Join the Honest Elections Project for the HEP Academy PART TWO, where you'll learn to put securing your state's elections into practice!

About this event

Join the Honest Elections Project for PART TWO of our two-day Academy! Over the summer, we discussed best practices for securing a state's elections. Now, on November 29 and 30, we'll work with you on how to put these proven methods into practice, from direct litigation strategies, to workshops with leading election experts, to messaging techniques.

The Academy will host state legislators, as well as guest speakers including messaging experts, all-star litigators, and experts in the field of election integrity. Topics will include:

- Updated, exclusive polling results on how Americans feel about election access and security
- Workshops, led by preeminent election experts, on how to effectively apply election best practices in your individual state
- How public officials should respond to bad-faith lawsuits targeting election integrity legislation

...and much more!

Set to begin on Monday, November 29 at 2 PM PST and concluding on Tuesday, November 30 at 5 PM PST, this invitation-only Academy will offer opportunities for legislators to learn from each other and some of the country's preeminent experts on how to effectively apply proven methods for securing your state's elections. All expenses, including airfare and 2 nights' accommodation, will be eligible for reimbursement with receipts. Don't miss PART TWO of the Honest Elections Project Academy!
