Hi All,

We are a bit later than anticipated, but your ballots have officially passed QA! They are all good to send. Thanks again for the wonderful team effort in getting these ready.

I will let you know when test decks are also ready - that will be the next step.

Best,

Great, thank you Travis! I will hold off on sending anything until I hear from you that all is good.

Val, when you're available, can you please put the ballots in this folder: O:\Publications\2020-11\November 2020 Ballot Production\Ballots

Thank you!

Hi Tisa and Val,

I've posted San Francisco's official ballots to the MFT! New file path is below:

Y:\USA\CA-California\sanfrancisco\2020\November General\Official Ballots

Please note that these have _not_ yet officially passed through QA, so please hold off on sending anything until I give the go ahead. At least now you can download them and have them ready to send.

Thanks!

Hi Tisa,

You'd be sending the ballots once they are finalized and ready - we'll provide these to you so you can send the same way you'd send to the printer. They will not be available to send until they have passed QA though, which we are still in the midst of.

Based on feedback from the team we are getting closer to finishing QA on your ballots with an ETA on completion around 5-6pm. I'll be passing along your final ballots soon and will let you know when they are on the MFT - but please do not send anywhere until we've given the official go ahead.

Thanks!

Hi Travis,

I have a few follow up questions about the information that needs to be sent to Democracy live and the finalizing of the ballot. I was not aware that I will also be needing to send Democracy Live PDFs of the ballots. Are those PDFs that get sent to Democracy Live the PDFs you will be sending once QA has been completed? Or, am I able to send the ballot PDFs that we received and finalized yesterday? If so, would you mind sending the files again so that we have all versions of the finalized EDU ballot?

And lastly, do we have any update on the progress of the QA queue?

Thanks!
