Hi Tisa,

I confirmed that it was indeed the Filipino title being stretched and creating the issue. However, seems the issue was resolved and took less finesse than previously thought! I've uploaded the updated QUAD ballots only to your MFT, please review those last 3 fixes and we should be good to go!

Additionally, if anyone could follow up with Cuong just to make sure there are no changes to test deck needs, that would be immensely helpful. After signoff through QA we turn our attention towards test deck generation.

Thanks all!

Hi Travis,

Thank you for the update. Sorry that wasn't caught sooner! I do have a question, why will this make the ballot longer than 18"? Sorry if the instructions weren't clear in the spreadsheet, but the Board of Education (School Board Election) should be replacing the "Consolidated General Election" title. On the templates it wasn't an issue:

OFFICIAL BALLOT
Board of Education Election
(School Board Election)
City and County of San Francisco
November 3, 2020

METHOD TO VOTE:

If it is not fitting because a space was added between the Spanish and Filipino ballot title and voter instructions, that can be taken away. That was a stylistic suggestion and not necessary if things are struggling to fit on the ballot.

I will let the team know that and we will be available to proof this evening if need be.

Thanks,

Hi Tisa,

The team would prefer not to move forward separately QAing regular and EDU, as this could get messy – we will submit all at the same time when we get official sign off on EDU.

Additionally, the title issue on the EDU ballot could take some time and finesse to implement, as altering the title actually makes the ballot larger than 18 inches. The team is playing around with it but it may not be a quick turnaround if we want to keep the 18inch card for EDU.

At this point it is not guaranteed we'd be able to pass through QA tonight, even if we finalize in the next couple of hours. I'll keep you updated!

Hi Tisa,

That is great news! I've forwarded the remaining fixes on for the EDU ballot, I will let you know if we can start the QA on regular ballot first or if we have to wait for the whole package.

For QA, I estimate if we get you going soon it will hopefully be through QA by tonight and the final approved ballots + test decks transferred to you tomorrow to send to print. Of course, some of this is contingent upon the EDU ballot timeline.

Right now there are more projects coming in which creates a line, of sorts, in QA - but I'll see if I can get SF's moved to the top due to priority.

Thanks!

Hi Travis,

There was nothing new found in the regular paper ballot. Everything looks good and is ready to go!

The EDU ballot has three things that need to be addressed. I believe they should all be relatively quick fixes. I have attached our comments for you.

Is it possible to do a rolling QA, where we send the paper ballot to QA and do one more proof of the EDU ballot? Also, on the note QA, do you have an estimate of the timeline for when that will be completed and when we can send PDFs to K&H?

Thanks,

Hi Tisa, for item 323, is this change only wanted on the QUAD ballot? Not on the regular?

323	QUAD			EDU VBM Ballot	Pct should be capitalized to PCT and "Ballot Type" should read "BT"
-----	------	--	--	-------------------	---

--	--	--	--	--	--	--	--	--	--

I've been told we should be able to get some new ballots out to you relatively quickly after we clarify this one.

Good morning Travis,

I have attached our new round of feedback. Thank you so much for fixing the pages issue! I will continue to go through the ballots to make sure they are correct, but so far, so good!

It seems that many of the issues that were marked as resolved last night were not resolved and one or two new issues cropped up were/notes.

Can you please find out from your team if you think we might have a new set of ballots to proof today and if we will need to work tomorrow?

Thanks,

Hi All,

Well, I've got some great news – the team put their heads together and used some wizardry to come up with a feasible fix that automated the process much more than we initially thought.

I've placed a new set of proofing ballots in the MFT folder:

Y:\USA\CA-California\sanfrancisco\2020\November General\SF Proofing Ballots

They confirmed that all change log items should be addressed. Please let me know if you have any questions, thanks!

Hi Travis,

A quick question: will we be receiving proofs with the other fixes to go over before the numbers get manually adjusted? If we could get those, that would be great! That way we can make sure that everything else is set and then only need to worry about making sure the numbers are correct on the last round.

Thanks!

Hi Tisa,

On Item 301 (the RCV card count issue), would it be possible to change the footer from Card # / # to just what card it is? I.E. instead of card 2/4, it would just be card 2?

We can do it the other way, however in keeping the card # out of # format would require a lot of manual work that would slow down our ability to finalize your ballots sooner. We would, essentially, need to go through every place where this was an issue and manually adjust.

In the interest of time/energy and if it is feasible, we'd recommend changing the footer holistically so it is just the card number. Please let me know your thoughts, thank you!

Hi Travis,

I have attached our feedback for yesterday's ballot proofs. I have also attached an updated candidate spreadsheet to fix a few spacing errors. Everything that should be updated is highlighted in blue.

There did end up being 19 items to change, though the majority are pretty small. If you could please follow up with Cuong on an estimate for when you think proofs might be finalized after speaking with the programming team about these changes, that would be greatly appreciated!

Thank you,

Hi Tisa,

Here is the updated contest preview report with that last change if you'd like to give it a look before we send ballots, which are currently being generated.

<https://dvsfileshare.dominionvoting.com/?ShareToken=3E5220E305888E4AB2EE6DC3097E4FDAS5A5376E>

Thank you for the follow up, Tisa. I'll touch base with the team to determine what our options are for Starchild.

Glad to hear about the change log sign off for ballot contest previews! We'll make the quick fix to John Avalos and generate official ballot proofs, we'll have these ready for you early to review tomorrow morning.

Thanks!

Hi Travis,

I also meant to follow up on the Starchild designation. We cannot have text that says "no ballot designation," so if it is possible we would really appreciate figuring out how we could move his party preference labels to be directly below his name so that it looks similar to all other candidates even without a ballot designation.

Thank you,
Tisa

Hi Travis,

I have gone through the proofs and it looks like everything in the change log has been addressed. I have attached the change updated change log. And the candidate spreadsheet I passed along earlier should have that correction already in it. I just had one tiny comment about a double space in the ballot designation for John Avalos. It would be great to get the ballot proofs in full form that are representative of the rotations that will be found in the ballot types.

Thanks!

Hi Tisa,

While we wait for John's word on the "no designation" decision, I've included the updated contest report with fixes. Please review and provide feedback.

<https://dvsfileshare.dominionvoting.com/?ShareToken=4B6A84FC310A8FAEBA214087DBDC94509F807759>

Please note the previous EDU ballot should be just fine for review, this is just the regular. Thanks!

Subject: RE: [EXTERNAL] RE: Checkpoint 2 - 8.31 Proofs

Was that done for San Francisco/California?

My concern is that in the CAEC 1307, F (2), it states: If a candidate fails to provide a designation that complies with subdivision (a) or (b) within the three-day period specified in paragraph (1), a designation shall not appear after the candidate's name.

And further down in 13107.3. (c), it states: In the event that a candidate fails to file a ballot designation worksheet in accordance with subdivision (a), no designation shall appear under the candidate's name on the ballot.

To me, the "shall not appear" reads that there should be no text for a ballot designation and in putting "No ballot designation," it would in fact be a ballot designation. John, if you have any thoughts on this with the code, please let me know!

Thank you, Tisa. Follow up question to your issue noted below -

For Starchild – could we fill that space with "No ballot designation" or similar? This would be the simplest approach, just comes down to your preference for wording.

Hi,

That's a good question! The first transliteration we provided was from March 2020, but when he selected to be the party's nominee, they added his last name, Fuente. So we've had two characters added to his name.

In the spreadsheet, it was originally: 羅克 · 「洛基」 · 德 · 拉 · 富恩特
And we have updated it to: 羅克 · 「洛基」 · 德 · 拉 · 富恩特 · 格拉

Sorry if the spreadsheet wasn't clear! Everything in blue and green should be updated. In case for some reason, the spreadsheet wasn't updated, I have attached it again.

Also, in regard to the Starchild issue of spacing, I understand that we are trying to create one template for everything and that is why there is such a large space between his Party Preference labels. But, we cannot have a candidate's look so disparate. Is it possible to bring Starchild's English Party Preference into where the English Ballot Designation space would be? And then bring the translated Party Preferences into the space where the English Party Preference would go? Basically, could we replace his information into whichever data tables would populate the two lines immediately below his name so there is not such large spacing for his box?

Thank you!

Hi Travis,

I have compiled our feedback for this round and it is attached. We have also gone ahead and created transliterations for the vice presidential candidates, so I have attached an updated spreadsheet with that information added. Additionally, there were three items (two Chinese transliterations and one Spanish ballot designation) that had a double space, so I have highlighted those that have been updated in the spreadsheet as well.

Please let me know if any of our comments need any clarification.

Thanks,
