Okay, thank you Tisa. So just confirming: you are approving the 8.5 font size?

Thank you Travis!

We will probably be needing to 8.5-point font, but will not go down to 8 as 8.5 is pushing the readability.

Thank you!

Hi Travis,

After reviewing the text for the Filipino translations, we are still concerned about the length of the measures. Is it

possible to also look at what 8 and 8.5-point font would look like for the measures? We're thinking that 8.5 is going to be what we need to do and that 8-point will be too small, but if it's not too much work, we'd like to see those options.

Thank you,
