CR 22-176

PROBABLE
CAUSE
AFFIDAVIT

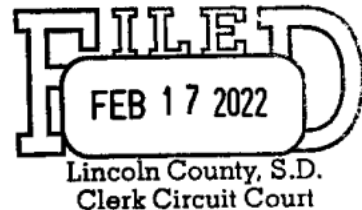

I, Jackson Brown, Special Agent (SA) with the South Dakota Division of Criminal Investigation, being duly sworn upon oath. I have worked in Law Enforcement for the past 10.5 years.

On or about 1/14/2022 the South Dakota Internet Crimes Against Children Task Force received a CyberTip from the National Center for Missing and Exploited Children regarding a Kik Messenger user account that contained video files that were suspected of depicting child pornography.

Reported in the CyberTip were approximately 24 video files of which several of them depicted child pornography in accordance with South Dakota Codified Law. The IP address that was reported in the CyberTip was [REDACTED]. Specifically, the CyberTip said the Kik Messenger user account that was being reported had sent several video files that depicted child pornography to other Kik Messenger user accounts on 12/1/2021 from approximately 4:16 PM CST to 6:36 PM CST.

On 2/4/2022 I received subpoena records from Midcontinent Communications regarding the subscriber information for the IP address listed above on the date of 12/1/2022. Midcontinent Communications reported the subscriber of the IP address above was Matthew Jock at [REDACTED] which is in Lincoln County.

On 2/8/2022 I received records from MediaLab(Kik) regarding a search warrant I served on MediaLab (Kik) in reference to the account that was reported in the CyberTip.

In those records I found media files that depicted child pornography in accordance with South Dakota Codified Law. Specifically, it appeared the Kik Messenger user had sent at least five media files that depicted child pornography to other Kik Messenger user accounts.

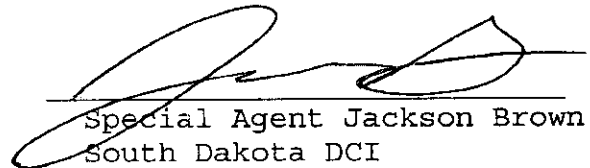

On 2/16/2022 a search warrant was served at Jock's residence in Lincoln County. Also, a separate search warrant was served in Minnehaha County due to Jock being located in Minnehaha County when the search warrant was served.

During a post-Miranda interview, Jock admitted to using the Kik Messenger user account that was reported in the CyberTip. Jock admitted to accessing a media file that depicted child pornography in the Kik Messenger application and sending it to another Kik Messenger user account in the Kik Messenger application. Jock was able to describe one video file that he remembered seeing in the Kik Messenger application which was similar to the content of one of the video files provided in the Kik Messenger records. This video file depicted a juvenile female who appeared to be approximately 8-10 years of age performing oral sex on an adult male. Later, Jock admitted that it was possible he sent more than one media file depicting child pornography to other Kik Messenger user accounts.

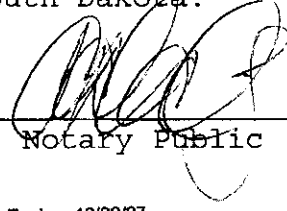

Based upon the media files depicting child pornography reported by MediaLab (Kik) in the CyberTip being distributed from the aforementioned IP address, it appeared the video files depicting child pornography were distributed from Jock's residence in Lincoln County.

Based on the information detailed above, I believe that there is probable cause to believe that Matthew Alan Jock committed the offense possessing, manufacturing or distributing child pornography, SDCL 22-24A-3 (5 counts).

Dated this 16th day of February, 2022 at Sioux Falls, South Dakota.
