Note 1. Total items damaged, damaged beyond repair, or loss of military equipment in 2019 and 2020: **117**

Note 2. Total financial cost of items damaged, damaged beyond repair, or loss of military equipment in 2019 and 2020: **€46,108**

- **Cost of repairs to military vehicles (as a result of road traffic accidents)**

The cost in 2019 was €44,009.12 and the cost in 2020 was €27,436.27. It should be noted that the DF will repair its own fleet, irrespective of where the liability resides in each particular case. The matter for any subsequent reimbursement or disbursement rests with the SCA as outlined above.

RE: FREEDOM OF INFORMATION (FOI) REQUEST FOR INTERNAL REVIEW

References:

- A. FOI Request, email 28 May 21**
- B. FOI FDM, email 22 Jun 21**
- C. FOI Request for Internal Review, email 23 Jun 21**

1. Pursuant to Section 21 of the Freedom of Information Act 2014, I have reviewed your appeal dated 23 Jun 21 (Ref C) in relation to the response dated 22 Jun 21 (Ref B).
2. This office sought further elaboration of the FOI response (Ref B) following your claim that Section 33 (2) (a) had been misapplied. In this instance, specifically regarding record number 3 referred to in the FOI response, the section of the Act outlined as being referenced was Section 33 (2) (a). However, paragraph 5 of the FOI response, in outlining the reasons for deciding to only part grant the requested information, also references Section 33 (1). It is my conclusion, therefore, that while Section 33 (1) was not referenced in paragraph 4 of the FOI response, paragraph 5 of same would suggest that it was most likely omitted in error. Paragraph 4 should have referenced both Section 33 (1) (a) to (d) **and** Section 33 (2) (a).
3. Furthermore, this office also sought further elaboration as to the reasons why the information sought could only be partially granted. I am satisfied that the FDM considered that potential adverse effects which may arise as a result of the disclosure of requested information. The information not released relates to operational capabilities of the Defence Forces and could be used by criminal elements, paramilitaries or other state and non-state actors to counter a specific operational capability the Defence Forces uses at home and/or overseas. While the expectation that adverse effects will occur is low, it is not unreasonable. Given the potential for serious harm, or indeed loss of life, the impact of the adverse effect could potentially be catastrophic to Defence Forces personnel, the Defence Forces itself, and potentially to the defence and security of the State.
4. I therefore uphold the decision of the FDM as per Reference B.
5. You may appeal this decision to the Information Commissioner within six (6) months of receipt of this letter, accompanied with the payment of €50 (€15 for medical card holders), to address hereunder:

Office of the Information Commissioner,
18 Lower Leeson St, Dublin 2.
