

B28 opts to haze bear south into bumpy meadows and away from the road. Bear moves approximately 5m with initial "hey bear" but returns roadside almost immediately. B28 hazes a second time using "hey bear" and five rounds from the chalk gun shot in the general vicinity of the bear. Bear moves at a run into bumpy meadows and well away from the road.

B28 monitors GB #148 while she forages in the east end of bumpy meadows for approx. 15-20min. Bear eventually returns to roadside and B28 hazes a third time using "hey bear" only. Bear moves at a run back into bumpy meadows and away from road. B28 monitors bear foraging in east end of bumpy meadows until bear moves into cover and is lost from sight.

Telemetry indicates bear is still in close proximity to bumpy meadows and Minnewanka road but is currently out of sight.

**July 19 – 16:30 OR1346**

Guardian 2 reported large bear jam at the beginning of the Minnewanka road and requested assistance.

B33 responds. GB F148 is grazing roadside, Cascade fall side of Minnewanka Rd when B33 arrives. Wildlife Guardians and B33 encourage traffic to keep moving and request that people remain in their vehicles. GB F148 crosses the road toward cascade Ponds. B Hazes the bear with her voice, eastward, away from the road, but GBF148 returns to the roadside and crosses again 5 minutes later. B33 and Guardians continue with traffic control and GBF148 soon moves into cover and heads west into the air strip. Traffic disperses.

**July 20 – 05:43 OR1358**

Small light colour griz grazing at above location- The bear has a collar- RP could not see any ear tag- no traffic jam at the time of call

White- EBMF

06:20 B33 on location. No bear observed, but telemetry signal heard. Signal coming from above Banff Ave.

06:40 Report of black bear in tunnel Mtn village 2 near Hidden Ridge bus stop.
