Hi Tisa,

Thank you for the feedback! If this is something that is necessary for you, we can add it – but I’m being told that if we proceed this way we won’t be able to finalize your ballot until sometime tomorrow with a possibility of the weekend if anything else gets noted. The chances of getting new proofs tonight would be unlikely as this will take many hours to manually adjust.

Please let me know if you have any questions.

Hi Travis,

Man, that’s a tough one.. Though that would be a great and easy fix, unfortunately, we need to have the # / # on the footer. I’m sorry that this creates more work and that this will delay us finalizing the ballot, but this is necessary for our election.

Please let me know if you have any more thoughts.

Hi Tisa,

On Item 301 (the RCV card count issue), would it be possible to change the footer from Card # / # to just what card it is? I.E. instead of card 2/4, it would just be card 2?

We can do it the other way, however in keeping the card # out of # format would require *a lot* of manual work that would slow down our ability to finalize your ballots sooner. We would, essentially, need to go through every place where this was an issue and manually adjust.

In the interest of time/energy and if it is feasible, we'd recommend changing the footer holistically so it is just the card number. Please let me know your thoughts, thank you!

Hi Travis,

I have attached our feedback for yesterday's ballot proofs. I have also attached an updated candidate spreadsheet to fix a few spacing errors. Everything that should be updated is highlighted in blue.

There did end up being 19 items to change, though the majority are pretty small. If you could please follow up with Cuong on an estimate for when you think proofs might be finalized after speaking with the programming team about these changes, that would be greatly appreciated!

Hi Tisa,

Thank you for providing this, glad to have the list! Can you confirm what's going on with Rocky? I see the listing as orange still.

Additionally, your official ballot proofs are ready for review! Since we are now working with all of your ballots, the file size is too large and slow to transfer back and forth via secure share link. Starting now, we'll be posting proofing packages to the San Francisco MFT – I've included the link below.

Hi Travis,

I also meant to follow up on the Starchild designation. We cannot have text that says "no ballot designation," so if it is possible we would really appreciate figuring out how we could move his party preference labels to be directly below his name so that it looks similar to all other candidates even without a ballot designation.

Thank you,
Tisa

And the candidate spreadsheet I passed along earlier should have that correction already in it. I just had one tiny comment about a double space in the ballot designation for John Avalos. It would be great to get the ballot proofs in full form that are representative of the rotations that will be found in the ballot types.

Was that done for San Francisco/California?

My concern is that in the CAEC 1307, F (2), it states: If a candidate fails to provide a designation that complies with subdivision (a) or (b) within the three-day period specified in paragraph (1), a designation shall not appear after the candidate's name.

And further down in 13107.3. (c), it states: In the event that a candidate fails to file a ballot designation worksheet in accordance with subdivision (a), no designation shall appear under the candidate's name on the ballot.

To me, the "shall not appear" reads that there should be no text for a ballot designation and in putting "No ballot designation," it would in fact be a ballot designation. John, if you have any thoughts on this with the code, please let me know!

For Starchild – could we fill that space with “No ballot designation” or similar? This would be the simplest approach, just comes down to your preference for wording.

Hi,

That's a good question! The first transliteration we provided was from March 2020, but when he selected to be the party's nominee, they added his last name, Fuente. So we've had two characters added to his name.

In the spreadsheet, it was originally: 羅克 · 「洛基」 · 德 · 拉 · 富恩特

And we have updated it to: 羅克 · 「洛基」 · 德 · 拉 · 富恩特 · 格拉

Sorry if the spreadsheet wasn't clear! Everything in blue and green should be updated. In case for some reason, the spreadsheet wasn't updated, I have attached it again.

Also, in regard to the Starchild issue of spacing, I understand that we are trying to create one template for everything and that is why there is such a large space between his Party Preference labels. But, we cannot have a candidate's look so disparate. Is it possible to bring Starchild's English Party Preference into where the English Ballot Designation space would be? And then bring the translated Party Preferences into the space where the English Party Preference would go? Basically, could we replace his information into whichever data tables would populate the two lines immediately below his name so there is not such large spacing for his box?

Thank you!

Hi Travis,

After first glance I noticed that the vice presidential candidate transliterations have not been added to the proofs. We can go ahead and proof these, but can we please have those added?

Thanks!

Hi Travis,

I have compiled our feedback for this round and it is attached. We have also gone ahead and created transliterations for the vice presidential candidates, so I have attached an updated spreadsheet with that information added. Additionally, there were three items (two Chinese transliterations and one Spanish ballot designation) that had a double space, so I have highlighted those that have been updated in the spreadsheet as well.

Please let me know if any of our comments need any clarification.

Thanks,

We're pleased to say that we were able to fix the Chinese wrapping problem along with a host of the other issues. Please confirm fixes, and if everything looks good we'll be ready to send you ballot proofs with official content.

Thanks all, have a good night.
