

2021 YEAR-END REPORT — ANCHORAGE, ALASKA

COST OF LIVING INDEX

Measuring the cost of consumer goods and services.

Report sponsored by Northrim Bank & Furniture Enterprises

Cost of Living Index

The Anchorage Economic Development Corporation collects cost of living data for Anchorage by measuring the relative price of consumer goods and services. The Cost of Living Index (COLI) is measured in 266 urban areas around the country by the Council for Community and Economic Research (C2ER). The average index for all participating areas is 100, which means each index can be read as a percentage of the national average. This index does not measure the change of prices over time, but rather the relative cost of living compared to the national average.

Nationally, Anchorage is the **21st** most expensive city of the 267 cities that participated in the 2021 COLI survey.

In 2021, the composite index for Anchorage was **126.0**, 1.6 points higher than in 2020 (124.4).

ANCHORAGE COST OF LIVING

126.0 | 21st

Anchorage's overall index in 2021 was 126.0, or 126.0% of the national average. This means that living in Anchorage is 26% more expensive than living in the average American city.

COLI Component Indices

The COLI is made up of six component indices, which together comprise the composite index.
