Hello again,

Attached to this update are two documents: the pre-read for this Direct Air Capture Workstream and the meeting agenda.

Our agenda for this first session will focus on the current and emerging approaches for CDR through DAC and the advantages and disadvantages of those approaches. We ask that you please review the pre-read as we are looking for input throughout this meeting to inform and shape this document so its material can be included in the congressional report. We will also spend time during this meeting discussing the measurement of CO2 reductions.

Look forward to speaking with you all tomorrow.

Show Time As Busy

Suggested Agenda:

- * Welcome, Lisa Jacobson, President BCSE
- * Opening Comments from Tomás Carbonell on general timeline and priorities for Office of Air and Radiation, with focus on stationary source regulations for climate and air quality improvements
- * Q&A
- * Wrap up and action items

Background for Discussion:

- * Since the D.C. Circuit vacated the Affordable Clean Energy (ACE) rule and remanded to EPA for further proceedings consistent with its opinion, which suggests that the agency has the authority to go outside the fence line, we want to discuss the importance of EPA sending a signal that it will regulate carbon emissions, especially if Congress fails to do so.
 - o The Biden Administration has not yet proposed a carbon policy, but has an objective to achieve a 100% clean energy economy and net-zero emissions by 2050.
- * So far, there has not been a underpinning policy to drive that transformation; time is of essence if we wish to achieve these targets.
- * Clean Air Act authority is a major tool the Administration has to utilize.
 - o Although a Clean Energy Standard is under consideration, it is unclear if it can pass Congress through regular order or through reconciliation.
- * EPA action might create more urgency for Congress to act on carbon policy.
 - o Under either scenario, EPA action on carbon could help create a market signal for clean energy—just as the Clean Power Plan did.
 - o While we defer to EPA on what form the policy should take to survive judicial scrutiny (generation shifting, reduced utilization, etc.), we would encourage EPA to the fullest extent practicable to try in factor in clean energy in setting the BSER and as a compliance option.

Preliminary Attendees:

Elizabeth Whitney, representing Sacramento Municipal Utility District
Carlos Garcia, Bloom Energy

Kyle Davis, Enel North America
Gene Grace, American Clean Power Plan
Leslie Garland, National Propane Gas Association

Hi Melanne,

Joe shared your note offering to pull together a briefing on the IACHR petition related to Denka. Thank you for suggesting this – I would certainly appreciate an update and I'm sure there would be broader interest within OAR. Adding Thierry and a few colleagues from the IO to help with scheduling. Best,

Joseph,

Thank you very much for including OGC/IELPG (CC'ing here Tom Marshall, Assistant GC for Communities and Ecosystems Practice, OGC/CCILO, with the lead for OGC on Environmental Justice).

At your convenience, I'm happy to brief you / your staff on the status of the Organization of American States, Inter-American Commission on Human Rights (OAS IACHR) case, in which a Concerns Citizens group (in parallel to the EarthJustice actions) requests the Inter-American Commission on Human Rights to take a decision on precautionary measures in relation to the Denka facility. The Department of State is the lead on the USG response to the IACHR Request for Information, and I've been coordinating across EPA attorneys (OGC and R6) and with DOJ to provide expert input.

Best,

Melanne

Hello again,

Looking forward to discussing existing policies and brainstorming some expanded and new policy ideas at this meeting. Attached to this e-mail are two documents: the meeting agenda and a starter for the policy discussion. That starter document contains some of the ideas brought to our attention through this process so far.

One other note for this meeting: we will be asking for agencies that wish to shortly discuss their existing programs to do so toward the beginning of the meeting. As we mentioned at the end of the last session, you are welcome to present a slide if you have one prepared. We do ask that each agency stick to one representative.

Zoom Information:

Energetics is inviting you to a scheduled Zoom meeting.

Hello again,

Attached to this update are two documents: the pre-read for this Bioenergy with Carbon Capture and Sequestration (BECCS) Workstream and the meeting agenda.

Our agenda for this first session will focus on the current and emerging approaches for CDR through BECCS and the advantages and disadvantages of those approaches. We ask that you please review the pre-read as we are looking for input throughout this meeting to inform and shape this document so its material can be included in the congressional report. We will also spend time during this meeting discussing the measurement of CO2 reductions.

Look forward to speaking with you all tomorrow.

Subject CAAAC Meeting: EPA Presenters Day 1 - final schedule w/ links and slight timing adjustments for a break

Location Teams link in email

Show Time As Tentative

This scheduler is for EPA CAAAC meeting presenters on Day 1. The actual schedule of presentations is below. You do not need to be on for the whole session, but please do sign on at least 10 minutes ahead of your scheduled time if possible. This will a) allow us to move faster if we can, and b) keep me from panicking and digitally stalking you.

If we finish a session early and the next presenter is online, we will move into the next presentation. If you are not online, we will take a break and reconvene at the scheduled time.

Feel free to forward this invite to colleagues who will be helping w/ Q and A or your presentation.

Show Time As Tentative

This scheduler is for EPA CAAAC meeting presenters on Day 2. The actual schedule of presentations is below. You do not need to be on for the whole session, but please do sign on at least 10 minutes ahead of your scheduled time if possible. This will a) allow us to move faster if we can, and b) keep me from panicking and digitally stalking you.

If we finish a session early and the next presenter is online, we will move into the next presentation. If you are not online, we will take a break and reconvene at the scheduled time.

Feel free to forward this invite to colleagues who will be helping w/ Q and A or your presentation.

Breakout Option #1: ECOS Oil & Gas Caucus (O&GC) on Methane Moves (open to all)

As U.S. EPA takes first steps toward developing a rule to reduce methane from new and existing sources in the oil and natural gas industry, many states are already implementing their own regulatory and innovative approaches. Industry players are taking voluntary actions, and one NGO has launched work on an ambitious public satellite tool to locate and measure sources of methane pollution. This session will address the state of play and flexibilities needed to create a clearer regulatory landscape.

ECOS O&GC Co-Chair Jim Kenney, Cabinet Secretary, New Mexico Environment Department (co-moderator)

ECOS O&GC Co-Chair Dave Glatt, Director, North Dakota Department of Environmental Quality (co-moderator)

Tomás Carbonell, Deputy Assistant Administrator for Stationary Sources, U.S. EPA Office of Air & Radiation

Subject USG Interagency Mtg on US-Canada Climate Dialogue Phase 2
Attachments US Canada Phase Two Work Plan (DRAFT July 2 2021) ECCC comments 2021-07-26 11h00.docx
Show Time As Busy
Attaching Phase 2 scoping document with Canadian track changes.

USG Interagency Colleagues,

This is an invitation to a meeting of the USG Interagency with SPEC and State (WHA) at 10:00 am on Tuesday, July 27 to provide an update on Phase 2 of the U.S.-Canada High-Level Ministerial Dialogue on Climate Ambition.

On July 2, SPEC share the USG Work Plan proposal with Canada, and Canadian counterparts are reviewing. Related, Canadian counterparts asked SPEC to consider if it would be possible to convene the Second U.S.-Canada High-Level Ministerial Dialogue on Climate Ambition in early August (possibly August 4 or 5). The Canadian request for an “early” meeting in August relates to their desire to avoid any possible disruption should the Trudeau government call an election in the fall, which could result in a 30-40 day suspension of official high-level policy engagements. (Note, a Canadian federal election is NOT yet confirmed.)

The Canadian request poses many questions about how to implement a Climate Dialogue with Canada much earlier than we expected. On Tuesday, SPEC will do its best to answer those questions.

My apologies for this change to our plans. Given that November’s COP 26 dates will NOT be changing, we will be seeking to prioritize our diplomatic engagement with Canada and avoid any disruptions that a Canadian election might pose.

I appreciate your understanding. MSTEams invite will follow.

Dan Kachur

Hello again,

Looking forward to discussing existing policies and brainstorming some expanded and new policy ideas at this meeting. Attached to this e-mail are two documents: the meeting agenda and a starter for the policy discussion. That starter document contains some of the ideas brought to our attention through this process so far.

One other note for this meeting: we will be asking for agencies that wish to shortly discuss their existing programs to do so toward the beginning of the meeting. As we mentioned at the end of the last session, you are welcome to present a slide if you have one prepared. We do ask that each agency stick to one representative.

Look forward to the discussion tomorrow!

Thanks, Tomás. We are targeting either June 2 or 3 for this webinar,
timing flexible but we would love between 11a and 3p eastern if at all
possible. I would love to get a time that works for you all nailed down
ASAP if possible so we can start getting the word out. That doable?
Thank you!

A brief description is as follows:

Delivering environmental justice (EJ) is one of the priorities for the Biden Administration and will be a key consideration for EPA and other federal agencies as they craft policies to address climate change and other critical environmental issues. The Edison Electric Institute (EEI) and its member companies have expressed the desire to learn more about EJ and, critically, how the industry can better engage with disadvantaged communities to ensure environmental justice and equity.

To that end, EEI is holding a series of webinars to help educate members on EJ and to promote best practices for engagement with disadvantaged communities. EEI is planning a set of four webinars, with the first webinar in early June focusing on policy considerations. EEI would like to have a speaker from the Administration lead this webinar by articulating the Administration's approach to EJ and the role for the power sector going forward. EEI plans to engage with former Attorney General Eric Holder in mid-June year to expand the industry's awareness and understanding of justice and equity issues.

Hi, glad to be connected! Next Friday (5/7) would be best to meet and talk through this on our end – are you available some time between noon and 2:30pm ET that day? If not, happy to look at times for the following week, too.

Thanks,
Max

Venu,

Thanks, again, for reaching out. We appreciate the opportunity to highlight the importance of environmental justice and avenues we can partner on. I've copied my colleague, Rosemary Enobakhare, who leads our Office of Public Engagement and Environmental Education and would be an excellent addition for this discussion.

Noting the flexibility you mentioned, would it be possible for us to start looking at dates beginning in mid-May through the end of next month? I've also copied Rosemary's Special Assistant, Max Levy, to further help with coordination.

Please don't hesitate to let me know if there are any further questions or concerns I can assist with.

Best,

John

Subject: per our discussion

Hope you are doing well!

Delivering environmental justice (EJ) is one of the priorities for the Biden Administration and will be a key consideration for EPA and other federal agencies as they craft policies to address climate change and other critical environmental issues. The Edison Electric Institute (EEI) and its member companies have expressed the desire to learn more about EJ and, critically, how the industry can better engage with disadvantaged communities to ensure environmental justice and equity.

To that end, EEI is holding a series of webinars to help educate members on EJ and to promote best practices for engagement with disadvantaged communities. EEI is planning a set of four webinars, with the first webinar in May (timing flexible) focusing on policy considerations. EEI would like to have a speaker from the Administration lead this webinar by articulating the Administration's approach to EJ and the role for the power sector going forward. EEI plans to engage with former Attorney

General Eric Holder later this year to expand the industry's awareness and understanding of justice and equity issues.

Subject AAPI Heritage Night with Bina Venkataraman and the Climate Cluster
Location <https://science-doe.zoomgov.com/> (b) (6)
Show Time As Tentative
Hey Folks!

Wanted to bump this event tonight. Thanks!

Dear Appointees,

We're excited to announce an AAPI-Affinity event with the of the Climate Cluster. We'll be joined by Bina Venkataraman, who is currently an editor at the Boston Globe and served in the Obama Administration, for a fireside chat with AAPI Appointees. She'll share some of her experience working in science and government as an AAPI woman, and give appointees the opportunity to ask questions and bond across the cluster. The event details are below. You can also check out Bina's TED talk <https://gcc02.safelinks.protection.outlook.com/?url=https%3A%2F%2Fwww.ted.com%2Ftalks%2Fbina_venkataraman_the_power_to_think_ahead_in_a_reckless_age%3Flanguage%3Den%23t-65156&data=04%7C01%7CCarbonell.Tomas%40epa.gov%7C90a4cb31133f4266032708d925d9904d%7C88b378b367484867acf976aacbeca6a7%7C0%7C0%7C637582438618397613%7CUnknown%7CTWFpbGZsb3d8eyJWlloiMC4wLjAwMDAiLCJQIjoiV2luMzliLCJBTiI6IjEhaWwiLCJXVCi6Mn0%3D%7C1000&sdata=Tgc5M2oBgq5qUrN6zyL8UdBefFhWH8pUrg3w9r26h9c%3D&reserved=0> on thinking ahead—something central to our work in the Climate Cluster!

The Office of International Monetary Policy, US Treasury, is inviting you to a scheduled ZoomGov Meeting with the IMF mission team as part of the inter-agency consultations for the IMF's annual surveillance assessment of the U.S. economy (the Article IV). The IMF conducts and annually publishes economic surveillance assessments of all its members – including the United States. This process typically involves meeting with various stakeholders, particularly government agencies that lead on issues with direct and indirect macroeconomic impact. The IMF has requested to meet with EPA. Treasury will follow up as we receive more information from the IMF.

In advance of Special Presidential Envoy for Climate (SPEC) John Kerry's travel to Mexico (late June) we wanted to get our USG Mexico Climate and Energy small group together for a brief discussion on the current state of play and next steps. The SPEC team will read-out the latest on their upcoming visit. This meeting will be hosted at the UNCLASS level, and we can convene again via SVTC if required at another date. Please feel free to forward to anyone I may have missed.

Best,

Helaina
