Subject: CDPH Provides Health Update and Interim Guidance for Health Care Providers Regarding 2019 Novel Coronavirus (nCoV)
Date: Thursday, February 6, 2020 2:53:25 PM

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

The Medical Board of California is contacting you on behalf of the California Department of Public Health (CDPH), please see the message below:

CDPH Provides Health Update and Interim Guidance for Health Care Providers Regarding 2019 Novel Coronavirus (nCoV)

The California Department of Public Health (CDPH) has issued a health update on the coronavirus situation in California and has provided infection control guidance, criteria for evaluation of Patients Under Investigation (PUIs), and recommendations for reporting, specimen collection, and testing. It is likely that the Centers for Disease Control and Prevention (CDC) will update its guidance in the coming weeks, so please check for updates on [CDC's 2019-nCoV webpage](#).

To date, CDPH has identified two cases of coronavirus in Orange and Los Angeles counties. Testing was requested on 23 potential cases in California and 10 have been ruled out, with the 13 remaining cases pending results. CDPH asserts that the coronavirus situation is rapidly changing, and efforts to screen travelers who arrive in California from Wuhan, China, which is said to be the source of the coronavirus outbreak, are underway. CDPH requests California health facilities to [voluntarily complete a state-wide infection control resource assessment](#) for coordinated emergency response planning. CDPH has also [provided materials for facilities to prepare for the 2019 Novel Coronavirus \(2019-nCoV\)](#)

Healthcare providers are encouraged to sign up for California Health Alert Network (CAHAN) alerts to receive updates by emailing CAHANinfo@cdph.ca.gov

For additional information view the [All Facilities Letter issued by CDPH](#) dated January 23, 2020.

Attention: Please do NOT reply to this email. If you have any questions or require further assistance, please contact the Board at webmaster@mbc.ca.gov.

Hi all, thank you for the call today.

Just curious if anyone has any guidance for public safety, mostly police. We have the guidance and updates from first responders and EMS, but the Police Department is asking for some guidance and any precautionary methods.

Thank you.

Merle Gordon, Director

Sent: Monday, February 3, 2020 2:51 PM

Subject: Guidance for The Temporary Reassignment of State, Tribal, and Local Personnel During a Declared
Federal Public Health Emergency

Dear Colleague,

As a follow-up to the communication sent on January 31, 2020 regarding the public health emergency for the novel Coronavirus (2019-nCoV), CDC understands that it may require that you mobilize public health capabilities, including the reassignment of personnel from their normal duties including those funded by CDC grants.

The purpose of this correspondence is to clarify the process for requesting temporary reassignment of state, tribal, and local personnel during an HHS Secretary declared public health emergency. This authority terminates September 30, 2023.

Section 701 of the Pandemic and All-Hazards Preparedness and Advancing Innovation Act of 2019 (PAHPAI), 42 USC 201, Public Law 116-22 amends section 319 of the Public Health Service (PHS) Act to provide the Secretary of the Department of Health and Human Services (HHS) with discretion to authorize the temporary reassignment of state, tribal, and local personnel during a declared federal public health emergency upon request by a state or tribal organization. The temporary reassignment provision is applicable to state, tribal, and local public health department or agency personnel whose positions are funded, in full or part, under PHS programs and allows such personnel to immediately respond to the public health emergency in the affected jurisdiction. Funds provided under the award may be used to support personnel who are temporarily reassigned in accordance with section 319(e).

A Governor of a state, local or tribal organization or their designee may request to temporarily reassign state and local public health department, tribal, or agency personnel funded in whole or in part through programs authorized under the PHS Act to immediately address a public health emergency in the state or Indian tribe during the period of the emergency. The following reassignment conditions apply:

- Reassignment must be voluntary;
- Locations for reassignment must be covered under the public health emergency; and
- Any reassignment over 30 days must be reauthorized.

In the case of submission by a designee, a copy of the designation must be included. Please note that reassignments are not authorized until HHS approval is received.

Detailed information, including Guidance for Temporary Reassignment of State and Local Personnel during a Public Health Emergency, is available on the Assistant Secretary for Preparedness and Response (ASPR) website via <http://www.phe.gov/Preparedness/legal/pahpa/section201/Pages/default.aspx>. To request the temporary reassignment of personnel, a state governor, tribal leader, or designee must complete the [Request for the Temporary Reassignment of State, Tribal, and Local Personnel During a Public Health Emergency Declared by the HHS Secretary](#) and submit it to TemporaryReassignment@hhs.gov.

Once the request to temporarily reassign staff has been approved, state, local, or tribal staff should continue to coordinate with their CDC Grants Management Officer (GMO) and Project Officer (PO) assigned to the grant or cooperative agreements. This will ensure that all parties are clear regarding the potential impact to their program, including the extent and the duration of the planned assignment(s). Other requests for programmatic or financial modification of CDC grants and cooperative agreements will be carried out with full consideration.

The following is an outline of the process from the receipt of a request.

1	ASPR will receive a written request for authorization to temporarily reassign personnel from the state or tribal locality via email (temporaryreassignment@hhs.gov).
2	The Secretary’s Operations Center (SOC,) acting as the ASPR Coordinator, will respond to the state or tribal organization via email to confirm receipt of the request.
3	The SOC will relay the request to the appropriate authorizing HHS OPDIV or STAFFDIV within one business day via email.
4	The HHS OPDIV or STAFFDIV POC will confirm receipt of the request to the ASPR Coordinator.
5	Upon completion of the review, the OPDIV or STAFFDIV will provide the decision to the ASPR Coordinator, who will inform the applicant of the OPDIV/STAFFDIV’s decision within one business day of receipt.
6	The ASPR Coordinator will record decisions to ensure senior Departmental leadership is aware of the use of the authority to support public health emergencies.
	If the state or tribal locality needs an extension to submit the report, the state or tribal locality

7	must notify the ASPR Coordinator by email.
8	The ASPR Coordinator will alert the HHS OPDIV or STAFFDIV POC of the report extension request within 48 hours by email.

Respectfully,

Terrance W. Perry

SFDPH DOC nCoV Situation Status report #12 (02/06/20)

Status: Yellow

Outlook: Worsening

Need: None

of Cases/Deaths

Worldwide: **28,353 cases / 565 Deaths** (*John Hopkins CSSE, link below*)

US: **12 Cases / 0 Deaths**

CA: **6 Cases / 0 Deaths**

SF: 0 Cases

Updates and Response:

SFDPH

Summary of actions

- Drs. Grant Colfax, Tomas Aragon, and Sunny Pak will be attending the Chinese New Year Parade Public Safety Press Conference.
- DPH and multiple CCSF agencies are developing an advanced planning strategy to meet the expanding need for resources and support in the nCoV-2019 response.
- DPH is working to provide additional education to CCSF staff, hospital visitors, and patients to address concerns of nCoV-2019 infection in health care settings.
- DPH is working closely with SF Urgent Care and outpatient facilities to mitigate potential medical surge to hospitals.
- DPH Epidemiologists are leading efforts to systematically track and monitor PUIs.
- DOC Supply Unit is working to address shortage of N95 and surgical masks. An emergency cache of masks has been accessed to support normal

operations. Supply Unit is reaching out to the Office of Contracts Administration (OCA) for their support.

- DPH is not recommending that CCSF staff wear additional Personal Protective Equipment (PPE) outside of their normal job requirements. Guidance on proper method to request and receive PPE is being developed and will be communicated to health care facilities.
- EMS actively working on transport procedures for inner city transfers of confirmed or suspected cases, as designated Infection Control Ambulances are in short supply in the region.
- CCSF Department of Human Resources (DHR) will send out guidance for CCSF employees who are returning from travel to mainland China within the last 14 days.
- DPH recommendation for travelers returning from mainland China 1-14 days before the Federal Quarantine Orders were announced on 02/03/20: if you feel sick with fever, cough, or shortness of breath, seek medical care right away. Before you go to a doctor's office, clinic, or emergency room, call ahead and tell them about your recent travel and your symptoms so that they can prepare for your visit (see link below)-
- <https://www.sfcddcp.org/infectious-diseases-a-to-z/coronavirus-2019-novel-coronavirus/>

CDC

- CDC reports the nCoV-2019 virus is in process of being renamed name. Multiple scientists and communications experts have noted the need for a more descriptive, easy to use name that avoids the pitfalls of past naming conventions for pathogens. The new name will be released within a few days.
- CDC nCoV page:
<https://www.cdc.gov/coronavirus/2019-ncov/index.html>

WHO (World Health Organization)-

- WHO announced that they have developed a partnership with Google to work to prevent misinformation. Earlier this week Facebook announced that it would take actions to remove misinformation regarding the outbreak from its social media platform.
- WHO nCoV-2019 page: <https://www.who.int/emergencies/diseases/novel-coronavirus-2019>

CDPH (California Department of Public Health)-

- CDC provided CDPH with a list of 7 potential PUI cases in CA that require local jurisdiction follow up and monitoring. CDPH anticipates receiving a larger list of follow up cases from the CDC in the coming days.
- CDPH nCoV

SFDPH

Summary of actions

- DPH and multiple CCSF agencies are developing an advanced planning strategy to meet the expanding need for resources and support in the nCoV-2019 response.
- DPH is working to provide additional education to CCSF staff, hospital visitors, and patients to address concerns of nCoV-2019 infection in health care settings.
- DPH is working closely with SF Urgent Care and outpatient facilities to mitigate potential medical surge to hospitals.
- DPH Epidemiologists are leading efforts to systematically track and monitor PUIs.
- **DOC Supply Unit is working to address shortage of N95 and surgical masks.** An emergency cache of masks has been accessed to support normal operations. Supply Unit is reaching out to the Office of Contracts Administration (OCA) for their support.
- DPH is not recommending that CCSF staff wear additional Personal Protective Equipment (PPE) outside of their normal job requirements. **Guidance on proper method to request and receive PPE is being developed and will be communicated to health care facilities.**
- EMS actively working on transport procedures for inner city transfers of confirmed or suspected cases, as designated Infection Control Ambulances are in short supply in the region.
- CCSF Department of Human Resources (DHR) will send out guidance for CCSF employees who are returning from travel to mainland China within the last 14 days.
- DPH recommendation for travelers returning from mainland China 1-14 days before the Federal Quarantine Orders were announced on 02/03/20: if you feel sick with fever, cough, or shortness of breath, seek medical care right away. Before you go to a doctor's office, clinic, or emergency room, call ahead and tell them about your recent travel and your symptoms so that they can prepare for your visit (see link below)-
- <https://www.sfdcdp.org/infectious-diseases-a-to-z/coronavirus-2019-novel-coronavirus/>

CDC

- CDC reports the nCoV-2019 virus is in process of being renamed name. **Multiple scientists and communications experts have noted the need for a more descriptive, easy to use name that avoids the pitfalls of past naming conventions for pathogens.** The new name will be released within a few days.
- CDC nCoV page:
<https://www.cdc.gov/coronavirus/2019-ncov/index.html>

WHO (World Health Organization)-

- WHO announced that they have developed a partnership with Google to work to prevent misinformation. Earlier this week Facebook announced that it would take actions to remove misinformation regarding the outbreak from its social media platform.
- WHO nCoV-2019 page: <https://www.who.int/emergencies/diseases/novel-coronavirus-2019>

CDPH (California Department of Public Health)-

- CDC provided CDPH with a list of 7 PUI cases in CA that require local jurisdiction follow up and close monitoring. CDPH anticipates receiving a larger list of follow up cases from the CDC in the coming days.
- CDPH nCoV page: <https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/Immunization/nCOV2019.aspx>

Johns Hopkins Data Dashboard (real time updates, data sources- WHO, CDC, NHC, and DXY.)

International data:

- 28,353 confirmed cases; 28,088 cases in mainland China; 563 deaths in China
- 227 confirmed cases outside of China across 27 countries/regions.

National (U.S.) data:

- 1 new confirmed U.S. case in Wisconsin; 12 total confirmed cases in the U.S.
- <https://gisanddata.maps.arcgis.com/apps/opsdashboard/index.html#/bda7594740fd40299423467b48e9ecf6>

CCSF Community Branch:

- Nothing significant to report.

Domestic and International News:

SFO makes changes to coronavirus screenings

SAN FRANCISCO, Calif. (KRON) — For the last several days there have been changes for certain international travelers arriving at SFO due to the coronavirus. “What is different is who is being screened,” SFO spokesman Doug Yakel said. “Prior to Sunday, just those who had been in the Wuhan area [were being tested.] Now, anyone who has been in China in the last 14 days.” While initially on Sunday that seemed to cause some delays in the customs process, international travelers arriving Tuesday said they were in and out of customs in 15 to 45 minutes. Part of that could be due to the fact that many airlines have stopped or reduced the number of flights to and from mainland China. “It’s at a point now where it’s a 50% reduction in flying between SFO and mainland China and that could continue,” Yakel said. The U.S. government’s decision to ban entry to all foreign nationals who have been in mainland China in the last 14 days has reduced demand but among those stranded are full time U.S. workers who are here on visas who are trying to get back.

<https://www.kron4.com/health/coronavirus/sfo-makes-changes-to-coronavirus-screenings/>

Buffing up San Francisco’s historic piers to survive sea level rise

When the now-historic finger piers along San Francisco’s Embarcadero were built, you can bet the builders never expected that a century later, there would be engineering studies on how to prepare the gaunt sheds for seas that could rise nearly 7 feet. But that’s what the port has done — spending more than \$100,000 on conceptual scenarios, such as raising the floors inside the sheds above flood level. Or adding solid railings around the edge of the piers. Or at the very least, waterproofing the lower few feet of a pier’s outer walls. The report being released Thursday captures the dilemma facing San Francisco and other coastal cities. In a world where aged waterfronts have become civic treasures, how do we strike a balance between preparing for climate change and protecting the urban environment? “We are committed to holding on to the current waterfront — the historic waterfront — for as long as we can,” said Elaine Forbes, executive director of the Port of San Francisco. “Adaptive tools are important, because we face a dynamic force.” The focus of the study is the string of finger piers built in the early 20th century along the Embarcadero to the north and south of the Ferry Building.

San Jose hospital workers sent home after coronavirus exposure

Five employees at Good Samaritan Hospital in San Jose were sent home and told to remain isolated after they were exposed to the coronavirus at the end of January, the Santa Clara County Public Health Department said Tuesday. The employees must remain isolated until Feb. 11. The workers helped treat a man who returned from Wuhan, China on Jan. 24 and sought medical attention after falling ill. He was later diagnosed with the coronavirus on Jan. 31. When the man was first diagnosed, officials said the number of people exposed was low, since he only left his house to seek medical attention. "We are quite fortunate in this case, as I think the list of contacts is going to be very short," County Health Officer Dr. Sara Cody said at the time. Santa Clara County is currently handling two cases of coronavirus. A woman was diagnosed on Sunday, but officials do not believe the two cases are related. No announcement has been made regarding individuals who may have come into contact with the woman.

Subject: SFDPH DOC Novel Corona Virus 2019 (nCoV-2019)- Sit Stat 02/05/20
Date: Thursday, February 6, 2020 9:32:44 AM

SFDPH DOC nCoV Situation Status report #11 (02/05/20)

Status: Yellow
Outlook: Worsening
Need: None

of Cases/Deaths

Worldwide: 24,631 cases/494 Deaths (*John Hopkins CSSE, link below*)

US: 11 Cases/0 Deaths

CA: 6 Cases/0 Deaths

SF: 0 Cases

Updates and Response:

SFDPH

Summary of actions

- Chinese community stakeholder “round table” on 02/04/20 (hosted by the Mayor’s Office, DEM, and DPH) was a great success! CCSF plans to continue robust outreach to the Chinese community to ensure up-to-date public information is accessible.
- CCSF is not recommending the need for Chinese community or cultural events to be cancelled as SF remains at low risk for nCoV-2019 transmission in the community.
- DEM/DPH/HRC have developed anti-discrimination messaging and are working with the Mayor’s Office to plan for dissemination.
- DPH developing protocols for operationalizing traveler quarantine orders in SF, to promote safety and in anticipation of growing needs for travelers returning from China and in need of evaluation, including travelers returning from China pre-Federal Quarantine orders (before 02/03/20).
- SF and regional partners identified the need for ongoing Federal support in execution of quarantine orders, as collaboration and coordination across larger regions may be required.
- SF and regional acute care hospitals have identified a critical resource gap for accessing N95 and surgical masks. DPH Supply Unit is actively working on this issue and will provide updates.
- CCSF Laboratories ordered nCoV-2019 testing supplies and instruction kits to enable 7-day a week testing on site. Turn around time for test results will drastically reduce to same day or (maximum) 2 days wait time! Lab is fully staffed, available off hours, and have equipment and supplies to run multiple tests, multiple times a day.
- DPH revisiting protocols for field responders around Corona viruses vs. Novel Corona viruses and providing education and support where needed.
- DEM and DPH are working together to streamline communications and notifications, by identifying a “Health Liaison” to work with the EOC.
SFDPH Page: <https://www.sfdcp.org/infectious-diseases-a-to-z/coronavirus-2019-novel-coronavirus/>
- SFDPH DOC held call with Dr. Erica Pan, Health Officer, Alameda County, to discuss aligning local guidelines to CDC guidance regarding returning travelers.

CDC

- CDC reports of number of PUIs in the U.S. - 11 positive, 206 negative, and 76 pending tests. 36 states with PUIs.
- CDC public health response is focused on detection of nCoV-2019 and minimizing its' introduction into the United States.

CDC nCoV page:

<https://www.cdc.gov/coronavirus/2019-ncov/index.html>

WHO (World Health Organization)-

- WHO reported Belgium has 1st confirmed case of nCoV-2019.
- WHO released their "Global Strategic Preparation and Response Plan." Includes public health measures the international community can provide to help mitigate impact in affected countries.
<file:///C:/Users/kristina%20leonoudakis/Downloads/srp-04022020.cleaned.pdf>
- WHO in discussions with travel and tourism industries to address real and perceived risk and recommend measures to implement for their customers and employees.
- WHO's 3 areas of action:
 1. Rapid international coordination to deliver operational, technical, or strategic support to affected countries.
 2. Help countries scale up their readiness and response.
 3. Accelerate priority research and innovation.
- WHO reported U.S. data- 11 confirmed cases; 8 (new) confirmed cases with travel history to China; 2 (new) confirmed case with possible transmission outside of China; 1 (new) confirmed case with site of transmission under investigation.

WHO nCoV-2019 page: <https://www.who.int/emergencies/diseases/novel-coronavirus-2019>

CDPH (California Department of Public Health)-

- SFO continues the established screening process to identify PUI cases and placing them under a 14-day quarantine order; off site, safe housing is provided for the duration when needed.
- 02/04/20 CA received its first repatriation flight of approximately 240 passengers. Repatriation response and support efforts are being led by U.S. Health and Human Services (HHS), and passengers will be quarantined across the state at secured military bases.
- No changes in CDPH CA nCoV-2019 testing data: 79 persons tested; 6 positive test results; 50 negative test results; 23 pending results.

CDPH nCoV page:

<https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/Immunization/nCOV2019.aspx>

Johns Hopkins Data Dashboard (real time updates, data sources- WHO, CDC, NHC, and DXY.) International data:

- 24,631 confirmed cases; 24,405 cases in mainland China (99% of all confirmed cases globally); 492 deaths

in China (an increase of 66 cases since yesterday). 1 death in Hong Kong; 1 death in the Philippines.

- 226 confirmed cases outside of China across 27 countries/regions.

National (U.S.) data:

- No new confirmed U.S. cases- number remains at 11 confirmed cases.

Shipping of CDC 2019 Novel Coronavirus Diagnostic Test Kits Begins -- February, 2020

A CDC-developed laboratory test kit to detect 2019 novel coronavirus (2019-nCoV) began shipping yesterday to select qualified U.S. and international laboratories. Distribution of the tests will help improve the global capacity to detect and respond to the 2019 novel coronavirus. Press release available at <https://tinyurl.com/vexsrnj>.

To: Pan M.D., Erica, Public Health, DCDCP <Erica.Pan@acgov.org>
Subject: Re: Revised SF draft: working draft

Here is near final draft of p 1 of what DHR plans to send to city staff:

Colleagues:

The SF Department of Public Health (SFDPH) is working closely with the U.S. Centers for Disease Control and Prevention (CDC) and the California Department of Public Health to closely monitor the global outbreak of the novel coronavirus and are taking action to protect the public. The situation is quickly evolving, and we are working closely with SFDPH to keep you updated with the latest developments.

Nationwide, there are 11 infections, including six in California (Los Angeles County, Orange County, Santa Clara County, and San Benito County). At this time, there are no confirmed cases of coronavirus infection in San Francisco residents but two patients with the virus were transferred from another county and are now being treated at a San Francisco hospital. The San Francisco Department of Public Health is prepared for the possibility of confirmed cases and is working closely with the CDC and the California Department of Public Health.

The immediate health risk in San Francisco remains low, except for individuals who have recently traveled to Hubei Province or have come in close contact with someone who has confirmed novel coronavirus.

The CDC has expanded the screening of travelers returning from China.

By federal order, as of February 3, 2020:

- Foreign nationals returning from China will not be allowed entry into the U.S. unless they are immediate family of U.S. citizens or permanent residents.

- All U.S. citizens returning from Hubei Province, China will be subject to a mandatory 14-day quarantine by the federal government.
- U.S. citizens returning from other parts of mainland China who DO NOT have fever, cough, or shortness of breath will undergo self-quarantine at home with monitoring by their local health department. This does not include travel to Hong Kong.
- U.S. citizens returning from other parts of mainland China who have fever, cough, or shortness of breath will undergo mandatory quarantine. This does not include travel to Hong Kong. · For more information, visit <https://www.cdc.gov/coronavirus/2019-nCoV/summary.html#risk-assessment>

The San Francisco Department of Public Health recommends that travelers who returned from China before February 3 monitor themselves for 14 days after their last day in China. If symptoms (fever, cough, or shortness of breath) occur during that time, please contact your health provider, inform them of your travel history and self-isolate at home pending their advice. Do not go to work, school or social events if you have these symptoms.

Locally, we advise employees to take the following actions to protect themselves and their coworkers from infection:

1. Take preventive measures such as frequent hand washing with soap and water for at least 20 seconds or an alcohol-based sanitizer, covering coughs and sneezes, and avoid touching your face.
2. Stay home if you are sick. Employees have standard sick leave available to them should they need to stay home due to illness.
3. Employees who have a mild cough or cold symptoms and are able to work can exercise their telecommuting agreement if they have one in place to avoid infecting others.

Tomas

p.s. plz excuse typos

CDC Returning Traveler Discussion for F11 Jurisdictions

CDC's 2019 Novel Coronavirus (2019-nCoV) response team will host a call from 3 p.m. to 4 p.m. EST for the duration of this week, to discuss plans for returning travelers within the eleven funneling jurisdictions, status reports and concerns. Feel free to include your state epidemiologist, preparedness director, state/city emergency management official, and other core team members.

Dear Partners,

Attached for your reference, is the CDC CARE booklet designed for travelers returning from China who will be asked to self-monitor (symptoms and temperature) based on the “[Interim US Guidance for Risk Assessment and Public Health Management of Persons with potential 2019-nCoV Exposure in Travel-Associated or Community Settings](#)”. We truly appreciate your support confirming the awareness of our state and local partners about this product and the expectations for interactions between travelers and state and local PH specified in it.

We are planning to send the CARE Booklet (final version) to CDC’s US Quarantine Stations screening travelers for their immediate use.

For your convenience, see the link to our informational card or **T-HAN**:
www.cdc.gov/coronavirus/2019-ncov/travelers/communication-resources.html

Please let us know if you have questions.

Situation Report - Update - 2019-nCoV (#4)

Department of Emergency Management
Division of Emergency Services

02-05-2020 - 17:43:00

Situation Update:

- **International data:**
 - 27,797 confirmed cases; 27,557 cases in mainland China (99% of all confirmed cases globally); 561 deaths in China; 1 death in Hong Kong; 1 death in the Philippines.
 - 226 confirmed cases outside of China across 27 countries/regions.
- **National (U.S.) data:**
 - 1 new confirmed U.S. case (located in Wisconsin); 12 total confirmed cases in the USA.
 - There are no confirmed cases in San Francisco.
 - The risk of novel coronavirus in California remains low.
- There are no recommendations to cancel events.
- <https://gisanddata.maps.arcgis.com/apps/opsdashboard/index.html#/bda7594740fd40299423467b48e9ecf6>
 - NOTE: Information may vary as events and reporting are rapidly evolving.
- We are in flu season. The San Francisco Department of Public Health (DPH) recommends that persons with symptoms stay home from work, school, and social gatherings. Practice handwashing precautions.

SFDPH Activities:

- The City & County of San Francisco (CCSF) is not recommending the need for Chinese community or cultural events to be cancelled as SF remains at low risk for nCoV-2019 transmission in the community.
- DPH is developing protocols for operationalizing traveler quarantine orders in SF, to promote safety and in anticipation of growing needs for travelers returning from China and in need of evaluation, including travelers returning from China pre-Federal Quarantine orders (before 02/03/20).

- SF and regional partners identified the need for ongoing Federal support in execution of quarantine orders, as coordination across larger regions may be required.
- CCSF Laboratories ordered nCoV-2019 testing supplies and instruction kits to enable 7-day a week testing on site. Turnaround time for test results will drastically reduce to same day or (maximum) 2 days wait time. Lab is fully staffed, available off hours, and have equipment and supplies to run multiple tests, multiple times a day.
- DPH is revisiting protocols for field responders re: Coronavirus vs. Novel Coronavirus and providing education and support where needed.
- San Francisco Department of Emergency Management (DEM) and DPH are activating a “Health Liaison” to streamline communications and the notification process.

Public Information:

- Chinese Community Roundtable to Discuss Novel Coronavirus Concerns was held on 02/04/20 (hosted by the Mayor’s Office, DEM, and DPH) was a great success. CCSF plans to continue robust outreach to the Chinese community to ensure up-to-date public information is accessible.
- Equity and anti-discrimination talking points are being developed to counter emerging xenophobia.
- 911 dispatchers and 311 call takers have been provided with updated FAQs.
- Homelessness and Supportive Housing (HSH) provided fact sheet information to their service providers and their Homeless Outreach Teams (HOT).
- DPH continues to update fact sheets in English, Chinese, Filipino, and Spanish, which may be distributed to both employees and community members. Updated fact sheets are available on www.sfdph.org, www.sf72.org, and www.sf.gov.
- DPH and DEM are developing messaging in anticipation of the Chinese Lunar New Year Parade and Street Fair. Currently there is no recommendation to cancel these events.
- DEM is coordinating a Chinese Lunar New Year Public Safety press conference this Thursday 2/6 at 2:00 pm with public safety and city officials to promote safety messaging.

- Department of Emergency Management (DEM): <https://SF72.org>
- Centers for Disease Control and Prevention (CDC): <https://www.cdc.gov/coronavirus/2019-ncov/index.html>
- For operational coordination and information sharing, visit WebEOC (<https://sfvem.org>) under Incident Name: 2020-01-21 2019 nCoV. Note - WebEOC is password protected.

Situation Summary:

- CDC is closely monitoring an outbreak of respiratory illness caused by a novel (new) coronavirus (named “2019-nCoV”) that was first detected in Wuhan City, Hubei Province, China and which continues to expand

Chinese health officials have reported thousands of infections with 2019-nCoV in China, with the virus reportedly spreading from person-to-person in many parts of that country

- Infections with 2019-nCoV, most of them associated with travel from Wuhan, also are being reported in a growing number of international locations, including the United States.

Date: Wednesday, February 5, 2020 3:33:20 PM

Please see highlights below. We shouldn't share the issue of N95 shortages so widely. Also, re: lab test time - I try to keep Sit Stats focused on what has been accomplished, not projections for the future. The situation is changing so quickly it gets confusing.

Otherwise, great! Thanks!
Gabby

Updated Sit. Stat!

SFDPH DOC nCoV Situation Status report #11 (02/05/20)

Status: Yellow
Outlook: Worsening
Need: None

of Cases/Deaths

Worldwide: 24,631 cases/494 Deaths (*John Hopkins CSSE, link below*)

US: 11 Cases/0 Deaths

CA: 6 Cases/0 Deaths

Updates and Response:

SFDPH

Summary of actions

- Chinese community stakeholder "round table" on 02/04/20 (hosted by the Mayor's Office, DEM, and DPH) was a great success! CCSF plans to continue robust outreach to the Chinese community to ensure up-to-date public information is accessible.
- CCSF is not recommending the need for Chinese community or cultural events to be cancelled as SF remains at low risk for nCoV-2019 transmission in the community.
- DEM/DPH/HRC have developed anti-discrimination messaging and are working with the Mayor's Office to plan for dissemination.
- DPH developing protocols for operationalizing traveler quarantine orders in SF, to promote safety and in anticipation of growing needs for travelers returning from China and in need of evaluation, including travelers returning from China pre-Federal Quarantine orders (before 02/03/20).
- SF and regional partners identified the need for ongoing Federal support in execution of quarantine orders, as collaboration and coordination across larger regions may be required.
- **REMOVE: SF and regional acute care hospitals have identified a critical resource gap for accessing N95 and surgical masks. DPH Supply Unit is actively working on this issue and will provide updates.**
- CCSF Laboratories ordered nCoV-2019 testing supplies and instruction kits to enable 7-day a week testing on site, with the goal to reduce wait time for test results. **REMOVE: Turn around time for test results will drastically reduce to same day or (maximum) 2 days wait time!** Lab is fully staffed, available off hours, and have equipment and supplies to run multiple tests, multiple times a day.
- DPH revisiting protocols for field responders around Corona viruses vs. Novel Corona viruses and providing

education and support where needed.

- DEM and DPH are working together to streamline communications and notifications, by identifying a “Health Liaison” to work with the EOC.

SFDPH Page: <https://www.sfcddcp.org/infectious-diseases-a-to-z/coronavirus-2019-novel-coronavirus/>

CDC

- CDC reports of number of PUIs in the U.S. - 11 positive, 206 negative, and 76 pending tests. 36 states with PUIs.
- CDC public health response is focused on detection of nCoV-2019 and minimizing its’ introduction into the United States.

CDC nCoV page:

<https://www.cdc.gov/coronavirus/2019-ncov/index.html>

WHO (World Health Organization)-

- WHO reported Belgium has 1st confirmed case of nCoV-2019.
- WHO released their “Global Strategic Preparation and Response Plan.” Includes public health measures the international community can provide to help mitigate impact in affected countries. <file:///C:/Users/kristina%20leonoudakis/Downloads/srp-04022020.cleaned.pdf>
- WHO in discussions with travel and tourism industries to address real and perceived risk and recommend measures to implement for their customers and employees.
- WHO’s 3 areas of action:
 1. Rapid international coordination to deliver operational, technical, or strategic support to affected countries.
 2. Help countries scale up their readiness and response.
 3. Accelerate priority research and innovation.
- WHO reported U.S. data- 11 confirmed cases; 8 (new) confirmed cases with travel history to China; 2 (new) confirmed case with possible transmission outside of China; 1 (new) confirmed case with site of transmission under investigation.

WHO nCoV-2019 page: <https://www.who.int/emergencies/diseases/novel-coronavirus-2019>

CDPH (California Department of Public Health)-

- SFO continues the established screening process to identify PUI cases and placing them under a 14-day quarantine order; off site, safe housing is provided for the duration when needed.
- 02/04/20 CA received its first repatriation flight of approximately 240 passengers. Repatriation response and support efforts are being led by U.S. Health and Human Services (HHS), and passengers will be quarantined across the state at secured military bases.
- No changes in CDPH CA nCoV-2019 testing data: 79 persons tested; 6 positive test results; 50 negative test results; 23 pending results.

CDPH nCoV page:

<https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/Immunization/nCOV2019.aspx>

Johns Hopkins Data Dashboard (real time updates, data sources- WHO, CDC, NHC, and DXY.)

International data:

- 24,631 confirmed cases; 24,405 cases in mainland China (99% of all confirmed cases globally); 492 deaths in China (an increase of 66 cases since yesterday). 1 death in Hong Kong; 1 death in the Philippines.
- 226 confirmed cases outside of China across 27 countries/regions.

National (U.S.) data:

- No new confirmed U.S. cases- number remains at 11 confirmed cases.

Johns Hopkins Data Dashboard (real time updates, data sources- WHO, CDC, NHC, and DXY.)

International data:

- 24,631 confirmed cases; 24,405 cases in mainland China (99% of all confirmed cases globally); 492 deaths in China (an increase of 66 cases since yesterday). 1 death in Hong Kong; 1 death in the Philippines.
- 226 confirmed cases outside of China across 27 countries/regions.

National (U.S.) data:

- No new confirmed U.S. cases- number remains at 11 confirmed cases.

Attachments: [nCoV_DRAFT sit. stat. 11_2020.02.05.docx](#)

A little late! Apologies!

SFDPH DOC nCoV Situation Status report #11 (02/05/20)

Status: Yellow
Outlook: Worsening
Need: None

of Cases/Deaths

Worldwide: 24,631 cases/494 Deaths (*John Hopkins CSSE, link below*)

US: 11 Cases/0 Deaths

CA: 6 Cases/0 Deaths

Updates and Response:

SFDPH

Summary of actions

- Chinese community stakeholder “round table” on 02/04/20 (hosted by the Mayor’s Office, DEM, and DPH) was a great success! CCSF plans to continue robust outreach to the Chinese community to ensure up-to-date public information is accessible.
 - CCSF is not recommending the need for Chinese community or cultural events to be cancelled as SF remains at low risk for nCoV-2019 transmission in the community.
 - DEM/DPH/HRC have developed anti-discrimination messaging and are working with the Mayor’s Office to plan for dissemination.
 - DPH is working with regional partners and surrounding counties to develop clear quarantine processes, guidelines, and follow up for travelers returning from China pre-Federal Quarantine orders (before 02/03/20).
 - DPH developing protocols for operationalizing traveler quarantine orders in SF, to promote safety and in anticipation of growing needs for travelers returning from China and in need of evaluation.
 - SF and regional partners identified the need for ongoing Federal support in execution of quarantine orders, as collaboration and coordination across larger regions may be required.
 - SF and regional acute care hospitals have identified a critical resource gap for accessing N95 and surgical masks. DPH Supply Unit is actively working on this issue and will provide updates.
 - CCSF Laboratories ordered nCoV-2019 testing supplies and instruction kits to enable 7-day a week testing on site. Turn around time for test results will drastically reduce to same day or (maximum) 2 days wait time! Lab is fully staffed, available off hours, and have equipment and supplies to run multiple tests, multiple times a day.
 - DPH revisiting protocols for field responders around Corona viruses vs. Novel Corona viruses and providing education and support where needed.
 - DEM and DPH are working together to streamline communications and notifications, by identifying a “Health Liaison” to work with the EOC.
- SFDPH Page: <https://www.sfcdcp.org/infectious-diseases-a-to-z/coronavirus-2019-novel-coronavirus/>

CDC

- CDC reports of number of PUIs in the U.S. - 11 positive, 206 negative, and 76 pending tests. 36 states with

PUIs.

- CDC public health response is focused on detection of nCoV-2019 and minimizing its' introduction into the United States.

CDC nCoV page:

<https://www.cdc.gov/coronavirus/2019-ncov/index.html>

WHO (World Health Organization)-

- WHO reported Belgium has 1st confirmed case of nCoV-2019.
- WHO released their "Global Strategic Preparation and Response Plan." Includes public health measures the international community can provide to help mitigate impact in affected countries. <file:///C:/Users/kristina%20leonoudakis/Downloads/srp-04022020.cleaned.pdf>
- WHO in discussions with travel and tourism industries to address real and perceived risk and recommend measures to implement for their customers and employees.
- WHO's 3 areas of action:
 1. Rapid international coordination to deliver operational, technical, or strategic support to affected countries.
 2. Help countries scale up their readiness and response.
 3. Accelerate priority research and innovation.
- WHO reported U.S. data- 11 confirmed cases; 8 (new) confirmed cases with travel history to China; 2 (new) confirmed case with possible transmission outside of China; 1 (new) confirmed case with site of transmission under investigation.

WHO nCoV-2019 page: <https://www.who.int/emergencies/diseases/novel-coronavirus-2019>

CDPH (California Department of Public Health)-

- SFO continues the established screening process to identify PUI cases and placing them under a 14-day quarantine order; off site, safe housing is provided for the duration when needed.
- 02/04/20 CA received its first repatriation flight of approximately 240 passengers. Repatriation response and support efforts are being led by U.S. Health and Human Services (HHS), and passengers will be quarantined across the state at secured military bases.
- No changes in CDPH CA nCoV-2019 testing data: 79 persons tested; 6 positive test results; 50 negative test results; 23 pending results.

CDPH nCoV page:

Subject: REMINDER: Thursday 4 on Eastern BCHC Member Call Re: Coronavirus (Agenda)
Date: Wednesday, February 5, 2020 11:21:53 AM
Attachments: [2019 Novel Coronavirus Microsite Now Available from CDC.msg](#)

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Good afternoon -

As a reminder, we have scheduled a call for 4 pm est tomorrow to share information with, and ask questions of, your peers re: coronavirus. I've also attached an email from CDC about embedding their microsite on your webpages for you to share with your comms team.

Agenda

- Brief summary/update from the 5 jurisdictions with current cases (Approx 25 mins -- 3 to 5 mins each)
 - Chicago
 - LA
 - Maricopa County
 - Santa Clara County
 - Boston
- Q/A from members (Approx 20 mins)
- Info for staff (Approx 15 mins)
 - What resources do you need?
 - What other support do you need?
 - Are you getting info from state/federal partners in a timeline manner?
 - Are their policy or practice constraints that we can raise up?
 - Any other concerns we should share?

Chrissie Juliano, MPP

Executive Director

[Big Cities Health Coalition](#) | [@BigCitiesHealth](#)

Desk Phone: 301-664-2989

7501 Wisconsin Ave., Ste. 1310E

Subject: BCHC Member Call -- Coronavirus Info from Your Peers (See notes for message about this call)

When: Thursday, February 6, 2020 4:00 PM-5:00 PM (UTC-05:00) Eastern Time (US & Canada).

Where: 19292056099,,286383146

Thanks to Phil for suggesting we get a BCHC call on the calendar next week to gather as many as you as possible at once to hear from your colleagues who had the first cases -- primarily LA County and Chicago -- as well as those of you who continue to confirm cases. Thanks to Barbara and Allison for the speedy response in confirming a time they have in common next week. While I will not dictate who and how many staff you can have on this BCHC call, please remember that this is meant to be a leader-to-leader discussion and not necessarily in the weeds for all line staff. NACCHO and CDC continue to hold various calls on different topics -- and I am getting looped into most of that. Should you have specific needs, questions, and/or lack information about the various update calls, please let me know and I will do what I can to help.

Chrissie

Happening Today - Special Events for 02-05-2020:

Wednesday (2/5/2020)

- Society of Photographic Instrumentation Engineers (SPIE) Photonics West Convention, from 7:30am to 6:00pm @ Moscone North, South, and West
 - Hamilton (Shuttle Service), from 8:00am to 5:00pm. Grove St. closed between Larkin and Polk
-

Happening This Week - Special Events from 02-06-2020 to 02-12-2020:

Thursday (2/6/2020)

- Society of Photographic Instrumentation Engineers (SPIE) Photonics West Convention, from 7:30am to 6:00pm @ Moscone North, South, and West

Friday (2/7/2020)

- No large events scheduled

Saturday (2/8/2020)

- KTVU Broadcast of CNY Parade, from 3:00pm to 11:00pm, at Geary Between Stockton and Powell Streets.
- Chinese New Year Parade, from 5:00pm to 9:00pm. Begins at 2nd St and Market,

continues around Union Square, ends at Kearny St and Columbus Ave
- Armin Van Buuren Concert, from 5:00pm to midnight @ Bill Graham
- Warriors vs Lakers, from 5:30pm to 9:00pm @ Chase Center

Sunday (2/9/2020)

-No large events scheduled

Monday (2/10/2020)

- Warriors vs Heat, from 7:30pm to 11:00pm @ Chase Center

Tuesday (2/11/2020)

-No large events scheduled

Wednesday (2/12/2020)

-Film shoot from 7:00am until 2/17/2020, Fulton St. closed between Hyde and Larkin

Critical Branch Updates:

CCSF Transportation Branch:

- SFMTA Muni Alert messages: <https://www.sfmta.com>

CCSF Infrastructure Branch:

- Nothing significant to report.

CCSF Public Safety Branch:

- Nothing significant to report.

CCSF Health and Human Services Branch:

- The San Francisco Department of Public Health continues to coordinate with partner agencies to monitor the Novel Coronavirus (2019-nCoV) situation.

CCSF Community Branch:

- Nothing significant to report.

Domestic and International News:

Coronavirus: Window of opportunity to act, World Health Organization says

The World Health Organization (WHO) says there is a "window of opportunity" to stop the deadly new coronavirus becoming a broader global crisis. Director-General Tedros Adhanom Ghebreyesus said the steps China took to fight the virus at its epicentre were a good way of stopping its spread. The praise comes as Chinese officials have been widely criticised for their initial handling of the outbreak. On Tuesday alone, nearly 4,000 new cases were confirmed in the country. The death toll has now risen to 490, an increase of 65 deaths in mainland China in one day, the latest figures from the country's National Health Commission (NHC) said. All the new fatalities were in Hubei province, the centre of the outbreak. In China alone, there are now more than 24,300 cases, with a much smaller number of cases in other countries around the globe. Two people have died of the disease outside of mainland China - one in Hong Kong and one in the Philippines. The WHO has declared a global health emergency over the outbreak but said it did not yet constitute a "pandemic", or the worldwide spread of a new disease.

FEMA Grants \$5.8M to Ensure Potable Water for Residents after an Earthquake

Oakland, Calif. – The Federal Emergency Management Agency (FEMA) has granted \$5.8 million to the California Governor's Office of Emergency Services (Cal OES) and Sonoma Water to reduce potential pipe failure and the loss of water service to 600,000 residents and businesses as a result of damage from an earthquake along Rodger's Creek Fault. The project will strengthen the Russian River-Cotati Intertie water system to withstand the effects of ground deformation, liquefaction, and lateral spread hazards by replacing sections of the pipeline that cross below Mark West Creek and the Russian River. Completion of the project will also keep potable water free from contamination, safeguard water for firefighting, and help prevent economic losses to local businesses if the pipeline were to rupture. Access to reliable, contamination-free water is critical to supporting fast economic recovery, as it encourages survivors to stay in the area and rebuild after a catastrophic event. The \$10.2 million project will be funded by a \$5.8 million Pre-Disaster Mitigation (PDM) grant from FEMA, with non-federal sources covering the remaining \$4.4 million. FEMA's PDM grant program helps states, territories, federally-recognized tribes, local communities, and certain private, non-profit organizations become more resilient to

potential infrastructure damage and reduce future disaster costs. In the past 30 years, FEMA has invested more than \$1.3 billion to reduce disaster risks in California.

Poll: Most Americans Say U.S. 'Doing Enough' To Prevent Coronavirus Spread

Two-thirds of Americans say the novel coronavirus poses a "real threat" and has not been "blown out of proportion." And, though the majority of Americans are concerned about the potential spread of the virus within the U.S., 61% also say U.S. government officials are doing enough to prevent it. The findings come from a NPR/PBS NewsHour/Marist poll released Tuesday. "Right now, people are worried and watchful," says Lee Miringoff, Director of the Marist Institute for Public Opinion. Despite the global threat, "a majority of Americans don't see this as something that is necessarily going to strike here," Miringoff says. And only 1% say they've changed their travel plans due to the novel virus. "People are concerned overall, but not necessarily about their community," Miringoff says. And, so far, the only people who have been diagnosed in the U.S. have either been to the region in China where the virus was first detected, or have been in close contact with people who have returned from China. The poll finds that Americans aged 45 or older are much more likely to be concerned about the spread of the virus to their communities compared to younger Americans.

<https://www.npr.org/sections/health-shots/2020/02/04/802387025/poll-most-americans-say-u-s-doing-enough-to-prevent-coronavirus-spread>

The City & County of San Francisco (CCSF) Department of Emergency Management's Duty Officer Program compiles and disseminates this product in order to maintain situational awareness among public safety partners.

Update Situation Report - 2019 n-CoV(#3)

Department of Emergency Management
Division of Emergency Services

02-04-2020 - 17:14:56

Change Since Last Situation Report:

Situation Update:

International data:

- 20,492 confirmed cases (99% of all confirmed cases globally) and 425 deaths in China (an increase of 66 cases since yesterday). 2.1% of confirmed cases in China have resulted in death.
- 2 additional deaths in the Philippines and Hong Kong.
- 212 confirmed cases outside of China (an increase of 29 cases since yesterday) across 27 countries.

National (U.S.) data:

- 11 confirmed cases in the U.S. (Seattle, Chicago - 2, Tempe, LA County, Orange County, Santa Clara County -2, San Benito County -2, Boston).
- There are no confirmed cases in San Francisco.
- The risk of Novel Coronavirus in California remains low.
- There are no recommendations to cancel events.

<https://gisanddata.maps.arcgis.com/apps/opsdashboard/index.html#/bda7594740fd40299423467b48e9ecf6>

NOTE: Information may vary as events and reporting are rapidly evolving.

- We are in flu season. SFDPH recommends that persons with symptoms stay home from work, school, and social gatherings. Practice hand-washing precautions.

SFDPH Activities:

- SFDPH Department Operation Center (DOC) continues to expand to accommodate operational, logistical, and administrative needs.
- SFDPH Supply Unit is actively locating and securing adequate Personal Protective Equipment (PPE) for staff, which is in high demand at this time from commercial suppliers; availability and/or order turnaround time may become affected.
- PPE training and guidance is being taught to CCSF Primary Care Outpatient Clinics.
- Great collaborative success! City departments across SF have been working together to accommodate space, time, and staff for the SFDPH DOC. Resources are being identified and made available to support the nCoV-2019 activation response!
- SFDPH Public Health Laboratories are preparing to receive and test specimen (if needed) 7 days a week.
- 2 San Benito confirmed cases continue to be hospitalized in in San Francisco. The SF community is not at risk as proper transport and isolation techniques are being followed.

Public Information:

- CCSF round table meeting today hosted today with Chinese Community stakeholders, including 50 different organizations, family associations, merchants, and community leaders.
- DEM and the Mayor's Office hosted a Chinese community stakeholder meeting today from 1:30pm-4:00 pm
- Equity talking points are being developed to counter emerging Xenophobia.
- DEM and the Mayor's Office hosted a Chinese community stakeholder meeting
- 911 Dispatchers and 311 Call Takers have been provided with updated FAQs.
- Homelessness and Supportive Housing (HSH) provided fact sheet information to their service provided and their Homeless Outreach Teams (HOT).
- SFDPH continues to update fact sheets in English, Chinese, Filipino, and Spanish, which may be distributed to both employees and community members. Updated fact sheets are available on www.sfdph.org, www.sf72.org, and www.sf.gov.
- SFDPH and DEM are developing messaging in anticipation of the Lunar New Year events. Currently there is no recommendation to cancel these events.
- DEM is coordinating a Chinese Lunar New Year Public Safety press conference this Thursday, Feb. 6th at 2pm for public safety officials to promote safety messaging and LunarSF AlertSF short-code.

Resources:

- Department of Public Health (SFDPH): <https://www.sfdcp.org/infectious-diseases-a-to-z/coronavirus-2019-novel-coronavirus/>

- Centers for Disease Control and Prevention (CDC): <https://www.cdc.gov/coronavirus/2019-ncov/index.html>
- For operational coordination and information sharing, visit WebEOC (<https://sfvem.org>) under Incident Name: 2020-01-21 2019 nCoV. Note - WebEOC is password protected.

Situation Summary:

CDC is closely monitoring an outbreak of respiratory illness caused by a novel (new) coronavirus (named "2019-nCoV") that was first detected in Wuhan City, Hubei Province, China and which continues to expand. Chinese health officials have reported thousands of infections with 2019-nCoV in China, with the virus reportedly spreading from person-to-person in many parts of that country. Infections with 2019-nCoV, most of them associated with travel from Wuhan, also are being reported in a growing number of international locations, including the United States.

Susan,

Can you review this now and send back to the dem duty officer?

The duty officer asked me to review the situational brief for the CCSF alert. This is something tomas does for them daily (is what she explained to me), but I guess tomas is unavailable right now (something about the health commission?)

SFDPH DOC nCoV Situation Status report #10 (02/04/20)

Status: Yellow
Outlook: Worsening
Need: None

of Cases/Deaths

Worldwide: **20,704 cases/427 Deaths** (*John Hopkins CSSE, link below*)

US: **11 Cases/0 Deaths**

CA: **6 Cases/0 Deaths**

Updates and Response:

SFDPH

Summary of actions

- DPH outreach to the Chinese community remains a top priority. Round table meeting held today with Chinese Community stakeholders, including 50 different organizations, family associations, merchants, and community leaders.
- SFDPH Department Operation Center (DOC) continues to expand to accommodate operational, logistical, and administrative needs.
- DPH Supply Unit is actively locating and securing adequate Personal Protective Equipment (PPE) for staff; PPE is in high demand at this time from commercial suppliers, which may impact availability and/or order turnaround time.
- Collaboration at the regional level to coordinate messaging and guidance to pre-hospital providers (aligning with Health Officers' strategies), as well as 911 dispatch screening parameters and standards.
- DPH Primary Care personnel are bringing PPE training and guidance to outpatient clinics.
- CCSF Departments outside of DPH have been working together to accommodate space, time, and staff for the DOC. Resources are being identified and made available to support the nCoV-2019 activation response
- DPH is engaging with hospital partners to coordinate placement of PUI cases and confirmed cases, develop standard protocols for transport and relocation across the city, region and the State.
- CCSF Laboratories are preparing to receive and test specimen (if needed) 7 days a week.
- 2 San Benito confirmed cases continue to be hospitalized in in San Francisco. The SF community is not at risk as proper transport and isolation techniques are being followed.

SFDPH Page: <https://www.sfcdcp.org/infectious-diseases-a-to-z/coronavirus-2019-novel-coronavirus/>

CDC

- CDC reports of number of PUIs in the U.S. - 11 positive, 167 negative, and 82 pending tests. 36 states with PUIs (unchanged from 02/03/20).
- CDC reported that nCoV-2019 is not spreading in the U.S. community at this time.
- CDC Infection Control Guidance for 2019-nCoV revised 02/03/20.
- CDC plans to release guidance on quarantine of medium and high-risk travelers returning to the U.S. from

affected areas, as related to the Federal Quarantine Orders that went into effect over the weekend. Interim guidance can be found here: <https://www.cdc.gov/coronavirus/2019-ncov/php/risk-assessment.html>
CDC nCoV page:
<https://www.cdc.gov/coronavirus/2019-ncov/index.html>

WHO (World Health Organization)-

- WHO stated that no new countries reported cases of 2019-nCoV since 02/03/20.
- WHO developed a protocol for the investigation of early cases: [https://www.who.int/publications-detail/the-first-few-x-iffx-cases-and-contact-investigation-protocol-for-2019-novel-coronavirus-\(2019-ncov\)-infection](https://www.who.int/publications-detail/the-first-few-x-iffx-cases-and-contact-investigation-protocol-for-2019-novel-coronavirus-(2019-ncov)-infection)
- WHO prepared a disease commodity package that includes an essential list of biomedical equipment, medicines and supplies necessary to care for patients with 2019-nCoV: [https://www.who.int/publications-detail/disease-commodity-package---novel-coronavirus-\(ncov\)](https://www.who.int/publications-detail/disease-commodity-package---novel-coronavirus-(ncov))

WHO nCoV-2019 page: <https://www.who.int/emergencies/diseases/novel-coronavirus-2019>

CDPH (California Department of Public Health)-

- Confirmed 6 cases in California: Santa Clara County (2), San Benito (2), Los Angeles (1), Orange County (1).
- As of 1800 hours on February 3, 2020 there have been 79 persons in California tested for 2019- nCoV. Six test results were positive, 50 test results were negative, and the remaining 23 results are pending.
- Currently coordinating with Federal authorities around quarantine orders for returning travelers from Hubei Province, coming through FO or LAX.

CDPH nCoV page:

<https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/Immunization/nCOV2019.aspx>

Johns Hopkins Data Dashboard (real time updates, data sources- WHO, CDC, NHC, and DXY.)

International data:

- 20,704 confirmed cases (99% of all confirmed cases globally) and 427 deaths in China (an increase of 66 cases since yesterday). 2.1% of confirmed cases in China have resulted in death.
- 2 additional deaths in the Philippines and Hong Kong.
- 212 confirmed cases outside of China (an increase of 29 cases since yesterday) across 27 countries.

National (U.S.) data:

- 11 confirmed cases in the U.S. (Seattle, Chicago - 2, Tempe, LA County, Orange County, Santa Clara County -2, San Benito County -2, Boston).
- 167 negative PUIs; 82 Pending PUIs; 6.2% of PUIs have come back positive. PUIs in 36 states.

SFDPH DOC nCoV Situation Status report #10 (02/04/20)

Status: Yellow
Outlook: Worsening
Need: None

of Cases/Deaths

Worldwide: 20,704 cases/427 Deaths (*John Hopkins CSSE, link below*)

US: 11 Cases/0 Deaths

CA: 6 Cases/0 Deaths

Updates and Response:

SFDPH

Summary of actions

- DPH outreach to the Chinese community remains a top priority. Round table meeting today with Chinese Community stakeholders, including 50 different organizations, family associations, merchants, and community leaders.
- SFDPH Department Operation Center (DOC) continues to expand to accommodate operational, logistical, and administrative needs.
- DPH Supply Unit is actively locating and securing adequate Personal Protective Equipment (PPE) for staff; PPE is in high demand at this time from commercial suppliers, which may impact availability and/or order turnaround time.
- Collaboration at the regional level to coordinate messaging and guidance to pre-hospital providers (aligning with Health Officers' strategies), as well as 911 dispatch screening parameters and standards.
- DPH Primary Care personnel are bringing PPE training and guidance to outpatient clinics.
- Great collaborative success as departments across CCSF (outside of DPH) have been working together to accommodate space, time, and staff for the DOC. Resources are being identified and made available to support the nCoV-2019 activation response!
- DPH is engaging with hospital partners to coordinate placement of PUI cases and confirmed cases, develop standard protocols for transport and relocation across the city, region and the State.
- CCSF Laboratories are preparing to receive and test specimen (if needed) 7 days a week.
- 2 San Benito confirmed cases continue to be hospitalized in in San Francisco. The SF community is not at risk as proper transport and isolation techniques are being followed.

SFDPH Page: <https://www.sfc-dcp.org/infectious-diseases-a-to-z/coronavirus-2019-novel-coronavirus/>

CDC

- CDC reports of number of PUIs in the U.S. - 11 positive, 167 negative, and 82 pending tests. 36 states with PUIs (unchanged from 02/03/20).
- CDC reports of number of PUIs in the U.S. - 11 positive, 167 negative, and 82 pending tests. 36 states with PUIs (unchanged from 02/03/20).
- CDC reported that nCoV-2019 is not spreading in the U.S. community at this time.
- CDC Infection Control Guidance for 2019-nCoV revised 02/03/20.
- CDC plans to release guidance on quarantine of medium and high risk travelers returning to the U.S. from affected areas, as related to the Federal Quarantine Orders that went into effect over the weekend. Interim

guidance can be found here: <https://www.cdc.gov/coronavirus/2019-ncov/php/risk-assessment.html>

CDC nCoV page:

<https://www.cdc.gov/coronavirus/2019-ncov/index.html>

WHO (World Health Organization)-

- WHO stated that no new countries reported cases of 2019-nCoV since 02/03/20.
- WHO developed a protocol for the investigation of early cases: [https://www.who.int/publications-detail/the-first-few-x-ffx-cases-and-contact-investigation-protocol-for-2019-novel-coronavirus-\(2019-ncov\)-infection](https://www.who.int/publications-detail/the-first-few-x-ffx-cases-and-contact-investigation-protocol-for-2019-novel-coronavirus-(2019-ncov)-infection)
- WHO prepared a disease commodity package that includes an essential list of biomedical equipment, medicines and supplies necessary to care for patients with 2019-nCoV: [https://www.who.int/publications-detail/disease-commodity-package--novel-coronavirus-\(ncov\)](https://www.who.int/publications-detail/disease-commodity-package--novel-coronavirus-(ncov))

WHO nCoV-2019 page: <https://www.who.int/emergencies/diseases/novel-coronavirus-2019>

CDPH (California Department of Public Health)-

- Confirmed 6 cases in California: Santa Clara County (2), San Benito (2), Los Angeles (1), Orange County (1).
- As of 1800 hours on February 3, 2020 there have been 79 persons in California tested for 2019- nCoV. Six test results were positive, 50 test results were negative, and the remaining 23 results are pending.
- Currently coordinating with Federal authorities around quarantine orders for returning travelers from Hubei Province, coming through FO or LAX.

CDPH nCoV page:

<https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/Immunization/nCOV2019.aspx>

Johns Hopkins Data Dashboard (real time updates, data sources- WHO, CDC, NHC, and DXY.)

International data:

- 20,492 confirmed cases (99% of all confirmed cases globally) and 425 deaths in China (an increase of 66 cases since yesterday). 2.1% of confirmed cases in China have resulted in death.
- 2 additional deaths in the Philippines and Hong Kong.
- 212 confirmed cases outside of China (an increase of 29 cases since yesterday) across 27 countries.

National (U.S.) data:

- 11 confirmed cases in the U.S. (Seattle, Chicago - 2, Tempe, LA County, Orange County, Santa Clara County -2, San Benito County -2, Boston).
- 167 negative PUIs; 82 Pending PUIs; 6.2% of PUIs have come back positive. PUIs in 36 states.

Subject: RE: CDC Returning Traveler Discussion
Date: Tuesday, February 4, 2020 12:52:05 PM

Quick notes from this call:

- They did not ask about details regarding transport from SFO to Travis
- CDC not giving thermometers out yet. CDC looking at putting together care kits but not there yet. [] potential resource need – if we are asking folks to take their temperature, we may need to provide these.
- They are still working on getting the list of returning travelers to the states; glitch in system; starting tonight, should start getting those transmissions to states. Not there yet.
- CDC not asking incoming travelers from China if they've been in contact with anyone with nCoV (for people coming from China – they are asking have you been in Hubei, asking about sx and fever, and checking temperature, I think). Risk based questions will have to be asked by local health depts. as part of intake form. (such as, have you had contact with a confirmed nCoV case).
- LA, SF, JFK have highest volume of incoming travelers from China – I thought I heard 2500 people total so far screened but I might have missed that so don't quote that number. If that is the case, SF may end up with a large number of people who need to have public health reach out to them for monitoring.

Hi All,

The purpose of this call is to figure out coordination primarily for the San Benito and San Francisco efforts in case and contact tracking.

For your information, I've attached the packet of information with the case and contact investigation materials.

Thanks,

Olivia

Domestic and International News:

Coronavirus outbreak: 2 patients at UCSF; SF mayor says Lunar New Year parade will go on

SAN FRANCISCO (KGO) -- Multiple nurses and employees at the UCSF Parnassus campus said they received an email Monday that said two patients with coronavirus were transferred to the hospital for treatment. UCSF officials have not confirmed where in their system the patients are being treated, but they did release a statement saying, "The patients are being cared for in isolation at UCSF Health." The statement also says that precautions are being taken to screen any individuals that have traveled from China and to prevent the spread of the virus. UCSF Health has received two patients with confirmed novel coronavirus (2019-nCoV), who were transferred to the hospital from another county in California today, Monday, Feb. 3. The patients are being cared for in isolation at UCSF Health. UCSF, which specializes in the care of patients with complex illnesses, including infectious diseases like the novel coronavirus, also treated patients during past epidemics, such as SARS in 2003. In addition to our standard infectious disease protocols, we have instituted a number of measures to screen patients with potential 2019-nCoV, as well as prevent the coronavirus' spread. UCSF Health is screening patients to ensure that we are taking all precautions for any individuals that have traveled from China. Health officials said two patients arrived at UCSF Monday morning from San Benito County, which is near Gilroy.

States scramble to carry out Trump's coronavirus travel order

After a weekend of panicked calls and emergency meetings, federal and state officials were still struggling Monday with how to carry out stringent new travel restrictions ordered by the Trump administration and where to quarantine passengers arriving from China to control the spread of the coronavirus in the United States. In interviews, state officials said the order came on Friday with no advance notice and little planning. The restrictions ban non-U.S. citizens who recently visited China from entering the country and quarantine Americans who visited Hubei province, the epicenter of the outbreak, within the past 14 days. (Immediate relatives of U.S. citizens, permanent residents, and flight crew members are exempted from the ban.) The administration is also requiring screening and self-monitoring of symptoms for Americans who recently visited other parts of China. All flights from China as of Sunday evening are being funneled to 11 airports: in New York, Chicago, San Francisco, Los Angeles, Seattle, Atlanta, Honolulu, Newark, Detroit, Dallas and just outside the District. Among the options being considered for housing quarantined travelers are hotels, military bases and trailers, officials said Monday.

Sen. Wiener announces legislation to take over PG&E

State Sen. Scott Wiener announced legislation Monday to transform the beleaguered Pacific Gas & Electric company into a public utility. The proposed bill would require the state to begin purchasing all PG&E shares, which would then be transferred to a publicly owned utility, the Northern California Energy District. “It will put an end to the dangerous roller coaster ride that we have been on for the last decade,” Wiener said at a morning press conference at Civic Center. “PG&E is a failed company.” PG&E filed for chapter 11 bankruptcy protection over a year ago amid billions in liability costs for its role in sparking deadly wildfires in 2017 and 2018. More recently, millions were left without power when the utility shut off power to avoid sparking more fires last year. The embattled utility currently supplies power to the majority of Californians. The bill would create a publicly owned utility that would contract with a public benefit district, Northern California Energy Services, to employ workers. The structure would be modeled after the Long Island Power Authority in New York.

Subject: Guidance for The Temporary Reassignment of State, Tribal, and Local Personnel During a Declared Federal Public Health Emergency

Dear Colleague,

As a follow-up to the communication sent on January 31, 2020 regarding the public health emergency for the novel Coronavirus (2019-nCoV), CDC understands that it may require that you mobilize public health capabilities, including the reassignment of personnel from their normal duties including those funded by CDC grants.

The purpose of this correspondence is to clarify the process for requesting temporary reassignment of state, tribal, and local personnel during an HHS Secretary declared public health emergency. This authority terminates September 30, 2023.

Section 701 of the Pandemic and All-Hazards Preparedness and Advancing Innovation Act of 2019 (PAHPAI), 42 USC 201, Public Law 116-22 amends section 319 of the Public Health Service (PHS) Act to provide the Secretary of the Department of Health and Human Services (HHS) with discretion to authorize the temporary reassignment of state, tribal, and local personnel during a declared federal public health emergency upon request by a state or tribal organization. The temporary reassignment provision is

applicable to state, tribal, and local public health department or agency personnel whose positions are funded, in full or part, under PHS programs and allows such personnel to immediately respond to the public health emergency in the affected jurisdiction. Funds provided under the award may be used to support personnel who are temporarily reassigned in accordance with section 319(e).

A Governor of a state, local or tribal organization or their designee may request to temporarily reassign state and local public health department, tribal, or agency personnel funded in whole or in part through programs authorized under the PHS Act to immediately address a public health emergency in the state or Indian tribe during the period of the emergency. The following reassignment conditions apply:

- Reassignment must be voluntary;
- Locations for reassignment must be covered under the public health emergency; and
- Any reassignment over 30 days must be reauthorized.

In the case of submission by a designee, a copy of the designation must be included. Please note that reassignments are not authorized until HHS approval is received.

Detailed information, including Guidance for Temporary Reassignment of State and Local Personnel during a Public Health Emergency, is available on the Assistant Secretary for Preparedness and Response (ASPR) website via <http://www.phe.gov/Preparedness/legal/pahpa/section201/Pages/default.aspx>. To request the temporary reassignment of personnel, a state governor, tribal leader, or designee must complete the [Request for the Temporary Reassignment of State, Tribal, and Local Personnel During a Public Health Emergency Declared by the HHS Secretary](#) and submit it to TemporaryReassignment@hhs.gov.

Once the request to temporarily reassign staff has been approved, state, local, or tribal staff should continue to coordinate with their CDC Grants Management Officer (GMO) and Project Officer (PO) assigned to the grant or cooperative agreements. This will ensure that all parties are clear regarding the potential impact to their program, including the extent and the duration of the planned assignment(s). Other requests for programmatic or financial modification of CDC grants and cooperative agreements will be carried out with full consideration.

The following is an outline of the process from the receipt of a request.

1	ASPR will receive a written request for authorization to temporarily reassign personnel from the state or tribal locality via email (temporaryreassignment@hhs.gov).
2	The Secretary’s Operations Center (SOC,) acting as the ASPR Coordinator, will respond to the state or tribal organization via email to confirm receipt of the request.
3	The SOC will relay the request to the appropriate authorizing HHS OPDIV or STAFFDIV within one business day via email.
4	The HHS OPDIV or STAFFDIV POC will confirm receipt of the request to the ASPR Coordinator.
5	Upon completion of the review, the OPDIV or STAFFDIV will provide the decision to the ASPR Coordinator, who will inform the applicant of the OPDIV/STAFFDIV’s decision within one business day of receipt.

6	The ASPR Coordinator will record decisions to ensure senior Departmental leadership is aware of the use of the authority to support public health emergencies.
7	If the state or tribal locality needs an extension to submit the report, the state or tribal locality must notify the ASPR Coordinator by email.
8	The ASPR Coordinator will alert the HHS OPDIV or STAFFDIV POC of the report extension request within 48 hours by email.

Respectfully,
Terrance W. Perry

Thanks,

Nothing hugely earth-shattering in the message. Basic ATD standard (8 CCR 5199) compliance, including:

- the selection and provision of personal protective equipment (PPE),
 - training of staff on the selected PPE including proper donning and doffing technique, and
 - medical qualification for respirator use and respirator fit testing,
- are all moving forward.

Complicated by a fast-evolving case definition its going to take a bit time, but sooner, rather than later, basic training to all front-line staff who may have initial (incoming) patient contact, not just providers, will be needed on what steps are needed when a suspect patient presents. Contents might include where (which room) etc the patient should be placed, who should be notified, and some general risk communication and hazard mitigation steps (close door to patient room, post sign, etc) specific to each facility will be needed. OSH staff who were in the PPE “train the trainer” session this afternoon indicate that clinic staff present voiced some concern about “not knowing what’s going on”, a common problem when you move further away from the DOC.

Cal/OSHA Issues Guidance on Requirements to Protect Health Care Workers from 2019 Novel Coronavirus

Oakland— Cal/OSHA is issuing guidance on protecting health care workers from exposure to 2019 Novel Coronavirus (2019-nCoV). The [guidance](#) covers the safety requirements when providing care for suspected or confirmed patients of the respiratory disease or when handling pathogens in laboratory settings in California.

“It is vital that employers take the necessary steps to protect workers in health care settings where they may be at risk of exposure to 2019 Novel Coronavirus,” said Cal/OSHA Chief Doug Parker. “Cal/OSHA will provide guidance and resources on how to protect workers from this airborne infectious disease.”

The risk for infection is higher in health care settings such as hospitals and clinical laboratories. The [U.S. Centers for Disease Control and Prevention](#) (CDC) is providing updates and closely monitoring suspected cases of 2019-nCoV infection and transmission.

2019-nCoV is an airborne infectious disease covered by Cal/OSHA’s Aerosol Transmissible Diseases (ATD) standard, which requires employers to protect workers from diseases and pathogens transmitted by aerosols and droplets.

The ATD standard requires employers to have an ATD Exposure Control Plan with procedures to identify 2019-n-CoV cases or suspected cases as soon as possible and protect employees from infection.

The [ATD standard](#) further requires employers to provide training on the:

- Signs and symptoms of 2019-nCoV.
- Modes of transmission of the disease and source control procedures.
- Tasks and activities that may expose the employee to 2019-nCoV.
- Use and limitations of methods to prevent or reduce exposure to the disease including decontamination and disinfection procedures.
- Selection of personal protective equipment, its uses and limitations, and the types, proper use, location, removal, handling, cleaning, decontamination and disposal of protective equipment.
- Proper use of respirators.
- Available vaccines, when they become available.
- Employer's plan if an exposure incident occurs and surge plan, if applicable.

Employers must use feasible engineering and work practice controls to minimize employee exposure to 2019-nCoV. Examples of engineering controls include airborne infection isolation rooms or areas, exhaust ventilation, air filtration and air disinfection. Work practice controls include procedures for safely moving patients through the operation or facility, handwashing, personal protective equipment donning and doffing procedures, the use of anterooms, and cleaning and disinfecting contaminated surfaces, protective equipment, articles and linens.

Visit Cal/OSHA's [webpage](#) for further interim guidance on 2019-nCoV exposure in health care settings. In order to help employers comply with the ATD standard, Cal/OSHA has posted several [publications](#) including [The California Workplace Guide to Aerosol Transmissible Diseases](#) and fillable [ATD model exposure control](#) and [laboratory biosafety plans](#).

Several occupational safety and health standards, including Cal/OSHA's [Bloodborne Pathogens Standard](#) adopted in 1992 and the [ATD Standard](#) adopted in 2009, address worker protections when exposure to infectious diseases including coronavirus may occur in health care settings. The standards apply to hospital workers and emergency medical services, as well as workers in biological laboratories, decontamination workers, public health workers, or public safety employees who may be exposed to infectious disease hazards.

Cal/OSHA reminds all employers and workers that any suspected cases of 2019-nCoV must be promptly reported to the local public health department.

The [California Department of Public Health](#) has updated information on 2019-nCoV and reporting requirements. The Centers for Disease Control and Prevention has also posted specific [information for health care workers](#) and [laboratory settings](#).

The California Division of Occupational Safety and Health, or Cal/OSHA, is the division

within the Department of Industrial Relations (DIR) that helps protect California's workers from health and safety hazards on the job in almost every workplace. [Cal/OSHA's Consultation Services Branch](#) provides free and voluntary assistance to employers to improve their safety and health programs. Employers should call (800) 963-9424 for assistance from Cal/OSHA Consultation Services.

Employees with work-related questions or complaints may contact DIR's Call Center in English or Spanish at 844-LABOR-DIR (844-522-6734).

Cal/OSHA Issues Guidance on Requirements to Protect Health Care Workers from 2019 Novel Coronavirus

Oakland— Cal/OSHA is issuing guidance on protecting health care workers from exposure to 2019 Novel Coronavirus (2019-nCoV). The [guidance](#) covers the safety requirements when providing care for suspected or confirmed patients of the respiratory disease or when handling pathogens in laboratory settings in California.

“It is vital that employers take the necessary steps to protect workers in health care settings where they may be at risk of exposure to 2019 Novel Coronavirus,” said Cal/OSHA Chief Doug Parker. “Cal/OSHA will provide guidance and resources on how to protect workers from this airborne infectious disease.”

The risk for infection is higher in health care settings such as hospitals and clinical laboratories. The [U.S. Centers for Disease Control and Prevention](#) (CDC) is providing updates and closely monitoring suspected cases of 2019-nCoV infection and transmission.

2019-nCoV is an airborne infectious disease covered by Cal/OSHA’s Aerosol Transmissible Diseases (ATD) standard, which requires employers to protect workers from diseases and pathogens transmitted by aerosols and droplets.

The ATD standard requires employers to have an ATD Exposure Control Plan with procedures to identify 2019-n-CoV cases or suspected cases as soon as

possible and protect employees from infection.

The [ATD standard](#) further requires employers to provide training on the:

- Signs and symptoms of 2019-nCoV.
- Modes of transmission of the disease and source control procedures.
- Tasks and activities that may expose the employee to 2019-nCoV.
- Use and limitations of methods to prevent or reduce exposure to the disease including decontamination and disinfection procedures.
- Selection of personal protective equipment, its uses and limitations, and the types, proper use, location, removal, handling, cleaning, decontamination and disposal of protective equipment.
- Proper use of respirators.
- Available vaccines, when they become available.
- Employer's plan if an exposure incident occurs and surge plan, if applicable.

Employers must use feasible engineering and work practice controls to minimize employee exposure to 2019-nCoV. Examples of engineering controls include airborne infection isolation rooms or areas, exhaust ventilation, air filtration and air disinfection. Work practice controls include procedures for safely moving patients through the operation or facility, handwashing, personal protective equipment donning and doffing procedures, the use of anterooms, and cleaning and disinfecting contaminated surfaces, protective equipment, articles and linens.

Visit Cal/OSHA's [webpage](#) for further interim guidance on 2019-nCoV exposure in health care settings. In order to help employers comply with the ATD standard, Cal/OSHA has posted several [publications](#) including [The California Workplace Guide to Aerosol Transmissible Diseases](#) and fillable [ATD model exposure control](#) and [laboratory biosafety plans](#).

Several occupational safety and health standards, including Cal/OSHA's [Bloodborne Pathogens Standard](#) adopted in 1992 and the [ATD Standard](#) adopted in 2009, address worker protections when exposure to infectious diseases including coronavirus may occur in health care settings. The standards apply to hospital workers and emergency medical services, as well as workers in biological laboratories, decontamination workers, public health workers, or public safety employees who may be exposed to infectious disease hazards.

Cal/OSHA reminds all employers and workers that any suspected cases of 2019-nCoV must be promptly reported to the local public health department.

The [California Department of Public Health](#) has updated information on 2019-nCoV and reporting requirements. The Centers for Disease Control and Prevention has also posted specific [information for health care workers](#) and [laboratory settings](#).

The California Division of Occupational Safety and Health, or Cal/OSHA, is the division within the Department of Industrial Relations (DIR) that helps protect California's workers from health and safety hazards on the job in almost every workplace. NEWS RELEASE

Release Number: 2020-08

February 3, 2020

Cal/OSHA Issues Guidance on Requirements to Protect Health Care Workers from 2019 Novel Coronavirus

Oakland— Cal/OSHA is issuing guidance on protecting health care workers from exposure to 2019 Novel Coronavirus (2019-nCoV). The [guidance](#) covers the safety requirements when providing care for suspected or confirmed patients of the respiratory disease or when handling pathogens in laboratory settings in California.

“It is vital that employers take the necessary steps to protect workers in health care settings where they may be at risk of exposure to 2019 Novel Coronavirus,” said Cal/OSHA Chief Doug Parker. “Cal/OSHA will provide guidance and resources on how to protect workers from this airborne infectious disease.”

The risk for infection is higher in health care settings such as hospitals and clinical laboratories. The [U.S. Centers for Disease Control and Prevention](#) (CDC) is providing updates and closely monitoring suspected cases of 2019-nCoV infection and transmission.

2019-nCoV is an airborne infectious disease covered by Cal/OSHA’s Aerosol Transmissible Diseases (ATD) standard, which requires employers to protect workers from diseases and pathogens transmitted by aerosols and droplets.

The ATD standard requires employers to have an ATD Exposure Control Plan with procedures to identify 2019-n-CoV cases or suspected cases as soon as possible and protect employees from infection.

The [ATD standard](#) further requires employers to provide training on the:

- Signs and symptoms of 2019-nCoV.
- Modes of transmission of the disease and source control procedures.
- Tasks and activities that may expose the employee to 2019-nCoV.
- Use and limitations of methods to prevent or reduce exposure to the disease including decontamination and disinfection procedures.
- Selection of personal protective equipment, its uses and limitations, and the types, proper use, location, removal, handling, cleaning, decontamination and disposal of protective equipment.
- Proper use of respirators.
- Available vaccines, when they become available.

- Employer's plan if an exposure incident occurs and surge plan, if applicable.

Employers must use feasible engineering and work practice controls to minimize employee exposure to 2019-nCoV. Examples of engineering controls include airborne infection isolation rooms or areas, exhaust ventilation, air filtration and air disinfection. Work practice controls include procedures for safely moving patients through the operation or facility, handwashing, personal protective equipment donning and doffing procedures, the use of anterooms, and cleaning and disinfecting contaminated surfaces, protective equipment, articles and linens.

Visit Cal/OSHA's [webpage](#) for further interim guidance on 2019-nCoV exposure in health care settings. In order to help employers comply with the ATD standard, Cal/OSHA has posted several [publications](#) including [The California Workplace Guide to Aerosol Transmissible Diseases](#) and fillable [ATD model exposure control](#) and [laboratory biosafety plans](#).

Several occupational safety and health standards, including Cal/OSHA's [Bloodborne Pathogens Standard](#) adopted in 1992 and the [ATD Standard](#) adopted in 2009, address worker protections when exposure to infectious diseases including coronavirus may occur in health care settings. The standards apply to hospital workers and emergency medical services, as well as workers in biological laboratories, decontamination workers, public health workers, or public safety employees who may be exposed to infectious disease hazards.

Cal/OSHA reminds all employers and workers that any suspected cases of 2019-nCoV must be promptly reported to the local public health department.

The [California Department of Public Health](#) has updated information on 2019-nCoV and reporting requirements. The Centers for Disease Control and Prevention has also posted specific [information for health care workers](#) and [laboratory settings](#).

The California Division of Occupational Safety and Health, or Cal/OSHA, is the division within the Department of Industrial Relations (DIR) that helps protect California's workers from health and safety hazards on the job in almost every workplace. [Cal/OSHA's Consultation Services Branch](#) provides free and voluntary assistance to employers to improve their safety and health programs. Employers should call (800) 963-9424 for assistance from Cal/OSHA Consultation Services.

Employees with work-related questions or complaints may contact DIR's Call Center in English or Spanish at 844-LABOR-DIR (844-522-6734).

Attachments: [SF Hazard Risk Assessment 4.25.13.pdf](#)

Thank Wayne! I'm attaching the HVA from 2013. There were a few dimensions used to rank hazards, one of the dimensions was severity of consequences which used 4 categories with 38 measures:

- human impact (12 measures)
- interruption of healthcare services (14 measures)
- impact on the public health agency infrastructure (6 measures)
- impact on the community (6 measures)

Pandemic influenza was used for a naturally occurring outbreak. Will ask Gabby for the update.

I also saw that there is a pandemic flu planning tool from CDC (not sure how helpful it is):
<https://www.cdc.gov/flu/pandemic-resources/pandemic-resources.html>

Subject: example

Naveena,

This is an example of an analysis of the WHO confirmed cases reported in China to estimate the basic reproduction number of the epidemic.

My estimate of the reproduction number based on an exponential growth model (4.8 range [4.7, 5.0]) using data from Jan 21 through Feb 3 is a lot higher than the estimate reported by Imperial College 2.6 based on data through Jan 18 (the initial phases of the outbreak, before the data I am using). See Report #3 at <https://www.imperial.ac.uk/mrc-global-infectious-disease-analysis/news--wuhan-coronavirus/>

I still need to review the models and methods carefully for the details so all of this is preliminary and DRAFT. I only wrote the code this morning (between meetings).

Wayne

Update Situation Report - 2019-nCoV (#2)

Department of Emergency Management
Division of Emergency Services

02-03-2020 - 17:31:34

Change Since Last Situation Report:

Situation Update:

- 17,493 cases globally
- In China: 17,308 cases
- 362 deaths: 1 in Philippines (first death outside of China).
- 183 cases confirmed outside of China in 26 countries.
- 11 cases in the U.S. including 6 cases in California.
- 2.1% of confirmed cases (globally) have tested positive for nCoV-2019.

- There are no confirmed cases in San Francisco.
- The risk of novel coronavirus in California remains low.
- There are no recommendations to cancel events.

<https://gisanddata.maps.arcgis.com/apps/opsdashboard/index.html#/bda7594740fd40299423467b48e9ecf6>

NOTE: Information may vary as events and reporting are rapidly evolving.

• Beginning today, February 3, 2020, the U.S. will implement a phased roll-out of the following temporary measures:

1. Any U.S. citizen returning to the U.S., who has traveled in Hubei province in the past 14 days, will be subject to 14 days of mandatory quarantine to ensure they receive proper health screening and medical care.
2. Any U.S. citizen returning to the U.S., who has traveled in China within the previous 14 days, will undergo proactive entry health screening at a select number of ports of entry and will undergo 14 days of monitored self-quarantine to ensure they have not contracted the virus and do not pose a public health risk.
3. President Trump has signed a Presidential Proclamation, temporarily suspending foreign nationals, who pose a risk of transmitting the virus from entering the U.S.. Foreign nationals, other than immediate family of U.S. citizens and permanent residents, who have traveled in China within the last 14 days, will be denied entry into the U.S. at this time.

- We are in flu season. SFDPH recommends that persons with symptoms stay home from work, school, and social gatherings, as well as practice hand-washing precautions.

SFDPH Activities:

- SFDPH outreach to the Chinese community remains a top priority. Focus on how the community can prevent and care for flu infections and promoting hand washing as the best way to avoid infection.
- Collaboration at the regional level to coordinate guidance to pre-hospital providers (aligning with Health Officers' strategies), as well as 911 dispatch screening parameters and standards.
- DPH is engaging hospital partners to develop standard protocols for transport, relocation, and placement of PUI cases and confirmed cases, across the region and the State.
- A field team assembled to conduct testing in the community (PUI homes). They are trained in wear and use of PPE and prepared to answer nCoV-2019 inquiries.
- San Francisco received 2 San Benito confirmed cases into a county located hospital overnight 02/02/20. The SF community is not at risk as proper transport and isolation techniques were followed.

Public Information:

- Equity talking points are being developed to counter emerging Xenophobia.
- DEM and the Mayor's Office are hosting a Chinese community stakeholder meeting tomorrow from 1:30pm-4:00 pm 02/04/20.
- 911 Dispatchers and 311 Call Takers have been provided with updated FAQs.
- Homelessness and Supportive Housing (HSH) provided fact sheet information to their service provided and their Homeless Outreach Teams (HOT)
- SFDPH continues to update fact sheets in English, Chinese, Filipino, and Spanish, which may be distributed to both employees and community members. Updated fact sheets are available on www.sfdph.org, www.sf72.org, and www.sf.gov.
- SFDPH and DEM are developing messaging in anticipation of the Lunar New Year events. Currently there is no recommendation to cancel these events.
- DEM is coordinating a Chinese Lunar New Year Public Safety press conference this Thursday, Feb. 6th at 2pm for public safety officials to promote safety messaging and LunarSF AlertSF shortcode.

Resources:

- Department of Public Health (SFDPH): <https://www.sfdcp.org/infectious-diseases-a-to-z/coronavirus-2019-novel-coronavirus/>
- Department of Emergency Management (DEM): <https://SF72.org>
- Centers for Disease Control and Prevention (CDC): <https://www.cdc.gov/coronavirus/2019-ncov/index.html>
- For operational coordination and information sharing, visit WebEOC (<https://sfvem.org>) under Incident Name: 2020-01-21 2019 nCoV. Note - WebEOC is password protected.

Situation Summary:

CDC is closely monitoring an outbreak of respiratory illness caused by a novel (new) coronavirus (named "2019-nCoV") that was first detected in Wuhan City, Hubei Province, China and which continues to expand. Chinese health officials have reported thousands of infections with 2019-nCoV in China, with the virus reportedly spreading from person-to-person in many parts of that country. Infections with 2019-nCoV, most of them associated with travel from Wuhan, also are being reported in a growing number of international locations, including the United States.

Good afternoon,

For tonight's call I am providing a link to the recently released CDC Movement and Monitoring guidance. I am also attaching a draft guidance related to schools as we would like to get your input on this draft.

Link to CDC Monitoring and Movement guidance is below

<https://www.cdc.gov/coronavirus/2019-ncov/php/risk-assessment.html>

Thank you.

Susan

Subject: Novel Coronavirus - Local Jurisdiction Call - CCLHO and CHEAC

Good afternoon,

CDPH is hearing from many of you that it would be helpful to have a local call to update you on novel coronavirus response activities, particularly expectations around monitoring travelers returning from

China. On a noon call, CDC indicated that their monitoring guidance would be available in two hours and we will send this to all of you when we receive it. To make a call most productive, we will schedule our state and local call at 6 pm tonight.

Don't hesitate to reach out to us if you have a specific question before then.

Thanks.

Susan

Dear Partners,

Today, the Centers for Disease Control and Prevention (CDC) released new movement and monitoring guidelines, “**Interim US Guidance for Risk Assessment and Public Health Management of Persons with Potential 2019 Novel Coronavirus (2019-nCoV) Exposure in Travel-associated or Community Settings**”. For your convenience, you can find it [here](#).

In addition, please see the following attachments:

- Updated Travel Cards
- CDC Update for F11 Operations
- Today’s edition of Summary Key Points

Feel free to send any questions to preparedness@cdc.gov. For the latest information on the 2019 Novel Coronavirus (2019-nCoV), please visit the response [webpage](#).

Actually, Rita and I are chatting and we just found the new guidance for risk assessment and public health management online, available here (<https://www.cdc.gov/coronavirus/2019-ncov/php/risk-assessment.html>) so we can link to it as well.

Thanks!
Julie

Hi all,
I'm providing you with the dissem doc, coversheet, and CDC HAN in case you need access to this while I'm in meetings for next 3 hours. I think you all wanted to await further guidelines from CDC re: returning traveler restrictions and guidelines which will come out in next 2 hours per the CDC returning traveler call I was just on. I can be pulled out if needed.
Thanks,
Rita

Hi Tomas, Susan, and Janice,
Please find attached the documents for disseminating the latest CDC HAN that came out this AM. Julie and I spoke briefly and she asked that I send it to you for approval to be disseminated. I will work with Erin to figure out how to disseminate over the weekend.
Thanks,
Rita
