Hi John,

I will keep you up-to-date on if we can have a call tomorrow. The hope is if we can't get one together tomorrow we would be able to have one sometime this week. There are a couple of things on our end (process-wise) that are still being configured - election set up documentation, etc.

I will see if I can pull one together within the next couple of days.

And congrats on the new programmer!

Hi, Travis,

Great news!! I appreciate your following up on this!

Since Anmarie's last day here is Thursday, and we identified her replacement today, is it possible to have a call tomorrow? Anmarie and Cat will be onsite. The new person, Tisa, can call in if she can't come to the office.

Thanks,
-John.

Hi John,

Perfect timing – I just got off a call a few minutes ago discussing this very topic. It is with (great) relief I can report that your programmers for November will be David Moreno (primary) and Michael Tallant (secondary/support). I'll be meeting with them in the coming days, and the next step will be to set up a time for all of us to get together and chat about needs/expectations for November programming.

More information to come soon! Please let me know if you have any questions.

Subject: [EXTERNAL] Ballot programmer

Hi, Travis,

Have you received info on who DVS will assign as our ballot programmer? I was told this assignment would occur this week.

Thanks,
-John.
