## G-Men Link Plotter With Scientist

By HOWARD RUSHMORE  
 Copyright, 1945, by New York Journal-American

For the past two years, the FBI has been trailing a Russian secret service agent who, it is believed, may have obtained atomic bomb secrets, it was learned by the N. Y. Journal-American today.

Surrounded by a squad of FBI men, operating on a 24-hour basis, this Russian is now living in a midtown hotel.

We will call him Alfred Adamson, although that is not his name.

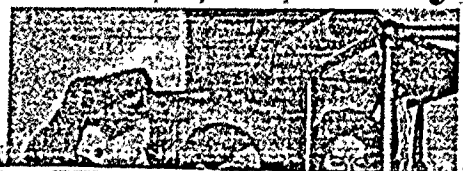

The real name under which he operates and the name of the hotel in which he is staying are known to the Journal-American.

He entered the United States illegally from Canada in 1933. He carried forged passports. He first appeared in this country in 1931 as a member of a Soviet purchasing commission, but returned to Moscow a year.

DETROIT, Dec. 3 (UP).—President Truman today asked 175,000 striking automobile workers to resume work at once in the nationwide GM Motors system.

Mayor LaGuardia's urgent 11th-hour appeal for the immediate release of city policemen from the armed services was flatly rejected today by Secretary of War Patterson.

This news was issued at City Hall as the city's wave of violent crime continued—starting three Negro gunmen who failed in a daylight attempt to rob a dress concern in the garment district of women's apparel valued at thousands of dollars.

The Mayor made a special trip to Washington last week to request the release of 780 policemen from the Army and about 300 from the Navy to bolster New York's under-manned force.

**REJECTS MAYOR'S PLEA.**

In a letter to Mayor LaGuardia, Secretary Patterson explained: "We have consistently declined such requests, as approval in one instance would compel favorable action in another equally meritorious case."

Dovetailing with demands of Communists here and abroad that American troops be withdrawn from the areas in China where Communist forces are battling government troops, the unionists flooded the White House with telephone calls.

According to strike press agent Jack Finn, the union members were instructed to place personal-to-person long distance calls to President Truman to "speed the GI's home."

**SWITCHBOARDS JAMMED**

As the President, of course, was unavailable to such callers personally, the calls went uncompleted, the money returned and the White House switchboards jammed all morning.

Telephone company officials in New York said they were unable to say exactly how many such calls were handled, but Finn said

**Hurley Hearing To Be Public**

WASHINGTON, Dec. 3 (INS).—The appearance of Maj. Gen. Patrick J. Hurley before the Senate Foreign Relations Committee, and all of his testimony, will be open to the public, the committee decided today.

The resigned Ambassador to China will appear Wednesday to present evidence backing up his charges that career men in the State Department sabotaged his mission in China.

Hurley may require two or three days to present his statement, an aide reported.

Secretary of State Byrnes also is expected to appear before the committee.

**Swedes Yield 1,700 to Reds**

STOCKHOLM, Dec. 3 (UP).—A Soviet prison ship sailed for Leningrad this morning with 1,700 former German soldiers.

Left behind were 760 other ex-members of the Wehrmacht who deliberately starved and mutilated themselves to avoid extradition.

Informed sources said the 600 Germans were accepting food again after an 11-day hunger strike.

But the Baltic nationals reiterated their intention of starving to death unless the Swedish government gives up the idea of extraditing them to Russia.

WASHINGTON, Dec. 3 (AP).—Maj. Gen. Sherman A. Miles said today the reply Lt. Gen. Walter C. Short made from Hawaii on Nov. 28, 1941, to a war warning message from Washington was "totally inadequate."

Miles testified before the Senate-House group investigating Pearl Harbor.

Thursday the committee is to hear General of the Army Marshall, who sent the warning message.

Evidence was cited by Rep. Clark (D-N.C.) that on Nov. 27, Marshall warned Short that "hostile action is possible at any moment" and to take reconnaissance and such other measures "as you deem necessary."

Filed as a reply was word from Short to Marshall the next day that the Hawaiian department was "alerted to prevent sabotage."

**GM Parts Row Stirs Union Rift**

DETROIT, Dec. 3 (INS).—An intra-UAW-CIO rift loomed today.

It was disclosed R. J. Thomas, union president, neither saw nor authorized the letter approving a General Motors' plan to supply parts to its competitors.

High union sources revealed the letter accepting the GM offer came from UAW-CIO headquarters over Thomas' signature while he was in Washington. Thomas was not consulted, these sources said.

of strategy for an emergency session.

Its publication put Thomas in a position of arbitrarily ordering strikers back to work in certain GM plants producing essential parts for other car makers and brought immediate protests from the ranks.

Several union leaders opposed any attempt to send some of the strikers back to work while others remained on the picket lines.

**THOMAS CALLS BOARD.**

Despite his personal resentment, Thomas today declined, to officially disclaim the letter. However, he called the union's board

The new impasse left the UAW's General Motors strike, which was called Nov. 21 for a 30 per cent wage increase, at approximately the same stage it was last weekend. The strike has idled 250,000 employees.

In spite of the union's favorable reaction, the idea stirred up immediate rebellion. Local 651 of the UAW in Flint flatly rejected any move to reinstate an AC Spark Plug division there.

By ROBERT G. NIXON

WASHINGTON, Dec. 3.—President Truman, in a special message to Congress today asked for speedy action on legislation to settle industrial strife.

The Chief Executive urged that Congress act "at the earliest possible moment."

Mr. Truman urged that Congress act on his recommendations before the Christmas recess—tentatively set for Dec. 20.

**CITES RAILWAY ACT.**

He recommended that the legislation be based upon the "principles underlying the Railway Labor Act" for settlement of "industrial disputes in important nationwide industries."

"The general pattern of that act is not applicable to small industries or to small local disputes in large industries," the President told Congress.

"But it would be effective, as well as fair, in such widespread industries, for example, as steel, automobile, aviation, mining, oil, utilities and communications."

**PLAN TO END STRIKE.**

Mr. Truman called for Congressional sanction for the President to appoint a fact-finding board to settle industrial disputes where collective bargaining, the government conciliation service, and the Secretary of Labor have been unable to persuade the parties of a strike to submit voluntarily to arbitration.

He said that this three-man board should have sweeping powers to subpoena witnesses and records.

He requested that while the board is functioning and for five days after making its report to the President that strikes or lockouts "should be made unlawful."

The President said that "in order to avoid any delay in the settlement of the most important existing strikes, I am appointing such a fact-finding board for the present stoppage in the dispute between General Motors Corporation and the United Automobile workers."

**Vets Favor Peace Draft**

Universal military training is favored by 87 per cent of returning servicemen, Col. Arthur Dermott, city director of Selective Service, declared today.

Of 25,000 he polled, Col. Dermott said, 22,026 endorsed a year's training for young men of 18.

"Their view is a striking indication of the mature judgment of these men, after a long period of service," he stated.

Since September, 1941, a

escaped surveillance, only to be located on the West Coast and a Soviet ship, Adamson has been under constant watch by the FBI.

A small, gnome-like man wearing huge, horn-rimmed spectacles. Adamson is about 45 years of age. He has a furtive walk, a pair of deep-set piercing eyes and a nervous habit of always looking over his shoulder.

Although the FBI has refused comment, it is known his every move, his letters and even his cables to his Russian wife are recorded by the agents. With the help of the hotel management, the agents have been able to keep Adamson's room under constant guard.

Adamson operates with virtually unlimited funds. Despite the fact that he is "employed" by an obscure Communist music shop on Fifth ave. at \$76 a week, Adamson has bank accounts ranging into the thousands of dollars in a number of Manhattan banks.

He first entered the case in Chicago in 1943.

The discovery of his importance and the reason for his illegal entry was not known until that date.

A scientist, working on atomic bomb development in a Chicago laboratory, had been suspect by military intelligence officials. Unwittingly, this scientist led the FBI to Adamson.

**Hands Second Man a Package in Park**

This scientist—whose name is in possession of the Journal-American—had gone for a walk through the park. He was trailed by two military intelligence officers assigned to watch all his activities.

The scientist was seen to stop and hand a second man a package. No words were exchanged and the second man went on his way.

The FBI was called into the case after the rooming house address of the stranger had been ascertained by the military intelligence officer who had trailed him.

The man was registered as Alfred Adamson.

That night, while Adamson was out of his room, the FBI entered it and found the package.

This package was rushed to Washington and inspected by scientists assigned to the atomic bomb project.

**IT WAS FOUND TO CONTAIN HIGHLY CONFIDENTIAL DETAILS OF ATOMIC DEVELOPMENT.**

Proof of this important "leak" sent all counter-espionage government groups into immediate action.

The scientist was immediately inducted into the Army, as were more than 100 other persons subsequently believed guilty of passing out information on the atomic bomb.

This scientist is now stationed on an obscure South Pacific island where he can be watched.

Adamson's activities since the meeting in the Chicago park read like a spy thriller.

His lists of contacts include members of the Communist Party's national committee, doctors, lawyers, an electrical manufacturing executive, workers in the Soviet Embassy, Soviet vice-consuls and numerous other persons in every walk of life.

The wife of a prominent Russian-born doctor living on West End ave. sends cables to Adamson's wife in Moscow. This contact's name is in possession of this newspaper.

The owner of a Madison ave. jewelry store serves as an

Mozart returned to the Metropolitan stage Saturday afternoon when the "Magic Flute" was restored to the repertory.

While the long cast contained many of the opera company's young hopefuls, first honors were won by the veteran Ezio Pinza, who sang the role of Sarastro.

Mimi Benzell's voice was far too fragile for the florid, highly embellished music of the Queen of the Night.

Charles Kullman's fine method overcame his shortcomings in vocal quality, while Nadine Connor was pleasing but not outstanding as Pamina.

Wallington Ezekia, making his debut as the high priest, merits praise for a good bass voice well used.

## Santa Arrives On Broadway

By GENE KNIGHT

Santa Claus must be staging a pre-Christmas tryout on Broadway. Who else but Santa could present in one night club:

Maurice Rocco, Ellis Fitzgerald, Cootie Williams and his orchestra, Ray Sneed, Jr., the Ink Spots, Ralph Brown, Coke & Puke, Pee Wee Marquette, Howell & Bowser, Claude Hopkins' band, and those Zanzibeauts?

They'll give at the Cafe Zanzibar on Wednesday eve. It's the Winter edition of the Zanzibar Night. And it's a production! Our guess is that Joe Howard and Carl Erbe must have lent Santa a hand.

**COOTIE'S DEBUT.**  
By the way, this is the Broadway night club debut of Cootie, a cute trumpeter. A Negro ballet dancer, Sneed also is making his bow in our set. And a couple comickers, Howell & Bowser, are newcomers to Broadway, too.

Of course, Rocco is that upstanding pianist. And Brown makes with the terpsichorean feats—or feet. You know the others.

And, of yes!, there'll be new

decor by Franklin Hughes. Even Broadway Sam will be there!

### A GOOD START

Switching from acting to singing, Joan Barry, former protegee of Charlie Chaplin, will make her pro bow in New York on Wednesday eve at Greenwich Village Inn... Joan starts by headlining the new show, no less.

### IF WINTER COMES

Winter arrives at the Havana Madrid on Thursday night when Angel Lopez unveils his Winter revue... Topping the bill are Dean Martin, song stylist, and Josephine Del Mar, Latin song and dancer... Jose has just returned from a USO tour, with citations from Gen. Eisenhower and Patton.

1. "I love Christmas," says Pat Boyd, Miss Rheingold of 1945. "The smell of Christmas trees. The sight of candles in the window. The sound of Christmas carols, sung by old friends. And don't forget the tastes!"

2. "Plump roast turkey, with spicy sage dressing. And with it, a glass of Rheingold—the DRY beer! I love the way its dryness lets the clean, clear, real-beer flavor come through. It's beer as beer *should* taste!"

*It's beer as beer should taste!*

**DRY tells you WHY!**

Rheingold is light but hearty—not bitter, not sweet. Its quality of DRYNESS lets the clean, clear, real-beer flavor come through.

Also notice Rheingold's pale, crystal-clear color. This paleness is another symbol of the superior quality brewers strive for.

If you can't always get Rheingold, remember . . . until our postwar expansion is finished, to increase the *quantity*, we'd have to decrease the *quality*. And that we will NEVER do. Rheingold will always be beer as beer should taste.

So keep asking for Rheingold. On tap and in quart and 12-oz. bottles all over town.
