Subject: FW: Update ?

We are a bit off on time – there is still a bit of work to do. I would say more like 4-6 weeks.

Subject: RE: Update ?

If we were to send it to DA in a couple of weeks the file would be without:

- Lab reports on DNA
- Return on Geo Fence Warrant, which may cause additional interviews to need to be done.
- Autopsy report
- Return on Instagram Warrant
- Return on DJI (Drone company) Warrant
- Report from FBI on their testing/review of the drone.

Thanks Mat

M. Mustard #569

I spoke with Rose. Realistic time frame is about 2 weeks. He has a few reports to complete that I prioritized with him. Their may be

one hold up and that's the geofence warrant which is likely to identify a multitude of new interviews. We talked about finishing all but that and letting them take a look I just now reached out to the DA Office to see if they would want it before the geofence stuff was completed. Ill know more soon.

Can you clarify your request about FBI and UAS???

Drew
