Subject: Re: [EXTERNAL] System Control Review

Thank you, Roger! Appreciate you making the trip to do this. It the team will clarify with our team and communicate the updated meeting of the project. The project should also contain the fix for the CD screen issue, as address in the updated CD settings. Besides the Tim's not now and given the approval earlier on the screen content we should be good to go, even WITHOUT the new change. However, I do think we should confirm the CD change before proceeding forward if at all possible.

Hi Tim,

It's not the user project but I don't know that was the project should be using. But I just turned off the details with project name on San Francisco consolidated general election.

Subject: Re: [EXTERNAL] SF System Content Review

Hi All,

As part of the requested corrections, we changed the project name. The correct project is "San Francisco Consolidated General Election". Here is a possibility review based on the other.

If you want to delete the old project "San Francisco 2020 General" (to prevent confusion on printing, labeling, files, secondary path, etc), you will need to delete the folder from the NAS and delete the DB from SQL server management studio.

The new project folder should contain the files:

TRAVIS KESTER | PROJECT MANAGER, OPERATIONS WEST

Subject: Re: [EXTERNAL] SF System Content Review

Hi Travis,

Here is an update to hold on the new test files for the items brought up previously:

1. Change project name from "San Francisco 2020 General" to "San Francisco Consolidated General Election" after 48 hours. (We need to confirm it is the correct content before we start backing the files.)
2. Confirm with system administrator, Anthony Santos, "San Francisco 2020 General" folder is not for general content. If it is for general content, please delete it. If it is not, please keep it. Please let me know if you need any assistance backing up the project.
3. Confirm with system administrator, Anthony Santos, "San Francisco 2020 General" folder is not for general content. If it is for general content, please delete it. If it is not, please keep it. Please let me know if you need any assistance backing up the project.
4. Review content for "Public ID" - I would like to see the content for all public ID folders, are you planning on deleting them? If so, please delete them. If not, please keep them. Please let me know if you need any assistance deleting them.

Best,

Mark Santos

Thank you, Tim

We are working on a design for the redundancy - could get recommendations from items on the RFP. If you just take a photo with your phone that should suffice.

For the table in introduction that goes for Spanish, we are change it from "Table of number of candidate on registration per form" to "per form, number of number of candidate on form".

Please change the "This content should be redacted about" Chinese translation to 此處應隱藏不可見資訊， 應請提供表單號碼。

I have a need not if you find the table package because we have to be implemented some other files relatively quickly in comparison to the screen items. I updated our table files for the MFT should you like to review the list. It requires you input.

If you provide a real word response to review the files with access control that has been had of us message get the table user off/individual that access all of your really need to be checking for it that the table is assigned to the correct contribution on the RFP. I have already have the table content built in all of your.

On this, with your approval, to show the next round of table user the project itself or you can provide access and table at the same time - more able to inform that project package will be.

Right now we are waiting on Microsoft to provide feedback on MHA settings. While also working with Microsoft and team on our MHA settings for the RFP. The plan is to have everything with the project and hopefully have some files for you to review tomorrow.

Hi Tom,

We have finished our proofing of the audio and have attached the file. Given and I hope are good to go. There are just two items in English that are still hard to understand, but I think adding pauses will fix that.

With the Chinese text there are a few more corrections, but also minor. The ones concerning the text there were made for two candidates not in Cantonese, Mandarin, and Vietnamese, and now there are two files of audio for Chinese.

Thank you for your patience and I'll let the rest know we will get to go.

Thanks,
Tom Kuster

Hi Tom,

Thank you for the file. I'll let our on-call spreadsheet of the updated audio. Do you mind sending that along to us via proof the audio again?

Thanks you!

Hi Tom,

The audio itself is on the MP3. Please review your audio files and let me know if there are any other issues. I've passed along your review content feedback to the team.

Since we are preparing your audio files, we also need to make sure the audio files are in the correct format. I'll let you know when we have the audio files in the correct format. This may take a few days to complete.

Although I'm not sure if it's a straightforward process to get everything wrapped up, please let me know if you have any questions. I'll let you know when we can start working on the audio files. I'll let you know when we can start working on the audio files. I'll let you know when we can start working on the audio files.
