Subject: BBC Countryfile: add

FYI.

With regards to BBC Countryfile the following is worth noting:

Corin Smith – Mr Smith was notably absent from the broadcast, both in person and in attribution of footage. The SSPD had worked hard to discredit Mr Smith as a credible source; citing the irresponsibility and possible illegality of his actions, the possible incitement of others to attempt to gather similar material; his plans for direct action against the sector (Aquaculture UK), his sponsorship by Patagonia and the harassment of sector employees through the publishing of names and numbers on his social media accounts.
