allegations. You are an elected representative and it is your duty to be there. No one is confident in how this election was handled. There is what amounts to massive proof In statistical and cyber data. If you do not attend the hearing you are failing all Americans no matter what party. Our country depends on a fair election. Every legal vote must be counted and every illegal vote must go.

Sincerely

JJ Hertz

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: My request for a transparent audit

Dear Congresswomen/Congressmen and Senators,

I'm reaching out to ask each of you to defend our constitutional rights and request a transparent audit of all votes in Arizona immediately!

I've seen the data, read all about the changes that were made to the voting process (fast-tracked), and listened to the voters and pollsters who testified in the Pennsylvania hearing. I just turned 50 and I have NEVER been so disturbed by what has occurred in many of our critical swing states.

You all have the power to fix this and protect all legal votes by demanding a transparent audit of all AZ votes - both the

AMERICAN
OVERSIGHT

ballots and the electronic voting system. We the people NEED answers to the proven irregularities nationwide!

If the AZ electoral votes are perfected without a transparent audit, I believe the majority of voters will lose all confidence in our ability to perform fair and just election.

Everything is on the line. There has been no greater cause in my lifetime, so I'm speaking up and begging for your attention and support.

I'll be watching the hearing in AZ on November 30th. Thank you for your time.

Sincerely,

Kim Harvick

To: Chris Olson <beachcruising2400@gmail.com>
Subject: RE: From arizona resident Chris Olson

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your

frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election

Subject: propose Legislation (split Electoral College votes)

Please propose legislation to split Electoral College votes. Because Article II, Section 1, Clause 2 of the US Constitution empowers each state legislature to determine the manner by which that state's electors are chosen. Such will better represent the varied viewpoints of the people. Because winner-take-all is unrepresentative, while distributing the vote proportionately is categorically more fair. Such will also help to dispel the idea of Blue states or Red states. That will proactively diffuse objection or revolt toward end results that aren't deemed to match the broad view. Thanks for considering it.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Call a special session - Please hear me out

Hello,

As a concerned resident of Arizona I am not happy with what I'm seeing regarding the Arizona election. I'm seeing evidence after evidence pour in on how insecure our election was. How do I know my vote went to the right candidates? I am only one vote, but my one vote is the bedrock of our constitutional republic.

There are too many vulnerabilities in the system and the statistical evidence is overwhelming. The truth will continue to come out, and those who are on the right side of this will show and those who are on the wrong side of this will also show. We the conservatives of Arizona are not going anywhere and we will remember who PROACTIVELY supports investigations into fraud and misconduct. We don't need lip service, we need action. We will know who is taking action and who is sitting back.

We know Dominion came in and the rules were changed that are new for this election specifically regarding the digital review process of votes (or technically called digital adjudication) I was one of the voters who pressed the green button and I was never told I was handing off my vote for someone else to digitally adjudicate. I never gave permission to give away my vote!

Representing we the people I am strongly and respectfully directing you to please hold a special legislature session to look into Dominion and overall election and format legislature to contest the vote and electoral votes. Our republic and very sense of the bill of rights are at stake.

We the people are not going anywhere.

Thank you for your time
Chase

Subject: RE: Corruption

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration.

The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Corruption

Hi, my name is Ed Burdett, I live in Gilbert. I'm upset with the suspect voting process. We need confidence in our elections. The fact that We The People gave you a Republican majority in the state house, the fact that courts can't move fast enough, and the fact that both sides are divided means you should issue a press release calling for a special legislative session to address the following issues:

- Oversight of the election
- Oversight of certification
- State legislatures choosing the electors

"THE ELECTION THAT IS CLEAR IS THE ONE GIVING YOU A MAJORITY INSIDE THE STATE HOUSE."

If you're not willing to issue a press release within the next 48 hours that you support a call for a special session, so that you can have oversight over these things, then I'm not voting for you or any other republican again.

Call for a special session RIGHT NOW.

Subject: AUDIT

AMERICAN
OVERSIGHT

Senate President Fann,

Please work with Senate Republicans to have a verifiable audit of the 2020 AZ election returns. We've seen many unhandled things during the official vote count in many states. Arizona is one of the disputed states. We need assurance that our votes have been counted and that our election was clean. On Monday, Rudy Giuliani and his team will present their evidence of AZ voting irregularities. Please participate and heed what is presented. If an audit is not possible then the vote should not be certified.

I've read tweets by our Attorney General Hobbs. I do not trust her, especially with my vote.

Thank you. Jim Hardy (Dewey, Country Club)

Subject: Urgent!! Protect Our Republic and Elections

Dear Fellow Republican,

Please don't be part of certifying this fraudulent election. There is overwhelming evidence that this election was stolen by the Democrats. The politicians, media, and social media are trying to silence the more than 73 million people who voted for our great President Trump. If you certify this election and disenfranchise the people who have voted for Donald Trump, I can guarantee you that you will never be reelected to this office and will never be elected to any other office again.

We the people, the American electorate, have had enough and we are tired of our freedom, principles, values, and way of life being trampled on by politicians that are only worried about their own skin. We will not tolerate the stealing of this election! You need to wake up because we are not kidding!

AMERICAN
OVERSIGHT

I hope you will take this advice seriously and not be part of the greatest travesty in American history.

Sincerely,

Xin Liu

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined

above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1
November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: RE: Monday hearing/Election

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. To: Karen Fann <KFann@azleg.gov>; Russell Bowers <RBowers@azleg.gov>
Subject: Monday hearing/Election

Dear President Fann and Speaker Bowers:

As you are aware, Secretary of State Hobbs has a history of injudicious tweets which underscore a highly partisan character, a disdain for the President, and should be cause for concern about her role in the election process.

Beginning in September, 2015, following Trump's announced intention to seek the presidency, she spotted individuals wearing Trump shirts in an airport and tweeted,

There are Trump t-shirts. And people not embarrassed to wear them. In airports.

On October 22, 2016, she tweeted,

There is so much deplorable at Trump rallies it's hard to keep track.

On August 12, 2017,

The president is on the side of the freaking Nazis. Don't just say stuff - DO SOMETHING!!!

On August 17,

@realDonaldTrump has made it abundantly clear he's more interested in pandering to his neo-nazi base than bing @POTUS for all Americans.

Secretary of State Hobbs has demonstrated a clear inability to run a clean, fair election. The allegations in Sidney Powell's complaints filed in Michigan and Georgia make serious allegations. Though the exhibits were not attached, the complaint references Exhibit 1 with these comments:

The same pattern of election fraud and voter fraud writ large occurred in all the swing states with only minor variations, see expert reports, regarding Michigan, Pennsylvania, Arizona and Wisconsin.... Indeed, we believe that in Arizona at least 35,000 votes were illegally added to Mr. Biden's vote count.

Reading the complaint, especially the portions dealing with the Dominion software/hardware and the Smartmatic software, there should be great cause for alarm in Arizona which also used the Dominion systems. The alarm is heightened given the unhinged tweets from our Secretary of State.

I have no confidence in our Secretary of State nor in the election system. Much time will be required to determine what

actually happened and in many instances, evidence may have already been destroyed.

The Powell complaint cites 50 USC 20701 on the retention and preservation of election records and asserts “a wide pattern of misconduct with ballots” which will show “preservation of election records have not been kept; and Dominion logs are only voluntary, with no system wide preservation system.”

So what is to be done? A detailed investigation and audit of Arizona’s election is imperative to restore voter confidence. While time is now the issue, fraud must not be allowed and this election appears to be irredeemably compromised.

The only remedy, pending a detailed investigation, is the invoking of Article 2 of the U.S. Constitution and appoint electors.

This step would invoke intense criticism; however, this nation cannot survive a stolen election. I urge you to take this necessary step and simultaneously begin an investigation of the election process in Arizona.

Governor Ducey’s statements are alarming—“I trust our election system. There's integrity in our election system. Joe Biden did win Arizona.” How can there be trust and integrity with no examination, especially given the assertions in the Powell lawsuits and an unhinged Secretary of State?

There is no integrity in a vote by mail system period. The majority of European nations ban vote by mail, having experienced much fraud. Our allowance of this practice should be halted and the election results carefully scrutinized.

Respectfully,
Jay

Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration.

The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Monday 11/30/2020 hearing

Hello,

I have heard that you will NOT be attending this Monday's, November 30th, most IMPORTANT hearing.

I am hoping that this is not true., and that you are in fact attending. This hearing is extremely importance to not only Arizona but for the integrity of our elections, our nation and its constitution.

Please advise if you are attending or not. Your response is requested as soon as possible as this IS most important for ALL Patriots' of this state to know.

Respectfully,
Geralyn Kwit

Subject: RE: Arizona Hearing - Your failure to attend will be remembered

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Audit the 2020 Vote in Arizona

AMERICAN
OVERSIGHT

Dear Senator Fann,

As your constituent, I request that you please take action and investigate our recent election for fraud and misconduct. The integrity of our elections is essential to our republic, and now more than ever the people of Arizona need to be able to trust our system. I encourage you to take a stand on behalf of Arizona, and please move to audit the 2020 election before the results are certified. Thank you.

Sincerely,

Laura Larkin

Subject: RE: Audit the 2020 Vote in Arizona

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined

above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Ms. Fann, Because the U.S. Constitution (Art II Sec1) provides "that each state shall appoint, in such a manner as the legislature thereof may direct, a number of electors, equal to the whole number of senators and representative to which the state may be entitled in the congress" I am boldly asking you to do your solemn duty toward protecting integrity in the vitally important election by NOT certifying any electors UNTIL the state audits the election results with a full recount, with Republican observers no more than three feet away, and with a full verificatio of signatures and the dates on which the ballots received. Our nation now critically depends on you doing your duty to insure that "we the people" are convinced everything has been done to the utmost level of integrity, lest the nation's citizens lost trust in their most important institutions, and we the lose the republic forever. You have a charge to keep an I ask you firmly and humbly please do your duty in keeping it. Thank you, Julia M. Mckee, life long Arizona resident

Dear Legislator,

We the people have the right to a fair and true election. Due to the evidence of fraud this election has failed. When this occurs, the legislature has the authority and responsibility to choose the slate of electors.

As a voter and as an American citizen, I am asking you to step up to the plate, and do your duty for those that you represent. Please consider approving hearings to remedy the election and allow the legislatures to pick the states electors.

Thank you,

Thomas mcMahon

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election

results through changing the statutory selection process for presidential electors.

Subject: Monday's hearing

Dear Karen Fann,
AZ Senators:

I am hearing through posts that you will not be attending this Monday's, November 30th, most IMPORTANT hearing. I am hoping that this is not true. This hearing is of the utmost importance to not only Arizona but for the integrity of our elections, our nation and its constitution.

I am extremely disturbed as to the voter fraud picture I am seeing:

Dead people by the thousands, mail in ballots after the election dates, no verified signatures and voting machines taped with flash cards and other means.

Please advise if you are attending or not. Your response is requested as soon as possible as this IS most important for ALL Patriots' of this state to know.

Thank you.

Subject: RE: Audit the 2020 Vote in Arizona

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined

above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

Subject: Audit the 2020 Vote in Arizona

Dear Senator Fann,

As your constituent, I request that you please take action and investigate our recent election for fraud and misconduct. The integrity of our elections is essential to our republic, and now more than ever the people of Arizona need to be able to trust our system. I encourage you to take a stand on behalf of Arizona, and please move to audit the 2020 election before the results are certified. Thank you.

Sincerely,

Subject: please support an Article 2 Remedy

Dear Legislator,

We the people have the right to a fair and true election. Due to the evidence of fraud this election has failed. When this occurs, the legislature has the authority and responsibility to choose the slate of electors. As a voter and as an American citizen, I am asking you to step up to the plate, and do your duty for those that you represent. Please consider approving hearings to remedy the election and allow the legislatures to pick the states electors.

Thank you,

Kathryn Hecker

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Audit the 2020 Vote in Arizona

AMERICAN
OVERSIGHT

Dear Senator Fann,

As your constituent, I request that you please take action and investigate our recent election for fraud and misconduct. The integrity of our elections is essential to our republic, and now more than ever the people of Arizona need to be able to trust our system. I encourage you to take a stand on behalf of Arizona, and please move to audit the 2020 election before the results are certified. Thank you.

Sincerely,

Gordon Dibble

Subject: RE: Nov 30 Public Hearing on Election

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined

above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1
November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

Subject: Nov 30 Public Hearing on Election

Ms. Fann,

My husband, my daughter, and I are all registered Republicans in the state of Arizona. We all love our state, but love our country more. We are glad to hear, that you will be attending the hearing tomorrow via Zoom to listen to the vital testimony that will be given, showing the egregious fraud that happened in our Presidential election.

We implore you not to certify the results and allow the President and his team to show you the widespread fraud that happened throughout our country and specifically here in Arizona. This fraud, is not about turning around a few votes, one way or another, it is specifically to have all LEGAL votes counted, and all ILLEGAL votes tossed. To ensure integrity in our voting system. If we can not have confidence that our elections are honest and truthful, what makes us different than any other banana republic? Do we become like Venezuela, Cuba...?

I don't know if you support President Trump, and in all honesty it does not matter. What should matter is that you support the people of Arizona and our country in wanting to have free and honest elections. I didn't vote for Obama, but I accepted that he was the President, I didn't question the legitimacy. However, this 2020 election is full of fraud and out right dishonesty, not only against President Trump, but we the people. We can not allow the fraud perpetrated by the Democrats to be upheld by our State.

I thank you for your time and consideration.

Sincerely,

Denora Drajpuch

Subject: Support Transport Audit

I'm writing to urge YOU to support a transparent audit of votes in our state to protect all legal votes. There have been proven irregularities nationwide, including with electronic voting systems. I'm asking that YOU support electoral transparency and integrity, with an urgent audit of both ballots AND electronic voting systems. In addition, it is against the law for tv networks to knowingly report false news. CNN, Fox, & others are reporting that Joe Biden is the, quote, "President Elect." This is not true because a legal election winner has not been declared by official election authorities. Authorities have not made this announcement and states have not certified their votes. Please take action to prevent networks from spreading this dangerous false information, which does material harm and damage to the country. Thank you.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: RE: Please support an Article II Remedy

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the

AMERICAN
OVERSIGHT

credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the

election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Please support an Article 2 Remedy

Dear Legislators,

We the people of Arizona have the right to a fair and true election. Due to an overwhelming evidence of fraud, this election has failed the people of Arizona and the United States. When this occurs, the legislation has the authority and the responsibility to choose the state electors. As a voter and an American citizen, I am asking you to do your duty for those that you represent. Please consider approving hearings to remedy the election fraud and allow the legislators to pick the state's electors.

Thank you,
Tim Ford

Subject: RE: Please support an Article II Remedy for this past election

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration.

ARTICLE II
OVERSIGHT

The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: RE: Please support an Article II Remedy

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your

AMERICAN
OVERSIGHT

frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: RE: Please Protect Voting Integrity in Arizona

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration.

The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: RE: AZ Legislature Needs to Investigate Election Fraud in AZ

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you. First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1
November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: AZ Legislature Needs to Investigate Election Fraud in AZ

AMERICAN
OVERSIGHT

As a resident, I am pretty appalled by the lack of support from AZ legislature for investigating fraud in the 2020 elections. You and other legislative members better do your job and nominate the Republican electors or we are going to protest in front of your office every day until you are fired and removed from office. I promise you on behalf of AZ residents, this will not go unnoticed and you will never be re elected.

You should plan on attending Jenna Ellis and Rudy Giuliani's meeting at the Hyatt. We will be waiting to see you there.

Karen, As a legal resident of Arizona and these United States of America I feel it incumbent upon me to reach out to you about the alleged fraud that has taken place in our election. This is serious and it's YOUR job to represent the people of this great state who want every legal vote counted and not one illegal vote counted. Listen and take seriously the evidence that is presented on Monday. If you want a future in the Republican party you need to take a stand. We're watching how you handle this. Don't buckle under the pressure. If you do your job we'll remember and if you don't we'll remember that too. Do the right thing. Our democracy is in your hands and you will be a tool either for good or for evil; choose good. I'm praying for you to be strengthened and for you to walk forward with courage and integrity. You were made for such a time as this. Truly, Chelsea Henrickson Surprise, AZ

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Fair Elections: Please support an Article II Remedy

Dear Legislator,

We the people have the right to a fair and true election. Due to evidence of fraud, this election has failed. When this occurs, the legislature has the authority and responsibility to choose the slate of electors. As a voter and as an American citizen, I am asking you to do your duty for those that you represent. Please consider approving hearings to remedy the election and allow the legislatures to pick the state's electors.

Thank you,

Robb Norton

From: Karen Fann </O=EXCHANGELABS/OU=EXCHANGE ADMINISTRATIVE GROUP (FYDIBOHF23SPDLT)/CN=RECIPIENTS/CN=2A7BE760744B469197C45D6646442A44-KAREN FANN>

Subject: RE: Accurate Election

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1. The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Election 2020

Dear Arizona State representative,

I am writing to encourage you to give serious thought (and prayer, if you pray) to the fraud allegations that have come up in the recent 2020 presidential election.

Before I say anything else, I want to express my understanding that it is not always easy to stand up for what is right, to be brave when those around you are not. But it is my hope and prayer that you are.

As an American citizen interested in truth, it is my hope that you keep an open mind and heart, and that you listen to the evidence that is going to be brought forth Monday, and that you consider not only what is good for this election and the country today, but what our Constitution supports and declares.

Voter integrity and free and fair elections are the cornerstone of our constitutional society and if we can't trust that our elections will be conducted with honor, truth and in full transparency, our country as we know it will cease to exist. It is incumbent upon us to act, through you, as our representatives, to uphold and defend the Constitution upon which is our bedrock.

This isn't about President Trump. This is about something greater and more powerful than any one man. This is about our nation, its foundations and its future.

I pray that you consider these words and the sentiment behind them as you make the decisions that will have an inevitable impact on all of our American lives.

It is not easy to make a decision that requires such bravery. I'm certain you, as an elected official, understand this. Bravery is not an easy task when the eyes of the world are upon you, and when the price may be steep, but I and many others have faith that you will do the brave thing and that you will stand up for what is right.

Thank you for your time,

be brave and be well,

Yo-at Silverman, Hayward, California.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: RE: Election 2020

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the

credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1

November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass. The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

I sincerely hope you are planning to attend the public hearings this Monday .. concerning the 2020 election! Our great state of Arizona should not have had all this embarrassing attention!! Our state really messed up --- voting and counting going on for days after November 3rd .. when no one should have stopped the counting process. ..allowing for more corruption!! FLORIDA had their election done without all these issues!! Only LEGAL and ALIVE Arizona citizens should have voted in our state's election...and only ONCE! I certainly hope you and all members of our state's legislature will attend these public hearings --- I and MANY others will be there! ... praying for our state and country!!!

Subject: Protect the Integrity of the Election

Dear Senator,

Every American has the Constitutional right not only to vote but to have that vote and every other legal vote cast, verified and counted. We also have the right for legal votes not to be diluted with the count of illegal ballots or vote count manipulation.

It is therefore, incumbent upon you to not only protect the integrity of all elections for the citizens of Arizona, but also to protect every American voting in a Federal election from having their vote, cast in good faith, from being cancelled out by the counting of fraudulent ballots.

DO NOT throw off your responsibility to all the voters of Arizona and all voters from sea to shining sea. We deserve your best effort, and only your best effort, to sanitize the Arizona tally, from the top of every legal ballot to the bottom. Protect the integrity, not only of the State of Arizona, but of yourself, no matter who the victor may be.

As an elected official, it is your job to be present and act in good faith.

Best regards,
Tracy Roberts
Concerned Patriot

Dear Senator, I implore you, please urge your Republican colleagues to stand their ground against this fraudulent election. Encourage them to hold the line and fight this electoral coup attempt by Demonrats and their globalist overloads. Be brave; pay no mind to the opposition when they try to bully or intimidate. Let each of your colleagues know 74 million legitimate voting Americans have their backs. I pray you sir, America requires a fair and just election. EVERY ILLEGAL VOTE MUST BE DISCARDED. You have the majority in the legislature. Remember, the U.S. Constitution (Art II Sec 1.2) provides: Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: By God, use your authority and make things right. We are on the precipice of keeping our Liberty or surrendering it to mob rule and a socialist dystopia. 160 years ago the Republican Party stood against this same Demonrat Party and won a bloody civil war. Demonrats are attempting to divide our nation again. Don't let the lives lost in that civil war preserving our union be in vain. The future of America is in your hands and in the keeping of the Republican Party. Make no mistake, many are saying if Republicans shrink from this fight and allow this electoral coup to pass, the GOP as a political entity will go the way of the WIGS. 74 million legitimate voters will be disenfranchised. They will not soon forget that when President Trump needed his Party most, it failed him and the millions who voted for him. Sincerely yours, Frank Di Biase Prescott, AZ 86303

Subject: RE: Monday's hearing

Thank you for contacting my office regarding the election outcome and the integrity of the voting process. We have received many inquiries and will endeavor to make every effort to ensure that the election results were properly and legally conducted. To address the requests made for legislative action I hope the following information is helpful. Please forgive this mass reply but I'd like to respond as quickly as possible to all of you.

First and foremost, please understand that all states have different election laws and procedures so what may work in Pennsylvania may not be legally allowed in Arizona or other states.

Regarding the hearing organized by Representative Finchem on Monday the 30th, we will be providing the live streaming and zoom links to our members so they have the opportunity to hear any testimony given as we did with the Pennsylvania hearing this past week.

For those of you asking to not allow the certification to happen on Monday, November 30th, we have been told President Trump's legal team cannot file their lawsuit until the election HAS BEEN Certified. Pennsylvania has already certified their election. Once the lawsuits have been filed, the Az House and Senate members can then see what issues are being cited which will give us a path to move forward.

-Presidential Electors: the eleven electors were selected by a vote of you, the people, on November 3, 2020 as part of the vote for President of the United States. The Legislature cannot retroactively modify the current statutes on the selection of presidential electors. Additionally, the Legislature does not have the authority to prevent the Arizona Secretary of State from certifying the canvass. Please see below the legal explanation provided by Legislative Council.

-For those of you asking us to convene a Special Session: there are only two ways a special session can be convened. One is the Governor calls us in for a special session for a specific issue. The second way is the legislators can call ourselves in with a 2/3 vote of all members with no specific agenda. Since we only have 31 R's and 29 D's in the House; 17 R's and 13 D's in the Senate, we would need the Democrats to vote to convene to receive the required 40 and 20 votes. We do not have the votes to call a special session and we do not have the votes to pass the election changes some are asking for.

-Audit of vendor: the Legislature can convene a "special committee" that utilizes its investigatory powers to do a forensic audit by an independent expert to address issues related to the accuracy of the voting machines. We are investigating this option in coordination with the information we are being provided by the voters and the lawsuits being filed.

In addition, moving forward, a comprehensive overview of our elections proceedings is crucial to make any necessary reforms in the hopes of restoring public confidence in the elections system. We have created Senate and House Government (and elections) Committee that will be introducing legislation to ensure the credibility of future elections. We sincerely understand the concerns raised and share in your frustration. The election results in Arizona and other battleground states have created a collective pursuit and call to action to ensure that all votes are legally counted. The results of court proceedings and other administrative remedies will most certainly impact the overall outcome of the presidential election.

Again, thank you for reaching out and voicing your concerns. They are indeed heard. As the actions outlined

above play out we will have a better understanding on the best course of action for Arizona and the integrity of the elections process.

Selection of Presidential Electors (R-54-142) ARIZONA LEGISLATIVE COUNCIL MEMO

TO: President Karen Fann

FROM: Ken Behringer, General Counsel

This memorandum is in response to your questions about the appointment of presidential electors and the ability of the legislature to change this process for the current presidential election.

In regard to presidential electors, the United States Constitution provides:

Each State shall appoint, in such Manner as the Legislature thereof may direct, a Number of Electors, equal to the whole Number of Senators and Representatives to which the State may be entitled in the Congress: but no Senator or Representative, or Person holding an Office of Trust or Profit under the United States, shall be appointed an Elector.

U.S. Const. art. II, § 1, cl. 2.

Under this authority, the legislature may select the presidential electors, it may allow the voters to select the presidential electors and it may change how the electors are selected. *McPherson v. Blacker*, 146 U.S. 1, 35 (1892); *Bush v. Gore*, 531 U.S. 98, 529-30 (2000). However, the constitution provides that Congress determines the time of choosing presidential electors. U.S. Const. art. II, § 1, cl. 3. The Court in *McPherson* and *Bush* did not address this Congressional authority because it was not an issue in those cases.

Under its constitutional authority, Congress has directed that "[t]he electors of President and Vice President shall be appointed, in each State, on the Tuesday next after the first Monday in November, in every fourth year succeeding every election of a President and Vice President." 3 United States Code § 1.

The Arizona legislature has prescribed the method of appointment of presidential electors for this state by enacting several statutes, including Arizona Revised Statutes (A.R.S.) section 16-212, which provides in part:

1
November 6, 2020

A. On the first Tuesday after the first Monday in November, 1956, and quadrennially thereafter, there shall be elected a number of presidential electors equal to the number of United States senators and representatives in Congress from this state.

B. After the secretary of state issues the statewide canvass containing the results of a presidential election, the presidential electors of this state shall cast their electoral college votes for the candidate for president and the candidate for vice president who jointly received the highest number of votes in this state as prescribed in the canvass.

The statutes also provide that the chair of the state committee of each political party that qualifies for a column on the general election ballot must appoint the candidates for the office of presidential elector for the respective political party. A.R.S. section 16-344.

To change how presidential electors are appointed, the legislature would have to amend these statutory sections. However, the changes that the legislature might make to these statutes could not be applied to the current election, because the day for selecting presidential electors (November 3, 2020) has passed.

The current statutes on the selection of presidential electors were in effect on November 3, 2020 and the people voted pursuant to statute to make the selection on that date. If there is a question about the conduct of the election, the election would have to be challenged in the courts. The legislature cannot change the 2020 election results through changing the statutory selection process for presidential electors.

Subject: Monday's hearing

Senator Fann: I was told that you are not going to attend Monday's hearing with the trump legal team. As you know , there is mountains of evidence of problems with this election in the swing states including Arizona .

If you don't see that or are not at least interested, then you can't call yourself an American.

Making sure that this election was handled fairly is of utmost importance to not only the United States but the world as well. Everyone is watching and you not attending the meeting speaks volumes to the people of Arizona and the United States .

We are the last bastion of freedom.

I strongly suggest you change your mind .

Sincerely,

Juan Bernal

Subject: Please support an Article II Remedy

Dear Legislator,

We the people have the right to a fair and true election. Due to evidence of fraud, this election has failed. When this occurs, the legislature has the authority and responsibility to choose the slate of electors. As a voter and as an American citizen, I am asking you to do your duty for those that you represent. Please consider approving hearings to remedy the election and allow the legislatures to pick the state's electors.

Thank you,
