

PROHEALTH REGENCY SENIOR COMMUNITIES

January 29, 2022

Dear Regency Residents,

At Regency Senior Communities, we value all of our residents and are proud of the services and lifestyle we provide.

Regency offers independent living, assisted living and memory care, but we are not licensed as a nursing home and are not able to provide higher levels of care.

We have a compassionate and professional team. We understand that some of our residents will reach a point where they require care beyond what we can offer. This is what happened in a situation described in a recent article in the Progressive Magazine. This was a difficult time for the family involved, and we supported them as best we could.

While I understand you may have questions, we are not able to provide any details about this situation out of respect for the resident involved and in compliance with privacy rights.

I am happy to speak with you directly about any individual concerns you may have.

Sincerely,

Mara Henningsen
Campus Administrator
