(b) (6)

I'll piecemeal our answers to your questions below.

1. Asset Allocation. We'll work with our CMT JLOC/J4 reps to get those details.
2. Common Operating Picture. I've cc'd (b) (6), who is working our Daily Placemat. He is probably the best POC for developing a COP. Completely understand that this will be a NIPR.
3. Long Range Planning. I've cc'd our JLOC/J4 rep, (b) (6) who should be able to help with linking into the JLOC and logistics planning efforts.

I've also cc'd (b)(6) who is my counterpart on the swing shift (any time after 1500-ish). Please copy him on any RFIs after that time. I'm in about 0500 daily. There is 24-7 coverage on the CMT and through the CMT Leadership mailbox.

Subject: Fusion Cell Requests for Assistance

Sir,

First rollup of RFAs from the Fusion Cell.

1. Asset Allocation. We are receiving increased requests for details on "what DoD has left in the tank." To that end we need some help starting to map out the composition and disposition of "strategic" assets. Right now the hot button items are N95 masks and ventilators. My working assumption based on our combined sitreps is that we have 907 ventilators and 3.5million N95 masks. Can we map out:

- Which service has how many
- Where they are located
- What is the process to allocate (assume this will be driven by an RFI from FEMA or HHS, but if there is an existing DoD/JCS plan would be good to know) and initiate distribution (assume EXORD of some sort)
- Who is the appropriate JS or Service POC to initiate movement

2. Common Operating Picture. We brought on (b) (6) who will be working on refining our common operating picture from this end. Can someone on your team provide a baseline graphic/map/product that includes NORTHCOM and INDOPACOM AORs that will require FEMA/HHS response? Can we also tie Jon in with the right CMT or JS reps to start tracking down and capturing personnel and assets deployed? I will put him in touch with the NC elements here for tie in back to the NC staff, but want to make sure he is tied in with your team as well.

3. Long-range planning efforts. Leaders on the FEMA/HHS side and LTG Poppas have directed MG McGee to extend the planning horizons here. We have a team embedded with the FEMA Planning Support Section, working to "look deep." Who are the right people within the CMT and across the JS for (b)(6) (b)(6) to tie in with?

Thanks for your time and assistance on these.

Respectfully,

(b) (6)

Good afternoon, Team PPE,

Please see our newly added paragraph on page 5-6, section 4.L. (Also cut/pasted for you below, as my track changes function is acting sort of funny. So in case it comes out weird, also available below.)

I have some additional editing notes, if it's worth it for you, but nothing substantive. Please let me know if you have any questions or would like any additional information.

V/R,  
Team Vents

RE: (U//FOUO) INCOMING COVID RFIs: Sen Bennet (D/CO), Sen Blumenthal (D/CT) and Sen Brown (D/OH) - DoD ventilators and masks -- where to send

Good morning all – here are my recommended edits based on updates over the past 72 hours (cleared by DJ4):

(b) (5)

The numbers in para 3 are what are currently being reporting within FEMA as well, and so I think we're on solid ground from a consistency standpoint.

Standing by if you need any additional clarification.

V/r,

(b) (6)

Concur with how JS answered the first two, but my additions to #3 are dated. For #3 I pulled some from DoD COVID-19 Ventilator Distribution Guidance issued on 26 Mar, and the last two sentences from the daily DoD Support Provided email sent yesterday by the Joint Staff Fusion Cell (FEMA).

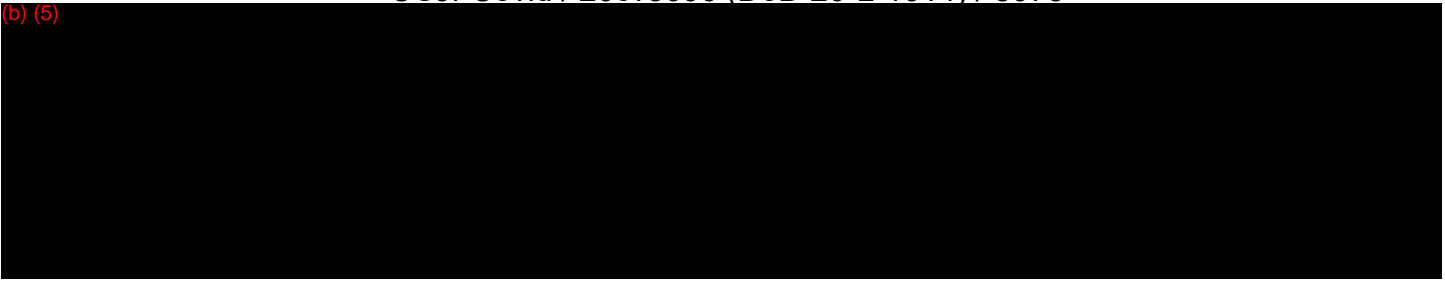

I am copying (b) (6), the Joint Staff POC for the Ventilator Distribution Guidance to ask for his input.

Three related RFIs: It was reported that DoD has not yet received instruction on where to send its ventilators and masks

**Subject:** FW: (U//~~FOUO~~) INCOMING COVID RFIs: Sen Bennet (D/CO), Sen Blumenthal (D/CT) and Sen Brown (D/OH) - DoD ventilators and masks -- where to send

Cordell – the below RFI came from statements made by Lt Gen Tuck (JS J4) earlier this week. I asked JS to take it, but they pushed it back (with draft responses). Does DLA have current info on PPE or ventilators provided (or not provided) to FEMA/HHS?

(b) (6) – do you have any other ideas for where we might obtain this info?

Thanks,

(b) (6)

(JS suggested answers are highlighted)

CLASSIFICATION: UNCLASSIFIED//~~FOR OFFICIAL USE ONLY~~

Lt Gen Tuck,

BLUF: On April 13, the DoD announced a \$415 million contract to Battelle for N95 mask sterilization: DLA, on behalf of HHS, awarded a \$415 million contract for 60 Battelle Memorial Institute Critical Care Decontamination Systems (CCDS), that can decontaminate up to 80,000 used N95 respirators per system per day, enabling mask reuse up to 20 times. As of 19 April, 10 of 60 systems delivered and in place (Edison, NJ; New Britain, CT; Kennesaw, GA and Baltimore, MD); 1 system enroute to Burbank, CA.

Attached is an in depth brief on the operation, sustainment and capabilities of this system.

J43 will track the deployment and status of each of these systems throughout CONUS. Locations and status of these systems will be reflected on your J43 Daily COVID-19 placemat.

Sir -  
Tracking you have a meeting with VCJCS at noon to discuss vents  
Providing the attached (Slide 2) for your S/A: Planning factors for storing / maintaining ventilators at Hamilton

-----

Using 1100 EA generators as a planning factor Hamilton provided DLA a quote of:

- **Storage Costs: \$13,325.00 for storage of the ventilators for 6 months.**
- **Maintenance costs:**
  - **0 to 6 months: \$0** because no maintenance would be required

OSJI-Covid / 20cv5096 (DoD 20-L-1014) / 8091

- **At 6 months:** \$331.10 per unit for labor and replacement of O2 cell. **1100 ventilators \* \$331.10/ea= \$364,210.00**
- **At 12 months:** \$551.45/per unit for labor, replacement of O2 cell and battery calibration. **1100 ventilators \* \$551.45/ea= \$606,595.00**

Subject: JS COVID-19 CMT RFI #130 (J4 request for Ventilator Type and Status) Suspense: 271000APR20

USTRANSCOM, Services, and DHA,

JS COVID-19 CMT RFI #130 - for questions contact JS COVID-19 CMT POCs at bottom of email.

Suspense: 271000APR20

RFI (J4 request for Ventilator Type and Status): Request Services, USTRANSCOM, and DHA populate the requested unconstrained (total count) ventilator inventory numbers in the attached spreadsheet in order to inform weekly SECDEF & CJCS COVID-19 Medical PPE status report.

1. Each row of ventilator locations will be subcategorized by Transport Ventilator (e.g. Hamilton T-1 / Zoll 731 / Zoll 754) and Hospital Ventilator (typically non-transportable ventilators within ICUs).
2. To avoid double-counting, Services and USTRANSCOM will only report non-MTF ventilator stocks, while DHA will report MTF ventilator stocks.
3. NORTHCOM ventilator stocks should only account for units that are currently OPCON to NORTHCOM. (i.e. USNS Mercy, Army Field Hospitals, etc). All other CONUS Service, USTRANSCOM or DHA-owned ventilators will be reported in the CONUS-based stocks row.

4. Coordinating Instructions:

(A) Unconstrained: Reported numbers should include ALL ventilators, regardless of operational unit, WRM stocks, prepositioned, MTF, etc.

(B) Row 1 (includes two cells) - CONUS-based Stocks. Includes all ventilators located in CONUS not assigned to NORTHCOM or transferred to FEMA/HHS. DHA will report all MTF ventilators. Services and USTRANCOM will report non-MTF ventilators.

(C) Row 2 (includes two cells) - Only those ventilators in CONUS assigned by the Services/TRANSCOM/DHA to NORTHCOM

(D) Remaining Rows: All Service/USTRANSCOM/DHA stocks in those geographic locations.

6. Once populated, this spreadsheet will be used to inform the weekly SECDEF/CJCS COVID-19 PPE LogStat brief.

PRODUCT REQ'D: Slide 5 of the attached PowerPoint. Slides 1-4 are for reference purposes.

CLASSIFICATION: UNCLASSIFIED//~~FOR OFFICIAL USE ONLY~~  
Good afternoon Gentlemen,

BLUF: Short suspense on a high side response from the Services and TRANSCOM in preparation for a 1000 14 APR OPSDEPS.

Due to the operational urgency of resolving the final DoD ventilator allocation for HHS/FEMA support, the DJS scheduled an OPSDEPS for tomorrow. In order to finalize the decision points we have one last urgent RFI that that will be (if not already) issued via the CMT with COB today suspense.

Please refer to your watch cells for more specific requirements and let myself or (b) (6) know if you have any further questions.

Respectfully,

(b) (6)

**Attachments:** Non MTF Final DoD Ventilator Rollup 301330APR20 pkr.xlsx

Leaders,

We have adjusted our numbers to reflect Navy non MTF vent numbers. The six that are classified as MTF are vents that are the type used in an MTF; however, they are not currently in an MTF.

V/R

Team,  
DHA already has those counts included for all MTFs to include Navy MTFs. I think that will work.

Subject: FW: RFI 130 (J4 request for Ventilator Type and Status)

CHOPS,

CMT requests re-tasking RFI 130 to AF and Navy for clarification of their submission. Suspense 1200 tomorrow.

RFI #130 (MOD-1)

TASKED ORG (S): Air Force and Navy

ORIGINATOR: J4

SUSPENSE: 301200APR20

RFI:

1. SUSPENSE: NLT 1000 EDT, Monday 27 April, request Services, USTRANSCOM, and DHA populate the requested unconstrained (total count) ventilator inventory numbers in the attached spreadsheet in order to inform weekly SECDEF & CJCS COVID-19 Medical PPE status report.

2. Each row of ventilator locations will be subcategorized by Transport Ventilator (e.g. Hamilton T-1 / Zoll 731 / Zoll 754) and Hospital Ventilator (typically non-transportable ventilators within ICUs).

3. To avoid double-counting, Services and USTRANSCOM will only report non-MTF ventilator stocks, while DHA will report MTF ventilator stocks.

4. NORTHCOM ventilator stocks should only account for units that are currently OPCON to NORTHCOM. (i.e. USNS Mercy, Army Field Hospitals, etc). All other CONUS Service, USTRANSCOM or DHA-owned ventilators will be reported in the CONUS-based stocks row.

5. Coordinating Instructions:

ADD: The Air Force and Navy both are reporting MTF vents in the attached excel document. Our understanding is that only DHA tracks/maintains the "MTF vents" we are trying to count. The MTF vents we are talking about here are intended to count the large, installed, permanent type units that are installed in MTF's and not intended to be moved (not the hamiltons, zolls, etc that we've been counting for potential distribution to FEMA).

Please clarify that what "MTF vents" the Air Force and Navy are reporting. Are they transportable or are they permanent hospital-type ventilators like you'd find in a civilian hospital?

(A) Unconstrained: Reported numbers should include ALL ventilators, regardless of operational unit, WRM stocks, prepositioned, MTF, etc.

(B) Row 1 (includes two cells) - CONUS-based Stocks. Includes all ventilators located in CONUS not assigned to NORTHCOM or transferred to FEMA/HHS. DHA will report all MTF ventilators. Services and USTRANCOM will report non-MTF ventilators.

(C) Row 2 (includes two cells) - Only those ventilators in CONUS assigned by the Services/TRANSCOM/DHA to NORTHCOM

(D) Remaining Rows: All Service/USTRANSCOM/DHA stocks in those geographic locations.

6. Once populated, this spreadsheet will be used to inform the weekly SECDEF/CJCS COVID-19 PPE LogStat brief.

PRODUCT REQ'D: Slide 5 of the attached PowerPoint. Slides 1-4 are for reference purposes.

Sir,

I spoke to (b) (6) this morning. To clear up the confusion on the Navy side in our original submission the Navy included MTF vents as well not realizing that DHA was already counting them so we were double tapping. If DHA backs out the MTF numbers from ours we should be GTG.

Subject: FW: RFI 130 (J4 request for Ventilator Type and Status)

CHOPS,

MG T has approved release of RFI 130. Please let me know if you have any questions.

RFI #130

TASKED ORG (S): Services, USTRANSCOM, and DHA

ORIGINATOR: J4

SUSPENSE: 271000APR20

RFI:

1. SUSPENSE: NLT 1000 EDT, Monday 27 April, request Services, USTRANSCOM, and DHA populate the requested unconstrained (total count) ventilator inventory numbers in the attached spreadsheet in order to inform weekly SECDEF & CJCS COVID-19 Medical PPE status report.

2. Each row of ventilator locations will be subcategorized by Transport Ventilator (e.g. Hamilton T-1 / Zoll 731 / Zoll 754) and Hospital Ventilator (typically non-transportable ventilators within ICUs).
  
3. To avoid double-counting, Services and USTRANSCOM will only report non-MTF ventilator stocks, while DHA will report MTF ventilator stocks.
  
4. NORTHCOM ventilator stocks should only account for units that are currently OPCON to NORTHCOM. (i.e. USNS Mercy, Army Field Hospitals, etc). All other CONUS Service, USTRANSCOM or DHA-owned ventilators will be reported in the CONUS-based stocks row.
  
5. Coordinating Instructions:
  - (A) Unconstrained: Reported numbers should include ALL ventilators, regardless of operational unit, WRM stocks, prepositioned, MTF, etc.
  
  - (B) Row 1 (includes two cells) - CONUS-based Stocks. Includes all ventilators located in CONUS not assigned to NORTHCOM or transferred to FEMA/HHS. DHA will report all MTF ventilators. Services and USTRANCOM will report non-MTF ventilators.
  
  - (C) Row 2 (includes two cells) - Only those ventilators in CONUS assigned by the Services/TRANSCOM/DHA to NORTHCOM
  
  - (D) Remaining Rows: All Service/USTRANSCOM/DHA stocks in those geographic locations.
  
6. Once populated, this spreadsheet will be used to inform the weekly SECDEF/CJCS COVID-19 PPE LogStat brief.

PRODUCT REQ'D: Slide 5 of the attached PowerPoint. Slides 1-4 are for reference purposes.

Subject: FW: RFI 130 (J4 request for Ventilator Type and Status)

CHOPS,

CMT requests re-tasking RFI 130 to AF and Navy for clarification of their submission. Suspense 1200 tomorrow.

RFI #130 (MOD-1)

TASKED ORG (S): Air Force and Navy

ORIGINATOR: J4

SUSPENSE: 301200APR20

RFI:

1. SUSPENSE: NLT 1000 EDT, Monday 27 April, request Services, USTRANSCOM, and DHA populate the requested unconstrained (total count) ventilator inventory numbers in the attached spreadsheet in order to inform weekly SECDEF & CJCS COVID-19 Medical PPE status report.
  
2. Each row of ventilator locations will be subcategorized by Transport Ventilator (e.g. Hamilton T-1 / Zoll 731 / Zoll 754) and Hospital Ventilator (typically non-transportable ventilators within ICUs).
  
3. To avoid double-counting, Services and USTRANSCOM will only report non-MTF ventilator stocks, while DHA will report MTF ventilator stocks.
  
4. NORTHCOM ventilator stocks should only account for units that are currently OPCON to NORTHCOM. (i.e. USNS Mercy, Army Field Hospitals, etc). All other CONUS Service, USTRANSCOM or DHA-owned ventilators will be reported in the CONUS-based stocks row.

5. Coordinating Instructions:

ADD: The Air Force and Navy both are reporting MTF vents in the attached excel document. Our understanding is that only DHA tracks/maintains the "MTF vents" we are trying to count. The MTF vents we are talking about here are intended to count the large, installed, permanent type units that are installed in MTF's and not intended to be moved (not the hamiltons, zolls, etc that we've been counting for potential distribution to FEMA).

Please clarify that what "MTF vents" the Air Force and Navy are reporting. Are they transportable or are they permanent hospital-type ventilators like you'd find in a civilian hospital?

(A) Unconstrained: Reported numbers should include ALL ventilators, regardless of operational unit, WRM stocks, prepositioned, MTF, etc.

(B) Row 1 (includes two cells) - CONUS-based Stocks. Includes all ventilators located in CONUS not assigned to NORTHCOM or transferred to

FEMA/HHS. DHA will report all MTF ventilators. Services and USTRANCOM will report non-MTF ventilators.

(C) Row 2 (includes two cells) - Only those ventilators in CONUS assigned by the Services/TRANSCOM/DHA to NORTHCOM

(D) Remaining Rows: All Service/USTRANSCOM/DHA stocks in those geographic locations.

6. Once populated, this spreadsheet will be used to inform the weekly SECDEF/CJCS COVID-19 PPE LogStat brief.

Please clarify that what "MTF vents" the Air Force and Navy are reporting. Are they transportable or are they permanent hospital-type ventilators like you'd find in a civilian hospital?

(A) Unconstrained: Reported numbers should include ALL ventilators, regardless of operational unit, WRM stocks, prepositioned, MTF, etc.

(B) Row 1 (includes two cells) - CONUS-based Stocks. Includes all ventilators located in CONUS not assigned to NORTHCOM or transferred to FEMA/HHS. DHA will report all MTF ventilators. Services and USTRANCOM will report non-MTF ventilators.

(C) Row 2 (includes two cells) - Only those ventilators in CONUS assigned by the Services/TRANSCOM/DHA to NORTHCOM

(D) Remaining Rows: All Service/USTRANSCOM/DHA stocks in those geographic locations.

6. Once populated, this spreadsheet will be used to inform the weekly SECDEF/CJCS COVID-19 PPE LogStat brief.

PRODUCT REQ'D: Slide 5 of the attached PowerPoint. Slides 1-4 are for reference purposes.

CHOPS,

MG T has approved release of RFI 130. Please let me know if you have any questions.

RFI #130

TASKED ORG (S): Services, USTRANSCOM, and DHA

ORIGINATOR: J4

SUSPENSE: 271000APR20

RFI:

1. SUSPENSE: NLT 1000 EDT, Monday 27 April, request Services, USTRANSCOM, and DHA populate the requested unconstrained (total count) ventilator inventory numbers in the attached spreadsheet in order to inform weekly SECDEF & CJCS COVID-19 Medical PPE status report.
2. Each row of ventilator locations will be subcategorized by Transport Ventilator (e.g. Hamilton T-1 / Zoll 731 / Zoll 754) and Hospital Ventilator (typically non-transportable ventilators within ICUs).
3. To avoid double-counting, Services and USTRANSCOM will only report non-MTF ventilator stocks, while DHA will report MTF ventilator stocks.
4. NORTHCOM ventilator stocks should only account for units that are currently OPCON to NORTHCOM. (i.e. USNS Mercy, Army Field Hospitals, etc). All other CONUS Service, USTRANSCOM or DHA-owned ventilators will be reported in the CONUS-based stocks row.

5. Coordinating Instructions:

(A) Unconstrained: Reported numbers should include ALL ventilators, regardless of operational unit, WRM stocks, prepositioned, MTF, etc.

(B) Row 1 (includes two cells) - CONUS-based Stocks. Includes all ventilators located in CONUS not assigned to NORTHCOM or transferred to FEMA/HHS. DHA will report all MTF ventilators. Services and USTRANCOM will report non-MTF ventilators.

(C) Row 2 (includes two cells) - Only those ventilators in CONUS assigned by the Services/TRANSCOM/DHA to NORTHCOM

(D) Remaining Rows: All Service/USTRANSCOM/DHA stocks in those geographic locations.

6. Once populated, this spreadsheet will be used to inform the weekly SECDEF/CJCS COVID-19 PPE LogStat brief.

5. Coordinating Instructions:

(A) Unconstrained: Reported numbers should include ALL ventilators, regardless of operational unit, WRM stocks, prepositioned, MTF, etc.

(B) Row 1 (includes two cells) - CONUS-based Stocks. Includes all ventilators located in CONUS not assigned to NORTHCOM or transferred to FEMA/HHS. DHA will report all MTF ventilators. Services and USTRANCOM will report non-MTF ventilators.

(C) Row 2 (includes two cells) - Only those ventilators in CONUS assigned by the Services/TRANSCOM/DHA to NORTHCOM

(D) Remaining Rows: All Service/USTRANSCOM/DHA stocks in those geographic locations.

6. Once populated, this spreadsheet will be used to inform the weekly SECDEF/CJCS COVID-19 PPE LogStat brief.

PRODUCT REQ'D: Slide 5 of the attached PowerPoint. Slides 1-4 are for reference purposes.

Subject: RFI 130 (J4 request for Ventilator Type and Status)

Good Evening Sir,

Request approval for the below RFI from J4 requesting an update to

ventilator count by type and status.

RFI #130

TASKED ORG (S): Services, USTRANSCOM, and DHA

ORIGINATOR: J4

SUSPENSE: 271000APR20

RFI:

1. SUSPENSE: NLT 1000 EDT, Monday 27 April, request Services, USTRANSCOM, and DHA populate the requested unconstrained (total count) ventilator inventory numbers in the attached spreadsheet in order to inform weekly SECDEF & CJCS COVID-19 Medical PPE status report.
  
2. Each row of ventilator locations will be subcategorized by Transport Ventilator (e.g. Hamilton T-1 / Zoll 731 / Zoll 754) and Hospital Ventilator (typically non-transportable ventilators within ICUs).
  
3. To avoid double-counting, Services and USTRANSCOM will only report non-MTF ventilator stocks, while DHA will report MTF ventilator stocks.
  
4. NORTHCOM ventilator stocks should only account for units that are currently OPCON to NORTHCOM. (i.e. USNS Mercy, Army Field Hospitals, etc). All other CONUS Service, USTRANSCOM or DHA-owned ventilators will be reported in the CONUS-based stocks row.
  
5. Coordinating Instructions:

(A) Unconstrained: Reported numbers should include ALL ventilators, regardless of operational unit, WRM stocks, prepositioned, MTF, etc.

(B) Row 1 (includes two cells) - CONUS-based Stocks. Includes all ventilators located in CONUS not assigned to NORTHCOM or transferred to FEMA/HHS. DHA will report all MTF ventilators. Services and USTRANCOM will report non-MTF ventilators.

(C) Row 2 (includes two cells) - Only those ventilators in CONUS assigned by the Services/TRANSCOM/DHA to NORTHCOM

(D) Remaining Rows: All Service/USTRANSCOM/DHA stocks in those geographic locations.

6. Once populated, this spreadsheet will be used to inform the weekly SECDEF/CJCS COVID-19 PPE LogStat brief.

Sir,

I spoke to (b) (6) this morning. To clear up the confusion on the Navy side in our original submission the Navy included MTF vents as well not realizing that DHA was already counting them so we were double tapping. If DHA backs out the MTF numbers from ours we should be GTG.

Subject: FW: RFI 130 (J4 request for Ventilator Type and Status)

CHOPS,

CMT requests re-tasking RFI 130 to AF and Navy for clarification of their submission. Suspend 1200 tomorrow.

RFI #130 (MOD-1)

TASKED ORG (S): Air Force and Navy

ORIGINATOR: J4

SUSPENSE: 301200APR20

RFI:

1. SUSPENSE: NLT 1000 EDT, Monday 27 April, request Services, USTRANSCOM, and DHA populate the requested unconstrained (total count) ventilator inventory numbers in the attached spreadsheet in order to inform weekly SECDEF & CJCS COVID-19 Medical PPE status report.
2. Each row of ventilator locations will be subcategorized by Transport Ventilator (e.g. Hamilton T-1 / Zoll 731 / Zoll 754) and Hospital Ventilator (typically non-transportable ventilators within ICUs).
3. To avoid double-counting, Services and USTRANSCOM will only report non-MTF ventilator stocks, while DHA will report MTF ventilator stocks.
4. NORTHCOM ventilator stocks should only account for units that are

currently OPCON to NORTHCOM. (i.e. USNS Mercy, Army Field Hospitals, etc).

All other CONUS Service, USTRANSCOM or DHA-owned ventilators will be reported in the CONUS-based stocks row.

5. Coordinating Instructions:

ADD: The Air Force and Navy both are reporting MTF vents in the attached excel document. Our understanding is that only DHA tracks/maintains the "MTF vents" we are trying to count. The MTF vents we are talking about here are intended to count the large, installed, permanent type units that are installed in MTF's and not intended to be moved (not the hamiltons, zolls, etc that we've been counting for potential distribution to FEMA).

Please clarify that what "MTF vents" the Air Force and Navy are reporting. Are they transportable or are they permanent hospital-type ventilators like you'd find in a civilian hospital?

(A) Unconstrained: Reported numbers should include ALL ventilators, regardless of operational unit, WRM stocks, prepositioned, MTF, etc.

(B) Row 1 (includes two cells) - CONUS-based Stocks. Includes all ventilators located in CONUS not assigned to NORTHCOM or transferred to FEMA/HHS. DHA will report all MTF ventilators. Services and USTRANCOM will report non-MTF ventilators.

(C) Row 2 (includes two cells) - Only those ventilators in CONUS assigned by the Services/TRANSCOM/DHA to NORTHCOM

(D) Remaining Rows: All Service/USTRANSCOM/DHA stocks in those geographic locations.

Subject: FW: RFI 130 (J4 request for Ventilator Type and Status

CHOPS,

MG T has approved release of RFI 130. Please let me know if you have any questions.

RFI #130

TASKED ORG (S): Services, USTRANSCOM, and DHA

ORIGINATOR: J4

SUSPENSE: 271000APR20

RFI:

1. SUSPENSE: NLT 1000 EDT, Monday 27 April, request Services, USTRANSCOM, and DHA populate the requested unconstrained (total count) ventilator inventory numbers in the attached spreadsheet in order to inform weekly SECDEF & CJCS COVID-19 Medical PPE status report.

2. Each row of ventilator locations will be subcategorized by Transport Ventilator (e.g. Hamilton T-1 / Zoll 731 / Zoll 754) and Hospital

Ventilator (typically non-transportable ventilators within ICUs).

3. To avoid double-counting, Services and USTRANSCOM will only report non-MTF ventilator stocks, while DHA will report MTF ventilator stocks.

4. NORTHCOM ventilator stocks should only account for units that are currently OPCON to NORTHCOM. (i.e. USNS Mercy, Army Field Hospitals, etc). All other CONUS Service, USTRANSCOM or DHA-owned ventilators will be reported in the CONUS-based stocks row.

5. Coordinating Instructions:

(A) Unconstrained: Reported numbers should include ALL ventilators, regardless of operational unit, WRM stocks, prepositioned, MTF, etc.

(B) Row 1 (includes two cells) - CONUS-based Stocks. Includes all ventilators located in CONUS not assigned to NORTHCOM or transferred to FEMA/HHS. DHA will report all MTF ventilators. Services and USTRANCOM will report non-MTF ventilators.

(C) Row 2 (includes two cells) - Only those ventilators in CONUS assigned by the Services/TRANSCOM/DHA to NORTHCOM

(D) Remaining Rows: All Service/USTRANSCOM/DHA stocks in those geographic locations.

6. Once populated, this spreadsheet will be used to inform the weekly SECDEF/CJCS COVID-19 PPE LogStat brief.

PRODUCT REQ'D: Slide 5 of the attached PowerPoint. Slides 1-4 are for reference purposes.

Leaders,

DHA has accounted for our MTF's; however, we have some vents on the operation side that account for around 246 vents. I am having my folks separate the remaining none MTF vents into the COCOMS and I will forward to all.

V/R

Sir,

I spoke to (b) (6) this morning. To clear up the confusion on the Navy side in our original submission the Navy included MTF vents as well not realizing that DHA was already counting them so we were double tapping. If DHA backs out the MTF numbers from ours we should be GTG.

CHOPS,

CMT requests re-tasking RFI 130 to AF and Navy for clarification of their submission. Suspense 1200 tomorrow.

RFI #130 (MOD-1)

TASKED ORG (S): Air Force and Navy

ORIGINATOR: J4

SUSPENSE: 301200APR20

RFI:

1. SUSPENSE: NLT 1000 EDT, Monday 27 April, request Services, USTRANSCOM, and DHA populate the requested unconstrained (total count) ventilator inventory numbers in the attached spreadsheet in order to inform weekly SECDEF & CJCS COVID-19 Medical PPE status report.
2. Each row of ventilator locations will be subcategorized by Transport Ventilator (e.g. Hamilton T-1 / Zoll 731 / Zoll 754) and Hospital Ventilator (typically non-transportable ventilators within ICUs).
3. To avoid double-counting, Services and USTRANSCOM will only report

non-MTF ventilator stocks, while DHA will report MTF ventilator stocks.

4. NORTHCOM ventilator stocks should only account for units that are currently OPCON to NORTHCOM. (i.e. USNS Mercy, Army Field Hospitals, etc). All other CONUS Service, USTRANSCOM or DHA-owned ventilators will be reported in the CONUS-based stocks row.

5. Coordinating Instructions:

ADD: The Air Force and Navy both are reporting MTF vents in the attached excel document. Our understanding is that only DHA tracks/maintains the "MTF vents" we are trying to count. The MTF vents we are talking about here are intended to count the large, installed, permanent type units that are installed in MTF's and not intended to be moved (not the hamiltons, zolls, etc that we've been counting for potential distribution to FEMA).

Please clarify that what "MTF vents" the Air Force and Navy are reporting. Are they transportable or are they permanent hospital-type ventilators like you'd find in a civilian hospital?

(A) Unconstrained: Reported numbers should include ALL ventilators, regardless of operational unit, WRM stocks, repositioned, MTF, etc.

(B) Row 1 (includes two cells) - CONUS-based Stocks. Includes all ventilators located in CONUS not assigned to NORTHCOM or transferred to FEMA/HHS. DHA will report all MTF ventilators. Services and USTRANCOM will report non-MTF ventilators.

(C) Row 2 (includes two cells) - Only those ventilators in CONUS assigned by the Services/TRANSCOM/DHA to NORTHCOM

(D) Remaining Rows: All Service/USTRANSCOM/DHA stocks in those geographic locations.

6. Once populated, this spreadsheet will be used to inform the weekly SECDEF/CJCS COVID-19 PPE LogStat brief.

PRODUCT REQ'D: Slide 5 of the attached PowerPoint. Slides 1-4 are for reference purposes.

Subject: FW: RFI 130 (J4 request for Ventilator Type and Status

CHOPS,

MG T has approved release of RFI 130. Please let me know if you have any questions.

RFI #130

TASKED ORG (S): Services, USTRANSCOM, and DHA

ORIGINATOR: J4

SUSPENSE: 271000APR20

RFI:

1. SUSPENSE: NLT 1000 EDT, Monday 27 April, request Services, USTRANSCOM, and DHA populate the requested unconstrained (total count) ventilator inventory numbers in the attached spreadsheet in order to inform weekly SECDEF & CJCS COVID-19 Medical PPE status report.

2. Each row of ventilator locations will be subcategorized by Transport Ventilator (e.g. Hamilton T-1 / Zoll 731 / Zoll 754) and Hospital Ventilator (typically non-transportable ventilators within ICUs).

3. To avoid double-counting, Services and USTRANSCOM will only report non-MTF ventilator stocks, while DHA will report MTF ventilator stocks.

4. NORTHCOM ventilator stocks should only account for units that are currently OPCON to NORTHCOM. (i.e. USNS Mercy, Army Field Hospitals, etc). All other CONUS Service, USTRANSCOM or DHA-owned ventilators will be reported in the CONUS-based stocks row.

5. Coordinating Instructions:

(A) Unconstrained: Reported numbers should include ALL ventilators, regardless of operational unit, WRM stocks, prepositioned, MTF, etc.

(B) Row 1 (includes two cells) - CONUS-based Stocks. Includes all ventilators located in CONUS not assigned to NORTHCOM or transferred to FEMA/HHS. DHA will report all MTF ventilators. Services and USTRANCOM will report non-MTF ventilators.

(C) Row 2 (includes two cells) - Only those ventilators in CONUS assigned by the Services/TRANSCOM/DHA to NORTHCOM

(D) Remaining Rows: All Service/USTRANSCOM/DHA stocks in those geographic locations.

6. Once populated, this spreadsheet will be used to inform the weekly SECDEF/CJCS COVID-19 PPE LogStat brief.

PRODUCT REQ'D: Slide 5 of the attached PowerPoint. Slides 1-4 are for reference purposes.

Good afternoon, Team Vents,

I believe having (b) (6) and (b) (6) confer might best solve the question of which organization is including what ventilators in its counts.

Please let me know if you have any questions or would like any additional information.

(b) (6),

I believe having the DHA SME discuss with our Navy SME ((b)(6), info below) would be the best COA so we don't double-count.

Subject: FW: RFI 130 (J4 request for Ventilator Type and Status)

CHOPS,

CMT requests re-tasking RFI 130 to AF and Navy for clarification of their submission. Suspense 1200 tomorrow.

RFI #130 (MOD-1)

TASKED ORG (S): Air Force and Navy

ORIGINATOR: J4

SUSPENSE: 301200APR20

RFI:

1. SUSPENSE: NLT 1000 EDT, Monday 27 April, request Services, USTRANSCOM, and DHA populate the requested unconstrained (total count) ventilator inventory numbers in the attached spreadsheet in order to inform

weekly SECDEF & CJCS COVID-19 Medical PPE status report.

2. Each row of ventilator locations will be subcategorized by Transport Ventilator (e.g. Hamilton T-1 / Zoll 731 / Zoll 754) and Hospital Ventilator (typically non-transportable ventilators within ICUs).
  
3. To avoid double-counting, Services and USTRANSCOM will only report non-MTF ventilator stocks, while DHA will report MTF ventilator stocks.
  
4. NORTHCOM ventilator stocks should only account for units that are currently OPCON to NORTHCOM. (i.e. USNS Mercy, Army Field Hospitals, etc). All other CONUS Service, USTRANSCOM or DHA-owned ventilators will be reported in the CONUS-based stocks row.
  
5. Coordinating Instructions:

ADD: The Air Force and Navy both are reporting MTF vents in the attached excel document. Our understanding is that only DHA tracks/maintains the "MTF vents" we are trying to count. The MTF vents we are talking about here are intended to count the large, installed, permanent type units that are installed in MTF's and not intended to be moved (not the hamiltons, zolls, etc that we've been counting for potential distribution to FEMA).

Please clarify that what "MTF vents" the Air Force and Navy are reporting. Are they transportable or are they permanent hospital-type ventilators like you'd find in a civilian hospital?

(A) Unconstrained: Reported numbers should include ALL ventilators, regardless of operational unit, WRM stocks, prepositioned, MTF, etc.

(B) Row 1 (includes two cells) - CONUS-based Stocks. Includes all ventilators located in CONUS not assigned to NORTHCOM or transferred to FEMA/HHS. DHA will report all MTF ventilators. Services and USTRANCOM will report non-MTF ventilators.

(C) Row 2 (includes two cells) - Only those ventilators in CONUS assigned by the Services/TRANSCOM/DHA to NORTHCOM

(D) Remaining Rows: All Service/USTRANSCOM/DHA stocks in those geographic locations.

6. Once populated, this spreadsheet will be used to inform the weekly SECDEF/CJCS COVID-19 PPE LogStat brief.

PRODUCT REQ'D: Slide 5 of the attached PowerPoint. Slides 1-4 are for reference purposes.

# DoD Ventilator Rollup Instruction

- SECDEF & CJCS Weekly COVID-19 Medical PPE status report (LogStat) will now include ventilator data from the Services, TRANSCOM, and DHA. (Slide 2)
- Previous ventilator RFI 110 on 9 Apr was intended to inform the sourcing of 2,000 transport ventilators to HHS. (Slide 3)
- Services, TRANSCOM and DHA will report (Slide 4):
  - All ventilators by present geographic location (CONUS and by Geographic COCOM) *Note caveat for NORTHCOM.*
  - Segregated by Transport Ventilator (e.g. Hamilton T-1, Zoll 754/Zoll 731) or Hospital Ventilator (e.g. ICU vents at MTFs).
  - To avoid double counting, if accountability at MTF conducted by DHA, Services do not count.
  - Unconstrained: Include ALL ventilators, regardless of operational unit, WRM stocks, prepositioned, MTF, etc.

(b) (6)

I took a stab at adding the line about the JSS brief to the VCJCS and DEPSECDEF. I cannot find the exact date of the brief so left it as June. I have an RFI into the JSS to inform, but I know time is limited. See attached and let me know if this will suffice.

Regards,

(b) (6)

(b) (6)  
Deputy Director, J45, Plans & Readiness  
Division Chief - Operational Contract Support (OCS) Division / J45

Still working to find the right folks to talk to, but I went back and read, then re-read the AF input from last night and I think it clears up part of the question.

The e-mail (not the chart) says:

- "For the NORTHCOM/MTF vents – these are the 50 TRANSPORT vents that are due from the MTFs. Original number for this was 106, but based on reclamation, we expect 50"

That note clearly states that the 50 in that column are "TRANSPORT" vents that are currently sitting in MTFs. Not the huge, installed ones you are looking for. So perhaps we should add that to the 210 so their NORTHCOM transport vents should be "260" and the MTF should be zero?

Here's the e-mail text again:

For the CONUS stocks/Transport vents – this includes WRM, HSMR and operational stock. No DHA-owed items included in the 543.

For NORTHCOM, we've included the 260 vents the Air Force in on the hook for to HHS/FEMA

- For the NORTHCOM/Transport vents – these are the 210 WRM vents and include:
  - o 50 from PoSA (sitting ready since 5 Apr)
  - o 96 from 2x C-THs
  - o 28 FFCCM vents at PoSA
  - o 36 ERPSS vents from multiple bases (pending final locations from AMC)
- For the NORTHCOM/MTF vents – these are the 50 TRANSPORT vents that are due from the MTFs. Original number for this was 106, but based on reclamation, we expect 50

I'll forward you whatever I come up with throughout the evening.

(b) (6),

Will call soon, but we still have some outstanding RFIs on vents.

The issues are with the U.S. Navy and the U.S. Air Force. Per the attached, they are both reporting MTF vents, when we believe that only DHA tracks/maintains MTF vents. The GENADMIN was very clear about what constitutes an MTF vent vice a transport vent. Can we please go back and clarify that they are not reporting MTF vents?

**MISSION ASSIGNMENT (MA)**

**PAPERWORK BURDEN DISCLOSURE NOTICE**

Public reporting burden for this form is estimated to average 20 minutes per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the needed data, and completing and submitting this form. This collection of information is required to obtain or retain benefits. You are not required to respond to this collection of information unless it displays a valid OMB control number. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing this burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 500 C Street, SW, Washington, DC 20472-3100, Paperwork Reduction Project (1660-0047). **NOTE: Do not send your completed form to this address.**

**I. TRACKING INFORMATION (FEMA Use Only)**

**MISSION ASSIGNMENT (MA)**

<b>VI. APPROVAL</b>		
*State Approving Official (Required for DFA)		Date
**Federal Approving Official (Required for all)	<i>PETER CAMIT</i> 	Date 04/11/2020
<b>VII. OBLIGATION (FEMA Use Only)</b>		
Mission Assignment Number <u>DC-20030901-DOD-08</u>	Amount This Action \$ <u>10,000,000.00</u>	Date/Time Obligated : 04/11/2020
Amendment Number <u>00</u>	Cumulative Amount \$ <u>10,000,000.00</u>	Initials: IFMIS
<b>** Signature required for all MAs.</b>		
<b>INSTRUCTIONS</b>		
Items on the Mission Assignment (MA) form that are not listed are self-explanatory.		
<b>I. TRACKING INFORMATION.</b> Completed by Resource Support Section or Operations staff. Required for all requests.		
<u>State:</u> If multi-State, choose State most likely to receive resource(s), (i.e., when using 7220-SU Program Code)		
<u>Resource Request No.:</u> Based on chronological log number. Used for tracking.		
<u>Program Code/Event No.:</u> The pre-declaration, emergency, or major disaster number assigned for funding the event. Examples: 7220-SU, 3130-EM, 1248-DR.		
<b>II. ASSISTANCE REQUESTED.</b> Completed by requestor.		
<u>Assistance Requested:</u> Details from the Resource Request Form will provide information concerning the assistance requested.		
<u>Internal Control No.:</u> Internal requestor reference, log, or control number, if applicable.		
<u>Initiator/Requestor:</u> The initiator may be an individual filling out the mission assignment and making a request on behalf of the POC.		
<u>POC Name:</u> The person coordinating reception and utilization of the requested resources. 24-hour contact information required.		
<b>III. INITIAL FEDERAL COORDINATION.</b> Completed by FEMA Personnel with Delegated Authority.		
<u>Action to:</u> May be Emergency Support Function (ESF), Recovery Support Function (RSF), internal FEMA organization, or other organization, which assigns the Action Officer.		
Remainder of MA used only if solution is to request Federal agency to perform reimbursable work under (MA). Deliberate validation and verification of information must occur before MA is completed and issued.		
<b>IV. DESCRIPTION.</b> Completed by assigned agency Action Officer.		
<u>Statement of Work:</u> Detailed description of work to be performed that includes: Overview of MA, objectives, tasks, resources, personnel, deliverable, location, period of performance and comprehensive cost estimate for period of performance. Statement of Work may be attached. Additional guidance concerning the writing of a Statement of Work can be found in the Mission Assignment Guide and FAR.		
<u>Assigned Agency:</u> Agency receiving the MA from FEMA. Activities within the scope of an ESF/RSF result in an MA to primary agency. Cite subordinate organization if applicable. Example; DOT-FAA, COE-SAD.		
<u>Projected Start/End Date:</u> If end date is not clear, estimate and budget for 30, 60, or 90 days, then reevaluate. TBD is not acceptable; a date must be entered.		
<u>Total Cost Estimate:</u> Enter dollar value and attach a detailed budget outlining personnel, equipment, contract, sub-tasked agency, travel and other costs. The cost estimate should include the total cost projection for the MA across the entire length of the MA. The 90 day obligation cycle is used to obligate funding in 90 day increments when completion period is expected to exceed 90 days.		
<b>V. COORDINATION.</b> Completed by MAM, except for Project Manager and Comptroller signatures.		
Type of MA: Select only one.		
<u>Appropriation Code:</u> Static data. Do not change. This is for information only, should not be used to report internal agency finances to Treasury.		
<u>Reporting:</u> MA agencies are required to provide reporting as determined by the Program Manager.		
<b>VI. APPROVAL.</b> Completed by State Approving Official and Federal Approving Official.		
<b>VII. OBLIGATION.</b> Completed by Financial Specialist		
<u>Mission Assignment No.:</u> Assigned in FEMA financial system chronologically using assigned agency acronym and two digit number.		
<u>Amendment No.:</u> Note supplement number. For example: COE: SAD-01, Supp. 1, or DOR-08, Supp. 3.		
<u>Amount this Action:</u> Taken from total cost estimate above.		
<u>Cumulative Amount:</u> Cumulative amount for this MA, including amendments.		

OSJI-Covid / 20cv5096 (D.D. 2014) / 8287

- MA task orders (MATOs) may be issued by FEMA for specific requirements, personnel, location(s), date(s), and duration of assignment(s).
- Agencies will be reimbursed for all eligible expenses pursuant to 44 CFR. Supporting documentation is required for reimbursement.
- All equipment and supply purchases must be coordinated with FEMA Project Manager. If approved, documentation is necessary to ensure reimbursement.
- Activation of agency command center(s), if required, must be coordinated with FEMA as a separate MA.
- The mission-assigned agency is responsible for ensuring that all activity is properly authorized, goods are received, services are provided, and that costs are reasonable and supported by documentation maintained by the respective agency
- MAs shall be considered for closure after 180 days with no financial activity in accordance with FEMA CFO Bulletin #157. For MAs still operationally open, requests for additional obligations may be withheld if no invoicing, ULO Validation, or additional justification has been provided.

**Subject:** DOD offer of additional N95 Masks

John and Dave,

After further refinement of DOD PPE requirements, the DSD made the decision this morning to offer FEMA an additional 10M N-95 masks from the DOD inventory. This offer is contingent upon receipt of an email from Administrator Gaynor that provides a commitment to replenish DOD (for the 10M N-95 masks) within 90-days of receipt.

If this acceptable, could you please coordinate for the email to be sent and we will make arrangements for the transfer.

If you and Lt Gen Tuck could work out the details of the N95 redistribution it would be greatly appreciated

Best, Bob

Attached is a copy of the Mission Assignment. The DDASS (DSCA MA tracker) shows that the coordination was approved by INDOPACOM and in review by Joint Staff.

I'm not sure if this is the type of info you were seeking. I will listen for updates or inquire at the TCON's I attend today. (It will be interesting to see how this MA (CCOM decisions drawing PPE from MTF) impacts the overall posture of MTF PPE planning.)

The Mission Assignments are listed on Intelshare Intelink:

[https://intelshare.intelink.gov/sites/HDI-DSCA/2019-nCoV/\\_layouts/15/start.aspx#/FEMA%20Mission%20Assignments/Forms/AllItems.aspx](https://intelshare.intelink.gov/sites/HDI-DSCA/2019-nCoV/_layouts/15/start.aspx#/FEMA%20Mission%20Assignments/Forms/AllItems.aspx)

The DDASS site lists updates on Mission Assignments:

Just to clarify the ask before we present to the SG this morning. The email chain below states 80100 masks as of Thursday for Eielson; later it was shown as 81,100. Do we know what was/is on the MA tasking? Can you confirm:

Elmendorf – 50,000

Eielson – 81,100

Request clarity from DHA on two questions?

1. Because these are Customer-Owned assets, does DHA prefer an Issue (ISS) or an out-ship (SFL)/Inventory Adjustment (IAL)?
2. What is the Ship-To address or the Routing Identifier Code (RIC)?

This will assist on advising the bases in Alaska on which transactions to run in DMLSS. If we have a Ship-To or RIC, that would also be helpful.

(b) (6), good afternoon,

With the assumption that these items are in SG05. If so, process an "issue" out of SG05.

I thought (b) (6) had provide instructions for issues out of SG05 to the Field Support team.

But I could be wrong, so many emails... Smile

Elmendorf and Eielson have been tasked by the state of Alaska to provide the following number of N95s:

Elmendorf – 50,000

Eielson – 81,100

At this point, everything is prepped and the MTFs are awaiting transportation information. Requesting your input on the proper DMLSS issues that need to be processed if these masks are given to FEMA.

Please reply all to this email to afford proper tracking in the AFMLOC.

(b) (6)

Subject: RE: ACTION/RFI: PACAF/SG Weekly Update - 8-14 Apr (UNCLASSIFIED) - Suspense COB 16 Apr

ALCON,

The requested quantities are pre-staged ready for pick up, however nothing is happening until it is approved and we receive a MA to support FEMA's requests.

Last week JBER was tasked by JFLCC JMOC to do a risk base assessment on stock levels and projected burn rate, allocations and resupply dates. Based on the assessment, (b) (6) (MDG/CC) concluded that the quantities for JBER is an acceptable level of risk.

Please let me know if you have any questions.

Thank you

V/r

Subject: ACTION/RFI: PACAF/SG Weekly Update - 8-14 Apr (UNCLASSIFIED) - Suspense COB 16 Apr  
Importance: High

Good Morning Elmendorf and Eielson,

We received a notice below regarding FEMA asking the DoD for N95s. Can you confirm if the following is happening and if so, what the current status is?

-- 673rd MDG- 25,000 Regular N95 respirators and 25,000 Small N95 respirators (total of 50,000 N95 respirators)

-- Eielson AFB Clinic- 35,000 Regular N95 respirators and 50,000 Small N95 respirators (total of 85,000 N95 respirators)

Suspense back to us here at Ft. Detrick is COB 16 Apr.

Subject: FW: PACAF/SG Weekly Update - 8-14 Apr (UNCLASSIFIED)

AFMLOC,

Please get me what you know on the following. I have already reached out to (b) (6) to see what DHA is tracking.

5 - On 10 APR 20 FEMA submitted a request through the EPLO for 400k N95 respirators for Alaska. The AK JFLCC coordinated across the AK JOA to determine what DoD could provide out of excess service contingency stocks. The JFLCC JMOC determined that the following amounts of N95 respirators could be turned over to FEMA without detriment or increased risk to mission. (Note: Assessment based on existing stock levels, burn rates, items in mandatory allocation status and resupply to date.)

-- 673rd MDG- 25,000 Regular N95 respirators and 25,000 Small N95 respirators (total of 50,000 N95 respirators)

-- Eielson AFB Clinic- 35,000 Regular N95 respirators and 50,000 Small N95 respirators (total of 85,000 N95 respirators)

-- This still leaves AK bases and PACAF well above 100% requirement for N95 respirators.

Lt Gen Hogg,

Here is your PACAF/SG weekly update. All items are FYSA; no action required.

1 – COVID-19 Update: The theater is heavily focused on COVID-19, and remains at HPCON Charlie. Summary data from PACAF communities, as of 7 Apr, are as follows:

- 393 Persons Under Investigations (PUI), up from 354 last week
- 1,401 persons under Restriction of Movement (ROM), down significantly from 2,139 last week.
- 22 confirmed cases:
  - 10 at JBER (4 AD, 3 Dep, 3 DoD Civ)
  - 3 at Eielson (1 AD, 1 ANG, 1 Dep)
  - 3 at Osan (2 contr, 1 DoD Civ)
  - 2 at Andersen (1 AD, 1 DoD Civ)
  - 2 at Hickam (1 AD, 1 Dep)
  - 2 AD at Kadena

Please see SIPR for additional details.

2 – SGPM and SGPB assisted 15 MDG Public Health and PACAF Facility Management last week in responding to second positive case in PACAF building. Based on lessons-learned, a draft update to the "PACAF HQ Workplace COVID-19 Guidance" was developed by SGPB, and submitted to the PACAF COVID-19 OPT chaired by A3. This document is under review, and planned for release as a BSD in the next few days.

3 – WCDR Darby (RAAF and SGP) is working with PACAF/A9 to identify models most applicable to COVID-19 trends appearing in Hawaii, Alaska, Guam/CNMI, American Samoa, Japan, and South Korea.

4 – SGP, SGO, and SGX, worked with A3 planners in reviewing the Patient Movement CONOPS for USARPAC involving potential patient movement in Guam/CNMI.

5 - On 10 APR 20 FEMA submitted a request through the EPLO for 400k N95 respirators for Alaska. The AK JFLCC coordinated across the AK JOA to determine what DoD could provide out of excess service contingency stocks. The JFLCC JMOC determined that the following amounts of N95 respirators could be turned over to FEMA without detriment or increased risk to mission. (Note: Assessment based on existing stock levels, burn rates, items in mandatory allocation status and resupply to date.)

-- 673rd MDG- 25,000 Regular N95 respirators and 25,000 Small N95 respirators (total of 50,000 N95 respirators)

-- Eielson AFB Clinic- 35,000 Regular N95 respirators and 50,000 Small N95 respirators (total of 85,000 N95 respirators)

-- This still leaves AK bases and PACAF well above 100% requirement for N95 respirators.

Please let me know if you have any questions.

**IV. DESCRIPTION (Assigned Agency Action Officer)**

See Attached

Statement of Work  
 At the request of the state, as directed by and in coordination with FEMA, Dept of Defense (DOD) will provide N-95 masks in support of COVID-19 disaster operations in the state of Alaska.

Your agency must validate the unliquidated MA balance at least annually as stipulated by FEMA to maintain reimbursable authority. Accrual data must also be provided to FEMA no later than the third business day after fiscal quarter end close. Information can be submitted to FEMA-Disaster-MA-ULO@dhs.gov. For MA billing and reimbursement information, please visit <http://www.fema.gov/federal-agencies-providing-disaster-assistance>.

Amendment Number	00	Cumulative Amount \$	60,000.00	Initials:	

**\*\* Signature required for all MAs.****INSTRUCTIONS**

Items on the Mission Assignment (MA) form that are not listed are self-explanatory.

**I. TRACKING INFORMATION.** Completed by Resource Support Section or Operations staff. Required for all requests.

State: If multi-State, choose State most likely to receive resource(s), (i.e., when using 7220-SU Program Code)

Resource Request No.: Based on chronological log number. Used for tracking.

Program Code/Event No.: The pre-declaration, emergency, or major disaster number assigned for funding the event. Examples: 7220-SU, 3130-EM, 1248-DR.

**II. ASSISTANCE REQUESTED.** Completed by requestor.

Assistance Requested: Details from the Resource Request Form will provide information concerning the assistance requested.

Internal Control No.: Internal requestor reference, log, or control number, if applicable.

Initiator/Requestor: The initiator may be an individual filling out the mission assignment and making a request on behalf of the POC.

POC Name: The person coordinating reception and utilization of the requested resources. 24-hour contact information required.

**III. INITIAL FEDERAL COORDINATION.** Completed by FEMA Personnel with Delegated Authority.

Action to: May be Emergency Support Function (ESF), Recovery Support Function (RSF), internal FEMA organization, or other organization, which assigns the Action Officer.

Remainder of MA used only if solution is to request Federal agency to perform reimbursable work under (MA). Deliberate validation and verification of information must occur before MA is completed and issued.

**IV. DESCRIPTION.** Completed by assigned agency Action Officer.

Statement of Work: Detailed description of work to be performed that includes: Overview of MA, objectives, tasks, resources, personnel, deliverable, location, period of performance and comprehensive cost estimate for period of performance. Statement of Work may be attached. Additional guidance concerning the writing of a Statement of Work can be found in the Mission Assignment Guide and FAR.

Assigned Agency: Agency receiving the MA from FEMA. Activities within the scope of an ESF/RSF result in an MA to primary agency. Cite subordinate organization if applicable. Example; DOT-FAA, COE-SAD.

Projected Start/End Date: If end date is not clear, estimate and budget for 30, 60, or 90 days, then reevaluate. TBD is not acceptable; a date must be entered.

Total Cost Estimate: Enter dollar value and attach a detailed budget outlining personnel, equipment, contract, sub-tasked agency, travel and other costs. The cost estimate should include the total cost projection for the MA across the entire length of the MA. The 90 day obligation cycle is used to obligate funding in 90 day increments when completion period is expected to exceed 90 days.

**V. COORDINATION.** Completed by MAM, except for Project Manager and Comptroller signatures.

Type of MA: Select only one.

Appropriation Code: Static data. Do not change. This is for information only, should not be used to report internal agency finances to Treasury.

Reporting: MA agencies are required to provide reporting as determined by the Program Manager.

**VI. APPROVAL.** Completed by State Approving Official and Federal Approving Official.**VII. OBLIGATION.** Completed by Financial Specialist

Mission Assignment No.: Assigned in FEMA financial system chronologically using assigned agency acronym and two digit number.

Amendment No.: Note supplement number. For example: COE: SAD-01, Supp. 1, or DOR-08, Supp. 3.

Amount this Action: Taken from total cost estimate above.

Cumulative Amount: Cumulative amount for this MA, including amendments.

## OSJI-Covid / 20cv5096 (Subpoena for Work) / 8309

DOD is responsible for providing personnel and/or equipment necessary to accomplish the mission.

### ADDITIONAL NOTES from FEMA:

--- MA task orders (MATOs) may be issued by FEMA for specific requirements, personnel, location(s), date(s), and duration of assignment(s).

--- Agencies will be reimbursed for all eligible expenses pursuant to 44 CFR. Supporting documentation is required for reimbursement.

--- All equipment and supply purchases must be coordinated with FEMA. If approved, documentation is necessary to ensure reimbursement.

--- Activation of agency command center(s), if required, must be coordinated with FEMA as a separate MA.

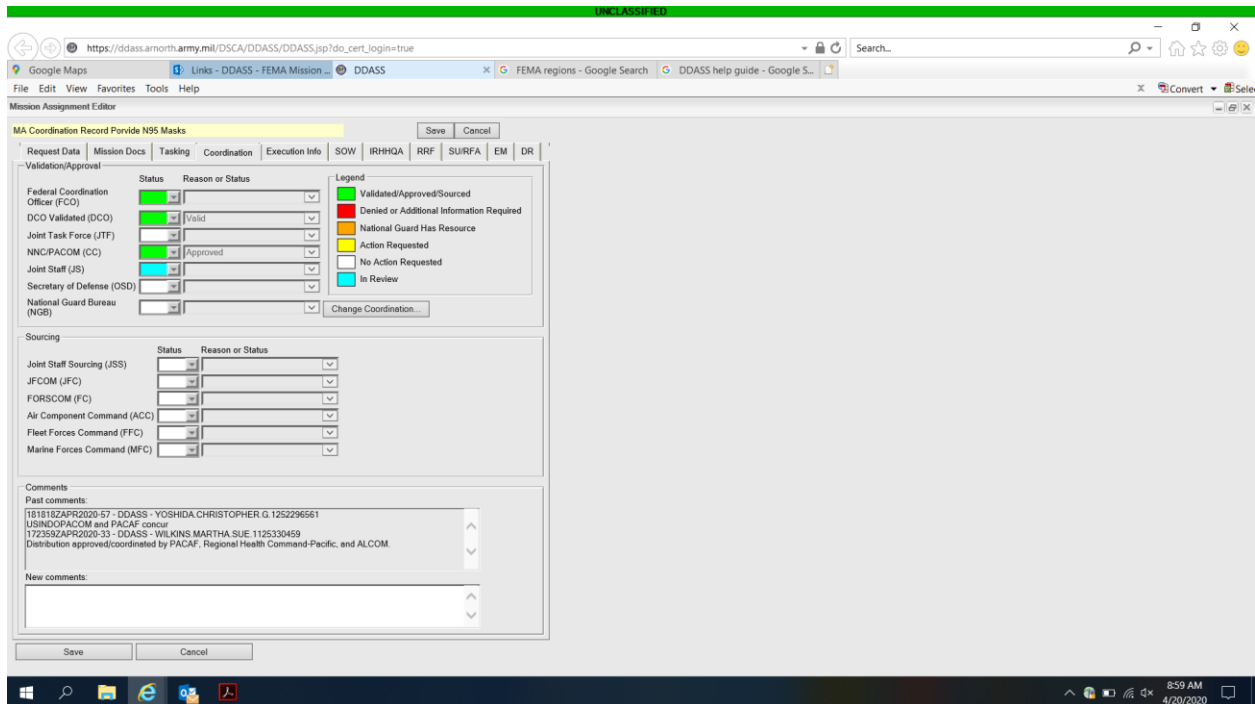

--- The mission-assigned agency is responsible for ensuring that all activity is properly authorized, goods are received, services are provided, and that costs are reasonable and supported by documentation maintained by the respective agency

--- MAs shall be considered for closure after 180 days with no financial activity in accordance with FEMA CFO Bulletin #157. For MAs still operationally open, requests for additional obligations may be withheld if no invoicing, ULO Validation, or additional justification has been provided.

20 April.

**Subject:** RE: Delivery of 10M N-95 masks under DC-20030901-DOD-08

Sir,  
  
We are tracking all of the 10M have been delivered...see below:  
  
The most recent MA was for 10M N95 respirators from 10APR. The masks were transferred to FEMA and FEMA distributed them to the following locations:

- \* Illinois: 499,200K (to the VA)
- \* Pennsylvania: 1M (to state department of health)
- \* West Virginia: 499,920K (to the VA)
- \* New York (NJ delivery): 400K
- \* Florida: 1M (to state department of health)
- \* Maryland: 1.4M
- \* Atlanta, GA: 1M
- \* Frederick, MD: 1.6M
- \* Fort Worth, TX: 1.6M

\* Tracy, CA: 1M

Hope this helps

Subject: Delivery of 10M N-95 masks under DC-20030901-DOD-08

(b) (6)

Can you confirm that DOD delivered all 10M of the masks covered by DC-20030901-DOD-08. If they have all been delivered then we can operationally close the MA. The MA ends on 24 April20

Thanks,

(b) (6)

WHO: Services and TRANSCOM  
WHAT: Ventilator inventory DEPOPSDEPS  
WHEN: Suspense 101600APR20  
CLASSIFICATION: UNCLASSIFIED

WHY: Transfer of approximately 874 ventilators ISO HHS

NLT 1600 EDT, 10 April, request Services and USTRANSCOM populate the requested unconstrained ventilator inventory numbers in the attached presentation in preparation for a DEPOPSDEPS discussion on the allocation of the remaining 874 DoD ventilators required to meet the SECDEF-directed allocation of 2,000 DoD ventilators to HHS/FEMA.

Column 1 - indicates current number of ventilators transferred to HHS/FEMA and/or in use by hospital ships and field hospital units assigned to COVID-19 response efforts.

Column 2 - request total remaining active duty ventilators in Service and USTRANSCOM inventories. This number should be unconstrained by location, intended use, or operational planning considerations.

Column 3 - of the total number provided in column 2, request the total OCONUS ventilators in Service and USTRANSCOM inventories. This number should be unconstrained by location, intended use, or operational planning considerations.

Column 4 - of the total number provided in column 2, request the total CONUS ventilators in Service and USTRANSCOM inventories. This number should be unconstrained by location, intended use, or operational planning considerations.

Once populated, this spreadsheet will form the basis for risk-informed COA recommendations that will be developed in coordination with Services and USTRANSCOM for the DEPOPSDEPS discussion.

CLASSIFICATION: UNCLASSIFIED

Good afternoon (b) (6)

Per our discussion, the JS J4 is consolidating all the information for the 2000 ventilators DoD is giving to HHS. Tracking Army sent 150 ventilators (via Sierra AD) to Travis AFB this past weekend. We need to find the shipping POC at AMC that can confirm what exactly was sent in that shipment. Just the ventilators themselves? Or was it the ventilators and associated components? And if the latter, what does that package look like?

Please forward this email, or provide a POC that is able to assist us in this matter. Thank you very much, and I hope you are staying well!

Respectfully,

CLASSIFICATION: UNCLASSIFIED  
Gentlemen,

We got this overnight from the Army with more specific data on where their vents are/ CMDs assigned to. Request that you review this and provide a no-bull number that the Army could provide without serious detriment to mission or upcoming COVID response. We will provide this information to Lt Gen Tuck today so that he may have that 3-star conversation with the SVCs and then the Chairman, so request the feedback as soon as possible.

Additionally, looking for the average price of both Hamilton and Zoll ventilators. Recognize there are multiple variations, but need to provide a price point to the comptroller for accounting purposes.

Thank you much!

CLASSIFICATION: UNCLASSIFIED

(b) (6) - queuing off a point you just made during the JATF briefing on vent circuits and filters. What I heard you say is that there is industry-wide standardization for common circuits and vents between different ventilators, but there is also an industry-wide shortfall on circuits and vents writ large.

Question - does the circuit/vent standardization also apply to the DoD vents that we are in the process of fielding to FEMA? (Zoll and Hamilton "transport ventilators" - ie are the circuits/vents for these units the same as what are used with the non-DoD vents?)

This is fast becoming a hot-button issue, as we are getting warning signals that FEMA may start requesting DoD circuit/vent sustainment support for the vents that we've issued.

Looping in MAJ (b) (6), JS Fusion Cell - FEMA, who is our direct link for DoD vents, as well as the rest of the JS J4 TF Vent team - (b) (6).

Many thanks

CLASSIFICATION: UNCLASSIFIED

Sir,

The consolidated spreadsheet can be found here:

N:\COVID-19\TF Ventilators\Vent RFI under "Final DoD Ventilator Rollup 271500APR20 pkr"

I did not include the specific types of ventilator but can if you need it. Additionally, Air Force was a bit of an outlier by including NORTHCOM with CONUS-Based numbers. The totals were not double counted.

Very respectfully,  
(b) (6)

**Cc:** (b) (6)  
**Subject:** (U) Joint Staff TF Mask & TF Vent POCs

CLASSIFICATION: UNCLASSIFIED

(b) (6) - as briefly discussed during today's JATF sync, I wanted to officially connect the dots between the key DoD N-95 Mask and Ventilators players to help synchronize efforts moving forward. The current JS role in this effort is coordinating large scale official FEMA support requests for these two commodities - namely in identifying stockpile locations, current owner (Service, DLA, COCOM, etc), and working with NORTHCOM and/or TRANSCOM for any DoD shipment requests. Note that this process entails significant coordination with the DoD commodity owners (DLA, Services) and end users (Services and COCOMs) - this is arguably where we spend the vast majority of our time and energy. Key players are:

(b) (6)

(b) (6)

For the JS Team - (b) (6) is the DoD lead for ventilator acquisition support to HHS/FEMA, while Mr. (b) (6) is doing the same for N-95 masks. Their efforts largely focus on bringing DoD acquisition resources to bear (market research, alternative solutions, contract management, etc) to assist HHS/FEMA in the large scale acquisition of these critical commodities. Great points of reference for ground truth on industrial base or acquisition questions.

Finally, (b) (6) is on the Joint Staff Fusion Cell - FEMA, and is MG McGee's designated lead to help the DoD - FEMA coordination for these two commodities. (b) (6) and his team should be the official DoD reporting arm into FEMA for these two issues, but understand that this is still a work in progress and so we're just now getting placemats published for the vents. Expect N-95 roll-ups to follow soon.

Obviously different roles, responsibilities, and focus areas for the respective teams, but wanted to bring the collective together to facilitate ease of coordination moving forward.

ASSISTANT SECRETARY GENERAL  
FOR OPERATIONS

SECRÉTAIRE GÉNÉRAL ADJOINT  
POUR LES OPERATIONS

12 May 2020  
OPS(2020)0108

*Dear Markus,*  
Dear Mr. Thomi,

The United States has offered approximately 100 ventilators to NATO to seed the development of an Alliance medical stockpile. NATO is building this stockpile in anticipation of a future wave, or waves, of the COVID19 pandemic. The stockpile will provide medical resources to the civilian populations of NATO Allied countries as well as, potentially, of NATO partner countries. The stockpile is not intended to support military medical services or operations.

I welcome this American initiative and hope to see more medical resources added to the stockpile by the United States and by other Allied countries in the weeks and months ahead. Please contact me if you have any questions.

Yours sincerely,

John Manza

Markus A. Thomi  
Director for NATO and European Affairs  
National Security Council

**Sent:** Friday, April 10, 2020 7:40 AM  
**To:** (b) (6)  
**Cc:** (b) (6)  
**Subject:** (U) need to talk vents

CLASSIFICATION: UNCLASSIFIED

(b) (6)

Imagine this...CJCS book and vents had numbers that totaled 1986???

Supposedly, some Army numbers came in, Fusion cell had no update...complete shit show at 0545...nothing that we couldn't overcome, we pulled all the data and went with 874 required to be sourced from the services.

We'll need to level set....again!!!!

I'll ensure that our night shift CMT rep engages with your team every night to set numbers. What you guys say, needs to be the gospel.

SUBJ/COVID-19 Medical Materiel Common Operating Picture (COP)

GENTEXT/REMARKS/

1. (U) SITUATION. Worldwide competition, limited industrial base capacity, and anticipated long-term global demand of medical personal protective equipment (PPE) and supplies necessitates the requirement for the Department of Defense (DoD) to maintain a COVID-19 Medical Materiel COP to ensure long-term availability to mitigate risk to force and mission.

2. (U) GOVERNANCE. In accordance with (IAW) REF A, Defense Logistics Agency (DLA) is the agreed upon sole agency responsible for the management of the COVID-19 Medical Materiel COP. The COVID-19 Medical Materiel COP is the consolidated definitive source of data for medical PPE and supplies across the DoD.

2.A. (U) The DLA's COVID-19 Medical Materiel COP produces three products; the Federal Medical Materiel COP (FM2C), the DoD Medical Materiel COP (DM2C) and the Medical PPE LOGSTAT.

2.B. (U) The FM2C includes FEMA/HHS, VA, NGB, and USCG in addition

to DOD forces to provide a Whole of Government view and tracks the on-hand (OH) inventory, Days of Supply (DOS), weekly usage, and supply chain information (ordered, shipped, backorders, estimated delivery) of the following 17 medical material items: COVID-19 test kits, exam gloves, eye protection (EyePro), gowns, N95 respirators, surgical masks, non-medical masks (cloth face coverings), ventilators, specimen collection swabs, THERMO scan items, viral transport kits, transport medium, apron/scrubs/hoods (all in 1 section), face shields, hand sanitizer, human remain pouches, and shoe covers.

2.C. (U) The DM2C provides an internal DOD view and tracks the OH inventory, medical and non-medical projections, and supply chain information (ordered, shipped, backorders, estimated delivery) of the following 6 medical material items: N95 respirators, surgical masks, gowns, exam gloves, EyePro (includes face shields), and ventilators.

2.D. (U) The Medical PPE LOGSTAT provides a holistic view (Defense Health Program (DHP) and Non-DHP funded) of the medical PPE OH inventory and requirements across each Service and Geographic Combatant Command (CCMD). The LOGSTAT depicts OH inventory, 30-Day requirements, and DOS for both operational and reserve stocks for the following 6 medical materiel items: N95 respirators, surgical masks, gowns, exam gloves, EyePro (includes face shields), and ventilators.

3. (U) REPORTING REQUIREMENTS. DLA is responsible to continually update and publish a recurring COVID-19 Medical Materiel COP with the required inputs received from Federal Government Agencies (FEMA/HHS and VA), Defense Health Agency (DHA) (DHP Funded Medical Treatment Facility (MTF) DODAACs and Pandemic Assemblage), DLA, and Services (for the medical logistics activities for operational medical unit DODAACs, and line logistics activities for non-medical DODAACs).

3.A. (U) DLA. At the direction of the Under Secretary of Defense Acquisition and Sustainment and IAW REF B and G, DLA will input, on a daily basis (excluding weekends and holidays): 1) the OH inventory for War Stopper (Government Purchased Materiel) and 2) depot inventory for the following medical materiel items: N95 respirators, surgical masks, gowns, exam gloves, EyePro (includes face shields), and ventilators and 3) the ordered, shipped, backordered, % fill, and delivery range for each of the 17 medical materiel items listed in paragraph 2.B.

3.B. (U) DHA. At the direction of the Under Secretary of Defense Personnel and Readiness and IAW REF B, D, and G, DHA will input, on a daily basis (excluding weekends and holidays): 1) the OH inventory for DHP funded MTFs and Pandemic assemblage strategic inventory and 2) 30-Day medical projection of MTF operational inventory and 3) standard allowance level for the pandemic

assemblage strategic inventory for the 17 identified medical materiel items listed in paragraph 2.B. DHA has the latitude to develop and use projections specific to the MTF health care mission, to include projections based on epidemiological models. In addition, DHA will provide the on-hand inventory and 30-day medical projection for DHP funded facilities by Service and Geographic Combatant Command for the following 6 medical materiel items: N95 respirators, surgical masks, gowns, exam gloves, eye protection (includes face shields), and ventilators. To prevent double counting, DHA will not report any inventory for Service controlled activities that are not MTFs even if they may use some DHP funds or support DHP-funded MTFs. i.e. Service medical research and development organizations and Service medical logistics organizations.

3.C. (U) Services. IAW REF B, F and G, Services are required to input "OH inventory, 30-Day Operational Medical and 30-Day Operational Non-Medical Projection" data for non-DHP funded MTF DODAACs and the total OH inventory for Service owned and managed war reserve programs for the 17 medical materiel PPE items listed in paragraph 2.B. into the OH Entry tab of the COVID-19 Medical Materiel COP. Service 4's in conjunction with their respective Surgeon Office must conduct an O-6 review to validate inputs prior to the weekly 1200 EDT Wednesday deadline.

3.C.1. (U) Services medical operational "OH" inventory will reflect Role 2 and Role 3 (or Role 1's that are generating projections not associated with a Role 2) and includes only issuable materiel contained in the MEDLOG warehouse, Supply Support Activity or equivalent. Role 2 and Role 3 examples include Army Brigade Combat Team (BCT) Medical Companies, Area Support Medical Companies, Forward Surgical Teams (FST) and Combat Support Hospitals (CSH), Air Force Expeditionary Medical Units, Navy aircraft carriers (CVN), amphibious assault ships (LHA/D), amphibious transport dock (LPD), and hospital ships (T-AH) and expeditionary medical capabilities that are deployed as a complete unit with associated materiel and Marine Corps Shock Trauma Platoon (STP) and Forward Resuscitative Surgery System (FRSS).

3.C.2 (U) Services will consolidate and report Geographic and Functional CCMD Service Component data into their COVID-19 Medical Materiel COP submission. Service are required to input data for both Service totals and their components for Geographic Combatant Commands.

3.C.3 (U) Service Components will dual report their "OH inventory, 30-Day Medical and 30-Day Non-Medical Projection" to both their respective Service and supporting Geographic and Functional CCMDs. Service Components must receive CCMD validation prior to submission to their respective Service. If Services pull data using the Joint Medical Asset Repository (JMAR) then the Service will send the report of all assigned Geographic and Functional Combatant Commands units to the Geographic and Functional Combatant Commands for

validation prior to final submission to DLA and the Joint Staff J-4.

3.C.4 (U) IAW Ref B, Services who serve as a Theater Lead Agent for Medical Materiel (TLAMM) will capture and report the "OH" inventory of the DLA owned/Defense Working Capital Fund (DWCF) and DHP funded medical materiel stored in a MEDLOG warehouse.

3.D. (U) DLA, DHA, and Services must provide a comment into the DLA Document Automated Content Server(DACS) for any increase or decrease of 15% or more in their OH inventory or 30-day medical and non-medical projection of a medical material item.

3.D.1 (U) The Joint Staff J-4 will host an AO/O-6 level working group every Thursday at 1200 EDT with the Services, CCMD, DHA, and DLA COVID-19 Medical Materiel COP representatives to review and analyze data submissions to ensure reporting accuracy.

3.E. (U) Ventilators Reporting Requirements.

3.E.1. (U) DHA. Only DHA will report MTF ventilators. DHA will report MTF ventilators both by Service affiliation (e.g. Army MTF) and geographic location (e.g. EUCOM) under column E of the OH Entry tab. DHA will report Pandemic stocks under "Pand" in column E.

3.E.2. (U) Services. Report total number of non-MTF ventilators by CCMD under column E of the OH Entry tab. Services will not report MTF ventilators, regardless of MTF's service affiliation.

3.E.3 (U) Services will break down stocks by operational and reserve per definitions on Tab 5. Underneath these operational and reserve totals, Services will report on-hand non-MTF ventilator stocks by geographic location (e.g. INDOPACOM), including both operational and reserve stocks. Services will include ALL non-MTF CONUS stocks located in NORTHCOM, regardless of operational assignment.

3.E.4. (U) USAF. USTRANSCOM will submit its numbers by geographic location (e.g. EUCOM) to U.S. Air Force for inclusion in its weekly updates.

3.E.5. (U) Ventilators physically transferred to FEMA/HSS should not be counted towards any Service or CCMD on-hand number.

3.F. (U) DLA, DHA, and the Services will submit their inputs to DLA's DACS at the following url:  
<https://www.public.dacs.dla.mil/covid/web>

3.F.1 (U) DLA, DHA, and the Services COVID-19 Medical Materiel COP representatives must contact (b) (6), DLA, at (b) (6) to ensure your personnel have auditing and viewing access.

4. (U) TERMS OF REFERENCE. IAW Ref C, the following terms of reference define the purpose and structure for the Service required inputs. Service input into the "OH Entry Tab" is required only for paragraphs 4.A,4.B,4.F, and 4.G.

4.A. (U) OH Service Operational. Value reflects total quantities for all Service-owned operational inventory. Service operational inputs reflect Role 2 and Role 3 (or Role 1s that are generating projections not associated with a Role 2) and includes only issuable materiel contained in the MEDLOG warehouse, Supply Support Activity or equivalent. Value does not include materiel issued to the customer and does not account for DHA/DHP funded MTF DODAACs.

4.B. (U) OH Service Reserve. Value reflects total quantities for Service-owned and managed war reserve materiel (WRM) inventory.

4.C. (U) OH Last Week. Value reflects the total on-hand inventory (operational and war reserve) from previous week's reporting period.

4.D. (U) OH Change. The value reflects the difference of the current reporting period total (operational and reserve) OH inventory compared to the previous reporting period (OH last week).

4.E. (U) Days of Supply. The value is calculated by dividing the total operational on-hand inventory by the derived daily projection value of the total 30 day projection (medical and non-medical) multiplied by 30 days. i.e. {Total Operational On-Hand/30-Day Projection\*30 days}

4.F. (U) 30-Day Medical Projection. The value represents the projected operational medical projection of each item for 30 days. Operational medical is defined as PPE used by operational forces for the provision of patient care.

4.F.1. (U) Medical personnel requiring PPE consists of medical patients with suspected or confirmed COVID-19 infection, individuals involved in healthcare delivery/patient care for prevention management of illness, physical and mental well-being, first responder emergency services and law enforcement personnel providing pre-hospital care, individuals conducting mortuary affairs, or transporting suspected of confirmed COVID-19 patients/contaminated remains, individuals supporting screening, quarantine, and isolation operations, medical research, testing, laboratory, and dental operations.

4.F.2. (U) IAW Ref E, Services will use the 2006 Pandemic Assemblage Calculator to compute the 30-Day medical projection for non-DHP funded MTFs. The 30-Day medical projection is calculated by:

- Eye Protection (including glasses, goggles, face shields) (Provider PPE): 1 per Health Care Provider (HCP) (issued once, can be used multiple times)
- Gowns (Provider PPE): 1 per HCP per day.
- Gloves (Provider PPE): 8 pair exam gloves per HCP per day.

- N95 Respirators (Provider PPE): 8 per HCP per day for 30 days + 20% margin of safety.
- Surgical Masks (Patient PPE): 1 per patient/Patient Under Investigation (PUI) per day.
- Variations on planning factors authorized based upon Service specific operating models and mission sets. Justification must be noted along with data entry (e.g. Navy requires more N95s & gloves on-hand while afloat versus Air Force on ground with less lead-time required).

4.F.3.(U) There are no published planning factors or CDC guidance for the additional 13 items on the COVID-19 Medical Materiel COP.

4.G. (U) 30-Day Non-Medical Projection. The value represents the operational non-medical projection of each item for 30 days. Operational non-medical is defined as PPE used by operational forces for purposes other than the provision of patient care.

4.G.1. (U) Non-medical personnel conducting missions requiring PPE consists of personnel conducting unit training operations, hazardous material handling in the Defense Industrial Base (paint, explosive handling), food service operations, base support operations (entry control, cleaning and sanitation services, crime labs and forensics, retail sales and MWR activities).

4.G.2.(U) IAW Ref F, the 30-Day projection is calculated by the Service/Service Components taking 5% of assigned forces (including contractors and civilians) to represent the eligible population and applying the following planning factors (Note: This calculation does not take into account the potential for additional geographic or Host Nation constraints):

- Eye Protection (including glasses, goggles, face-shields): 1 per service member. (Issued once, can be used multiple times)
- Gowns (includes coveralls) (Provider PPE): None required
- Gloves: 3 pair exam gloves per service member/contractor/civilian per day. (Service issued gloves may be sufficient)
- N95 Respirators (Provider PPE): 0 per service member/contractor/civilian per day. (Exception: Activities requiring N95 respirators for regulatory compliance (i.e. OSHA) will provide 30-Day projections based on discrete mission requirements.)
- Surgical Masks: Non-medical cloth mask is adequate.
- Variations on planning factors authorized based upon Service specific operating models and mission sets. Justification must be noted along with data entry (e.g. Navy requires more N95s & gloves on-hand while afloat versus Air Force on ground with less lead-time required).

	<b>GENADMIN - PPE Planning Factors</b>
<b><u>MEDICAL</u></b>	<i>Includes medical patients with suspected or confirmed COVID-19 infection, individuals involved in healthcare delivery/patient care for prevention management of illness, physical and mental well-being first responder emergency services and law enforcement personnel providing pre-hospital care, individuals conducting mortuary affairs, or transporting suspected of confirmed COVID-19 patients/contaminated remains, individuals supporting screening, quarantine, and isolation operations, medical research, testing, laboratory, and dental operations</i>
EyePro & Face Shields	1 per HCP (re-usable)
Gloves (pair)	8 per HCP per day
Gowns	1 per HCP per day
Surgical Masks	1 per patient per day
N95	8 per HCP per day
<b><u>NON-MEDICAL</u></b>	<i>Includes personnel conducting unit training operations, hazardous material handling in the Defense Industrial Base (paint, explosive handling), food service operations, base support operations (entry control, cleaning and sanitation services, crime labs and forensics, retail sales and MWR activities</i>
EyePro & Face Shields	1 per Service Member (re-usable)
Gloves (pair)	3 exam gloves per day (service Issued may be sufficient)
Gowns	Includes coveralls - None Required
Surgical Masks	Non-medical cloth mask is adequate
N95	0 per service member/contractor/ civilian per day. (Exception: Activities requiring N95 respirators for regulatory compliance (i.e. OSHA) will provide 30-Day projections based on discrete mission requirements.

4.H. (U) 60-Day Medical Requirements Projection. The value represents the projected operational projection of each item for 60 days. The 60 -Day projection is calculated by multiplying the 30 day projection x 2.

4.I. (U) 60-Day Non-Medical Requirements Projection. The value represents the operational projection of each item for 60 days. The 60 - day projection is calculated by multiplying the 30 day projection x 2.

4.J. (U) 30-Day Total Requirements Projection. The value represents sum of medical and non-medical projected operational projection of each item for 30 days.

4.K. (U) 60-Day Total Requirements Projection. The value represents sum of medical and non-medical operational projection of each item

for 60 days. The 60 - day projection is calculated by multiplying the total 30 day projection x 2.

CLASSIFICATION: UNCLASSIFIED

(b) (6) - trying to get ground truth on a variable number of Army-sourced vents from Sierra Depot currently sitting at Travis AFB.

Original number reported late last week was 142 vents from SD that were being repositioned to Hill AFB in a PTDO status. Subsequent reporting we're hearing is that Army has sourced 150 vents that are at Travis AFB in a PTDO status.

Need to get the final math right for SECDEF status reporting on where we are on the total 2000 vent requirement, and so the each's and owns matter.

I'll take whatever number you tell me as gospel and move out.

Many thanks

(b) (6) - attached is my edited version to help remove any public math confusion on overall numbers. Pending concurrence from your boss, recommend using this format moving forward.

One ask going into the weekend is to publish the contact listing for all vent stakeholders (Fusion Cell, JS J4, NORTHCOM, CMT, etc) to ensure we have tight comms for any fast movers.

Sounds like you all have a plan to sync this product with the CMT through the weekend, but when in doubt, call me day or night (cell phone below).

Thanks

**Subject:** (U) RFI 115 - COVID19 Test Instrument data call  
**Signed By:** (b) (6)

JS J4,

**All Services and NGB provide COVID-19 Test Instruments on-hand, on-order, and awaiting installation using the attached excel spreadsheet and answer the following two questions:**

Please see the footnotes addressing the calculations and addition of a column for Cepheid GeneXpert 8-modules. For the equipment on order, the numbers may need to be modified as we confirm if all orders have been accepted by vendor. Please let me know if you have any questions.

Test Instrument	ABI	ABBOTT	BIOFIRE	GENEXPERT 4	GENEXPERT 8	GENEXPERT 16	GENEXPERT 48
On Hand	8	2	66 <sup>2</sup>	0	2 <sup>1</sup>	3	0
Awaiting Installation	0	0	0	0	0	0	0
On Order	0	0	29 <sup>2</sup>	0	1 <sup>1</sup>	0	0
Total	8	2	95	0	3	3	0

**1. Describe how they calculated their requirements so we can see their math.**

Footnotes:

- GeneXpert XVI (16) systems, however location currently only has 8 modules available/operational
- Includes FilmArray 2.0 (1 test/run) and BioFire Torch systems that range from 2-12 modules. Counted each module as a system.

**2. Describe any other constraints which they anticipate may affect their ability to accomplish required testing, or other supply chain LIMFACS we should address**

AF MTFs have experienced limited ability to purchase required reagents and COVID-19 kits to perform testing. Sites that have equipment, have limited or no supplies due to manufacturer stating they are not able to fulfill for various reasons. Additionally, some sites have not been able to purchase testing instruments to bring testing online. Those that have ordered equipment, have been told analyzers are not projected to be shipped for

4-6 weeks due to high demand for molecular testing platforms and some companies stating that equipment sale is being prioritized at higher levels of government to determine where equipment goes.

**Subject:** (U) Test Kit Sync

CLASSIFICATION: UNCLASSIFIED

(b) (6) – Lt Gen Tuck received some additional E-Ring guidance today to include test kit requirements/inventories on the new PPE COP that is being rolled out to SECDEF tomorrow for follow-on weekly reporting.

I’m the lucky JS J4 recipient of said tasking, and so I wanted to sync with you to see what the DHA fruits of labor on all things test kits have borne to-date. Preaching to the choir, I know, but obviously reporting test kit inventories isn’t as simple as it sounds given the various components that go into a testing capability (machines, labs, collection kits, test kits, extraction kits, etc).

I’ve cc’d the smart folks that will be helping me with this effort – expect that we’re going to try to have the first product cut ready for next week’s update, depending on what the state of play is from your end.

Please give me a shout when you get a free second – not trying to put any additional workload on you or your team. Just want to leverage what you already have and not duplicate efforts.

Thanks

**Subject:** (U) Vent Reporting Sync

CLASSIFICATION: UNCLASSIFIED

Folks in the "to" line - we owe a daily Vent placemat as a feeder into the CMT for the CJCS daily briefing book. The JS Fusion Cell (b) (6) placement is THE authoritative source that we will continue to use, and so I just want to put in writing that we collectively own the daily validation and submission of said product.

Folks in the "cc" line - please repeat that verbatim to CMT leadership to prevent any further reporting confusion on vent numbers. When in doubt, call one of us for the final answer.

Thanks

V/r,

**Subject:** (U) Vent RFIs

CLASSIFICATION: UNCLASSIFIED

Peep - here's a recap of the vent RFIs we need to run down ASAP:

- JSSG assessment of Army vent numbers to determine which quantities/units are most likely readily available to pull from without impacting force readiness
- Linkage with AFSG to get ground truth on number of AF vents that could be made available. Official AF RFI response is still 100, but DJ4 had a conversation with AFSG last week, where an additional 300 vents were offered via VOCO. Have not heard that number repeated again since.
- Official AF status of the 100 vents in San Antonio. As of last Friday, 50 were in a PTDO status, with the remaining 50 projected to be ready within 24-48 hours. As of yesterday they were still only reporting 50 as ready.
- Best swag estimate of the number of vents that would be deployed with the AF field hospital that is being queued for deployment. AF would get credit for whatever that number is - just need to get fidelity for future reporting.
- Finally, average price per unit of the Zoll and Hamilton vents. Comptroller and policy folks are starting to dig into how we need to account for these things, and trying to get them some basic planning factors.

As with everything these days, short-fused response requested, as we need to get the final 831 vent sourcing solution tee'd up for decision by COB today.

Thanks

CLASSIFICATION: UNCLASSIFIED

Ma'am - wanted to level set based on the afternoon flurry so that everyone knows what they are walking into tomorrow morning.

- DJ4 pushed up to VCJCS/DJS the current vent laydown (1138) and the planned way ahead for the 862 vent delta. Received and no pushback.
- CMT pushed out a hot RFI to Services to ID existing vent inventories (location and material condition) - 1600 6 Apr suspense. Next step is directing the PTDO for 862 based on the Service inventories.
- JS COVID Fusion Cell notified us that 300 vents were moving from Maguire to FEMA-directed locations in NJ. DJ4 went into crisis management mode and confirmed with MG McGee, VJ3, and NORTHCOM J3. Turns out the request came through formal FEMA-NORTHCOM channels and was approved via the COVID TF within SECDEF delegated authorities. (DJ4 will look to deconflict the C2 lines based on this - still much confusion) Waiting on anticipated distro locations to have for the 0730 CJCS update. (Will push to the JLOC when I receive and they will compare notes with NORTHCOM JLOC for the morning update)

CLASSIFICATION: UNCLASSIFIED

Sir - below is the current breakdown of vent allocation:

- Maguire - 508 (USTC)
- Travis - 150 (Army) - PTDO
- USNS Mercy - 145 (Navy)
- USNS Comfort - 98 (Navy)
- Field MTFs - 168 (Army)
- San Antonio - 100 (AF) - PTDO

Total fielded = 1169

Same math, by Service/COCOM:

- Army = 318
- Navy = 243
- Air Force = 100
- USTC = 508

Remaining problem to be solved = 831

Initial cut at the Service response to the vent RFIs is status quo from what we thought we already knew. Air Force did not offer up their additional 300 that they had previously discussed with you, and the Army stocks are still largely scattered.

Recommended COA:

- Air Force = 300 (of which, they could subtract necessary vents for their field hospital)
- Army = 531

USTC available vents (400 as per yesterday's discussion) would be on ready reserve to support potential DoD COVID AE requirements.

Attached is the rough consolidated roll-up of the RFI responses, FYSA. Still working with the JLOC/CMT to sync these numbers, but doubt they will change too drastically.

CLASSIFICATION: UNCLASSIFIED

**FACT SHEET****SUBJECT:** Medical Ventilators**BACKGROUND:**

- Machine designed to provide mechanical ventilation by moving breathable air into and out of a patient's lungs.
- In growing demand to treat COVID-19 patients who require assistance or are physically unable to breath.
- Price ranges from \$12,000 for CONUS delivery to \$19,000 OCONUS

**DISCUSSION:**

- Troop Support Medical has a Readiness contract with Zoll Medical to provide ventilators.
  - Time-phased delivery schedule for 1,200 units.

SHIPMENT DAY AFTER RECEIPT OF ORDER	AWARD QTY 1,200 UNITS	600 WITH CASE/600 WITHOUT
DAY	QUANTITY WITH CASE	QUANTITY WITHOUT CASE
5	20	20
15	180	180
30	200	200
45	200	200
TOTAL	600	600

- Two configurations: Air Force (without case) and Army.
  - Latest Zoll delivery schedule:
    - Deliver 1,200 within 45 days per contract terms indicated above.
    - Another 800 units within 45-75 days after order.
    - Additional 400 units every 15 days after that.
    - Vendor's contract includes consumables.
  - Delivery orders issued 3/26/20 to Zoll Medical:
    - SPE2D1-20-F-Z001 against contract SPE2D1-17-D-0043. The total amount was \$25,602,549.00 for a quantity of 2,100 at a unit price of \$12,191.69.
    - SPE2D1-20-F-Z002 against contract SPE2D1-19-D-0011. The total amount was \$4,903,920.00 for a quantity of 400 at a unit price of 12,259.80.
  - Contingency contract SPE2D1-D-0043: Maximum value \$30.7 Million; Amount remaining after issued orders - \$3.1 Million.
  - IDIQ contract SPE2D1-19-D-0011: Maximum value \$800 Million; Amount remaining after issued orders is greater than \$700 Million.
- Troop Support has long-term contract with Draeger Medical; items available via Electronic Catalog (ECAT) Program.
    - Lead time for ventilators is 16-18 weeks and growing.
    - Vendor has orders from VA for 1,500 units and German government for 10,000.

- Draeger has over the years sold 500 anesthesia machines to the military and they can function as ventilators if need be.
- Vendor’s contract includes consumables.
- Unit price for Draeger Medical Model Evita V500 is \$18,236.32
- IDIQ contract SPE2D1-14-D-0004: Maximum value \$600 Million with greater than \$400 Million remaining.
  
- Troop Support has long-term contract with Hamilton Medical; items are available via ECAT.
  - Currently producing ~2,000 ventilators per month, double their normal production.
  - Estimate it can provide ~500 units per month to DLA while meeting commercial commitments.
  - Vendor contract includes consumables.
  - Vendor strongly recommends we place an immediate order.
  - Hill AFB has placed 13 separate orders for 14 units each via ECAT in the past 2-3 weeks.
  - Delivery order issued 3/26/20 to Hamilton Medical:
    - SPE2D1-20-F-Z003 against contract SPE2D1-19-D-0021. The total amount was \$21,631,586.88 for a quantity of 1,312 at a unit price of \$16,487.49.
  - IDIQ contract SPE2D1-19-D-0021: Maximum value \$150 Million; Amount remaining after issued orders is greater than \$100 Million.
  
- DLA Troop Support has a Distribution and Pricing Agreement (DAPA) with Vyaire.
  - In two weeks, vendor can begin shipments, 500, within 90 days, remainder TBD.
  - Vendor’s contract includes some consumables, but some sourced to China.
  - Floor stand/extended battery and mount must be purchased separately.
  - Unit price for Model LTV 1200 is \$11,500.37.
  
- DLA Troop Support has two long-term contracts with Combat Medical, the distributor for AutoMedx ventilators.)
  - Production schedule:
    - Vendor accepted HHS order for 10,000 units.
    - Delivery to DoD: 10 units in 2 weeks; 10 per week for 10 weeks; 20 per week from week 11 through 16; 2,000 units within 17weeks.
  - Vendor’s contract includes some consumables, in the process of adding important filter.
  - Units available via ECAT Program.
  - Unit price for Model SAV II is 6,494.86.
  - Contingency contract: Maximum value \$36.4 Million; Amount remaining \$33.4 Million
  - ECAT IDIQ contract: Maximum value \$43.4 Million; Amount remaining \$42 Million
  
- Must buy some consumables with units to make them usable upon delivery; some consumables are single patient use.
  
- Working with vendors to determine if they can store their products and prioritize delivery.
  
- DLA Troop Support continues to investigate other sources of ventilators.

RECOMMENDATION: None: For information only.

CLASSIFICATION: UNCLASSIFIED

Good afternoon Sir,

We are running to ground the number of ventilators at the DoD MTFs and would like your chop on these. Reference highlighted portions on pages 8 and 9 on the attached document, but NORTHCOM reported the following numbers:

New York  
531st and 9th FHs - 84 beds with vents

Seattle  
Century Link OH - 26 beds with vents  
627th Hospital - 100 beds with vents

Can you confirm from this report that these would increase the number of MTF ventilators from 168 to 210? Are we missing anything from your perspective? Thank you much!

Gretchen

## USNORTHCOM COVID-19 Theater Update – 5 April 2020

### Commander's Executive Summary

Our top priority is the rapid employment of forces and medical capabilities to New York City, New Jersey and Connecticut.

We continue to deploy assets to increase capacity at the Javits Center and throughout New York City. The currently established 703-bed capacity at the Javits Center is treating 28 patients, 26 of whom are in COVID convalescent beds. We are anticipating another large group of patients throughout the evening. With the 8 Apr arrival of an additional EMF, 1000 beds will be staffed by DoD medical teams. The arrival of the 4 USAR Urban Augmentation Medical Task Forces (UAMTFs) on 10 Apr will bring the total number of beds staffed at the Javits Center up to 1750. In addition to the Javits Center support, additional teams of 325 USN and USAF individual augmentees began arriving today to reinforce 11 hospitals throughout New York City. We are treating 29 patients (1 COVID positive) aboard USNS COMFORT. An additional 4 UAMTFs are available on 7 Apr to deploy to New Jersey (3 UAMTFs) and Connecticut (1 UAMTF) to reinforce local medical facilities. The remaining 7 UAMTFs are being considered by FEMA for the locations with the greatest need.

The Seattle CenturyLink Events Center achieved IOC on 4 Apr and is ready to receive patients in the 124-bed facility (24 intensive care, 60 intermediate care and 40 minimal care). The CenturyLink Events Center will be FOC on 7 Apr with a 250 bed capacity. The Morial Convention Center in New Orleans is on schedule for IOC for 6 Apr and FOC by 10 Apr with 274 beds. The Kay Bailey Hutchison Center in Dallas remains ahead of demand and is able provide a 200-bed capacity as early as 6 Apr, pending final HVAC airflow mitigation work. USNS MERCY received 3 patients in the last 24 hours and is treating a total of 11 patients, 2 of whom are in the ICU.

We are building capacity to perform multiple JRSOI missions while continuing to validate BSIs at Homestead ARB (FL) and Robins AFB (GA) which aligns with FEMA's hot spot projections. We have expanded analysis on the East Coast to include Horsham Air Guard Station (PA), Andrews AFB (MD) and Marine Corps Base Quantico (VA) as potential BSI locations in anticipation of emerging requirements.

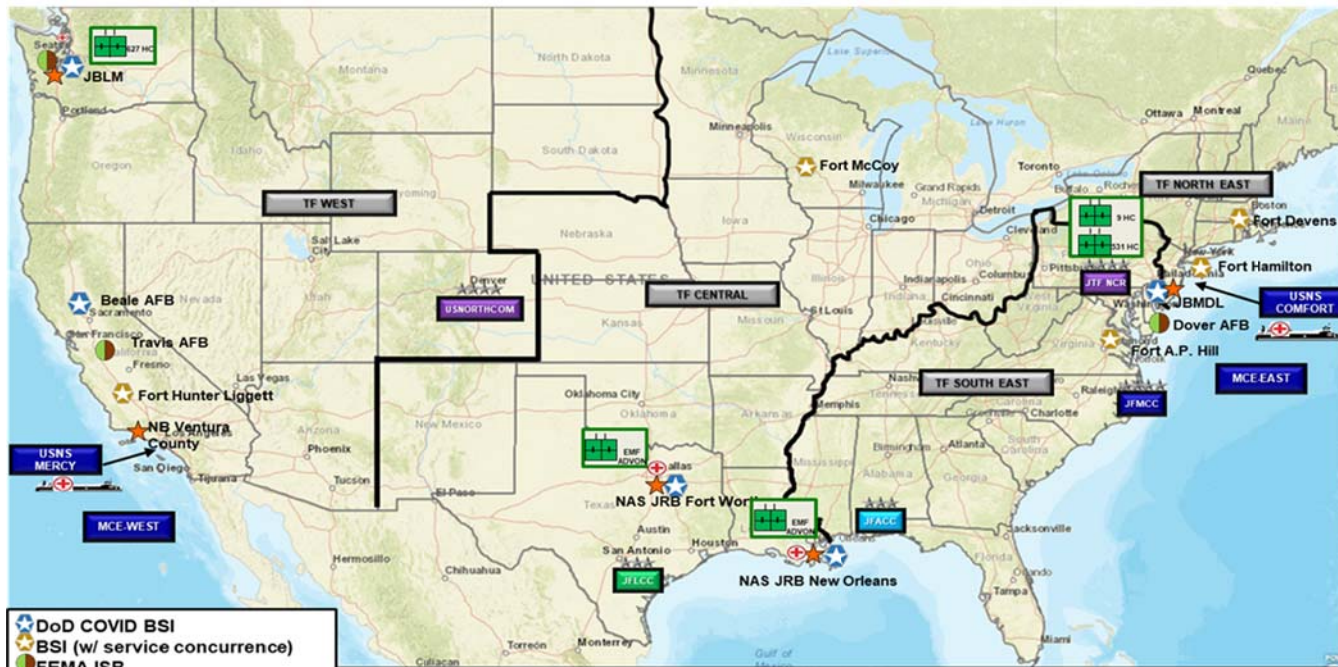

We have shipped 325 Apple iPhones to our front line deployers going to New York City and the Javits Center. These devices come with NORTHCOM applications to facilitate connectivity in the distributed operations environment of the NYC hospital system, and will allow us to send group messages to the deployed force, to monitor their location and personal health conditions. This is the first step in a broader effort to field devices throughout the COVID response force to enhance synchronization efforts. This speed of needed delivery was made possible due to the superb collaboration between Apple, USNORTHCOM and the JAIC.

# 1. CCDR’s Guidance

## CCDR Priorities

1. **Protect Our Force and Families**
2. **Defend the Homeland**
3. **Conduct COVID-19 Response Ops**

## Focus Areas

1. **Protect the Force/Families and Protect Mission Readiness (Mission Assurance)**
  - a. Mitigation Measures at HQ, Components, and Fielded Forces
  - b. Testing – including Fielded Forces
2. **Set the Theater**
  - a. Logistics Structure – Medical Supplies, PPE, and Testing
3. **Deploy and Employ COVID-19 Response Forces**
  - a. USNS MERCY (LA)
  - b. USNS COMFORT (NYC) – (Onboard Patients)
  - c. Javits Center FMS (NYC) - Expedite Transition to COVID Positive Facility
  - d. CenturyLink Events Center FMS (Seattle) – Achieve IOC ASAP
  - e. Kay Bailey Hutchinson Center FMS (Dallas)
  - f. Earnest M. Morial Convention Center FMS (New Orleans)
  - g. Mortuary Affairs (NYC)

<u>Prioritized Lines of Effort</u>
LOE 1 – Mission Assurance for HD
LOE 2 – COVID-19 response ops
LOE 3 – Coordinating authority for global pandemic planning
LOE 4 – Support Interagency SWB ops

### **CCDR Intent**

- **Purpose:** USNORTHCOM operations assure our ability to defend the homeland, while actively supporting the COVID-19 whole-of-nation effort.
- **Mission:** USNORTHCOM defends the homeland, ensures DOD mission assurance, and conducts military operations within the National Response Framework to mitigate COVID-19 impacts.
- **Method:**
  - USNORTHCOM rapidly executes Phase 3 (Respond) that focuses on protecting families, mission assurance, and support to the interagency while executing essential HD tasks.
  - Balance all four focus areas to ensure the readiness of the Joint Force and preserve unique DOD capabilities. USNORTHCOM will support NRCC for all COVID- 19 response operations.
  - Maintain efforts towards Global Campaign Plan Pandemic Influenza and Infectious Disease (GCP PI&ID) planning with other CCMDs, and remain nested with OSD, JS, and interagency lines of communications.
  - **Next 24 - 72 hours:** Posture for national level DSCA ops with FEMA and continue mission assurance mitigation efforts with Components. JRSOI and employ forces flowing into NYC, NJ, and CT and rapidly expand Javits Center. Posture for impending FEMA requests for remaining UAMTFs and potential MERCY re-assignment.
  - Continue to refine NORTHCOM’s Battle Rhythm and “Major Efforts/Locations” planning with the Services.

## 2. Component Update

### JFMCC

#### Major Effort:

JFMCC continues to deliberately set the Theater in a rapidly evolving environment by continuing to build the Joint Team and sustaining current operations while looking out to identify future requirements. JFMCC continues medical operations in New York (MCE-E) and Los Angeles (MCE-W).

- Operations, Actions, Activities (OAA):
  - TF Los Angeles (TF LA) – MER moored; receiving patients
  - TF New York (TF NYC) – CFT moored; receiving patients
  - EMF deployed to Fort Worth, TX and New Orleans, LA
  - NEPLO Operations – 56 NEPLOs deployed ISO activated DCOs
  - RC activation and support
  - TF-Dallas prepared to accept patients before 6 APR.
  - TF-NOLA preparing for 6 APR IOC

#### Recent Engagements:

- USNS Mercy Media Engagements – 04 APR:
  - Atherton Hill Podcast with HM1 McGarlane, USN
- USNS Mercy Media Engagements – 05 APR
  - NSTR
- USNS Comfort Media Engagements – 06 APR
  - (T) 1030 – Daily update call, CO & CDRE
  - TBD – WINS-AM Radio
  - 1400 – KDKA-TV, XO
  - 1430 – NPR Science, CO
  - 1530 – WXBS Skype, CDRE
  - 1915 – CNN, Wolf Blitzer, CO

#### Future Operations:

- Navy individual augmentees to reinforce NYC hospitals; 3rd EMF deploying to support NYC

#### Challenges:

- NSTR

#### Assistance Needed:

- NSTR

**USNS MERCY**

**Mission:**

- Provide surge medical capacity to Los Angeles area
- 1000 patient bed max including 80 ICU beds, 20 post-anesthesia beds
  - 11 isolation beds and 389 open bay medical-surgical beds
  - Additional 500 "minimal care" berths (litters stacked 4-high)

**Current Operations:**

- **Authorized Medical Allowance List (AMAL).** Expect continuous deliveries
- Location: Moored port side at Pier 93, Los Angeles, CA
- Number of crew on board: 76 CIVMARS / 186 Enablers (CE & Security)
- Medical crew onboard: 996 (43 Drs, 5 nurse practitioners, 131 nurses, 35 medical professional officers, 774 enlisted medical, 8 respiratory therapists)
- Current beds: 9 beds filled / 920 capacity
- Beds with vents: 1 filled / 70 capacity
- ICU capability: 2 filled / 80 capacity
- Ventilators on-hand: 145
- 3 patients received last 24 hours
- Total Patients "encounters": 22
- 6 enlisted personnel quarantined
- Logistics issues: NSTR
- Concerns / issues: 1 of 2 oxygen generators NMC, currently 50% oxygen-producing capability, no impact to current ops, expected to be fully operational in next 24 hours
- Intentions: Continue sustained patient intake, maintain COVID bubble

**Future Operations:**

- Continue intake of patients

**USNS COMFORT**

**Mission:**

- Provide surge medical capacity to New York City metropolitan area
- 1000 patient bed max including 80 ICU beds, 20 post-anesthesia beds
  - 11 isolation beds and 389 open bay medical-surgical beds
  - Additional 500 "minimal care" berths (litters stacked 4-high)

**Current Operations:**

- **AMAL.** Expect continuous deliveries, pier side
- Location: Moored to Pier 90, New York City, NY
- Number of crew on board: 80 CIVMARS / 29 Enablers (CE & Security)
- Medical crew onboard: 1031 (43 Drs, 10 nurse practitioners, 134 nurses, 66 medical professional officers, 768 enlisted medical, 10 respiratory therapists)
- Current beds: 15 beds filled / 920 capacity
- Beds with vents: 1 filled / 52 capacity
- ICU capability: 14 filled / 80 capacity
- Ventilators on-hand: 98
- 10 patients received last 24 hours
- Total Patient "encounters": 38
- Logistics issues: NSTR
- Concerns / issues: NSTR
- Intentions: Continue sustained patient intake, maintain COVID bubble
- **USNS COMFORT medical staff will not treat COVID-19 infected patients unless a patient subsequently tests positive once on board and under care.**

**Future Operations:**

- Continue intake of patients

## JFLCC

### **Major Effort:**

The JFLCC's top priority is the rapid integration of medical capabilities into NYC. Chicago, NOLA, and Detroit are possibilities for future support, with the potential for other locations in FL, TX, CO, and AZ.

### **Future Operations:**

- Begin deployments of eight Army Urban Medical Task Forces – 4 to Javits Center; 3 to New Jersey, and 1 to Connecticut

### **Recent Engagements:**

- **Last 24 Hours:**
  - 1430 EST - New York Times interview with BG James M. Smith, Commander, 3<sup>rd</sup> Expeditionary Sustainment Command,
    - Discuss Mortuary Affairs mission
- **Next 24 Hours:**
- TF NE is planning a “Fox and Friends” interview via Skype with MG Hall and other SMEs
- JFLCC Media Operations Center staff are preparing press release with updates on COVID-19 response operations

### **Challenges:**

- Building the JFLCC to meet operational demands and C2 of the Theater
- Joint Manning Document for sustained COVID-19 Campaign

### **Assistance Needed:**

- Continued support with COVID-19 BSI nominations for T10 quarantine / isolation and Medical Support

<b>Federal Medical Station - NY</b>
-------------------------------------

**Current Operations:**

- Javits Center's capability increased today to being able to take 340 x Patients
- Deploying medical capability for employment follows:
  - Tranche #1 - AF & Navy Augmentees: 104 x Doctors, 208 x Nurses, 13 x Respiratory Therapists will arrive at JBMDL for JRSOI 5-6 APR, and then flow into NYC for integration into the 11 x Public NYC Hospitals.
  - Tranche #2 - Navy EMF: 50 x Doctors, 102 x Nurses, 6 x Respiratory Therapists will arrive to JBMDL for JRSOI 5-6 APR, and then flow into NYC for integration into the Javits Center.
  - Tranche #3 - USAR Urban Augmentation Medical Task Forces (UAMTFs): 8 x UAMTFs will be tasked to the NY region, they will flow to JBMDL for JRSOI o/a 7 APR and receive their follow-on assignments.
- Javits Center, NY: (Patient / Bed Count combined for the 531<sup>st</sup> FH and the 9<sup>th</sup> FH)
- 4 APR postured forces at Javits to begin treatment of COVID positive patients
  - Current beds: 8 filled / 703 capacity (1000 capacity)
  - Beds with vents: 0 filled / 42 capacity (84 capacity)
  - ICU capability: 2 filled / 46 capacity (48 capacity)
  - 22 patients received last 24 hours, 22 Total since start of mission
  - 8 suspected COVID+ patients, 3 confirmed
  - Total Patient "encounters": 33
- 531<sup>st</sup> Hospital Center from Ft Campbell, KY to JB McGuire - Dix - Lakehurst (JBMDL), NJ / Javits Center (ISO FEMA in NYC).
  - 148 bed capacity (48 ICU / 100 ICW)
  - Medical members: 125 (27 DRs, 57 nurses, 24 med techs, 13 ancillary services, and 4 respiratory therapists)
  - IOC: 31 MAR
  - FOC: 4 APR (pending local certification)
- 9<sup>th</sup> Hospital Center from Ft. Hood, TX to JB McGuire - Dix - Lakehurst (JBMDL), NJ / Javits Center (ISO FEMA in NYC).
  - Medical members: 200 (43 DRs, 2 nurse practitioners, 134 nurses, 3 med techs, 14 ancillary services, and 4 respiratory therapists)
  - IOC: 1 APR
  - FOC: 4 APR
- 54<sup>th</sup> QM CO 49 total PAX to NYC 2 Apr 20, supporting / augmenting civilian medical staff, under Medical Examiner's Office (Brooklyn, Queens, Manhattan)

**Future Operations:**

- 4 x UAMTFs will work in the Javits Center, 3 x UAMTFs will work in NJ (location TBD), and 1 x UAMTF will work in CT (location TBD).
  - The assignment for the remaining 7 x UAMTFs will likely be determined on 6 April; they're not expected to go to NY.

**Federal Medical Station - Seattle**

**Current Operations**

- CenturyLink Patient / Bed Count
  - Current beds: 0 filled / 100 available (172 capacity)
  - Beds with vents: 0 filled / 25 available (26 capacity)
  - ICU capability: 0 filled / 24 available (48 capacity)
  - 0 patients received last 24 hours
- Assumed TACON of DCOs in Regions VIII-X
- 627<sup>th</sup> Hospital Center, from Ft Carson, CO to JB Lewis - McChord (JBLM), WA / CenturyLink Field (ISO Seattle) - (augmented by 47th Combat Support Hospital from JBLM) (ISO FEMA Seattle)
  - Medical members: ~ 128 (26 Doctors, 59 nurses, 4 respiratory therapists
  - 26 med techs, 13 ancillary services)
  - Current beds: 0 filled / 148
  - Beds with vents: 0 filled / 100 capacity
  - ICU capacity: 0 filled / 48 capacity
  - 0 patients received last 24 hours
- IOC: 31 MAR, expect FOC: 6 APR
- 47th Combat Support Hospital from JBLM - to CenturyLink Field, WA - augmenting 627th HC
  - Medical members: ~ 132 (28 DRs, 60 nurses, 4 respiratory therapists, 27 med techs, 13 ancillary services)
  - IOC: 01 Apr 20
  - FOC: 6 Apr 20

**Future Operations:**

- 250 beds expected by 6 APR
- First patient expected 8 APR; TF West pushing for sooner (on track to be FOC 6 APR; not COVID-19 designated)
- Continue to work contracting issues for meals at the CLEC
- Navy Base Ventura County, CA and JBLM set up BSIs in order to provide 40 rooms that meet CDC specifications for isolation of DOD personnel supporting USNORTHCOM COVID response operations who are COVID-19 exposed, symptomatic or test positive.

**Expeditionary Medical Facility - Dallas**

**Current Operations:**

- Expeditionary Medical Facility (EMF) Dallas is set to support and receive patients 6 Apr

**Future Operations:**

- NSTR

**Expeditionary Medical Facility - New Orleans**

**Current Operations:**

- Ernest M. Morial Convention Center in NOLA to assist staffing of ~ 500 Federal Medical Station beds (main body deployed 1 APR, IOC 2 APR)
- ADVON (4 PAX) arrived 30 Mar 20 at NAS - JRB Orleans
- 1 APR: EMF, C-40 (53 PAX), NAS Jacksonville to NOLA
- 4 APR: EMF (60 PAX) wheels down in NOLA at 1705Z 04 APR
- Pending bed count that medical staff can handle
- Currently no MA enabling employment of the EMF; MA expected to be in staffing on 6 APR

**Future Operations:**

- NSTR

## JFACC

### **Major Effort:**

JFACC focus is on supporting JRSOI of the tasked 125 personnel AFRC medical professionals and activation of the 64<sup>th</sup> AEG, sustaining the readiness of the ACA enterprise and supporting the standup of additional BSI/ISBs in support of JFLCC's scheme of maneuver.

### **Current Operations:**

- Operations, Actions, Activities (OAA)
  - 64<sup>th</sup> AEG: Activated and executing OPCON of the 7 member 64<sup>th</sup> AEG.
    - Providing ADCON of the AFRC medical professionals (125 members) who will be working in several NYC hospitals.
    - Next AEG is TBD, pending guidance on AF Demand Signal from JS & USNORTHCOM on DOD support to the next declared Hot Spot
  - AFRC Medical Professionals: JRSOI continues for the AFRC medical professionals (41 medical officers, 71 nurses, and 13 respiratory therapists).
    - AEG support at JBMDL is facilitating their in-processing movement to NYC through 6 APR
    - USAFR medical personnel are OPCON to JFLCC and in support of TF NE
  - Contingency Contracting Team (CTT): ADCON of CTT movement to Ogden, UT
  - EPLOs: 44 EPLOs (-3) deployed in support of State EOCs, RRCCs, NRCC, and AFCAT
  - JACCE: NSTR
  - 320<sup>th</sup> AEW: 35/38 personnel in-place
    - Unit remains in a 14 day quarantine period and will execute White House Screening in support of JTF-NCR when completed
  - Copan Test Kit Flights: Coordinating with the DATT on getting waivers from the Italian Ministry of Health's current flight restrictions on all inbound flights to Italy and do not expect any delays
  - FAA Status: NSTR

### **Future Operations:**

- Focused on execution of COMCAM duties in support of JFLCC's scheme of maneuver, specifically supporting the additional sourced 125 member medical team.
  - C-130 RFF: NSTR
  - Airlift: Tracking AFRC's grey tail movements of medical personnel from multiple locations to JBMDL
  - Combat Camera (COMCAM): NSTR
  - DIRMOBFOR: NSTR
  - 9th AF Coordination: NSTR

- CAP/AF AUX: AF AUX continues supporting 17 states with 26 approved AFAMs (+1) under service authority T10 support to state and local test kits, PPE, ventilators & food, and school lunch distribution
  - Flown 25 sorties (7 Federal / 18 State)
- Contingency Contracting Team (CTT): NSTR
- iPad Pilot Program: NSTR
- Future Planning Cell (FPC): NSTR
- Mitigating operational impacts to the CONR enterprise from COVID-19 by leveraging data analytics and best practices to make informed predictive analysis on the readiness across CWDS elements

**Recent Engagements:**

- NSTR

**Challenges:**

- NSTR

**Assistance Needed:**

- NSTR

**ALCOM**

**Major Effort**

Continue setting the theater for potential DSCA with JFLCC-AK while protecting the force.

**Current Operations:**

- Focus / Priorities: Focus remains on understanding the threat, being proactive, and maintaining situational awareness of state and local agencies as they posture to respond to the crisis.
- Operations, Actions, Activities (OAA): Awaiting feedback from US Army Pacific regarding the request for a 2-Star task force headquarters
  - Continue to remain in close coordination with MG Andrysiak and our teams continue parallel planning

**Future Operations:**

- Focus / Priorities: Focused on setting conditions for a seamless transition into action, if needed.
- Operations, Actions, Activities (OAA): On Tuesday, the Commander will receive a back-brief from US Army Alaska detailing their plan to execute DSCA as ALCOM's JFLCC, if T10 forces are tasked in Alaska.

**Recent Engagements:**

- NSTR

**Challenges:**

- NSTR

**Assistance Needed:**

- NSTR

**Joint Task Force – National Capital Region (NCR)**

**Major Effort:**

Reassessing the current mission assurance posture for contingency forces and initial operating forces. Continue developing options, such as sequestering formations at Fort AP Hill, to mitigate the risk to the force and risk to critical missions.

**Current Operations:**

- NSTR

**Future Operations:**

- Continue engagement with interagency and DOD partners to shape emerging RFAs and to set conditions to support if directed

**Recent Engagements:**

- JTF-NCR Commander engagement with Mr. Tom Muir, Director, Washington Headquarters Services (WHS)
  - Key outcomes included adjacent unit coordination between the Pentagon Complex and JB-MHH Garrisons

**Challenges:**

- NSTR

**Assistance Needed:**

- NSTR
  - JTF-NCR CDR conducted a weekly teleconference with Virginia and Maryland National Guard TAGs and DC National Guard CG.
  - JTF-NCR DCOM and staff participate in multiple, existing interagency forums to ensure common awareness and anticipation of potential requirements across the NCR.
  - FEMA NCR Director participates in JTF-NCR O&I

## Operations

### Current Operations:

- Mission Assurance status for all USNORTHCOM priority capabilities remain Green
- EMF Teams in New Orleans and Dallas:
  - New Orleans: establishing operations, will begin receiving patients on 6 APR
  - Dallas: establishing operations, FOC unknown
- USNS Mercy: operational/receiving patients
- USNS Comfort: operational/receiving patients, 4 of 5 COVID-19 positive patients returned to Javits Center
- 54<sup>th</sup> QM Mortuary Affairs Platoons integrated with NYC Office of the Chief Medical Examiner
- (3) Army Field Hospitals in NY and Seattle on track:
  - 531<sup>st</sup> & 9<sup>th</sup> HC JAVITS – Operational, receiving patients
  - 627<sup>th</sup> under construction and on track for 7 APR FOC
- Reserve component medical capabilities:
  - USAF/USN individual to NYC; JRSOI at JBMDL today; FEMA to determine distribution of teams to 11 hospitals
  - Reserve EMF deploying to NYC today and tomorrow; JRSOI at JBMDL, employment at Javits Center; third EMF on PTDO
  - 8 x UAMTFs: Available 7 APR; deploying 4 x Javits Center, 3 x NJ, 1 x CT
- Next expected allocation: AFRES Theater Hospital, USA Field Hospital, USN EMF (#3)
- SWB COVID-19 expanded operations sourced (4 x USA, 1 x USMC COs); TRANSCOM supporting deployment on 6 APR
- Mission Assignments/Requests for Assistance: 53 in various stages

### Future Operations:

- Accountability of individual medical deployers and UAMTFs
- Update CCIRs
- Publish C2 for Reserve Component medical capabilities
- Next Steps: Focus on FEMA Future Requirements:
  - Last Tactical Mile – Power Distribution / Support
  - DSCA from the Sea

### Priority Coordination Efforts:

- Finalize RC medical assignments in NYC
- Finalize deployment locations for remaining 7 x UAMTFs
- Finalize location for emerging medical assets
- Employment of Dallas EMF

### Recent and Pending Engagements:

- Finalizing Reserve Component medical assignments in NYC with FEMA
- Assessing employment of the Dallas EMF with FEMA
- Finalizing deployment locations for the remaining 7 x UAMTFs
- Finalizing locations for emerging medical assets

## Plans

### Next 5-30 Days:

- Develop DOD requirements needed in the next 5 – 30 days, plush branch and sequel requirements spanning 30-90 days
  - Coordinate with DHA and Services to develop nontraditional medical surge capacity for regional employment
  - Employ regional medical surge capabilities to follow-on cities utilizing a hub and spoke model
  - Employ medical augmentation support and surge concept to expand the capacity of medical units in order to more effectively respond to requirements that far exceed current capacity
- Closely coordinate response operations and strategic communication with FEMA and HHS in order to ensure synchronization of response and communication efforts
- Mitigating COVID impacts on NORAD and USNORTHCOM mission assurance and operations

### Evolving or New Missions:

- Supporting FEMA (NRCC) Plans/Planners in developing the national response plan. Working with NRCC to properly frame the future environment:
  - Projections show U.S. COVID-19 cases will continue to double every 3 or 4 days, peaking o/a Jun to Aug with potential follow-on waves
  - The expected national totals for key metrics are on the order of the following (and national capacity is insufficient, current actions fall far short):
    - Total cases: Tens of millions
    - Total hospitalizations: Millions
    - Total ICU cases: One half million
    - Ventilators required: Hundreds of thousands
- Supporting the long view of impacts across the AOR:
  - Regular Battle Rhythm event, to synchronize/nest future plans across USNORTHCOM
  - Coordinating with HHS & FEMA to receive government-vetted COVID projections and to potentially transition DOD C2 from states no longer needed
  - Coordinating with Services to understand capabilities for future requirements
  - Continue to synchronize sequel planning with the NC/J3 and JFLCC as the Supported Operational Commander
- Coordinating planning efforts with Components, Regions, Subordinates, Reserve Forces Office, and the National Guard Integration Office
- USNORTHCOM advocate amongst other governmental agencies for the mass messaging of COVID-19 projections, aggressive mitigation and leveraging all available resources of national power for mitigation efforts
- Developing CONOP for continued COVID operations plus an added disaster response requirement
- No current external requests for foreign disaster response; CANUS CAP or CONPLAN 3729, and International Disaster Response

## Theater Logistics

### Logistics Priorities:

- Set the theater support to ARNORTH
- BSI/ISB/ISF
- Movement
- CRG and MCCC Support

### Current Ops - Last 24/Next 24 Hours:

- Seeking Service concurrence for 10 additional BSIs to meet JFLCC anticipated demand
- Working 4 Lines of Effort for PPE issue and sustainment for USNORTHCOM HQ personnel
- Currently gathering estimated PPE and testing kit requirements from JFLCC and JFMCC for deployed forces assigned to NORAD and USNORTHCOM supporting the COVID mission
- JATF establishing DOD-wide contract to provide wrap around services for DOD identified isolation support facilities [was awarded on 4 APR](#)

### Future Ops – Next 48-96 Hours:

- DLA has multiple pending FEMA MAs (3k-5k, details being worked), shelf-stable meals for WV, pharmaceuticals, and UV sanitation units
- PPE and test kits priority coordination with JS and Services
- Developing COAs to expand DOD medical capacity with general purpose units to augment current ops
- Supply chain implications to NORAD mission IPR

### BSI/ISB/ISF Status:

- Established 5 BSIs (JBLM, Beale, JRB Fort Worth, JRB New Orleans, and JBMDL) to support JFLCC operations. Have received service concurrence on 5 additional IOT support future operations (FT Hunter Liggett, FT McCoy, FT AP Hill, FT Hamilton, and FT Devens).
- Established 3 ISBs (JBLM, Travis AFB, and Dover) in support of FEMA MA
- Established 5 Isolation Support Facilities at JBLM, NB Ventura, JRB Fort Worth, JRB New Orleans, and JBMDL for testing and medical ISO COVID positive isolation the deployed force

### Transportation & Sustainment:

- 63<sup>rd</sup> SC BN; Hunter AAF to Battle Creek, MI (12 PAX) ARR 5 APR
- AFRC Tranche 1; 125 PAX to JBMDL; 5 flights on 5 APR
- Through unit organic capabilities, BSI, contract support and coordination with DLA, meeting all forces sustainment requirements. [JFLCC continues to build capacity in order to support additional incoming forces into NYC.](#)

**Critical Supplies Status:**

- Continue to push priorities for test kits and PPE w/JS J4 & Services; all other supply requirements adequately met.

<b>Theater C4I</b>
--------------------

**Status of Fielded Forces:**

- JFLCC: Continuing coordination of C4 Support to deployed land forces. Elements of the 63<sup>rd</sup> and 51<sup>st</sup> Expeditionary Signal Battalions are employed in support of DOD medical operations in New York City, New Orleans, and Seattle and are establishing communications for future medical operations in Dallas.
- JFMCC: NSTR
- JFACC: NSTR

**Last 24 Hours:**

- JFLCC: 63 ESB forward deployed assets to Battle Creek, MI in preparation for follow-on missions in Detroit and Chicago.
- JFMCC: NSTR
- JFACC: NSTR
- N&NC J6: FRAGO 121.061 was released and provided initial fielding guidance for COVID-19 JADC2 smart phones. There were 325 COVID-19 JADC2 smart phones shipped to JBMDL and 3 ESC will pick them up for delivery and distribution to JBMDL.

**Next 72 Hours:**

- JFLCC: Continue to refine and mature C4 architecture. Begin coordinating with TF-NE for potential new C4 requirements in New Jersey (x2) and New Haven, CT. Begin coordinating with TF-HQs for forward deployed H1s c4 requirements.
- JFMCC: Pier side data communications to USNS Mercy and USNS Comfort are operational, supporting ongoing medical operations
- JFACC: Ready to support communications requirements for 4 x AEGs (RFF awaiting JS approval)
- N&NC J6: Support fielding of COVID-19 JADC2 smart phones to forces RSOI at JBMDL for New York operations

**RFF:**

- NSTR

**Mission Assignment:**

- NSTR

## Public Affairs & Engagements

### Key Messages:

- Highlight the progress of DOD actions to assist state and local communities around the country to combat the COVID-19 outbreak
- Focused communications with the force about protective measures
- Highlight the history of actions taken since January - set the table

### Last 24 Hours:

- CDR USNORTHCOM continued to conduct interviews with national media outlets emphasizing mission assurance and COVID-19 response efforts

### Next 24-72 Hours:

- Efforts continue to be focused on internal and external communication with emphasis on mission assurance and COVID-19 response. CDR USNORTHCOM will continue to conduct interviews with national media outlets

### Trends:

- Coverage of what the DOD should be doing and the dismissal of (b) (6) continues to lead news coverage. Additionally, calls for increase in leveraging the National Guard in support of local authorities continues to trend.
- There is online frustration discussing New York enforcement of social distancing policies, with some calling it a “police state”, and federal officials continue to face harsh criticism online for supply chain issues.

(b) (6)  
**Subject:** Continued requirement for requisition of DoD ventilators  
**Attachments:** HHS Vent RFA fulfillment letter.pdf  
**Signed By:** (b) (6)

Sir,

Now that DoD has fulfilled their 2,000 ventilator requirement with HHS (see attached), (b) (6) (NORTHCOM J47, cc'd) would like to know is there still a need for the 200 vents staged at Travis AFB and San Antonio or should those vents still remain in place as long as there is a PMCS and storage plan, in order to react in a timely manner if DoD is asked again to support for COVID-19 Wave 2.

Did not know if JS J4 had a plan to turn off or quickly turn-on ventilator support.

Thank you for the support

Mr. Robert G. Salesses  
Deputy Assistant Secretary  
Homeland Defense Integration and Defense Support to Civil Authorities  
Office of the Assistant Secretary for Defense for  
Homeland Defense and Global Security  
Washington, DC 20301

Dear Mr. Salesses,

I am writing to acknowledge and memorialize the Department of Defense's fulfillment of the Secretary Esper's offer of assistance to provide 2000 ventilators to HHS, formalized on March 21, 2020 (attachment 1). The original offer of assistance was then modified on March 30, 2021 in my correspondence with OASD (HD&GS) leadership to have DoD provide only 1000 ventilators to HHS and for DoD to maintain the remaining 1000 for DoD's own operational readiness (attachment 2).

HHS acknowledges that all expenses incurred by DoD in providing support in response to the March 21, 2020 and subsequent modification of the RFA request of assistance and this extension will be reimbursed in accordance with the Economy Act, Section 1535 of Title 31, U.S. Code, or other applicable legal authority.

Thank you for your support of this public health emergency and the continued strong partnership between HHS and DoD.

Sincerely,

Robert P. Kadlec, MD, MTM&H, MS

**Signed By:** (b) (6)

Gentlemen,

There will be no DoD Vent sync today.

There is no change to the committed numbers

I am tracking the 627th and the USNS Comfort have redeployed- combined total 183. In the next 24- 48hrs the Javits Center (90 Vents) will redeploy.

I will send the updated DoD Vent slide out by 1300 today.

Please call me if you have any questions.

Have a great weekend

V/r

**Cc:** (b) (6)  
**Subject:** DoD Ventilator Audit Compliance

(b) (6)

You may not have been tracking, but Secretary Esper authorized DoD / Military Services to “give” 2,000 ventilators to HHS to support the national COVID-19 response. Ventilators have already moved out of our operational units control and have been shipped to HHS/FEMA locations. That said, units are starting to ask how to get the items removed off of their property books. There may already be a process identified in policy for this, but I don’t know what it is and need your help to identify it or to run it down for me with your contacts in OUSD(Comptroller).

Need you to put together the details of what needs to happen in the field to be audit compliant. We will provide that guidance to the field through the Joint Staff once it is available. If we need to chat about this further so you understand the task, please let me know.

Respectfully,

(b) (6)

**Cc:** (b) (6)  
**Subject:** FW: (U) [Non-DoD Source] RE: DoD Ventilator daily synch

CLASSIFICATION: UNCLASSIFIED

(b) (6) – know you’re drowning with the rest of us right now, but trying to sync on this policy issue to make sure we’re operating on the same page.

Believe the issue is twofold:

1. Need verbiage to accompany the ensuing MA for DoD ventilator support that clarifies whether HHS/FEMA will provide monetary reimbursement for the vents or replacement in kind.
2. Based on that, the Services will need an official policy memo directing them how to account for the vents once they’ve been transferred to HHS/FEMA.

The latter is what I’m focused on as I attempt to find the remaining 874 that DoD still needs to provide, but understand that the former will likely cross the finish line first.

Give me a shout when you get a chance

Thanks

## USNORTHCOM COVID-19 Theater Update – 5 April 2020

### Commander's Executive Summary

Our top priority is the rapid employment of forces and medical capabilities to New York City, New Jersey and Connecticut.

We continue to deploy assets to increase capacity at the Javits Center and throughout New York City. The currently established 703-bed capacity at the Javits Center is treating 28 patients, 26 of whom are in COVID convalescent beds. We are anticipating another large group of patients throughout the evening. With the 8 Apr arrival of an additional EMF, 1000 beds will be staffed by DoD medical teams. The arrival of the 4 USAR Urban Augmentation Medical Task Forces (UAMTFs) on 10 Apr will bring the total number of beds staffed at the Javits Center up to 1750. In addition to the Javits Center support, additional teams of 325 USN and USAF individual augmentees began arriving today to reinforce 11 hospitals throughout New York City. We are treating 29 patients (1 COVID positive) aboard USNS COMFORT. An additional 4 UAMTFs are available on 7 Apr to deploy to New Jersey (3 UAMTFs) and Connecticut (1 UAMTF) to reinforce local medical facilities. The remaining 7 UAMTFs are being considered by FEMA for the locations with the greatest need.

The Seattle CenturyLink Events Center achieved IOC on 4 Apr and is ready to receive patients in the 124-bed facility (24 intensive care, 60 intermediate care and 40 minimal care). The CenturyLink Events Center will be FOC on 7 Apr with a 250 bed capacity. The Morial Convention Center in New Orleans is on schedule for IOC for 6 Apr and FOC by 10 Apr with 274 beds. The Kay Bailey Hutchison Center in Dallas remains ahead of demand and is able provide a 200-bed capacity as early as 6 Apr, pending final HVAC airflow mitigation work. USNS MERCY received 3 patients in the last 24 hours and is treating a total of 11 patients, 2 of whom are in the ICU.

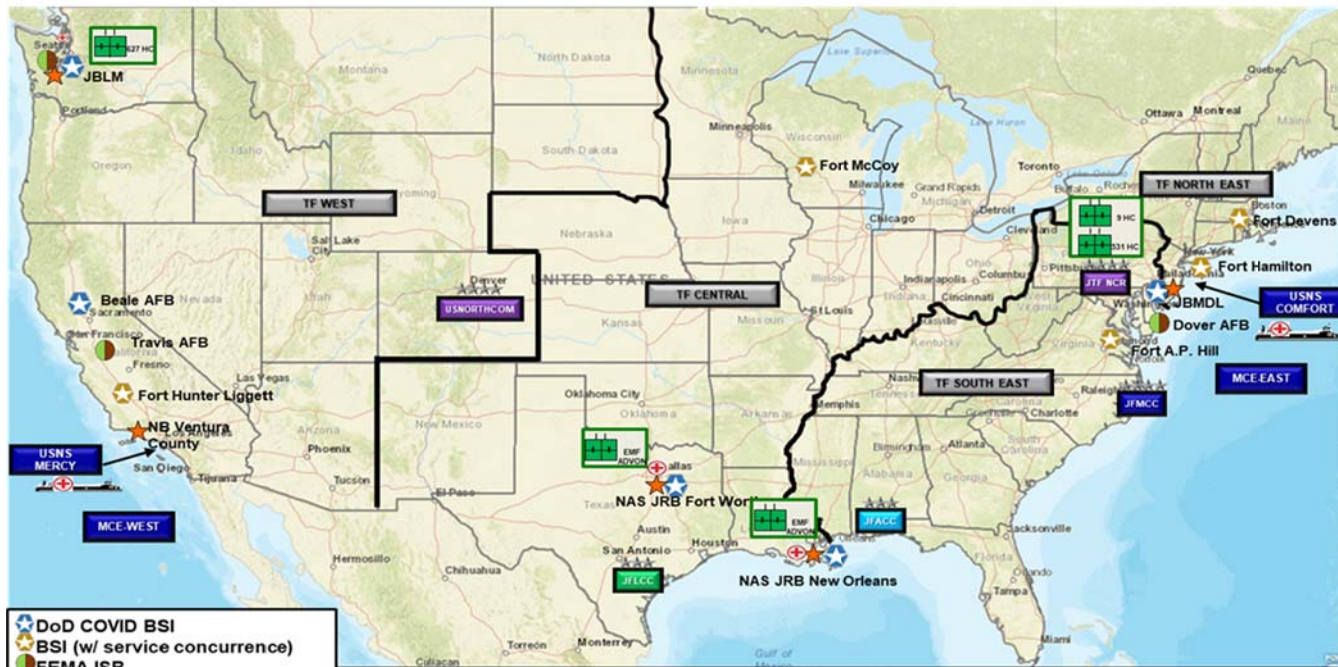

We are building capacity to perform multiple JRSOI missions while continuing to validate BSIs at Homestead ARB (FL) and Robins AFB (GA) which aligns with FEMA's hot spot projections. We have expanded analysis on the East Coast to include Horsham Air Guard Station (PA), Andrews AFB (MD) and Marine Corps Base Quantico (VA) as potential BSI locations in anticipation of emerging requirements.

We have shipped 325 Apple iPhones to our front line deployers going to New York City and the Javits Center. These devices come with NORTHCOM applications to facilitate connectivity in the distributed operations environment of the NYC hospital system, and will allow us to send group messages to the deployed force, to monitor their location and personal health conditions. This is the first step in a broader effort to field devices throughout the COVID response force to enhance synchronization efforts. This speed of needed delivery was made possible due to the superb collaboration between Apple, USNORTHCOM and the JAIC.

# 1. CCDR's Guidance

## CCDR Priorities

1. **Protect Our Force and Families**
2. **Defend the Homeland**
3. **Conduct COVID-19 Response Ops**

## Focus Areas

1. **Protect the Force/Families and Protect Mission Readiness (Mission Assurance)**
  - a. Mitigation Measures at HQ, Components, and Fielded Forces
  - b. Testing – including Fielded Forces
2. **Set the Theater**
  - a. Logistics Structure – Medical Supplies, PPE, and Testing
3. **Deploy and Employ COVID-19 Response Forces**
  - a. USNS MERCY (LA)
  - b. USNS COMFORT (NYC) – (Onboard Patients)
  - c. Javits Center FMS (NYC) - Expedite Transition to COVID Positive Facility
  - d. CenturyLink Events Center FMS (Seattle) – Achieve IOC ASAP
  - e. Kay Bailey Hutchinson Center FMS (Dallas)
  - f. Earnest M. Morial Convention Center FMS (New Orleans)
  - g. Mortuary Affairs (NYC)

<u>Prioritized Lines of Effort</u>
LOE 1 – Mission Assurance for HD
LOE 2 – COVID-19 response ops
LOE 3 – Coordinating authority for global pandemic planning
LOE 4 – Support Interagency SWB ops

### **CCDR Intent**

- **Purpose:** USNORTHCOM operations assure our ability to defend the homeland, while actively supporting the COVID-19 whole-of-nation effort.
- **Mission:** USNORTHCOM defends the homeland, ensures DOD mission assurance, and conducts military operations within the National Response Framework to mitigate COVID-19 impacts.
- **Method:**
  - USNORTHCOM rapidly executes Phase 3 (Respond) that focuses on protecting families, mission assurance, and support to the interagency while executing essential HD tasks.
  - Balance all four focus areas to ensure the readiness of the Joint Force and preserve unique DOD capabilities. USNORTHCOM will support NRCC for all COVID- 19 response operations.
  - Maintain efforts towards Global Campaign Plan Pandemic Influenza and Infectious Disease (GCP PI&ID) planning with other CCMDs, and remain nested with OSD, JS, and interagency lines of communications.
  - **Next 24 - 72 hours:** Posture for national level DSCA ops with FEMA and continue mission assurance mitigation efforts with Components. JRSOI and employ forces flowing into NYC, NJ, and CT and rapidly expand Javits Center. Posture for impending FEMA requests for remaining UAMTFs and potential MERCY re-assignment.
  - Continue to refine NORTHCOM's Battle Rhythm and "Major Efforts/Locations" planning with the Services.

## 2. Component Update

### JFMCC

#### Major Effort:

JFMCC continues to deliberately set the Theater in a rapidly evolving environment by continuing to build the Joint Team and sustaining current operations while looking out to identify future requirements. JFMCC continues medical operations in New York (MCE-E) and Los Angeles (MCE-W).

- Operations, Actions, Activities (OAA):
  - TF Los Angeles (TF LA) – MER moored; receiving patients
  - TF New York (TF NYC) – CFT moored; receiving patients
  - EMF deployed to Fort Worth, TX and New Orleans, LA
  - NEPLO Operations – 56 NEPLOs deployed ISO activated DCOs
  - RC activation and support
  - TF-Dallas prepared to accept patients before 6 APR.
  - TF-NOLA preparing for 6 APR IOC

#### Recent Engagements:

- USNS Mercy Media Engagements – 04 APR:
  - Atherton Hill Podcast with HM1 McGarlane, USN
- USNS Mercy Media Engagements – 05 APR
  - NSTR
- USNS Comfort Media Engagements – 06 APR
  - (T) 1030 – Daily update call, CO & CDRE
  - TBD – WINS-AM Radio
  - 1400 – KDKA-TV, XO
  - 1430 – NPR Science, CO
  - 1530 – WXBS Skype, CDRE
  - 1915 – CNN, Wolf Blitzer, CO

#### Future Operations:

- Navy individual augmentees to reinforce NYC hospitals; 3rd EMF deploying to support NYC

#### Challenges:

- NSTR

#### Assistance Needed:

- NSTR

**USNS MERCY**

**Mission:**

- Provide surge medical capacity to Los Angeles area
- 1000 patient bed max including 80 ICU beds, 20 post-anesthesia beds
  - 11 isolation beds and 389 open bay medical-surgical beds
  - Additional 500 "minimal care" berths (litters stacked 4-high)

**Current Operations:**

- **Authorized Medical Allowance List (AMAL).** Expect continuous deliveries
- Location: Moored port side at Pier 93, Los Angeles, CA
- Number of crew on board: 76 CIVMARS / 186 Enablers (CE & Security)
- Medical crew onboard: 996 (43 Drs, 5 nurse practitioners, 131 nurses, 35 medical professional officers, 774 enlisted medical, 8 respiratory therapists)
- Current beds: 9 beds filled / 920 capacity
- Beds with vents: 1 filled / 70 capacity
- ICU capability: 2 filled / 80 capacity
- Ventilators on-hand: 145
- 3 patients received last 24 hours
- Total Patients "encounters": 22
- 6 enlisted personnel quarantined
- Logistics issues: NSTR
- Concerns / issues: 1 of 2 oxygen generators NMC, currently 50% oxygen-producing capability, no impact to current ops, expected to be fully operational in next 24 hours
- Intentions: Continue sustained patient intake, maintain COVID bubble

**Future Operations:**

- Continue intake of patients

**USNS COMFORT**

**Mission:**

- Provide surge medical capacity to New York City metropolitan area
- 1000 patient bed max including 80 ICU beds, 20 post-anesthesia beds
  - 11 isolation beds and 389 open bay medical-surgical beds
  - Additional 500 "minimal care" berths (litters stacked 4-high)

**Current Operations:**

- **AMAL.** Expect continuous deliveries, pier side
- Location: Moored to Pier 90, New York City, NY
- Number of crew on board: 80 CIVMARS / 29 Enablers (CE & Security)
- Medical crew onboard: 1031 (43 Drs, 10 nurse practitioners, 134 nurses, 66 medical professional officers, 768 enlisted medical, 10 respiratory therapists)
- Current beds: 15 beds filled / 920 capacity
- Beds with vents: 1 filled / 52 capacity
- ICU capability: 14 filled / 80 capacity
- Ventilators on-hand: 98
- 10 patients received last 24 hours
- Total Patient "encounters": 38
- Logistics issues: NSTR
- Concerns / issues: NSTR
- Intentions: Continue sustained patient intake, maintain COVID bubble
- **USNS COMFORT medical staff will not treat COVID-19 infected patients unless a patient subsequently tests positive once on board and under care.**

**Future Operations:**

- Continue intake of patients

## JFLCC

### **Major Effort:**

The JFLCC's top priority is the rapid integration of medical capabilities into NYC. Chicago, NOLA, and Detroit are possibilities for future support, with the potential for other locations in FL, TX, CO, and AZ.

### **Future Operations:**

- Begin deployments of eight Army Urban Medical Task Forces – 4 to Javits Center; 3 to New Jersey, and 1 to Connecticut

### **Recent Engagements:**

- **Last 24 Hours:**
  - 1430 EST - New York Times interview with BG James M. Smith, Commander, 3<sup>rd</sup> Expeditionary Sustainment Command,
    - Discuss Mortuary Affairs mission
- **Next 24 Hours:**
- TF NE is planning a “Fox and Friends” interview via Skype with MG Hall and other SMEs
- JFLCC Media Operations Center staff are preparing press release with updates on COVID-19 response operations

### **Challenges:**

- Building the JFLCC to meet operational demands and C2 of the Theater
- Joint Manning Document for sustained COVID-19 Campaign

### **Assistance Needed:**

- Continued support with COVID-19 BSI nominations for T10 quarantine / isolation and Medical Support

<b>Federal Medical Station - NY</b>
-------------------------------------

**Current Operations:**

- Javits Center's capability increased today to being able to take 340 x Patients
- Deploying medical capability for employment follows:
  - Tranche #1 - AF & Navy Augmentees: 104 x Doctors, 208 x Nurses, 13 x Respiratory Therapists will arrive at JBMDL for JRSOI 5-6 APR, and then flow into NYC for integration into the 11 x Public NYC Hospitals.
  - Tranche #2 - Navy EMF: 50 x Doctors, 102 x Nurses, 6 x Respiratory Therapists will arrive to JBMDL for JRSOI 5-6 APR, and then flow into NYC for integration into the Javits Center.
  - Tranche #3 - USAR Urban Augmentation Medical Task Forces (UAMTFs): 8 x UAMTFs will be tasked to the NY region, they will flow to JBMDL for JRSOI o/a 7 APR and receive their follow-on assignments.
- Javits Center, NY: (Patient / Bed Count combined for the 531<sup>st</sup> FH and the 9<sup>th</sup> FH)
- 4 APR postured forces at Javits to begin treatment of COVID positive patients
  - Current beds: 8 filled / 703 capacity (1000 capacity)
  - Beds with vents: 0 filled / 42 capacity (84 capacity)
  - ICU capability: 2 filled / 46 capacity (48 capacity)
  - 22 patients received last 24 hours, 22 Total since start of mission
  - 8 suspected COVID+ patients, 3 confirmed
  - Total Patient "encounters": 33
- 531<sup>st</sup> Hospital Center from Ft Campbell, KY to JB McGuire - Dix - Lakehurst (JBMDL), NJ / Javits Center (ISO FEMA in NYC).
  - 148 bed capacity (48 ICU / 100 ICW)
  - Medical members: 125 (27 DRs, 57 nurses, 24 med techs, 13 ancillary services, and 4 respiratory therapists)
  - IOC: 31 MAR
  - FOC: 4 APR (pending local certification)
- 9<sup>th</sup> Hospital Center from Ft. Hood, TX to JB McGuire - Dix - Lakehurst (JBMDL), NJ / Javits Center (ISO FEMA in NYC).
  - Medical members: 200 (43 DRs, 2 nurse practitioners, 134 nurses, 3 med techs, 14 ancillary services, and 4 respiratory therapists)
  - IOC: 1 APR
  - FOC: 4 APR
- 54<sup>th</sup> QM CO 49 total PAX to NYC 2 Apr 20, supporting / augmenting civilian medical staff, under Medical Examiner's Office (Brooklyn, Queens, Manhattan)

**Future Operations:**

- 4 x UAMTFs will work in the Javits Center, 3 x UAMTFs will work in NJ (location TBD), and 1 x UAMTF will work in CT (location TBD).
  - The assignment for the remaining 7 x UAMTFs will likely be determined on 6 April; they're not expected to go to NY.

**Federal Medical Station - Seattle**

**Current Operations**

- CenturyLink Patient / Bed Count
  - Current beds: 0 filled / 100 available (172 capacity)
  - Beds with vents: 0 filled / 25 available (26 capacity)
  - ICU capability: 0 filled / 24 available (48 capacity)
  - 0 patients received last 24 hours
- Assumed TACON of DCOs in Regions VIII-X
- 627<sup>th</sup> Hospital Center, from Ft Carson, CO to JB Lewis - McChord (JBLM), WA / CenturyLink Field (ISO Seattle) - (augmented by 47th Combat Support Hospital from JBLM) (ISO FEMA Seattle)
  - Medical members: ~ 128 (26 Doctors, 59 nurses, 4 respiratory therapists
  - 26 med techs, 13 ancillary services)
  - Current beds: 0 filled / 148
  - Beds with vents: 0 filled / 100 capacity
  - ICU capacity: 0 filled / 48 capacity
  - 0 patients received last 24 hours
- IOC: 31 MAR, **expect FOC: 6 APR**
- 47th Combat Support Hospital from JBLM - to CenturyLink Field, WA - augmenting 627th HC
  - Medical members: ~ 132 (28 DRs, 60 nurses, 4 respiratory therapists, 27 med techs, 13 ancillary services)
  - IOC: 01 Apr 20
  - **FOC: 6 Apr 20**

**Future Operations:**

- 250 beds expected by 6 APR
- First patient expected 8 APR; TF West pushing for sooner (on track to be **FOC 6 APR**; not COVID-19 designated)
- Continue to work contracting issues for meals at the CLEC
- Navy Base Ventura County, CA and JBLM set up BSIs in order to provide 40 rooms that meet CDC specifications for isolation of DOD personnel supporting USNORTHCOM COVID response operations who are COVID-19 exposed, symptomatic or test positive.

**Expeditionary Medical Facility - Dallas**

**Current Operations:**

- Expeditionary Medical Facility (EMF) Dallas is set to support and receive patients 6 Apr

**Future Operations:**

- NSTR

**Expeditionary Medical Facility - New Orleans**

**Current Operations:**

- Ernest M. Morial Convention Center in NOLA to assist staffing of ~ 500 Federal Medical Station beds (main body deployed 1 APR, IOC 2 APR)
- ADVON (4 PAX) arrived 30 Mar 20 at NAS - JRB Orleans
- 1 APR: EMF, C-40 (53 PAX), NAS Jacksonville to NOLA
- 4 APR: EMF (60 PAX) wheels down in NOLA at 1705Z 04 APR
- Pending bed count that medical staff can handle
- Currently no MA enabling employment of the EMF; MA expected to be in staffing on 6 APR

**Future Operations:**

- NSTR

## JFACC

### **Major Effort:**

JFACC focus is on supporting JRSOI of the tasked 125 personnel AFRC medical professionals and activation of the 64<sup>th</sup> AEG, sustaining the readiness of the ACA enterprise and supporting the standup of additional BSI/ISBs in support of JFLCC's scheme of maneuver.

### **Current Operations:**

- Operations, Actions, Activities (OAA)
  - 64<sup>th</sup> AEG: Activated and executing OPCON of the 7 member 64<sup>th</sup> AEG.
    - Providing ADCON of the AFRC medical professionals (125 members) who will be working in several NYC hospitals.
    - Next AEG is TBD, pending guidance on AF Demand Signal from JS & USNORTHCOM on DOD support to the next declared Hot Spot
  - AFRC Medical Professionals: JRSOI continues for the AFRC medical professionals (41 medical officers, 71 nurses, and 13 respiratory therapists).
    - AEG support at JBMDL is facilitating their in-processing movement to NYC through 6 APR
    - USAFR medical personnel are OPCON to JFLCC and in support of TF NE
  - Contingency Contracting Team (CTT): ADCON of CTT movement to Ogden, UT
  - EPLOs: 44 EPLOs (-3) deployed in support of State EOCs, RRCCs, NRCC, and AFCAT
  - JACCE: NSTR
  - 320<sup>th</sup> AEW: 35/38 personnel in-place
    - Unit remains in a 14 day quarantine period and will execute White House Screening in support of JTF-NCR when completed
  - Copan Test Kit Flights: Coordinating with the DATT on getting waivers from the Italian Ministry of Health's current flight restrictions on all inbound flights to Italy and do not expect any delays
  - FAA Status: NSTR

### **Future Operations:**

- Focused on execution of COMCAM duties in support of JFLCC's scheme of maneuver, specifically supporting the additional sourced 125 member medical team.
  - C-130 RFF: NSTR
  - Airlift: Tracking AFRC's grey tail movements of medical personnel from multiple locations to JBMDL
  - Combat Camera (COMCAM): NSTR
  - DIRMOBFOR: NSTR
  - 9th AF Coordination: NSTR

- CAP/AF AUX: AF AUX continues supporting 17 states with 26 approved AFAMs (+1) under service authority T10 support to state and local test kits, PPE, ventilators & food, and school lunch distribution
  - Flown 25 sorties (7 Federal / 18 State)
- Contingency Contracting Team (CTT): NSTR
- iPad Pilot Program: NSTR
- Future Planning Cell (FPC): NSTR
- Mitigating operational impacts to the CONR enterprise from COVID-19 by leveraging data analytics and best practices to make informed predictive analysis on the readiness across CWDS elements

**Recent Engagements:**

- NSTR

**Challenges:**

- NSTR

**Assistance Needed:**

- NSTR

**ALCOM**

**Major Effort**

Continue setting the theater for potential DSCA with JFLCC-AK while protecting the force.

**Current Operations:**

- Focus / Priorities: Focus remains on understanding the threat, being proactive, and maintaining situational awareness of state and local agencies as they posture to respond to the crisis.
- Operations, Actions, Activities (OAA): Awaiting feedback from US Army Pacific regarding the request for a 2-Star task force headquarters
  - Continue to remain in close coordination with MG Andrysiak and our teams continue parallel planning

**Future Operations:**

- Focus / Priorities: Focused on setting conditions for a seamless transition into action, if needed.
- Operations, Actions, Activities (OAA): On Tuesday, the Commander will receive a back-brief from US Army Alaska detailing their plan to execute DSCA as ALCOM's JFLCC, if T10 forces are tasked in Alaska.

**Recent Engagements:**

- NSTR

**Challenges:**

- NSTR

**Assistance Needed:**

- NSTR

**Joint Task Force – National Capital Region (NCR)**

**Major Effort:**

Reassessing the current mission assurance posture for contingency forces and initial operating forces. Continue developing options, such as sequestering formations at Fort AP Hill, to mitigate the risk to the force and risk to critical missions.

**Current Operations:**

- NSTR

**Future Operations:**

- Continue engagement with interagency and DOD partners to shape emerging RFAs and to set conditions to support if directed

**Recent Engagements:**

- JTF-NCR Commander engagement with Mr. Tom Muir, Director, Washington Headquarters Services (WHS)
  - Key outcomes included adjacent unit coordination between the Pentagon Complex and JB-MHH Garrisons

**Challenges:**

- NSTR

**Assistance Needed:**

- NSTR
  - JTF-NCR CDR conducted a weekly teleconference with Virginia and Maryland National Guard TAGs and DC National Guard CG.
  - JTF-NCR DCOM and staff participate in multiple, existing interagency forums to ensure common awareness and anticipation of potential requirements across the NCR.
  - FEMA NCR Director participates in JTF-NCR O&I

## Operations

### Current Operations:

- Mission Assurance status for all USNORTHCOM priority capabilities remain Green
- EMF Teams in New Orleans and Dallas:
  - New Orleans: establishing operations, will begin receiving patients on 6 APR
  - Dallas: establishing operations, FOC unknown
- USNS Mercy: operational/receiving patients
- USNS Comfort: operational/receiving patients, 4 of 5 COVID-19 positive patients returned to Javits Center
- 54<sup>th</sup> QM Mortuary Affairs Platoons integrated with NYC Office of the Chief Medical Examiner
- (3) Army Field Hospitals in NY and Seattle on track:
  - 531<sup>st</sup> & 9<sup>th</sup> HC JAVITS – Operational, receiving patients
  - 627<sup>th</sup> under construction and on track for 7 APR FOC
- Reserve component medical capabilities:
  - USAF/USN individual to NYC; JRSOI at JBMDL today; FEMA to determine distribution of teams to 11 hospitals
  - Reserve EMF deploying to NYC today and tomorrow; JRSOI at JBMDL, employment at Javits Center; third EMF on PTDO
  - 8 x UAMTFs: Available 7 APR; deploying 4 x Javits Center, 3 x NJ, 1 x CT
- Next expected allocation: AFRES Theater Hospital, USA Field Hospital, USN EMF (#3)
- SWB COVID-19 expanded operations sourced (4 x USA, 1 x USMC COs); TRANSCOM supporting deployment on 6 APR
- Mission Assignments/Requests for Assistance: 53 in various stages

### Future Operations:

- Accountability of individual medical deployers and UAMTFs
- Update CCIRs
- Publish C2 for Reserve Component medical capabilities
- Next Steps: Focus on FEMA Future Requirements:
  - Last Tactical Mile – Power Distribution / Support
  - DSCA from the Sea

### Priority Coordination Efforts:

- Finalize RC medical assignments in NYC
- Finalize deployment locations for remaining 7 x UAMTFs
- Finalize location for emerging medical assets
- Employment of Dallas EMF

### Recent and Pending Engagements:

- Finalizing Reserve Component medical assignments in NYC with FEMA
- Assessing employment of the Dallas EMF with FEMA
- Finalizing deployment locations for the remaining 7 x UAMTFs
- Finalizing locations for emerging medical assets

## Plans

### Next 5-30 Days:

- Develop DOD requirements needed in the next 5 – 30 days, plush branch and sequel requirements spanning 30-90 days
  - Coordinate with DHA and Services to develop nontraditional medical surge capacity for regional employment
  - Employ regional medical surge capabilities to follow-on cities utilizing a hub and spoke model
  - Employ medical augmentation support and surge concept to expand the capacity of medical units in order to more effectively respond to requirements that far exceed current capacity
- Closely coordinate response operations and strategic communication with FEMA and HHS in order to ensure synchronization of response and communication efforts
- Mitigating COVID impacts on NORAD and USNORTHCOM mission assurance and operations

### Evolving or New Missions:

- Supporting FEMA (NRCC) Plans/Planners in developing the national response plan. Working with NRCC to properly frame the future environment:
  - Projections show U.S. COVID-19 cases will continue to double every 3 or 4 days, peaking o/a Jun to Aug with potential follow-on waves
  - The expected national totals for key metrics are on the order of the following (and national capacity is insufficient, current actions fall far short):
    - Total cases: Tens of millions
    - Total hospitalizations: Millions
    - Total ICU cases: One half million
    - Ventilators required: Hundreds of thousands
- Supporting the long view of impacts across the AOR:
  - Regular Battle Rhythm event, to synchronize/nest future plans across USNORTHCOM
  - Coordinating with HHS & FEMA to receive government-vetted COVID projections and to potentially transition DOD C2 from states no longer needed
  - Coordinating with Services to understand capabilities for future requirements
  - Continue to synchronize sequel planning with the NC/J3 and JFLCC as the Supported Operational Commander
- Coordinating planning efforts with Components, Regions, Subordinates, Reserve Forces Office, and the National Guard Integration Office
- USNORTHCOM advocate amongst other governmental agencies for the mass messaging of COVID-19 projections, aggressive mitigation and leveraging all available resources of national power for mitigation efforts
- Developing CONOP for continued COVID operations plus an added disaster response requirement
- No current external requests for foreign disaster response; CANUS CAP or CONPLAN 3729, and International Disaster Response

## Theater Logistics

### Logistics Priorities:

- Set the theater support to ARNORTH
- BSI/ISB/ISF
- Movement
- CRG and MCCC Support

### Current Ops - Last 24/Next 24 Hours:

- Seeking Service concurrence for 10 additional BSIs to meet JFLCC anticipated demand
- Working 4 Lines of Effort for PPE issue and sustainment for USNORTHCOM HQ personnel
- Currently gathering estimated PPE and testing kit requirements from JFLCC and JFMCC for deployed forces assigned to NORAD and USNORTHCOM supporting the COVID mission
- JATF establishing DOD-wide contract to provide wrap around services for DOD identified isolation support facilities [was awarded on 4 APR](#)

### Future Ops – Next 48-96 Hours:

- DLA has multiple pending FEMA MAs (3k-5k, details being worked), shelf-stable meals for WV, pharmaceuticals, and UV sanitation units
- PPE and test kits priority coordination with JS and Services
- Developing COAs to expand DOD medical capacity with general purpose units to augment current ops
- Supply chain implications to NORAD mission IPR

### BSI/ISB/ISF Status:

- Established 5 BSIs (JBLM, Beale, JRB Fort Worth, JRB New Orleans, and JBMDL) to support JFLCC operations. Have received service concurrence on 5 additional IOT support future operations (FT Hunter Liggett, FT McCoy, FT AP Hill, FT Hamilton, and FT Devens).
- Established 3 ISBs (JBLM, Travis AFB, and Dover) in support of FEMA MA
- Established 5 Isolation Support Facilities at JBLM, NB Ventura, JRB Fort Worth, JRB New Orleans, and JBMDL for testing and medical ISO COVID positive isolation the deployed force

### Transportation & Sustainment:

- 63<sup>rd</sup> SC BN; Hunter AAF to Battle Creek, MI (12 PAX) ARR 5 APR
- AFRC Tranche 1; 125 PAX to JBMDL; 5 flights on 5 APR
- Through unit organic capabilities, BSI, contract support and coordination with DLA, meeting all forces sustainment requirements. [JFLCC continues to build capacity in order to support additional incoming forces into NYC.](#)

**Critical Supplies Status:**

- Continue to push priorities for test kits and PPE w/JS J4 & Services; all other supply requirements adequately met.

<b>Theater C4I</b>
--------------------

**Status of Fielded Forces:**

- JFLCC: Continuing coordination of C4 Support to deployed land forces. Elements of the 63<sup>rd</sup> and 51<sup>st</sup> Expeditionary Signal Battalions are employed in support of DOD medical operations in New York City, New Orleans, and Seattle and are establishing communications for future medical operations in Dallas.
- JFMCC: NSTR
- JFACC: NSTR

**Last 24 Hours:**

- JFLCC: 63 ESB forward deployed assets to Battle Creek, MI in preparation for follow-on missions in Detroit and Chicago.
- JFMCC: NSTR
- JFACC: NSTR
- N&NC J6: FRAGO 121.061 was released and provided initial fielding guidance for COVID-19 JADC2 smart phones. There were 325 COVID-19 JADC2 smart phones shipped to JBMDL and 3 ESC will pick them up for delivery and distribution to JBMDL.

**Next 72 Hours:**

- JFLCC: Continue to refine and mature C4 architecture. Begin coordinating with TF-NE for potential new C4 requirements in New Jersey (x2) and New Haven, CT. Begin coordinating with TF-HQs for forward deployed H1s c4 requirements.
- JFMCC: Pier side data communications to USNS Mercy and USNS Comfort are operational, supporting ongoing medical operations
- JFACC: Ready to support communications requirements for 4 x AEGs (RFF awaiting JS approval)
- N&NC J6: Support fielding of COVID-19 JADC2 smart phones to forces RSOI at JBMDL for New York operations

**RFF:**

- NSTR

**Mission Assignment:**

- NSTR

## Public Affairs & Engagements

### Key Messages:

- Highlight the progress of DOD actions to assist state and local communities around the country to combat the COVID-19 outbreak
- Focused communications with the force about protective measures
- Highlight the history of actions taken since January - set the table

### Last 24 Hours:

- CDR USNORTHCOM continued to conduct interviews with national media outlets emphasizing mission assurance and COVID-19 response efforts

### Next 24-72 Hours:

- Efforts continue to be focused on internal and external communication with emphasis on mission assurance and COVID-19 response. CDR USNORTHCOM will continue to conduct interviews with national media outlets

### Trends:

- Coverage of what the DOD should be doing and the dismissal of (b) (6) continues to lead news coverage. Additionally, calls for increase in leveraging the National Guard in support of local authorities continues to trend.
- There is online frustration discussing New York enforcement of social distancing policies, with some calling it a “police state”, and federal officials continue to face harsh criticism online for supply chain issues.

All active links contained in this email were disabled. Please verify the identity of the sender, and confirm the authenticity of all links contained within the message prior to copying and pasting the address to a Web browser.

Good afternoon, all,

Please find attached meeting minutes from this morning's call. We have posted these, along with Friday's meeting minutes, to the SharePoint site (Caution-

https://intelshare.intelink.gov/sites/jatf/\_layouts/15/start.aspx#/Shared%20Documents/Forms/AllItems.aspx < Caution-https://intelshare.intelink.gov/sites/jatf/\_layouts/15/start.aspx#/Shared%20Documents/Forms/AllItems.aspx > ). By the end of this week, we will fully transition to SharePoint as a repository for minutes, at which point we will stop sending emails with attachments.

If you have any issues accessing the JATF SharePoint link above, please reach out to (b)(6) (b)(6).

Respectfully,

(b) (6)

Many thanks for your assistance. I just got off the phone with Brock who asked me for a status check. I had a couple of other questions as well.

VISAS - Brock asked me to let you know that while he was submitting his visa, a Counselor came down to let him know that the Embassy is waiting for the crew's visas. They are currently at lunch, but will be open this afternoon from 2:00 to 6:00.

CA LOGISTICS - We are planning on Brock flying to CA on Sunday 17MAY. Would it be possible for him to stay Sunday evening at March AFB? If not, we will book him a hotel nearby.

PCC CALL - On Monday 18MAY at 0900EDT/0600PDT, Brock needs to participate in a secure call. Can someone assist with facilitating this on base?

AIRCRAFT - He just wanted to confirm type of plane

RETURN - We understand that following delivery, the plane will fly to Ramstein. Is that end of mission or will the plane continue CONUS? We just need to know if we need to get him a commercial flight out of Frankfurt or if there is the possibility of him hitching a ride back.

Thank you again for all of your assistance. Please let me know if there is anything you need from us. Cell is (b) (6)

I do not believe that TRANSCOM is planning a flight back to the U.S. after the plane returns to Germany from Russia. There may be other options for a return trip. I am adding (b) (6), the TRANSCOM LNO to the Joint Staff, on the to line. He will be your best POC for planning the details of Mr. Bierman's trip.

---

Hi (b)(6),

I was wondering if you knew yet whether the trip will end in Germany or if there will be a Military flight back to the United States from Russia?

Thanks!

Hi All .

Just got off the phone with Brock. He wants to meet the plane where it is at the very beginning in California, Chicago from the beginning to the end. So he wants to go to California to see the ventilators be loaded the whole magnitude of what needs to be done to support the Russian People. Please include him in all aspects of this trip.

Thanks.

(b) (6)

I have a call into TRANSCOM to discuss Palm Springs vs. LAX. TRANSCOM's Defense Courier Division Operations and Policy Branch Chief is talking to his State counterparts to coordinate Embassy Moscow's diplomatic pouch transportation request.

I'm stepping out to brief a couple of folks on the call. I should be back in the office soon. My contact info is below.

Tammy –

Thank you very much for your response, I know you are incredibly busy.

Attached is a slide that illustrates the type of machines DoD is using for COVID testing.

I would appreciate any information you might be able to offer on corresponding shortages/efforts to mitigate.

---

(b) (6), as of now, the primary shortage issues we have faced include:

- 1) Swabs and transport media
- 2) Extraction kits for PCR
- 3) Laboratory PPE

Having said that, we are truly in a reagent constrained environment and I would not say that anything is in abundant supply.

There are many different testing platforms as you suggest, each with different reagent/consumable requirements. We have been discussing with manufacturers daily and getting our arms around supply chain for each type of assay, etc.

Happy to have a more in depth discussion if that would help.

I'm not sure what machines DOD has, but if you have a list I can provide some insight into inventory availability.

Hope this helps.

Tammy

CLASSIFICATION: UNCLASSIFIED

(b) (6)

Happy Easter from the Pentagon.

From a 100,000 foot level, can your Lab and Diagnostic POC provide us any SA on what, in the collection portion of testing, and what, in the kits portion are supply limited? Eg. In collection, is it swabs/tubes, in kits is it reagents, probes, trays, assays? Even if it is by prevalence of machine types remembering each has a different set of supply requirements.

We are being asked, again, to detail the DoD global shortages, by machine type, by location for the delta between requirements for testing and the delta for avail testing, characterized by the sub material. We cannot deliver that 1) because DHA loses viz to Services because point of sale ends at "buy out" by Services and 2) the Services have not provided that level of detail to date.

As a middle ground, I would like to offer instead overarching info on probable supply shortages based on WoG vantage and/or any detailed info as to what WoG is doing w/ Company X,Y, Z or the Airbridge to overcome said shortages.

V/r,

# **Defense Production Act Title I, Title III, and Title VII**

DASD Industrial Policy

# Defense Production Act Overview

**The Defense Production Act of 1950** allows the President a set of authorities that can be used across the federal government to shape the domestic industrial base. There are three active titles in use today within the DPA – Title I, III, and VII

- **DPA Title I – Defense Priority and Allocation System (DPAS)**
  - Ensures the timely availability of industrial resources to meet national defense and emergency preparedness requirements
  - *Section 101*. Requires businesses to prioritize DoD contracts and orders DoD uses two types of ratings:
    - **“DO” (used on over 60% of DoD contracts**, including sub-contracts – prioritizes these contracts over commercial contracts), and
    - **“DX (higher priority than DO)** used on a very small number of DoD programs)
      - DoD has 13 weapon systems with DX ratings
      - It also allows DoD to allocate resources if there is insufficient supply.
  - *Section 102*. Prevents hoarding of designated scarce materials

# Defense Production Act Overview

**DPA Title III – Expansion of Production Capacity and Supply** provides economic incentives to develop, maintain, modernize, restore, and expand the productive capacities of domestic sources.

- *Section 301.* Loan guarantees - When credit is not available to the loan applicant under reasonable terms and conditions sufficient to finance the activity. **(Not Currently used by DoD)**
- *Section 302.* Loans - When private financing is beyond the risk of the commercial market. **(Not Currently used by DoD)**
- *Section 303.* Purchase Commitments and Purchases - **DoD uses this section**
  - Purchase Commitments - Create a guaranteed demand to reduce risk for industry to make their own investments, and
  - Purchases - Provide direct subsidies to companies to assist in establishing production capabilities
  - The only DoD account that is colorless, no-year account

**DPA Title VII** – allows coordination across industry players, in a sense it's a safe harbor against antitrust, DOJ and FTC issues exemptions, not DoD

# DPA COVID-19 Update

## DPAS Title I

### Current Activity:

1. DoD requesting DPA Title I priority ratings authority for Health/Medical Resources; requesting delegation from HHS to address urgent DoD needs(i.e. COVID-19 test kits)
2. DoD requesting DPA Title 1 priority rating authority for Commercial Off-the-Shelf items; requesting from Dept of Commerce (SD approval pending) to address urgent DoD needs, i.e. hardware and software necessary for COVID-19 response
3. DoD continues to add DPA Title I priority ratings on DoD contracts for industrial resources that are not health/medical

### Issues:

1. Health/Medical Resources DPAS package - In SECDEF office for approval
  - Need HHS approval for DPAS delegation authority
  - SECDEF discuss military concerns with Secretary Azar for approval
2. Commercial Off-the-Shelf items - In SEDEF office for approval
  - DoC approves this package, DoC should approve package

### Future Plans:

1. Apply DPAS ratings on DoD contracts for DoD Health/Medical Resources (i.e.COVID-19 test kits)
2. Apply DPAS ratings on DoD contracts for commercial contracts during COVID-19 crises

# DPA COVID-19 Update Title III

## Current Activity:

1. DoD received \$1B in CARES Act to prevent, prepare for, and respond to coronavirus, domestically or internationally
2. Requesting approval to use authorities to rapidly expand productive capacity and delivery of N-95 masks and critical PPE and medical product lines
3. Requesting additional \$3B Stimulus #4 to fund Defense Industrial Base issues that are impacted due to effects of COVID-19

## Issues:

1. (b) (5)  
[Redacted]
2. \$1B received in CARES Act is insufficient to solve HHS industrial capacity and DoD DIB issues
3. DoD requests additional \$3B in Stimulus #4 to fund DIB issues:
  - Offset direct financial distress in the DIB caused by COVID-19
  - Support regions harder hit by COVID-19 with investments with local job creation
  - Create growth for general economic recovery
  - Standup domestic sources

## Future Plans:

1. Maximize use of Title III authorities in support of Joint Acquisition Task Force, and whole-of-government COVID-19 response
2. Executive Industrial Base Council for approval of \$1B DPA Title III investment
3. Leverage Joint Acquisition Task Force – provide HHS requirements that could use DPA Title III

# Joint Acquisition Task Force Approach

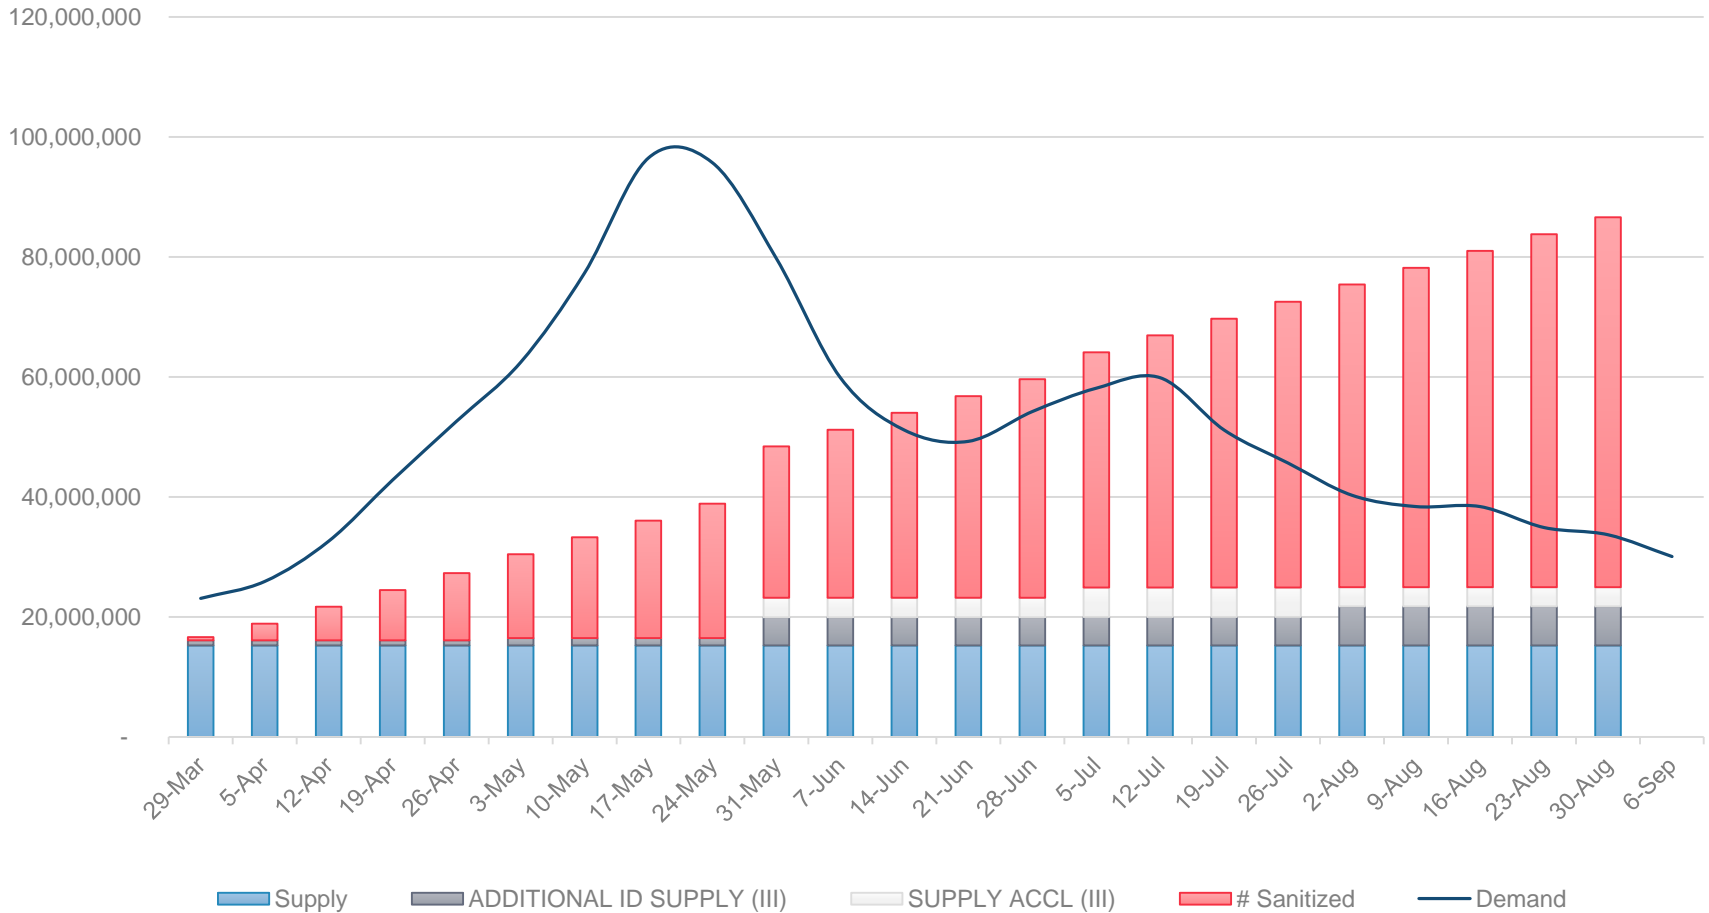

- Under the Joint Acquisition TF, the DPA TF will coordinate and execute use of DPA authorities in support of the whole-of-government COVID-19 response.
- Prior to executing DPA authorities, actions must be submitted through FEMA for WH approval.
- Initial DPA TF actions will scale productive capacity for N-95 masks in support of HHS requirements; w/ USD(A&S) approval these actions will be submitted for approval through JATF.
- As of 2 April, current DPA TF LOEs to support COVID-19 response are focused on the following essential PPE and medical equipment:

N-95 Masks	Ventilators	PAPRs	Test Kits
<p><b>Desc:</b> Elastic respirator worn by medical personnel</p> <p><b>OBJ 1:</b> Compress HHS awardees' delivery schedule</p> <p><b>OBJ 2:</b> Increase aggregate production capacity</p>	<p><b>Desc.:</b> Device that assists breathing of COVID patients</p> <p><b>OBJ 1:</b> Engage HHS vendor base</p> <p><b>OBJ 2:</b> Assess options for delivery schedule compression / acceleration</p>	<p><b>Desc:</b> Pressurized respirator worn by medical personnel</p> <p><b>OBJ 1:</b> Provide OCONUS mobility services to prevent production disruption</p>	<p><b>Desc:</b> Chemical reagents and diagnostic tools to determine COVID infection</p> <p><b>OBJ 1:</b> Engage HHS vendor base</p> <p><b>OBJ 2:</b> Assess options for delivery schedule compression / acceleration</p>

# OSJI-Covid / 2020y5096 (DoD 20-L-011) / 8527

# Supply Demand Curve

OSJI-Covid / 20cv5096 (DoD 20-L-1014) / 8528

**BACKUP**

# Initial Options to Scale N-95 Capacity with DPA Actions

- Based on vendor engagement to date, companies are proposing the following to build additional capacity and compress the depicted delivery schedule:

**O&M Halyard:** \$26-31M in gov't funding

- Build 5x new production lines at existing facility
- Deliver additional 190M masks starting in Aug. 2020
- Request on long-term stockpile offtake

**3M:** \$234M in gov't funding

- Build 3x new production lines at existing facility
- Deliver additional 468M masks/yr starting in Nov '20

**Honeywell:** \$30.4M in gov't funding

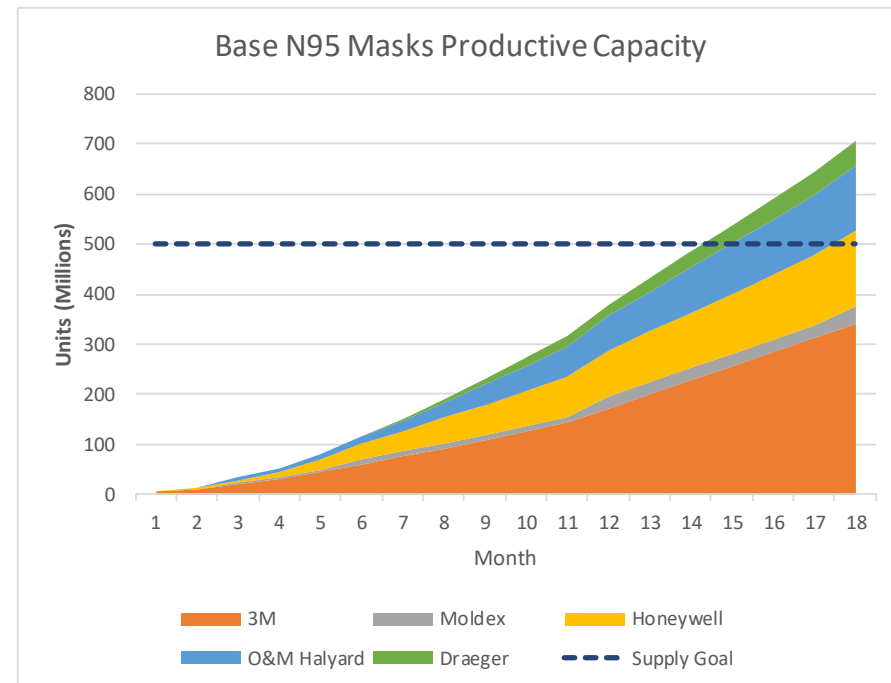

- Minor fees for expediting long-lead items (\$0.4M)
- Prove-out and installation of automated production line (+6.5M masks / mo) (\$30.0M)

**Moldex:** \$20.1M + 5yr 60M mask/yr offtake agreement

- Expand production lines at new facility
- Fill HHS order in 12 months; est. 100M mask/yr capacity

**Draeger:** Specific support ROM not yet provided

- Requesting assistance with capital equipment purchases and exporting equipment from Germany

# DoD use Prior to COVID DPA Title 3 in FY19

OSI Covid / 20cy5096 / DoD 2019 / 01833

- 14 PDs signed in FY19 addressing industrial base shortfalls in critical chemical production, rare earth elements supply chain, power storage, small unmanned areal systems, integrally bladed rotors, and the sonobuoy industrial base

Presidential Determination	Signature Date	Authorization Value
Alane Fuel Production	5 October 2018	\$50M
Circular Lithium-Sea Water Batteries Production	5 October 2018	\$50M
Energetic Materials Production for DoD Munitions	16 January 2019	\$50M
Precursors Production for DoD Munitions	16 January 2019	\$50M
Inert Materials Production for DoD Munitions	16 January 2019	\$50M
Advanced Manufacturing Techniques for DoD Munitions	16 January 2019	\$50M
Sonobuoys Production	12 March 2019	\$50M
Small Unmanned Aerial Systems	12 June 2019	\$50M
Rare Earth Permanent Magnet Production (2x PDs)	22 July 2019	\$100M
Rare Earth Separation and Processing Capability (2x PDs)	22 July 2019	\$100M
Rare Earth Metal and Alloy Processing Capability	22 July 2019	\$50M
Domestic Capacity Expansion for F135 Integrally Bladed Rotors	22 July 2019	\$50M

- Additional PDs in development to address critical industrial base shortfalls in key areas such as hypersonics and electronics

# OSJI-Covid / 20cv5096 (DoD 20-L-1014) / 8531 Defense Production Act Title III

## DPA Title III:

- Provides the President broad authorities to “create, maintain, protect, expand, or restore domestic industrial base capabilities essential for the national defense.”
- May utilize economic incentives, including purchases, purchase commitments, and other mechanisms to incent industry production.
- Pursues industry cost-sharing to accompany government investment; current portfolio directs ~\$700M of industry capital expenditure into essential domestic industrial base capabilities.

**38 Active Projects**

**\$638.9M on Contract**

**\$687.0M of Industry Cost Share**

### DPA Title III Priorities

(50 U.S.C. Chapter 55 §4531-4534)

#### Sustain Critical Production

“To create, maintain, protect, expand, or restore domestic industrial base capabilities essential for the national defense”

#### Commercialize R&D Efforts

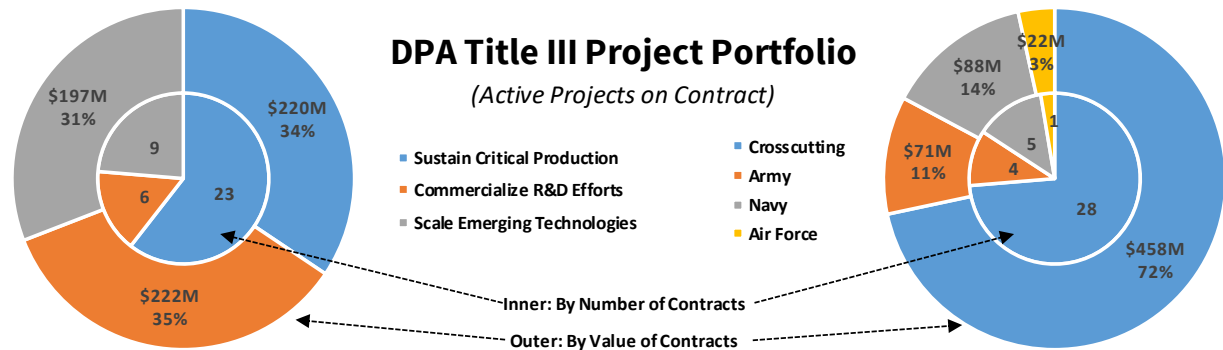

“from Government sponsored research and development to commercial applications;” and  
“from commercial research and development to National Defense.”

#### Scale Emerging Technologies

“for the increased use of emerging technologies in security program applications and the rapid transition of emerging technologies“

### DPA Title III Funding (\$M)

	FY15	FY16	FY17	FY18	FY19	FY20
Base	\$21.6	\$46.7	\$44.1	\$37.4	\$38.6	\$34.4
DoE	\$45.0	\$0.0	\$0.0	\$0.0	\$0.0	\$0.0
Adds	\$30.0	\$30.0	\$20.0	\$30.0	\$15.0	\$30.0
<b>Total</b>	<b>\$96.6</b>	<b>\$76.7</b>	<b>\$64.1</b>	<b>\$67.4</b>	<b>\$53.6</b>	<b>\$64.4</b>

**Subject:** FW: (U) 150 Ventilators at Travis AFB (UNCLASSIFIED)

CLASSIFICATION: UNCLASSIFIED

(b) (6) - reference the outstanding NATO vent donation issue. We've been relieved by HHS of any additional DoD vent requirements and had started the redeploy order process for the 200 vents on a PTDO status. However, we went into a squat hold last week when the potential for NATO donations first came up.

Trying to get a sense of whether you think DoD is going to lean into the NATO vent issue or wait to let the USAID process play out. As per the traffic below, the Army is looking to bring their vents back to home station, and so if you think we may tap into these I'll advise them to hold for a bit longer.

Thanks

Subject: 150 Ventilators at Travis AFB (UNCLASSIFIED)

CLASSIFICATION: UNCLASSIFIED

(b) (6) - have done some mission analysis with our team and propose that we move the 150 Hamilton Ventilators currently in storage at Travis AFB on "PTDO" in support of Joint Staff requirements be repositioned to Sierra Army Depot (SIAD) for accountability and inspection / maintenance.

We acknowledge that these will remain a DoD / Joint Staff asset and available to deploy on short notice until / unless released back to the Army by a GENADMIN message, so these 150 Ventilators will be fenced and held pending Joint Staff direction. We have the proper facilities and personnel at SIAD to maintain these to ensure they are in proper working condition when they are employed. SIAD has a C17 capable airfield, as well as a regular shipping operation through FEDEX, that will enable rapid deployment of these ventilators to any location, worldwide, within 24 hours of notification.

Happy to discuss further; standing by for a decision.

**Subject:** RE: Back to the Ventilators

Good afternoon all,

Ventilator clarification is in work. Since I last wrote, we have engaged DoD-HHS at an appropriately-senior level to work to resolve. HHS leadership acknowledges that DoD ventilators provided to HHS (~500 that 'went forward') are reimbursable by HHS. Additional discussions going forward are expected to involve disposition of 'unused' DoD units; i.e., whether to return them to DoD in the unused condition, or perhaps be retained by HHS (and reimbursed for) to supplement HHS stock.

We expect to receive formal communication to this effect from HHS later today, and/or, to see this language reflected in a modification to the troublesome FEMA Mission Assignment that captured 500 vents for \$1.

We appreciate FEMA wanted accounting and tracking of medical equipment for the response, but accuracy (and legal sufficiency) is paramount.

-- Break – N95 Respirators – the missing 5M. Just to level set, in the same conversation with HHS yesterday, we were able to obtain the attached memo which should memorialize our provision of the second tranche of N95 respirators.

Very Respectfully,

(b) (6)

(b) (6)  
I think your description reflects our current understanding (that this was never intended to be a loan either) but given the disconnect (even between OSD and JS) about the number asked for/promised/required, it is not surprising that we have a disconnect with FEMA/HHS.

But what exactly do we need to do to remedy the issue? Do we need a policy document? Would an overarching MA for the entire lot (all 2000) with the appropriate reimbursement details fix the issue?

Subject: Back to the Ventilators

(b) (6)

Our OSD folks at FEMA see a disconnect in the current FEMA Mission Assignment (MA) for 500 ventilators (DC-20030901-DOD-77).

The MA, which has not yet been approved by OSD, is intended to be an accounting document for the 500 ventilators that went forward to JBMDL on April 5, and on to New Jersey (per JS reporting).

– The FEMA MA only reflects \$1 in reimbursement to DoD. This matters, as DoD support is reimbursable – AND, the original request for 2,000 ventilators, which came from HHS, was for reimbursable support.

– Further, HHS expects that because FEMA crafted a Mission Assignment, HHS would be relieved of the reimbursement requirement, and FEMA, through the Disaster Relief Fund (Stafford Act), would assume the bill and pay DoD.

– However, at this time, FEMA does not intend to provide reimbursement (as it was not their request), and claims that DoD only ‘loaned’ the ventilators to HHS. \*\*I recall the three of us (and (b) (6)) have understood from the beginning that, particularly with the original HHS RFA, DoD ventilators were provided on a reimbursable basis in accordance with the Economy Act. If I am wrong, please correct me.

(b) (5)

Happy to discuss further –

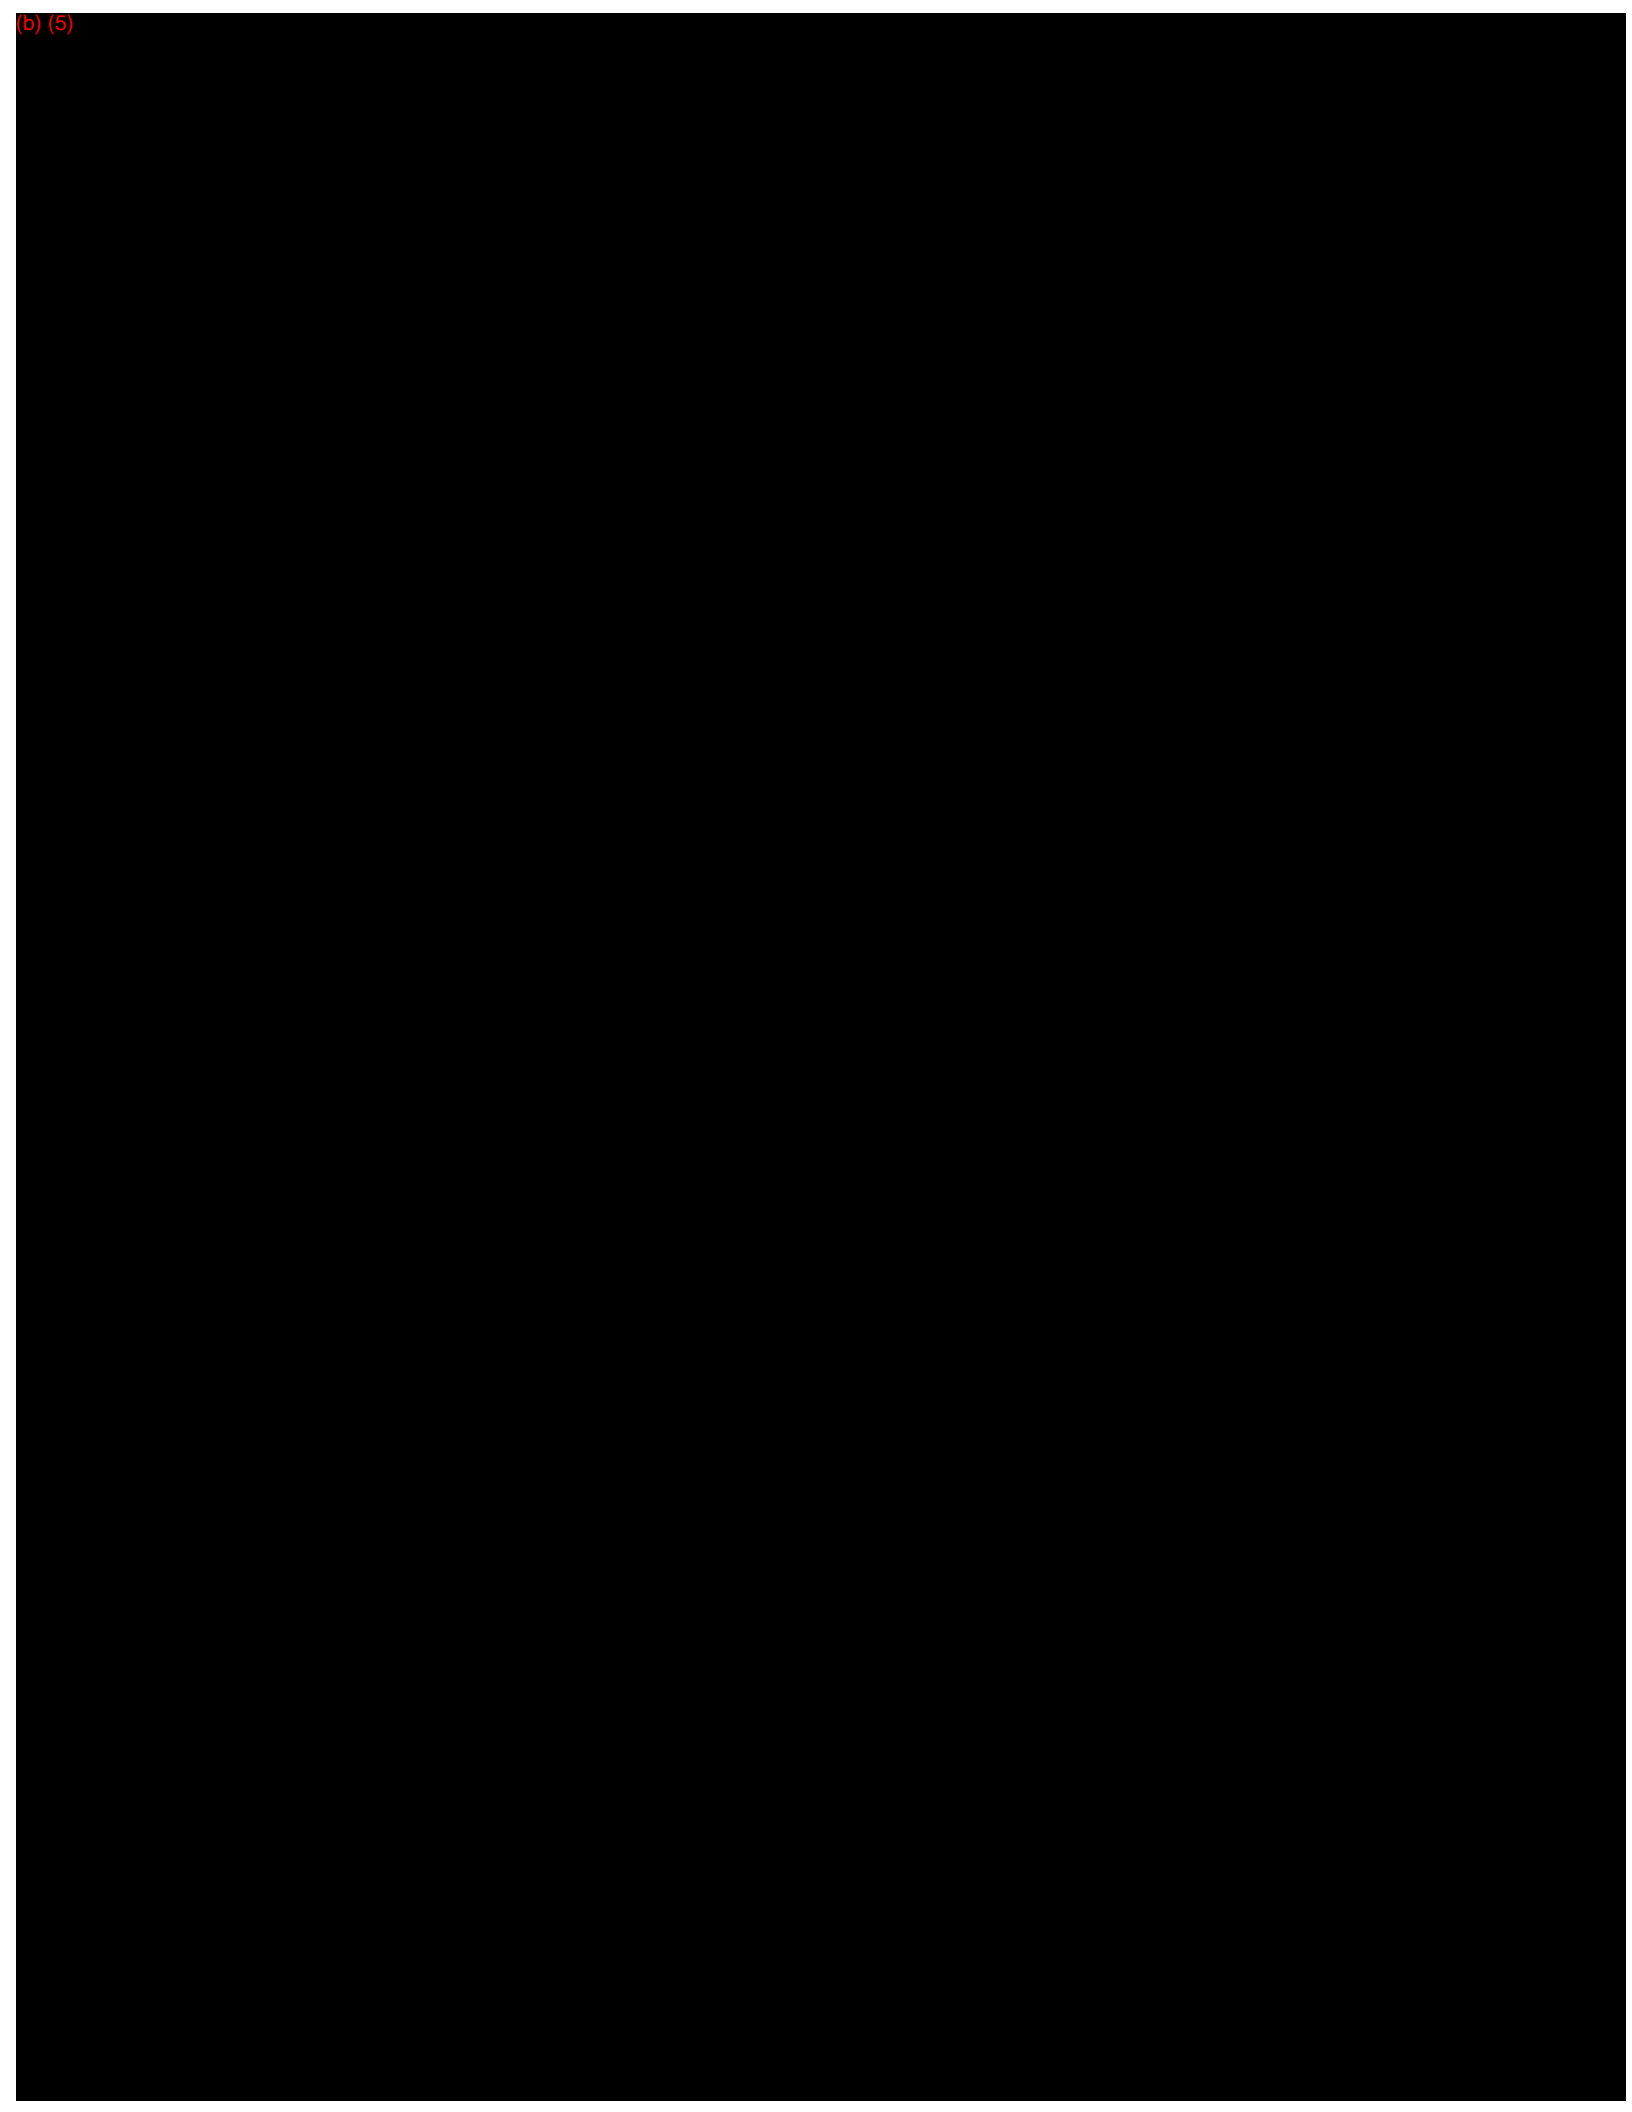

Very Respectfully,

(b) (6)

(b) (6) - can you poke around the CMT and test the waters on where they think we stand on vent support based on the attached?

Of note, the letter references a 30 Mar memo where HHS accepted only 1,000 of the 2,000 DoD vents offered. At present we have 882 vents earmarked and 200 vents in a PTDO status. If we order the stand down of those vents (1082 total), we'd still technically be 82 short of the original 1,000 that HHS accepted.

Thanks

**Subject:** Continued requirement for requisition of DoD ventilators

Sir,

Now that DoD has fulfilled their 2,000 ventilator requirement with HHS (see attached), (b) (6) (NORTHCOM J47, cc'd) would like to know is there still a need for the 200 vents staged at Travis AFB and San Antonio or

should those vents still remain in place as long as there is a PMCS and storage plan, in order to react in a timely manner if DoD is asked again to support for COVID-19 Wave 2.

Did not know if JS J4 had a plan to turn off or quickly turn-on ventilator support.

Thank you for the support

V/r

(b) (6),

We are on tap to complete the right side of this sketch. (b)(6) had a call with Lt Gen Tuck on ideas on a way ahead. We can skip the PPE portion at the bottom; however, we will need to put something in front of the boss today and we need to lean on you all to get there.

I'm waiting on an e-mail from Lt Gen Tuck to give me the elements they are concentrating on and I will forward. We will need someone from either (b) (6) team to compile the data in a spreadsheet to answer the mail.

We can talk via a Meet Me number in a few to lay out a way ahead. Appreciate you all's help.

Sir,

OSJI-Covid / 20cv5096 (DoD 20-L-1014) / 8554

Received this sketch today on how we might display this information for the SD on Thursday and potentially in a daily COVID Testing Rollup. We're working on the slides, if we have data that we can help fill in it would be great! Copying our Advana team on how we might automate this process.

V/r,

Lee

Team – Please see below; I spoke with DJ4 briefly this morning ref tasks.

LOGSTAT: Current activity ... don't see this as anything new.

Prepositioned PPE and Ventilators for Potential Second Wave: **Reconstitution** is probably the more appropriate word ... will include appropriate/updated stockpile and inventory levels. Anticipate a kick-off meeting on Monday ... followed by work within the medical community to determine updated levels.

MTF after I speak with Brig Gen Whitney today --

**Subject:** COVID-19 DoD CVTF Full Meeting and SD Update - Due Outs (April 23)

**Deputy Secretary, Vice Chairman, and Distinguished Task Force Colleagues,**

Good evening. Thank you for the productive meetings this afternoon. The following were identified as due-outs from the COVID-19 DoD TF Meeting and SecDef Update:

**Force Health Protection/Medical Preparedness**

**Task – Prepositioned PPE and Ventilators for Potential Second Wave –** Develop a plan and timeline to preposition PPE and ventilators for a potential Second Wave later this year. **OPR –JS J4, A&S, P&R Suspense: May 14**

**Task – Elective Surgery –** Provide a policy memo on when to resume elective surgeries at DoD medical treatment facilities. **OPR – P&R Suspense: April 28**

**Task – Testing R&D –** Provide update on DoD serologic research and use of antigen testing and antibody testing to enable DoD operations. **OPR – P&R Suspense: April 24**

**Task – Vaccine Research Update –** Provide an update on COVID-19 vaccine candidates, an estimated timeline for vaccine support, and DoD integration with national efforts for vaccine development. Develop a list of actions that can be taken and resources required to accelerate vaccine development within the Department. **OPR – P&R Suspense: Update to DSD on April 24. Update to SD week of April 27.**

**Task – USS Theodore Roosevelt Response –** Review protocols implemented to assess crew readiness, identify challenges to testing and mitigation protocols, and identify lessons learned for the TR response. **OPR – Navy Suspense: April 24**

**Task – Adjustments of HPCON status –** Develop guidance to the force for adjustments to HPCON status for installations both CONUS and OCONUS. Guidance will consider local conditions to assist commanders in making risk-based decisions. **OPR – P&R Suspense: May 04**

**Personnel Policy & Mitigation**

**Task – Plan for QA/QC of household moves –** Provide an update on the plan to ensure quality control of moving company personnel that complies with CDC guidelines and provides military members' support throughout a household move process. **OPR – USTRANSCOM, Services Suspense: Update to SD on April 28**

**International Support**

**Task – USG process for international support –** Provide an update on State Department plan to provide USG assistance to international partners. Provide an update on the memo from DSD to Deputy Secretary of State and the Administrator of USAID requesting assistance with nomination of a lead federal agency for COVID-19 international support. **OPR – Policy(SOLIC) Suspense: April 28**

**Task –Exports to international partners –** Provide an update on progress with A&S on DoD position, recommendation, and process for providing exports of COVID-19 response related equipment and supplies to foreign partners. **OPR – Policy(SOLIC) Suspense: April 28**

**Installations and Logistics**

**Task – LOGSTAT Report –** Develop LOGSTAT report on critical supplies for COVID response. Provide to SD weekly. **OPR –JS J4, Services, A&S Suspense: April 28**

**Pentagon Reservation**

**Task – Pentagon Reopening Plan** – Provide an update on progress of plan to reopen Pentagon reservation. Plan should consider reopening plans of MD, VA, and DC. **OPR – CMO Suspense: Plan to SD and DSD FO by April 24**

**Funding**

**Task –Supplemental Request** – Comptroller will work with Services and Components to develop funding requirements to meet SD priorities. Work with OMB and be prepared to submit funding requirements by the 1<sup>st</sup> of May **OPR – Comptroller Suspense: May 01**

**Lessons Learned**

**Task – Collect Lessons Learned** – All DoD components will continue to collect lessons learned and be prepared to provide them to DoD's Lessons Learned Task Force. **OPR - JS J7, Policy (HD&GS) Suspense: Continuous**

Please let me know if you have any questions or need assistance.

Best, Bob

All,

We will use the attached, updated COP during our session this morning. 2 tabs were added to outline our objectives for today and capture POC and source information. The data in this file has been updated with 4&5 April DLA data and contains the most recent data submissions I have received.

**Definitions**

FM2 COP

FM2 SCH

<b>On-Hand</b>	Values represent the count of issuable items on-hand for each Service and Agency. Quantities are expressed in eaches with units of issue multiplied by inventory counts. (i.e. a kit with 6 tests counts as 6 items on-hand)
<b>Days of Supply</b>	Values represent the count of orders received by each Service and Agency. Quantities are expressed in eaches with units of issue multiplied by inventory counts. (i.e. a kit with 6 tests counts as 6 items ordered)
<b>Rqmts Ordered (Daily)</b>	Values represent the count of orders received by each Service and Agency. Quantities are expressed in eaches with units of issue multiplied by inventory counts. (i.e. a kit with 6 tests counts as 6 items ordered)
<b>Rqmts Ordered (Total)</b>	Values represent the count of orders received by each Service and Agency. Quantities are expressed in eaches with units of issue multiplied by inventory counts. (i.e. a kit with 6 tests counts as 6 items ordered)
<b>Rqmts Shipped (Daily)</b>	Values represent the count of items shipped by vendors. Quantities are expressed in eaches with units of issue multiplied by inventory counts. (i.e. a kit with 6 tests counts as 6 items ordered)
<b>Rqmts Shipped (Total)</b>	Values represent the count of items shipped by vendors. Quantities are expressed in eaches with units of issue multiplied by inventory counts. (i.e. a kit with 6 tests counts as 6 items ordered)
<b>Backorders</b>	Values represent the count of items not yet shipped by vendors or from on-hand stocks for each Service and Agency. Quantities are expressed in eaches with units of issue multiplied by inventory counts. (i.e. a kit with 6 tests counts as 6 items ordered)
<b>% Filled</b>	
<b>Estimated Delivery Range</b>	Shows the earliest and latest planned delivery dates for each item. There can be multiple deliveries for varying quantities within this range of dates.
<b>Rqmts Projections (Weekly)</b>	Provides 10%, 20% and 30% increases from current quantities demanded from 1-Feb-20 to the current as of date. Intended as an estimated range of total cumulative demands.
<b>Rqmts Projections (Monthly)</b>	Provides 10%, 20% and 30% increases from current quantities demanded from 1-Feb-20 to the current as of date. Intended as an estimated range of total cumulative demands.
<b>Rqmts Projections (Quarterly)</b>	Provides 10%, 20% and 30% increases from current quantities demanded from 1-Feb-20 to the current as of date. Intended as an estimated range of total cumulative demands.

<b>On-Hand</b>	Values represent the count of issuable items on-hand for each Service and Agency. Quantities are expressed in eaches with units of issue multiplied by inventory counts. (i.e. a kit with 6 tests counts as 6 items on-hand)
<b>Orders Received (Daily)</b>	Values represent the count of orders received by each Service and Agency. Quantities are expressed in eaches with units of issue multiplied by inventory counts. (i.e. a kit with 6 tests counts as 6 items ordered)
<b>Orders Received (Total)</b>	Values represent the count of orders received by each Service and Agency. Quantities are expressed in eaches with units of issue multiplied by inventory counts. (i.e. a kit with 6 tests counts as 6 items ordered)
<b>Contracted</b>	Values represent the count of items contracted. Quantities are expressed in eaches with units of issue multiplied by inventory counts. (i.e. a kit with 6 tests counts as 6 items ordered)
<b>Obligated Value</b>	Represents the dollar value of total items contracted by each Service and Agency and is calculated by multiplying the average unit cost by the total items contracted.
<b>Vendor Shipped</b>	Values represent the count of items shipped by vendors. Quantities are expressed in eaches with units of issue multiplied by inventory counts. (i.e. a kit with 6 tests counts as 6 items ordered)
<b>Stocked Shipped</b>	Values represent the count of on-hand items shipped from each Service and Agency. Quantities are expressed in eaches with units of issue multiplied by inventory counts. (i.e. a kit with 6 tests counts as 6 items ordered)
<b>Total Provided</b>	Values represent the sum total of items shipped from vendors and on-hand stocks for each Service and Agency. Quantities are expressed in eaches with units of issue multiplied by inventory counts. (i.e. a kit with 6 tests counts as 6 items ordered)
<b>Backorders</b>	Values represent the count of items not yet shipped by vendors or from on-hand stocks for each Service and Agency. Quantities are expressed in eaches with units of issue multiplied by inventory counts. (i.e. a kit with 6 tests counts as 6 items ordered)
<b>Estimated Delivery Range</b>	Shows the earliest and latest planned delivery dates for each item. There can be multiple deliveries for varying quantities within this range of dates.

(b) (6)

Here's today's FM2C with the changes discussed. I thought (b) (6) did not want Test Kits on the LOGSTAT last week so I never built it into the OH Entry tab or LOGSTAT. All links are updated. The Army data I got this morning doesn't make much sense – no War Reserve reported and Component reporting for the CCMDs looks like it includes DHA requirements.

Please add whatever data you have for the DM2C and LOGSTAT on the OH Entry tab and send back so we can have a complete consolidated version in the morning.

R/ (b) (6)

Definitions

DM2C

FM2C

OH Entry

<p><b>On-Hand</b> (DM2C, FM2C &amp; OH Entry)</p>	<p>Value represents the count of issuable items on-hand as reported weekly by each Agency/Svc. Values include both Operational and Svc/Agency-owned and managed reserve stocks. Reserve totals will include preposition, War Reserve and other contingency stocks. Examples include APS-4, USAMS-E, MPS, USN depot stocks, and other stocks. Quantities are expressed in eaches with units of issue multiplied by inventory counts. (i.e. a kit with 6 tests counts as 6 items on-hand)</p>
<p><b>Service Operational</b> (DM2C &amp; OH Entry)</p>	<p>Value reflects total quantities for all Service-owned operational stocks. i.e. Input reflect Role II and above. Services include functional and geographic service component command totals in Service totals and provide breakout by GCC service component. Does not include Defense Health Agency/Defense Health Program funded MTFs)</p>
<p><b>Service Reserve</b> (DM2C &amp; OH Entry)</p>	<p>Value reflects total quantities for all Service-owned and managed war reserve materiel (WRM) stocks. i.e. APS.</p>
<p><b>On-Hand Last Week</b> (DM2C &amp; OH Entry)</p>	<p>Value represents On-Hand reported the previous week by each Agency/Svc. Quantities are expressed in eaches. <b>Reporting Period:</b> Wednesday-Tuesday with inputs due 1200 each Wednesday</p>
<p><b>On-Hand Change</b> (DM2C)</p>	<p>Value represents the difference between the current reported On-Hand and On-Hand Last Week. Values are the net result of receipts, usage and issues that occurred over the last 7-days. Quantities are expressed in eaches. <b>Reporting Period:</b> Wednesday-Tuesday</p>
<p><b>DOS (Days of Supply)</b> (DM2C, FM2C &amp; OH Entry)</p>	<p>Value represents the days of supply on-hand for operational stock based on the reported 30-Day Total Requirement Projections (Medical and Non-Medical). Days of Supply is calculated by dividing On-Hand value by the 30-Day requirement divided by 30. Value is expressed in days. <b>Calculation:</b> On-Hand/(30-Day Total Requirement/30 days)</p>
<p><b>Medical Projections (30-Day)</b> (DM2C &amp; OH Entry)</p>	<p>Value represents the projected operational medical requirement for 30 days. Operational medical is defined as PPE used by operational forces for the provision of patient care. (i.e. patients with suspected or confirmed COVID-19 infection, individuals involved in healthcare delivery/patient care, first responder emergency services and law enforcement personnel providing pre-hospital care, individuals conducting mortuary affairs (other than autopsies), or transporting suspected of confirmed COVID-19/contaminated remains, individuals supporting screen, quarantine, and isolate operations, medical research, testing and laboratory operations) 30-Day projections calculated by: (Source: DHP Pandemic Influenza and Infectious Disease (PIID) Program) EyePro (Provider PPE): 1 per Health Care Provider (HCP) (issued once, can be used multiple times) Gowns (Provider PPE): 1 per HCP per day Gloves (Provider PPE): Population at Risk (PAR) x 35% attack rate x 50% patients seeking care rate x 20% margin of safety x 2 (pair of gloves) / 2.8 (translate 84 - Day to a 30 - Day rate) (PAR= Active Duty plus beneficiaries) i.e. PAR 10,000 x .35 x .50 x 1.2 x 2 / 2.8 = 1,500 gloves N95 Respirators (Provider PPE): 8 per HCP per day for 30 days x 20% margin of safety Surgical Masks (Patient PPE): 1 per patient/PUI per day. Note: Agency/Svc will determine published planning factors for the additional 11 PPE items on the FM2C</p>
<p><b>Medical Projections (60-Day)</b></p>	<p>Value represents the projected operational medical requirement of each item for 60 days. <b>Calculation:</b> The 60-day requirement is calculated by multiplying the 30 day requirement by 2.</p>

(DM2C & OH Entry)		
<p><b>Non-Medical Projections (30-Day)</b> (DM2C &amp; OH Entry)</p>	<p>Value represents the projected operational non-medical requirement of each item for 30 days. Operational non-medical is defined as PPE used by operational forces for purposes other than the provision of patient care. (i.e. non-medical unit training operations, hazardous materiel handling in the Defense Industrial Base (paint, explosive handling) Food service operations, base support operations (entry control, cleaning and sanitation services, crime labs and forensics, retail sales and MWR activities)</p> <p>30-Day projections calculated by taking 5% of assigned forces and applying the following planning factors:                      EyePro (includes glasses, googles, face shields): 1 per service member. (Issued once, can be used multiple times)                      Gowns (Provider PPE): 0 per service member per day                      Gloves: 3 pair exam gloves per service member per day. (Can substitute Service issued gloves)                      N95 Respirators (Provider PPE): 0 per service members per day. (Exception. Only non-medical personnel performing COVID-19 support missions. i.e. patient transport, screening could require 2 per service member per month)                      Surgical Masks: 1 per service member per week. (Can substitute cloth mask)                      Note: Agency/Svc will determine published planning factors for the additional 11 PPE items on the FM2C</p>	
<p><b>Non-Medical Projections (60-Day)</b> (DM2C &amp; OH Entry)</p>	<p>Value represents the projected operational non-medical requirement of each item for 60 days.  <b>Calculation:</b> The 60-day requirement is calculated by multiplying the 30 day requirement by 2.</p>	
<p><b>Total Projections (30-Day &amp; 60-Day)</b> (DM2C)</p>	<p>Value represents sum of medical and non-medical projected operational requirement of each item for 30-Days and 60-Days.  <b>Calculations:</b> 30-Day Medical + 30-Day Non-Medical = 30-Day Total Requirement, 60-Day Medical + 60-Day Non-Medical = 60-Day Total Requirement</p>	
<p><b>Requirements Ordered (Total)</b> (DM2C &amp; FM2C)</p>	<p>Value represents the count of total items ordered from 1 Feb 2020 to the As of Date for the report. Rqmts Ordered (Total) is pulled daily from DLA's Enterprise Data Warehouse. Quantities are expressed in eaches.</p>	
<p><b>Requirements Shipped (Total)</b> (DM2C &amp; FM2C)</p>	<p>Value represents the count of total items shipped from 1 Feb 2020 to the As of Date for the report. Rqmts Shipped (Total) is pulled daily from DLA's Enterprise Data Warehouse. Quantities are expressed in eaches.</p>	
<p><b>Backorders</b> (DM2C &amp; FM2C)</p>	<p>Value represents the count of items not yet shipped. Backorders is calculated by subtracting Rqmts Shipped (Total) from Rqmts Ordered (Total) Quantities are expressed in eaches with units of issue multiplied by inventory counts.  <b>Calculation:</b> Total Ordered - Total Shipped</p>	
<p><b>% Fill</b> (DM2C)</p>	<p>Value represents the percentage of total quantities of items shipped out of the total quantities of items ordered.  <b>Calculation:</b> Total Shipped/Total Ordered</p>	
<p><b>Delivery Range (Min &amp; Max)</b> (DM2C &amp; FM2C)</p>	<p>Shows the earliest and latest planned delivery dates for each item. There can be multiple deliveries for varying quantities within the range of dates.</p>	
<p><b>DLA Warstopper</b> (DM2C, FM2C &amp; OH Entry)</p>	<p>Values reflect On-Hand, Ordered by customers and Shipped to customers for DLA Government Purchased Material (GPM) held and issued by Prime Vendors and part of the DLA Warstopper Program.</p>	

OH Entry)	
DHA MTF-Oper (DM2C, FM2C & OH Entry)	Value reflects totals for DHA-owned Military Treatment Facilities (MTFs).
DHA Pandemic (DM2C, FM2C & OH Entry)	Value reflects totals for DHA-owned and managed contingency stocks.
Weekly Usage (FM2C)	Value represents the estimated count of items consumed during the previous week. For FM2C reporting a week begins on Wednesday and ends on Tuesday. Weekly Usage is calculated by dividing the 30-Day Total Requirement by 30 and multiplying by 7. <b>Calculation:</b> (30-Day Total Requirement/30) x 7
Requirements Ordered (Daily) (FM2C)	Value represents the count of items ordered on the As of Date for the report. Rqmts Ordered (Daily) is calculated by subtracting the previous day reported Rqmts Ordered (Total) from the current day. Negative quantities can occur and represent cancelled orders. Quantities are expressed in eaches. <b>Calculation:</b> Current Day Total Ordered - Previous Day Total Ordered
Requirements Shipped (Daily) (FM2C)	Value represents the count of items shipped on the As of Date for the report. Rqmts Shipped (Daily) is calculated by subtracting the previous day reported Rqmts Shipped (Total) from the current day. Negative quantities can occur and represent cancelled orders. Quantities are expressed in eaches. <b>Calculation:</b> Current Day Total Shipped - Previous Day Total Shipped
Total Requirement Projections (% Med) (FM2C)	Value represents the percentage of Total 30-Day and 60-Day Requirements Projections for Medical use. <b>Calculations:</b> Total 30-Day Requirement/Medical 30-Day Requirement and Total 60-Day Requirement/Medical 60-Day Requirement
DLA Stock/Due-In (FM2C)	Values reflect On-Hand in DLA Depot Stocks available for issue, DLA Ordered quantities to replenish Depot Stocks and Vendor Shipped quantities to DLA. Once received from vendors, this stock will show as DLA Depot stock on-hand available for issue.
Total (FM2C)	Values on this row reflect the On-Hand, Ordered, Shipped and Backordered quantities for Agency/Svc reporting to include DLA stock replenishment orders and Warstopper On-Hand quantities as well as any reported non-DLA orders.
DLA (FM2C)	Values on this row reflect the DLA Depot Stock and Warstopper Program On-Hand quantities and the total of DLA customer orders that are detailed in the table for Agency/Svc. It does not include DLA stock replenishment orders.
Calc DOS (OH Entry)	Value represents the calculated days of supply on-hand and is based on the reported 30-Day Total Requirement Projections (Medical and Non-Medical). Days of Supply is calculated by dividing On-Hand value by the 30-Day requirement divided by 30. Value is expressed in days and can be overwritten by Agency/Svcs during weekly OH Entry submissions. <b>Calculation:</b> On-Hand/(30-Day Total Requirement/30 days)
Calc Weekly Usage	Value represents the calculated count of items consumed during a week. Weekly Usage for DHA MTF & Service Operational is calculated by dividing the 30-Day Total Requirement by 30 and multiplying by 7. Weekly Usage for DHA Pandemic and Service Reserve is calculated by Subtracting Current week On-Hand from Previous week On-hand

OSJI-Covid / 20cv5096 (DoD 20-L-1014) / 8599

<b>(OH Entry)</b>	<b>On Hand</b> <b>Calculations:</b> MTF-Oper (30-Day Total Requirement/30) x 7, Pandemic/Reserve Current On-Hand - Previous On-Hand	
<b>Received (7-Day) (OH Entry)</b>	Value reflects the total item quantities received from DLA over the previous week and is provided to inform reported Weekly Usage and Requirement Projections	
<b>Received (Total) (OH Entry)</b>	Value reflects the total item quantities received from DLA since 1-Feb-20 and is provided to inform reported Weekly Usage and Requirement Projections

PPE Items

DM2C

FM2C

OH Entry

 <p>COVID-19 Test Kits</p>	<p>Kits includes testing material to identify COVID-19 infections. There are 5 primary PVON/NIINs identified for kits and they include 1-30 tests each depending on the kit ordered. Quantities are expressed in eaches.</p>
 <p>Exam Gloves</p>	<p>Includes 185 PVON/NIINs for Exam and Surgeon gloves approved equivalents. Quantities are reported in eaches and are regardless of size. Sizes range from Small to 2XL.</p>
 <p>Eye Protection</p>	<p>Includes 3 PVON/NIINs for Safety Goggles. DM2C reporting combines Eye Protection PPE with Face Shields. Quantities are expressed in eaches.</p>
 <p>Gowns</p>	<p>Includes 44 PVON/NIINs for all types of Exam, Surgical and Isolation Gowns in a variety of sizes from Small to 2XL. Quantities are expressed in eaches.</p>
 <p>N-95 Respirators</p>	<p>Includes 70 PVON/NIINs for CDC approved N-95 Respirators and equivalents. Quantities are expressed in eaches.</p>
 <p>Surgical Masks</p>	<p>Includes 76 PVON/NIINs for CDC approved Surgical Masks and equivalents. Quantities are expressed in eaches.</p>
 <p>Non-Medical Masks</p>	<p>Currently includes 52 NIINs for Non-Medical and Cloth Masks. Quantities are expressed in eaches.</p>
 <p>Ventillators</p>	<p>Includes 12 PVON/NIINs for medically approved Ventilators and equivalents. Quantities are expressed in eaches.</p>
 <p>Specimen Collection Swabs</p>	<p>Includes 12 PVON/NIINs for approved Specimen Collection and Nasopharyngeal Swabs or equivalents. Quantities are expressed in eaches.</p>
 <p>THERMO-SCAN</p>	<p>Includes 9 PVON/NIINs for approved Infrared and No Touch Thermometers or equivalents. Quantities are expressed in eaches.</p>
 <p>Viral Transport</p>	<p>Includes 44 PVON/NIINs for all types of approved Viral Transport Swab Kits. Swab quantities vary in kits and</p>

OSJI-Covid / 20cv5096 (DoD 20-L-1014) / 8601

 <p>Transport Kits</p>	<p>quantities are expressed in eaches.</p>
 <p>Transport Medium</p>	<p>Includes 6 PVON/NIINs for all types of approved Transport Medium without Swabs. Includes cases only. Quantities are expressed in eaches.</p>
 <p>Apron, Scrubs &amp; Hoods</p>	<p>Includes 43 PVON/NIINs for all types of Surgeon Caps, Scrubs (Pants &amp; Shirts), Hoods and Coveralls in a variety of sizes from Small to 2XL. Quantities are expressed in eaches.</p>
 <p>Face Shields</p>	<p>Includes 15 PVON/NIINs for Face Shields. DM2C reporting combines Face Shield PPE with Eye Protection. Quantities are expressed in eaches.</p>
 <p>Hand Sanitizer</p>	<p>Includes 46 PVON/NIINs for all types of Hand Sanitizers in a variety of sizes from 8-320 ounces. Quantities are expressed in eaches.</p>
 <p>Human Remains (HR) Pouches</p>	<p>Includes one NIIN for Human Remains Pouches. Quantities are expressed in eaches.</p>
 <p>Shoe Covers</p>	<p>Includes 6 PVON/NIINs for all types of approved Shoe Covers. Quantities are expressed in eaches.</p>
 <p>Eye Protection &amp; Face Shields</p>	<p>Includes 18 PVON/NIINs for combined reported of Face Shield and Eye Protection PPE on the DM2C. Quantities are expressed in eaches.</p>

**Sent:** Wednesday, August 19, 2020 4:02 PM  
**To:** (b) (6)  
**Cc:** JS Pentagon J4 List J-4 JLOC Battle Captain NMCC MBX  
**Subject:** Draft GENADMIN with comments received incorporated.  
**Attachments:** GENADMIN\_COVID-19 Testing Instrument RFI and enduring reporting requirement--V2020.8.19.docx; CVTF-D&T LAB COP (05AUG20) v8.xlsx

(b) (6)

I'm requesting your review of the attached draft GENADMIN that we would like to get published tomorrow. This has been staffed across the Services and CCMDs with no critical comments. Non-critical comments that came back from O6 staffing have been included. Following your review I'll route for J4 release-approval and then send the approved GENADMIN doc to the JLOC for cord with J-33 to publish. Thanks for the assistance.

Cc'ing the JLOC for SA. Final version tomorrow will have a slightly different format to the spreadsheet.

Very Respectfully,

(b) (6)
