Yep - talk in the morning - we did make suggestions to mitigate some of the more objectionable language that, as I recall, would have given the PUCO limited/no discretion. Tammy and Greg Price were involved I think. I do recall saying that it should be removed because it was going to be confusing when blended with other issues as well as the difficulties people were having distinguishing between FE v FE Solutions.

Hi Jimmy,

Representative O'Brien had a question he was not able to ask in committee for Chairman Randazzo:

In your earlier testimony you stated that First Energy applied (filed) for decoupling and was denied a few years ago. Did you or your office assist or review and drafts regarding decoupling before it was inserted in HB6?

I will forward Chairman Randazzo's response on to Rep O'Brien. Thanks!

Sincerely,
