Hi Tisa, yes that's the hope that we can get you something to review today! Quick question –

Do you have Audio Studio installed? I believe you should, somewhere. We may be able to get you audio definition files for review.

Hi, Travis,

I heard from John that you might be sending the audio files and scripts today, that's great to hear!

It would be much easier for us to proof the scripts first so that we can replace numbers with written language so that audio is spoken correctly – is it possible to just receive the scripts for audio first, still?

Thanks!

Hi Tisa,

Apologies for the delay – today has been extremely busy. After consulting with the team, we like the idea of having you and the team review scripts first to hopefully catch more issues earlier rather than later.

I'll keep you updated when I have more information to share. We are still getting everything set up.

Thanks!

Hi Travis,

I have a follow up question about the audio files – are we supposed to receive scripts prior to receiving the audio files?

Thanks,

Tisa Ambrosino

Hi Tisa, thank you for checking in. Still no update, I know the team is hard at work generating the files.

Thanks!

Hi Cuong,

Just to follow up on yesterday's email, I am still waiting to hear about when we will receive audio for proofing. I will let you know as soon as we do.

Travis, if you have any update, that would be terrific.

Thanks,

Tisa Ambrosino

Hi Cuong,

That's a good question. We have not yet received the audio for proofing. I reached out to Travis this morning about the timeline for this and am waiting on a response. I will let you know when we have a better idea of the timeline for this, but I don't believe ICX testing will be happening today.

Thanks,

Tisa Ambrosino

Hi Tisa,

Just wanted to touch base, do you know when the ICX audio testing will be completed? It was originally scheduled for today.

Thank you,
Cuong
