2022 Edition

INTRODUCTION

Dealing with a mounting utility bill or shut-off notice can be scary, especially during the winter months, and especially during a deadly pandemic that has caused many to need to shelter at home. There are programs out there to help, but navigating them can be frustrating because of the amount of paperwork you need to provide. Plus, many agencies where you can sign up are closed to the public, and most applications must be completed entirely remotely.

First, to help make the process less daunting, we've compiled some tips from local advocates and people who have gone through these programs. Then we'll look at specific programs and what they require.

IMPORTANT TIPS AND THINGS TO REMEMBER:

Save copies of your utility bills or disconnection notices. Plus, save any proof that you have applied for these bill assistance programs. The main reason is some programs ask for proof that you have applied for HEAP (Home Energy Assistance Program) and PIPP (Percentage of Income Payment Plan) first. These are the two main federal energy assistance programs that are available in Ohio.

Get your documents ready before you apply. We'll share a list below of common documents required. Often, a cellphone photo of these documents is good enough if you are submitting them online.

Check back often. When applying for the HEAP and PIPP programs at local energy assistance providers like Step Forward or CHN Housing Partners in Cleveland, often the limited slots for these appointments (which are virtual or over the phone) will be taken quickly each day. New slots are released at the beginning of each day and sometimes hourly, so it's best to check in the morning, and at the top of the hour throughout the day.

Check with local agencies. Often energy companies will have their own assistance programs that are run either through local energy assistance providers like Step Forward or CHN, or through the Salvation Army, so it's worth exploring what those agencies have to offer first.

If you have zero income, you will need to provide an IRS tax transcript to confirm your status to some agencies. If you filed a tax return, or even if you did not, you can go to <https://www.irs.gov/individuals/get-transcript> to get your transcript.

One of the best pieces of advice we can give you is to call United Way's 211 helpline (some counties, like Cuyahoga and Summit, have their own). Trained 211 navigators can help you find aid programs you might be eligible for, and even help you apply.

If you have trouble getting utility assistance during the pandemic or tips that might help others, let us know. Take our survey [here](#).

You can also mail in your application—which you can find online—along with required documents for HEAP or PIPP to:

Energy Assistance Programs

P.O. Box 1240

Columbus, Ohio 43216

The main drop box location for documents for CHN Housing Partners is 2999 Payne Ave, Cleveland, OH 44114, or fax to (216) 912-0700 (Cuyahoga County Public Library offers free fax services). For Step Forward, the drop box is 2203 Superior Ave, Cleveland, OH 44114, or you can email documents to heapdocuments@stepforwardtoday.org. Please do not include originals of documents, only photocopies or printouts.

PERCENTAGE OF INCOME PAYMENT PLAN (PIPP):

How does PIPP work? Customers who qualify for PIPP pay 5% of their monthly income for gas and 5% for electricity. If a home is heated by electricity, the customer pays 10% of their monthly income for electricity, a minimum of \$10.

Customers who make PIPP payments on time every month for 24 months can have their total balance eliminated.

You can be dropped from the PIPP program if you:

- Don't report a change in income - like making more money.
- Forget to verify your income at least once a year.
- Miss payments and don't catch up by your "anniversary date" when you originally signed up.

Who is eligible? Ohioans who rent or own their homes and who make less than 150% of federal poverty guidelines, which for a family of four would be \$3,275 a month or less. Customers must receive their gas or electricity from private utilities - like the Illuminating Company or Dominion - not public utilities like Cleveland Public Power.

What paperwork do you need? Proof of income for the last 30 days for people who live in the home, except for minors.

How to apply: Customers can apply by mail, online at energyhelp.ohio.gov or with a local Energy Assistance Provider (listed above).

Customers will have to fill out the application, which is available in English or Spanish, and provide:

- Your most recent gas and/or electric bills.
- List of people who live in the home and their birth dates and Social Security numbers.
- Proof of income, like paycheck stubs, for anyone in the house who is over 18 and working.
- Proof of citizenship or legal residency for all household members. Accepted documents include a birth certificate, social security card, voter registration card or passport.

If you are dropped from the program, you will get billed for the full balance of what you would have owed on your utility bill.

HOME ENERGY ASSISTANCE PROGRAM (HEAP):

What is HEAP? A federal program run by the state that helps with a once-yearly benefit to help pay off an electric or gas bill. This program also is only available for private gas or electric customers, although Cleveland Public Power does accept HEAP payments.

Who is eligible?: Ohioans in households living at or below 175% federal poverty guidelines, or \$45,850 for a family of four.

How to apply: Call or go online with your local Energy Assistance Provider. In Cuyahoga County, that's Step Forward or CHN Housing Partners. You can also apply online at energyhelp.ohio.gov, or by mail.

What paperwork do you need? The same documentation as PIPP.

HEAP WINTER/SUMMER CRISIS PROGRAMS:

What are these programs? They are branches of the HEAP program that are available once per winter (Nov. 1-March 31) and summer (July 1-Sept. 30) seasons.

Who is eligible? Ohioans in households living at or below 175% of the federal poverty guidelines.

The Summer Crisis program additionally requires you to have a household member who is either:

- 60 years of age and older
- Has been diagnosed with COVID-19, or can provide physician documentation that cooling assistance is needed for a household member's health.
- Households who have a disconnect notice, have been shut off or are trying to establish new electric service

Meanwhile, the Winter Crisis program additionally requires you to have been disconnected from your utility, or have less than a 25% supply of bulk fuel in your tank.

How to apply: Contact your local Energy Assistance Provider. In Cuyahoga County, that's Step Forward or CHN Housing Partners.

What paperwork do you need? Same as above with HEAP.

PRC (PREVENTION, RETENTION AND CONTINGENCY):

What is PRC? Parents, caregivers and expectant mothers can apply once a year for short-term emergency needs, including utility bills. Must first apply for other help available in the community. COVID-19-related relief is only for rent and utilities. The payment is capped at \$750. Find more information for Cuyahoga County [here](#).

Who is eligible? Applicants must earn 200% or less of the federal poverty guideline, which is \$52,400 for a family of four. The applicant must not have more than \$1,000 in the bank or available. The bill must be in the applicant's name and a shut-off notice must be provided. See below for what each company provides. The following meet the "shut off notice" requirement:

- Columbia Gas: A termination notice.
- Dominion/East Ohio Gas: Letter stating they have a shut-off notice or final bill.
- Illuminating Co. First Energy: Disconnection notice statement
- Cleveland Public Power: Bill with a past-due balance.
- Cleveland Water: Final notice or statement showing the bill is in shut off or delinquent status.

What paperwork do you need? Same as above.

How to apply: Download the application online, fill it out and email it-along with the required documents-to Cuy-PRC-Application@jfs.ohio.gov. You can also call (216) 987-7392 to leave a message requesting a PRC application be mailed to you. You can drop the completed application off at a Neighborhood Family Service Center in Cuyahoga County. For example, you can drop it off at Cuyahoga County's Workforce Opportunity Resource Center in Cleveland, at the Virgil E. Brown Building at 1641 Payne Avenue, Suite 120A.

MEDICAL CERTIFICATES*

Cleveland Public Power

Cleveland utilities are not regulated by the Public Utilities Commission of Ohio, but the city follows the same “winter rules” for electric service. Cleveland does not participate in the PIPP program.

- To learn more about payment plans, call (216) 664-2782.

DOMINION ENERGY'S ENERGYSHARE PROGRAM:

Dominion's EnergyShare is described by the company as a "last resort" program administered by the Salvation Army for Dominion customers who have exhausted all other forms of aid, like HEAP.

- Customers not eligible for the PIPP program may apply for EnergyShare assistance until May 31, 2022, or until funds run out, to receive a maximum payment of \$500 toward their bill. Apply by contacting your local Salvation Army,
<https://easternusa.salvationarmy.org/>.

Winter Payment and Reconnection Plans

Ohio requires these plans to be offered to all residential gas and electric customers (not including Cleveland Public Power) from October to April 15, regardless of income. Cleveland Public Power voluntarily participates in what utilities refer to as the "winter rules." Contact your individual utility company to learn more about the individual plans.

- The Winter Heating Season Plan requires a customer to pay a third of their total bill balance each month.
- The "one-sixth" plan requires a customer to pay their past-due bill amount in six equal monthly payments in addition to each new bill amount.
- The "one-ninth" plan requires a customer to pay their past due bill amount in nine equal monthly payments in addition to a monthly budget amount, based on estimated use.

This guide is a project of the Northeast Ohio Solutions Journalism Collaborative. NEO SoJo is a team of Northeast Ohio news outlets in our second year of finding solutions to long standing social problems in the region. Our project this year, called "Making Ends Meet," is focused on how residents in our communities can find life-sustaining jobs, affordable housing, afford their utilities and access transit to work and play.

The local news landscape has shrunk for more than ten years. Between 2004 and 2017, Ohio lost more than half of its newspaper jobs, a trend observed nationwide. Our hope is that by working together, we can reverse that loss in the flow of important information to people who need it most. For more information, go to neosojo.com.
