FINAL AUTOPSY REPORT

Name: Al-Jamadi, Manadel	Autopsy No.: ME 03-504
SSAN: N/A	AFIP No.: 2903283
Date of Birth: Unk	Rank: CIV, Iraqi National
Date Found: 04 NOV 2003	Place of Death: near Baghdad, Iraq
Date of Autopsy: 09 NOV 2003	Place of Autopsy: Mortuary
Date of Report: 09 JAN 2004	Affairs, Camp Sayther, Baghdad
	International Airport

Circumstances of Death: This Iraqi National male was captured by Navy Seal Team #7 and died while detained at Abu Ghraib Prison in Iraq.

Authorization for Autopsy: Office of the Armed Forces Medical Examiner, IAW 10 USC 1471

Identification: Visual Identification as per Investigating Agency

CAUSE OF DEATH: Blunt Force Injuries Complicated by Compromised Respiration

MANNER OF DEATH: Homicide

K9-1

APPROVED FOR RELEASE DATE: 06-Sep-2013

Al-Jamadi, Manadel

FINAL AUTOPSY DIAGNOSES:

I. Blunt Forces Injuries:

A. Head:

- i. Right periorbital contusion and subconjunctival hemorrhage
- ii. Contusions of the right side of the face and nose
- iii. Parietal subgaleal and temporalis muscle contusions
- iv. Lower lip and buccal mucosa contusions

B. Torso:

- i. Multiple cutaneous contusions and abrasions
- ii. Anterior and posterior chest wall contusions
- iii. Sternal contusion
- iv. Fractures of right anterior ribs 5&6 and left anterior ribs 3-6
- v. Left lung contusion

C. Extremities:

- i. Multiple cutaneous abrasions and contusions

II. Ligature marks of the wrists and ankles

III. Remote Gunshot Wound of Torso (projectile removed from spleen)

IV. No significant natural diseases identified, within limitations of examination

V. Toxicology: negative

K9-2

Al-Jamadi, Manadel

EXTERNAL EXAMINATION

The body is that of a well-developed, well-nourished 5ft 10-inch tall, 165-pound (estimated) Caucasian male. Lividity is fixed on the posterior aspect of the body. Rigor is present and symmetric on all extremities. The temperature is cold, that of the refrigeration unit.

The scalp is covered with brown hair with temporal graying and frontal balding. Facial hair consists of a close trimmed brown and grey beard and mustache. The irides are brown and the pupils are round and equal in diameter. Petechial hemorrhages of the sclera are not present. The external auditory canals are free of secretions and blood. The ears are unremarkable. The nares are patent. Injuries to the face will be described below in the "evidence of injury section". The nose and maxillae are palpably stable. The teeth are natural. Petechiae of the buccal mucosa are not present.

The neck is straight, and the trachea is midline and mobile. The chest is symmetric. The abdomen is flat. There is a well-healed 2 x ¼-inch oblique scar on the left lower quadrant of the abdomen. There is a jagged irregular well-healed 6 x 2-inch horizontal scar extending from the lower left quadrant of the abdomen across the anterior lateral aspect of the left thigh. The genitalia are those of a normal adult male. The testes are descended and free of masses. Pubic hair is present in a normal distribution. Ano-genital trauma is not present and the buttocks and anus are otherwise unremarkable

On the posterior torso there is a well-healed vertical 3 x ¼-inch scar in the midline over the thoracic spine. There is a 3 x 2-inch vertical scar in the midline of the lumbar spine. A well-healed 3-x ¼-inch irregularly shaped scar is on the left lower back. A vertical ¾ x ¼-inch scar is on the upper aspect of the right buttock. A 1 x ¼-inch vertical scar is present on the left buttock. There is an oblique 3 x ¼-inch scar on the lower aspect of the left buttock. Injuries to the torso will be described below in the "evidence of injuries" section.

The upper and lower extremities are symmetric without clubbing or edema. Injuries to the palms of the hands and soles of the feet are not noted. There is a vertical 6 x ¼-inch scar on the medial aspect of the distal left thigh, which extends to the upper left leg. On the dorsum of the right foot is a 1x ½-inch scar. On the dorsal aspect of the left foot is a 1x ½-inch scar. Injuries to the extremities will be described below in the "evidence of injury section".

CLOTHING AND PERSONAL EFFECTS

The deceased in unclad and personal effects are not present with body at the time of autopsy.

K9-3

MEDICAL INTERVENTION

None.

RADIOGRAPHS

Postmortem radiographs are obtained and support the clinical diagnoses.

EVIDENCE OF INJURY

I. BLUNT FORCE INJURIES:

A. Head and Neck:

Externally, a circumferential periorbital contusion surrounds the right eye with associated subconjunctival hemorrhage of the eyeball. A 1 ¼ x ¾-inch contusion is on the right side of the face, lateral to right eye. There is a ¾ x ¼-inch contusion on the left side of the nose, immediately adjacent to the left medial canthus. A ¼ x ¼-inch round contusion is on the right lower lip. There is a 1 x ½-inch contusion on the buccal mucosa of the lower lip. Reflection of the scalp reveals bilateral subgaleal hemorrhages of the parietal scalp with contusions of the right and left temporalis muscles. Injury to the skull is not identified. The brain and spinal cord are without injury. Incision and layerwise dissection of the anterior and posterior neck demonstrates no injury of the anterior neck and deep paracervical muscular tissues and no cervical spine fractures.

B. Torso:

On the upper lateral aspect of the left side of the chest is a 5 x 2-inch contusion. On the upper quadrant of the left side of the abdomen is an oblique 5 x 1-inch contusion. Just inferior to this contusion is an oval 3 x 2-inch contusion. On the posterior lateral aspect of the left buttock is a 3 x 1-inch linear contusion. On the mid aspect of the left buttock is an oval 3 x 2-inch contusion.

Internally, there are contusions of the muscles of the upper right and left chest walls. Posteriorly, there are muscle contusions of the right upper back. There are fractures of left anterior ribs three through six and right anterior ribs five and six. There are contusions over the mid aspect of the sternum. The left lung is involved by a 5 x 3-cm contusion of the anterior aspect of the upper lobe of the left lung.

C. Extremities:

On the posterior aspect of the right forearm is a linear 6 x 2-inch contusion with a 3 x ¼-inch abrasion in its center. On the dorsum of the right hand is a 3 x 2-inch contusion and smaller contusions overlay the dorsal aspect of the second and third right digits. On the anterior aspect of the left upper arm is a ¾ x ¾-inch contusion. This contusion is continuous with the previously described injury on the lateral aspect of the upper left chest. There is a 2 x 1-inch contusion on the medial aspect of the left elbow. On the posterior aspect of the left elbow is a 2 x 2-inch contusion. There are contusions

K9-4

Al-Jamadi, Manadel

overlying the dorsum of the left hand centered over the fourth and fifth metacarpal joints. On the anterior aspect of the right thigh are three linear horizontal contusions. The most proximal contusion measures 3 x ½-inches. Immediately inferior to this is a 2 ½ x ½-inch contusion and the most inferior contusion, located at the mid anterior thigh, measures 4 x ½-inches. A vertical 6 x 3-inch contusion is located on the anterior-lateral aspect of the mid right thigh. A 4 x 3-inch contused-abrasion overlies the anterior aspect of the right knee. On the anterior mid left thigh is a 1 ½ x 1-inch contusion. The left knee is covered by a 3 x 1-inch vertical contused-abrasion. On the anterior aspect of the left leg is a 7 x 2 ½-inch irregularly shaped contusion. On the posterior aspect of the distal left thigh, in the midline, is a 2 x 2-inch oval contusion. On the dorsal aspect of the left foot are ½-inch oval contusions overlying the second, third, fourth, and fifth metacarpophalangeal joints.

II. LIGATURE INJURIES:

The wrists and ankles show evidence of binding ligature injuries. On the anterior aspect of the right wrist is a 2 x ¼-inch linear horizontal contusion and on the back of the right wrist is 2 x ¼-inch linear horizontal contusion. Cut sections into these wounds show hemorrhage into the superficial subcutaneous tissue. On the front of the left wrist on the lateral aspect is a 1 x ¾-inch contusion, extending to the left thumb. On the back of the left wrist is a 2 ¼ x ½-inch contusion, which extends across the diameter of the wrist. Cut sections into these wrist wounds show hemorrhage into the superficial aspects of the subcutaneous tissue. On the lateral aspect of the anterior right ankle is a 3 x 3-inch contused-abrasion and on the posterior-lateral aspect of the right ankle is a 2 x 1-inch contused-abrasion. On the anterior aspect of the left ankle is 3 ½ x 1-inch linear contusion extending from the lateral to mid aspect of the left ankle. Incision into these ankle wounds show hemorrhage into the superficial subcutaneous tissue.

III. REMOTE GUNSHOT WOUND OF THE TORSO:

Dissection of the spleen reveals a minimally deformed medium caliber jacketed projectile within the splenic parenchyma. The projectile is surrounded by dense fibrous tissue.

INTERNAL EXAMINATION

HEAD:

Injuries to the subgaleal soft tissues of the scalp have been described. The remainder of the galeal and subgaleal soft tissues are free of injury. The calvarium is intact, as is the dura mater beneath it. Clear cerebrospinal fluid surrounds the 1400 gm brain, which has unremarkable gyri and sulci. Coronal sections demonstrate sharp demarcation between white and grey matter, without hemorrhage or contusive injury. The ventricles are of normal size. The basal ganglia, brainstem, cerebellum, and arterial systems are free of

K9-5

Al-Jamadi, Manadel

injury or other abnormalities. There are no skull fractures. The atlanto-occipital joint is stable.

NECK:

The anterior strap muscles of the neck are homogenous and red-brown, without hemorrhage. The thyroid cartilage and hyoid are intact. The larynx is lined by intact white mucosa. The thyroid is symmetric and red-brown, without cystic or nodular change. The tongue is free of bite marks, hemorrhage, or other injuries.

BODY CAVITIES:

Injuries to the chest have been described. The vertebral bodies are visibly and palpably intact. No excess fluid is in the pleural, pericardial, or peritoneal cavities. The organs occupy their usual anatomic positions.

RESPIRATORY SYSTEM:

Injury to the left lung has been described. The right and left lungs weigh 650 and 485 gms, respectively. The uninjured external surfaces are smooth and deep red-purple. The pulmonary parenchyma is diffusely congested and edematous. No mass lesions or areas of consolidation are present.

CARDIOVASCULAR SYSTEM:

The 425 gm heart is contained in an intact pericardial sac. The epicardial surface is smooth, with minimal fat investment. The coronary arteries are present in a normal distribution, with a right-dominant pattern. Cross sections of the vessels show no significant atherosclerosis. There is 30% stenosis of the proximal left anterior descending coronary artery. Otherwise, the remaining coronary arteries are widely patent. The myocardium is homogenous, red-brown, and firm. The valve leaflets are thin and mobile. The walls of the left and right ventricles are 1.4 and 0.4-cm thick, respectively. The endocardium is smooth and glistening. The aorta gives rise to three intact and patent arch vessels. The renal and mesenteric vessels are unremarkable.

LIVER & BILIARY SYSTEM:

The 1500 gm liver has an intact, smooth capsule and a sharp anterior border. The parenchyma is tan-brown and congested, with the usual lobular architecture. No mass lesions or other abnormalities are seen. The gallbladder contains 10 cc of green-black bile and no stones. The mucosal surface is green and velvety. The extrahepatic biliary tree is patent.

SPLEEN:

Recovery of a remote projectile has been discussed. The 130 gm spleen has a smooth, intact, red-purple capsule. The parenchyma is maroon and congested, with distinct Malpighian corpuscles.

K9-6

PANCREAS:

The pancreas is firm and yellow-tan, with the usual lobular architecture. No mass lesions or other abnormalities are seen.

ADRENALS:

The right and left adrenal glands are symmetric, with yellow cortices and grey medullae. No masses or areas of hemorrhage are identified.

GENITOURINARY SYSTEM:

The right and left kidneys weigh 115 and 120 gms, respectively. The external surfaces are intact and smooth. The cut surfaces are red-tan and congested, with uniformly thick cortices and sharp corticomedullary junctions. The pelves are unremarkable and the ureters are normal in course and caliber. White bladder mucosa overlies an intact bladder wall. The bladder contains approximately 300 cc of yellow urine. The prostate is normal in size, with lobular, yellow-tan parenchyma. The seminal vesicles are unremarkable. The testes are free of mass lesions, contusions, or other abnormalities.

GASTROINTESTINAL TRACT:

The esophagus is intact and lined by smooth, grey-white mucosa. The stomach contains approximately 200 cc of dark brown partially digested food. The gastric wall is intact. The duodenum, loops of small bowel, and colon are unremarkable. The appendix is present.

ADDITIONAL PROCEDURES

- Documentary photographs are taken by Sgt. [redacted]
- Attending the autopsy is Special Agent [redacted]
- Specimens retained for toxicologic testing and/or DNA identification are: vitreous, blood, urine, spleen, liver, lung, brain, bile, gastric, and psoas muscle
- The dissected organs are forwarded with body

MICROSCOPIC EXAMINATION

Selected portions of organs are retained in formalin, without preparation of histologic slides.

TOXICOLOGY

AFIP Accession # 035228, dated 24 Nov 2003

Volatiles: Blood-negative for ethanol

Cyanide: Blood- negative

Drugs of abuse: Blood-negative

K9-7

APPROVED FOR RELEASE DATE 06 SEP 2013

Al-Jamadi, Manadel

2903283

OPINION

Manadel Al-Jamadi, an Iraqi National, died while detained at the Abu Ghraib prison where he was held for interrogations by government agencies. According to an investigative report, Mr. Al-Jamadi was captured by Navy Seal team #7 and resisted apprehension. External injuries are consistent with injuries sustained during apprehension. Ligature injuries are present on the wrists and ankles. Fractures of the ribs and a contusion of the left lung imply significant blunt force injuries of the thorax and likely resulted in impaired respiration. According to investigating agents, interviews taken from individuals present at the prison during the interrogation indicate that a hood made of synthetic material was placed over the head and neck of the detainee. This likely resulted in further compromise of effective respiration. Mr. Al-Jamadi was not under the influence of drugs of abuse or ethanol at the time of death. The cause of death is blunt force injuries of the torso complicated by compromised respiration. The manner of death is homicide.

~~FOR OFFICIAL USE ONLY~~

DECLASSIFICATION OF INFORMATION RELATING TO THE DEATH
OF MANADEL AL-JAMADI UNDER SECTION 3.1(b) OF EXECUTIVE
ORDER 12958, AS AMENDED

In accordance with section 3.1(b) of Executive Order 12958, as amended, I hereby declassify the following Central Intelligence Agency (CIA) intelligence information for use in the criminal investigations and prosecutions arising from the death of Manadel Al-Jamadi, an Iraqi insurgent in U.S. custody:

- The fact that CIA personnel were present during the military's capture of Al-Jamadi;
- The fact that CIA personnel questioned Al-Jamadi at the SEAL compound at Baghdad International Airport;
- The fact that CIA personnel questioned Al-Jamadi at Abu Ghraib prison;
- Statements of CIA personnel (minus their names and other classified information) regarding what they did and what they observed during the capture and questioning of Al-Jamadi; and
- The fact that the CIA Office of Inspector General is investigating allegations of impropriety in the Al-Jamadi case.

Director of Central Intelligence

4/1/05
Date

~~FOR OFFICIAL USE ONLY~~

Exhibit 2

Exhibit 3

December 18, 2021

Information and Privacy Coordinator
Central Intelligence Agency
Washington, D.C. 20505

This is a request for records under the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552 and the Privacy Act, 5 U.S.C. § 552a. This request should be considered under both statutes to maximize the release of records.

REQUESTER INFORMATION

Name: Seth Hettena
Position: Contributing editor, Rolling Stone
Address: 9220 Virginian Lane, La Mesa, CA 91941
Email: shettena@gmail.com

RECORDS SOUGHT

I request disclosure from the Central Intelligence Agency Office of Inspector General a copy of the concluding document (report of investigation, final report, closing memo, referral letter) of an investigation into the death of Manadal al-Jamaidi (aka Mandel al-Jamadi), including, but not limited to, a IG report dated November 3, 2005.

INSTRUCTIONS REGARDING SEARCH

1. Instructions Regarding "Leads":

As required by the relevant case law, the CIA IG should follow any leads it discovers during the conduct of its searches and perform additional searches when said leads indicate that records may be located in another system. Failure to follow clear leads is a violation of FOIA.

2. Request for Public Records:

Please search for any records even if they are already publicly available.

3. Request for Electronic and Paper/Manual Searches:

I request that searches of all electronic and paper/manual indices, filing systems, and locations for any and all records relating or referring to the subject of my request be conducted.

4. Request for Search of Filing Systems, Indices, and Locations:

I request that the CIA search all of its offices and components which are likely to contain responsive records.

5. Request regarding Photographs and other Visual Materials:

I request that any photographs or other visual materials responsive to my request be

released to me in their original or comparable forms, quality, and resolution. For example, if a photograph was taken digitally, or if the CIA IG maintains a photograph digitally, I request disclosure of the original digital image file, not a reduced resolution version of that image file nor a printout and scan of that image file. Likewise, if a photograph was originally taken as a color photograph, I request disclosure of that photograph as a color image, not a black and white image. Please contact me for any clarification on this point.

6. Request for Duplicate Pages:

I request disclosure of any and all supposedly “duplicate” pages. Scholars analyze records not only for the information available on any given page, but also for the relationships between that information and information on pages surrounding it. As such, though certain pages may have been previously released to me, the existence of those pages within new context renders them functionally new pages. As such, the only way to properly analyze released information is to analyze that information within its proper context. Therefore, I request disclosure of all “duplicate” pages.

7. Request to Search Emails:

Please search for emails relating to the subject matter of my request.

8. Request for Search of Records Transferred to Other Agencies:

I request that in conducting its search, the CIA IG disclose releasable records even if they are available publicly through other sources outside the CIA IG, such as NARA.

9. Regarding Destroyed Records

If any records responsive or potentially responsive to my request have been destroyed, my request includes, but is not limited to, any and all records relating or referring to the destruction of those records. This includes, but is not limited to, any and all records relating or referring to the events leading to the destruction of those records.

INSTRUCTIONS REGARDING SCOPE AND BREADTH OF REQUESTS

Please interpret the scope of this request broadly. The CIA IG is instructed to interpret the scope of this request in the most liberal manner possible short of an interpretation that would lead to a conclusion that the request does not reasonably describe the records sought.

EXEMPTIONS AND SEGREGABILITY

I call your attention to President Obama's 21 January 2009 Memorandum concerning the Freedom of Information Act, in which he states:

All agencies should adopt a presumption in favor of disclosure, in order to renew their commitment to the principles embodied in FOIA [...] The presumption of disclosure should be applied to all decisions involving FOIA.

In the same Memorandum, President Obama added that government information should not be kept confidential “merely because public officials might be embarrassed by disclosure, because errors and failures might be revealed, or because of speculative or abstract fears.”

Finally, President Obama ordered that "The Freedom of Information Act should be administered with a clear presumption: In the case of doubt, openness prevails." Nonetheless, if any responsive record or portion thereof is claimed to be exempt from production, FOIA/PA statutes provide that even if some of the requested material is properly exempt from mandatory disclosure, all segregable portions must be released. If documents are denied in part or in whole, please specify which exemption(s) is (are) claimed for each passage or whole document denied. Please provide a complete itemized inventory and a detailed factual justification of total or partial denial of documents. Specify the number of pages in each document and the total number of pages pertaining to this request. For "classified" material denied, please include the following information: the classification (confidential, secret or top secret); identity of the classifier; date or event for automatic declassification or classification review or downgrading; if applicable, identity of official authorizing extension of automatic declassification or review past six years; and, if applicable, the reason for extended classification beyond six years.

In excising material, please "black out" the material rather than "white out" or "cut out." I expect, as provided by FOIA, that the remaining non-exempt portions of documents will be released.

Please release all pages regardless of the extent of excising, even if all that remains are the stationery headings or administrative markings.

In addition, I ask that your agency exercise its discretion to release records which may be technically exempt, but where withholding serves no important public interest.

ADDITIONAL INSTRUCTIONS REGARDING REQUEST

Please produce all records with administrative markings and pagination included. Please send a memo (copy to me) to the appropriate units in your office to assure that no records related to this request are destroyed. Please advise of any destruction of records and include the date of and authority for such destruction.

FORMAT

I request that any releases stemming from this request be provided to me in digital format (soft-copy) on a compact disk or other like media.

FEE CATEGORY AND REQUEST FOR A FEE WAIVER

I am a contributing editor and investigative reporter for Rolling Stone covering a wide-range of issues, including politics, law enforcement, organized crime, national security, cybersecurity, and espionage. Additionally, my reporting has been published in the The New York Times, The New Yorker, The Los Angeles Times, and The New Republic. I am the author of two books, *Feasting on the Spoils*, *The Life and Times of Randy "Duke" Cunningham*, *America's Most Corrupt Congressman* and *Trump/Russia: A Definitive History*.

I am willing to pay any reasonable expenses associated with this request, however, as the purpose of the requested disclosure is in full conformity with the statutory requirements

for a waiver of fees, I formally request such a waiver. I request a waiver of all costs pursuant to 5 U.S.C. §552(a)(4)(A)(iii) (“Documents shall be furnished without any charge ... if disclosure of the information is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in the commercial interest of the requester.”). Disclosure in this case meets the statutory criteria, and a fee waiver would fulfill Congress’s legislative intent in amending FOIA. See *Judicial Watch, Inc. v. Rossotti*, 326 F.3d 1309, 1312 (D.C. Cir. 2003) (“Congress amended FOIA to ensure that it be ‘liberally construed in favor of waivers for noncommercial requesters.’”). I incorporate by reference the explanation and attached materials in the above sections which demonstrates why the requested information is in the public interest.

DoD 5400.7-R C6.1.4.1 provides that “documents shall be furnished without charge, or at a charge reduced below fees assessed to the categories of requesters in subsection C6.1.5., below, when the Component determines that waiver or reduction of the fees is in the public interest because furnishing the information is likely to contribute significantly to public understanding of the operations or activities of the Department of Defense and is not primarily in the commercial interest of the requester.”

Should my request for a fee waiver be denied, I request that I be categorized as a member of the news media for fee purposes pursuant to DoD 5400.7-R C6.1.5.7. According to 5 U.S.C. § 552(a)(4)(A)(ii), which codified the ruling of *Nat’l Security Archive v. Dep’t of Defense*, 880 F.2d 1381 (D.C. Cir. 1989), the term “a representative of the news media” means any person or entity that gathers information of potential interest to a segment of the public, uses its editorial skills to turn the raw materials into a distinct work, and distributes that work to an audience. This is consistent with the definition provided in DoD 5400.7-R C6.1.5.7.1.

As the legislative history of FOIA reveals, “It is critical that the phrase ‘representative of the news media’ be broadly interpreted if the act is to work as expected. . . . In fact, any person or organization which regularly publishes or disseminates information to the public . . . should qualify for waivers as a ‘representative of the news media.’” 132 Cong. Rec. S14298 (daily ed. Sept. 30, 1986) (emphasis in original quotation); and 2) “A request by a reporter or other person affiliated with a newspaper, magazine, television or radio station, or other entity that is in the business of publishing or otherwise disseminating information to the public qualifies under this provision.” 132 Cong. Rec. H9463 (Oct. 8, 1986) (emphasis in original quotation)). Therefore, in accordance with the Freedom of Information Act and relevant case law, I, Seth Hettena, should be considered a representative of the news media.

I have the intent and ability to disseminate this significant expansion of public understanding of government operations. The public interest in this significant expansion of public understanding of government operations far outweighs any commercial interest of my own in the requested release. Accordingly, my fee waiver request amply satisfies the rules of DoD 5400.7-R C6.1.4.1. Legislative history and judicial authority emphatically support this determination. For these reasons, and based upon their extensive elaboration

above, I request a full waiver of fees be granted. I will appeal any denial of my request for a waiver administratively and to the courts if necessary.

Please do not hesitate to contact me if you have any questions concerning this request. Thank you. I appreciate your time and attention to this matter.

Sincerely,

Seth Hettena

Dear Requester:

On 5 January 2022, the Office of the Information and Privacy Coordinator received your 18 December 2021 correspondence seeking, under the Freedom of Information Act, **a copy of the concluding document (report of investigation, Final report, closing, memo, referral letter) of an investigation into the death of Manadal al-Jamaidi.**

This letter serves to acknowledge that CIA received your request, and to further let you know that this office assigned your request the reference number provided above. Citing this number in future correspondence will allow us to more efficiently locate your case information.

In the event that we have questions or require additional information or clarification from you to proceed with processing your request, a representative will contact you. Unless you object, this office will search for CIA-originated records only up to and including the date that the Agency begins its search.

We note your request for a waiver of applicable fees, and as a matter of administrative discretion, this office is waiving fees associated with your query.

To check the status of your request, please visit: <https://www.cia.gov/readingroom/request/status> and input the reference number provided above or call this office at (703) 613-1287.

Sincerely,

A handwritten signature in black ink, appearing to read "Mark Lilly".

Mark Lilly
Information and Privacy Coordinator
