Hello team.

The meeting with Dany was not successful. Bret assured that the Internet connection was the same as last visit. unfortunately it was not. I will let Alessandro explain the technical issues encountered.

I was able to give the presentation and answer questions. They are still very interested and would like to organize another meeting ASAP at a local hotel. I have Aldo proposed a private meeting at ISS. MARCO can we send them tickets?

As for NYPD I'm canceling the meeting. I have had no reply from emails and calls. I don't know what office to meet them at. I'm very disappointed with my contact there.
