So, I get speaking truth to power, but what is the real rub here?

1. The district court cannot hearing cases where the state is a party,
2. All my contacts are with the State civil servants who are professional, non-political.
3. It matters not to me whether some one is a sovereign citizen, a constitutionalist or whatever they are treated as individuals and according to the facts and the law.
4. Seward faces and onslaught of jury trials because of covid lifting. I would be willing to pro tem some jury trials here in seward.

I am terminating today (Wednesday) at 430 pm. If you wish to respond to this email please use either my personal email [REDACTED] or my cell [REDACTED]
